SENATE—*Wednesday, February 27, 2002*

The Senate met at 9:30 a.m., and was called to order by the Honorable JOHN EDWARDS, a Senator from the State of North Carolina.

PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

Loving Father, You know us as we really are. You see beneath the polished surface of our projected adequacy. You know our true needs. The great need, at the core of all of our needs, is to truly experience Your presence. We need You, Dear God. You delight in us when we desire You above all else. More than anything You can give us or do for us, we long to live in vital communication with You. In this moment of honest prayer, we turn over to You the longings of our hearts: everything from our most personal anxieties to our relationships and our responsibilities. How wonderful it is to know that You have motivated us to pray because You have solutions and resolutions for our most complex problems.

Bless the Senators today with an ongoing conversation with You. Thank you that You are ready to give the guidance, wisdom, and vision that will be required in each hour. Reside in their minds to provide guidance, and replenish their assurance that what You have called them to be and do, can and will make a difference. This is the day that You have made; we will rejoice and be glad in You. Amen.

PLEDGE OF ALLEGIANCE

The Honorable JOHN EDWARDS led the Pledge of Allegiance as follows:

> I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, February 27, 2002.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable JOHN EDWARDS, a Senator from the State of North Carolina, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. EDWARDS thereupon assumed the chair as Acting President pro tempore.

SCHEDULE

Mr. REID. Mr. President, as was indicated last night, the Senate is going to resume consideration immediately of the election reform bill. There will be a 10 a.m. vote on the Schumer-Wyden amendment, and there will be additional roll call votes expected throughout the day. The majority leader has asked me to announce he has every intention of completing this bill today. The two managers have worked hard on it. We ask those who have amendments outstanding to cooperate with the managers and offer those amendments.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

EQUAL PROTECTION OF VOTING RIGHTS ACT OF 2001

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will now resume consideration of S. 565, which the clerk will report.

The legislative clerk read as follows:

A bill (S. 565) to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes.

Pending:

Clinton amendment No. 2906, to establish a residual ballot performance benchmark.

Dodd (for Schumer) Modified amendment No. 2914, to permit the use of a signature or personal mark for the purpose of verifying the identity of voters who register by mail.

Dodd (for Kennedy) amendment No. 2916, to clarify the application of the safe harbor provisions.

Hatch amendment No. 2935, to establish the Advisory Committee on Electronic Voting and the Electoral Process, and to instruct the Attorney General to study the adequacy of existing electoral fraud statutes and penalties.

Hatch amendment No. 2936, to make the provisions of the Voting Rights Act of 1965 permanent.

Schumer/Wyden amendment No. 2937, to permit the use of a signature or personal mark for the purpose of verifying the identity of voters who register by mail.

Smith of New Hampshire amendment No. 2933, to prohibit the broadcast of certain false and untimely information on Federal elections.

AMENDMENT NO. 2937

The ACTING PRESIDENT pro tempore. Under the previous order, the time until 10 a.m. shall be equally divided in the usual form for debate relevant to amendment No. 2937.

Mr. DODD. Mr. President, I understand that is 30 minutes equally divided?

The ACTING PRESIDENT pro tempore. The time until 10 a.m.

Mr. DODD. I ask unanimous consent that the vote occur at 10:05 a.m. so as to provide for 30 minutes.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. DODD. I ask unanimous consent that the time of the proponents of the amendment be equally divided between Senator SCHUMER and Senator WYDEN.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Who yields time? If neither side yields time, time will be charged against both sides.

The Senator from New York.

Mr. SCHUMER. Mr. President, I yield myself 2 minutes.

This is a very important amendment. We have done a great deal in this bill to make it easier for people to vote and at the same time prevent voter fraud.

I very much thank our colleague from Missouri for leading the charge on voting fraud. There are lots of provisions in this bill that we have worked on that deal with that. However, in our efforts to prevent voter fraud, we cannot go so far that we actually create barriers to the polls for eligible voters. That would be the antithesis of what this bill is about.

The intent of this legislation is to take people, particularly those who live in the corners of America who do not fly airplanes and use their credit cards all the time but rather people who may not have a driver's license, who may not have a utility bill, and allow them to vote, our most sacred right. This amendment does that. It does it in a way that does not increase fraud at all. It does it in a way that rises to the real purpose of this bill. It is a crucial amendment.

If one believes in extending the right to vote and believes we have to allow people who need that right because that is all they have—perhaps their vote is equal to ours but they may need it even more than ours—then he or she

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

should vote for the Schumer-Wyden amendment. I will have a little more to say later.

The ACTING PRESIDENT pro tempore. Who yields time?

Mr. McCONNELL. Mr. President, how much time remains on this side?

The ACTING PRESIDENT pro tempore. Fourteen minutes.

Mr. McCONNELL. I yield 5 minutes to the Senator from Missouri.

Mr. BOND. Mr. President, I am glad we can begin this debate because there is much to be said, but let me go to the heart of the matter. This amendment simply guts the compromise, the key antifraud provision that was carefully negotiated over 6 months as a part of the bipartisan compromise. We asked for some protection against the widespread practice of loading up voter rolls with phony names and then voting those names. It is something that every voter can comply with. It has been negotiated to make sure it did not have any unfavorable impact on people we are trying to get to the polls.

After 6 months of negotiations, I feel like we are playing rope-a-dope. The Senator from Oregon gets up and says, why, this is a photo ID requirement. Everybody knows a photo ID requirement is discriminatory.

Then the Senator from New York gets up and says these antifraud provisions really do not prevent fraud absolutely either way.

I said we devised a compromise that recognized the concerns that their side had about making sure we did not impose any unreasonable restrictions on voters who might not have a driver's license, for example. That is why we said voters can use a bank statement, a government check, utility bill, anything that has your name and address on it, the first time you register.

No, it is not as strong as I would like, but that was part of the compromise. No, it does not limit the identification that must be shown to a driver's license photo ID—which my colleagues on the other side and some of the groups that were supporting this compromise and are now against it are saying would be unfair. So we compromised. And now the people who worked on the compromise say the compromise is not a good one.

I have seen that game before. But the people of America are tired of having their votes diluted because someone in a drop house registers 8, 10 people. Yes, we have had dogs registered. We have had dead aldermen registered, mothers of dead aldermen registered, and dead neighbors registered. Under the current Federal motor-voter registration law it is very difficult to stop the mail-in registration fraud.

We talked yesterday about 3,000 ballots being dropped off before the mayoral primary in St. Louis in 2001. Because of the attention we have brought to this problem, they were reviewed. It was found that most of those 3,000 were in the same handwriting and were for new registrants on one or two city blocks. St. Louis did not have time to check thoroughly before the November 2000 election. There was a registration of 200,000 people, with 30,000 post card registrations that were dropped off in the final days, a more than 15 percent increase. Nobody checked these, but initial suggestions are at least 15,000, half of them, were phony.

One can conjure up all kinds of scenarios where maybe one person will not have the kind of ID needed to vote under the provisions in the underlying bill. We allow provisional voting; 39 States already provide it. We will take care of those people. One thing we have seen for sure—not just in Missouri, but across the country—is fraudulent votes, by nonexistent people. They are diluting the votes of legitimate voters.

I yield the floor and I reserve the remainder of my time.

Mr. WYDEN. Mr. President, there is a reason the American Association of Retired Persons so strongly supports this amendment. They and the sponsors feel strongly that the photo ID provision in effect is making it tougher for those who saved our democracy in World War II to participate in our democracy today.

Nursing home residents in this country are not asking to be taken to a copy center. The Senate should not be telling them they should have to go to the copy center before they can vote by mail, which is clearly one of the most popular ways to participate in our democracy today.

I am particularly troubled that the tough provisions to deter fraud do not even kick in until 2004. I would like to work with colleagues to address those issues. It seems to me various approaches that encourage voting are not kicking in for quite some time.

Last night, the Senate voted wisely to call this the Martin Luther King Voting Rights bill. If we put in place a photo ID for first time voters, we step back, in my view, to the days when only the enfranchised had the opportunity to vote. That would be a mistake. I urge strongly this amendment be supported.

I retain the remainder of my time.

The ACTING PRESIDENT pro tempore. The Senator from Kentucky.

Mr. McCONNELL. Mr. President, one of the pitiful results of motor voter registration systems in America is that we have countless dogs registered to vote. That is why Senator BOND's provision makes so much sense. There are countless examples of dead people voting, dogs voting, and people voting multiple times. Nearly all these instances of voter fraud have one thing in common: They were perpetrated through lax mail-in registration requirements.

Many of our colleagues were obviously not around last night when we debated this amendment. Let me take a moment to show a copy of a photograph that appeared in the Washington Post last summer, which I discussed last night. This is Mable Briscoe, 82, and Holly Briscoe, her terrier, both long-time registered voters in America. Both Mable and Holly have been registered to vote for quite some time in Maryland. This is a photo of the long-time registered voters—as I said, Mable and her terrier, Holly. According to the article accompanying this photograph, Mable says she registered her dog to prove a point about the lax registration process that opens the door to fraud. Mable's crime was finally detected when her dog, Holly, was called for jury duty. Holly got called for jury duty and then the game was up. Perhaps Mable Briscoe said it best when she said: I just think the system is broke and needs some fixing. Anybody can register. I can register a dog.

The system is broken. It invites fraud. Senator BOND's modest antifraud measure will do a great deal to help make voter fraud more difficult. As he said, he wanted to go further. This underlying provision that the Schumer amendment seeks to strike is quite modest. The amendment of the Senator from New York amounts to a fraud loophole. It actually undoes what Senator BOND and all five of the original cosponsors worked so hard to achieve, the underlying compromise. If this amendment is agreed to, it is completely stripped out.

This amendment needs to be tabled if we are serious about this legislation. We will have that vote shortly.

How much time remains?

The ACTING PRESIDENT pro tempore. Seven minutes.

Mr. McCONNELL. I retain the balance.

The ACTING PRESIDENT pro tempore. The Senator from Oregon has 5 minutes.

Mr. WYDEN. I yield 3 minutes to our distinguished colleague from Washington.

Ms. CANTWELL. Mr. President, I am pleased to be a cosponsor of the Schumer-Wyden amendment because I believe it is a critical issue that we must solve before we can pass this bill. Millions of people in my State, and I think across America, will be done a great disservice by making voting harder. If we do not pass this amendment, the bill as currently written forces States to rely on a photo identification as a means of making sure that first-time voters are who they say they are. While I believe we need to be vigilant about preventing fraud in our elections, the provision as currently written goes too far in mandating a particular response and has the real potential to result in fewer legitimate voters having their votes counted.

This bill requires voters who registered by mail to show a photo identification or utility bill when they go to the polls for the first time. This will create a disincentive for seniors, disabled, and those who have a tough time getting that information.

In our State, 64 percent of the voters in the most recent election voted by absentee ballot or mail-in ballot. Requiring a photo identification or utility bill to be enclosed with their ballots is an incredible burden in order to prove they are who they say they are. In fact, in those cases where those copies were not provided, their votes would not be counted.

It is very important we look at the underlying system. The underlying system, based on signature verification, makes sure that people who are attesting under the penalty of perjury are who they say they are and that they are properly registered to vote in that jurisdiction. When the ballot is received, the signature is carefully checked against the registration rolls to make sure they are a match. Only then is the ballot counted.

Unlike the signature, the election official receiving the photocopy has nothing to compare it against, and it is of no use in verifying the authenticity of the vote.

Although the photocopy has little use to officials, if it is not included, as I said, it disqualifies the ballot. That is correct—if the voter fails to include a photocopy that is of no use to the election official, the vote will still not be counted even though the signature on the ballot matches the signature in the registration rolls. This is simply unacceptable.

This amendment fixes this problem by allowing states the option of relying on other methods to make certain that votes are valid, including signature verification which is currently used in my state and other states.

While I am very concerned about passing this amendment to fix the problems that photo ID requirements create for voters who vote by mail, I am also concerned that the requirements will lead to serious problems for voters who go to the polls. The Secretary of State and other election officials in my State are concerned that the requirements place a huge burden on volunteer poll workers in the polling place, and a Federal court has already ruled that this type of photo ID requirement may present a disparate impact on minorities seeking to have their votes counted. The right to vote is the most important right that we have as citizens, and it is important that we do everything that we can to make certain States can strike the proper balance between facilitating voting and preventing fraud. This amendment helps to do that.

I strongly urge my colleagues to support this amendment and I believe that passage of this amendment is essential to making certain that our electoral system is improved by this legislation.

I yield the remainder of my time.

The PRESIDING OFFICER. Who yields time.

Mr. McCONNELL. How much time remains, Mr. President?

The PRESIDING OFFICER. Seven minutes.

Mr. McCONNELL. I yield 3 minutes to the Senator from Missouri.

Mr. BOND. Mr. President, we have just heard some inaccurate statements about the underlying amendment. Nobody says you have to go to a copy center. Any antifraud provisions do not hold off in this bill until 2004. They are effective upon the signing of the bill. The provisional voting provision in this bill that says it will not take effect until 2004 was not something I wrote. I will be happy to take an amendment to say it is effective right away as well, because 39 States have provisional voting and we need to clean it up so it works for all 50 States.

It is important to note that, believe it or not, the current system offers few protections to States that want to maintain clean rolls. The Senator from Oregon said we need to make sure registrations are accurate at the beginning. Believe it or not, motor voter actually prohibits States from requiring verification of the cards. Registration by mail makes it much easier to put fake names on voter lists and then voting by mail makes it very easy to vote these names illegally.

The opponents of my anti-fraud provision claim the bill will disenfranchise millions. At the same time, several States, including West Virginia, Virginia, Tennessee, Michigan, Illinois, Nevada, and Louisiana, have tougher standards—tougher than in this bill. I would like to see them as tough as these States'. No one has come forward and shown that these States actually deprive voters of the right to vote on any level, much less on the level claimed here.

Furthermore, the way the amendment is drafted, the steps taken by these States to protect themselves from fraud will be undercut. We will be here, making it easier to cheat. This amendment makes it easier to cheat, not just easier to vote.

There are those who said recently that this will create an administrative problem. Nonsense. The States I just named already keep track of first-time voters. The State of Michigan has offered to provide its software to do this for free to any State that has a problem. If free is not cheap enough, we provide funds in this bill to buy the systems you want, to track the voters. This will not threaten mail-in States. It will actually make it better for them.

As I pointed out last night, when we hear about Oregon, the great State that has no problem with mail-in registration and balloting, Portland State Professor Melody Rose studied the Oregon system and determined that 5 percent of voters had someone else mark their ballot, 2.5 percent had someone else sign their ballot, 4 percent had someone else either sign or mark their ballot. In States with 1.6 million cast, close to 200,000 of them could have have had some sort of irregularity.

Carter-Ford noted that signature verification does not work. This is the National Commission on Federal Election Reform, page 31:

> Signature verification puts an extra burden upon administrators, especially on often ill-trained poll workers practicing a very subjective, often impossible task.

The PRESIDING OFFICER. The Senator has used 3 minutes.

Mr. BOND. I rest my case. Signature verification does not work. I urge people to support the motion I will offer.

Mr. McCONNELL. At the beginning of the debate we worked with the Senators from Oregon and Washington to fix a provision their State election officials thought threatened their system of voting. That has already been accomplished. Obviously this provision threatens only one thing the way it is now, fraud. It could mean increased work for those who administer elections, but that is a very small price to pay for fair and honest elections. Make no mistake about it, this amendment is the poison pill of election reform.

The bill is a carefully crafted compromise agreed to by all 5 cosponsors, including the Senator from New York. There has been a lot of misinformation about this anti-fraud provision. It applies only to a small number of voters who register by mail and vote for the first time. As Senator BOND made clear, this is the prime area of voter fraud.

When we negotiated this compromise in December, none of us thought that it was too much to ask that voters be real, live people.

Senator BOND had a bill that would have required first-time mail registrants to vote in person and show a photo ID. He agreed to compromise on that requirement, to reach the agreement we have before us today. Mail registrants who vote for the first time now have many options to identify themselves. Photo ID is only one of them. A current utility bill, bank statement, government check, paycheck or any other government document would serve the purpose. This very broad universe of identification was advanced and advocated by Senator SCHUMER and was even suggested by advocacy groups who now claim it must be changed.

The same groups who originally suggested it now want to change it. The very language of this amendment was also suggested by the advocacy groups, notably in a November 6 document sent to "interested parties." We spent well over a month discussing and debating the very language of this amendment.

We agreed on the language in our compromise bill instead.

The bill language does not require every voter to show identification, be they rich, poor, disabled, young, or elderly. Let me tell you what the amendment of the Senator from New York would do.

First, not only does it not improve the current system, it could actually make it worse in many States. It creates new and improved opportunities for fraud in States with more restrictive requirements. Second, this could become the most expensive mandate in this bill. Not only will States have to buy new machines and databases under this bill, but the 34 States that do not have signature verification will have to buy technology to verify signature and marks.

Third and most important, all of the 1.4 million poll workers nationwide will have to become handwriting and personal mark experts. What a great idea. All of the 1.4 million poll workers nationwide will have to become handwriting and personal mark experts. The shortage of poll workers is already a major problem, as reported by GAO. Now they will have to be handwriting experts.

Finally, the poison pill amendment has already been discussed, debated, and dismissed by the cosponsors of this bill. I urge the other 95 Members of this body to support our joint resolution on the issue and vote against this amendment or vote to table it. Senator BOND will make the tabling motion when all time has been yielded back.

The PRESIDING OFFICER. The time of the opposition has expired. Who yields time?

Mr. SCHUMER. Mr. President, I yield 2 minutes to the Chair of the committee, Senator DODD.

Mr. DODD. Mr. President, let me thank Members here who have argued both in favor and in opposition to this amendment. It has been a very worthwhile debate. Unfortunately, as my colleague from Kentucky pointed out, we didn't have enough Members around last night to hear the full debate, but it was very worthwhile. I repeat what I said a week or so ago. This is one of those issues that has come down and is a clear, almost equal division, I think, in the Chamber about what ought to be done about this particular issue.

I had hoped we would find some compromise to it. That is what you do in the legislative process. We did this on 35 amendments that have come along here. I didn't like voting against DICK DURBIN's amendment. I happen to agree with it. I did not like having to accept amendments from my friend from New Hampshire, Senator GREGG, and other amendments that we worked on to make this process reach the point it has today.

I am still hopeful. I don't know how this vote will come out. But my plea would be, to those on either side of this question, to see if we can't find some common ground. That is not going to happen, obviously, in the next 5 minutes. So this vote will go forward. Then my hope is that we can find some resolution here that will satisfy the concerns that are raised—legitimately, in my view—by the proponents of the amendment and the concerns raised by my friend from Missouri who has raised from the very beginning his concerns about this.

My desire has been to try to find some common ground and compromise on this proposal. That has not happened yet, but I am prepared to try to work that out when the time arrives.

With that, I thank the Members for their time in debate. We still have a few minutes left for the proponents of the amendment to make some closing arguments, and then we will get to the vote.

Mr. MURKOWSKI. Mr. President, I rise to explain my vote in favor of tabling the Senator Schumer/Wyden amendment to S. 565, election reform legislation pending before the Senate.

For U.S. citizens, voting is a fundamental right guaranteed by the U.S. Constitution. In no way am I attempting to deny that right by not supporting the Schumer/Wyden amendment. In fact, I believe that strong anti-fraud language strengthens the right to vote, and the integrity of the election system in our Nation.

The Schumer/Wyden amendment would dissolve the carefully crafted bipartisan framework in this legislation—designed to ensure proper voter identification methods exist to protect the validity of national elections. This framework allows for a person to use a current and valid photo identification to validate their registration and vote. Those individuals who lack these forms of identification could also present a current utility bill, bank statement, paycheck, government check, or other government document that shows the name and address of the voter.

The Schumer/Wyden amendment would have gutted these protections by allowing individuals to simply use a signature or a personal mark.

It is important to note that if an individual fails to meet the required identification methods on election day they can still cast a ballot. Provisional balloting protects an individuals' constitutional right to cast a ballot in an election. The validity of provision ballots is determined later, thus ensuring that no eligible voter is turned away.

My fellow colleague from Missouri, Senator BOND, recently spoke on the floor of the Senate about some of the most egregious examples of voter fraud in his home State. Senator BOND explained how the drop house and other scams have been used in St. Louis to register dead neighbors, deceased aldermen, ghosts, and dogs. Drop house scams occur when one person submits multiple mail-in registration forms using one address. Then, as election day approaches, that one person requests absentee ballots for each of his phantom voters, and then votes them all.

There are a number of other examples of voter fraud as well: Over 30,000 illegitimate voters were added to voter registrations in the 2000 presidential election in St. Louis, MO. Over 5,000 illegal ballots were cast in the 2000 presidential election in Florida by individuals who were not U.S. citizens and not permitted to vote. One individual in Missouri actually voted 47 times—and was not even prosecuted!

In fact, voter fraud can be easily traced back over 150 years before the 2000 presidential election. In 1844, New York City had 41,000 people in their voter pool. However, on election day, 55,000 people cast ballots!

Clearly, voter fraud is not a new issue in elections. Congress passed the National Voter Registration Act of 1993 ("Motor Voter") allowing States to require that individuals vote in person if they registered by mail and have never before voted in that jurisdiction.

The anti-fraud provisions of this legislation strengthen the provisions from 1993. Under S. 565, any person who registers by mail must, either when registering or voting in a Federal election, provide some form of identification that connects the name on the registration form to a real, live, qualified citizen of voting age. The requirement is not onerous.

In the 2000 presidential election our country contained wide-spread voter fraud and abuses by individuals who were clearly casting illegitimate ballots. This legislation works to prevent such fraud and restore confidence in the election process. I will continue to work toward strengthening voter rights, but not the ability of individuals to cheat or manipulate the system.

Mr. BINGAMAN. Mr. President, I rise today to urge my colleagues to support the Schumer-Wyden amendment to the election reform bill.

This important amendment would fix what I believe is a very problematic provision in the bill. That provision requires first-time voters who registered by mail to provide either a photo identification or a current utility bill, bank statement, government check, or other government document establishing their identity.

I commend the sponsors of the bill for their focus on ensuring strong anti-fraud protection; but I believe this provision goes too far and could end up disenfranchising significant numbers of voters. In particular, the elderly, students, low-income voters, minorities, and the disabled are examples of people who could have a difficult time meeting the requirements of the Election Reform bill, as written.

In addition, the bill would impose a significant burden on many States, including my own, that currently allow the use of signature verification and attestation to verify identity. If the bill is not amended, my State would have to do away with that procedure altogether.

For these reasons, I am proud to be a cosponsor of the Schumer-Wyden amendment, and I urge my colleagues to vote for it.

This important amendment would add two alternative verifiers for first time voters who vote in person: (1) it would allow voters to attest to who they are by signing a sworn statement, falsification of which is punishable as perjury; or (2) it would allow voters to have their signatures verified by matching them to signatures on record with State or local election officials. First time voters who vote by mail also would be given an alternative to a photo ID or other government document—they would be allowed to use signature matching to establish their identity.

I believe this is a sensible and necessary measure. And I'm pleased to report that it enjoys the support of the Nation's leading civil rights organizations, including: MALDEF, the NAACP, the National Council of La Raza, LULAC, AARP, the Leadership Conference on Civil Rights, and the League of Women Voters.

The intent of the Election Reform bill is to ensure that every vote counts, but if we do not act now by passing the Schumer-Wyden amendment, I fear that many tens of thousands of voters will once again face significant barriers to voting the next time they go to the polls.

I urge my colleagues to do the right thing today, vote yes on the Schumer-Wyden amendment.

Ms. LANDRIEU. Mr. President, I want to take a few minutes to express my strong support for the amendment offered by Senators SCHUMER and WYDEN.

History has shown that requiring photo identification or certain other documents most significantly impacts minority voters. It will be difficult for some citizens to meet such requirements. For instance, a rural voter may have difficulty even finding a copy machine to make a copy of his or her driver's license. Individuals living below the poverty level may not have drivers licenses or utility bills. Students who live at home with their parents also may not have a utility bill with their name on it.

Ironically, the current language in the bill puts an added burden on some of the very people that we should be working to make it easier to vote. This is contrary to the purpose behind this legislation. We are not trying to lower voter participation with this Election Reform bill; we are trying to raise it, and make the voting process better for the American people. The photo ID requirement would without a doubt have a chilling effect on voter participation. And while the provisional voting system would address this problem to some extent, it will not be in place in time for the 2002 elections. The language in this amendment is a much fairer way of dealing with this problem, and that is why I want to express my full support for the efforts of Senators SCHUMER and WYDEN.

I want to take one more minute just to go over briefly a couple of initiatives that I proposed for this bill; amendments that I will no longer be offering, but I want to mention nonetheless. My first amendment would establish election day as a Federal holiday. Currently, this bill contains provisions for the new Election Administration Commission to study the possibility of designating Election Day as a Federal holiday. And just yesterday Senator HOLLINGS added language to the bill calling for a 6-month turnaround on this study.

I commend Senator HOLLINGS for his amendment, as well as Senators DODD and MCCONNELL for specifying the EAC study in the original bill. I look forward to seeing the results of the study later this year, and I hope Congress will act quickly on the recommendations of the report.

The second measure I proposed would change the Federal match in this bill to be fair to all States regardless of economic circumstances. This is an issue in which I have had a long-standing interest. While Congress often passes bills that provide a Federal match for States in various programs, it is rare that any effort is made to level the playing field for States that have fewer resources. States like Louisiana, with high poverty a generally lower standard of living, receive the same matching rate as other States.

My concern is that in this bill, as well as others, the matching rates for these States are the same. Despite the huge difference in resources in these States, the Federal matching rate remains the same. To me, this is unfair and counterproductive.

In closing, let me state again that I fully support the efforts of Senators DODD and MCCONNELL, as well as my other colleagues who have worked so hard on this bill, to bring about election reform. In fact, because this bill is so important I have decided not to offer this amendment today on this legislation, but will continue to press this important issue in the future.

The PRESIDING OFFICER. Who yields time?

Mr. SCHUMER. Mr. President, how much time is remaining?

The PRESIDING OFFICER. There are 6 minutes.

Mr. SCHUMER. How is that divided?

The PRESIDING OFFICER. Four for the Senator from New York, two for the Senator from Oregon.

Mr. WYDEN. Mr. President, in Oregon, the penalty for registering dogs that have become so famous, the monetary penalty is something like ten times the amount in this bill. When fraud happens with the vote-by-mail system, it is caught and it is stopped. Our penalties prove it. Any way you slice it, making it harder to vote isn't the way to deter fraud.

I come back in closing to why the American Association of Retired Persons and senior citizens groups feel so strongly about this amendment. They like voting by mail. It is convenient for them. They and millions of Americans are saying make it easier to vote. Congress should do everything possible to make it easier to vote rather than to make it harder. I don't think this body this morning should make it tough for those who saved our democracy in World War II to participate in our democracy in the days ahead.

I urge my colleagues to strongly support the amendment, and I yield the floor.

The PRESIDING OFFICER (Mr. BINGAMAN). The Senator from New York.

Mr. SCHUMER. Mr. President, as we come to the conclusion of this debate, I ask why so many groups—the AARP, the AFL–CIO, American Association of People With Disabilities, the Mexican-American Legal Defense Fund, the NAACP, La Raza, the National Hispanic Leadership Council, as well as the secretaries of State of so many States—are not opposed to this provision if it is as terrible as the opponents say. I will tell you why—because they know what this bill is all about.

Let us go over the history of this bill for a minute.

There was a national outcry after what occurred in Florida. We realized that millions of people are deprived of their right to vote because of the way we vote. I say to my friend from Kentucky that the outcry after Florida was not because dogs were voting. That argument to use the fact that one fraudulent person might have registered a dog, or maybe five of them, could deprive millions of people of their right to vote is sophistic, at best. I don't like it. It is not fair.

What are we talking about? What happened in Florida and what moved us to debate this issue is that thousands of people in every city in this country who had the right to vote couldn't.

What the Schumer-Wyden amendment does is very simple. It says we are allowing you to vote. We are not going to make you do things that in your world are next to impossible. If you think of every voter as any middle class person with a lot of credit cards in his pocket and a couple of cars in the garage and several cell phones, sure, there is no problem. But think of the new immigrant who waited five years and has just became a voter, who doesn't have a car, who is just learning English, and who is afraid of the government where that immigrant came from. You say, You have to do this, this, this, and this. When you show up at the polling place, you may not be allowed to vote. Yes. It is the first-time voters.

I say to my colleagues: I have seen the look on the faces of first-time voters who waited in line with their eyes bright with the first chance to exercise their franchise and then were turned away. And they never come back again.

We do plenty in this bill about fraud, but the key in this bill is balance because every time you make it easier for people to vote, you may make it a little easier for a nasty person to commit fraud; if you want to eliminate fraud totally, eliminate the right to vote.

That is not the argument. The argument is do we take people who are elderly, who are new immigrants, who are poor, who are members of minority groups, and say, Yes, we welcome you into the American family, we welcome you into the franchise of voting.

If you go through the process that 40 States have used, we are not going to create signature experts. We have them. Every bank teller is a signature expert. In my State, we have used signatures for years with no signs of fraud.

We are saying to them, We welcome you into the American family. We are not going to put 17 laws in the way before you vote. Your right to vote is a right. It is not an obstacle course, which is what this amendment creates.

I urge my colleagues to support the Schumer-Wyden amendment.

The PRESIDING OFFICER. The Senator from Oregon has 1 minute remaining before the conclusion of the debate.

Mr. McCONNELL. Mr. President, we are out of time on this side. Is that correct?

The PRESIDING OFFICER. The Senator is correct.

Mr. WYDEN. Does the Senator from Kentucky desire time?

Mr. McCONNELL. No. We will make a motion to table when the time is used up.

Mr. WYDEN. Mr. President, I yield the remainder of my time.

The PRESIDING OFFICER. All time is yielded.

The Senator from Missouri.

Mr. BOND. Mr. President, this amendment undoes a carefully crafted compromise and opens wide the door to fraud. Therefore, I move to table the amendment and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The question is on agreeing to the motion. The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. REID. Mr. President, on this vote I have a pair with the Senator from Nevada, Mr. ENSIGN. If he were present and voting, he would vote "aye." If I were permitted to vote, I would vote "nay." I therefore withdraw my vote.

Mr. NICKLES. I announce that the Senator from Utah (Mr. HATCH) and the Senator from Nevada (Mr. ENSIGN) are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 46, nays 51, as follows:

[Rollcall Vote No. 38 Leg.]

PRESENT AND GIVING A LIVE PAIR, AS PREVIOUSLY RECORDED—1

Reid, nay

NOT VOTING—2

Ensign
Hatch

The motion was rejected.

The PRESIDING OFFICER. The Senator from Kentucky.

Mr. McCONNELL. Mr. President, the amendment is still pending before the Senate. We would like to continue discussing that matter. I know the Senator from Missouri is going to talk on the subject. I yield the floor.

The PRESIDING OFFICER. The Senator from Missouri is recognized.

Mr. DODD. Mr. President, before my colleague speaks—and I will be 30 seconds on this—I had hoped, and I say this to my two friends on the other side with whom I have worked very closely to put this bill together, I had hoped we could find compromise language on this last provision. That is still my hope. We have worked very hard. We have considered around 35 amendments. Both sides have added to the bill with accepted amendments. We have modified some; some have been withdrawn.

We are very close to final consideration of this bill. We still have to go to conference—the White House, obviously, will get involved—with the House-passed bill. We will not have completed this process when we vote this bill out of the Senate.

My hope is we can find some way to work on this amendment while we are considering other amendments—the energy bill is waiting to be considered—rather than have this now splintered off. Too much effort has been made to get us to this point.

It is my fervent plea to my friends on the minority side to try and work on some resolution of this issue. That is what we ought to be doing as legislators. That is my plea to my colleague from Missouri and my colleague from Kentucky.

The PRESIDING OFFICER. The Senator from Kentucky.

Mr. McCONNELL. Mr. President, the vote was not a good sign. It was almost totally a partisan vote on a bill we had been advancing on a bipartisan basis. We had long and difficult negotiations across party lines to achieve the core agreement that was represented by the bill that was brought up by the majority leader.

The vote that was just taken, should that amendment ultimately be successful, strips out one of the core principles of the bill.

So I am not terribly optimistic, I must say, about the future of this bill. Maybe something can be worked out, but this was certainly a dramatic step in the wrong direction.

I know the Senator from Missouri seeks recognition. I yield the floor.

The PRESIDING OFFICER. The Senator from Missouri is recognized.

AMENDMENT NO. 2940 TO AMENDMENT NO. 2937

Mr. BOND. Mr. President, I send to the desk a second degree amendment to the Schumer amendment and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Missouri [Mr. BOND] proposes an amendment numbered 2940 to amendment No. 2937.

Mr. BOND. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Is there objection?

Mr. DODD. Mr. President, I would like to see a copy of the amendment.

The PRESIDING OFFICER. Is there objection to the unanimous consent request?

Mr. DODD. Reserving the right to object, if I can see a copy of the amendment so I can know what we are talking about. Maybe my colleague would like to explain what we are doing.

The PRESIDING OFFICER. The clerk will continue to read the amendment.

The assistant legislative clerk continued with the reading of the amendment, as follows:

At the end, add the following:

SEC. . SIGNATURE VERIFICATION PROGRAMS.

Notwithstanding any other provision of this Act, a State may use a signature verification or affirmation program to meet the requirements of section 103(b) relating to the verification of the identity of individuals who register to vote by mail only if the Attorney General certifies that less than one-half of 1 percent of votes cast in the 2 most recent elections for Federal office were cast by voters who were not eligible to vote under the law of such State.

The PRESIDING OFFICER. The Senator from Missouri.

Mr. BOND. Mr. President, as I think the Senator from Kentucky indicated, we were very disappointed that after working 6 months to establish a very modified, watered-down provision to help prevent fraud, the other side chose, without objection, on a party line vote, to refuse to table a motion to strike an amendment that really guts the compromise.

When we began this debate, I said I thought every American understood the importance of the vote. There are two aspects to that which are involved in this bill. One is making it easier to vote for those who may have had difficulty in the past. We worked on those items and many of them went further than I and some of my colleagues would like.

Coming from Missouri where we have seen significant vote fraud, which we believe may have affected close elections in our State, I said we needed to change some of the provisions of the motor voter law which permits mail-in registration and prevents the States from verifying the bone fides of the registrant.

As a part of the compromise we reached over 6 months, we said, one does not have to show up with a photo ID with their address on it the first time they vote after they have registered by mail; we will let them bring in or send in either a photo ID or any of a number of documents which would tend to show that they are a real person, such as a utility bill, a government check, a paycheck, bank statements.

That would be supplanted under this amendment, if unamended, to say you can sign your name. We have seen the wholesale fraud that signing one's name can bring in Missouri: Drop houses, 3,000 almost assuredly phony registrations before a mayoral primary in 2001 in St. Louis; 30,000 last-minute mail-in registrations prior to the November 2000 general election in St. Louis. The guess is at least 15,000 of them were phony. That was followed by an effort by the Gore-Lieberman team in St. Louis and Kansas City to continue fraudulent voting by getting courts to keep open the ballot boxes in both cities on the theory—and I have to say the laughable theory—that the Democratically-controlled election boards in St. Louis City and Kansas City were conspiring to keep the Democratic voters in Kansas City and St. Louis from casting their votes in a general election for the Democratic candidates. Now that does not compute.

So we are saying, number one, we stopped the effort to keep the polls open in the Missouri Court of Appeals, pointing out that it is just as much a denial of civil rights to have one's vote deluded by an illegal vote as it is to be denied the opportunity to cast a vote yourself.

This amendment I proposed is the starting point to continue and reopen the negotiations. As I said, it is important that we balance this bill, make it easier to vote but make it tougher to cheat. This is one minor suggestion I am offering to avoid wholesale fraud through signature verification and affirmation. Frankly, I think we have seen enough to know that signature verification and affirmation does not work.

I ask my colleagues from New York if they know how many of the New York City voters, 14,000 of them who are registered in South Florida, voted only in one place in the 2000 election? I think that is something we need to find out.

There are real problems with the amendment that is now pending. I urge my colleagues to consider my second degree amendment favorably. We will look forward to continuing negotiations but, frankly, unless and until this is resolved this bill is a significant step in the wrong direction.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. WYDEN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WYDEN. Mr. President, this is the first time we have seen this proposal, but certainly on its face it raises a number of very troubling issues. To start with, it seems it goes after the wrong end. Our view has been if the question of vote fraud is really going to be tackled, we have to go after the registration kind of process. That is what we have sought to do.

Once again, this goes to the process of signature verification, which is basically trying to deal with the problem after it is all out of the barn and off to the races.

I think what really troubles me is that this would make a presumption that in scores of States, the State and local officials are not doing their jobs. They are essentially bad guys. They would have to go through a very cumbersome, almost incomprehensible process, to try to prove they are good guys.

In our State, it has empowered thousands and thousands of people, without instances of fraud. We are running a system that has not been a sieve of fraud and abuse. To say they are now going to create a presumption that people who are running effective, efficient vote-by-mail systems are essentially bad guys and they should have to go through a process from Washington, DC, to prove they are good guys does not make a whole lot of sense to me. Hopefully, there will be further discussion how this will work, how you would even go about determining who these so-called abusers are in the two most recent elections.

I have great reservations about what I have seen at this point. First, it seems to go at the wrong end of the process. We ought to be trying to address voter fraud questions at the registration level rather than essentially so late in the process. Second, I am very troubled by the presumption that seems to underlie this amendment that all these State and local people are bad guys, they are doing an inefficient job, they are not up to the task of challenging fraud, so what we ought to do is create a presumption, in effect, that they are the problem and that somehow they ought to have this convoluted process to convince the Federal Government they are not.

I yield the floor.

Mr. DODD. Mr. President, I inquire of my colleague from Kentucky, I don't know if we can resolve the amendment at this moment, but there are other matters we might consider on the bill. I don't know if there is the appetite to temporarily lay these aside to consider the other matters, knowing nothing gets resolved until this issue gets resolved. I Know there are colloquies, including Senator THOMAS, and Senator SMITH had an amendment we can try and work on.

Mr. McCONNELL. I think we need to resolve the current pending matter. It goes to the heart of the bill. I know even if I didn't object to laying aside the amendment to go on to other matters, others would object. We need to stay on the amendment, the second-degree amendment and continue to discuss how we might unravel the knot which we find ourselves.

There would be an objection to laying the amendment aside and going on to other matters.

Mr. DODD. Mr. President, the authors, the direct opponents of the amendment are not here. I will make the case again, as I tried a week or so ago. I see where we are headed with this. We need to try and find a compromise. Obviously, people feel strongly about this. The debate went on for some time. When Members feel strongly, no matter how you try and resolve it, sometimes you have to go through the vote process to have some clarity. Then a compromise can emerge. That is how this works from time to time. We have all been in that situation at one time or another.

Certainly, that is where we find ourselves in this case. I have great respect for how Senator BOND feels. We all bring a very strong local experience to this national debate. He had a very strong, in his view, local experience which provoked his interest in the matter. I respect that.

I respect very much the point of view of others that feel there are ways, particularly with statewide voter registration efforts, that we can take major steps to reduce the dangers of fraud or the realities of fraud. The establishment of our Election Commission in this bill will allow on a continuing basis examining the election structures of the country, rather than waiting for a crisis to occur, so we can continue to address matters like this and others we have not considered in this bill.

I had hoped that might occur. I think it will. We can find a way to get together. There are only 6 or 7 other amendments that I know of to consider on the bill. There could be more out there. We were down to either amendments that could be accepted or modified to some degree and become acceptable. I am still hopeful that can be the case.

I know where some of the Members are now on this issue. Perhaps we will go into a quorum call for a while and see if we can find some language that could satisfy both sides.

Mr. McCONNELL. Mr. President, we are happy to have discussions. I assume there will be on this issue, sooner or later. Our view is sooner rather than later, which is why we are going to stay on this subject.

Therefore, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. SPECTER. Mr. President, I ask unanimous consent the order for the quorum call be dispensed with.

The PRESIDING OFFICER (Mr. BAYH). Without objection, it is so ordered.

Mr. SPECTER. Mr. President, I have sought recognition to speak in opposition to the underlying amendment offered by the Senator from New York, Senator SCHUMER, which would permit people to vote by mail with only an authentication of a signature. The amendment modifies the underlying bill, which would require that there be either a photo identification or a government check which would establish that the individual is, in fact, in existence, not a false person; or a paycheck, again establishing the person is in existence; or a utility bill or a bank statement or some other governmental document.

There is no doubt that it is in the interests of democracy to have as many people register to vote as possible so that people can express themselves in the electoral process. That is very fundamental. It is also fundamental that we ought to do whatever is reasonably possible to avoid vote fraud. This is an issue which I faced to a very substantial extent when I was District Attorney of Philadelphia. Philadelphia is a rough, tough, political town.

When I was DA in the 1960s and 1970s it was a rougher, tougher political town. I had the responsibility to enforce the election laws. In that capacity, on a bipartisan, nonpartisan basis, I prosecuted both Republicans and Democrats alike for vote fraud, and there was a lot of it in the city of Philadelphia. We could only detect a relatively small amount of it, but that was a real problem in our city elections.

When motor voter came up, I supported it, to try to broaden the availability of registration for the broadest number of people. However, there have been very substantial problems with people purporting to vote when those people are not in existence.

When I was DA of Philadelphia, we had a great many people purporting to vote where there was no such person. It is a difficult matter to police and to enforce. The underlying bill has a minimal check, to see to it that there is, in fact, a person who is registered to vote. If you have somebody who has a government check, that is a solid indication. It is not absolute proof that the person is in existence, but they wouldn't be getting a government check or paycheck or utility bill or bank statement. The photo ID, of course, is the best, but the underlying bill does not require that. It is a modest stand in seeing to it that somebody actually is in existence.

If we are to continue motor voter and to have the broad sweep of availability for people to register so you do not have to go down specifically to the registration spot—which is the customary way, in many, many jurisdictions—if we are to have these procedures which make it very, very easy for people to register, and they are to be maintained and continue in existence, then we are going to have to take steps to stop fraud.

It seems to me the provisions of the underlying bill are minimal. So, if you have an amendment which the Senator from New York has offered, that says all you have to have is a signature, anybody can sign a purported signature. Anybody can sign a name. Then, if securing the right to vote simply requires putting that writing down again, it may be the signature of someone other than the person which it purports to represent. So, I believe the underlying Schumer amendment is unwise. That is why I voted to table it.

Now we have a second-degree amendment, offered by the Senator from Missouri, which would seek to limit the applicability of the underlying Schumer amendment. I think that would at least take some steps to safeguard against voter fraud.

Mr. BOND. Mr. President, does the Senator from Pennsylvania yield for a question?

Mr. SPECTER. I yield, Mr. President. I am reluctant to do so, knowing the cross-examination expertise of the Senator from Missouri, but I will take my chances.

Mr. BOND. Mr. President, I am not here to cross-examine. I am just here to ask some experience from a Senator who is distinguished by his career as a prosecutor previously. Many people have said that if anybody votes fraudulently, they will be prosecuted.

I have looked long, far, and wide to see any consistent pattern of prosecution of vote fraud. I just do not know that there has been any significant effort. I wonder if the Senator from Pennsylvania can inform me to what extent vote fraud is even prosecuted and what are some of the problems that are entailed in a prosecution for vote fraud?

Mr. SPECTER. Well, vote fraud is prosecuted. When I was District Attorney of Philadelphia, I prosecuted Republicans and Democrats. Customarily, vote fraud is illegal assistance when somebody goes into the polling place, and this happens, and pulls the lever. There you can have a witness. You can identify the individual, and you can prosecute them. If you are seeking to prosecute someone who has sent in a purported signature which matches the signature on record, and there is registration by mail so that no one ever sees the person, you don't have an identification of the voter in the first instance. If you do not have an ongoing identification of that person's actual existence, it is not virtually impossible. It is impossible. How are you going to find the person who signed their name, even if you ascertain that there is no such person as the purported signature? How are you going to find them? It is not a needle in the haystack. It is a needle in a city of more than a million people.

Mr. BOND. Mr. President, the Senator from Pennsylvania pointed out precisely the problem with motor voter making it impossible for States to require a positive identification with the registration. As the Senator from Oregon I think wisely said in his debate, we ought to be making sure the registration is legitimate and that there is a real person behind it. Right now you can't do that under motor voter. The underlying bill, section 103(b) provides that.

But the Senator from Pennsylvania is saying that if somebody registers the name of a dead person, a non-existent person, or even a dog, sends in that registration, writes the name on a card, gets the absentee ballot, and sends it back in, it is next to impossible from the prosecutor's standpoint to prosecute the unknown person who has done the registration and cast the vote.

Is that a fair assessment?

Mr. SPECTER. Mr. President, the Senator from Missouri articulates it accurately. It is impossible to prosecute an unknown person. That is a matter of the fundamental definition. If you do not know the person, you can't swear out a warrant for an arrest. You also can't take the unknown person into custody. Then you would have the problem of proving that this unknown person committed the crime, and proving it beyond a reasonable doubt. It can't be done.

I am concerned about changing motor voter. There is a lot of criticism of motor voter generally. When I supported motor voter, I got a lot of criticism from many people who thought that it went too far. However, I was willing to support motor voter legislation with that broad sweep to try to encourage people to be on the voter rolls to express themselves. Motor voter works against my interest as a candidate in a city like Philadelphia. That happens to be the fact of life. It works against my electoral interests as a U.S. Senator running in Pennsylvania. But notwithstanding that factor, I have supported it, and I continue to support it.

If fraud becomes so widespread—and I think it is reaching that point—that we really do not know the level of fraud, it is impossible to determine. But, there is a lot of evidence that there are a lot of people who are not in existence who are voting. We do know that, because there is a check back. There is a signature of John Jones at a given address, and you find out that there is no John Jones at that address. Who signed the name? How can you tell? You cannot prove who did it to have a criminal prosecution. It is about the easiest form of voter fraud to perpetrate.

If you go into the polling booth in Philadelphia, as we had a lot of people do, and walk behind the curtain with a registered voter and pull the lever, or give illegal assistance—there are legal ways to do it, if the person can't pull the lever—there the person is taking a chance. You can identify them. You can get a witness. You can prosecute them. You can convict them. But, that can't be done just on signature.

For the people who are urging the enactment of the Schumer amendment to broaden the opportunities to vote, let me say to them head on that they are going to be defeating their cause, because motor voter is going to be in jeopardy unless we are able to work it out in a way so there is not fraud in this manner. The underlying bill is a modest step forward to eliminate that fraud.

I compliment the Senator from Missouri for his diligence in pursuing it. I also compliment him for his diligence in pursuing it over the weekend. It is pretty hard to find most of us over the weekend. But he found me and talked to me about this matter. I told him that my experience supported the stand that he was taking, and that I was prepared to back him and come to the floor and make this argument.

The PRESIDING OFFICER. The Senator from Missouri.

Mr. BOND. Mr. President, I rise to thank my colleague from Pennsylvania for giving us some very practical insights on the difficulties a prosecutor faces in prosecuting a phony mail-in registration. It seems to be an almost impossible task, unless you are fortunate enough to get somebody's fingerprints or have some way-beyond-the-normal way of identifying who sent it in.

Obviously, everybody laughs about dead people being registered and Ritzy Mekler, the dog, being registered. We know they did not register, but finding out who registered them is a problem. Ritzy Mekler's owner claims he did not register her. Somebody else may have done so.

But there is a real problem with the phony registrations piled on to our voter rolls in Missouri, for sure—I know in St. Louis, and I would imagine in most parts of the country.

So since we have undone the compromise that we worked 6 months to achieve, I express, again, my willingness to come to a bipartisan compromise on how we make sure, A, that everybody who is entitled to vote gets registered, and, B, gets to vote. But also how do we get those phony people off of the rolls?

I mentioned, in my earlier debate on this amendment, we know that 3,000 registration cards dumped on the St. Louis City Election Board prior to the mayoral primary in 2001 were mostly phony—most of them in the same handwriting, most of them with addresses from one or two blocks of the city. So we actually got on those, and those have been turned over to the prosecuting authorities.

But there is a little matter of 30,000 voters who were added to the rolls in St. Louis City, MO, just prior to the November 2000 general election. Nobody knows for sure who they came from. But let me tell you, I have some suspicions. I have some suspicions that we are seeing people who might benefit from those registrations opposing efforts to purge.

So I would like to see if we can't work out a way to change some of the onerous provisions that the motor voter bill puts on States in trying to ascertain whether the voters who have been registered by mail are legitimate.

I voted against an amendment offered by my good friend and colleague from Montana, Senator BURNS. It was going to give some power to purge. I told him at the time I thought it was a good idea. I think it is an even better idea now.

So we would like to work on finding a way to make sure we can make it easier to vote but tougher to cheat. As I said, if the Schumer-Biden amendment goes through as is, it makes it easier to cheat, not tougher to cheat.

I started, in my remarks prior to the vote on the tabling motion, to share with some of my colleagues the wisdom from the National Commission on Federal Election Reform. They were talking about accountability. And they said: The question is whether to require voters to display some proof of identification at the polls.

This is on page 31:

> All states hope that precinct officials and poll watchers will have at least some familiarity with the residents of their precincts. Seven states, all but one of them rural, do nothing more. In the rest, the most common practice now is to require voters to sign their names in an official registry or on a ballot application. About a third of the states require poll workers to check signatures against those provided at registration. Fourteen states insist that voters produce some form of identification.
>
> Most states that have histories of strong party rivalry or election fraud require signature verification or voter identification at the polls.

This is the key part:

> Signature verification puts an extra burden upon administrators, and especially on often ill-trained poll workers practicing a very subjective, often impossible, task while voter lines lengthen. Also, many polling places lack the means to provide poll workers with accurate copies of the voter's actual signature (the one the voter used in order to register) and a signature may change over time.
>
> One alternative, favored by several Commissioners, is to require those who are registering to vote and those who are casting their ballot to provide some form of official identification, such as a photo ID issued by a government agency, (e.g., a driver's license). A photo ID is already required in many other transactions, such as check-cashing and using airline tickets. These Commissioners point out that those who register and vote should expect to identify themselves. If they do not have photo identification, then they should be issued such cards from the government or have available alternative forms of official ID. They believe this burden is reasonable, that voters will understand it, and that most democratic nations recognize this act as a valid means of protecting the sanctity of the franchise.

They then go on to talk about striking the right balance, and they conclude talking about whether a photo ID is too much. They talk about alternative forms. But they said on page 32:

> We do believe, however, that States should be able to verify a voter's identity.

That goes to the sum and substance of the Schumer amendment. The Schumer amendment is flatly contradicted by the National Commission on Federal Election Reform. That is why I have offered a modest amendment to say that verification and affirmation will only go into effect when and if the Attorney General of the United States certifies that a State has had less than half a percent of illegal ballots cast in the last two Federal elections.

Frankly, I don't believe that signature affirmation or verification works as well as my colleagues claim. There are not hundreds of thousands of people denied an opportunity to register because they don't have any kind of photo ID or government check or bank statement or utility bill or any other kind of paycheck stubs with their name and address on it. Any of those people who do exist can vote provisionally, and they should be able to vote provisionally. I think there is a handful at most, and we will accommodate them through provisional voting. But I am most worried, for future elections, that there were 30,000 names that came in out of the blue, mail-in registrations that had not been checked in the city of St. Louis. I would like to believe they are all legitimate voters who all of a sudden got the real view that they ought to register in one two-day period. But 15 percent of the electorate? I don't think so.

Mr. President, I am not willing to give up on this process. But I am not willing to see a bill go through that makes it easier to vote and easier to cheat. I thank the Chair and I yield the floor.

Mr. DODD. Mr. President, first of all, I thank my colleague from Missouri for his expression of trying to find some common ground. We know each other pretty well, and I would never question the motivations of my friend from Missouri. He brings a lot of passion to matters he cares about. I like people who do that.

As he knows, there has been a tireless effort to cobble together a proposal here that would enjoy the broad-based support of this institution. We are dealing with 98 other colleagues, and when you deal with a matter like elections, everybody is an expert. We have all been through them and everybody has a point of view—unlike in other matters where members can defer to other colleagues. Here everybody has something to contribute to the discussion and debate. I accept his words here to try to find some resolution of the situation we are in. That is what I have tried to do for a couple of weeks. Sometimes you need to have the votes; because then you know where; you are. Votes will let you know.

This place is pretty equally divided on this issue. We have to try to find something here where a center can gather and move the bill forward. We are hoping to do that.

On the second-degree amendment—and I appreciate him offering an amendment that is substantive and that goes to the heart of this. It is not a frivolous amendment. It is one not the least of which is—I presume the amendment refers to the U.S. Attorney General. My colleague indicates that is the case. The concern, I suppose, we hear from all States is that in this bill they want to avoid to have the Justice Department all of a sudden be reaching into States. We are already trying to become a better partner in the election process, and that attorneys general, regardless of party, can all of a sudden, under this amendment, be engaged in some "fishing expeditions" on some of these matters—I think we would all be concerned about that.

There may be something we can work on that may provide a means by which we can come to an agreement on the issue of signatures and attestations. Let me say to my friend as well—and he and I went through this a great deal, back an forth, on how we can resolve these issues. As I understand it—and it gets hard trying to identify exactly what each State does—there are 28 or 29 States that do an attestation or signature. I may be off by a State or 2. As I went down the list and tried to determine how many States do that, many of these States believe that is a very viable means by which to deal with the fraud issue.

I know my colleague from Missouri has had different experience in his State. I don't argue with that, except to say that around the country there are different views on how best to achieve these results. There is nothing in here, obviously, that precludes the photo ID from being a part of that means of identification. The issue is whether or not we are going to, in some way, restrict these other means of verification that a majority of States have been comfortable with over the years, and then if there is something else we might add to that to address the concerns the Senator from Missouri raised.

Aside from these particular amendments that are pending, I will point out that, historically, the efforts of enforcement have to be in the States; that is, where there is a problem of fraud, the States have to pursue it. The Presiding Officer brings to this issue more than a casual acquaintance with these issues having been—the Secretary of State in his State worked directly in these areas. I presume he could bring to this discussion some additional thoughts and ideas, and I am grateful to him for that.

As I said, the attestation and signature have been used, and many States are comfortable with that. I am hopeful we can find some mechanism which will allow us to get beyond this particular issue in such a way that while it would not do everything, as my colleague from Missouri might want, it certainly will do more than the present situation.

What I suggest, because we have to resolve this one way or the other, is that we take some time and get our respective staffs together and sit down and skull on this and see if we can hammer out some ideas and come back with some proposals on how we might deal with this.

My friend from Missouri is nodding in the affirmative. Rather than talking, it seems to me we would be advised to sit down and see, over the next half hour or hour, if we can come back with some ideas for consideration. That is the path we will follow.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant bill clerk proceeded to call the roll.

Mr. DODD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. DODD. Mr. President, I ask unanimous consent that the Senate now proceed to a period for morning business until 1 p.m., with Senators allowed to speak for not to exceed 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DODD. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant bill clerk proceeded to call the roll.

The PRESIDING OFFICER. In my capacity as a Senator from Indiana, I ask unanimous consent the quorum call be rescinded.

Without objection, it is so ordered.

RECESS SUBJECT TO THE CALL OF THE CHAIR

The PRESIDING OFFICER. In my capacity as a Senator from Indiana, I ask unanimous consent the Senate stand in recess subject to the call of the chair.

Without objection, it is so ordered.

Thereupon, the Senate, at 12:16 p.m., recessed until 12:27 p.m. and reassembled when called to order by the Presiding Officer (Ms. STABENOW).

The PRESIDING OFFICER. The Senator from Nevada.

ORDER OF PROCEDURE

Mr. REID. Madam President, the managers of the bill and staff are working through the amendment that is now before the Senate and trying to resolve this issue, We hope we can move forward on this legislation. There has been a tremendous amount of time spent on it. The majority leader indicated that he wants to move this legislation as quickly as possible. The energy legislation is waiting until this bill is completed in some form or fashion. I hope everyone will understand it will be to everyone's benefit if we can proceed. There has been a hue and cry from the other side that we need to do the energy legislation. The only thing holding up our moving to that is the legislation now before the Senate, the reform bill on the election process in America. I hope that can be done as soon as possible.

We are now in a period of morning business until 1 o'clock. At that time, the decision will be made as to what will transpire thereafter.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BENNETT. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CAMPAIGN FINANCE REFORM

Mr. BENNETT. Madam President, we are about to finalize and pass on to the President a bill on campaign finance reform. Anyone who has followed the proceedings during the years knows that I have been opposed to this since I first came into the Chamber back in 1993. I remember participating in an all-night filibuster against it, which Senator Mitchell forced us to go through. My hour, as I recall, was something between 1 and 2 in the morning because I didn't have enough seniority to have an hour that was more compatible with my sleeping patterns.

I have done everything to see to it that this bill does not become law, for one very fundamental reason: I believe it is clearly unconstitutional. It violates both the spirit and the letter of the work of James Madison. I have quoted Madison on the floor, but I have been unsuccessful. It is clear to me now that the law is going to pass. It is, in all probability, going to be signed.

I want to take a moment or two to outline, in the spirit of some prophecy, what I think is going to happen as a result of the bill. I have tried to be as objective as possible and set aside my deeply felt conviction that this bill violates what Madison was telling us in the tenth Federalist about appropriate government. The first thing that is very clear is that this bill will weaken—I won't go so far as to say "destroy," as some others have said—both political parties. Neither party will be able to raise the money to pay the lights, run the overhead, keep the operation going and, at the same time, participate significantly in the campaigns of its members. By banning so-called soft money, we guarantee that each party will have to raise hard money to keep its overhead going and, therefore, be unable to put as much money and as much muscle into individual campaigns. This means that special interest groups which can raise this money have raised this money and will continue to raise this money and will play an increasing role in political campaigns. That is, the vacuum created by pushing down the role of parties will be filled by special interest group money. We are already seeing this. I have seen it in my home State of Utah. The net effect of it will be that candidates will increasingly lose control of their own campaigns.

We saw an example in Utah, where candidate X was attacked by a special interest group over a particular issue. Candidate Y, who normally would benefit from that kind of attack, in fact, was appalled at the attack and did everything she could to stop it because she felt, correctly, that it was reflecting on her. The voter could not differentiate between the source, whether it was from a special interest group or the political campaign. All the voter knew was that these ads were unnecessarily nasty, unnecessarily antagonistic, attacking candidate X. They took it out on candidate Y. They blamed her for the attacks, and she was powerless to do anything about it because special interest groups have the right to run their own campaigns.

As a result of the passing of campaign finance reform, she would be even more powerless to defend herself against that kind of circumstance because she could not call on her national party for assistance. The party will be prevented from providing the kind of help that is currently available. So, as I say, the net effect will be to increase the power of special interest groups in campaigns and to decrease the abilities of a candidate to manage his or her own campaign.

The next thing I see coming out of this is, of course, a plethora of lawsuits, because the bill is very badly written, it is badly drafted, and it creates a whole series of vague references to the relationship between the national party and the State party, Federal money, State money, what can be done by a State party to try to advance its candidates; and what happens if the State party spends money in a way that somehow is deemed to advance a national candidate, or Federal candidate? Let's have a lawsuit. Let's be in court. Let's have all kinds of disputes.

Once again, by limiting the amount of money that parties can raise, it will drain off party money to handle legal bills. So, once again, the party will be less capable of defending its own candidates in the political arena.

Now, at the moment, my judgment is that there are more special interest groups involved in issue advocacy campaigns who support Democrats than there are who support Republicans. I have seen one study—I have no idea how accurate it is—that indicates that in the last Presidential campaign there was about $300 million, total, spent on both sides. If you take the money allocated to the parties, the Republican Party outspent the Democratic Party. But when you add in the issue advocacy money spent by special interest groups, most of it was on the Democratic side of the ledger, so the total, according to this one study, suggested that you got to rough parity between the two sides in the election. Now, I think the initial effect will be—if it is true there are more special interest groups supporting Democrats—you will see a financial benefit for the Democrats through that special interest group, if indeed the money spent does benefit them. Once again, we come back to the example I described in Utah, where the money spent by the special interest group damaged the candidate it was supposed to help, because the candidate had no control, no input, and had lost control of her campaign.

Let's assume, for the moment, that all of the money spent by the special interest groups on behalf of Democratic candidates is well spent and produces a benefit for the Democratic candidates. There will be an attempt—and I suspect overtime it will be successful—for Republicans to create special interest groups to balance that.

We will, once again, get to the point of rough parity because money and politics abhor a vacuum. We will have just as much money spent on politics as we have now. The difference is that it will be channeled either through existing special interest groups, most of which, as I say, benefit the Democrats, or newly created special interest groups to counter that, created to benefit the Republicans. Once again, the total impact will be that candidates and parties will lose control over their elections.

I hope the time does not come, but I think it is possible, where candidates and parties become almost insignificant in political campaigns; where political campaigns are fought between major special interest groups and candidates simply sign up with which interest group they are going to endorse and then sit back, watch the money get spent, and watch the results come in, with our historic political parties significantly weakened, a candidate's ability to manage his own campaign significantly degraded, and ultimately politics in this country the worst as a result of the passage of this legislation.

I lay that down, Madam President, as my view of what is going to happen. The bill will be passed. If the bill is signed, then we can all wait and see. I hope I am wrong. I hope the reformers are right and we will enter a new era of magnificent good feeling about politics.

My expectation is that, as has been the case with most reform efforts until now, we will see things get worse rather than better.

I yield the floor.

The PRESIDING OFFICER. The Senator from Nevada.

EXTENSION OF MORNING BUSINESS

Mr. REID. Madam President, I ask unanimous consent that morning business be extended until 1:30 p.m. today.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Pennsylvania.

Mr. SPECTER. Madam President, I ask unanimous consent to speak for up to 15 minutes in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

NOMINATIONS OF JUDGE CHARLES PICKERING AND JUDGE BROOKS SMITH

Mr. SPECTER. Madam President, I have sought recognition to announce my support for the nomination of District Court Judge Charles Pickering to the Court of Appeals and make some comments about the pending nomination of Judge D. Brooks Smith, now Chief Judge of the Western District of Pennsylvania for the Court of Appeals for the Third Circuit, who had a hearing yesterday, and to comment generally about the issues facing the Judiciary Committee on partisanship.

Judge Pickering appeared before the Judiciary Committee. Prior to that time, I had an opportunity to read his opinions, to meet with him personally, to go over the issues, to study his record, and it is my conclusion that if we were dealing with State Senator Charles Pickering from the early 1970s, we would not confirm him for the Court of Appeals. But dealing with Charles Pickering in the year 2002, based upon his record today, he is worthy of confirmation.

In the early 1960s, it was a different world, as we all know. Prior to the passage of the Civil Rights Act of 1964, prior to the passage of the Voting Rights Act and the early days following the decision of the Supreme Court in Brown v. Board of Education handed down in 1954, it was a different world.

Judge Pickering has distinguished himself and has shown that he has a sensitivity to civil rights issues. He spoke out against the leader of the Ku Klux Klan in a way which was a threat to his personal security. He has demonstrated in his conduct a sensitivity to racial matters.

There has been quite a divergence in opinion about Judge Pickering based upon people inside the beltway, in Washington, contrasted with the African Americans who know Judge Charles Pickering from his hometown of Laurel, MS.

The pseudo-hearings which have been conducted on national television and the comments in the national press from those who know Judge Pickering from Mississippi portray a very different man than those who oppose his nomination within the beltway.

In making that comparison, I raise no objection to the opinions of the positions taken by people who have spoken out against Judge Pickering. That is their right. But I do make a sharp distinction in terms of the value of those opinions and the weight which ought to be given to those opinions when you have people who know him so much better on his home turf.

If we were to apply the standards which would have been applicable to State Senator Charles Pickering in the early 1970s, it would be very different. I cannot help but think of Senator THURMOND who ran for President as a Dixiecrat in 1948 and who was a staunch opponent of many of the civil rights issues. Senator THURMOND, as so many others, like Charles Pickering, changed over the years and saw the evolution from desegregation in Brown v. Board of Education in 1954 to a very different era.

Senator THURMOND has enormous support among African Americans. I mention him because he is someone known to everybody in the Senate, having been here since 1954 and having established himself as very sensitive and very pro-civil rights, but if he were to be judged on his record from the early 1960s, as some are trying to judge then-State Senator Charles Pickering on his record of the early 1970s, Senator THURMOND would not be confirmed.

I can count the votes, Madam President, and it seems to me that, regrettably, the Judiciary Committee is going to vote along party lines and deny Judge Pickering an affirmative vote to bring his nomination to the floor of the Senate. I may be wrong. I hope I am wrong. I do not think I am wrong. It seems to me that whatever the vote for confirmation is in the Judiciary Committee, Judge Pickering ought to come to the full Senate.

Judge Bork and Judge Thomas—Judge Bork then a judge on the District of Columbia Circuit Court—received a negative vote in the Senate Judiciary Committee 9 to 5, but he was voted to the floor for full consideration and ultimately did not prevail and was defeated 42 in favor, 58 against.

Justice Thomas, then Judge Thomas, had a tie vote in the Judiciary Committee but was voted out of the Judiciary Committee by a vote of 13 to 1 to be considered by the full Senate.

In the old days, the Judiciary Committee used to bottle up a lot of civil rights legislation. It is my view that this is a matter which ought to be considered by the full Senate.

Yesterday, we had the confirmation hearing of United States District Court Judge D. Brooks Smith, who was recommended by Senator Heinz and myself in 1988, appointed by President Reagan, and has had a very distinguished record on the United States District Court for the Western District of Pennsylvania where he now serves as chief judge.

Prior to that, he had been in the Court of Common Pleas in Blair County, PA, and prior to that had been assistant district attorney.

Judge Smith was challenged on a number of grounds. People raised questions about his reversal rate, but when that was examined, we found that of the approximately 5,300 cases that Judge Smith had, about 10 percent of them were appealed, about 530 cases, and that his reversal rate was right at 10 percent, which is right at the norm.

His reversal rate was higher in 1989, his first year as a federal judge, in excess of 35 percent. As the years passed and as he gained more experience, he brought that reversal rate down very substantially. With the total number of cases, about 5,300, and something around 50 reversals, it is right at the 1 percent mark.

I ask unanimous consent that at the conclusion of this presentation the text of the record of Judge Smith on reversals be printed in the RECORD.

The PRESIDING OFFICER (Mrs. MURRAY). Without objection, it is so ordered.

(See Exhibit No. 1.)

Mr. SPECTER. Judge Smith was further challenged on the issue of conflict of interest when he sat on a case where a bank was a depository, where he had stock or financial interest in the bank and his wife was an employee but the bank was not a party. The trustee in that case was Dick Thornburgh, formerly Governor of Pennsylvania and also formerly Attorney General of the United States. Governor Thornburgh wrote an op-ed piece for the Pittsburgh Post-Gazette exonerating Judge Smith from any issue of conflict of interest, citing Justice Donetta Ambrose who succeeded Judge Smith to handle that case after Judge Smith recused himself.

I ask unanimous consent that at the conclusion of this statement the op-ed piece by Governor Thornburgh be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See Exhibit No. 2.)

Mr. SPECTER. Judge Smith was questioned at some length about trips he had made to seminars, that there might have been an effort to influence his decisions and that they were, in effect, junkets.

There is a famous expression that it does not lie in the mouth of someone to say something, which really means that party has no standing to raise the question.

I do not think that the Senate, or Senators, have standing to raise questions about travel. I say that in the context of traveling myself, and I think those travels are very worthwhile. And I have gone to seminars, and I make the appropriate disclosure on my financial statements.

The seminars that Judge Smith attended were entirely appropriate, and he was challenged because he had not listed the value of those trips to seminars. He stated that he thought he had complied with the law. Since staff has checked out, it was found there was no requirement that the value be listed.

It may be when we are talking about Judge Pickering and perhaps about Judge Smith—and I feel confident Judge Smith will be acted upon favorably by the Judiciary Committee, but one never knows—but in looking at the proceedings as to Judge Pickering, this may be a warm-up for the next Supreme Court nomination.

When Attorney General John Ashcroft was up for a confirmation hearing, there was an undertone that where you have the issue of choice, someone has to be willing to say they will support Roe v. Wade. It really did not apply to the Attorney General's nomination itself but as to his pro-life position, which then-Senator Ashcroft had articulated, we knew his position. There was an undertone in the hearing, and some on the Judiciary Committee have articulated a view that there ought to be a litmus test, that nobody ought to be confirmed unless that judicial nominee is prepared to say the nominee would uphold Roe v. Wade.

When those issues have been posed in the past, the nominees have been accorded standing to say they are not going to comment about cases which may come before the Court. But there is what at least appears to be an effort to put Roe v. Wade on a par with Brown v. Board of Education. Doubtless it is true that no one could be confirmed to the Supreme Court of the United States or to the Federal judiciary if they said they would favor reversing Brown v. Board of Education and integration. It is going to be a hotly contested issue, I believe.

Again, I may be wrong, but I do not think so, that some in the Senate and some on the Judiciary Committee, and perhaps many others, are trying to equate Roe v. Wade with Brown v. Board of Education.

We see the changing times on the issue of the death penalty for people who have a mental impairment, with the Supreme Court saying they are looking for a national consensus before changing the law. On the evaluation of judicial decisions where the Court does look for an evolving national consensus to establish the moral temper ofttimes, with the Court's interpretations being very different on the equal protection clause of Plessy v. Ferguson in 1896 compared to the reversal of Brown v. Board of Education in 1954.

I do believe it is time for a truce between Republicans and Democrats on this issue of judicial confirmations. I think we ought to declare a truce and sign an armistice agreement that we are not going to have a repetition of what happened when we had a Democrat in the White House and Republicans in control of the Judiciary Committee. That was the position I took at the time in breaking party ranks and voting to confirm Judge Paez and Judge Marcia Berzon and in voting to confirm Judge Roger Gregory for the Court of Appeals for the Fourth Circuit, and in voting to confirm Bill Lan Lee for Assistant Attorney General of the Civil Division. We ought to declare this truce and ought to sign this armistice so we take partisan politics out of the confirmation process of Federal judges. It is high time we did that.

I hope the confirmation proceeding as to Judge Charles Pickering elevating him from the district court to the court of appeals will be a good occasion for that truce, or that signing of an armistice.

I yield the floor.

EXHIBIT 1

BROOKS SMITH—CASE STATISTICS

ABSOLUTE NUMBERS

Smith has closed 5,298 cases—of which 526 cases were appealed to the Third Circuit.

Smith has been reversed 53 times over his 13 year career as a federal judge (since 11/1/1988).

Note that in 12 of these 53 cases (i.e., about one-fourth of the cases), Smith was affirmed in part and reversed in part. And some of these were complex cases involving numerous issues where he was affirmed on nearly all of the issues but reversed on one ground or a few grounds.

PERCENTAGES

Smith has been reversed in 10% of appealed cases (i.e., 53 of 526 cases).

He has been reversed in only 1% of closed cases (i.e., 53 of 5,298 cases).

COMPARISON

Smith's 10% average reversal rate (in appealed cases) from 1989–2001 is similar to the average annual reversal rate for the Third Circuit and for all circuits for appeals terminated on the merits.

[Amount in percent]

	Smith	Third Circuit	All circuits
1989	29.16	12.4	13.4
1990	15.38	11.3	11.8
1991	3.7	10.4	11.7
1992	12.5	10.4	11.0
1993	6.66	10.3	10.0
1994	11.9	11.8	10.0
1995	6.55	9.4	11.0
1996	10	9.9	9.4
1997	16.66	9.9	9.1
1998	13.51	9.0	10.2
1999	0	10.4	9.1
2000	9.3	12.0	9.7
2001	5.88	11.7	9.2

Notes: None of the cases closed by Smith in 1988 were appealed. The reversal rates for the Third Circuit and for all circuits were obtained from the Administrative Office of the U.S. Courts; these rates do not include data regarding the Federal Circuit.

EXHIBIT 2

[From the Pittsburgh Post-Gazette, February 26, 2002]

SETTING THE RECORD STRAIGHT ON JUDGE D. BROOKS SMITH

(By Dick Thornburgh)

WASHINGTON.—Today the Senate Judiciary Committee will consider President Bush's nomination of Chief U.S. District Judge D. Brooks smith for the 3rd U.S. Circuit Court of Appeals, headquartered in Philadelphia.

For 18 years, Judge Smith has served Pennsylvanians with distinction. Judge Smith boasts first-rate credentials in addition to his years of judicial experience, and the American Bar Association unanimously gave him its highest rating. Over 100 Democrats and Republicans alike have signed letters of support to the Senate Judiciary Committee. These letters from judges, public officials and leaders of civil liberties, labor, and women's organizations all praise Judge Smith's fairness and impartiality. The Post-Gazette has detailed the campaign against Judge Smith by the Community Rights Counsel and other extreme interest groups. Just as night follows day, it seems the usual suspects are lining up for another effort to "Bork" a distinguished judge. Specifically, critics argue that Judge Smith should have immediately recused himself from a 1997 municipal fraud case involving an investment adviser later convicted of defrauding several Pennsylvania school districts. Critics say recusal was necessary as Judge Smith's wife worked at Mid-State Bank where some of the defendants' assets were deposited, and the Smiths held stock in Mid-State's parent company.

Please allow me to set the record straight. I served as the trustee for the defrauded schools and bore a fiduciary duty to safeguard their funds. And I can say with front-row, firsthand knowledge that Judge Smith acted with absolute integrity, independence and honor.

First, Mid-State Bank was not a party to the case, and nothing at the outset suggested Mid-State was complicit in any fraudulent scheme. It was therefore unlikely that Judge Smith's wife, who worked in an unrelated part of the bank, would become a material witness. Since the complint did not allege any wrongdoing by the bank holding the defendants' funds, any stock the Smiths owned in its parent company was immaterial. As trustee, I had sole possession of and control over the assets, and Judge Smith's initial order distributing 50 percent of frozen funds to defrauded school districts just approved an interim plan proposed jointly by me and the Securities and Exchange Commission while the case proceeded.

When Judge Smith later received information that Mid-State could, in the future, conceivably play a role in the litigation, out of an excess of caution he immediately recused himself sua sponte, without being asked by either party. The actions that Judge Smith took prior to his recusal in the civil case did nothing to limit Mid—State's eventual liability exposure or impact the victims' rights of recovery.

In fact, the attacks by interest groups ignore the fact that no funds were even deposited at Mid-State at the time Judge Smith granted his last orders. As trustee, I had transferred the assets to another bank several days before this order. Nothing that occurred between this order and Judge Smith's recusal days later benefited Mid-State. Judge Donetta Ambrose, who obtained the case after Judge Smith's recusal, agreed. She wrote to the Senate Judiciary Committee to say, "There was never any suggestion by me or the Court of Appeals that Judge Smith acted inappropriately or unethically. Rather, he acted prudently and cautiously. . . . The allegations of unethical conduct in the context of this case are without foundation."

Partisan critics also improperly fault Judge Smith for temporarily handling a later criminal case against the investment adviser. Nobody involved in the case has alleged that Judge Smith issued any improper orders or took any inappropriate action. The case was assigned to Judge Smith only after lawyers in the case agreed that it was unrelated to the SEC's civil case. Mid-State Bank was not a party. The U.S. attorney's office never sought recusal, and defense counsel did not seek recusal until four months later, when Judge Smith immediately recused himself.

As governor of Pennsylvania in 1984, I had the honor of originally nominating Brooks Smith to sit on the Court of Common Pleas in Blair County. In 1988, while attorney general of the United States, I had the honor of seeing the U.S. Senate unanimously confirm Brooks Smith as a federal judge. This year, I hope to see the same Senate set aside the recent attacks of extreme interest groups and honor Judge Smith's long record of judicial service with a swift and unanimous approval to the 3rd Circuit.

By any measure of judicial merit, Brooks Smith is qualified to serve. Like the president who nominated him, Brooks Smith has rallied a broad coalition of support. It would be wrong to allow extreme interest groups to delay his confirmation by even one day. However, I am optimistic that this will not occur. Judge Smith acquired his reputation for honesty, uprightness and professionalism the old-fashioned way—he earned it. And it will see him through.

Mr. SPECTER. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Madam President, I ask unanimous consent the order for the quorum call be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXTENSION OF MORNING BUSINESS

Mr. REID. Madam President, I ask unanimous consent that morning business be extended until 2 o'clock today.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. DODD. Madam President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

NEGOTIATIONS ON THE ISSUE OF VOTER IDENTIFICATION

Mr. DODD. Madam President, I just want to give the Presiding Officer a little bit of an update on where things are regarding negotiations on the Schumer-Wyden-Bond issue involving the question of voter identification.

Staffs are meeting. There has been no resolution, I am sad to report, at this juncture, but they are meeting and are working on this.

I thank Senator SCHUMER and Senator WYDEN and their staffs, along with Senator BOND and his staff, to see if they can come forward with a compromise proposal. As I mentioned two or three times already today, I hoped that would have happened before we got to the vote today. I made a pitch and appeal on numerous occasions, but there was not much of an appetite for a compromise until now.

My hope is we can come to this sooner rather than later. I apologize to my colleagues. I apologize to Senator DASCHLE, who has been absolutely stellar in all of this. I am sure he is going to remind me for years to come, when he asked me how long this bill might take, I said I thought we could do it in a day. I suspect I will hear that story over and over again for many years to come.

We have been on it 2 days. We were on it for 2 days when we were not in session, a Friday and a Monday. We did get some work done then. On the Thursday of the week before recess, we were here, and yesterday, now today, so at least 2½ days.

My hope is that by later this afternoon, sooner rather than later, we can report a compromise proposal, then the rest of the amendments we can deal with fairly quickly. There will be votes on some. I don't anticipate that any one of them, regardless of the outcome, would provoke the kind of situation we are in at this particular juncture.

Hope springs eternal, even in February. I am hopeful that before the afternoon is out, we can make a favorable report to the Chair and to our colleagues that the election reform bill is prepared to move forward and get to final passage.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Ms. MIKULSKI. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

STEEL

Ms. MIKULSKI. Madam President, today I come to the Senate Chamber to stand up for steel. There is a crisis in America's steel industry. The next few weeks will determine the fate and future of that industry and, I believe, the fate and future of our steelworkers today and our retired steelworkers.

I commend President Bush for initiating the section 201 investigation on steel. That means an investigation by the International Trade Commission on whether or not we are facing unfair dumping. I am now calling on the President to impose an effective remedy; that is, a remedy of 40-percent tariffs across the board on steel.

Since 1997, 31 steel companies have gone bankrupt, putting at risk over 62,000 jobs. Why is this? It is exactly what the International Trade Commission found: Subsidized foreign steel companies dump their excess products on the United States market at below market prices. They come into the United States and flood us with their imports at fire sale prices.

In response to this unprecedented crisis, President Bush did take an important step of initiating an investigation under section 201 of the trade act. The ITC unanimously found that these imports have caused serious harm to the American steel industry. Now the President has to act before tens of thousands more jobs are lost and retirees face the threat to their pensions and their health care. He must take meaningful action, not just some half measure that doesn't meet the challenge of the crisis.

Steel is in crisis. Last year, 17 steel companies filed for bankruptcy protection, 14 steel mills shut down, and nearly 30,000 workers lost their jobs.

Why does steel matter? This is not nostalgia for our industrial past. This is about our national and our economic security.

If we are worried about dependence on foreign oil, we should certainly be worried about dependence on foreign steel. We need steel to build America, whether it is our bridges or our automobiles, and also for our national security. In my own home State of Maryland, Bethlehem Steel made the steel plate to repair the U.S.S. *Cole*. It is American steel that is building Navy ships, Navy subs, American planes, the kind of steel we need for those bunker-buster bombs we need.

Are we going to rely upon Russia, China, and other countries and be steel dependent? I don't think we should do that.

What about our steelworkers and our steelworker retirees? There are over 300,000 people currently working as steel and iron workers. There are now over 700,000 retirees and surviving spouses. All told, there are more than 1 million Americans, both retired and on the job now, who depend on steel for their livelihood, their pension, and their health care.

What caused this crisis? Is it because American steel was inefficient, because the unions wouldn't cooperate with management, because we didn't use new technologies or new processes? Absolutely not. The reason American steel is in such dire straits is unfair trade. Foreign steel companies, subsidized by their government, dump excess steel in our market at those fire sale prices.

The United States of America does not have excess capacity. The United States and Canada have been net importers of steel. If you want to look at examples of these subsidies, let me give you one: Russia. This comes from the Bloomberg Business Report. This does not come from BARB MIKULSKI. The Bloomberg Report last week talked about how the Russian Government keeps 1,000 unprofitable steel plants open through Russian subsidies. That is not 1,000 workers; that is 1,000 steel plants. Because of those subsidies, they are able to stay in operation.

How can we compete with Russian subsidies where they have comrade health care, all their health care is paid for, they get subsidies in steel, and at the same time we are expected to compete?

What is the solution? We need a level playing field by reducing excess steel capacity abroad.

The way we also send them a message to stop the dumping is by imposing a 40-percent tariff. That would level the playing field. Half measures will not do. We need that 40-percent tariff and we need it without exception. The effects will last much longer than the 3 or 4 years because America's steel industry will have a chance to get back on its feet.

America's steel industry is the best in the world and I can't emphasize how competitive we are. It is the most efficient, uses the fewest man-hours available per ton, thanks to our steelworkers making the best use of technology and a willingness to cooperate with management. It is also the most environmentally sound, producing less emissions on steel produced.

Do you think those 1,000 Russian steel mills are going to be environmentally sensitive and OSHA compliant? I don't think so. American steel companies have invested over $20 billion in new technology to achieve these efficiencies. American steelworkers have made painful concessions in wages and benefits so that the industry would be efficient and competitive and would have a future.

Madam President, the President must act now. The next few weeks will determine the fate and future of the steel industry. There is a March 6 deadline for a remedying decision, the tariff decision. The President has the authority. We want him now to have the will. We want him to impose this 40-percent tariff, give American steel mills a future and, most of all, protect the United States of America against dependence on foreign steel. Steel built our Nation; steel will continue to build our Nation, and most of all, steel will help us protect our Nation. Steel built America and it is now time that we stand up for steel. I hope we can count on the President to do this, and we thank him for the work he has already done.

I yield the floor and look forward to standing with the Presiding Officer as we stand up for steel.

Mr. REID. Madam President, before the Senator leaves the floor, I want to say that she is a leader on this issue. I told her privately yesterday that wherever she pointed me to help steel, I would be there. I also say it is not often that you find a Senator who works as hard privately as publicly. I have been in a number of private meetings with the Senator from Maryland, where she has been a staunch vocal advocate of doing something to help the steelworkers and the steel industry of this country.

The people of Maryland should understand the advocacy of this giant from Maryland who is working so hard for the people who have been so good to America—the steelworkers and the steel industry, generally.

Ms. MIKULSKI. Madam President, I thank the Senator from Nevada for those gracious and complimentary remarks. This is a man from Searchlight, NV. He knows what hard work is because of the way he pulled himself up by the bootstraps, and he has given opportunity to other people. All those people working in the mines in Nevada, who every day have those calloused hands in the end, have a very strong advocate in him. We have to stand up for the ordinary people who do extraordinary things in our country. I look forward to working with the Senator.

EXTENSION OF MORNING BUSINESS

Mr. REID. Madam president, I ask unanimous consent that morning business be extended until the hour of 3 p.m. today.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DORGAN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

THE WIND ENERGY PRODUCTION TAX CREDIT SHOULD BE EXTENDED

Mr. DORGAN. Madam President, about a week ago I spoke briefly on a subject that falls under the jurisdiction of the Senate Finance Committee and that is referred to as the extenders. This term does not mean much to people, but the extenders are tax provisions that expire at certain times. For example, at the end of last year one of the tax provisions that expired was the wind energy production tax credit. It is a tax credit that was in law to stimulate the development of wind energy in our country.

That tax credit expired on December 31 and, at that moment, the development pretty well stopped because the expectation was that the credit would be extended, but it has not been extended. This credit is one of a handful of extenders that should have been extended at the end of last year. The Congress did not do it, because it got connected to the issue of the economic recovery package, and it went back and forth between the House and the Senate.

The fact is, at the end of the day, this tax provision expired and wind energy development has pretty well stopped around the country. By "wind energy development," I mean those developments that were on the books with plans underway, and ready to be financed and installed across the country.

What does this wind energy mean? We are going to take up an energy bill as soon as we figure out what to do with the filibuster on the election reform bill, and when we talk about the energy bill in this country we talk about the need to produce additional energy: more oil, more natural gas, more coal. Yes, we are going to produce more by digging and drilling, and do that in an environmentally acceptable way. But limitless and renewable sources of energy such as ethanol, biodiesel, wind energy, and others, are also a very important part of what we ought to be doing in this country.

Let me focus for a moment on wind energy, because I come from a State in which wind energy has great potential. The Department of Energy ranks the States and their potential for wind energy, and North Dakota ranks No. 1. We are called the Saudi Arabia of wind for its energy potential.

North Dakota is a lot of things. Most of all, it is wonderful. It ranks 50th, dead last, in native forest lands. That means we have less trees than anybody else. But we have a ranking of No. 1 in wind and the ability to take the energy from the wind, put it in transmission lines, and move it around our country to extend America's energy supply.

I held a wind energy conference in Grand Forks, ND, last week. Over 700 people came to the conference from all over the country. They had a display of a couple of the types of blades used in the new, very large turbines. One of these blades weighs 18,000 pounds.

This new technology is highly efficient and, with the small production tax credit, is also very competitive. We have brought the price of wind energy way down, and now if we extend this wind energy tax credit for 5 years, we will be able to unleash the opportunities in wind energy development.

A CEO of a company came to see me about 2 weeks ago and said his company has 150 megawatts of wind-generated electricity on the books and prepared to build in North Dakota. He told me the company has the money for it, $130 million to $150 million, the plans complete, but that it cannot move forward until the company knows whether Congress is going to extend the wind energy production tax credit.

The fact is, the Congress is messing around back and forth, stuttering, and not getting it done. This back and forth between the House and the Senate means the extenders did not get finished.

What does that mean? It means companies that were preparing investments and were going to be able to build wind energy facilities across this country have now put these plans on hold.

Does that make sense for the country? Is that a good energy strategy? I do not think so.

I am going to be asking unanimous consent, and I will not do it at the moment because I wanted to provide notice to others in the Chamber as a matter of courtesy, but I will ask either later today or tomorrow, unanimous consent to take up the legislation that I have previously introduced, S. 94. It provides a 5-year extension of the tax credit for electricity produced from wind. I will ask that it be discharged from the Senate Finance Committee and be brought to the floor and voted on.

This is not controversial. We have done this before. We should have done it last December but did not. It does not require a big debate. We have had debate after debate on this. It is widely supported by virtually the entire Senate and the entire House, but it does not get done. It is one of these things that runs off the ditch and gets stuck there, and nobody thinks much about it.

The problem is we are not producing the energy we could be producing, because these projects are not being built. As we get people in the Senate who ring their hands and gnash their teeth and wipe their brow about America's energy problems, I want everybody to understand that part of the solution—just part—to that problem is to build these projects that are ready to go, that can produce and create these new highly efficient wind energy turbines, that can put electricity in our transmission lines and move it around the country.

Does anybody remember California and the price spikes, some of the other problems we have experienced with energy supply? The fact is, this country needs this new form of energy.

I would like to talk for an hour about ethanol, biodiesel, and other limitless and renewable sources of energy. One of the big oil companies once said that ethanol is no good, that it will not work. I saw it in a quarter-page ad in a daily newspaper, and I thought, well, if the big oil companies say this is not any good, it must be something we ought to take a closer look at: Taking the alcohol from a kernel of corn—you get a drop of alcohol from a kernel of corn—and you still have the protein feedstock left. One can use that alcohol to help contribute to America's energy supply. That makes good sense to me. But taking energy from the wind and running it through a turbine, through blades that turn, and then moving the electricity to the transmission lines, makes eminent good sense.

There is no excuse at all for this Congress to twiddle its thumbs when it ought to extend these production tax credits for wind energy. It ought to be done not next week, not next month, not next year; it ought to be done now. It ought to be done for 5 years. If we get people to come out and say first let's not do it, I say they are not thinking much about America's energy needs.

If they say let's do it for a year, I say it will not matter. It will not mean a thing. That will not provide enough of an incentive for anybody to do anything. Let us give people an opportunity to plan, to do the right thing. Let us give people the opportunity and the incentive to build, to extend America's energy supplies.

I am intending to offer that unanimous consent request either later today or tomorrow and would want to put people on notice of that.

Let me, if I might, read a couple of examples of what has happened because Congress did not do what it should do. Lonestar Transportation of Fort Worth, TX, is losing $1.5 million in revenue per month due to the delay of this production tax credit. Trinity Industries of Dallas, TX, a builder of wind turbine towers, has furloughed 200 workers and projects a revenue loss of $7 million a month. MFG, a builder of fiberglass turbine blades located in Gainesville, TX, laid off 138 skilled workers. Georgia and Texas: CAB, Inc. of Oakwood, GA, and also in Texas, that manufactures steel tower components, will see a 50-percent reduction in revenues because of failure to extend this. In Oregon, investment will not be made in a multimillion-dollar wind turbine manufacturing facility for Portland. DMI Industries in my State of North Dakota, a tower manufacturer in West Fargo, will likely see a 25-percent decrease in revenues. The company currently employs 165 people and was planning to hire an additional 50. They will not be able to do that at this point. LM Glasfiber, a wind turbine blade manufacturer in Grand Forks, has furloughed 30 percent of its 100 employees because of failure to extend the tax credit. In Louisiana, Beaird Industries of Shreveport, LA, a builder of metal towers for wind turbines, furloughed 150 of its 500 employees just before Christmas. Zond Wind Turbines in California near Bakersfield furloughed 85 skilled workers. In West Virginia, Atlantic Renewable Energy Corporation will indefinitely delay a $65 million investment in its Backbone Mountain site in Tucker County. That is 150 construction jobs. M.A. Mortenson Company of Minneapolis, MN, that designs and builds wind tower projects throughout the United States, will hold off creating 150 direct construction jobs and 450 subcontractor jobs without the extension.

The list goes on. I ask unanimous consent to have this printed in the Record.

There being no objection, the material was ordered to be printed in the Record, as follows:

Economic Development Foregone Due to Delay in Extending the Wind Energy Production Tax Credit (PTC)

In 2001 the wind industry installed nearly 1,700 megawatts (MW) of new capacity spurring more than $1.7 billion in direct economic activity.

For this level of economic activity to continue in 2002, Congress must pass a multiyear extension of the wind energy Production Tax Credit (PTC) immediately. Failure to do so would forego billions in economic activity and thousands of jobs such as . . .

Texas: Lonestar Transportation of Ft. Worth, TX is losing $1.5 million in revenue per month due to the PTC delay. Last year the company earned $20 million—a full 20 percent of company revenues—by trucking wind turbine towers, blades, and generating units to development sites. Contact: David Ferebee, V.P. of Sales at 1-800-541-8271.

Trinity Industries of Dallas, TX, a builder of wind turbine towers, has furloughed 200 workers and projects a revenue loss of $7 million per month (or $84 million over 12 months) until the PTC is extended. Contact: John Miller at 512-322-0299.

MFG, a builder of fiberglass turbine blades located in Gainsville, laid off 138 skilled workers upon notification that Congress had not extended the wind tax credit.

Georgia and Texas: CAB, Inc. of Oakwood, GA and Nacogdoches, TX, a manufacturer of steel tower components will likely see a 50 percent reduction in revenues with workforce reductions of 30–40%. Contact: Ms. Terri Jondahl, Executive Vice President, Chief Operating Officer, at 888-241-7312, www.cabinc.com.

Oregon: Investment will not be made in a multi-million dollar wind turbine manufacturing facility for Portland that would have provided as many as 1,000 jobs.

North Dakota: DMI Industries, a tower manufacturer in West Fargo, ND, will likely see a 25 percent decrease in revenues (about $15 million) in 2002 without an early PTC extension. The company currently employs 165 people and planned to hire an additional 50. Contact: Chuck Savageau, Business Development Manager at 701-282-6959, csavageau@dmiindustries.com.

LMGlasfiber, a wind turbine blade manufacturer in Grand Forks has furloughed 30 percent of its more than 100 employees because of failure to extend the wind tax credit. Had the tax credit been extended last year, the company would have ramped up to 200 jobs. Contact: Craig Hoiseth, President, LM Glasfiber, 701-780-9910.

Louisiana: Beaird Industries of Shreveport, LA—a builder of metal towers for wind turbines—furloughed 150 of its 500 employees just before Christmas 2001 because failure to extend the wind tax credit resulted in no new orders for towers. Last year the company built 800 steel towers for wind turbines. Contact: Alberto Garcia, VP for Sales at 318-865-6351.

California: Zond wind turbines, manufactured near Bakersfield, CA, have furloughed 85 skilled workers because failure to extend the PTC has caused a halt in orders for new turbines. Contact: Robert "Hap" Boyd at 213-452-5103.

West Virginia: Without an immediate PTC extension Atlantic Renewable Energy Corp. will indefinitely delay a $65 million investment in its Backbone Mountain site in Tucker County. This project would provide about 150 construction jobs and as many as 6 permanent operations and maintenance jobs. Contact: Sam Enfield of Atlantic Renewable Energy Corporation at 301-407-0424.

Minnesota: M.A. Mortenson Company of Minneapolis, Minnesota a design/build contractor of wind power projects throughout the United States will have to hold off on creating up to 150 direct construction jobs and 450 subcontractor jobs in 2002 without the PTC extension. The loss in revenue to M.A. Mortenson Company will be up to $70,000,000 in 2002. Contact Jerry Grundtner, General Manager, at 763-387-5513.

Farm Economy: Net farm earnings are expected to drop by 20 percent his year (from $49.3 billion to $40.6 billion) according to the U.S. Department of Agriculture. Extending the PTC expeditiously will pump significant additional income into the farm economy by allowing more farms to host wind turbines. Wind developers provide lease payments to farmers of about $3,000 per wind turbine, per year for twenty years or more.

Mr. DORGAN. Madam President, I am disappointed we have not been able to get this completed. It is a matter of will. We understand there is wide support here and in the House. Bring it up, pass it on the floor of the Senate and the House, and send it to the President, so projects can go forward beginning tomorrow, next week, and next month. Skilled workers will find they are rehired by the companies. New jobs will be created. We will extend America's energy supply. It is exactly what we ought to do.

For that reason, I intend to make unanimous consent requests that the Finance Committee be discharged and we bring up and pass S. 94, legislation to provide a 5-year extension of the tax credit for electricity produced from wind. I intend to come to the Chamber and talk about this—until I am more than a minor annoyance—to see if we can get people to understand we have a responsibility to act in the interests of this country.

I yield the floor.

The PRESIDING OFFICER. The Senator from Alaska.

ENERGY

Mr. MURKOWSKI. Madam President, I will respond briefly to my good friend, Senator DORGAN. I totally agree with his concept that we should pursue ethanol and wind and all alternative sources of energy. We will need them. There is absolutely no question. We need all the energy we can produce in this country.

The good news is the energy bill has been laid down. I hope we can start on this relatively soon. Clearly, we have to get the pending business resolved. I will discuss the foundation we begin with. It is a departure from the traditions of this body. It is unfortunate the majority leader has seen fit to mandate a procedure that is clearly contrary to the traditions of the process associated with the committees of jurisdiction. I am referring specifically, as former chairman of the Energy and Natural Resources Committee and now the ranking member, to the manner in which the majority leader saw fit to circumvent the responsibilities of the committee of jurisdiction.

My good friend, the chairman, Senator BINGAMAN, and I have worked together for some time. We have had a good relationship. Our theory was we would attempt to develop from the committee process a comprehensive energy bill. When I was chairman, we had hearings, we had input, and we introduced a bill. However, as we all are aware, there was a change in June. As a consequence, the Republicans lost control of the Senate and hence lost control of the agenda of the committee process.

Prior to the changeover, we had had several discussions in the Energy and Natural Resources Committee on various issues associated with the proposed energy legislation. This came about as a consequence of our President laying down as one of his prerequisites a mandate that Congress address an energy bill and do it with dispatch. The House has done its job in H.R. 4. So it became the responsibility of the Senate to take up a comprehensive energy bill.

What happened in the process deserves enlightenment. This is what I specifically object to. On the issue of ANWR, we had enough bipartisan votes to report out a bill containing ANWR. The leader knew this. As a consequence, in order to circumvent this process, the terminology I think that was used was to alleviate any differences of opinion in the process. However, that is what this body is all about, differences of opinion in coming together on a consensus. Nonetheless, the leader prevailed and ordered the chairman, Senator BINGAMAN, not to hold any markups on the bill. That precluded the committee from pursuing a process of taking up a bill, proceeding with amendments in the ordinary workings of the committee process, and voting out and bringing to the floor a comprehensive bill.

I can only assume the leader did this as a parliamentary maneuver to ensure we would not get a vote in committee on ANWR, where he clearly knew we had the votes to get it out. I hope every Senator in this body considers the precedent this action sets, particularly those Senators who value the traditions and open debate concept associated with this body. This is a departure. This is almost a dictate from the majority leader who simply says we are not going to allow the committee of jurisdiction to take up the bill and vote it out and bring it to the floor.

That prevailed, and we have a situation where we are about to start debate on a very complex bill that has not gone through the committee process. What does this mean? This means every Member will be subjected to some very complex issues, those particularly associated with the electricity portion. They are not going to understand the terminology because it didn't go through the committee. There will be a lot of interest on behalf of various lobbyists who have different points of view relative to certain aspects, aspects that have never had a hearing, never had an opportunity for Members to express their views, let alone vote it out.

I am very irate as a consequence of this circumvention of our responsibility, and I think every Senator should be. We should put politics aside and reflect on the traditions of this body which dictate this is not the way this body traditionally does business.

Sure, the majority leader can initiate an action and go around the committee process, but is that the tradition of the Senate? Is that the tradition to circumvent the committees and the amendment process by subjecting this body now to a bill while it has not had hearings on many of the portions that are very complex?

I know how the majority leader feels about ANWR, but I add one more observation. He has indicated if ANWR stays in the bill, he will pull the bill. That means regardless of how the Senate prevails in a democratic process, he will take the initiative to see that it will not happen. He has circumvented the committee process which requires—instead of 51 votes—60 votes, on cloture, which he would, of course, file. Then he says if you get 60 votes, you are going to lose because he is going to pull the bill.

I don't care what the issue is, but I suggest this is a poor way to do business. The Senate should reflect on just what is happening and whether we can support a leader who dictatorially initiates an action of this type. I know it makes many members of the committees feel somewhat at a loss: What are we here for if we are not here to conduct committee business in the course of our responsibility?

As we start to consider this bill, we should continue to reflect on how we got there. We got there without a committee process. We got there as a consequence of the majority leader taking the authority away from the committee. We got a bill before the Senate that has not had a markup, it has not had individual hearings, and many of the portions of the bill, we are told, if we prevail on one, particularly the lightning rod of ANWR, we will lose anyway because he will pull the bill. I just want all parties to know that I object, and I know a number of my colleagues do, to this type of procedure.

I want to refer to a couple of other points that I think are germane to the debate which is going to take place.

For some time now we have been dependent on imported oil from Iraq. As a matter of fact, on September 11 we were importing a little over 1 million barrels a day from that nation. We are enforcing a no-fly zone over that nation. We are putting the lives of our young men and women at risk enforcing that no-fly zone. Yet we are buying oil. It is almost as if we take the oil, put it in our airplanes, and go take out his targets.

What does he do with the money he receives from the United States? He keeps his Republican Guard well fed. That keeps him alive. What else does he do? He develops a missile capability, a delivery capability, biological capability, and perhaps aimed at our ally, Israel.

That is the fact associated with the vulnerability of this country as we increase our dependence on imported oil. We are about 58 percent dependent, and it is increasing. The Department of Energy says it is going to be up to 63 percent or 64 percent in the year 2006. What does that do to the vulnerability of the United States? It means we become more dependent on Iraq.

What about Saudi Arabia? When we look at the terrorist activities in New York, we find most of the passports are from Saudi Arabia. It is a very unstable area, and we are becoming more and more dependent. Is it not in our national interest to reduce our dependence? The answer is clearly yes.

Let me reflect on one more thing. We have not had an inspector in Iraq in several years, under the U.N. agreement. We don't know what Iraq is up to. But as we reflect on the terrors and tragedies that have already occurred in this Nation, we recognize we should have acted sooner. We knew who bin Laden was. We knew about al-Qaida. Yet we did not act, and we know the consequences. The consequences became evident on September 11.

What day of reckoning is going to come when we have to face what Saddam Hussein has been up to? Will it be after the fact or will we mandate that our inspectors go in there and address this threat now? I know what my recommendation would be. It is better sooner than later; sooner to take out the terrorism risks associated with Saddam Hussein.

I know this is something the administration is agonizing about and will be critical if, indeed, there is some action and we will not have taken action.

This is what this issue is all about. It is about the national security of this country and our increased dependence. I do not know how many of my colleagues remember 1973–1974, the Yom Kippur War. Some of us are old enough to remember we had gas lines around the block. The public was outraged, they were inconvenienced.

What was the result of that? We were 37 percent dependent on imported oil at that time. Now we are 58 percent dependent. You figure it out. It is pretty easy. Our vulnerability has increased. Make no mistake about it, with the unrest in the Mideast we are going to have a crisis. I can tell you, every Member of this body will be standing in line behind me to open up ANWR. They will say we have to increase our domestic production.

What is this bill anyway? Partially, as I have indicated, it is a bill in the national security interests of our country. I ask my colleagues, are they going to stand behind the environmental lobby, that has used this as a cash cow for membership and dollars? There is no evidence to suggest we can't open this area safely. This is my State. We support opening ANWR. We were there when the arguments in the 1960s were prevailing against opening Prudhoe Bay and building an 800-mile pipeline.

Let me tell you what that has done. That has provided this Nation, for several years—it has been operating 27 years—for several years with 25 percent of the total crude oil produced in this country. That was about 2 million barrels a day. Today it is a little over 1 million barrels, a little over 20 percent.

Where was that issue in the 1960s? That issue was before the Senate. It was a tie vote. The Vice President broke the tie, and it passed by one vote. That is how close it was. Where would we have been if we had not done that? Instead of 58 percent, we would probably be somewhere in the area of 68 percent dependent on imported oil.

What were the arguments then? You are going to build an 800-mile pipeline from Prudhoe Bay to Valdez. It is going to be like a fence across Alaska, and the caribou and the moose are not going to cross it. It is going to have a terrible effect on the environment. You are putting a hot pipeline in permafrost, and when the hot pipeline melts the permafrost, it is going to break.

It has been there 27 years, one of the construction wonders of the world. All the doomsayers' arguments then are the same arguments now: You can't do it safely; you can't protect the caribou.

They are all false. Go up to Prudhoe Bay and you find the caribou herd is 27,000. It was 3,000 or 4,000 in the late 1960s.

Talk about polar bear habitat—you can't shoot a polar bear in the United States, and Alaska is part of the United States. You can in Russia. You can in Canada.

So as we reflect upon what we are about to embark, I encourage my colleagues and you, Madam President, to reflect on the prevailing arguments that were used 27 years ago and the prevailing arguments that we are using now. As I indicated, the argument then was a hot pipeline through permafrost; it was a fence across Alaska; it was whether or not we could do it safely; it was the caribou herd—all of which history has proven we have been able to do. We have overcome the problems and responsively addressed them.

One can go up to Prudhoe Bay and get off the airplane and walk over to where the pickups are. Do you know what you see under every single pickup? You see a diaper. It is under the pan of the car. It is a big cotton thing to pick up a drop of oil that spills. As you know, in your own driveway you get drops of oil. That is the extent they go to, to try to maintain the maximum environmental oversight.

As we address this ANWR issue, keep in mind the arguments of those opposed to it. They say it is a 6-month supply of oil. We all know that is only if you didn't have any oil produced in this country or any oil imported into this country. To what does it equate? We don't really know, but the latest USGS reports say 5.6 billion to 16 billion barrels. How does that compare with anything you and I can understand? You can compare it with what Prudhoe Bay has produced in 27 years. Prudhoe Bay was supposed to produce 10 billion barrels. It is on its 13 billionth barrel now. If you took half of the range of ANWR, 5.6 and 16, and said it was 10, it would be as big as Prudhoe Bay.

The infrastructure is already in place. You have a pipeline 800 miles long that is only half full. This is not a big issue, in the sense of reality. Yes, it is a significant amount of oil, if it is 10 billion barrels. If it is 16, it is even better. But if it is 3.5, you will not even develop it because you have to have a major discovery in order to develop in the higher Arctic altitudes associated with drilling in that part of the world.

It is either there in abundance—and it has to be to make a difference—or it isn't. They say it will take 10 years. Come on. If President Clinton had not vetoed the bill in 1995, it would be on line now. He vetoed it. Why? Same response: The environmental community pressured. The cash cow generates membership, it generates dollars. And they are milking it for all it is worth, and will continue until we prevail. Then they will go on to another issue.

What about the Porcupine caribou? We have already addressed that with the caribou comparison in Prudhoe Bay, where they have flourished. As I indicated before, it was a short break.

We don't shoot polar bear. You can't take trophy polar bear in Alaska. They are marine mammals, they are protected. If you want to protect the animals, you don't shoot them; you don't take them for food, or subsistence.

There are very few taken for subsistence, I might add.

These are some of the arguments we are going to be addressing.

Furthermore, this is a big jobs bill. Find an issue that employs 250,000 people. These are high-paying jobs. That is why the unions support it. It will generate somewhere in the area of $2.5 billion in Federal lease sales because these are Federal leases that will come back into the Treasury. It won't cost the taxpayers one red cent. Find a better stimulus.

What about the veterans in this country? They are for it because they do not want to fight another war in a foreign country over oil.

I am always reminded of my good friend, Mark Hatfield. He is a pacifist who said before this body time and time again, I will vote for opening this area any day rather than send a young man or woman overseas to fight in a war over oil in a foreign land.

We talk about alternative energy. I indicated that I support it. But let me tell you about a little comparison. I have some graphs that will show this. One of the largest wind farms in the United States is located outside of Palms Springs. It is between Palm Springs and Banning, CA. I think it is called San Jacinto. That farm has hundreds of windmills that move when the wind blows. They do not move all the time. The footprint there is 1,500 acres. You see it and you say: Wow, there are a lot of windmills there.

What is the equivalent of that in oil production? That would be equivalent to 1,350 barrels of oil a day from 1,500 acres. What is ANWR? ANWR is 2,000 acres. The equivalent production is 1 million barrels a day. I support wind power, but if you are looking for relief, you had better put it in an equation that makes sense and that people can understand. From 1,500 acres, the equivalent from that wind farm is 1,350 barrels of oil. ANWR's footprint as authorized in the House bill is 2,000 acres. That is equivalent to 1 million barrels per day.

Let us remember the bottom line—our national security. What could this do for the U.S. steel industry? When we built that 800-mile pipeline, do you know what the U.S. steel industry did? This was the largest order ever in the United States—800 miles of 48-inch pipe. They did absolutely nothing. They said: We don't have the capacity for an order that big. Where did it come from? It came from Korea, it came from Japan, and it came from Italy. If the steel unions and the steel industry want to get their act together, let us go after some domestic business. You will have some more domestic business associated with opening up ANWR.

I encourage my colleagues again to reflect a little bit. I hope everybody's conscience bothers them about the manner in which this was laid down, without a committee process and without the jurisdiction of the Democratic chairman of the Energy and Natural Resources Committee. The leadership pulled it out of the committee because he knew we had the votes to get it to the floor and, furthermore, the dictatorial statement that even if we prevail, he is going to pull the bill. Come on. I have been around this place long enough to know what the democratic process is all about, the committee process is all about, and the traditions of the Senate are all about. This is the wrong way to start a bill.

I thank the Chair. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. CARPER). Without objection, it is so ordered.

EXTENSION OF MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent that morning business be extended until 4:30 today with Senators allowed to speak for a period not to exceed 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECESS

Mr. REID. Mr. President, I ask unanimous consent that the Senate stand in recess until 4:30 this afternoon.

There being no objection, the Senate, at 3:13 p.m., recessed until 4:31 p.m. and reassembled when called to order by the Presiding Officer (Mr. NELSON of Florida).

The PRESIDING OFFICER. The Senator from Nevada is recognized.

Mr. REID. Mr. President, I ask unanimous consent that the Senate stand in recess until 5:15 p.m. today.

There being no objection, the Senate, at 4:32 p.m., recessed until 5:15 p.m. and reassembled when called to order by the Presiding Officer (Mr. JOHNSON).

The PRESIDING OFFICER. In my capacity as a Senator from the State of South Dakota, I suggest the absence of a quorum. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

EQUAL PROTECTION OF VOTING RIGHTS ACT OF 2001—Continued

CLOTURE MOTION

Mr. REID. Mr. President, I send a cloture motion to the desk.

The PRESIDING OFFICER. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close the debate on S. 565, the election reform bill:

Christopher Dodd, Harry Reid, Charles Schumer, Ron Wyden, Debbie Stabenow, Patty Murray, Tom Daschle, Jeff Bingaman, Daniel Inouye, Carl Levin, Max Baucus, Joe Biden, Pat Leahy, James M. Jeffords, Barbara Mikulski, Bob Graham, and Edward M. Kennedy.

Mr. REID. Mr. President, I ask unanimous consent that the mandatory quorum with respect to the cloture motion be waived.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, for the information of the Senate, I would like to announce to all Members who have amendments on the finite list of amendments that first-degree amendments must be filed prior to 1 p.m., Thursday, February 28. If Members have already submitted amendments, then it is not necessary to resubmit an amendment.

Ms. CANTWELL. Mr. President, I would like to take this opportunity to commend Senators DODD, MCCONNELL, SCHUMER, and BOND for their dedication and diligence in addressing what I believe to be an issue of critical importance to our country—protecting voting rights and ensuring the integrity of the electoral system in our nation. Especially given the events in the world today, making certain that each citizen's vote is counted and promoting public trust and confidence in our election process is crucial.

The State of Washington has a long and trusted history as a leader in election administration. Through great efforts and cooperation, the state has pioneered such programs as motor voter, provisional balloting, vote by mail, and absentee voting.

I thank Senator DODD, the chairman of the Rules Committee for his support for an amendment that I offered with Senator MURRAY's support that has been adopted. The amendment guarantees that States are able to continue using mail-in voting, while also providing new safeguards to make mail-in voters aware of how to properly fill out their ballots, and how, if needed to obtain a replacement.

Voters in my State are proud of our system that offers voters the option of voting by mail or in the polling place, and they are extremely committed to seeing it continue. The mail-in ballot, in my opinion, offers voters several advantages. First, it allows voters to cast their ballots on their own time and at their own convenience. It also allows voters to make more informed choices, as they are able to consult literature sent by the state and by the campaigns in making their decisions. Because these votes are cast without the pressure of other voters waiting in line, or without the time crunch of being late to work or to pick up the kids, voters are also less likely to make mistakes that will disqualify their ballots.

In addition, the mail-in system is very secure. Each ballot that is cast by mail requires, that the voter sign the outer envelope. This signature is then checked against the voters signature that is kept on file and only when there is agreement that the signatures match is the ballot counted. Washington State has consistently increased the number of voters choosing to vote by mail and through provisional voting without any allegations that these types of voting have involved fraud or other misconduct. In fact, the procedures in place have consistently ensured the integrity and security of our elections and led to public confidence in our system that is unparalleled anywhere in the country.

It has not always been this way. In the early 1990s, we had several close elections that pointed out the vulnerabilities in our system. These close elections led Washington to become one of the first states to adopt statewide guidelines that ensured that each jurisdiction followed the' same rules in determining how ballots are verified and counted. In addition, my State also adopted other requirements for testing and procedural consistency. It is my hope that this legislation will lead other States to follow our example and institute similar guidelines and procedures that will result in more people voting and making sure that all votes are properly cast and counted.

Our challenge, at the federal level, is to ensure that in passing legislation that reduces hurdles to civic participation across in country, we respect the role of the States in selecting types of voting that work well for their citizens and lead to maximum participation. I believe that this bill as amended does that, and I thank the chairman of the Rules Committee for his commitment to this bill and to ensuring that States have the flexibility to keep their systems in place.

This bill, by setting minimum standards and by guaranteeing the Federal Government will provide the funds necessary to purchase new equipment, takes very important steps forward in guaranteeing to every American that not only do they have the right to vote, but that when they cast their vote it will be counted.

MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent that the Senate now proceed to a period of morning business with Senators allowed to speak therein for a period not to exceed 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

TRIP TO LATIN AMERICA

Mr. SPECTER. Mr. President, I would like to report briefly on a trip to Latin America which I made last month before the Senate went into session in January.

This trip took me to a number of Latin American countries to discuss issues of trade and drug control. The first stop was in Havana, Cuba, where I had an opportunity to talk to President Fidel Castro about the serious situation in Cuba on the deprivation of human rights, and about the failure in Cuba to have contested elections. I urged President Castro to run in a contested election.

I had the opportunity to meet with President Castro about 30 months earlier in June of the year of 1999 and made the same points to him. However, emphatically, again, when I challenged President Castro to run against someone in a contested election, he told me he did have an opponent. His opponent was the United States of America. He said this in more of a humorous way. The United States policy toward Cuba, I think, has tended to make, if not quite a martyr, at least a sympathetic person of President Castro.

We talked about a great many things. With my background as assistant counsel of the Warren Commission, I asked President Castro if there was any connection between Lee Harvey Oswald and Cuba. There had been rumors at the time that Castro and Cuban officials may have put Oswald up to the assassination of President Kennedy. Those rumors were based upon the CIA efforts to assassinate Castro in that era. Oswald was a part of the Fair Play for Cuba Committee, which had a rally in New Orleans. When I asked that of President Castro, he said he was not responsible for Oswald. He was a Marxist, and not a madman. We talked in some detail about the Cuban missile crisis in 1962 and why Castro permitted the Soviets to have missiles in Cuba. He tried to defend that, I think unpersuasively, with the threats to himself from the Bay of Pigs invasion and the CIA assassination attempts.

Before going to see him 30 months ago, I checked with the records of the Church Committee, and found, in fact, that there was evidence about efforts to assassinate Castro—maybe 8 or 9 such attempts. When I told Castro that number, he laughed, and said that there had been many, many more attempts than that—something in the 300 range. I asked him how it felt to be the subject of assassination attempts.

He said: Muy bien.

This is Spanish for "very good."

I said: No, no. How did it really feel when they were trying to assassinate you?

Again, he said: Muy bien.

I said: No. How did it really feel?

He said: Do you have a sport?

I said: Yes. My sport is squash.

He said, through the interpreter: Well, avoiding assassination is a sport for me.

I talked to Castro in some detail about his willingness to have Cuban airspace and Cuban waters used by the United States to detect drug trafficking. Toward that end, I offered an amendment to the Foreign Operations Appropriations bill a year and a half ago, which was defeated in conference. I offered a milder bill this year which was accepted, calling for a report from the State Department. However, when Castro makes an offer to allow Cuban waters and Cuban airspace to interdict drug traffickers, that is an offer we ought to accept. Drugs are polluting a generation of Americans and they are a major cause of street crime in America, which is something that I fought against as District Attorney of Philadelphia. If we can stop the flow of drugs with Castro's assistance, we ought to take him up on that offer.

There have been some changes in U.S. policy toward Cuba. The House of Representatives submitted a bill with a provision to ease travel restrictions, which was dropped in conference. It is my view that it is a very small step which ought to be uncontested.

We then traveled to other Latin American countries. We were in Argentina, where it is well-known that there is a tremendous financial crisis. Argentina has lived beyond its means. They have the inability to pay major suppliers, after having talked to major U.S. firms, such as Exxon-Mobil, IBM, and General Motors. They cannot withdraw money from their bank accounts to pay their suppliers. The International Monetary Fund is working on the matter.

It would be my hope that the United States would provide some leadership and some expertise to try to bring Argentina out of this economic crisis. I think a good bit of the record from the United States and the International Monetary Fund has been too harsh. I think we can make our point without language which borders on arrogance or borders on insults because Argentina is a very important country in Latin America.

One of the problems with Latin America is the frequency of the dictatorships, such as Juan Peron in Argentina, as well as those in Chile and Brazil. It is just a way of life there. Trade with the United States, I think, is very important to promote democracy.

In Peru there was great concern regarding the trade agreement with the United States that had lapsed in December. It is my hope that this trade bill will be acted upon by the Congress at an early date.

In Chile they are waiting for a trade bill to be enacted, with some ten rounds of negotiations. The President of Chile is willing to have an agreement, even if it is not fast tracked, and even if there would be amendments offered on the floor of the Senate or the House of Representatives.

In Uruguay we met with the distinguished President Jorge Batlle. We have a very distinguished U.S. Ambassador there, Martin Silverstein, a Pennsylvanian. We took a look at the coastline, with the attractive apartment houses in Montevideo. Uruguay is quite a contrast to the barren coastline of Havana, Cuba, showing what free enterprise and democracy can do if it is permitted to operate.

Mr. President, I would just like to add another comment or two about Brazil, where we met with the equivalent of our National Security Adviser. There is a little area where Paraguay, Brazil, and Argentina meet where there are supporters of Hezbollah posing quite a threat to that area. In Buenos Aires, we met at the Jewish Community Center with leading Jewish officials there and were told, in detail, about the bombing of the Jewish Community Center in 1994 and the attack on the Israeli Embassy. I was pleased to note that the Brazilian officials are looking into this issue as to the potential terrorist activity arising out of this group in that little section where Paraguay, Brazil, and Argentina meet.

On January 2, 2002, we arrived in Havana, Cuba for two days of meetings with human rights activists, religious leaders, medical researchers, our U.S. country team, and President Fidel Castro. When we arrived in Cuba, we were met by the U.S. country team, who briefed us on the current situation in Cuba.

We began by meeting with a delegation of human rights activists, all of whom had been jailed during the Castro regime on various charges. When asked why he was jailed, one of the dissidents, Oswaldo Paya Sardinas, President of the Christian Liberation Movement, expressed the general sentiment of the group that he was jailed for the anti-Castro opinions he publicly expressed. When I asked them their opinion on the embargo, the group of Cuban dissidents was split on the advisability of continuing the U.S. embargo with Cuba.

Next we traveled to the Finlay Institute in Havana, a research center dedicated to the development and testing of vaccines. Our briefing on the Finlay Institute's work was conducted by a team of researchers including Dr. Concepcion Campa, director of the Institute and leader of the team that developed the vaccine for meningitis B. Supported entirely by the Cuban Government, the Finlay Institute, which I had previously visited in June 1999, is one of the 45 biotechnology facilities supported by government funds. The Cuban Government has demonstrated a commitment to medical research and cooperative agreements, such as the one the Finlay Institute entered into with GlaxoSmithKline in 1999, licensed by the U.S. Treasury Department. This agreement represents a positive and productive relationship with this ostracized nation.

The next morning we met with a delegation of Cuban officials, including the Minister of Justice Roberto Sotolongo and Oliverio Montalvo, the drug enforcement chief. Minister Sotolongo responded to my question regarding the advisability of cooperation between the United States and Cuba on the drug issues with his hope that the issue not be politicized. He further stated that exchanges of information between the United States and Cuba could net real results in preventing drugs from entering the United States through this region. The Ministers wanted us to know that Cuba is actively involved in intercepting and destroying contraband found in Cuban waters en route to the United States and elsewhere.

Minister Sotolongo detailed the 1996 incident involving the Limerick, a successful joint United States-Cuba drug interdiction operation. The Limerick, carrying 6.5 tons of cocaine drifted into Cuban waters and was impounded. All the evidence was turned over to the United States, and those involved were tried and convicted in a court with the participation of Cuban officials.

Our time in Cuba concluded with a meeting with President Fidel Castro, which lasted 6½ hours. Many issues were discussed, including our earlier meeting with the dissidents. President Castro did not directly respond to the merits of the dissidents' issues, but chose instead to reprimand our congressional delegation for holding meetings independent of the schedule that his functionaries had in mind for us. We flatly rejected his objection.

Our conversation with President Castro began with a wide-ranging discussion on drug interdiction. President Castro suggested a formal relationship with the United States in order to make progress on drug interdiction efforts in the area. This was a suggestion made to me by General Barry McCaffrey, former head of U.S. drug policy in the previous administration. When asked if he wanted the embargo against Cuba lifted, President Castro responded, "Can you doubt that?"

We spoke of the September 11, 2001 terrorist attacks on America and President Castro was asked to condemn Osama bin Laden. While making general statements against terrorism, President Castro would not condemn bin Laden, feigning a lack of evidence in his possession to make such a condemnation. The President also offered that he had not heard of Osama bin Laden prior to September 11, 2001 incidents and closed our meeting with a call for a bilateral agreement with Cuba to fight terrorism.

As we arrived in Cuba, the United States' decision to transfer detainees from Afghanistan to Guantanamo Bay was being announced publicly. President Castro had issued a press release saying that the Government of Cuba had too little information to comment on the U.S. plan to use Guantanamo Bay for Afghan detainees. At the news conference on January 4, 2002, before our departure, I was asked about the issue and said that my apprisal was that President Castro was not going to object to the U.S. plan to use Guantanamo Bay because if he had an objection, he would have already expressed it. My meetings with President Castro, religious leaders, human rights activists, and medical researchers lead me to believe that we must continue to support and expand our people-to-people relationships with Cuba. There are many areas of mutual concern between our two countries, including drug interdiction and medical research.

On January 4, 2002, Senator CHAFEE and I traveled to Lima, Peru and were met by Ambassador John Hamilton. Our meeting with President Alejandro Toledo included Foreign Minister Diego Garcia Sayan, First Vice President and Minister of Industry and Trade Raul Diez Canseco, Trade Vice Minister Alfredo Ferrero, and drug czar Ricardo Vega Llona. We first exchanged welcoming statements and our expressions of sympathy to Peru for the tragedy that took place just a week before our arrival in downtown Lima. A fire, stemming from fireworks, had set ablaze a shopping district and killed over 250, according to reports at that time.

The President made clear his desire for a renewed and expanded Andean Trade Preference Act (ATPA) and for continued assistance in combating the drug trade. President Toledo expressed concern that the trade agreement between the United States and Peru had lapsed on December 4, 2001, and urged that the Congress give it prompt consideration. He said that Peruvian farmers would be tempted to grow products for drug production instead of textile production, if the agreement was not extended. I told him I would urge prompt consideration by the Congress.

The President and Ministers made the case that eliminating the cocoa trade in Peru is essential to combat terrorism, and spoke strongly to the elimination of the narco-terrorism as a "matter of national security." With regards to the general state of the Peruvian economy, the President reported that they were coming off of 3 years of little or no growth, further reporting that the Peruvian economy is affected by the overall world economy. Senator CHAFEE and I were further debriefed on the state of the Peruvian economy by the Minister of Economy and Finance Pedro Pablo Kuczynski.

The President further described his "full commitment" to reform of the Peruvian judicial system. In a separate meeting, I queried the drug czar and his colleagues further on the progress of the drug war in Peru and the region. There was general agreement with my point that progress is difficult without a reduction in the demand for drugs. Meeting participants reiterated the need for the Andean anti-drug plan, which offers increased intelligence sharing, regional air coverage, and maritime cooperation among the Andean nations. Further, it was emphasized that an alternative crop or industry to drug crops was essential for local farmers.

From Lima, Peru, Senator CHAFEE and I traveled to Santiago, Chile on January 6, 2002. After our meeting with President Ricardo Lagos, I wrote a letter to President Bush and Treasury Secretary Paul O'Neill expressing President Lagos' strong support for the United States-Chile Bilateral Free Trade Agreement (FTA) without linkage to passage by the U.S. Congress of trade promotion authority. President Lagos expressed his concern that ongoing congressional negotiations with the White House regarding trade promotion authority may further delay consideration of the Bilateral FTA with Chile. The President further stated that Chile wants "trade not aid."

Additional topics discussed included the potential F–16 sale to Chile, as well as the Pinochet and Letelier/Moffit cases. On December 27, 2000, the Chilean Ministry of Defense announced that the Government of Chile had authorized the Chilean Air Force to initiate discussions on the purchase of 10 Lockheed Martin F–16 Fighting Falcons, Block 50, from the United States. The F–16 was chosen over the French Mirage and the Swedish Gripen on its merits in a competitive, transparent selection process.

Regarding the Letelier/Moffit case, which involved the 1976 car bomb murder in Washington, DC of former Chilean Ambassador to the United States Orlando Letelier and his American citizen assistant, Ronnie Moffit. I told the President that the jail sentences of 6, 7, and 8 years, which were given to those involved in this terrorist act on U.S. soil, were not sufficient in my opinion and asked his opinion on the extradition of those individuals to the United States for trial. President Lagos responded that he cannot take a position that would appear to pressure the court, but that his impression was such that the court, on its own, might well order extradition.

Concerning counter-terrorism and the events of September 11, 2001, the President expressed strong condemnation of the terrorist attacks. This expression is in keeping with the Lagos administration's action immediately following the terrorist attacks in the United States. As head of the RIO Group of Latin American countries in 2001, Chile leads the coordinated counter-terrorism efforts for the group.

On January 8, 2002, Senator CHAFEE and I arrived in Buenos Aires, Argentina, just one week after the latest President was installed during this tumultuous time in that country. Newly-installed President Eduardo Duhalde, the fifth president in 13 days, is confronted with a bankrupt government and a citizenry deeply dispirited after 4 years of a worsening economy and recent political instability. It is unclear at this time if this administration is capable, or willing, to put together a viable long-term economic plan to pull Argentina out of its very serious economic situation.

President Duhalde told us that his administration would have a new budget passed within 15 days with a plan to retire his country's industrial debt, which could then justify further aid from the International Monetary Fund. Corporate representatives from Bank of Boston, General Motors, IBM, and ESSO detailed the extremely difficult business environment, including a freeze of all banks that precluded the paying of suppliers and subcontractors. This issue, along with the ongoing currency crises, made for an extremely precarious business environment as described by the executives.

Senator CHAFEE and I visited the Jewish Community Center and the site of a 1994 terrorist attack that killed eighty-four people. Upon our arrival to the Community Center, it was explained to us that the line in front of the building was persons visiting the visa office applying for travel to Israel as an escape from the Argentine economic situation.

On January 10, 2002, Senator CHAFEE and I proceeded next to Montevideo, Uruguay for meetings with President Jorge Batlle and the Chief of Staff and National Drug and Anti-Terrorism Coordinator Leonardo Costa. We were accompanied by Ambassador Martin Silverstein, a Pennsylvanian, who is serving with distinction.

We met with President Batlle for over one and one-half hours discussing Argentina, International Patent Rights (IPR), free trade issues, and narcotics. Regarding the Argentine economic crisis, the President was generally optimistic, providing that the new government follows the programs of the newly-installed Economic Minister Jorge Lenikov. President Batlle stated that President Duhalde appeared to have a strong majority within the Parliament.

On International Patent Rights, the President expressed disagreement with the U.S. Government's approach to IPR legislation. While he favors drug legalization, he would not implement such a policy without an international consensus. I took the opportunity to praise the President's support for Free Trade Area of the Americas and free trade, pointing out that this seemed to contrast with the government's unwillingness to enact a strong copyright bill, which is an essential tool for attracting investment.

On January 11, 2001, we traveled to Brasilia, Brazil where our first meeting was with representatives from the Brazilian Ministry of Health to discuss the government's response to HIV and AIDS. A comprehensive presentation by Claudio Duarte da Fonseca and Rosemeire Munhoz with the Health Ministry detailed Brazil's national response to their growing numbers of HIV and AIDS cases. Governmental lead efforts include prevention campaigns, mass media campaigns, behavioral interventions, condom distribution, and a policy of universal and free-of-charge access to ARV drugs.

Our meeting with General Alberto Cardoso, the counterpart to our National Security Adviser, provided assurances of cooperation from his country with the U.S. and Israel efforts to oppose financing of Hezbollah terrorism from an enclave at the border of Paraguay, Argentina, and Brazil. There was no reason to believe that support has come from residents of that area for the bombing of the Israeli Embassy in Argentina in 1992 and the Jewish Community Center in Buenos Aires in 1994. With the worldwide focus on cutting off terrorist funding, the tri-border area is under international scrutiny.

I yield the floor.

The PRESIDING OFFICER. The Senator from Connecticut is recognized.

Mr. DODD. Mr. President, first of all, I ask unanimous consent to speak as in morning business for 2 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

THE LATIN AMERICA TRIP

Mr. DODD. Mr. President, I wanted to commend our colleague from Pennsylvania who took a trip to Latin America. He talked about it and I commend him for doing that. A lot of attention is being focused—rightfully so—on Southwest Asia because of events since 9–11. I think it is refreshing that a couple of colleagues took the time to visit this hemisphere and the countries they did and to bring back to the U.S. Senate their own observations about events in Cuba, Chile, Uruguay, and Brazil.

I commend our colleague from Pennsylvania. I believe our colleague from Rhode Island, LINCOLN CHAFEE, was along on that trip, and others may have been there also. I thank him for reporting to us on their observations.

CLOSING THE DIGITAL DIVIDE

Mr. BIDEN. Mr. President, I rise today, as we near the end of Black History Month, to focus attention on the widening gap between those Americans who use or have access to telecommunications technologies, like computers and the Internet, and those who do not. Surprisingly, there are those naysayers who suggest that the "digital divide" does not exist, that it is a myth or fabrication of consumer and civil rights advocates. Perhaps it is because the term "digital divide" has been so over-used and, in some instances, mis-used that it causes some to doubt its existence. Perhaps the term has so thoroughly infiltrated our everyday discourse that it causes skeptics to under-estimate its very real and powerful consequences.

No matter the reason for these naysayers' doubt, the unequivocal answer to their question "is there really a digital divide" is a resounding "YES." A series of reports issued by the U.S. Department of Commerce not only confirms that the "digital divide" exists; it suggests that, while the number of Americans accessing the Internet has grown rapidly in recent years, the technology gap between poor and minority communities, on one hand, and other Americans, on the other, is actually widening.

Take this seemingly encouraging example: from December 1998 to August 2000, the percentage of African-American households with Internet access more than doubled, from 11.2 percent to 23.5 percent—an encouraging development, by any measure. But during that same time period, the percentage of total households nationally with Internet access soared to 41.5 percent. And the access rates for White Americans and Asian-Americans/Pacific Islanders—46.1 percent and 56.8 percent, respectively—significantly outpaced that national average. As a consequence, the already substantial gap between African-American Internet usage and national usage grew 3 percentage points. The gap was even greater when comparing African-American usage with that of White Americans or Asian-Americans and Pacific Islanders. Similarly, during that same 20-month period, the gap between Hispanic households with Internet access and the national average grew 4 percentage points.

The effect: What was once a gap is now swelling into a chasm. Just this morning, the Wall Street Journal reported that, in 1997, ten percent of Americans earning less than $25,000 a year used the Internet, compared with 45 percent of those earning more than $75,000. By 2001, despite increased usage by both groups, the "gap" had grown to 50 percentage points.

Yes, the "digital divide" exists, and that fact should concern us greatly. In today's information age, unequal access to the national information infrastructure affects nearly every part of our lives. Access to these networks increasingly dictates the ease with which we can pursue education, conduct our financial affairs, apply for a job, or participate in the political process. Lack of access will only reinforce and magnify already existing inequalities in these important areas of life.

Against that backdrop, I am shocked by the Bush administration's apparent efforts to dismantle many programs designed to eliminate the inequality of access to technology. These programs, including the popular E-Rate Program, have a demonstrated record of success connecting roughly 1 million public school classrooms and 13,000 community libraries to modern telecommunications networks. Moreover, the vast majority of the funding is dedicated to low-income communities, and significant dollars flow to schools under the Bureau of Indian Affairs. By all accounts, these initiatives are working, yet the Administration is maneuvering to eliminate them one by one.

Don't be fooled: This is not a debate about electronic gadgets or computer megabytes. It is a debate about who gets to speak and who gets to listen. At its heart, it implicates the very nature of our democracy.

It is a debate about who among us, as the information revolution takes off, will be left behind. Electronic commerce has become a critical factor in determining future economic development and prosperity. Communities and individuals without access to the Internet will be excluded from that growth. The sadness, however, is that, by leaving some behind, we impoverish not only those individuals, we also impoverish ourselves. None of us will enjoy sustained economic growth unless we expand the information revolution to all parts of our society.

With that in mind, we cannot afford to make technology decisions based on dated and ill-conceived perceptions about the interest or ability of minorities and poor people to purchase certain "high-end" technology. Nor can we simply bypass low-income and minority communities, where the telecommunications and electronic network infrastructure may be older and, therefore, less able to provide more sophisticated services. To the extent that technology, including the Internet and telecommunications services, is deployed in a way that avoids poor and minority communities, we must do all that we can to deter this form of redlining.

Toward this end, the administration should keep its promise to invest $400 million to create and maintain more than 2,000 community technology centers in low-income neighborhoods by 2002. The role that community technology centers plays in helping to bridge the digital divide cannot be overstated. Community technology centers are instrumental in closing the information technology divide, and, by tapping demand for these services, supporters of community technology initiatives can open up new markets for companies that serve the Internet economy.

The development of information technology holds great potential to strengthen and invigorate American society. That potential cannot be fully realized, however, unless we pay attention to the hundreds of thousands of individuals, many of whom reside in largely minority and/or low-income communities, who have no, or limited, access to our burgeoning national information infrastructure. We can, and must, inform decisionmakers about the true value of minority markets receptive to advanced services. We must provide private industry with incentives to deploy in these markets. And, perhaps most important, we must continue to make public investments in underserved communities. Our failure will only dampen private sector and philanthropic efforts, and, more tragically, handicap a generation of Americans for years to come.

TESTIMONY OF RICHARD PERLE BEFORE THE SENATE FOREIGN RELATIONS COMMITTEE

Mr. HELMS. Mr. President, Mr. Richard Perle is currently Resident Fellow at American Enterprise Institute and chairman of the Defense Policy Board of the Department of Defense, and served as Assistant Secretary of Defense for International Security Policy in the Reagan administration. He gave this testimony at a Senate Foreign Relations Committee hearing this morning on the subject of "How Do We Promote Democratization, Poverty Alleviation, and Human Rights To Build A More Secure Future?" Mr. Perle's testimony was superb, and I commend it to all.

Mr. President, I ask unanimous consent that this statement by Richard Perle be placed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

STATEMENT OF RICHARD PERLE, FELLOW, AMERICAN ENTERPRISE INSTITUTE, BEFORE THE COMMITTEE ON FOREIGN RELATIONS, UNITED STATES SENATE

Mr. Chairman, I appreciate your invitation to participate in the Committee's hearing which poses the question "How do we promote democratization, poverty alleviation and human rights to build a more secure world?" These three ideas, poverty, democracy and human rights that are often linked as we try to think our way through the vexing problems of national and international security.

The phrase "a more secure world" is almost certainly prompted by the discovery, on September 11, of how insecure we turned out to be on that day. In any case, hardly any discussion takes place these days that is not somehow related to terrorism and the war against it. For my part, this morning will be no exception.

Let me say, at the outset, that the idea that poverty is a cause of terrorism, although widely believed and frequently argued, remains essentially unproven. That poverty is not merely a cause, but a "root cause," which implies that it is an essential source of terrorist violence, is an almost certainly false, and even a dangerous idea, often invoked to absolve terrorists of responsibility or mitigate their culpability. It is a liberal conceit which, if heeded, may channel the war against terror into the cul de sac of grand development schemes in the third world and the elevation of do-good/feel-good NGO's to a role they cannot and should not play.

What we know of the September 11 terrorists suggests they were neither impoverished themselves nor motivated by concerns about the poverty of others. After all, their avowed aim, the destruction of the United States, would, if successful, deal a terrible blow to the growth potential of the world economy. Their devotion to Afghanistan's Taliban regime, which excluded half the Afghan work force from the economy and aimed to keep them illiterate as well as poor, casts conclusive doubt on their interest in alleviating poverty.

Poverty—or poverty and despair—is the most commonly adumbrated explanation for terrorism abroad—and crime at home. Identifying poverty as a source of conduct invariably confuses the matter. We will never know what went through the mind of Mohammed Atta as he plotted the death of thousands of innocent men, women and children, including a number of Moslems. We do know that he lived in relative comfort as did most, perhaps all, of the 19 terrorists—15 of them from affluent Saudi Arabia.

If we accept poverty as an explanation we will stop searching for a true, and useful, explanation. We may not notice the poisonous extremist doctrine propagated, often with Saudi oil money, in mosques and religious institutions around the world.

If we attribute terrorism to poverty, we may fail to demand that President Mubarak of Egypt silence the sermons, from mosques throughout Egypt, preaching hatred of the United States. As you authorize $2 billion a year for Egypt, please remember that these same clerics are employees of the Egyptian government. It is not a stretch to say that U.S. taxpayer dollars are helping to pay for the most inflammatory anti-American ranting.

So when you hear about poverty as the root cause of terrorism, I urge you to examine the manipulation of young Muslim men sent on suicidal missions by wealthy fanatics, like Osama bin Laden, whose motives are religious and ideological in nature and have nothing to do with poverty or privation.

Mr. Chairman, this hearing is about building a more secure future; and I know it will come as no surprise if I argue that doing that in the near term will require an effective military establishment to take the war on terrorism to the terrorists, to fight them over there because they are well on the way to achieving their murderous objectives when we are forced to fight them over here. For once those who wish to destroy Americans gain entry to the United States and exploit the institutions of our open society, the likelihood that we will stop them is greatly diminished.

This is why President Bush was right to declare on September 11 that "We will make no distinction between the terrorists who committed these acts and those who harbor them." This was not the policy of the last Democratic administration or the Republican one before it. It is not a policy universally applauded by our allies. But it is a right and bold and courageous policy and the only policy that has a reasonable prospect of protecting the American people from further terrorist acts.

Dealing effectively with the states that support or condone terrorism against us (or even remain indifferent to it) is the only way to deprive terrorists of the sanctuary from which they operate, whether that sanctuary is in Afghanistan or North Korea or Iran or Iraq or elsewhere. The regimes in control of these "rogue" states—a term used widely before the last administration substituted the flaccid term "states of concern"—pose an immediate threat to the United States. The first priority of American policy must be to transform or destroy rogue regimes.

And while some states will observe the destruction of the Taliban regime in Afghanistan and decide to end their support for terrorism rather than risk a similar fate, others will not.

It is with respect to those regimes that persist in supporting and harboring terrorists that the question of the role of democratization and human rights is particularly salient. And foremost among these regimes is Saddam Hussein's Iraq.

The transformation of Iraq from a brutal dictatorship, in which human rights are unknown, to a democratic state protecting the rights of individuals would not only make the world more secure, it would bring immediate benefits to all the people of Iraq (except the small number of corrupt officials who surround Saddam Hussein).

I believe that this is well understood in the Congress, which has repeatedly called on the administration to support the Iraqi National Congress, an umbrella group made up of organizations opposed to Saddam's dictatorship. The INC is pledged to institute democratic political institutions, protect human rights and renounce weapons of mass destruction. As we think through the best way to change the regime in Iraq, it is precisely the proponents of democracy who deserve our support, not the disaffected officer who simply wishes to substitute his dictatorship for that of Saddam Hussein.

I hope, Mr. Chairman, that the Congress, which has been well ahead of the executive branch in recognizing this, will succeed in persuading this administration, although it failed to persuade the last one, that our objective in removing Saddam's murderous regime must be its replacement by democratic forces in Iraq and the way to do that is work with the Iraqi National Congress.

Mr. Chairman, it goes without saying that democracies that respect human rights, and especially the right to speak and publish and organize freely, are far less likely to make war or countenance terrorism than dictatorships in which power is concentrated in the hands of a few men whose control of the instruments of war and violence is unopposed. As a general rule, democracies do not initiate wars or undertake campaigns of terror. Indeed, democracies are generally loath to build the instruments of war, to finance large military budgets or keep large numbers of their citizens in military establishments. Nations that embrace fundamental human rights will not be found planning the destruction of innocent civilians. I can't think of a single example of a democracy planning acts of terror like those of September 11.

We could discuss at length why democratic political institutions and a belief in the rights of individuals militate against war and terror and violence. But the more difficult questions have to do with how effectively we oppose those regimes that are not democratic and deny their citizens those fundamental human rights, the exercise of which constitutes a major restraint on the use of force and violence.

Here the issue is frequently one of whether we "engage" them in the hope that our engagement will lead to reform and liberalization, or whether we oppose and isolate them. I know of no general prescription. Each case, it seems to me, must be treated individually because no two cases are alike. Take the three cases of the "axis of evil."

In the case of Iraq, I believe engagement is pointless. Saddam Hussein is a murderous thug and it makes no more sense to think of engaging his regime than it would a mafia family.

In the case of Iran, I doubt that the goals of democratization and human rights would be advanced by engaging the current regime in Teheran. There is sufficient disaffection with the mullahs, impressive in its breadth and depth, to commend continued isolation—and patience. The spontaneous demonstrations of sympathy with the United States are brave and moving. We owe those who have marched in sympathy with us the support that comes from refusing to collaborate with the regime in power. The people of Iran may well throw off the tyrannical and ineffective dictatorship that oppresses them. We should encourage them and give them time.

In the case of North Korea end the policy of bribing them. Such a policy invites blackmail, by them or others who observe their manipulation of us—and it certainly moves them no closer to democracy or respect for human rights. We must watch them closely and remain ready to move against any installation that may place weapons of mass destruction or long-range delivery within their reach.

Mr. Chairman, I have only one recommendation for the Committee and it is this: to support enthusiastically, and specifically with substantially larger budgets, the National Endowment for Democracy. On a shoestring it has been a source of innovative, creative programs for the building of democratic institutions, often working in places where democracy and respect for human rights is only a distant dream. It may well be the most cost-effective program in the entire arsenal of weapons in the war against terror and for a more secure world. The Endowment, and even more the organizations that benefit from the Endowment's support, need and deserve all the help we can give them.

REMARKS OF JORGE CASTAÑEDA, MEXICAN SECRETARY OF FOREIGN AFFAIRS

Mr. DODD. Mr. President, I rise today to publicly thank my good friend Jorge Castañeda, Mexican Secretary of Foreign Relations, for taking the time out of his busy schedule to address the U.S.-Spain Council last weekend.

I have had the pleasure of chairing the U.S.-Spain Council for two years now, and each year our annual meetings have been informative and thought-provoking. At these meetings American and Spanish members of the Council discuss U.S.-Spain bilateral relations, but we also focus on the unique triangular relationship between the U.S., Spain, and Latin America, particularly Mexico. Our meetings are always candid, constructive, and informative, and I believe that they are particularly valuable for our membership. Part of what makes our annual meetings so successful is the high quality of the speakers that attend our conferences. This was truly evident when Secretary Castañeda delivered the address at our closing dinner last Friday in the Senate Caucus Room.

Having been an elected public servant for over 25 years, I have attended numerous dinners and receptions, and have heard countless dinner speeches. I can honestly say that Secretary Castañeda's speech ranks among the best I have ever heard. In his insightful remarks, Secretary Castañeda detailed his analysis of Mexican political history, and outlined his vision for the future of democracy in Mexico while drawing several parallels between Mexican political liberalization and the democratization of Spain after the fall of Franco. Secretary Castañeda's remarks were astute, thought-provoking, and engaging. Indeed, they are among the most comprehensive analyses of modern Mexico to date. I think that my colleagues, especially those with an interest in the Western Hemisphere, would have enjoyed and greatly benefited from the substance of these remarks had they been present at the dinner.

Dr. Jorge Castañeda is uniquely qualified to speak about Mexico's political situation. He is a man of enormous talent and experience, a leading intellectual, and now an important diplomat. He has thought and written extensively about international relations, and particularly Mexico's role in the global community. He was a world renowned academic before joining the Fox Administration, and has taught at the National Autonomous University of Mexico and at New York University. He is the author of twelve books, published in English and Spanish, and he has been a frequent contributor to noted publications such as Newsweek magazine, El País, and Reforma.

As Secretary of Foreign Relations, Secretary Castañeda has worked to build the image of a safe, honest, and peaceful Mexico that respects human rights and engages in political and social reform. He has also sought very successfully to strengthen his government's involvement on the global stage, both in this Hemisphere and in Europe.

In light of the fact that my colleagues were not able to be present to hear Secretary Castañeda speak, I ask unanimous consent that his remarks be printed in the RECORD. I urge my colleagues to take the time to read them. I know that they will enjoy and be better informed having done so.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

Ladies and gentlemen: I want to thank the U.S.-Spanish Council and my good friend Senator Chris Dodd for inviting me to join you here this evening. I am grateful for this opportunity to share with you some thoughts on Mexico's foreign policy.

As a result of Mexico's far-reaching process of reform and renewal, the government of President Vicente Fox has acquired a legitimacy that is almost without precedent in our country. This has had a profound impact on President Fox's domestic agenda. It has also forced us to rethink and retool our foreign policy so that it responds to the needs and priorities of a new democratic Mexico. Times have changed. Things have changed. And, Lampedusa not withstanding, let me assure you that not everything will remain the same.

This process of reform and renewal is uncharted territory for us in Mexico, but it should not be unfamiliar to those who have lived through or have studied democratic transitions in other countries. In the past few decades, many authoritarian regimes have come to an end not as result of violence, but through a peaceful and orderly process of democratization. Several factors came into play to make these transitions possible. One of the most significant among them was the growing role of civil society as a source of moral and political pressure, both at home and abroad. Also prominent was the influence of the media, both national and international, constantly challenging and undermining authoritarian regimes through public exposure. And obviously, the most significant factor was the balance of political forces within each nation and their willingness to enter into agreements that would facilitate the transition to a democratic regime.

All these factors have also been at play in Mexico, and they deserve a detailed examination in order to fully understand the country's recent democratic transition and its prospects for consolidation. However, I wish to focus my remarks here today on another crucial issue that does not often receive the attention it merits, in spite of the potentially decisive role that it can play in the consolidation of a democratic regime: the influence of international affairs and foreign policy in strengthening democracy.

There is often a positive correlation between democracy and international engagement or conversely between authoritarianism and isolation. That is why undemocratic governments tend to be defensive in their engagement with others. The less democratic a country is, the more likely that it will view the outside world with suspicion and will interpret any criticism as an affront to its sovereignty and to the rule of the few. Undemocratic governments today may pay utmost attention to domestic issues, while they regard international matters with mistrust, at best, or with fear and hostility, at worst.

The end of authoritarianism has a two-fold effect: it means building and consolidating democratic institutions and, at the same time, leaving behind the defensive and inward-looking attitude that had kept our country at a distance from the world community. This complex interplay between foreign policy and democracy has been part of other transitions, and I believe that Mexico can draw some important lessons from those experiences.

Perhaps the most relevant case for Mexico is the Spanish transition. In a recent book, aptly entitled "The Future is No Longer what it Used to Be," former President Felipe Gonzalez and journalist Juan Luis Cebrian provide a brilliant account of the political transition that allowed Spain to overcome its authoritarian legacy and consolidate a democratic regime. Some of the agonizingly complex issues that Spanish society had to resolve in this process are also pertinent, *mutatis mutandis*, to other countries: How to ensure that age-old authoritarian temptations would be effectively resisted and eventually eliminated? How to prevent new conflicts and long standing fractures within society from derailing the democratic process?

The Spanish transition to democracy boldly and creatively addressed these questions. The remarkably successful outcome of this process owed much to the responsible, stabilizing leadership of Spain's politica elites and media. This was most singularly achieved through the 1977 Constitution and the celebrated "Pactos de la Moncloa", which brought all major Spanish political forces together to agree on a basic framework for the Spanish State and for economic and social policy. But equally important was the role played by Spanish foreign policy in deepening and strengthening democracy, as well as, change across the board.

They keyb to this process was Spain's decisive shift towards European integration, which contributed enormously to democratic stability. The first crucial step in this direction was the country's decision to become a full fledged Party to the NATO, which Spain joined on May 1982, submitting its continued membership to a national referendum in 1986. This effectively put an end to its relative isolation and promoted the modernization and democratization of the armed forces, which henceforth were obliged to adhere to the same professional standards in place throughout the NATO's member nations.

The most significant foreign policy measure as far as the consolidation of democracy is concerned, however, was the decision to join the European Economic Community, as the European Union was known then. There was wide consensus among Social political leaders about the need to bind Madrid to Brussels, that is to say, to bring Spain into close association with the EEC nations, anchoring the modernization and democratization of the country within the regional institutions of a democratic Europe. Spain's request for entry had been submitted as early as 1977. But, it was President Felipe González and the *Partido Socialista Obrero Español*, who explicitly linked foreign policy and democratic consolidation as a State goal. They understood that the move towards Europe and the move towards democracy were complementary processes: if Spain was to be part of the European Economic Community and enjoy the benefits that this membership afforded in terms of trade and finance, it also had to maintain social policies and political institutions that were consistent with those of the EEC as a whole.

In assuming these responsibilities within the framework of NATO and the EEC, Spain was acting freely and on the basis of its own sovereign interests. The new demands placed on Spain by European membership were unquestionably binding, but were also the result of an internal and public debate and, as such, a deliberate choice by the Spanish people. It is in this sense that the importance of the foreign factor in the Spanish transition can contribute to understand the current process of change in Mexico.

The fact that foreign policy is a key element of Mexico's transition is neither a whim nor a fluke. Its source is the presidential election of 2000, which stands as a milestone in Mexico's recent political development. But it is also a purposeful response to the changes that have occurred in the international arena over the past decade, not least of which is the emergence of a growing international consensus regarding both the legitimacy of democratic institutions above all others and the respect for fundamental human rights, including basic civil and political rights, and the rule of law.

Under these new conditions, it is imperative to bring Mexico's relations with the rest of the world up to date. and in order to do so, President Fox established a two-pronged strategy. Firstly, it was necessary to provide greater depth to our long term relationship with the United States, which for historical as well as geopolitical reasons remains—and will continue to be in the foreseeable future—Mexico's most important and closest foreign partner. And secondly, given the hegemonic position of the US in the world area and the asymmetry of our bilateral relationship, Mexico needed to develop an additional major policy axis that would bring greater balance to our international agenda. This is the reasoning behind the country's more active engagement in regional and multilateral fora, such as the UN, the OAS, and other international mechanisms over the past year or so. But in addition to their own intrinsic merits and justifications these two external guidelines include fundamental domestic policy policy connotations.

They obviously face a series of constraints. Admittedly, our country today cannot rely, as Spain did, on an already existing institutional framework such as the one provided by the European Economic Community. There are no established supranational North American or regional institutions which may serve as an anchor for the process of democratization and modernization that we have undertaken; nor are there structural or cohesion funds through which financial assistance could be channeled to reduce inequalities between different countries and regions and foster socioeconomic convergence among European nations, as was the case within the EEC. In the absence of this framework, we need to actively and creatively develop new institutions that will promote North American prosperity and, in the process, help Mexico achieve a successful and definitive transition to democracy.

That is why we have, first, re-launched our bilateral relationship with the United States, introducing new issues, such as migration and energy seeking consistently and systematically to engage all actors across the spectrum of US society; and, most importantly, it explains why we are trying to establish a new conceptual framework for our relationship. What we envision is a new set of standing institutions that would allow for the free movement of capital, goods and services, and also people, so that we may gradually bring about a greater degree of uniformity in the levels of economic and social development within North America. This will require designing creative mechanisms to transfer resources for social cohesion and infrastructure, opening up our borders, and North American institution building to regulate and oversee this process of integration between the three countries. This may sound overtly ambitious and even far-fetched. But it should be doable and, more importantly, it is a right step in the same direction that was chosen over a decade ago for not entirely the right reasons.

Indeed, NAFTA was meant—and largely sold—as a means to lock into place economic convergence and macroeconomic policies. This was done, however, in a typically authoritarian fashion in Mexico, without authentic debate, transparency or consensus and some of the Treaty's most obvious shortcomings may be attributed directly to this.

Playing a more active role in the multilateral arena is the other road we have chosen abroad to consolidate democracy domestically. We are convinced that it is in Mexico's best interest to adapt itself to the new rules-based international system that is gradually emerging and we therefore now subscribe to the argument that certain principles are universal and enforceable above and beyond the sovereignty of the State. In this regard, also, there are important precedents in Mexico's recent past. The so-called "democratic clause" that was part and parcel of Mexico's Free Trade Agreement signed with the European Union in 1999 is evidence that, even before the full onset of democracy in Mexico, the country was being compelled to adhere to certain basic international standards if it wanted to have a more active international profile.

This is why Mexico has recently taken a more proactive role in international fora fighting racial discrimination and promoting the rights of indigenous peoples in the World Conference held in Durban last year; or strengthening democratic values and institutions in the Americas though the Interamerican Democratic Charter and throughout the world by joining the Community of Democracies; or adopting a more consistent stance in the proceedings of the UN Human Rights Commission; or actively working to increase transparency and combat corruption during the recent International Anti-Corruption Conference held in Prague; or hosting the UN sponsored International Conference on Financing for Development to be held next month in Monterrey; or hosting the forthcoming Ministerial Conference of the World Trade Organization in 2003.

These actions and the commitments not only promote key foreign policy interests, but they also, and most crucially, help to anchor Mexico's emerging democracy and process of change. They will contribute to prevent a future dislocation of the democratic process or the temptation to return to the authoritarianism of previous decades.

Let me give you an example. The government of President Fox has radically altered the country's traditional international stance on human rights, and has recently taken a number of important steps to guarantee their full observance within the country. Prominent prisoners, such as activists Teodor Cabrera and Rodolfo Montiel, fishermen Leocadio Ascencio and Aurelio Guzmán, and Mr. José Gallardo, a former member of the Mexican armed forces, were released from jail as a result of the President's decision to review their cases and find adequate solutions that fully respect the rule of law. They are part of an ambitious agenda for reform that has already allowed for the liberation of nearly a hundred other prisoners who had been detained because of their activities during the Chiapas uprising; the appointment of a Special Prosecutor to investigate past human rights violations, the subscription or ratification of 13 international treaties on issues such as discrimination against women, the exploitation of children or crimes against humanity or asking the Mexican Congress to ratify the Statute of Rome creating the International Criminal Court; and an agreement for the establishment of a regional delegation of the International Committee of the Red Cross in Mexico. But they are also, first and foremost, actions that seek to guarantee that international surveillance on these issues will strengthen democracy and human rights at home.

Ladies and Gentlemen: By overcoming authoritarian rule, Mexico is leaving behind its former defensive attitude and reaching out to the world in search for a new identity, just as Spain did more than 25 years ago. But while the similarities between the Spanish and the Mexican transitions are significant, the differences are equally revealing.

Whereas Spaniards were able to come to terms with their authoritarian past, Mexicans have yet to achieve reconciliation and a common sense of purpose of its real and longstanding democratic institutions by addressing the grievances of recent past history. Whereas the Spanish people immediately experienced the tangible benefits afforded by EEC membership, through infrastructure and cohesion funds aimed at overcoming backwardness and establishing a level playing field within the Community, Mexican society has yet to fully realize the enormous advantages to be gained by establishing similar mechanisms to boost economic and social development in Mexico and by embracing the idea of a North American community. Whereas Spain was able to anchor its democratic transition in an existing European Community, Mexico must strive to build the institutions of true North American Community. And whereas Spain's entry in the EEC impinged upon Spanish sovereignty, as indeed it affected the sovereignty of all other EEC members, NAFTA, a truly Anglo-Saxon institution, left domestic politics and social policy, two fundamental attributes of sovereignty, largely untouched.

This latter point is crucial. Mexico, today, as Spain purposefully did back in the eighties, seeks supranational rules and regulations that bind and ensure its democratic transition and enhance its prosperity and ensure its democratic stability. This seems to me a more than fair trade off.

The jury is still out on Mexico's democratic consolidation. If we are to succeed, the leaders of all major political parties in Mexico must have the courage to put some of their differences aside and work together for a common purpose. But our North American partners must also show themselves willing to take on the challenge of developing a new vision for our region, one that can radically change for the better the lives of millions of people throughout Mexico, the U.S. and Canada.

If there has been a clear and consistent trait throughout the world in recent decades, it is the tendency towards integration, which in turn has resulted in stronger democratic institutions and the adherence to basic universal standards of behavior. This is not a spontaneous or natural process, even though there may be historical forces at play. Rather, it must be complemented by deliberate action. This is exactly what the government of President Fox has set out to achieve: to use foreign policy as a crowbar to open up our country and help consolidate democracy and change human rights in Mexico. Succeeding in this endeavor is not only critical for Mexico; it is an issue of central importance to the future of North America, to our hemisphere and to the rest of the international community.

Let me conclude by quoting the Spanish-British historian Charles Powell, who ends his splendid work on the history of Spain after Franco by stating—not without some British reserve and understatement—that "it would be unfair not to acknowledge that what was achieved [by this transition] undoubtedly constitutes a cause for collective pride".

I sincerely hope that, 26 years from now, a future historian of Mexico can express similar feelings about our transition to democracy. It is this hope that spurs many of us in government, and throughout society at large, to do everything we can to ensure that our country lives up to its present challenge. And I am sure that all of you will understand why we in Mexico wholeheartedly believe that it is a cause that our partners should also embrace.

Thank you.

THE PENSION SECURITY ACT OF 2002

Mr. GREGG. Mr. President, the spectacular collapse of the Enron Corporation has broken lives, shattered dreams and shaken confidence in our financial markets and in several professions. From what we know so far, it appears that the fall of Enron involves malfeasance, misfeasance and nonfeasance on the part of very many people. There may ultimately be criminal prosecutions, civil fines, and partial restitution. It may take years to sort out all of the problems and for Congress to enact appropriate solutions.

Although the Enron investigations and lawsuits are ongoing, we have learned several lessons in the area of employee retirement security that can be addressed swiftly and responsibly. I am pleased to join my colleagues Senators TIM HUTCHINSON and TRENT LOTT in introducing the Pension Security Act of 2002. This legislation creates important new protections and rights for working Americans that give them the tools to enhance their own retirement planning and security.

The measure includes new safeguards and options to help workers preserve and enhance their retirement security, and insists on greater accountability from companies and senior corporate executives during "blackout" periods when rank-and-file workers are unable to make changes to their retirement accounts.

Under the Pension Security Act, workers would have more freedom to diversify their investments, much greater access to high quality investment advice, advance notice before blackout periods, more information about their pensions, and other tools they can use to maximize the potential of their 401(k) plans and ensure a secure retirement future.

The bill also clarifies that employers have a fiduciary responsibility for the security of workers' investments during "blackout" periods and bars senior corporate executives from selling their own stock at times when rank-and-file workers cannot make changes to their 401(k) accounts.

The bill strikes an important balance between preserving employee free choice and opportunity in the voluntary retirement savings system and protecting individuals from the wrongful acts of others. I look forward to working with all of my colleagues to join with us in enacting these important reforms.

SENATOR TED KENNEDY'S 70TH BIRTHDAY

Mr. INOUYE. Mr. President, I am most honored to express my congratulations to my dear friend, Senator TED KENNEDY, as he celebrates his 70th birthday. He and I joined the Senate chamber 40 years ago, and it has been my privilege to serve alongside this great man over the years.

Senator KENNEDY has championed health insurance and education reform, defended the rights of the elderly and workers, strengthened civil rights, and protected our natural resources. He has proudly and ably carried on his family's legacy of public service.

I wish to thank Senator KENNEDY for his outstanding service to his home State of Massachusetts and to our Nation. I extend my best wishes to him for many more years of good health, memorable experiences, and continued success.

Mr. AKAKA. Mr. President, I wish to join my colleagues from both sides of the aisle who have taken to the Senate floor to offer heartfelt tributes and best wishes to our esteemed colleague and friend, the senior Senator from Massachusetts (Mr. KENNEDY) as he celebrates his 70th birthday. While prior commitments precluded my participation in yesterday's bipartisan tribute, I wanted to take a moment to offer my congratulations to Senator KENNEDY.

For 40 of his 70 years, TED KENNEDY has worked for the people of Massachusetts and America in the United States Senate. During that time, through hard work, consensus building and perseverance, with great wit and charm, and, on many memorable occasions, passionate oratory, TED KENNEDY has established himself as one of the most effective legislators of the 20th century and a champion for equality, opportunity, and justice for all Americans.

When I was appointed to the Senate in 1990, we were considering the Americans With Disabilities Act, one of the many landmark civil rights bills that TED KENNEDY has helped to inspire and craft, guide through Congress, and become law. For as long as I have been in public service, TED KENNEDY has been a powerful voice and an advocate for those who are most vulnerable in our Nation. On issues ranging from civil rights, voting rights, equal rights for women, equal protection for all Americans regardless gender, race, religion, or sexual orientation, Americans with disabilities, access to health care, quality education for all children, workers' rights, patients' rights, a decent minimum wage, food stamps, or equal justice for all Americans, TED KENNEDY has been at the forefront of the battles for equal opportunity for all Americans, for fairness, for justice.

In 1963, speaking on civil rights for African Americans, President Kennedy said that "every American ought to have the right to be treated as he would wish to be treated, as one would wish his children to be treated. This is not the case." Throughout his illustrious career, TED KENNEDY has worked to ensure that all Americans are treated fairly, are treated with respect and dignity. His work in the Senate has helped us move forward as a people and Nation toward the vision of America that President Kennedy and Senator ROBERT F. KENNEDY spoke about with such eloquence. His effectiveness in forging bipartisan partnerships to advance the causes and issues he cares so much about is legendary. As the Majority Leader said, TED KENNEDY is the master of the principled compromise. In doing so, TED inspires those of us lucky enough to serve with him with his dedication, persistence and hard work, and he has earned the admiration, respect, and love of people across America.

As both a colleague and friend, no one is more generous with his time or considerate than Ted Kennedy. The senior Senator from Illinois (Mr. DURBIN) and some of my colleagues mentioned that in some parts of their states being accused of voting too much like TED KENNEDY is a standard political reproach. In Hawaii, a comparison to TED KENNEDY is a badge of honor. In 1990, I was appointed to the Senate in May, and was campaigning for election in November. My race was extremely close, and the Senate was in session until the last week of October working on the Federal budget. Then President George H.W. Bush and other national leaders had come to the islands to campaign for my opponent. TED KENNEDY agreed to campaign with me in Hawaii right before the election. His appearance energized the voters, and sparked a surge in the polls that broke open a close race. In fact, on election night, TED KENNEDY was the first person to call with congratulations based on exit poll projections he had received.

In the history of the Senate, there have been few Senators whose record of accomplishments, whose hard work, whose contributions to building a more perfect Union, equals that of the senior Senator from Massachusetts. I am proud to serve with him in the Senate and fortunate to call him a friend. It is with the deepest admiration and profound aloha that I wish TED, hau'oli la hanau, a most Happy Birthday. May you have many more. God bless you.

LOCAL LAW ENFORCEMENT ACT OF 2001

Mr. SMITH of Oregon. Mr. President, I rise today to speak about hate crimes legislation I introduced with Senator KENNEDY in March of last year. The Local Law Enforcement Act of 2001 would add new categories to current hate crimes legislation sending a signal that violence of any kind is unacceptable in our society.

I would like to describe a terrible crime that occurred May 16, 1993 in Rehoboth Beach, DE. Three gay men were brutally assaulted by five assailants. The attackers used bottles and an aluminum baseball bat to beat the victims.

I believe that government's first duty is to defend its citizens, to defend them against the harms that come out of hate. The Local Law Enforcement Enhancement Act of 2001 is now a symbol that can become substance. I believe that by passing this legislation, we can change hearts and minds as well.

90TH ANNIVERSARY OF HADASSAH

Mr. KOHL. Mr. President, this week marks the 90th anniversary of Hadassah, the Women's Zionist Organization of America. With over 300,000 members and 1,500 chapters across the country, Hadassah is the largest women's and largest Jewish membership organization in the United States. Over the last nine decades, its devoted members have exhibited the best of the American philanthropic and volunteer spirit in pursuing the organization's mission of a peaceful and secure Israel, a vital Jewish culture, and the Jewish imperative for social justice.

Today in Israel, Hadassah continues to add to a well-established humanitarian record that has fostered peace, understanding, and prosperity for all Israeli citizens. The Hadassah Medical Organization (HMO) operates two hospitals, ninety outpatient clinics, and numerous community health centers that provide state of the art health care to 600,000 patients a year—regardless of race, religion, or creed. These medical facilities often treat the most critically wounded in the region's ongoing conflicts and the support they receive from Hadassah members allows them to save lives. The HMO reaches out beyond Israel, providing medical personnel and training during international health crises, enhancing the welfare of communities around the globe.

Here in United States, Hadassah's women's health and education initiatives have enhanced the health and well being of the American Jewish community and our Nation. Its informative awareness campaigns on breast cancer, osteoporosis, and eating disorders have empowered women of all ages to make healthy lifestyle decisions. Hadassah has strengthened American Jewish culture through sponsorship of Jewish and Hebrew educational classes and study groups.

Mr. President, for ninety years Hadassah has brought Jewish-American women together to explore their shared faith and connection to Israel. On this week of their 90th anniversary, I commend their good work and wish them many more years of success.

ERIC BERGOUST APPRECIATION

Mr. BURNS. Mr. President, I rise today to recognize Eric Bergoust, a distinguished freestyle skier from Missoula MT. At the age of 31, Eric has attained nearly every milestone that inspires athletes to achieve their dreams. He is an Olympic champion, a world champion, and has held numerous world records throughout his career. As impressive as his accomplishments are, the passion Eric has for his sport is truly remarkable. Passion shines brightest through innovations; and Eric has made many. He has landed unprecedented jumps throughout his career, and has developed a one-armed take off style that has opened up new possibilities to all freestyle skiers.

Like so many of his fellow Montanans, Eric has achieved great things through both his appreciation of the virtues of a will-do attitude and the determination to follow through on a task. These assets led Eric down the seemingly improbable path from a boy jumping off the roof of his house into a matress pile, to a young man driving alone from Montana to Lake Placid with only makeshift skis and ten dollars in his pocket, to an Olympic and world champion. It has been exciting to see Eric accomplish so many things. But when I consider the determination and passion that have pushed Eric along, it has become clear that maybe his path really wasn't so improbable after all.

2002 BLACK HISTORY MONTH

Mr. DURBIN. Mr. President, I rise today in honor of Black History Month, a 76-year tradition recognizing and celebrating the contributions of African-Americans throughout our history.

Dr. Carter G. Woodson, the son of former slaves, earned his bachelor's and master's degrees from the University of Chicago in my home State of Illinois, before continuing his studies at Harvard University and the Sorbonne in Paris. Since African-American history had barely begun to be studied or even documented, Dr. Woodson established what is now called the Association for the Study of Afro-American Life and History and founded the Journal of Negro History. In 1926, he started Negro History Week and chose the second week of February because it marks the birthdays of two men who have had a great impact on African-Americans: Abraham Lincoln and Frederick Douglass. Thanks to the efforts of Dr. Woodson and those who have followed him, we now celebrate the outstanding achievements of African-Americans past and present during the entire month of February.

Illinois has a rich African-American legacy. Gwendolyn Brooks was the first African-American poet to win the Pulitzer Prize, and in 1968, she was named the poet laureate of Illinois. In 1985–86, she was the Poet Laureate Consultant in Poetry to the Library of Congress and focused her efforts on encouraging elementary school students to write poetry.

Black History Month is also a celebration of lesser-known African-Americans, and I would like to recognize the far-reaching contributions of Illinoisan Lloyd Augustus Hall. Mr. Hall was a chemist who earned more than 100 patents in the United States, Great Britain, and Canada. His work revolutionized the meatpacking industry, and his method for sterilizing spices is used today to sterilize medicine, medical supplies, and cosmetics. He was the first African-American elected to the National Board of Directors of the American Institute of Chemists, and President John F. Kennedy appointed him to the American Food for Peace Council in 1962.

Today, Illinoisans continue to build upon Dr. Woodson's legacy of preserving and celebrating African-American history. Last month, Jewish leaders at the Beth Emet synagogue in Evanston, Illinois, released a restored recording of a speech Dr. Martin Luther King, Jr., gave there 44 years ago. It took months of digital forensic audio techniques to clean background noise and to convert the reel-to-reel tape to compact disc, but the effort was well worth it, and Dr. King's words then are still instructive today.

Dr. King observed that there had been three distinct periods in our nation's history of race relations: slavery, segregation, and desegregation. He also declared that the issue of civil rights is "an eternal moral issue which may well determine the destiny of our nation" and looked toward a fourth period—a period of real integration.

This month, we honor the great strides made by African-Americans in overcoming obstacles and color barriers. But I am afraid we have not yet reached Dr. King's goal of real integration. The unemployment rate for African-Americans has jumped to 9.8 percent, over four percentage points higher than the rate for all workers. The 2000 Presidential election illustrated the disenfranchisement of thousands of African-American voters nationwide, whose votes did not count. There is disturbing evidence that some law enforcement agencies and agents "profile," or make pre-determinations about, people based on their race.

Dr. King noted the important role that we in the Federal Government must play in addressing issues such as these. In his 1958 speech at Beth Emet, he said, "As we look to Washington, so often it seems that the judicial branch of the government is fighting the battle alone. The executive and legislative branches of the government have been all too slow and stagnant and silent, and even apathetic, at points. The hour has come now for the Federal Government to use its power, its constitutional power, to enforce the law of the land."

The time indeed has come for Congress to show that it is no longer slow and certainly not apathetic. I have been working for several months to try to extend unemployment benefits and to help unemployed workers continue their health benefits. I proposed an amendment that would have increased weekly unemployment benefits by $25 or fifteen percent, whichever is greater. It also would have expanded coverage to part-time and low-wage workers, helping nearly 80 percent of the laid-off workers who currently are not receiving benefits.

In addition, I am an original cosponsor of the bipartisan election reform measure and introduced an amendment to eliminate the unnecessary special treatment of punchcard voting systems. The overwhelming majority of African-American and Hispanic voters use the punchcard system, which loses at least 50 percent more votes than optically-scanned paper ballots. My amendment would have reduced the number of these discarded votes by permitting a voter to verify the votes he or she selected on the ballot and notifying the voter if more than one candidate had been selected for a single office. The voter also would have had the opportunity to change the ballot or correct any error before the ballot was cast and counted.

I am also an original cosponsor of the End Racial Profiling Act of 2001, which prohibits law enforcement agencies and agents from engaging in racial profiling and provides for enforcement in civil court. This legislation would also require Federal, State, and local law enforcement agencies receiving Federal grants to maintain adequate policies and procedures designed to eliminate racial profiling. Furthermore, I have introduced the Reasonable Search Standards Act to prohibit U.S. Customs Service personnel from searching or detaining individuals based on racial and other discriminatory profiling criteria.

The official theme for this year's Black History Month is "The Color Line Revisited: Is Racism Dead?" This month, and every month, we must push forward until the answer to this question is a resounding "Yes." We must continue to fight for economic opportunity, equal justice, and equity in education and health care. While we celebrate the accomplishments of African-Americans throughout our history, we must build upon those achievements, until we can finally reach Dr. King's vision of real integration.

ADDITIONAL STATEMENTS

IN REMEMBRANCE OF LOUIS M. LAINO

• Mr. SANTORUM. Mr. President, I rise today to honor the memory of one of my constituents, Mr. Louis M. Laino, a man who gave his life in defense of his country.

I would like to call attention to a tragic accident which occurred on January 15, 1961, and which took the lives of 28 brave Americans, one of whom, Louis M. Laino, was a resident of the Commonwealth of Pennsylvania. Mr. Laino was a crew member aboard Texas Tower 4.

Texas Tower 4 was one of three Department of the Air Force radar sites installed in the North Atlantic Ocean in the 1950s whose purpose was to provide early warning in the event of an enemy missile or bomber strike against the United States. Texas Tower 4 was located approximately 85 miles southeast of New York City in 185 feet of water. Prior to the accident in 1961, Tower 4 had earned a reputation for being unstable and had been nicknamed "Old Shaky" by the crew members who served aboard the structure.

On September 12, 1960, Texas Tower 4 was struck by Hurricane "Donna." The storm's 130-mile per hour winds and 50-foot waves exceeded Tower 4's design specifications and caused structural damage to the platform. The Air Force decided that extensive repair work would need to be performed on Tower 4 the following spring. February 1, 1961, was established as the date for complete evacuation of the platform. In the meantime, a maintenance crew of 28 persons was stationed aboard Tower 4 to perform immediate repair work prior to more rigorous repairs being performed. Mr. Laino was among this group of workers, and tragically lost his life when a second storm struck Tower 4. This storm possessed 85-mile per hour winds, 35-foot waves, and proved to be too much for the already weakened Tower 4 to withstand. At 7:20 pm on the evening of January 15, 1961, Texas Tower 4's structure failed, and the platform, with all hands on board, sank to the bottom of the Atlantic.

In closing, I would again like to call attention to the sacrifice made by Louis M. Laino in defense of his country. Mr. Laino made the ultimate sacrifice, that of his life. On behalf of the people of Pennsylvania, I salute Mr. Laino for his courage and bravery in performing a dangerous duty. Mr. Laino died so that all of us might be safer, and for that, he should be remembered.•

HONORING SENATOR HARRY F. BYRD, JR.

Mr. ALLEN. Mr. President, I rise today to recognize and honor Harry F. Byrd, Jr., for his lifelong commitment to principles and honestly serving the people of Virginia and the United States of America. The Virginia General Assembly recently honored U.S. Senator Harry F. Byrd, Jr., of Winchester, VA, and celebrated his accomplishments. Some present members of the Senate had the pleasure of serving and working with Senator Byrd of Virginia. Having the privilege of serving in the seat once held by Senator Byrd, I wish to share with all my colleagues those positive sentiments expressed in the resolution adopted by the General Assembly of Virginia, and ask that the related article be printed in the RECORD.

The article follows:

TEXT OF SENATE RESOLUTION HONORING HARRY F. BYRD JR.

SENATE JOINT RESOLUTION NO. 179

Whereas, Harry Flood Byrd, Jr., of Winchester has served the Commonwealth and the nation with great distinction, continuing a Byrd family tradition that dates to the earliest days of the Republic; and

Whereas, educated at the Virginia Military Institute and the University of Virginia, Harry Byrd, Jr., followed his father Harry Byrd, Sr., into public service, thus forming a father-son combination that was the most influential in 20th century Virginia politics; and

Whereas, Harry Byrd, Jr., served as a member of the Democratic State Central Committee from 1940 to 1965 and served as a lieutenant in the U.S. Naval Reserve during World War II; and

Whereas, following distinguished service in the Senate of Virginia from 1948 to 1965, Harry Byrd, Jr., succeeded his father in the United States Senate on November 12, 1965; and

Whereas, for the next 18 years, Harry F. Byrd, Jr., maintained the family tradition of fiscal conservation, unquestioned integrity, and a distaste for political expediency; and

Whereas, Harry F. Byrd, Jr., continued his father's insistence on "pay as you go" government, and his aversion to debt still reverberates in Virginia's continued recognition as a fiscally sound, well-managed state; and

Whereas, Senator Byrd is the oldest living former United States Senator from Virginia; and

Whereas, the influence of Harry Byrd, Jr., on the political life of Virginia during the 20th century was profound, beneficent, and lasting, and the ideas and ideals he espoused continue to ring true as the Commonwealth enters the 21th; now, therefore, be it

Resolved by the Senate, the House of Delegates concurring, That the General Assembly hereby honor Harry Flood Byrd, Jr., for his dedication, commitment, and integrity over a long and meritorious political career; and, be it

Resolved further, That the Clerk of the Senate prepare a copy of this resolution for presentation to Harry Flood Byrd Jr., as an expression of the admiration and respect of the General Assembly.

HARRY F. BYRD JR.

(By Bob Lewis)

RICHMOND, VA. (AP).—Former U.S. Sen. Harry F. Byrd Jr. returned to the state Senate chamber to prolonged standing applause Thursday to receive a proclamation in his honor and recall his own Senate service.

The 87-year-old heir to the political dynasty that ruled Virginia for much of the 20th century noted his first days in the Senate in 1948, when he was pressured into hastily signing onto a bill.

"The next day, all hell broke loose. It was interpreted as an effort to keep the president off the ballot that year," Byrd said with a chuckle. "I learned never to sign a bill without reading it."

The bill was the state's unsuccessful effort to snub President Harry S. Truman.

Then, in a soft voice, Byrd looked to his right to the desk he occupied in his 18 years in the state Senate and recalled old days and old friends.

"I find it hard to believe it was 54 years ago that I first came here," he said. "I love the Senate. I love the U.S. Senate, too, but this Senate is my favorite. It's smaller and you can make friends here to a greater degree than you can in Washington."

Among his closest friends in that freshman Senate class were Albertis Harrison and Mills E. Godwin, who later became Virginia governors. "And we remained friends until Albertis and Mills died," Byrd said.

Byrd served 18 years in the Virginia Senate as a Democrat, the party his father, Harry F. Byrd Sr., built into a political machine. In 1966, after Byrd Sr. retired from his U.S. Senate seat in poor health, Byrd Jr. won a special election to fill the four years that remained on his father's term. He left the party and won re-election in 1970 and 1976 as an independent, then retired from public life in 1982 to return to his hometown, Winchester, and run his family's newspapers.

Byrd was a former director and a second vice president of The Associated Press.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Williams, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

PRESIDENTIAL MESSAGES

The following presidential messages were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

PM–71. A message from the President of the United States, transmitting, pursuant to law, a report concerning the continuation of the national emergency relating to Cuba and of the emergency authority relating to the regulation of the anchorage and movement of vessels to extend beyond March 1, 2002; to the Committee on Banking, Housing, and Urban Affairs.

To the Congress of the United States:

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the *Federal Register* and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent the enclosed notice to the *Federal Register* for publication, which states that the emergency declared with respect to the Government of Cuba's destruction of two unarmed U.S.-registered civilian aircraft in international airspace north of Cuba on February 24, 1996, is to continue in effect beyond March 1, 2002.

GEORGE W. BUSH.

THE WHITE HOUSE, *February 26, 2002.*

MESSAGES FROM THE HOUSE

At 11:24 a.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House has passed the following bill, without amendment:

S. 1206. An act to reauthorize the Appalachian Regional Development Act of 1965, and for other purposes.

The message also announced that the House has agreed to the following concurrent resolution, in which it requests the concurrence of the Senate:

H. Con. Res. 304. Concurrent resolution expressing sympathy to the people of the Democratic Republic of the Congo who were tragically affected by the eruption of the Nyiragongo volcano on January 17, 2002.

The message further announced that the House has agreed to the amendment of the Senate to the bill (H.R. 1892) to amend the Immigration and Nationality Act to provide for the acceptance of an affidavit of support from another eligible sponsor if the original sponsor has died and the Attorney General has determined for humanitarian reasons that the original sponsor's classification petition should not be revoked.

ENROLLED BILLS SIGNED

At 6:02 p.m., a message from the House of Representatives, delivered by Mr. Hays, one of its reading clerks, announced that the Speaker has signed the following enrolled bills:

H.R. 1892. An act to amend the Immigration and Nationality Act to provide for the acceptance of an affidavit of support from another eligible sponsor if the original sponsor has died and the Attorney General has determined for humanitarian reasons that the original sponsor's classification petition should not be revoked.

H.R. 3699. An act to revise certain grants for continuum of care assistance for homeless individual and families.

MEASURES REFERRED

The following concurrent resolution was read, and referred as indicated:

H. Con. Res. 304. Concurrent resolution expressing sympathy to the people of the Democratic Republic of the Congo who were tragically affected by the eruption of the Nyiragongo volcano on January 17, 2002; to the Committee on Foreign Relations.

MEASURES PLACED ON THE CALENDAR

The following bill was read the second time and placed on the calendar:

H.R. 2356. An act to amend the Federal Election Campaign Act of 1971 to provide bipartisan campaign reform.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. ENZI (for himself and Mr. THOMAS):

S. 1970. A bill to designate the facility of the United States Postal Service located at 2829 Commercial Way in Rock Springs, Wyoming, as the "Teno Roncalio Post Office Building"; to the Committee on Governmental Affairs.

By Mr. GRASSLEY:

S. 1971. A bill to amend the Internal Revenue Code of 1986 and the Employee Retirement Income Security Act of 1974 to protect the retirement security of American workers by ensuring that pension assets are adequately diversified and by providing workers with adequate access to, and information about, their pension plans, and for other purposes; to the Committee on Finance.

By Mr. ROCKEFELLER:

S. 1972. A bill to amend the charter of the AMVETS organization; to the Committee on the Judiciary.

ADDITIONAL COSPONSORS

S. 975

At the request of Mr. CHAFEE, the name of the Senator from New Jersey (Mr. TORRICELLI) was added as a cosponsor of S. 975, a bill to improve environmental policy by providing assistance for State and tribal land use planning, to promote improved quality of life, regionalism, and sustainable economic development, and for other purposes.

S. 1125

At the request of Mr. MCCONNELL, the name of the Senator from Pennsylvania (Mr. SANTORUM) was added as a cosponsor of S. 1125, a bill to conserve global bear populations by prohibiting the importation, exportation, and interstate trade of bear viscera and items, products, or substances containing, or labeled or advertised as containing, bear viscera, and for other purposes.

S. 1379

At the request of Mr. KENNEDY, the name of the Senator from Louisiana (Ms. LANDRIEU) was added as a cosponsor of S. 1379, a bill to amend the Public Health Service Act to establish an Office of Rare Diseases at the National Institutes of Health, and for other purposes.

S. 1617

At the request of Mr. DODD, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of S. 1617, a bill to amend the Workforce Investment Act of 1998 to increase the hiring of firefighters, and for other purposes.

S. 1651

At the request of Mr. DORGAN, the name of the Senator from Pennsylvania (Mr. SANTORUM) was added as a cosponsor of S. 1651, a bill to establish the United States Consensus Council to provide for a consensus building process in addressing national public policy issues, and for other purposes.

S. 1754

At the request of Mr. LEAHY, the name of the Senator from Delaware (Mr. CARPER) was added as a cosponsor of S. 1754, a bill to authorize appropriations for the United States Patent and Trademark Office for fiscal years 2002 through 2007, and for other purposes.

S. 1850

At the request of Mr. CHAFEE, the name of the Senator from Rhode Island (Mr. REED) was added as a cosponsor of S. 1850, a bill to amend the Solid Waste Disposal Act to bring underground storage tanks into compliance with subtitle I of that Act, to promote cleanup of leaking underground storage tanks, to provide sufficient resources for such compliance and cleanup, and for other purposes.

S. 1867

At the request of Mr. LIEBERMAN, the name of the Senator from Georgia (Mr. MILLER) was added as a cosponsor of S. 1867, a bill to establish the National Commission on Terrorist Attacks Upon the United States, and for other purposes.

S. 1917

At the request of Mr. JEFFORDS, the names of the Senator from Indiana (Mr. BAYH), the Senator from South Dakota (Mr. DASCHLE), the Senator from Louisiana (Mr. BREAUX), the Senator from Maine (Ms. SNOWE), the Senator from California (Mrs. FEINSTEIN), the Senator from Mississippi (Mr. COCHRAN), the Senator from Minnesota (Mr. WELLSTONE), and the Senator from Illinois (Mr. DURBIN) were added as cosponsors of S. 1917, a bill to provide for highway infrastructure investment at the guaranteed funding level contained in the Transportation Equity Act for the 21st Century.

S. 1969

At the request of Mr. SMITH of New Hampshire, his name was added as a cosponsor of S. 1969, a bill to amend title I of the Employee Retirement Income Security Act of 1974 and the Internal Revenue Code of 1986 to provide additional protections to participants and beneficiaries in individual account plans from excessive investment in employer securities and to promote the provision of retirement investment advice to workers managing their retirement income assets, and to amend the Securities Exchange Act of 1934 to prohibit insider trades during any suspension of the ability of plan participants or beneficiaries to direct investment away from equity securities of the plan sponsor.

At the request of Mr. HUTCHINSON, the names of the Senator from Wyoming (Mr. ENZI) and the Senator from Kansas (Mr. ROBERTS) were added as cosponsors of S. 1969, supra.

S. RES. 185

At the request of Mr. ALLEN, the name of the Senator from Pennsylvania (Mr. SPECTER) was added as a cosponsor of S. Res. 185, a resolution recognizing the historical significance of the 100th anniversary of Korean immigration to the United States.

S. RES. 206

At the request of Mr. MURKOWSKI, the name of the Senator from Ohio (Mr. DEWINE) was added as a cosponsor of S. Res. 206, a resolution designating the week of March 17 through March 23, 2002 as "National Inhalants and Poison Prevention Week."

S. RES. 211

At the request of Ms. COLLINS, the names of the Senator from Massachusetts (Mr. KENNEDY), the Senator from New Jersey (Mr. TORRICELLI), the Senator from North Dakota (Mr. DORGAN), the Senator from Michigan (Mr. LEVIN), the Senator from North Dakota (Mr. CONRAD), the Senator from South Dakota (Mr. JOHNSON), the Senator from Virginia (Mr. WARNER), the Senator from Minnesota (Mr. DAYTON), the Senator from New Mexico (Mr. BINGAMAN), the Senator from Rhode Island (Mr. CHAFEE), the Senator from Ohio (Mr. DEWINE), the Senator from Georgia (Mr. CLELAND), the Senator from Louisiana (Ms. LANDRIEU), the Senator from Wyoming (Mr. ENZI), and the Senator from Arkansas (Mr. HUTCHINSON) were added as cosponsors of S. Res. 211, a resolution designating March 2 , 2002, as "Read Across America Day."

At the request of Mr. SPECTER, his name was added as a cosponsor of S. Res. 211, supra.

AMENDMENT NO. 2937

At the request of Ms. LANDRIEU, her name was added as a cosponsor of amendment No. 2937 proposed to S. 565, a bill to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. ENZI (for himself and Mr. THOMAS):

S. 1970. A bill to designate the facility of the United states Postal Service located at 2829 Commercial Way in Rock Springs, Wyoming, as the "Teno Roncalio Post Office Building"; to the Committee on Government Affairs.

Mr. ENZI. Mr. President, I rise to introduce a bill to designate the facility of the United states Postal Service located at 2829 Commercial Way, Rock Springs, WY, as the "Teno Roncalio Post Office Building." I am joined by my distinguished colleague from Wyoming, Senator THOMAS in the introduction of this bill.

Mr. Roncalio has served the great State of Wyoming and this Nation with honor and integrity throughout his public and private career. The Wyoming native was Wyoming's first five-term Representative to the U.S. House of Representatives during the 1960s and 1970s, and served as a delegate to four democratic National Conventions. He was also selected to serve for two years as a national Democratic committeeman.

Mr. Roncalio was named to the U.S. Army Officer Candidates Hall of Fame after having served in World War II and participating in beachhead invasions in Sicily and Normandy. Mr. Roncalio also received the Silver Star for gallantry in action for his service in North Africa, Italy, France, Central Europe, and Germany.

Mr. Roncalio and I have worked on some projects together, and just the friendships he has made over the years almost guarantees success. On several occasions, I have been pleased with his willingness to share his opinions with me based on his vast experience, common sense, and desire to see the "right thing" done. He has been a model and mentor to many.

Mr. Roncalio has committed his lifetime to public service, and I strongly encourage my colleagues to support naming the Federal post office building in Rock springs, WY after Mr. Teno Roncalio in recognition of his long, distinguished career in Wyoming and national politics.

By Mr. GRASSLEY:

S. 1971. A bill to amend the Internal Revenue Code of 1986 and the Employee Retirement Income Security Act of 1974 ,to protect the retirement security of American workers by ensuring that pension assets are adequately diversified and by providing workers with adequate access to, and information about, their pension plans, and for other purposes; to the Committee on Finance.

Mr. GRASSLEY. Mr. President, there has been a flurry of activity surrounding the bankruptcy of the Enron Corporation. Part of the attention has focused on the company's questionable accounting practices and tax havens. Another spotlight has been focused on the Enron retirement plans, particularly its 401(k) plan.

These are legitimate areas of inquiry. The same fact pattern in the case of Enron applies to Global Crossings, a company that was founded in 1997, went public in 1998, sold shares worth $734 million before the company collapsed just this year, pauperizing its workforce and investors. In both companies, executives were lining their pockets with gold while they were duping investors and pillaging workers' retirement plans. The difference between Enron and Global Crossing is merely one of scale. Enron was the seventh largest company on the Fortune 500. Global Crossings was smaller but there are eerie similarities, both between these two bankruptcies, and the effect they have had on the way we now view pension plan security.

Any company bankruptcy will inevitably harm workers, retirees and investors. Some Enron employees, and some of those at Global Crossing, invested large amounts of their own money in company stock. In addition, both plans matched contributions made by the workers with the, now worthless, company stock. Had the company's financial statements correctly reflected the value of its stock, neither the workers, nor the investors would have purchased the shares. Unfortunately, the financial statements of those two companies were at least, highly misleading and very possibly fraudulent.

The losses by retirement plan participants are of concern to the Senate Finance Committee because it is the Committee with jurisdiction over both the Internal Revenue Code, IRC, and parts of ERISA. The Code provides generous tax benefits to retirement plan sponsors. In return for those tax preferences, plans must be established and maintained in accordance with the rules set out in the Internal Revenue Code and in the Employee Retirement Income Security Act of 1974, as amended, ERISA.

The losses in the plans sponsored by recently bankrupted companies have prompted us to reconsider some of the laws that govern retirement programs. In particular, many have questioned whether plan participants should be permitted to hold any company stock in their accounts, or only a limited amount of stock. Other questions have been raised about fiduciary obligations, so-called "blackouts" and about information provided to workers.

For those in the business community who are alarmed about the large number of proposals, including mine, making changes to this area of the law, I would urge caution. This bill is not written in stone. Further refinements will be made to it. I am introducing it today because the Finance Committee will be holding a hearing on this issue tomorrow. Barely three weeks thereafter, Congress will be entering another recess period. If the introduction of this bill is delayed, interested parties will not have the time they need to examine this proposal and give me their views.

This bill gives workers new diversification rights on holdings of company stock in their accounts. Some legislative proposals have called for caps on the amount of stock that can be dedicated by employers to workers' 401(k) accounts through matching contributions or through gains on the value of company stock. I believe such an approach will discourage employers from giving stock to workers through their plan and could not be administered except through the application of benefit wear-aways. During the cash balance pension plan debate, Congress found out just how unpopular benefit wear-aways are with plan participants.

Some have also suggested that employees should not be permitted to purchase employer stock in their plans. They argue the need for a paternalistic government to save employees from the "temptation" of investing in employer stock in their 401(k) plans. I do not believe the government should treat workers like children. American workers are intelligent, and when armed with the right information, they will exercise foresight and make decisions for the best interest of themselves and their families.

My approach does not discourage employer matching contributions in company stock. Nor would it restrict a worker choice to invest in company stock. However, once the worker has three years of service with the employer, he or she should be permitted to change investments out of the company stock and into any other investment offered by the plan. This change gives maximum flexibility to the worker and will prevent the long holding periods that some companies impose on matching contributions in their own stock.

An important exception to this rule will apply to closely held corporations. Because of the difficulty of valuing stock in closely held corporations, under my bill, these rules will not apply to closely-held companies. This bill also provides that a pure, "stand-alone" ESOP, one consisting solely of now-elective contributions is not subject to the new rule.

The current draft of the bill does not include a long phase-in of the effective date for company stock currently allocated to workers retirement accounts. Such a delayed effective date has been proposed in other legislation. However, I am open to such a recommendation, if necessary. I encourage plan sponsors and practitioners to give me their thoughts on that issue.

This legislation also provides new disclosure requirements. At the end of 2001, Enron stopped participants from trading their investments while they changed plan administrators. Its stock was declining in value at this time, and for a long period prior to the so-called "blackout". It is no surprise that while the plan was closed to trading, all indications are that the value of the stock continued to decline. It appears that Enron employees did receive a notice prior to the transaction suspension period. But concerns have been raised that a statutory requirement for a notice will help to protect participants in other plans from missing an opportunity to change investments prior to a transaction suspension period. I am inclined to agree.

Consequently, this bill will also impose a requirement that plans provide 30-days advance notice of transaction suspension periods, the so-called "blackouts". These are periods when participants are unable to change their investments. This change in law is needed so that employees have the opportunity to trade out of company stock, or for that matter, any other investment, before the beginning of a blackout period. The bill does not limit the duration of a transaction suspension period. Some companies to a remarkable job in shortening the time during which a plan is closed to transactions, however, practitioners have convinced me that it would be impractical to limit these transaction suspension periods given the number of variables involved in reconciling accounts.

New disclosure requirements for so-called blackouts will be supplemented by better information regarding the value of plan benefits. I have long been concerned that participants need better information regarding their retirement. In the 105th Congress, I introduced a bill with Senator BREAUX that would impose a requirement for periodic pension benefit statements.

Language on periodic benefit statements was included again in a bill that Senator BAUCUS and I introduced early last year. While most of that bill was enacted as the Economic Growth and Revenue Reconciliation Act of 2001, EGTRRA, Public Law 107-16, the requirement for periodic benefit statements was "Byrded out". In other words, it was dropped from the bill because it was revenue neutral and as such did not meet the rules governing a reconciliation measure.

Because we did not enact that provision in EGTRRA, the benefit statements language has been replicated here. Under this bill, participants will be entitled to a quarterly statement from their defined contribution plan, such as a section 401(k) plan. If the workers also have a defined benefit plan, they would be entitled to an estimated benefit statement once every three years.

Included in the periodic benefit statements will be language designed to alert workers to how much employer stock they hold in their accounts. Also included will be information regarding the importance to long-term retirement security of participants of a well-balanced an diversified portfolio. This information will encourage workers to avoid over-concentration in employer securities and to periodically re-balance their portfolio.

Mr. President, I ask unanimous consent that the text of the bill and a technical explanation be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1971

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "National Employee Savings and Trust Equity Guarantee Act".

TITLE I—DIVERSIFICATION OF PENSION PLAN ASSETS

SEC. 101. DEFINED CONTRIBUTION PLANS REQUIRED TO PROVIDE EMPLOYEES WITH FREEDOM TO INVEST THEIR PLAN ASSETS.

(a) AMENDMENTS OF INTERNAL REVENUE CODE.—

(1) QUALIFICATION REQUIREMENT.—Section 401(a) of the Internal Revenue Code of 1986 (relating to qualified pension, profit-sharing, and stock bonus plans) is amended by inserting after paragraph (34) the following new paragraph:

"(35) DIVERSIFICATION REQUIREMENTS FOR CERTAIN DEFINED CONTRIBUTION PLANS.—

"(A) IN GENERAL.—A trust which is part of an applicable defined contribution plan shall not be treated as a qualified trust unless the plan—

"(i) provides that a participant or beneficiary of a participant has the right at any time to invest any elective deferrals (and earnings thereon) contributed to his or her account in the form of publicly traded employer securities in any other investment option offered under the plan,

"(ii) provides that a participant with 3 or more years of service and any beneficiary of a participant has the right to invest any publicly traded employer securities (and earnings thereon) to which clause (i) does not apply and which are allocated to his or her account in any other investment option offered under the plan, and

"(iii) offers at least 3 investment options (not inconsistent with regulations prescribed by the Secretary).

"(B) CERTAIN RESTRICTIONS AND CONDITIONS NOT ALLOWED.—A plan shall not meet the requirements of subparagraph (A) if the plan imposes restrictions or conditions on the investment of publicly traded employer securities which are not imposed on the investment of other assets of the plan. This subparagraph shall not apply to any restrictions or conditions imposed by reason of application of securities laws.

"(C) APPLICABLE DEFINED CONTRIBUTION PLAN.—For purposes of this paragraph—

"(i) IN GENERAL.—The term 'applicable defined contribution plan' means any defined contribution plan which holds any publicly traded employer securities.

"(ii) EXCEPTION FOR CERTAIN ESOPS.—Such term does not include an employee stock ownership plan (within the meaning of section 4975(e)(7)) if—

"(I) there are no contributions to such plan (or earnings thereunder) which are held within such plan and are subject to subsections (k)(3) or (m)(2), and

"(II) such plan is a separate plan (within the meaning of section 414(l)) with respect to any other defined benefit plan or defined contribution plan maintained by the same employer or employers.

"(D) OTHER DEFINITIONS.—For purposes of this paragraph—

"(i) PUBLICLY TRADED EMPLOYER SECURITIES.—The term 'publicly traded employer securities' means employer securities which are readily tradable on an established securities market.

"(ii) EMPLOYER SECURITIES.—The term 'employer securities' has the meaning given such term by section 407(d)(1) of the Employee Retirement Income Security Act of 1974.

"(iii) YEAR OF SERVICE.—The term 'year of service' has the meaning given such term by section 411(a)(5)."

(2) CONFORMING AMENDMENT.—Section 401(a)(28)(B) of such Code (relating to additional requirements relating to employee stock ownership plans) is amended by adding at the end the following new clause:

"(v) EXCEPTION.—This paragraph shall not apply to an applicable defined contribution plan (as defined in paragraph (35)(C))."

(b) AMENDMENT OF ERISA.—Section 204 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1054) is amended by redesignating subsection (j) as subsection (k) and by adding at the end the following new subsection:

"(j)(1) An applicable individual account plan shall provide that—

"(A) a participant or beneficiary of a participant has the right at any time to invest any elective deferrals (and earnings thereon) contributed to his or her account in the form of publicly traded employer securities in any other investment option offered under the plan,

"(B) a participant with 3 or more years of service and any beneficiary of a participant has the right to invest any publicly traded employer securities (and earnings thereon) to which subparagraph (A) does not apply and which are allocated to his or her account in any other investment option offered under the plan, and

"(C) offers at least 3 investment options (not inconsistent with regulations prescribed by the Secretary).

"(2) A plan shall not meet the requirements of paragraph (1) if the plan imposes restrictions or conditions on the investment of publicly traded employer securities which are not imposed on the investment of other assets of the plan.

"(3)(A) For purposes of this subsection, the term 'applicable individual account plan' means any individual account plan which holds any publicly traded employer securities.

"(B) Such term does not include an employee stock ownership plan (within the meaning of section 4975(e)(7) of the Internal Revenue Code of 1986) if—

"(i) there are no contributions to such plan (or earnings thereunder) which are held within such plan and subject to subsection (k)(3) or (m)(2) of section 401 of such Code, and

"(ii) such plan is a separate plan (within the meaning of section 414(l) of such Code) with respect to any other defined benefit plan or defined contribution plan maintained by the same employer or employers.

"(4) For purposes of this subsection—

"(A) the term 'publicly traded employer securities' means employer securities which are readily tradable on an established securities market,

"(B) the term 'employer security' has the meaning given such term by section 407(d)(1), and

"(C) the term 'year of service' has the meaning given such term by section 203(b)(2)."

(c) EFFECTIVE DATES.—

(1) IN GENERAL.—The amendments made by this section shall apply to plan years beginning on or after January 1, 2003.

(2) SPECIAL RULE FOR COLLECTIVELY BARGAINED AGREEMENTS.—In the case of a plan maintained pursuant to 1 or more collective bargaining agreements between employee representatives and 1 or more employers ratified on or before the date of the enactment of this Act, subsection (a) shall be applied to benefits pursuant to, and individuals covered by, any such agreement by substituting for "January 1, 2003" the earlier of—

(A) the later of—

(i) January 1, 2004, or

(ii) the date on which the last of such collective bargaining agreements terminates (determined without regard to any extension thereof after such date of enactment), or

(B) January 1, 2005.

TITLE II—PROTECTION OF EMPLOYEES DURING PENSION PLAN TRANSACTION SUSPENSION PERIOD

SEC. 201. PROTECTION OF PARTICIPANTS OR BENEFICIARIES FROM SUSPENSION OF ABILITY TO DIVERSIFY PLAN ASSETS.

(a) NOTICE REQUIREMENTS.—

(1) EXCISE TAX.—

(A) IN GENERAL.—Chapter 43 of the Internal Revenue Code of 1986 (relating to qualified pension, etc., plans) is amended by adding at the end the following new section:

"SEC. 4980G. FAILURE OF APPLICABLE PLANS TO PROVIDE NOTICE OF TRANSACTION SUSPENSION PERIOD.

"(a) Imposition of Tax.—There is hereby imposed a tax on the failure of any applicable defined contribution plan to meet the requirements of subsection (e) with respect to any participant or beneficiary.

"(b) Amount of Tax.—

"(1) In general.—The amount of the tax imposed by subsection (a) on any failure with respect to any participant or beneficiary shall be $100 for each day in the noncompliance period with respect to the failure.

"(2) Noncompliance period.—For purposes of this section, the term 'noncompliance period' means, with respect to any failure, the period beginning on the date the failure first occurs and ending on the date the notice to which the failure relates is provided or the failure is otherwise corrected.

"(c) Limitations on Amount of Tax.—

"(1) Tax not to apply where failure not discovered and reasonable diligence exercised.—No tax shall be imposed by subsection (a) on any failure during any period for which it is established to the satisfaction of the Secretary that any person subject to liability for tax under subsection (d) did not know that the failure existed and exercised reasonable diligence to meet the requirements of subsection (e).

"(2) Tax not to apply to failures corrected as soon as reasonably practicable.—No tax shall be imposed by subsection (a) on any failure if—

"(A) any person subject to liability for the tax under subsection (d) exercised reasonable diligence to meet the requirements of subsection (e), and

"(B) such person provides the notice described in subsection (e) as soon as reasonably practicable after the first date such person knew, or exercising reasonable diligence should have known, that such failure existed.

"(3) Overall limitation for unintentional failures.—

"(A) In general.—If the person subject to liability for tax under subsection (d) exercised reasonable diligence to meet the requirements of subsection (e), the tax imposed by subsection (a) for failures during the taxable year of the employer (or, in the case of a multiemployer plan, the taxable year of the trust forming part of the plan) shall not exceed $500,000. For purposes of the preceding sentence, all multiemployer plans of which the same trust forms a part shall be treated as 1 plan.

"(B) Taxable years in the case of certain controlled groups.—For purposes of this paragraph, if all persons who are treated as a single employer for purposes of this section do not have the same taxable year, the taxable years taken into account shall be determined under principles similar to the principles of section 1561.

"(4) Waiver by secretary.—In the case of a failure which is due to reasonable cause and not to willful neglect, the Secretary may waive part or all of the tax imposed by subsection (a) to the extent that the payment of such tax would be excessive or otherwise inequitable relative to the failure involved.

"(d) Liability for Tax.—The following shall be liable for the tax imposed by subsection (a):

"(1) In the case of a plan other than a multiemployer plan, the employer.

"(2) In the case of a multiemployer plan, the plan.

"(e) Notice of Transaction Suspension Period.—

"(1) In general.—The plan administrator of an applicable defined contribution plan shall provide notice of any transaction suspension period to each participant or beneficiary to whom the transaction suspension period applies (and to any employee organization representing such participants).

"(2) Notice.—The notice required by paragraph (1) shall be written in a manner calculated to be understood by the average plan participant and shall provide sufficient information (as determined in accordance with rules or other guidance adopted by the Secretary) to allow applicable individuals to understand the timing and effect of such transaction suspension period.

"(3) Timing of notice.—

"(A) In general.—Except as provided in subparagraph (B), the notice required by paragraph (1) shall be provided not later than 30 days before the beginning of the transaction suspension period.

"(B) Exceptions to 30-day notice.—

"(i) Unplanned events.—In the case of any transaction suspension period which is imposed by reason of an event outside of the control of a plan sponsor or administrator, subparagraph (A) shall not apply and the notice shall be furnished as soon as reasonably possible under the circumstances.

"(ii) Acquisitions, etc.—In the case of any transaction suspension period—

"(I) in connection with an acquisition or disposition to which section 410(b)(6)(C) applies, or

"(II) due to such other circumstances specified by the Secretary,

the Secretary may provide that subparagraph (A) shall not apply and the notice shall be furnished at such time as the Secretary specifies.

"(4) Form and manner of notice.—The notice required by paragraph (1) shall be in writing, except that such notice may be in electronic or other form to the extent that such form is reasonably accessible to the applicable individual.

"(f) Definitions and Special Rules.—For purposes of this section—

"(1) Applicable defined contribution plan.—The term 'applicable defined contribution plan' means a defined contribution plan which—

"(A) is a qualified retirement plan (as defined in section 4974(c)), and

"(B) permits a participant or beneficiary to exercise control over assets in his or her account.

"(2) Transaction suspension period.—

"(A) In general.—The term 'transaction suspension period' means a temporary or indefinite period of 2 or more consecutive business days during which there is a substantial reduction (other than by reason of application of securities laws) in the rights of 1 or more participants or beneficiaries to direct investments in a defined contribution plan.

"(B) Business day.—For purposes of this paragraph, a day shall not be treated as a business day to the extent that 1 or more established securities markets for trading securities are not open."

(B) Clerical amendment.—The table of sections for chapter 43 of such Code is amended by adding at the end the following new item:

"Sec. 4980G. Failure of applicable plans to provide notice of transaction suspension period."

(2) Amendments of erisa.—

(A) In general.—Section 101 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 11021) is amended by redesignating the second subsection (h) as subsection (j) and by inserting after the first subsection (h) the following new subsection:

"(i)(1) The plan administrator of an individual account plan which permits a participant or beneficiary to exercise control over assets in his or her account applies shall provide notice of any transaction suspension period to each participant or beneficiary to whom the transaction suspension period applies (and to any employee organization representing such participants).

"(2) The notice required by paragraph (1) shall be written in a manner calculated to be understood by the average plan participant and shall provide sufficient information (as determined in accordance with rules or other guidance adopted by the Secretary of the Treasury) to allow applicable individuals to understand the timing and effect of such transaction suspension period.

"(3)(A) Except as provided in subparagraph (B), the notice required by paragraph (1) shall be provided not later than 30 days before the beginning of the transaction suspension period.

"(B)(i) In the case of any transaction suspension period which is imposed outside of the control of a plan sponsor or administrator, subparagraph (A) shall not apply and the notice shall be furnished as soon as reasonably possible under the circumstances.

"(ii) In the case of any transaction suspension period—

"(I) in connection with an acquisition or disposition to which section 410(b)(6)(C) of the Internal Revenue Code of 1986 applies, or

"(II) due to such other circumstances specified by the Secretary of the Treasury,

the Secretary of the Treasury may provide that subparagraph (A) shall not apply and the notice shall be furnished at such time as the Secretary specifies.

"(4) The notice required by paragraph (1) shall be in writing, except that such notice may be in electronic or other form to the extent that such form is reasonably accessible to the applicable individual.

"(5)(A) For purposes of this subparagraph, the term 'transaction suspension period' means a temporary or indefinite period of 2 or more consecutive business days during which there is a substantial reduction (other than by reason of application of securities laws) in the rights of 1 or more participants or beneficiaries to direct investments in an individual account plan.

"(B) For purposes of this paragraph, a day shall not be treated as a business day to the extent that 1 or more established securities markets for trading securities are not open."

(B) Civil penalties for failure to provide notice.—Section 502 of such Act is amended—

(i) in subsection (a)(6), by striking "or (6)" and inserting "(6), or (7)";

(ii) by redesignating paragraph (7) of subsection (c) as paragraph (8); and

(iii) by inserting after paragraph (6) of subsection (c) the following new paragraph:

"(7) The Secretary may assess a civil penalty against any person of up to $100 a day from the date of the person's failure or refusal to provide notice to participants and beneficiaries in accordance with section 101(i). For purposes of this paragraph, each violation with respect to any single participant or beneficiary, shall be treated as a separate violation."

(b) Inapplicability of Relief From Fiduciary Liability During Suspension of Ability of Participant or Beneficiary To Direct Investments.—Section 404(c)(1) of such Act (29 U.S.C. 1104(c)(1)) is amended—

(1) in subparagraph (B), by inserting before the period the following: ", except that this

subparagraph shall not apply for any period during which the ability of a participant or beneficiary to direct the investment of assets in his or her individual account is suspended by a plan sponsor or fiduciary"; and

(2) by adding at the end the following:

"Any limitation or restriction that may govern the frequency of transfers between investment vehicles shall not be treated as a suspension referred to in subparagraph (B) to the extent such limitation or restriction is disclosed to participants or beneficiaries through the summary plan description or materials describing specific investment alternatives under the plan."

"(c) SAFE HARBOR GUIDANCE.—The Secretary of Labor, in consultation with the Secretary of Treasury, shall, prior to December 31, 2002, issue final regulations providing clear guidance, including safe harbors, on how plan sponsors or any other affected fiduciaries can satisfy their fiduciary responsibilities during any period which the ability of a participant or beneficiary to direct the investment of assets in his or her individual account is suspended."

(d) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendments made by this section shall apply to plan years beginning after December 31, 2002.

(2) EXCEPTIONS TO 30-DAY NOTICE.—The Secretary of the Treasury shall, no later than 120 days after the date of the enactment of this Act, specify the circumstances under section 4980G(e)(3)(B)(ii) of the Internal Revenue Code of 1986 under which the 30-day notice rule would not apply and the time by which the notice is required to be provided.

SEC. 202. CERTAIN SALES AND PURCHASES OF COMPANY STOCK BY CORPORATE INSIDERS TO BE SUBJECT TO EXCISE TAX ON GOLDEN PARACHUTE PAYMENTS.

(a) IN GENERAL.—Section 4999 of the Internal Revenue Code of 1986 (relating to golden parachute payments) is amended by redesignating subsection (c) as subsection (d) and by inserting after subsection (b) the following new subsection:

"(c) CERTAIN SALES OF COMPANY STOCK BY CORPORATE INSIDERS.—

"(1) TREATMENT AS EXCESS PARACHUTE PAYMENT.—

"(A) IN GENERAL.—For purposes of this section, if there is a sale or exchange, or purchase, of stock in a corporation by a corporate insider during any period in which a transaction suspension period affecting the ability of participants and beneficiaries to invest stock in such corporation is in effect with respect to a defined contribution plan—

"(i) to which section 401(a) (28) or (35) applies, and

"(ii) which is maintained by such corporation (or any other entity consolidated with such corporation for purposes of reporting to the Securities and Exchange Commission),

any amount realized by the corporate insider on such sale or exchange (or the purchase price in the case of a purchase) shall be treated as an excess parachute payment.

"(B) LIMITATION.—Subparagraph (A) shall only apply to stock acquired by an individual by reason of the individual's employment with the corporation or by reason of any other relationship with the corporation that makes the individual a corporate insider.

"(2) APPLICATION TO OTHER INSTRUMENTS.—For purposes of paragraph (1)—

"(A) any sale or exchange, or purchase, of an option, warrant, or other derivative of stock in a corporation,

"(B) any transaction involving the exercise of an option, warrant, or other derivative of stock in a corporation, or

"(C) any similar transaction,

shall be treated in the same manner as a transaction involving the sale or exchange, or purchase, of stock.

"(3) CORPORATE INSIDER.—For purposes of this subsection, the term 'corporate insider' means, with respect to a corporation, any individual who is subject to the requirements of section 16(a) of the Securities Exchange Act of 1934 with respect to such corporation.

"(4) TRANSACTION SUSPENSION PERIOD.—The term 'transaction suspension period' has the meaning given such term by section 4980G(f)(2)."

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to sales and exchanges after the 120th day after the date of the enactment of this Act.

TITLE III—PROVIDING OF INFORMATION TO ASSIST PARTICIPANTS

SEC. 301. PERIODIC PENSION BENEFITS STATEMENTS.

(a) EXCISE TAX.—

(1) IN GENERAL.—Chapter 43 of the Internal Revenue Code of 1986 (relating to qualified pension, etc., plans), as amended by this Act, is amended by adding at the end the following new section:

"SEC. 4980H. FAILURE OF CERTAIN DEFINED CONTRIBUTION PLANS TO PROVIDE REQUIRED QUARTERLY STATEMENTS.

"(a) IMPOSITION OF TAX.—There is hereby imposed a tax on the failure of an applicable defined contribution plan to meet the requirements of subsection (e) with respect to any participant or beneficiary.

"(b) AMOUNT OF TAX.—

"(1) IN GENERAL.—The amount of the tax imposed by subsection (a) on any failure with respect to any participant or beneficiary shall be $100 for each day in the noncompliance period with respect to the failure.

"(2) NONCOMPLIANCE PERIOD.—For purposes of this section, the term 'noncompliance period' means, with respect to any failure, the period beginning on the date the failure first occurs and ending on the date the statement to which the failure relates is provided or the failure is otherwise corrected.

"(c) LIMITATIONS ON AMOUNT OF TAX.—

"(1) TAX NOT TO APPLY WHERE FAILURE NOT DISCOVERED AND REASONABLE DILIGENCE EXERCISED.—No tax shall be imposed by subsection (a) on any failure during any period for which it is established to the satisfaction of the Secretary that any person subject to liability for tax under subsection (d) did not know that the failure existed and exercised reasonable diligence to meet the requirements of subsection (e).

"(2) TAX NOT TO APPLY TO FAILURES CORRECTED WITHIN 30 DAYS.—No tax shall be imposed by subsection (a) on any failure if—

"(A) any person subject to liability for the tax under subsection (d) exercised reasonable diligence to meet the requirements of subsection (e), and

"(B) such person provides the statement described in subsection (e) during the 30-day period beginning on the first date such person knew, or exercising reasonable diligence should have known, that such failure existed.

"(3) OVERALL LIMITATION FOR UNINTENTIONAL FAILURES.—

"(A) IN GENERAL.—If the person subject to liability for tax under subsection (d) exercised reasonable diligence to meet the requirements of subsection (e), the tax imposed by subsection (a) for failures during the taxable year of the employer (or, in the case of a multiemployer plan, the taxable year of the trust forming part of the plan) shall not exceed $500,000. For purposes of the preceding sentence, all multiemployer plans of which the same trust forms a part shall be treated as 1 plan.

"(B) TAXABLE YEARS IN THE CASE OF CERTAIN CONTROLLED GROUPS.—For purposes of this paragraph, if all persons who are treated as a single employer for purposes of this section do not have the same taxable year, the taxable years taken into account shall be determined under principles similar to the principles of section 1561.

"(4) WAIVER BY SECRETARY.—In the case of a failure which is due to reasonable cause and not to willful neglect, the Secretary may waive part or all of the tax imposed by subsection (a) to the extent that the payment of such tax would be excessive or otherwise inequitable relative to the failure involved.

"(d) LIABILITY FOR TAX.—The following shall be liable for the tax imposed by subsection (a):

"(1) In the case of a plan other than a multiemployer plan, the employer.

"(2) In the case of a multiemployer plan, the plan.

"(e) REQUIREMENT TO PROVIDE QUARTERLY STATEMENTS.—

"(1) IN GENERAL.—The administrator of an applicable defined contribution plan shall furnish a pension benefit statement—

"(A) to a plan participant at least once each calendar quarter, and

"(B) to a plan beneficiary upon written request but no more frequently than once during any 12-month period.

"(2) STATEMENT.—

"(A) IN GENERAL.—A pension benefit statement under paragraph (1) shall indicate, on the basis of the latest available information—

"(i) the total benefits accrued, and

"(ii) the nonforfeitable pension benefits, if any, which have accrued, or the earliest date on which benefits will become nonforfeitable.

"(B) SPECIFIC INFORMATION.—A pension benefit statement under paragraph (1) shall include (together with the information required in subparagraph (A))—

"(i) the value of any assets held in the form of employer securities, without regard to whether such securities were contributed by the plan sponsor or acquired at the direction of the plan or of the participant or beneficiary, and an explanation of any limitations or restrictions on the right of the participant or beneficiary to direct an investment; and

"(ii) an explanation of the importance, for the long-term retirement security of participants and beneficiaries, of a well-balanced and diversified investment portfolio, including a discussion of the risk of holding substantial portions of a portfolio in the security of any one entity, such as employer securities.

"(3) MANNER OF STATEMENT.—A pension benefit statement under paragraph (1)—

"(A) shall be written in a manner calculated to be understood by the average plan participant, and

"(B) may be provided in written, electronic, or other appropriate form.

"(f) APPLICABLE DEFINED CONTRIBUTION PLAN.—For purposes of this section, the term 'applicable defined contribution plan' means a defined contribution plan which—

"(1) is a qualified retirement plan (as defined in section 4974(c)), and

"(2) permits a participant or beneficiary to exercise control over assets in his or her account."

(2) CLERICAL AMENDMENT.—The table of sections for chapter 43 of such Code is amended by adding at the end the following new item:

"Sec. 4980H. Failure of certain defined contribution plans to provide required quarterly statements."

(b) AMENDMENTS OF ERISA.—

(1) IN GENERAL.—Section 105(a) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1025(a)) is amended to read as follows:

"(a)(1)(A) The administrator of an individual account plan shall furnish a pension benefit statement—

"(i) to a plan participant at least once annually (each calendar quarter in the case of an applicable individual account plan), and

"(ii) to a plan beneficiary upon written request.

"(B) The administrator of a defined benefit plan shall furnish a pension benefit statement—

"(i) at least once every 3 years to each participant with a nonforfeitable accrued benefit who is employed by the employer maintaining the plan at the time the statement is furnished to participants, and

"(ii) to a participant or beneficiary of the plan upon written request.

Information furnished under subparagraph (B) to a participant (other than at the request of the participant) may be based on reasonable estimates determined under regulations prescribed by the Secretary.

"(2)(A) A pension benefit statement under paragraph (1)—

"(i) shall indicate, on the basis of the latest available information—

"(I) the total benefits accrued, and

"(II) the nonforfeitable pension benefits, if any, which have accrued, or the earliest date on which benefits will become nonforfeitable,

"(ii) shall be written in a manner calculated to be understood by the average plan participant, and

"(iii) may be provided in written, electronic, telephonic, or other appropriate form.

"(B) In the case of an applicable individual account plan, the pension benefit statement under paragraph (1) shall include (together with the information required in subparagraph (A))—

"(i) the value of any assets held in the form of employer securities, without regard to whether such securities were contributed by the plan sponsor or acquired at the direction of the plan or of the participant or beneficiary, and an explanation of any limitations or restrictions on the right of the participant or beneficiary to direct an investment, and

"(ii) an explanation of the importance, for the long-term retirement security of participants and beneficiaries, of a well-balanced and diversified investment portfolio, including a discussion of the risk of holding substantial portions of a portfolio in the security of any 1 entity, such as employer securities.

"(C) For purposes of this subsection, the term 'applicable individual account plan' means an individual account plan to which section 404(c) applies.

"(3)(A) In the case of a defined benefit plan, the requirements of paragraph (1)(B)(i) shall be treated as met with respect to a participant if the administrator provides the participant at least once each year with notice of the availability of the pension benefit statement and the ways in which the participant may obtain such statement. Such notice shall be provided in written, electronic, telephonic, or other appropriate form, and may be included with other communications to the participant if done in a manner reasonably designed to attract the attention of the participant.

"(B) The Secretary may provide that years in which no employee or former employee benefits (within the meaning of section 410(b) of the Internal Revenue Code of 1986) under the plan need not be taken into account in determining the 3-year period under paragraph (1)(B)(i)."

(c) CONFORMING AMENDMENTS.—

(1) Section 105 of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1025) is amended by striking subsection (d).

(2) Section 105(b) of such Act (29 U.S.C. 1025(b)) is amended to read as follows:

"(b) In no case shall a participant or beneficiary of a plan be entitled to more than 1 statement described in subsection (a)(1)(A)(ii) or (B)(ii), whichever is applicable, in any 12-month period."

(d) MODEL STATEMENTS.—The Secretary of Labor shall develop 1 or more model benefit statements, written in a manner calculated to be understood by the average plan participant, that may be used by plan administrators in complying with the requirements of section 4980H of the Internal Revenue Code of 1986 and section 105 of the Employee Retirement Income Security Act of 1974.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to plan years beginning after December 31, 2003.

TECHNICAL EXPLANATION OF S. 1971

DIVERSIFICATION OF PENSION PLAN ASSETS

The bill amends the Internal Revenue Code to require a qualified defined contribution plan invested in publicly-traded employer securities to provide participants with the right to diversify their investment in employer securities. A participant must be provided with the immediate right to reinvest elective deferrals that are invested in employer securities. In addition, the participant must be provided with the right to invest employer contributions that are invested in employer securities once the participant has 3 or more years of service.

The participant must be permitted to reinvest employer securities allocated to the participant's account in any other investment option currently available to employees, and the plan must provide at least 3 alternative investment options. These diversification rights are also extended to any beneficiary of a participant.

A plan will fail to comply with this requirement if the ability of participants to diversify their investment in employer securities is restricted under the plan or in practice. For example, a plan will not comply with this requirement if it provides for diversification of investment in employer securities, but also provides for a reduced matching contribution for any participant who invests any employer securities in another investment option. The bill also amends ERISA by adding this diversification requirement to section 204.

These diversification requirements do not apply to an ESOP that provides only for nonelective employer contributions and is separate from any other qualified plan maintained by the same employer. These ESOPs continue to be subject to the diversification requirements in effect under section 401(a)(28) of the Code.

PROTECTION OF EMPLOYEES DURING PENSION PLAN TRANSACTION SUSPENSION PERIODS

Notice of transaction suspension periods

The bill requires that participants and beneficiaries who are permitted to direct the investment of their accounts in a qualified defined contribution plan must be notified by the plan administrator of any "transaction suspension period" no later than 30 days before the transaction suspension period begins.

A transaction suspension period is any temporary or indefinite period of 2 or more business days during which there is a substantial reduction in the rights of participant or beneficiaries to direct investments (other than by reason of the application of securities laws). The notice must provide sufficient information to allow affected participants and beneficiaries to understand the timing and effect of the transaction suspension period and must be written in a manner calculated to be understood by the average plan participant.

The notice may be provided in writing or through an electronic or other form reasonably accessible to the affected participants and beneficiaries. These requirements are not violated if 30-days notice could not be provided because of events outside of the control of the plan sponsor or administrator, provided that notice is provided as soon as is reasonably possible under the circumstances. This exception to the 30-day requirement also applies, to the extent permitted in guidance by the Secretary, in other appropriate situations such as acquisitions or dispositions.

The bill also imposes an excise tax of $100 a day on the failure of a qualified defined contribution plan to provide notice to a participant or beneficiary. The excise tax is imposed on the employer or, in the case of a multiemployer plan, on the plan. No excise tax is imposed during any period during which any person subject to liability for the tax did not know that the failure existed and exercised reasonable diligence to meet the notice requirement.

In addition, no excise tax is imposed to the extent that a person subject to liability for the tax exercised reasonable diligence and actually provided notice as soon as reasonably practicable after the first date such person knew, or exercising reasonable diligence should have known, that such failure existed. For a person who exercised reasonable diligence, the tax is limited to no more than $500,000 for the failures during a taxable year. Finally, the Secretary may waive all or part of any tax that would otherwise be imposed to the extent that payment of the tax would be excessive or otherwise inequitable.

Inapplicability of relief from fiduciary liability during transaction suspension period

The provisions of ERISA that limit fiduciary liability during periods when a participant or beneficiary exercises control over assets in his account would be amended to clarify that this limit does not apply during any transaction suspension period.

Trading in company stock by corporate insiders subject to excise tax

Under the bill, a corporate insider is subject to a 20% excise tax on any acquisition, disposition, or similar transaction involving any employer securities during any transaction suspension period that affects investment in employer securities with respect to which notice must be provided to any plan participant or beneficiary.

The excise tax is calculated based on the amount realized by the insider in any sale or other disposition or the fair market value of securities acquired by the insider during the transaction suspension period. For this purpose, “corporate insiders” are individuals subject to the requirements of section 16(a) of the Securities Exchange Act of 1934 with respect to the corporation.

PROVIDING OF INFORMATION TO ASSIST PARTICIPANTS

Periodic pension benefit statements

The bill amends ERISA to require the plan administrator of a qualified defined contribution plan to provide participants with benefit statements at least annually, except that benefit statements must be provided at least quarterly to participants who have the ability to direct the investment of their account in the plan. These statements must provide information on (i) the fair market value of assets in the participant's account, (ii) the portion of the assets which are nonforfeitable and the earliest date on which assets not nonforfeitable become so, (iii) the percentage (if any) which the fair market value of employer securities bears to the fair market value of assets in the account, and (iv) a reminder of the importance of having diversified investments of assets in the plan and other plans of the employer in which the individual is also a participant. In addition, statements must be provided to plan beneficiaries at least annually, if requested in writing.

The bill also amends ERISA to require that the administrator of a qualified defined benefit plan provide a benefit statement at least every 3 years to a participant with a nonforfeitable accrued benefit who is employed by the employer maintaining the plan at the time the statement is furnished. A statement is also required to be provided to any participant or beneficiary upon written request.

This benefit statement must provide information on the total benefits accrued, the nonforfeitable pension benefits, if any, which have accrued, or the earliest date on which benefits will become nonforfeitable. The statement must be written in a manner calculated to be understood by the average plan participant and may be provided in writing or in electronic or other form reasonably accessible by the participant.

The information provided in a defined benefit plan statement, other than a statement requested by a plan participant, may be based on reasonable estimates. The requirement to provide a defined benefit plan statement is met if the plan notifies participants annually of the availability of a statement and information on how the participant can obtain a statement.

The bill also imposes an excise tax of $100 a day during a period of noncompliance with the requirement that quarterly benefit statements be provided to participants who have the right to direct investment of their account. The excise tax is imposed on the employer or, in the case of a multiemployer plan, on the plan. No excise tax is imposed during any period during which any person subject to liability for the tax did not know that the failure existed and exercised reasonable diligence to meet the notice requirement.

In addition, no excise tax is imposed to the extent that a person subject to liability for the tax exercised reasonable diligence and actually provided notice as soon as reasonably practicable after the first date such person knew, or exercising reasonable diligence should have known, that such failure existed. For a person who exercised reasonable diligence, the tax is limited to no more than $500,000 for the failures during a taxable year. Finally, the Secretary may waive all or part of any tax that would otherwise be imposed to the extent that payment of the tax would be excessive or otherwise inequitable.

EFFECTIVE DATE

The provisions of the bill would be effective for plan years beginning on or after January 1, 2003, except that the provisions related to the provision of benefit statements would be effective for plan years beginning after December 31, 2003. The bill provides a transition period for compliance with the diversification requirements for plans maintained pursuant to collective bargaining agreements.

By Mr. ROCKEFELLER:

S. 1972. A bill to amend the charter of the AMVETS organization; to the Committee on the Judiciary.

Mr. ROCKEFELLER. Mr. President, today I introduce legislation on behalf of American Veterans of World War II, Korea, and Vietnam, AMVETS, a nonprofit veterans service organization chartered by Congress in 1947, which boasts approximately 250,000 members. Formed in the years immediately following World War II, AMVETS has served America's veterans for more than 50 years.

This bill would amend the AMVETS' congressional charter in three ways. First, it would change AMVETS' official name from “American Veterans of World War II, Korea, and Vietnam” to simply “American Veterans,” in order to more accurately reflect the group's membership; second, it would amend the charter to reflect long-standing organizational changes; and finally, it would recognize the change of address for AMVETS' headquarters from Washington, DC, to Lanham, MD.

These amendments are important to allowing AMVETS to continue its strong tradition of serving veterans. I am proud to offer them my assistance, and I ask that my colleagues act quickly to accommodate these small changes.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RERCORD, as follows:

S. 1972

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AMENDMENTS TO AMVETS CHARTER.

(a) NAME OF ORGANIZATION.—(1) Sections 22701(a) and 22706 of title 36, United States Code, are amended by striking “AMVETS (American Veterans of World War II, Korea, and Vietnam)” and inserting “AMVETS (American Veterans)”.

(2)(A) The heading of chapter 227 of such title is amended to read as follows:

“CHAPTER 227—AMVETS (AMERICAN VETERANS)”.

(B) The item relating to such chapter in the table of chapters at the beginning of subtitle II of such title is amended to read as follows:

“227. AMVETS (American veterans) .. 22701”.

(b) GOVERNING BODY.—Section 22704(c)(1) of such title is amended by striking “seven national vice commanders” and all that follows through “a judge advocate,” and inserting “two national vice commanders, a finance officer, a judge advocate, a chaplain, six national district commanders,”.

(c) HEADQUARTERS AND PRINCIPAL PLACE OF BUSINESS.—Section 22708 of such title is amended—

(1) by striking “the District of Columbia” in the first sentence and inserting “Maryland”; and

(2) by striking “the District of Columbia” in the second sentence and inserting “Maryland”.

AMENDMENTS SUBMITTED AND PROPOSED

SA 2940. Mr. BOND proposed an amendment to amendment SA 2937 submitted by Mr. SCHUMER and intended to be proposed to the bill (S. 565) to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes.

SA 2941. Mr. DASCHLE submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2942. Mr. DASCHLE submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 2940. Mr. BOND proposed an amendment to amendment SA 2937 submitted by Mr. SCHUMER and intended to be proposed to the bill (S. 565) to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; as follows:

At the end, add the following:

SEC. . SIGNATURE VERIFICATION PROGRAMS.

Notwithstanding any other provision of this Act, a State may use a signature verification or affirmation program to meet the requirements of section 103(b) relating to the verification of the identity of individuals who register to vote by mail only if the Attorney General certifies that less than one-half of 1 percent of votes cast in the 2 most recent elections for Federal office were cast by voters who were not eligible to vote under the law of such State.

SA 2941. Mr. DASCHLE submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 18, line 8, strike through page 19, line 24, and insert the following:

(b) REQUIREMENTS FOR VOTERS WHO REGISTER BY MAIL.—

(1) IN GENERAL.—Notwithstanding section 6(c) of the National Voter Registration Act of 1993 (42 U.S.C. 1973gg-4(c)) and subject to paragraphs (3) and (4), a State shall, in a uniform and nondiscriminatory manner, require an individual to meet the requirements of paragraph (2) if—

(A) the individual has registered to vote in a jurisdiction by mail; and

(B) the individual has not previously voted in an election for Federal office in that State.

(2) REQUIREMENTS.—

(A) IN GENERAL.—An individual meets the requirements of this paragraph if the individual—

(i) in the case of an individual who votes in person—

(I) presents to the appropriate State or local election official a current and valid photo identification;

(II) presents to the appropriate State or local election official a copy of a current utility bill, bank statement, Government check, paycheck, or other Government document that shows the name and address of the voter;

(III) provides written affirmation on a form provided by the appropriate State or local election official of the individual's identity; or

(IV) provides a signature or personal mark for matching with the signature or personal mark of the individual on record with a State or local election official; or

(ii) in the case of an individual who votes by mail, submits with the ballot—

(I) a copy of a current and valid photo identification;

(II) a copy of a current utility bill, bank statement, Government check, paycheck, or other Government document that shows the name and address of the voter; or

(III) provides a signature or personal mark for matching with the signature or personal mark of the individual on record with a State or local election official.

(B) PROVISIONAL VOTING.—An individual who desires to vote in person, but who does not meet the requirements of subparagraph (A)(i), may cast a provisional ballot under section 102(a).

(3) IDENTITY VERIFICATION BY SIGNATURE OR PERSONAL MARK.—In lieu of the requirements of paragraph (1), a State may require each individual described in such paragraph to provide a signature or personal mark for the purpose of matching such signature or mark with the signature or personal mark of that individual on record with a State or local election official.

SA 2942. Mr. DASCHLE submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

On page 68, strike lines 19 and 20, and insert the following:

"(a) IN GENERAL.—Nothing in this Act may be construed to authorize".

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON BANKING, HOUSING, AND UNION AFFAIRS

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on Wednesday, February 27, 2002, at 10 a.m., to conduct an oversight hearing on "Corporate Governance."

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FINANCE

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Finance be authorized to meet during the session of the Senate on Wednesday, February 27, 2002, at 2 p.m., to hear testimony on "Retirement Security: Picking up the Enron Pieces."

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Wednesday, February 27, 2002, at 10 a.m., to hold a hearing titled, "Now Do We Promote Democratization, Poverty Alleviation, and Human Rights To Build a More Secure Future?"

Agenda

Witnesses: The Honorable Madeleine Albright, former Secretary of State, Chairman, National Democratic Institute, Washington, DC, and the Honorable Richard N. Perle, former Assistant Secretary of Defense for International Security, Resident Fellow, American Enterprise Institute, Washington, DC.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Wednesday, February 27, 2002, at 2:15 p.m., to hold a hearing titled, "U.S. Funding for the UN Population Fund: The Effect on Women's Lives."

Agenda

Witnesses

Panel 1: Mr. Arthur E. "Gene" Dewey, Assistant Secretary, Bureau of Population, Refugees, and Migration, Department of State, Washington, DC.

Panel 2: The Honorable Nicolas H. Biegman, former Ambassador of the Netherlands to NATO, Amsterdam, the Netherlands; Mrs. Phyllis E. Oakley, Former Assistant Secretary of State for Intelligence and Research, Former Assistant Secretary of State for Population, Refugees, and Migration, Adjunct Professor, Johns Hopkins University, Washington, DC; Ms. Josephine Guy, Director of Governmental Affairs, America 21, Louisville, KY; and Dr. Nicholas Eberstadt, Henry Wendt Chair in Political Economy, American Enterprise Institute, Washington, DC.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON GOVERNMENTAL AFFAIRS

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Governmental Affairs be authorized to meet on Wednesday, February 27, 2002, at 9:30 a.m., to hold a hearing entitled "The Watchdogs Didn't Bark: Enron and the Wall Street Analysts."

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON HEALTH, EDUCATION, LABOR, AND PENSIONS

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Health, Education, Labor, and Pensions be authorized to meet for a hearing on Employment Non-Discrimination Act, ENDA, during the session of the Senate on Wednesday, February 27, 2002, at 10 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON HEALTH, EDUCATION, LABOR, AND PENSIONS

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Health, Education, Labor, and Pensions be authorized to meet for a hearing on Workplace Safety and Health for Immigration and Low Wage Workers during the session of the Senate on Wednesday, February 27, 2002, at 2 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON INDIAN AFFAIRS

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Indian Affairs be authorized to meet on Wednesday, February 27, 2002, at 2 p.m., in room 106 of the Dirksen Senate Building to conduct a hearing on the rulings of the U.S. Supreme Court affecting tribal governments powers and authorities.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. REID. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet to conduct a hearing on "Sovereign Immunity and the Protection of Intellectual Property" on Wednesday, February 27, 2002, at 10 a.m., in Dirksen room 226.

Revised Witness List

Panel I: James E. Rogan, Under Secretary of Commerce for Intellectual Property, Director of the U.S. Patent and Trademark Office, Washington, DC; and Marybeth Peters, Register of Copyrights, U.S. Copyright Office, Washington, DC.

Panel II: Michael K. Kirk, Executive Director, American Intellectual Property Law Association, Arlington, Virginia; Keith Shraad, Western Regional Director, National Information Consortium, Lawrence, Kansas; William E. Thro, General Counsel, Christopher Newport University, Newport News, Virginia; and Paul Bender, Professor, Arizona State University College of Law, Counsel to Meyer & Klipper, PLLC, Washington, DC.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON SMALL BUSINESS AND ENTREPRENEURSHIP

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Small Business and Entrepreneurship be authorized to meet during the session of the Senate for a hearing regarding the U.S. Small Business Administration's Fiscal Year 2003 Budget and other matters on Wednesday, February 27, 2002, beginning at 9 a.m., in room 428A of the Russell Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON VETERANS' AFFAIRS

Mr. REID. Mr. President, I ask unanimous consent that the Committee on Veterans' Affairs be authorized to meet during the session of the Senate on Wednesday, February 27, 2002, for a joint hearing with the House of Representatives' Committee on Veterans Affairs, to hear the legislative presentations of the Disabled American Veterans and the Veterans of Foreign Wars.

The hearing will take place in room 345 of the Cannon House Office Building at 9:30 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

SPECIAL COMMITTEE ON AGING

Mr. REID. Mr. President, I ask unanimous consent that the Special Committee on Aging be authorized to meet on Wednesday, February 27, 2002, from 9 a.m.–12 p.m., in Dirksen 628 for the purpose of conducting a hearing.

The PRESIDING OFFICER. Without objection, it is so ordered.

SELECT COMMITTEE ON INTELLIGENCE

Mr. REID. Mr. President, I ask unanimous consent that the Select Committee on Intelligence be authorized to meet during the session of the Senate on Wednesday, February 27, 2002, at 2:30 p.m., to hold a closed hearing on intelligence matters.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON EMERGING THREATS AND CAPABILITIES

Mr. REID. Mr. President, I ask unanimous consent that the Subcommittee on Emerging Threats and Capabilities of the Committee on Armed Services be authorized to meet during the session of the Senate on Wednesday, February 27, 2002, at 2:30 p.m., in open and closed session to receive testimony on the weapons of mass destruction threat from Iraq.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON READINESS AND MANAGEMENT SUPPORT

Mr. REID. Mr. President, I ask unanimous consent that the Subcommittee on Readiness and Management Support of the Committee on Armed Services be authorized to meet during the session of the Senate on Wednesday, February 27, 2002, at 10 a.m., in open session to receive testimony on Department of Defense acquisition policy.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON SCIENCE, TECHNOLOGY, AND SPACE

Mr. REID. Mr. President, I ask unanimous consent that the Subcommittee on Science, Technology, and Space of the Committee on Commerce, Science, and Transportation be authorized to meet on Wednesday, February 27, 2002, at 2 p.m., on digital divide and minority serving institutions.

The PRESIDING OFFICER. Without objection, it is so ordered.

MEASURE PLACED ON CALENDAR—H.R. 2356

Mr. REID. Mr. President, I understand H.R. 2356 is at the desk and is due for its second reading.

The PRESIDING OFFICER. The clerk will report the bill by title.

The senior assistant bill clerk read as follows:

A bill (H.R. 2356) to amend the Federal Election Campaign Act of 1971 to provide bipartisan campaign reform.

Mr. REID. Mr. President, I would object to any further proceedings.

The PRESIDING OFFICER. Under the rule, the bill will be placed on the calendar.

READ ACROSS AMERICA DAY

Mr. REID. Mr. President, I ask unanimous consent that the Judiciary Committee be discharged from consideration of S. Res. 211, and that the Senate then proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the bill by title.

The senior assistant bill clerk read as follows:

A resolution (S. 211) designating March 2, 2002, as "Read Across America Day."

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. Mr. President, I ask unanimous consent that the resolution and preamble be agreed to en bloc, the motion to reconsider be laid upon the table, and that any statements relating thereto be printed in the RECORD, with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 211) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, is as follows:

S. RES. 211

Whereas reading is a basic requirement for quality education and professional success, and a source of pleasure throughout life;

Whereas Americans must be able to read if the Nation is to remain competitive in the global economy;

Whereas Congress, through the No Child Left Behind Act of 2001 (Public Law 107–110) and the new Reading First, Early Reading First, and Improving Literacy Through School Libraries programs, has placed great emphasis on reading intervention and additional resources for reading assistance; and

Whereas more than 40 national associations concerned about reading and education have joined with the National Education Association to use March 2, the anniversary of the birth of Theodor Geisel, also known as Dr. Seuss, to celebrate reading: Now, therefore, be it

Resolved, That the Senate—

(1) designates March 2, 2002, as "Read Across America Day";

(2) honors Theodor Geisel, also known as Dr. Seuss, for his success in encouraging children to discover the joy of reading;

(3) encourages parents to read with their children for at least 30 minutes on Read Across America Day in honor of Dr. Seuss and in a celebration of reading; and

(4) requests that the President issue a proclamation calling on the people of the United States to observe the day with appropriate ceremonies and activities.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider Calendar Nos. 699, 700, and 701, and the nominations placed on the Secretary's desk; that the nominations be confirmed, the motions to reconsider be laid upon the table, the President be immediately notified of the Senate's action, any statements thereon be printed in the Record, and the Senate return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed are as follows:

AIR FORCE

The following named officer for appointment in the United States Air Force to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

To be lieutenant general

Maj. Gen. Steven R. Polk, 6022.

The following named officer for appointment in the United States Air Force to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

To be lieutenant general

Maj. Gen. John R. Baker, 3934.

The following named officer for appointment in the United States Air Force to the grade indicated while assigned to a position of importance and responsibility under title 10, U.S.C., section 601:

To be general

Lt. Gen. Lance W. Lord, 1026.

Nominations Placed on the Secretary's Desk

AIR FORCE

PN1312 Air Force nomination of David E. Blum, which was received by the Senate and appeared in the Congressional Record of December 20, 2001

PN1313 Air Force nominations (2) beginning JAMES C. COOPER, II, and ending JOHN J. KUPKO, II, which nominations were received by the Senate and appeared in the Congressional Record of December 20, 2001

PN1349 Air Force nominations (2) beginning LINDA F. JONES, and ending Robert J. King, which nominations were received by the Senate and appeared in the Congressional Record of January 23, 2002

PN1350 Air Force nomination of Dan Rose, which was received by the Senate and appeared in the Congressional Record of January 23, 2002

PN1351 Air Force nominations (3) beginning DOUGLAS W. KNIGHTON, and ending ROBERT J. SEMRAD, which nominations were received by the Senate and appeared in the Congressional Record of January 23, 2002

PN1352 Air Force nominations (5) beginning RICHARD E. HORN, and ending MARK A. WEINER, which nominations were received by the Senate and appeared in the Congressional Record of January 23, 2002

PN1358 Air Force nominations (10) beginning VINCENT G. DEBONO, JR, and ending AMY M. ROWE, which nominations were received by the Senate and appeared in the Congressional Record of January 28, 2002

PN1360 Air Force nominations (41) beginning KATHRYN L. AASEN, and ending JUSTIN N. ZUMSTEIN, which nominations were received by the Senate and appeared in the Congressional Record of January 28, 2002

PN1362 Air Force nominations (155) beginning MELISSA A. AERTS, and ending RICHARD M. ZWIRKO, which nominations were received by the Senate and appeared in the Congressional Record of January 28, 2002

PN1353 Air Force nominations (295) beginning TODD E. ABBOTT, and ending STEPHEN J. ZIMMERMANN, which nominations were received by the Senate and appeared in the Congressional Record of January 28, 2002

PN1369 Air Force nominations (56) beginning KIRBY D. AMONSON, and ending DALTON P. WILSON, which nominations were received by the Senate and appeared in the Congressional Record of January 28, 2002

PN1377 Air Force nominations (2) beginning SANDRA G. MATHEWS, and ending MARGARET M. NONNEMACHER, which nominations were received by the Senate and appeared in the Congressional Record of January 29, 2002

PN1378 Air Force nominations (2) beginning REBECCA A. DOBBS, and ending MAX S. KUSH, which nominations were received by the Senate and appeared in the Congressional Record of January 29, 2002

PN1379 Air Force nominations (11) beginning ERNEST H. BARNETT, and ending RONALD W. SCHMIDT, which nominations were received by the Senate and appeared in the Congressional Record of January 29, 2002

PN1380 Air Force nominations (16) beginning SANDRA H. ALFORD, and ending FRANCIS C. ZUCCONI, which nominations were received by the Senate and appeared in the Congressional Record of January 29, 2002

PN1381 Air Force nominations (14) beginning RAUL A. AGUILAR, and ending GILBERT L. WERGOWSKE, which nominations were received by the Senate and appeared in the Congressional Record of January 29, 2002

PN1382 Air Force nominations (143) beginning LARRY W. ALEXANDER, and ending CLAUDIA R. ZIEBIS, which nominations were received by the Senate and appeared in the Congressional Record of January 29, 2002

ARMY

PN1299 Army nomination of LESLIE C. SMITH, II, which was received by the Senate and appeared in the Congressional Record of December 18, 2001

PN1353 Army nominations (8) beginning FRANKLIN E. LIMERICK, JR., and ending GARY J. THORSTENSON, which nominations were received by the Senate and appeared in the Congressional Record of January 23, 2002

PN1354 Army nominations (7) beginning DARLENE S. COLLINS, and ending MICHAEL J. WAGNER, which nominations were received by the Senate and appeared in the Congressional Record of January 23, 2002

PN1364 Army nominations (17) beginning GARY J. BROCKINGTON, and ending DONNA M. WRIGHT, which nominations were received by the Senate and appeared in the Congressional Record of January 28, 2002

PN1438 Army nominations (35) beginning MARIAN AMREIN, and ending STEVEN M. WALTERS, which nominations were received by the Senate and appeared in the Congressional Record of February 15, 2002

MARINE CORPS

PN1367 Marine Corps nominations (143) beginning ROBERT J. ABBLITT, and ending CARL J. WOODS, which nominations were received by the Senate and appeared in the Congressional Record of January 28, 2002

PN1368 Marine Corps nominations (192) beginning DONALD A. BARNETT, and ending NICOLAS R. WISECARVER, which nominations were received by the Senate and appeared in the Congressional Record of January 28, 2002

PN1418 Marine Corps nominations (365) beginning ALBERT R. ADLER, and ending PETER D. ZORETIC, which nominations were received by the Senate and appeared in the Congressional Record of February 11, 2002

NAVY

PN1391 Navy nominations (4) beginning GREGORY W. KIRWAN, and ending MATTHEW M. SCOTT, which nominations were received by the Senate and appeared in the Congressional Record of February 5, 2002

PN1392 Navy nominations (9) beginning MICHAEL J. ADAMS, and ending SCOTT A. SUOZZI, which nominations were received by the Senate and appeared in the Congressional Record of February 5, 2002

PN1419 Navy nomination John J. Whyte, which was received by the Senate and appeared in the Congressional Record of February 11, 2002

PN1420 Navy nominations (33) beginning KELLY V. AHLM, and ending THOMAS A. WINTER, which nominations were received by the Senate and appeared in the Congressional Record of February 11, 2002

PN1421 Navy nominations (262) beginning RENE V. ABADESCO, and ending MARK W. YATES, which nominations were received by the Senate and appeared in the Congressional Record of February 11, 2002

LEGISLATIVE SESSION

The PRESIDING OFFICER. The Senate will now return to legislative session.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BROWNBACK. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. Corzine). Without objection, it is so ordered.

BLACK HISTORY MONTH

Mr. BROWNBACK. Mr. President, perhaps one of the most moving anthems of this Nation was written by Katharine Lee Bates, "America The Beautiful." In the fourth verse, Ms. Bates wrote:

> O beautiful for patriot dream that sees beyond the years,
> Thine alabaster cities gleam undimmed by human tears!

From the inception of our Nation, many Americans have given their lives in order that we may enjoy the freedom and prosperity of American society. Now where is that more apparent than in our military history.

As we celebrate Black History Month, it is fitting that we take time to remember those Americans who, undaunted by the confines of slavery, oppression, and segregation, fought valiantly to preserve our great Nation.

During the struggle for national independence during the Revolutionary War, approximately 8,000 to 10,000 African-American soldiers served the cause for freedom. Of that number, 5,000 African Americans served in combat roles.

These brave soldiers fought or provided labor in virtually every major action of the war, from the first exchange of fire at Lexington and Concord to the decisive victory at Yorktown.

When the war of 1812 broke out between the United States and Great Britain, once again African Americans offered their services to protect this country. For example, New York raised two 1,000-man African-American regiments and many White units included African-American soldiers.

In Philadelphia, 2,500 African Americans volunteered to erect fortifications on the outskirts of the city, and an estimated 10 percent of those serving on U.S. Navy ships in the Great Lakes were African Americans, who took part as seamen in Capt. Oliver Hazard Perry's victory over the British on Lake Erie in 1813. During the battle, an African-American soldier, Cytus Tiffany, used his body as a shield to protect Captain Perry during the battle.

Captain Perry later wrote:

> I have yet to learn that the colour of a man's skin * * * can affect a man's qualifications or usefulness.

Similarly, many African Americans quickly volunteered their military services during the Civil War. In fact, many slaves escaped persecution to join the Union forces in order to end slavery in this country.

One such brave individual was Robert Smalls. Smalls, who was born into slavery, was "hired out" by his Master for various jobs, including that of sailor. While serving on a ship called the Planter, Smalls coordinated and carried out an escape with the Confederate vessel into Federal lines on May 13, 1862.

Following this heroic deed; Robert eventually was made captain of the vessel. Robert's courage and intelligence in delivering the Planter to the Union forces helped invalidate the theory that Blacks were inferior to whites and greatly influenced the 1862 debates over slavery and the Union's use of African American soldiers.

One of the most distinguished and revered African-American military regiments in our Nation's history was the Buffalo Soldiers.

After the Civil war, the future of African Americans in the U.S. Army was in question. However, in July 1866, Congress passed legislation establishing two cavalry and four infantry regiments that were to be solely comprised of African Americans. The mounted regiments were the 9th and 10th Cavalries, soon nicknamed "Buffalo Soldiers" by the Cheyenne and Comanche Tribes.

Until the early 1890s, they constituted 20 percent of all cavalry forces on the American frontier. Their invaluable service on the Western frontier still remains one of the most exemplary services performed by a regiment in the U.S. Army.

As a Kansan and an American, I am very proud of the Buffalo Soldiers. In fact, this is a picture of the late Elmer Robinson, Sergeant 1st Class, 10th Cavalry. Mr. Robinson served his country valiantly from 1935 to 1955. After he retired from the military, he resided in Leavenworth, KS until his death in July 2000. Over the years African-Americans continued to serve valiantly for our country such as with the Tuskegee Airmen in World War II and subsequent wars following. In 1948, President Harry Truman issued an Executive Order that paved the way for our Armed Forces to end segregation.

Over the years, the military produced many distinguished African-Americans such as, Benjamin O. Davis, Sr., who was the first African-American general in the regular Armed Forces and his son, Benjamin O. Davis, Jr., who became the second African-American general in the regular Armed Forces and in the Air Force.

Finally, one of the most distinguished and recognized African-American military leaders in our Nation is Secretary of State, General Colin Powell. Secretary Powell has served and continues to serve this country with distinction. He dedicated the monument we have, a statue of a Buffalo soldier on horseback in Leavenworth, KS.

During the late 1980s, former President George Bush nominated Secretary Powell as Chairman of the Joint Chiefs of Staff—becoming the first African-American to serve in this capacity. This would not be his last "African-American first" accomplishment however. After the election of President George W. Bush, the President nominated Secretary Powell to the position of Secretary of State where he serves currently with distinction.

This American history is just a glimpse of what I hope will be showcased on a national level. As you know; we recently passed legislation that creates a Presidential Commission charged with recommending a legislative plan of action to establish a National African-American history and culture museum in Washington, DC. It had been 70 years people had fought for this museum. We passed it last year.

This is the first concrete step we have taken to properly honor the many contributions of African-Americans in this society. Currently, we are in the process of nominating the presidential commission and I am looking forward to the commission's recommendations regarding establishing this museum on the National Mall—where it belongs.

Indeed, this country has been richly blessed by the contributions and sacrifices of African-Americans.

Cytus Tiffany, Robert Smalls, the Buffalo Soldiers, and the Tuskegee Airmen only make up a fraction of Americans who believed in the ideals of America and were willing to "see beyond" the years of their oppression to a society that was fully inclusive of all citizens despite race.

Because of their sacrifices, our Nation has prospered and grown into the symbol of freedom around the world. As we continue to ensure our national freedom, we encourage you to join us and celebrate this magnificent American history; a history of a group of individuals who were brought to our shores in shackles, yet, helped remove "shackles" from our society to ensure that we live together in peace and prosperity.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

UNANIMOUS CONSENT AGREEMENT—AMENDMENT NO. 2917, AS MODIFIED

Mr. REID. Mr. President, I ask unanimous consent that amendment No. 2917 be modified with the changes at the desk, notwithstanding the pendency of S. 517; that upon modification, the amendment be printed as a Senate document.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment, as modified, is as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Energy Policy Act of 2002".

SEC. 2. TABLE OF CONTENTS.

Sec. 1. Short title.
Sec. 2. Table of contents.

DIVISION A—RELIABLE AND DIVERSE POWER GENERATION AND TRANSMISSION

TITLE I—REGIONAL COORDINATION

Sec. 101. Policy on regional coordination.
Sec. 102. Federal support for regional coordination.

TITLE II—ELECTRICITY

Subtitle A—Amendments to the Federal Power Act

Sec. 201. Definitions.
Sec. 202. Electric utility mergers.
Sec. 203. Market-based rates.
Sec. 204. Refund effective date.
Sec. 205. Transmission interconnections.
Sec. 206. Open access transmission by certain utilities.
Sec. 207. Electric reliability standards.
Sec. 208. Market transparency rules.
Sec. 209. Access to transmission by intermittent generators.
Sec. 210. Enforcement.

Subtitle B—Amendments to the Public Utility Holding Company Act

Sec. 221. Short title.
Sec. 222. Definitions.
Sec. 223. Repeal of the Public Utility Holding Company Act of 1935.
Sec. 224. Federal access to books and records.

Sec. 225. State access to books and records.
Sec. 226. Exemption authority.
Sec. 227. Affiliate transactions.
Sec. 228. Applicability.
Sec. 229. Effect on other regulations.
Sec. 230. Enforcement.
Sec. 231. Savings provisions.
Sec. 232. Implementation.
Sec. 233. Transfer of resources.
Sec. 234. Inter-agency review of competition in the wholesale and retail markets for electric energy.
Sec. 235. GAO study on implementation.
Sec. 236. Effective date.
Sec. 237. Authorization of appropriations.
Sec. 238. Conforming amendments to the Federal Power Act.

Subtitle C—Amendments to the Public Utility Regulatory Policies Act of 1978

Sec. 241. Real-time pricing standard.
Sec. 242. Adoption of additional standards.
Sec. 243. Technical assistance.
Sec. 244. Cogeneration and small power production purchase and sale requirements.
Sec. 245. Net metering.

Subtitle D—Consumer Protections

Sec. 251. Information disclosure.
Sec. 252. Consumer privacy.
Sec. 253. Unfair trade practices.
Sec. 254. Applicable procedures.
Sec. 255. Federal Trade Commission enforcement.
Sec. 256. State authority.
Sec. 257. Application of subtitle.
Sec. 258. Definitions.

Subtitle E—Renewable Energy and Rural Construction Grants

Sec. 261. Renewable energy production incentive.
Sec. 262. Assessment of renewable energy resources.
Sec. 263. Federal purchase requirement.
Sec. 264. Rural construction grants.
Sec. 265. Renewable portfolio standard.
Sec. 266. Renewable energy on Federal land.

TITLE III—HYDROELECTRIC RELICENSING

Sec. 301. Alternative mandatory conditions and fishways.
Sec. 302. Charges for tribal lands.
Sec. 303. Disposition of hydroelectric charges.
Sec. 304. Annual licenses.
Sec. 305. Enforcement.
Sec. 306. Establishment of hydroelectric relicensing procedures.
Sec. 307. Relicensing study.
Sec. 308. Data collection procedures.

TITLE IV—INDIAN ENERGY

Sec. 401. Comprehensive Indian energy program.
Sec. 402. Office of Indian Energy Policy and Programs.
Sec. 403. Conforming amendments.
Sec. 404. Siting energy facilities on tribal lands.
Sec. 405. Indian Mineral Development Act review.
Sec. 406. Renewable energy study.
Sec. 407. Federal Power Marketing Administrations.
Sec. 408. Feasibility study of combined wind and hydropower demonstration project.

TITLE V—NUCLEAR POWER

Subtitle A—Price-Anderson Act Reauthorization

Sec. 501. Short title.
Sec. 502. Extension of Department of Energy indemnification authority.
Sec. 503. Department of Energy liability limit.
Sec. 504. Incidents outside the United States.
Sec. 505. Reports.
Sec. 506. Inflation adjustment.
Sec. 507. Civil penalties.
Sec. 508. Effective date.

Subtitle B—Miscellaneous Provisions

Sec. 511. Uranium sales.
Sec. 512. Reauthorization of thorium reimbursement.
Sec. 513. Fast Flux Test Facility.

DIVISION B—DOMESTIC OIL AND GAS PRODUCTION AND TRANSPORTATION

TITLE VI—OIL AND GAS PRODUCTION

Sec. 601. Permanent authority to operate the Strategic Petroleum Reserve.
Sec. 602. Federal onshore leasing programs for oil and gas.
Sec. 603. Oil and gas lease acreage limitations.
Sec. 604. Orphaned and abandoned wells on Federal lands.
Sec. 605. Orphaned and abandoned oil and gas well program.
Sec. 606. Offshore development.
Sec. 607. Coalbed methane study.
Sec. 608. Fiscal policies to maximize recovery of domestic oil and gas resources.
Sec. 609. Strategic Petroleum Reserve.

TITLE VII—NATURAL GAS PIPELINES

Subtitle A—Alaska Natural Gas Pipeline

Sec. 701. Short title.
Sec. 702. Findings.
Sec. 703. Purposes.
Sec. 704. Issuance of certificate of public convenience and necessity.
Sec. 705. Environmental reviews.
Sec. 706. Federal coordinator.
Sec. 707. Judicial review.
Sec. 708. Loan guarantee.
Sec. 709. Study of alternative means of construction.
Sec. 710. Savings clause.
Sec. 711. Clarification of authority to amend terms and conditions to meet current project requirements.
Sec. 712. Definitions.
Sec. 713. Sense of the Senate.

Subtitle B—Operating Pipelines

Sec. 721. Application of the Historic Preservation Act to operating pipelines.
Sec. 722. Environmental review and permitting of natural gas pipeline projects.

DIVISION C—DIVERSIFYING ENERGY DEMAND AND IMPROVING EFFICIENCY

TITLE VIII—FUELS AND VEHICLES

Subtitle A—CAFE Standards and Related Matters

Sec. 801. Average fuel economy standards for passenger automobiles and light trucks.
Sec. 802. Fuel economy truth in testing.
Sec. 803. Ensuring safety of passenger automobiles and light trucks.
Sec. 804. High occupancy vehicle exception.
Sec. 805. Credit trading program.
Sec. 806. Green labels for fuel economy.
Sec. 807. Light truck challenge.
Sec. 808. Secretary of Transportation to certify benefits.
Sec. 809. Department of Transportation engineering award program.
Sec. 810. Cooperative technology agreements.

Subtitle B—Alternative and Renewable Fuels

Sec. 811. Increased use of alternative fuels by federal fleets.
Sec. 812. Exception to HOV passenger requirements for alternative fuel vehicles.
Sec. 813. Data collection.
Sec. 814. Green school bus pilot program.
Sec. 815. Fuel cell bus development and demonstration program.
Sec. 816. Authorization of appropriations.
Sec. 817. Biodiesel fuel use credits.
Sec. 818. Neighborhood electric vehicles.

Subtitle C—Additional Fuel Efficiency Measures

Sec. 821. Fuel efficiency of the federal fleet of automobiles.
Sec. 822. Assistance for State programs to retire fuel-inefficient motor vehicles.
Sec. 823. Idling reduction systems in heavy duty vehicles.

TITLE IX—ENERGY EFFICIENCY AND ASSISTANCE TO LOW INCOME CONSUMERS

Subtitle A—Low Income Assistance and State Energy Programs

Sec. 901. Increased funding for LIHEAP, weatherization assistance, and State energy grants.
Sec. 902. State energy programs.
Sec. 903. Energy efficient schools.
Sec. 904. Low income community energy efficiency pilot program.

Subtitle B—Federal Energy Efficiency

Sec. 911. Energy management requirements.
Sec. 912. Energy use measurement and accountability.
Sec. 913. Federal building performance standards.
Sec. 914. Procurement of energy efficient products.
Sec. 915. Repeal of energy savings performance contract sunset.
Sec. 916. Energy savings performance contract definitions.
Sec. 917. Review of energy savings performance contract program.
Sec. 918. Federal Energy Bank.
Sec. 919. Energy and water saving measures in Congressional buildings.

Subtitle C—Industrial Efficiency and Consumer Products

Sec. 921. Voluntary commitments to reduce industrial energy intensity.
Sec. 922. Authority to set standards for commercial products.
Sec. 923. Additional definitions.
Sec. 924. Additional test procedures.
Sec. 925. Energy labeling.
Sec. 926. Energy Star Program.
Sec. 927. Energy conservation standards for central air conditioners and heat pumps.
Sec. 928. Energy conservation standards for additional consumer and commercial products.
Sec. 929. Consumer education on energy efficiency benefits of air conditioning, heating, and ventilation maintenance.

Subtitle D—Housing Efficiency

Sec. 931. Capacity building for energy efficient, affordable housing.
Sec. 932. Increase of CDBG public services cap for energy conservation and efficiency activities.
Sec. 933. FHA mortgage insurance incentives for energy efficient housing.
Sec. 934. Public housing capital fund.
Sec. 935. Grants for energy-conserving improvements for assisted housing.
Sec. 936. North American Development Bank.

DIVISION D—INTEGRATION OF ENERGY POLICY AND CLIMATE CHANGE POLICY

TITLE X—CLIMATE CHANGE POLICY FORMULATION

Subtitle A—Global Warming

Sec. 1001. Sense of Congress on global warming.

Subtitle B—Climate Change Strategy

Sec. 1011. Short title.
Sec. 1012. Findings.
Sec. 1013. Purpose.
Sec. 1014. Definitions.
Sec. 1015. United States Climate Change Response Strategy.
Sec. 1016. National Office of Climate Change Response of the Executive Office of the President.
Sec. 1017. Technology innovation program implemented through the Office of Climate Change Technology of the Department of Energy.
Sec. 1018. Additional offices and activities.
Sec. 1019. United States Climate Change Response Strategy Review Board.
Sec. 1020. Authorization of appropriations.

Subtitle C—Science and Technology Policy

Sec. 1031. Global climate change in the Office of Science and Technology Policy.
Sec. 1032. Establishment of Associate Director for Global Climate Change.

Subtitle D—Miscellaneous Provisions

Sec. 1041. Additional information for regulatory review.
Sec. 1042. Greenhouse gas emissions from federal facilities.

TITLE XI—NATIONAL GREENHOUSE GAS DATABASE

Sec. 1101. Purpose.
Sec. 1102. Definitions.
Sec. 1103. Establishment of memorandum of agreement.
Sec. 1104. National Greenhouse Gas Database.
Sec. 1105. Report on statutory changes and harmonization.
Sec. 1106. Measurement and verification.
Sec. 1107. Independent review.
Sec. 1108. Authorization of appropriations.

DIVISION E—ENHANCING RESEARCH, DEVELOPMENT, AND TRAINING

TITLE XII—ENERGY RESEARCH AND DEVELOPMENT PROGRAMS

Sec. 1201. Short title.
Sec. 1202. Findings.
Sec. 1203. Definitions.
Sec. 1204. Construction with other laws.

Subtitle A—Energy Efficiency

Sec. 1211. Enhanced energy efficiency research and development.
Sec. 1212. Energy efficiency science initiative.
Sec. 1213. Next generation lighting initiative.
Sec. 1214. Railroad efficiency.

Subtitle B—Renewable Energy

Sec. 1221. Enhanced renewable energy research and development.
Sec. 1222. Bioenergy programs.
Sec. 1223. Hydrogen research and development.

Subtitle C—Fossil Energy

Sec. 1231. Enhanced fossil energy research and development.
Sec. 1232. Power plant improvement initiative.
Sec. 1233. Research and development for advanced safe and efficient coal mining technologies.
Sec. 1234. Ultra-deepwater and unconventional resource exploration and production technologies.
Sec. 1235. Research and development for new natural gas transportation technologies.
Sec. 1236. Authorization of appropriations for Office of Arctic Energy.

Subtitle D—Nuclear Energy

Sec. 1241. Enhanced nuclear energy research and development.
Sec. 1242. University nuclear science and engineering support.
Sec. 1243. Nuclear energy research initiative.
Sec. 1244. Nuclear energy plant optimization program.
Sec. 1245. Nuclear energy technology development program.

Subtitle E—Fundamental Energy Science

Sec. 1251. Enhanced programs in fundamental energy science.
Sec. 1252. Nanoscale science and engineering research.
Sec. 1253. Advanced scientific computing for energy missions.
Sec. 1254. Fusion energy sciences program and planning.

Subtitle F—Energy, Safety, and Environmental Protection

Sec. 1261. Critical energy infrastructure protection research and development.
Sec. 1262. Pipeline integrity, safety, and reliability research and development.
Sec. 1263. Research and demonstration for remediation of groundwater from energy activities.—

TITLE XIII—CLIMATE CHANGE RESEARCH AND DEVELOPMENT

Subtitle A—Department of Energy Programs

Sec. 1301. Program goals.
Sec. 1302. Department of Energy global change science research.
Sec. 1303. Amendments to the Federal Nonnuclear Research and Development Act of 1974.

Subtitle B—Department of Agriculture Programs

Sec. 1311. Carbon sequestration basic and applied research.
Sec. 1312. Carbon sequestration demonstration projects and outreach.

Subtitle C—Clean Energy Technology Exports Program

Sec. 1321. Clean energy technology exports program.
Sec. 1322. International energy technology deployment program.

Subtitle D—Climate Change Science and Information

PART I—AMENDMENTS TO THE GLOBAL CHANGE RESEARCH ACT OF 1990

Sec. 1331. Amendment of Global Change Research Act of 1990.
Sec. 1332. Changes in definitions.
Sec. 1333. Change in committee name.
Sec. 1334. Change in national global change research plan.
Sec. 1335. Integrated Program Office.

PART II—NATIONAL CLIMATE SERVICES MONITORING

Sec. 1341. Amendment of National Climate Program Act.
Sec. 1342. Changes in findings.
Sec. 1343. Tools for regional planning.
Sec. 1344. Authorization of appropriations.
Sec. 1345. National Climate Service Plan.
Sec. 1346. International Pacific Research and Cooperation.
Sec. 1347. Reporting on trends.

PART III—OCEAN AND COASTAL OBSERVING SYSTEM

Sec. 1351. Ocean and coastal observing system.
Sec. 1352. Authorization of appropriations.

Subtitle E—Climate Change Technology

Sec. 1361. NIST greenhouse gas functions.
Sec. 1362. Development of new measurement technologies.
Sec. 1363. Enhanced environmental measurements and standards.
Sec. 1364. Technology development and diffusion.
Sec. 1365. Authorization of appropriations.

Subtitle F—Climate Adaptation and Hazards Prevention

PART I—ASSESSMENT AND ADAPTATION

Sec. 1371. Regional climate assessment and adaptation program.
Sec. 1372. Coastal vulnerability and adaptation.

PART II—FORECASTING AND PLANNING PILOT PROGRAMS

Sec. 1381. Remote sensing pilot projects.
Sec. 1382. Database establishment.
Sec. 1383. Definitions.
Sec. 1384. Authorization of appropriations.

TITLE XIV—MANAGEMENT OF DOE SCIENCE AND TECHNOLOGY PROGRAMS

Sec. 1401. Definitions.
Sec. 1402. Availability of funds.
Sec. 1403. Cost sharing.
Sec. 1404. Merit review of proposals.
Sec. 1405. External technical review of departmental programs.
Sec. 1406. Improved coordination and management of civilian science and technology programs.
Sec. 1407. Improved coordination of technology transfer activities.
Sec. 1408. Technology infrastructure program.
Sec. 1409. Small business advocacy and assistance.
Sec. 1410. Other transactions.
Sec. 1411. Mobility of scientific and technical personnel.
Sec. 1412. National Academy of Sciences report.
Sec. 1413. Report on technology readiness and barriers to technology transfer.

TITLE XV—PERSONNEL AND TRAINING

Sec. 1501. Workforce trends and traineeship grants.
Sec. 1502. Postdoctoral and senior research fellowships in energy research.
Sec. 1503. Training guidelines for electric energy industry personnel.
Sec. 1504. National Center on Energy Management and Building Technologies.
Sec. 1505. Improved access to energy-related scientific and technical careers.

DIVISION F—TECHNOLOGY ASSESSMENT AND STUDIES

TITLE XVI—TECHNOLOGY ASSESSMENT

Sec. 1601. National Science and Technology Assessment Service.

TITLE XVII—STUDIES

Sec. 1701. Regulatory reviews.
Sec. 1702. Assessment of dependence of Hawaii on oil.
Sec. 1703. Study of siting an electric transmission system on Amtrak right-of-way.

DIVISION G—ENERGY INFRASTRUCTURE SECURITY

TITLE XVIII—CRITICAL ENERGY INFRASTRUCTURE

Subtitle A—Department of Energy Programs

Sec. 1801. Definitions.

Sec. 1802. Role of the Department of Energy.
Sec. 1803. Critical energy infrastructure programs.
Sec. 1804. Advisory Committee on Energy Infrastructure Security.
Sec. 1805. Best practices and standards for energy infrastructure security.
Subtitle B—Department of the Interior Programs
Sec. 1811. Outer Continental Shelf energy infrastructure security.

DIVISION A—RELIABLE AND DIVERSE POWER GENERATION AND TRANSMISSION

TITLE I—REGIONAL COORDINATION

SEC. 101. POLICY ON REGIONAL COORDINATION.

(a) Statement of Policy.—It is the policy of the Federal Government to encourage States to coordinate, on a regional basis, State energy policies to provide reliable and affordable energy services to the public while minimizing the impact of providing energy services on communities and the environment.

(b) Definition of Energy Services.—For purposes of this section, the term "energy services" means—

(1) the generation or transmission of electric energy,

(2) the transportation, storage, and distribution of crude oil, residual fuel oil, refined petroleum product, or natural gas, or

(3) the reduction in load through increased efficiency, conservation, or load control measures.

SEC. 102. FEDERAL SUPPORT FOR REGIONAL COORDINATION.

(a) Technical Assistance.—The Secretary of Energy shall provide technical assistance to States and regional organizations formed by two or more States to assist them in coordinating their energy policies on a regional basis. Such technical assistance may include assistance in—

(1) assessing future supply availability and demand requirements,

(2) planning and siting additional energy infrastructure, including generating facilities, electric transmission facilities, pipelines, refineries, and distributed generation facilities to meet regional needs,

(3) identifying and resolving problems in distribution networks,

(4) developing plans to respond to surge demand or emergency needs, and

(5) developing renewable energy, energy efficiency, conservation, and load control programs.

(b) Annual Conference on Regional Energy Coordination.—

(1) Annual conference.—The Secretary of Energy shall convene an annual conference to promote regional coordination on energy policy and infrastructure issues.

(2) Participation.— The Secretary of Energy shall invite appropriate representatives of federal, state, and regional energy organizations, and other interested parties.

(3) State and federal agency cooperation.—The Secretary of Energy shall consult and cooperate with State and regional energy organizations, the Secretary of the Interior, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of the Treasury, the Chairman of the Federal Energy Regulatory Commission, the Administrator of the Environmental Protection Agency, and the Chairman of the Council on Environmental Quality in the planning and conduct of the conference.

(4) Agenda.—The Secretary of Energy, in consultation with the officials identified in paragraph (3) and participants identified in paragraph (2), shall establish an agenda for each conference that promotes regional coordination on energy policy and infrastructure issues.

(5) Recommendations.—Not later than 60 days after the conclusion of each annual conference, the Secretary of Energy shall report to the President and the Congress recommendations arising out of the conference that may improve—

(A) regional coordination on energy policy and infrastructure issues, and

(B) federal support for regional coordination.

TITLE II—ELECTRICITY

Subtitle A—Amendments to the Federal Power Act

SEC. 201. DEFINITIONS.

(a) Definition of Electric Utility.—Section 3(22) of the Federal Power Act (16 U.S.C. 796(22)) is amended to read as follows:

"(22) 'electric utility' means any person or Federal or State agency (including any municipality) that sells electric energy; such term includes the Tennessee Valley Authority and each Federal power marketing agency.

(b) Definition of Transmitting Utility.—Section 3(23) of the Federal Power Act (16 U.S.C. 796(23))is amended to read as follows:

"(23) Transmitting utility.—The term 'transmitting utility' means an entity (including any entity described in section 201(f)) that owns or operates facilities used for the transmission of electric energy in—

"(A) interstate commerce; or

"(B) for the sale of electric energy at wholesale.".

SEC. 202. ELECTRIC-UTILITY MERGERS.

Section 203(a) of the Federal Power Act (16 U.S.C. 824b) is amended to read as follows:

(a)(1) No public utility shall, without first having secured an order of the Commission authorizing it to do so—

"(A) sell, lease, or otherwise dispose of the whole of its facilities subject to the jurisdiction of the Commission, or any part thereof of a value in excess of $1,000,000,

"(B) merge or consolidate, directly or indirectly, such facilities or any part thereof with the facilities of any other person, by any means whatsoever,

(C) purchase, acquire, or take any security of any other public utility, or

(D) purchase, lease, or otherwise acquire existing facilities for the generation of electric energy or for the production or transportation of natural gas.

"(2) No holding company in a holding company system that includes a transmitting utility or an electric utility company shall purchase, acquire, or take any security of, or, by any means whatsoever, directly or indirectly, merge or consolidate with a transmitting utility, an electric utility company, a gas utility company, or a holding company in a holding company system that includes a transmitting utility, an electric utility company, or a gas utility company, without first having secured an order of the Commission authorizing it to do so.

"(3) Upon application for such approval the Commission shall give reasonable notice in writing to the Governor and State commission of each of the States in which the physical property affected, or any part thereof, is situated, and to such other persons as it may deem advisable.

"(4) After notice and opportunity for hearing, if the Commission finds that the proposed disposition, consolidation, acquisition, or control will be consistent with the public interest, it shall approve the same.

"(5) For purposes of this subsection, the terms 'electric utility company', 'gas utility company', 'holding company', and 'holding company system' have the meaning given those terms in the Public Utility Holding Company Act of 2002.

"(6) Notwithstanding section 201(b)(1), facilities used for the generation of electric energy shall be subject to the jurisdiction of the Commission for purposes of this section.".

SEC. 203. MARKET-BASED RATES.

(a) Approval of Market-Based Rates.—Section 205 of the Federal Power Act (16 U.S.C. 824d) is amended by adding at the end the following:

"(h) The Commission may determine whether a market-based rate for the sale of electric energy subject to the jurisdiction of the Commission is just and reasonable and not unduly discriminatory or preferential. In making such determination, the Commission shall consider—

"(1) whether the seller and its affiliates have, or have adequately mitigated, market power in the generation and transmission of electric energy;

"(2) whether the sale is made in a competitive market;

"(3) whether market mechanisms, such as power exchanges and bid auctions, function adequately;

"(4) the effect of demand response mechanisms;

"(5) the effect of mechanisms or requirements intended to ensure adequate reserve margins; and

"(6) other such considerations as the Commission may deem to be appropriate and in the public interest.".

(b) Revocation of Market-Based Rates.—Section 206 of the Federal Power Act (16 U.S.C. 824e) is amended by adding at the end the following:

"(f) Whenever the Commission, after a hearing had upon its own motion or upon complaint, finds that a rate charged by a public utility authorized to charge a market-based rate under section 205 is unjust, unreasonable, unduly discriminatory or preferential, the Commission shall determine the just and reasonable rate and fix the same by order in accordance with this section, or order such other action as will, in the judgment of the Commission, adequately ensure a just and reasonable market-based rate.".

SEC. 204. REFUND EFFECTIVE DATE.

Section 206(b) of the Federal Power Act (16 U.S.C. 824e(b)) is amended by—

(1) striking "60 days after the filing of such complaint nor later than 5 months after the expiration of such 60-day period" in the second sentence and inserting "on which the complaint is filed"; and

(2) striking "60 days after the publication by the Commission of notice of its intention to initiate such proceeding nor later than 5 months after the expiration of such 60-day period" in the third sentence and inserting "on which the Commission publishes notice of its intention to initiate such proceeding".

SEC. 205. TRANSMISSION INTERCONNECTIONS.

Section 210 of the Federal Power Act (16 U.S.C. 824i) is amended to read as follows:

"TRANSMISSION INTERCONNECTION AUTHORITY

"Sec. 210. (a)(1) The Commission shall, by rule, establish technical standards and procedures for the interconnection of facilities used for the generation of electric energy with facilities used for the transmission of electric energy in interstate commerce. The rule shall provide—

"(A) criteria to ensure that an interconnection will not unreasonably impair the reliability of the transmission system; and

"(B) criteria for the apportionment or reimbursement of the costs of making the interconnection.

"(2) Notwithstanding section 201(f), a transmitting utility shall interconnect its transmission facilities with the generation facilities of a power producer upon the application of the power producer if the power producer complies with the requirements of the rule.

"(b) Upon the application of a power producer or its own motion, the Commission may, after giving notice and an opportunity for a hearing to any entity whose interest may be affected, issue an order requiring—

"(1) the physical connection of facilities used for the generation of electric energy with facilities used for the transmission of electric energy in interstate commerce;

"(2) such action as may be necessary to make effective any such physical connection;

"(3) such sale or exchange of electric energy or other coordination, as may be necessary to carry out the purposes of such order; or

"(4) such increase in transmission capacity as may be necessary to carry out the purposes of such order.

"(c) As used in this section, the term 'power producer' means an entity that owns or operates a facility used for the generation of electric energy.".

SEC. 206. OPEN ACCESS TRANSMISSION BY CERTAIN UTILITIES.

Part II of the Federal Power Act is further amended by inserting after section 211 the following:

"OPEN ACCESS BY UNREGULATED TRANSMITTING UTILITIES

"SEC. 211A. (1) Subject to section 212(h), the Commission may, by rule or order, require an unregulated transmitting utility to provide transmission services—

"(A) at rates that are comparable to those that the unregulated transmitting utility charges itself, and

"(B) on terms and conditions (not relating to rates) that are comparable to those under Commission rules that require public utilities to offer open access transmission services and that are not unduly discriminatory or preferential.

"(2) The Commission shall exempt from any rule or order under this subsection any unregulated transmitting utility that—

"(A) sells no more than 4,000,000 megawatt hours of electricity per year;

"(B) does not own or operate any transmission facilities that are necessary for operating an interconnected transmission system (or any portion thereof), or

"(C) meets other criteria the Commission determines to be in the public interest.

"(3) The rate changing procedures applicable to public utilities under subsections (c) and (d) of section 205 are applicable to unregulated transmitting utilities for purposes of this section.

"(4) In exercising its authority under paragraph (1), the Commission may remand transmission rates to an unregulated transmitting utility for review and revision where necessary to meet the requirements of paragraph (1).

"(5) The provision of transmission services under paragraph (1) does not preclude a request for transmission services under section 211.

"(6) The Commission may not require a State or municipality to take action under this section that constitutes a private business use for purposes of section 141 of the Internal Revenue Code of 1986 (26 U.S.C. 141).

"(7) For purposes of this subsection, the term 'unregulated transmitting utility' means an entity that—

"(A) owns or operates facilities used for the transmission of electric energy in interstate commerce, and

"(B) is either an entity described in section 201(f) or a rural electric cooperative.".

SEC. 207. ELECTRIC RELIABILITY STANDARDS.

Part II of the Federal Power Act is further amended by adding at the end the following:

"SEC. 215. ELECTRIC RELIABILITY STANDARDS.

"(a) DUTY OF THE COMMISSION.—The Commission shall establish and enforce one or more systems of mandatory electric reliability standards to ensure the reliable operation of the interstate transmission system, which shall be applicable to—

"(1) any entity that sells, purchases, or transmits, electric energy using the interstate transmission system, and

"(2) any entity that owns, operates, or maintains facilities that are a part of the interstate transmission system.

"(b) STANDARDS.—In carrying out its responsibility under subsection (a), the Commission may adopt and enforce, in whole or in part, a reliability standard proposed or adopted by the North American Electric Reliability Council, a regional reliability council, a similar organization, or a State regulatory authority.

"(c) ENFORCEMENT.—In carrying out its responsibility under subsection (a), the Commission may certify one or more self-regulating reliability organizations (which may include the North American Electric Reliability Council, one or more regional reliability councils, one or more regional transmission organizations, or any similar organization) to ensure the reliable operation of the interstate transmission system and to monitor and enforce compliance of their members with electric reliability standards adopted under this section.

"(d) COOPERATION WITH CANADA AND MEXICO.—The Commission shall ensure that any self-regulating reliability organization certified under this section, one or more of whose members are interconnected with transmitting utilities in Canada or the Republic of Mexico, provide for the participation of such utilities in the governance of the organization and the adoption of reliability standards. Nothing in this section shall be construed to extend the jurisdiction of the Commission outside of the United States.

"(e) PRESERVATION OF STATE AUTHORITY.—Nothing in this section shall be construed to preempt the authority of any State to take action to ensure the safety, adequacy, and reliability of local distribution facilities service within the State, except where the exercise of such authority unreasonably impairs the reliability of the interstate transmission system.

"(f) DEFINITIONS.—For purposes of this section:

"(1) The term 'interstate transmission system' means the network of facilities used for the transmission of electric energy in interstate commerce.

"(2) The term 'reliability' means the ability of the interstate transmission system to transmit sufficient electric energy to supply the aggregate electric demand and energy requirements of electricity consumers at all times and the ability of the system to withstand sudden disturbances.".

SEC. 208. MARKET TRANSPARENCY RULES.

Part II of the Federal Power Act is further amended by adding at the end the following:

"SEC. 216. MARKET TRANSPARENCY RULES.

"(a) COMMISSION RULES.—Not later than 180 days after the date of enactment of this section, the Commission shall issue rules establishing an electronic information system to provide information about the availability and price of wholesale electric energy and transmission services to the Commission, state commissions, buyers and sellers of wholesale electric energy, users of transmission services, and the public on a timely basis.

"(b) INFORMATION REQUIRED.—The Commission shall require—

"(1) each regional transmission organization to provide statistical information about the available capacity and capacity constraints of transmission facilities operated by the organization; and

"(2) each broker, exchange, or other market-making entity that matches offers to sell and offers to buy wholesale electric energy in interstate commerce to provide statistical information about the amount and sale price of sales of electric energy at wholesale in interstate commerce it transacts.

"(c) TIMELY BASIS.—The Commission shall require the information required under subsection (b) to be posted on the Internet as soon as practicable and updated as frequently as practicable.

"(d) PROTECTION OF SENSITIVE INFORMATION.—The Commission shall exempt from disclosure commercial or financial information that the Commission, by rule or order, determines to be privileged, confidential, or otherwise sensitive.".

SEC. 209. ACCESS TO TRANSMISSION BY INTERMITTENT GENERATORS.

Part II of the Federal Power Act is further amended by adding at the end the following:

"SEC. 217. ACCESS TO TRANSMISSION BY INTERMITTENT GENERATORS.

"(a) FAIR TREATMENT OF INTERMITTENT GENERATORS.—The Commission shall ensure that all transmitting utilities provide transmission service to intermittent generators in a manner that does not penalize such generators, directly or indirectly, for characteristics that are—

"(1) inherent to intermittent energy resources; and

"(2) are beyond the control of such generators.

"(b) POLICIES.—The Commission shall ensure that the requirement in subsection (a) is met by adopting such policies as it deems appropriate which shall include, but not be limited to, the following:

"(1) Subject to the sole exception set forth in paragraph (2), the Commission shall ensure that the rates transmitting utilities charge intermittent generator customers for transmission services do not directly or indirectly penalize intermittent generator customers for scheduling deviations.

"(2) The Commission may exempt a transmitting utility from the requirement set forth in subsection (b) if the transmitting utility demonstrates that scheduling deviations by its intermittent generator customers are likely to have a substantial adverse impact on the reliability of the transmitting utility's system. For purposes of administering this exemption, there shall be a rebuttable presumption of no adverse impact where intermittent generators collectively constitute 20 percent or less of total generation interconnected with transmitting utility's system and using transmission services provided by transmitting utility.

"(3) The Commission shall ensure that to the extent any transmission charges recovering the transmitting utility's embedded costs are assessed to intermittent generators, they are assessed to such generators on the basis of kilowatt-hours generated rather than the intermittent generator's capacity.

"(4) The Commission shall require transmitting utilities to offer to intermittent generators, and may require transmitting utilities to offer to all transmission customers, access to nonfirm transmission service pursuant to long-term contracts of up to ten years duration under reasonable terms and conditions.

"(c) DEFINITIONS.—As used in this section:

"(1) The term 'intermittent generator' means a facility that generates electricity using wind or solar energy and no other energy source.

"(2) The term 'nonfirm transmission service' means transmission service provided on an 'as available' basis.

"(3) The term 'scheduling deviation' means delivery of more or less energy than has previously been forecast in a schedule submitted by an intermittent generator to a control area operator or transmitting utility.".

SEC. 210. ENFORCEMENT.

(a) COMPLAINTS.—Section 306 of the Federal Power Act (16 U.S.C. 825e) is amended by—

(1) inserting "electric utility," after "Any person,"; and

(2) inserting "transmitting utility," after "licensee" each place it appears.

(b) INVESTIGATIONS.—Section 307(a) of the Federal Power Act (16 U.S.C. 825f(a)) is amended by inserting "or transmitting utility" after "any person" in the first sentence.

(c) REVIEW OF COMMISSION ORDERS.—Section 313(a) of the Federal Power Act (16 U.S.C. 8251) is amended by inserting "electric utility," after "Any person," in the first sentence.

(d) CRIMINAL PENALTIES.—Section 316(c) of the Federal Power Act (16 U.S.C. 825o(c)) is repealed.

(e) CIVIL PENALTIES.—Section 316A of the Federal Power Act (16 U.S.C. 825o–1) is amended by striking "section 211, 212, 213, or 214" each place it appears and inserting "Part II".

Subtitle B—Amendments to the Public Utility Holding Company Act

SEC. 221. SHORT TITLE.

This subtitle may be cited as the "Public Utility Holding Company Act of 2002".

SEC. 222. DEFINITIONS.

For purposes of this subtitle:

(1) The term "affiliate" of a company means any company, 5 percent or more of the outstanding voting securities of which are owned, controlled, or held with power to vote, directly or indirectly, by such company.

(2) The term "associate company" of a company means any company in the same holding company system with such company.

(3) The term "Commission" means the Federal Energy Regulatory Commission.

(4) The term "company" means a corporation, partnership, association, joint stock company, business trust, or any organized group of persons, whether incorporated or not, or a receiver, trustee, or other liquidating agent of any of the foregoing.

(5) The term "electric utility company" means any company that owns or operates facilities used for the generation, transmission, or distribution of electric energy for sale.

(6) The terms "exempt wholesale generator" and "foreign utility company" have the same meanings as in sections 32 and 33, respectively, of the Public Utility Holding Company Act of 1935 (15 U.S.C. 79z–5a, 79z–5b), as those sections existed on the day before the effective date of this subtitle.

(7) The term "gas utility company" means any company that owns or operates facilities used for distribution at retail (other than the distribution only in enclosed portable containers or distribution to tenants or employees of the company operating such facilities for their own use and not for resale) of natural or manufactured gas for heat, light, or power.

(8) The term "holding company" means—

(A) any company that directly or indirectly owns, controls, or holds, with power to vote, 10 percent or more of the outstanding voting securities of a public utility company or of a holding company of any public utility company; and

(B) any person, determined by the Commission, after notice and opportunity for hearing, to exercise directly or indirectly (either alone or pursuant to an arrangement or understanding with one or more persons) such a controlling influence over the management or policies of any public utility company or holding company as to make it necessary or appropriate for the rate protection of utility customers with respect to rates that such person be subject to the obligations, duties, and liabilities imposed by this subtitle upon holding companies.

(9) The term "holding company system" means a holding company, together with its subsidiary companies.

(10) The term "jurisdictional rates" means rates established by the Commission for the transmission of electric energy in interstate commerce, the sale of electric energy at wholesale in interstate commerce, the transportation of natural gas in interstate commerce, and the sale in interstate commerce of natural gas for resale for ultimate public consumption for domestic, commercial, industrial, or any other use.

(11) The term "natural gas company" means a person engaged in the transportation of natural gas in interstate commerce or the sale of such gas in interstate commerce for resale.

(12) The term "person" means an individual or company.

(13) The term "public utility" means any person who owns or operates facilities used for transmission of electric energy in interstate commerce or sales of electric energy at wholesale in interstate commerce.

(14) The term "public utility company" means an electric utility company or a gas utility company.

(15) The term "State commission" means any commission, board, agency, or officer, by whatever name designated, of a State, municipality, or other political subdivision of a State that, under the laws of such State, has jurisdiction to regulate public utility companies.

(16) The term "subsidiary company" of a holding company means—

(A) any company, 10 percent or more of the outstanding voting securities of which are directly or indirectly owned, controlled, or held with power to vote, by such holding company; and

(B) any person, the management or policies of which the Commission, after notice and opportunity for hearing, determines to be subject to a controlling influence, directly or indirectly, by such holding company (either alone or pursuant to an arrangement or understanding with one or more other persons) so as to make it necessary for the rate protection of utility customers with respect to rates that such person be subject to the obligations, duties, and liabilities imposed by this subtitle upon subsidiary companies of holding companies.

(17) The term "voting security" means any security presently entitling the owner or holder thereof to vote in the direction or management of the affairs of a company.

SEC. 223. REPEAL OF THE PUBLIC UTILITY HOLDING COMPANY ACT OF 1935.

The Public Utility Holding Company Act of 1935 (15 U.S.C. 79 et seq.) is repealed.

SEC. 224. FEDERAL ACCESS TO BOOKS AND RECORDS.

(a) IN GENERAL.—Each holding company and each associate company thereof shall maintain, and shall make available to the Commission, such books, accounts, memoranda, and other records as the Commission deems to be relevant to costs incurred by a public utility or natural gas company that is an associate company of such holding company and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(b) AFFILIATE COMPANIES.—Each affiliate of a holding company or of any subsidiary company of a holding company shall maintain, and shall make available to the Commission, such books, accounts, memoranda, and other records with respect to any transaction with another affiliate, as the Commission deems to be relevant to costs incurred by a public utility or natural gas company that is an associate company of such holding company and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(c) HOLDING COMPANY SYSTEMS.—The Commission may examine the books, accounts, memoranda, and other records of any company in a holding company system, or any affiliate thereof, as the Commission deems to be relevant to costs incurred by a public utility or natural gas company within such holding company system and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(d) CONFIDENTIALITY.—No member, officer, or employee of the Commission shall divulge any fact or information that may come to his or her knowledge during the course of examination of books, accounts, memoranda, or other records as provided in this section, except as may be directed by the Commission or by a court of competent jurisdiction.

SEC. 225. STATE ACCESS TO BOOKS AND RECORDS.

(a) IN GENERAL.—Upon the written request of a State commission having jurisdiction to regulate a public utility company in a holding company system, the holding company or any associate company or affiliate thereof, other than such public utility company, wherever located, shall produce for inspection books, accounts, memoranda, and other records that—

(1) have been identified in reasonable detail by the State commission;

(2) the State commission deems are relevant to costs incurred by such public utility company; and

(3) are necessary for the effective discharge of the responsibilities of the State commission with respect to such proceeding.

(b) LIMITATION.—Subsection (a) does not apply to any person that is a holding company solely by reason of ownership of one or more qualifying facilities under the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 et seq.).

(c) CONFIDENTIALITY OF INFORMATION.—The production of books, accounts, memoranda, and other records under subsection (a) shall be subject to such terms and conditions as may be necessary and appropriate to safeguard against unwarranted disclosure to the public of any trade secrets or sensitive commercial information.

(d) EFFECT ON STATE LAW.—Nothing in this section shall preempt applicable State law concerning the provision of books, accounts, memoranda, and other records, or in any way limit the rights of any State to obtain books, accounts, memoranda, and other records under any other Federal law, contract, or otherwise.

(e) COURT JURISDICTION.—Any United States district court located in the State in which the State commission referred to in subsection (a) is located shall have jurisdiction to enforce compliance with this section.

SEC. 226. EXEMPTION AUTHORITY.

(a) RULEMAKING.—Not later than 90 days after the effective date of this subtitle, the Commission shall promulgate a final rule to exempt from the requirements of section 224 any person that is a holding company, solely with respect to one or more—

(1) qualifying facilities under the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 et seq.);

(2) exempt wholesale generators; or

(3) foreign utility companies.

(b) OTHER AUTHORITY.—The Commission shall exempt a person or transaction from the requirements of section 224, if, upon application or upon the motion of the Commission—

(1) the Commission finds that the books, accounts, memoranda, and other records of any person are not relevant to the jurisdictional rates of a public utility or natural gas company; or

(2) the Commission finds that any class of transactions is not relevant to the jurisdictional rates of a public utility or natural gas company.

SEC. 227. AFFILIATE TRANSACTIONS.

(a) COMMISSION AUTHORITY UNAFFECTED.—. Nothing in this subtitle shall limit the authority of the Commission under the Federal Power Act (16 U.S.C. 791a et seq.) to require that jurisdictional rates are just and reasonable, including the ability to deny or approve the pass through of costs, the prevention of cross-subsidization, and the promulgation of such rules and regulations as are necessary or appropriate for the protection of utility consumers.

(b) RECOVERY OF COSTS.— Nothing in this subtitle shall preclude the Commission or a State commission from exercising its jurisdiction under otherwise applicable law to determine whether a public utility company, public utility, or natural gas company may recover in rates any costs of an activity performed by an associate company, or any costs of goods or services acquired by such public utility company from an associate company.

SEC. 228. APPLICABILITY.

Except as otherwise specifically provided in this subtitle, no provision of this subtitle shall apply to, or be deemed to include—

(1) the United States;

(2) a State or any political subdivision of a State;

(3) any foreign governmental authority not operating in the United States;

(4) any agency, authority, or instrumentality of any entity referred to in paragraph (1), (2), or (3); or

(5) any officer, agent, or employee of any entity referred to in paragraph (1), (2), or (3) acting as such in the course of his or her official duty.

SEC. 229. EFFECT ON OTHER REGULATIONS.

Nothing in this subtitle precludes the Commission or a State commission from exercising its jurisdiction under otherwise applicable law to protect utility customers.

SEC. 230. ENFORCEMENT.

The Commission shall have the same powers as set forth in sections 306 through 317 of the Federal Power Act (16 U.S.C. 825e-825p) to enforce the provisions of this subtitle.

SEC. 231. SAVINGS PROVISIONS.

(a) IN GENERAL.—Nothing in this subtitle prohibits a person from engaging in or continuing to engage in activities or transactions in which it is legally engaged or authorized to engage on the effective date of this subtitle.

(b) EFFECT ON OTHER COMMISSION AUTHORITY.—Nothing in this subtitle limits the authority of the Commission under the Federal Power Act (16 U.S.C. 791a et seq.) (including section 301 of that Act) or the Natural Gas Act (15 U.S.C. 717 et seq.) (including section 8 of that Act).

SEC. 232. IMPLEMENTATION.

Not later than 18 months after the date of enactment of this subtitle, the Commission shall—

(1) promulgate such regulations as may be necessary or appropriate to implement this subtitle (other than section 225); and

(2) submit to the Congress detailed recommendations on technical and conforming amendments to Federal law necessary to carry out this subtitle and the amendments made by this subtitle.

SEC. 233. TRANSFER OF RESOURCES.

All books and records that relate primarily to the functions transferred to the Commission under this subtitle shall be transferred from the Securities and Exchange Commission to the Commission.

SEC. 234. INTER-AGENCY REVIEW OF COMPETITION IN THE WHOLESALE AND RETAIL MARKETS FOR ELECTRIC ENERGY.

(a) TASK FORCE.—There is established an inter-agency task force, to be known as the "Electric Energy Market Competition Task Force" (referred to in this section as the "task force"), which shall consist of—

(1) 1 member each from—

(A) the Department of Justice, to be appointed by the Attorney General of the United States;

(B) the Federal Energy Regulatory Commission, to be appointed by the chairman of that Commission; and

(C) the Federal Trade Commission, to be appointed by the chairman of that Commission; and

(2) 2 advisory members (who shall not vote), of whom—

(A) 1 shall be appointed by the Secretary of Agriculture to represent the Rural Utility Service; and

(B) 1 shall be appointed by the Chairman of the Securities and Exchange Commission to represent that Commission.

(b) STUDY AND REPORT.—

(1) STUDY.—The task force shall perform a study and analysis of the protection and promotion of competition within the wholesale and retail market for electric energy in the United States.

(2) REPORT.—

(A) FINAL REPORT.—Not later than 1 year after the effective date of this subtitle, the task force shall submit a final report of its findings under paragraph (1) to the Congress.

(B) PUBLIC COMMENT.—At least 60 days before submission of a final report to the Congress under subparagraph (A), the task force shall publish a draft report in the Federal Register to provide for public comment.

(c) FOCUS.—The study required by this section shall examine—

(1) the best means of protecting competition within the wholesale and retail electric market;

(2) activities within the wholesale and retail electric market that may allow unfair and unjustified discriminatory and deceptive practices;

(3) activities within the wholesale and retail electric market, including mergers and acquisitions, that deny market access or suppress competition;

(4) cross-subsidization that may occur between regulated and nonregulated activities; and

(5) the role of State public utility commissions in regulating competition in the wholesale and retail electric market.

(d) CONSULTATION.—In performing the study required by this section, the task force shall consult with and solicit comments from its advisory members, the States, representatives of the electric power industry, and the public.

SEC. 235. GAO STUDY ON IMPLEMENTATION.

(a) STUDY.—The Comptroller General shall conduct a study of the success of the Federal Government and the States during the 18-month period following the effective date of this subtitle in—

(1) the prevention of anticompetitive practices and other abuses by public utility holding companies, including cross-subsidization and other market power abuses; and

(2) the promotion of competition and efficient energy markets to the benefit of consumers.

(b) REPORT TO CONGRESS.—Not earlier than 18 months after the effective date of this subtitle or later than 24 months after that effective date, the Comptroller General shall submit a report to the Congress on the results of the study conducted under subsection (a), including probable causes of its findings and recommendations to the Congress and the States for any necessary legislative changes.

SEC. 236. EFFECTIVE DATE.

This subtitle shall take effect 18 months after the date of enactment of this subtitle.

SEC. 237. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such funds as may be necessary to carry out this subtitle.

SEC. 238. CONFORMING AMENDMENTS TO THE FEDERAL POWER ACT.

(a) CONFLICT OF JURISDICTION.—Section 318 of the Federal Power Act (16 U.S.C. 825q) is repealed.

(b) DEFINITIONS.—

(1) Section 201(g) of the Federal Power Act (16 U.S.C. 824(g)) is amended by striking "1935" and inserting "2002".

(2) Section 214 of the Federal Power Act (16 U.S.C. 824m) is amended by striking "1935" and inserting "2002".

Subtitle C—Amendments to the Public Utility Regulatory Policies Act of 1978

SEC. 241. REAL-TIME PRICING STANDARD.

(a) ADOPTION OF STANDARD.—Section 111(d) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2621(d)) is amended by adding at the end the following:

"(11) REAL-TIME PRICING.—(A) Each electric utility shall, at the request of an electric consumer, provide electric service under a real-time rate schedule, under which the rate charged by the electric utility varies by the hour (or smaller time interval) according to changes in the electric utility's wholesale power cost. The real-time pricing service shall enable the electric consumer to manage energy use and cost through real-time metering and communications technology.

"(B) For purposes of implementing this paragraph, any reference contained in this section to the date of enactment of the Public Utility Regulatory Policies Act of 1978 shall be deemed to be a reference to the date of enactment of this paragraph.

“(C) Notwithstanding subsections (b) and (c) of section 112, each State regulatory authority shall consider and make a determination concerning whether it is appropriate to implement the standard set out in subparagraph (A) not later than one year after the date of enactment of this paragraph.”.

“(b) Special Rules for Real-Time Pricing Standard.—Section 115 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2625) is amended by adding at the end the following:

“(i) Real-Time Pricing.—In a state that permits third-party marketers to sell electric energy to retail electric consumers, the electric consumer shall be entitled to receive the same real-time metering and communication service as a direct retail electric consumer of the electric utility.”.

SEC. 242. ADOPTION OF ADDITIONAL STANDARDS.

(a) Adoption of Standards.—Section 113(b) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2623(b)) is amended by adding at the end the following:

“(6) Distributed generation.—Each electric utility shall provide distributed generation, combined heat and power, and district heating and cooling systems competitive access to the local distribution grid and competitive pricing of service, and shall use simplified standard contracts for the interconnection of generating facilities that have a power production capacity of 250 kilowatts or less.

“(7) Distribution interconnections.—No electric utility may refuse to interconnect a generating facility with the distribution facilities of the electric utility if the owner or operator of the generating facility complies with technical standards adopted by the State regulatory authority and agrees to pay the costs established by such State regulatory authority.

“(8) Minimum fuel and technology diversity standard.—Each electric utility shall develop a plan to minimize dependence on one fuel source and to ensure that the electric energy it sells to consumers is generated using a diverse range of fuels and technologies, including renewable technologies.

“(9) Fossil fuel efficiency.—Each electric utility shall develop and implement a ten-year plan to increase the efficiency of its fossil fuel generation and shall monitor and report to its State regulatory authority excessive greenhouse gas emissions resulting from the inefficient operation of its fossil fuel generating plants.”.

(c) Time for Adopting Standards.—Section 113 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2623) is further amended by adding at the end the following:

“(d) Special Rule.—For purposes of implementing paragraphs (6), (7), (8), and (9) of subsection (b), any reference contained in this section to the date of enactment of the Public Utility Regulatory Policies Act of 1978 shall be deemed to be a reference to the date of enactment of this subsection.”.

SEC. 243. TECHNICAL ASSISTANCE.

Section 132(c) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2642(c)) is amended to read as follows:

“(c) Technical Assistance for Certain Responsibilities.—The Secretary may provide such technical assistance as he determines appropriate to assist State regulatory authorities and electric utilities in carrying out their responsibilities under section 111(d)(11) and paragraphs (6), (7), (8), and (9) of section 113(b).”.

SEC. 244. COGENERATION AND SMALL POWER PRODUCTION PURCHASE AND SALE REQUIREMENTS.

(a) Termination of Mandatory Purchase and Sale Requirements.—Section 210 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 824a-3) is amended by adding at the end the following:

“(m) Termination of Mandatory Purchase and Sale Requirements.—

“(1) In general.—After the date of enactment of this subsection, no electric utility shall be required to enter into a new contract or obligation to purchase or sell electric energy under this section.

“(2) No effect on existing rights and remedies.—Nothing in this subsection affects the rights or remedies of any party with respect to the purchase or sale of electric energy or capacity from or to a facility under this section under any contract or obligation to purchase or to sell electric energy or capacity on the date of enactment of this subsection, including—

“(A) the right to recover costs of purchasing such electric energy or capacity; and

“(B) in States without competition for retail electric supply, the obligation of a utility to provide, at just and reasonable rates for consumption by a qualifying small power production facility or a qualifying cogeneration facility, backup, standby, and maintenance power.

“(3) Recovery of costs.—

“(A) Regulation.—To ensure recovery by an electric utility that purchases electric energy or capacity from a qualifying facility pursuant to any legally enforceable obligation entered into or imposed under this section before the date of enactment of this subsection, of all prudently incurred costs associated with the purchases, the Commission shall issue and enforce such regulations as may be required to ensure that the electric utility shall collect the prudently incurred costs associated with such purchases.

“(B) Enforcement.—A regulation under subparagraph (A) shall be enforceable in accordance with the provisions of law applicable to enforcement of regulations under the Federal Power Act (16 U.S.C. 791a et seq.).”.

(b) Elimination of Ownership Limitations.—

(1) Section 3(17)(C) of the Federal Power Act (16 U.S.C. 796(17)(C)) is amended to read as follows:

“(C) ‘qualifying small power production facility’ means a small power production facility that the Commission determines, by rule, meets such requirements (including requirements respecting minimum size, fuel use, and fuel efficiency) as the Commission may, by rule, prescribe.”.

(2) Section 3(18)(B) of the Federal Power Act (16 U.S.C. 796(18)(B)) is amended to read as follows:

“(B) ‘qualifying cogeneration facility’ means a cogeneration facility that the Commission determines, by rule, meets such requirements (including requirements respecting minimum size, fuel use, and fuel efficiency) as the Commission may, by rule, prescribe.”.

SEC. 245. NET METERING.

Title VI of the Public Utility Regulatory Policies Act of 1978 is amended by adding at the end the following:

“SEC. 605. NET METERING FOR RENEWABLE ENERGY AND FUEL CELLS.

“(a) Definitions.—For purposes of this section:

“(1) The term ‘eligible on-site generating facility’ means—

“(A) a facility on the site of a residential electric consumer with a maximum generating capacity of 10 kilowatts or less that is fueled by solar energy, wind energy, or fuel cells; or

“(B) a facility on the site of a commercial electric consumer with a maximum generating capacity of 500 kilowatts or less that is fueled solely by a renewable energy resource, landfill gas, or a high efficiency system.

“(2) The term ‘renewable energy resource’ means solar, wind, biomass, or geothermal energy.

“(3) The term ‘high efficiency system’ means fuel cells or combined heat and power.

“(4) The term ‘net metering service’ means service to an electric consumer under which electric energy generated by that electric consumer from an eligible on-site generating facility and delivered to the local distribution facilities may be used to offset electric energy provided by the electric utility to the electric consumer during the applicable billing period.

“(b) Requirement To Provide Net Metering Service.—Each electric utility shall make available upon request net metering service to an electric consumer that the electric utility serves.

“(c) Rates and Charges.—

“(1) Identical charges.—An electric utility—

“(A) shall charge the owner or operator of an on-site generating facility rates and charges that are identical to those that would be charged other electric consumers of the electric utility in the same rate class; and

“(B) shall not charge the owner or operator of an on-site generating facility any additional standby, capacity, interconnection, or other rate or charge.

“(2) Measurement.—An electric utility that sells electric energy to the owner or operator of an on-site generating facility shall measure the quantity of electric energy produced by the on-site facility and the quantity of electric energy consumed by the owner or operator of an on-site generating facility during a billing period in accordance with normal metering practices.

“(3) Electric energy supplied exceeding electric energy generated.—If the quantity of electric energy sold by the electric utility to an on-site generating facility exceeds the quantity of electric energy supplied by the on-site generating facility to the electric utility during the billing period, the electric utility may bill the owner or operator for the net quantity of electric energy sold, in accordance with normal metering practices.

“(4) Electric energy generated exceeding electric energy supplied.—If the quantity of electric energy supplied by the on-site generating facility to the electric utility exceeds the quantity of electric energy sold by the electric utility to the on-site generating facility during the billing period—

“(A) the electric utility may bill the owner or operator of the on-site generating facility for the appropriate charges for the billing period in accordance with paragraph (2); and

“(B) the owner or operator of the on-site generating facility shall be credited for the excess kilowatt-hours generated during the billing period, with the kilowatt-hour credit appearing on the bill for the following billing period.

“(d) Safety and Performance Standards.—

“(1) An eligible on-site generating facility and net metering system used by an electric consumer shall meet all applicable safety, performance, reliability, and interconnection standards established by the National Electrical Code, the Institute of Electrical and Electronics Engineers, and Underwriters Laboratories.

"(2) The Commission, after consultation with State regulatory authorities and nonregulated electric utilities and after notice and opportunity for comment, may adopt, by rule, additional control and testing requirements for on-site generating facilities and net metering systems that the Commission determines are necessary to protect public safety and system reliability.

"(e) Application.—This section applies to each electric utility during any calendar year in which the total sales of electric energy by such utility for purposes other than resale exceeded 1,000,000,000 kilowatt-hours during the preceding calendar year.".

Subtitle D—Consumer Protections

SEC. 251. INFORMATION DISCLOSURE.

(a) Offers and Solicitations.—The Federal Trade Commission shall issue rules requiring each electric utility that makes an offer to sell electric energy, or solicits electric consumers to purchase electric energy to provide the electric consumer a statement containing the following information—

(1) the nature of the service being offered, including information about interruptibility of service;

(2) the price of the electric energy, including a description of any variable charges;

(3) a description of all other charges associated with the service being offered, including access charges, exit charges, back-up service charges, stranded cost recovery charges, and customer service charges; and

(4) information the Federal Trade Commission determines is technologically and economically feasible to provide, is of assistance to electric consumers in making purchasing decisions, and concerns—

(A) the product or its price;

(B) the share of electric energy that is generated by each fuel type; and

(C) the environmental emissions produced in generating the electric energy.

(b) Periodic Billings.—The Federal Trade Commission shall issue rules requiring any electric utility that sells electric energy to transmit to each of its electric consumers, in addition to the information transmitted pursuant to section 115(f) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2625(f)), a clear and concise statement containing the information described in subsection (a)(4) for each billing period (unless such information is not reasonably ascertainable by the electric utility).

SEC. 252. CONSUMER PRIVACY.

(a) Prohibition.—The Federal Trade Commission shall issue rules prohibiting any electric utility that obtains consumer information in connection with the sale or delivery of electric energy to an electric consumer from using, disclosing, or permitting access to such information unless the electric consumer to whom such information relates provides prior written approval.

(b) Permitted Use.—The rules issued under this section shall not prohibit any electric utility from using, disclosing, or permitting access to consumer information referred to in subsection (a) for any of the following purposes—

(1) to facilitate an electric consumer's change in selection of an electric utility under procedures approved by the State or State regulatory authority;

(2) to initiate, render, bill, or collect for the sale or delivery of electric energy to electric consumers or for related services;

(3) to protect the rights or property of the person obtaining such information;

(4) to protect retail electric consumers from fraud, abuse, and unlawful subscription in the sale or delivery of electric energy to such consumers;

(5) for law enforcement purposes; or

(6) for purposes of compliance with any Federal, State, or local law or regulation authorizing disclosure of information to a Federal, State, or local agency.

(c) Aggregate Consumer Information.—The rules issued under this subsection may permit a person to use, disclose, and permit access to aggregate consumer information and may require an electric utility to make such information available to other electric utilities upon request and payment of a reasonable fee.

(d) Definitions.—As used in this section:

(1) The term "aggregate consumer information" means collective data that relates to a group or category of retail electric consumers, from which individual consumer identities and characteristics have been removed.

(2) The term "consumer information" means information that relates to the quantity, technical configuration, type, destination, or amount of use of electric energy delivered to any retail electric consumer.

SEC. 253. UNFAIR TRADE PRACTICES.

(a) Slamming.—The Federal Trade Commission shall issue rules prohibiting the change of selection of an electric utility except with the informed consent of the electric consumer.

(b) Cramming.—The Federal Trade Commission shall issue rules prohibiting the sale of goods and services to an electric consumer unless expressly authorized by law or the electric consumer.

SEC. 254. APPLICABLE PROCEDURES.

The Federal Trade Commission shall proceed in accordance with section 553 of title 5, United States Code, when prescribing a rule required by this subtitle.

SEC. 255. FEDERAL TRADE COMMISSION ENFORCEMENT.

Violation of a rule issued under this subtitle shall be treated as a violation of a rule under section 18 of the Federal Trade Commission Act (15 U.S.C. 57a) respecting unfair or deceptive acts or practices. All functions and powers of the Federal Trade Commission under such Act are available to the Federal Trade Commission to enforce compliance with this subtitle notwithstanding any jurisdictional limits in such Act.

SEC. 256. STATE AUTHORITY.

Nothing in this subtitle shall be construed to preclude a State or State regulatory authority from prescribing and enforcing additional laws, rules, or procedures regarding the practices which are the subject of this section, so long as such laws, rules, or procedures are not inconsistent with the provisions of this section or with any rule prescribed by the Federal Trade Commission pursuant to it.

SEC. 257. APPLICATION OF SUBTITLE.

The provisions of this subtitle apply to each electric utility if the total sales of electric energy by such utility for purposes other than resale exceed 500 million kilowatt-hours per calendar year. The provisions of this subtitle do not apply to the operations of an electric utility to the extent that such operations relate to sales of electric energy for purposes of resale.

SEC. 258. DEFINITIONS.

As used in this subtitle:

(1) The term "aggregate consumer information" means collective data that relates to a group or category of electric consumers, from which individual consumer identities and identifying characteristics have been removed.

(2) The term "consumer information" means information that relates to the quantity, technical configuration, type, destination, or amount of use of electric energy delivered to an electric consumer.

(3) The terms "electric consumer", "electric utility", and "State regulatory authority" have the meanings given such terms in section 3 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2602).

Subtitle E—Renewable Energy and Rural Construction Grants

SEC. 261. RENEWABLE ENERGY PRODUCTION INCENTIVE.

(a) Incentive Payments.—Section 1212(a) of the Energy Policy Act of 1992 (42 U.S.C. 13317(a)) is amended by striking "and which satisfies" and all that follows through "Secretary shall establish." and inserting the following: ". The Secretary shall establish other procedures necessary for efficient administration of the program. The Secretary shall not establish any criteria or procedures that have the effect of assigning to proposals a higher or lower priority for eligibility or allocation of appropriated funds on the basis of the energy source proposed.".

(b) Qualified Renewable Energy Facility.—Section 1212(b) of the Energy Policy Act of 1992 (42 U.S.C. 13317(b)) is amended—

(1) by striking "a State or any political" and all that follows through "nonprofit electrical cooperative" and inserting the following: "an electricity-generating cooperative exempt from taxation under section 501(c)(12) or section 1381(a)(2)(C) of the Internal Revenue Code of 1986, a public utility described in section 115 of such Code, a State, Commonwealth, territory, or possession of the United States or the District of Columbia, or a political subdivision thereof, or an Indian tribal government or subdivision thereof,"; and

(2) by inserting "landfill gas, incremental hydropower, ocean" after "wind, biomass,".

(c) Eligibility Window.—Section 1212(c) of the Energy Policy Act of 1992 (42 U.S.C. 13317(c)) is amended by striking "during the 10-fiscal year period beginning with the first full fiscal year occurring after the enactment of this section" and inserting "before October 1, 2013".

(d) Payment Period.—Section 1212(d) of the Energy Policy Act of 1992 (42 U.S.C. 13317(d)) is amended by inserting "or in which the Secretary finds that all necessary Federal and State authorizations have been obtained to begin construction of the facility" after "eligible for such payments".

(e) Amount of Payment.—Section 1212(e)(1) of the Energy Policy Act of 1992 (42 U.S.C. 13317(e)(1)) is amended by inserting "landfill gas, incremental hydropower, ocean" after "wind, biomass,".

(f) Sunset.—Section 1212(f) of the Energy Policy Act of 1992 (42 U.S.C. 13317(f)) is amended by striking "the expiration of" and all that follows through "of this section" and inserting "September 30, 2023".

(g) Incremental Hydropower; Authorization of Appropriations.—Section 1212 of the Energy Policy Act of 1992 (42 U.S.C. 13317) is further amended by striking subsection (g) and inserting the following:

"(g) Incremental Hydropower.—

"(1) Programs.—Subject to subsection (h)(2), if an incremental hydropower program meets the requirements of this section, as determined by the Secretary, the incremental hydropower program shall be eligible to receive incentive payments under this section.

"(2) Definition of Incremental Hydropower.—In this subsection, the term 'incremental hydropower' means additional generating capacity achieved from increased efficiency or additions of new capacity at a hydroelectric facility in existence on the date of enactment of this paragraph.

"(h) Authorization of Appropriations.—

"(1) In general.—Subject to paragraph (2), there are authorized to be appropriated such sums as may be necessary to carry out this section for fiscal years 2003 through 2023.

"(2) Limitation on funds used for incremental hydropower programs.—Not more than 30 percent of the amounts made available under paragraph (1) shall be used to carry out programs described in subsection (g)(2).

"(3) Availability of funds.—Funds made available under paragraph (1) shall remain available until expended.".

SEC. 262. ASSESSMENT OF RENEWABLE ENERGY RESOURCES.

(a) Resource Assessment.—Not later than 3 months after the date of enactment of this title, and each year thereafter, the Secretary of Energy shall review the available assessments of renewable energy resources available within the United States, including solar, wind, biomass, ocean, geothermal, and hydroelectric energy resources, and undertake new assessments as necessary, taking into account changes in market conditions, available technologies and other relevant factors.

(b) Contents of Reports.—Not later than one year after the date of enactment of this title, and each year thereafter, the Secretary shall publish a report based on the assessment under subsection (a). The report shall contain—

(1) a detailed inventory describing the available amount and characteristics of the renewable energy resources, and

(2) such other information as the Secretary of Energy believes would be useful in developing such renewable energy resources, including descriptions of surrounding terrain, population and load centers, nearby energy infrastructure, location of energy and water resources, and available estimates of the costs needed to develop each resource.

SEC. 263. FEDERAL PURCHASE REQUIREMENT.

(a) Requirement.—The President shall ensure that, of the total amount of electric energy the federal government consumes during any fiscal year—

(1) not less than 3 percent in fiscal years 2003 through 2004,

(2) not less than 5 percent in fiscal years 2005 through 2009, and

(3) not less than 7.5 percent in fiscal year 2010 and each fiscal year thereafter—

shall be renewable energy. The President shall encourage the use of innovative purchasing practices, including aggregation and the use of renewable energy derivatives, by federal agencies.

(b) Definition.—For purposes of this section, the term "renewable energy" means electric energy generated from solar, wind, biomass, geothermal, fuel cells, or additional hydroelectric generation capacity achieved from increased efficiency or additions of new capacity at an existing hydroelectric dam.

(c) Tribal Power Generation.—To the maximum extent practicable, the President shall ensure that not less than one-tenth of the amount specified in subsection (a) shall be renewable energy that is generated by an Indian tribe or by a corporation, partnership, or business association which is wholly or majority owned, directly or indirectly, by an Indian tribe. For purposes of this subsection, the term "Indian tribe" means any Indian tribe, band, nation, or other organized group or community, including any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

SEC. 264. RURAL CONSTRUCTION GRANTS.

Section 313 of the Rural Electrification Act of 1936 (7 U.S.C. 940c) is amended by adding after subsection (b) the following:

"(c) Rural and Remote Communities Electrification Grants.—The Secretary of Agriculture, in consultation with the Secretary of Energy and the Secretary of the Interior, may provide grants to eligible borrowers under this Act for the purpose of increasing energy efficiency, siting or upgrading transmission and distribution lines, or providing or modernizing electric facilities for—

"(1) a unit of local government of a State or territory; or

"(2) an Indian tribe or Tribal College or University as defined in section 316(b)(3) of the Higher Education Act (20 U.S.C. 1059c(b)(3)).

"(d) Grant Criteria.—The Secretary shall make grants based on a determination of cost-effectiveness and most effective use of the funds to achieve the stated purposes of this section.

"(e) Preference.—In making grants under this section, the Secretary shall give a preference to renewable energy facilities.

"(f) Definition.—For purposes of this section, the term 'Indian tribe' means any Indian tribe, band, nation, or other organized group or community, including any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians;

(e) Authorization.—For the purpose of carrying out subsection (c), there are authorized to be appropriated to the Secretary $20,000,000 for each of the seven fiscal years following the date of enactment of this subsection.".

SEC. 265. RENEWABLE PORTFOLIO STANDARD.

Title VI of the Public Utility Regulatory Policies Act of 1978 is further amended by adding at the end the following:

SEC. 606. FEDERAL RENEWABLE PORTFOLIO STANDARD.

"(a) Minimum Renewable Generation Requirement.—For each calendar year beginning with 2003, each retail electric supplier shall submit to the Secretary renewable energy credits in an amount equal to the required annual percentage, specified in subsection (b), of the total electric energy sold by the retail electric supplier to electric consumers in the calendar year. The retail electric supplier shall make this submission before April 1 of the following calendar year.

"(b) Required Annual Percentage.—

"(1) For calendar years 2003 and 2004, the required annual percentage shall be determined by the Secretary in an amount less than the amount in paragraph (2);

"(2) For calendar year 2005 the required annual percentage shall be 2.5 percent of the retail electric supplier's base amount; and

"(3) For each calendar year from 2006 through 2020, the required annual percentage of the retail electric supplier's base amount shall be .5 percent greater than the required annual percentage for the calendar year immediately preceding.

"(c) Submission of Credits.—(1) A retail electric supplier may satisfy the requirements of subsection (a) through the submission of—

"(A) renewable energy credits issued under subsection (d) for renewable energy generated by the retail electric supplier in the calendar year for which credits are being submitted or any of the two previous calendar years;

"(B) renewable energy credits obtained by purchase or exchange under subsection (e);

"(C) renewable energy credits borrowed against future years under subsection (f); or

"(D) any combination of credits under subparagraphs (A), (B), and (C).

"(2) A credit may be counted toward compliance with subsection (a) only once.

"(d) Issuance of Credits.—(1) The Secretary shall establish, not later than one year after the date of enactment of this section, a program to issue, monitor the sale or exchange of, and track renewable energy credits.

"(2) Under the program, an entity that generates electric energy through the use of a renewable energy resource may apply to the Secretary for the issuance of renewable energy credits. The application shall indicate—

"(A) the type of renewable energy resource used to produce the electricity,

"(B) the location where the electric energy was produced, and

"(C) any other information the Secretary determines appropriate.

"(3)(A) Except as provided in paragraphs (B) and (C), the Secretary shall issue to an entity one renewable energy credit for each kilowatt-hour of electric energy the entity generates in calendar year 2002 and any succeeding year through the use of a renewable energy resource at an eligible facility.

"(B) For incremental hydropower the credits shall be calculated based on a normalized annual capacity factor for each facility, and not actual generation. The calculation of the credits for incremental hydropower shall not be based on any operational changes at the hydroelectric facility not directly associated with the efficiency improvements or capacity additions.

"(C) The Secretary shall issue two renewable energy credits for each kilowatt-hour of electric energy generated in calendar year 2002 and any succeeding year through the use of a renewable energy resource at an eligible facility located on Indian land. For purposes of this paragraph, renewable energy generated by biomass cofired with other fuels is eligible for two credits only if the biomass was grown on the land eligible under this paragraph.

"(D) To be eligible for a renewable energy credit, the unit of electric energy generated through the use of a renewable energy resource may be sold or may be used by the generator. If both a renewable energy resource and a non-renewable energy resource are used to generate the electric energy, the Secretary shall issue credits based on the proportion of the renewable energy resource used. The Secretary shall identify renewable energy credits by type and date of generation.

"(4) In order to receive a renewable energy credit, the recipient of a renewable energy credit shall pay a fee, calculated by the Secretary, in an amount that is equal to the administrative costs of issuing, recording, monitoring the sale or exchange of, and tracking the credit. The Secretary shall retain the fee and use it to pay these administrative costs.

"(5) When a generator sells electric energy generated through the use of a renewable energy resource to a retail electric supplier under a contract subject to section 210 of this Act, the retail electric supplier is treated as the generator of the electric energy for the purposes of this section for the duration of the contract.

"(e) CREDIT TRADING.—A renewable energy credit may be sold or exchanged by the entity to whom issued or by any other entity who acquires the credit. A renewable energy credit for any year that is not used to satisfy the minimum renewable generation requirement of subsection (a) for that year may be carried forward for use in another year.

"(f) CREDIT BORROWING.—At any time before the end of calendar year 2003, a retail electric supplier that has reason to believe that it will not have sufficient renewable energy credits to comply with subsection (a) may—

"(1) submit a plan to the Secretary demonstrating that the retail electric supplier will earn sufficient credits within the next 3 calendar years which, when taken into account, will enable the retail electric supplier to meet the requirements of subsection (a) for calendar year 2003 and the calendar year involved; and

(2) upon the approval of the plan by the Secretary, apply credits that the plan demonstrates will be earned within the next 3 calendar years to meet the requirements of subsection (a) for each calendar year involved.

"(g) ENFORCEMENT.—The Secretary may bring an action in the appropriate United States district court to impose a civil penalty on a retail electric supplier that does not comply with subsection (a). A retail electric supplier who does not submit the required number of renewable energy credits under subsection (a) is subject to a civil penalty of not more than 3 cents each for the renewable energy credits not submitted.

"(h) INFORMATION COLLECTION.—The Secretary may collect the information necessary to verify and audit—

"(1) the annual electric energy generation and renewable energy generation of any entity applying for renewable energy credits under this section,

"(2) the validity of renewable energy credits submitted by a retail electric supplier to the Secretary, and

"(3) the quantity of electricity sales of all retail electric suppliers.

"(i) ENVIRONMENTAL SAVINGS CLAUSE.—Incremental hydropower shall be subject to all applicable environmental laws and licensing and regulatory requirements.

"(j) STATE SAVINGS CLAUSE.—This section does not preclude a State from requiring additional renewable energy generation in that State.

"(k) DEFINITIONS.—For purposes of this section—

"(1) The term 'eligible facility' means—

"(A) a facility for the generation of electric energy from a renewable energy resource that is placed in service on or after January 1, 2002; or

"(B) a repowering or cofiring increment that is placed in service on or after January 1, 2002 at a facility for the generation of electric energy from a renewable energy resource that was placed in service before January 1, 2002.

An eligible facility does not have to be interconnected to the transmission or distribution system facilities of an electric utility.

"(2) The term 'generation offset' means reduced electricity usage metered at a site where a customer consumes electricity from a renewable energy technology.

"(3) The term 'incremental hydropower' means additional generation capacity achieved from increased efficiency or additions of capacity after January 1, 2002 at a hydroelectric dam that was placed in service before January 1, 2002.

"(4) The term 'Indian land' means—

(A) any land within the limits of any Indian reservation, pueblo or rancheria,

"(B) any land not within the limits of any Indian reservation, pueblo or rancheria title to which was on the date of enactment of this paragraph either held by the United States for the benefit of any Indian tribe or individual or held by any Indian tribe or individual subject to restriction by the United States against alienation,

"(C) any dependent Indian community, and

"(D) any land conveyed to any Alaska Native corporation under the Alaska Native Claims Settlement Act.

"(5) The term 'Indian tribe' means any Indian tribe, band, nation, or other organized group or community, including any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

"(6) The term 'renewable energy' means electric energy generated by a renewable energy resource.

"(7) The term 'renewable energy resource' means solar, wind, biomass, ocean, or geothermal energy, a generation offset, or incremental hydropower facility.

"(8) The term 'repowering or cofiring increment' means the additional generation from a modification that is placed in service on or after January 1, 2002 to expand electricity production at a facility used to generate electric energy from a renewable energy resource or to cofire biomass that was placed in service before January 1, 2002.

"(9) The term 'retail electric supplier' means a person, State agency, or Federal agency that sells electric energy to electric consumers and sold not less than 500,000,000 kilowatt-hours of electric energy to electric consumers for purposes other than resale during the preceding calendar year.

"(10) The term 'retail electric supplier's base amount' means the total amount of electric energy sold by the retail electric supplier to electric customers during the most recent calendar year for which information is available, excluding electric energy generated by a renewable energy resource, landfill gas, or a hydroelectric facility.

"(l) SUNSET.—Subsection (a) of this section expires December 31, 2020.".

SEC. 266. RENEWABLE ENERGY ON FEDERAL LAND.

(a) COST-SHARE DEMONSTRATION PROGRAM.—Within 12 months after the date of enactment of this section, the Secretaries of the Interior, Agriculture, and Energy shall develop guidelines for a cost-share demonstration program for the development of wind and solar energy facilities on Federal land.

(b) DEFINITION OF FEDERAL LAND.—As used in this section, the term "Federal land" means land owned by the United States that is subject to the operation of the mineral leasing laws; and is either:

(1) public land as defined in section 103(e) of the Federal Land Policy and Management Act of 1976 (42 U.S.C. 1702(e)); or

(2) a unit of the National Forest System as that term is used in section 11(a) of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1609(a)).

(c) RIGHTS-OF-WAYS.—The demonstration program shall provide for the issuance of rights-of-way pursuant to the provisions of title V of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1761 et seq.) by the Secretary of the Interior with respect to Federal land under the jurisdiction of the Department of the Interior, and by the Secretary of Agriculture with respect to federal lands under the jurisdiction of the Department of Agriculture.

(d) AVAILABLE SITES.—For purposes of this demonstration program, the issuance of rights-of-way shall be limited to areas:

(1) of high energy potential for wind or solar development;

(2) that have been identified by the wind or solar energy industry, through a process of nomination, application, or otherwise, as being of particular interest to one or both industries;

(3) that are not located within roadless areas;

(4) where operation of wind or solar facilities would be compatible with the scenic, recreational, environmental, cultural, or historic values of the Federal land, and would not require the construction of new roads for the siting of lines or other transmission facilities; and

(5) where issuance of the right-of-way is consistent with the land and resource management plans of the relevant land management agencies.

(e) COST-SHARE PAYMENTS BY DOE.—The Secretary of Energy, in cooperation with the Secretary of the Interior with respect to Federal land under the jurisdiction of the Department of the Interior, and the Secretary of Agriculture with respect to Federal land under the jurisdiction of the Department of Agriculture, shall determine if the portion of a project on federal land is eligible for financial assistance pursuant to this section. Only those projects that are consistent with the requirements of this section and further the purposes of this section shall be eligible. In the event a project is selected for financial assistance, the Secretary of Energy shall provide no more than 15 percent of the costs of the project on the federal land, and the remainder of the costs shall be paid by non-Federal sources.

(f) REVISION OF LAND USE PLANS.—The Secretary of the Interior shall consider development of wind and solar energy, as appropriate, in revisions of land use plans under section 202 of the Federal Land Policy and Management Act of 1976 (42 U.S.C. 1712); and the Secretary of Agriculture shall consider development of wind and solar energy, as appropriate, in revisions of land and resource management plans under section 5 of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1604). Nothing in this subsection shall preclude the issuance of a right-of-way for the development of a wind or solar energy project prior to the revision of a land use plan by the appropriate land management agency.

(g) REPORT TO CONGRESS.—Within 24 months after the date of enactment of this section, the Secretary of the Interior shall develop and report to Congress recommendations on any statutory or regulatory changes the Secretary believes would assist in the development of renewable energy on Federal land. The report shall include—

(1) a five-year plan developed by the Secretary of the Interior, in cooperation with the Secretary of Agriculture, for encouraging the development of wind and solar energy on Federal land in an environmentally sound manner; and

(2) an analysis of—

(A) whether the use of rights-of-ways is the best means of authorizing use of Federal land for the development of wind and solar energy, or whether such resources could be better developed through a leasing system, or other method;

(B) the desirability of grants, loans, tax credits or other provisions to promote wind and solar energy development on Federal land; and

(C) any problems, including environmental concerns, which the Secretary of the Interior or the Secretary of Agriculture have encountered in managing wind or solar energy projects on Federal land, or believe are likely to arise in relation to the development of wind or solar energy on Federal land;

(3) a list, developed in consultation with the Secretaries of Energy and Defense, of lands under the jurisdiction of the Departments of Energy and Defense that would be suitable for development for wind or solar energy, and recommended statutory and regulatory mechanisms for such development; and

(4) an analysis, developed in consultation with the Secretaries of Energy and Commerce, of the potential for development of wind, solar, and ocean energy on the Outer Continental Shelf, along with recommended statutory and regulatory mechanisms for such development.

TITLE III—HYDROELECTRIC RELICENSING

SEC. 301. ALTERNATIVE MANDATORY CONDITIONS AND FISHWAYS.

(a) ALTERNATIVE MANDATORY CONDITIONS.—Section 4 of the Federal Power Act (16 U.S.C. 797) is amended by adding at the end the following:

"(h)(1) Whenever any person applies for a license for any project works within any reservation of the United States, and the Secretary of the department under whose supervision such reservation falls deems a condition to such license to be necessary under the first proviso of subsection (e), the license applicant or any other party to the licensing proceeding may propose an alternative condition.

"(2) Notwithstanding the first proviso of subsection (e), the Secretary of the department under whose supervision the reservation falls shall accept the proposed alternative condition referred to in paragraph (1), and the Commission shall include in the license such alternative condition, if the Secretary of the appropriate department determines, based on substantial evidence provided by the party proposing such alternative condition, that the alternative condition—

"(A) provides no less protection for the reservation than provided by the condition deemed necessary by the Secretary; and

"(B) will either—

"(i) cost less to implement, or

"(ii) result in improved operation of the project works for electricity production,

as compared to the condition deemed necessary by the Secretary.

"(3) Within 1 year after the enactment of this subsection, each Secretary concerned shall, by rule, establish a process to expeditiously resolve conflicts arising under this subsection.".

(b) ALTERNATIVE FISHWAYS.—Section 18 of the Federal Power Act (16 U.S.C. 811) is amended by—

"(1) inserting '(a)' before the first sentence; and

"(2) adding at the end the following:

"(b)(1) Whenever the Commission shall require a licensee to construct, maintain, or operate a fishway prescribed by the Secretary of the Interior or the Secretary of Commerce under this section, the licensee or any other party to the proceeding may propose an alternative to such prescription to construct, maintain, or operate a fishway.

"(2) Notwithstanding subsection (a), the Secretary of the Interior or the Secretary of Commerce, as appropriate, shall accept and prescribe, and the Commission shall require, the proposed alternative referred to in paragraph (1), if the Secretary of the appropriate department determines, based on substantial evidence provided by the party proposing such alternative, that the alternative—

"(A) will be no less effective than the fishway initially prescribed by the Secretary, and

"(B) will either—

"(i) cost less to implement, or

"(ii) result in improved operation of the project works for electricity production,

as compared to the fishway initially prescribed by the Secretary.

"(3) Within 1 year after the enactment of this subsection, the Secretary of the Interior and the Secretary of Commerce shall each, by rule, establish a process to expeditiously resolve conflicts arising under this subsection.".

SEC. 302. CHARGES FOR TRIBAL LANDS.

Section 10(e)(1) of the Federal Power Act (16 U.S.C. 803(e)(1)) is amended by inserting after the second proviso the following: "*Provided further*, That the Commission shall not issue a new or original license for projects involving tribal lands embraced within Indian reservations until annual charges required under this section have been fixed.".

SEC. 303. DISPOSITION OF HYDROELECTRIC CHARGES.

Section 17 of the Federal Power Act (16 U.S.C. 810) is amended by striking "to be expended under the direction of the Secretary of the Army in the maintenance and operation of dams and other navigation structures owned by the United States or in the construction, maintenance, or operation of headwater or other improvements of navigable waters of the United States." and inserting the following: "to be expended in the following manner on an annual basis: (A) fifty-percent of the funds shall be expended by the Secretary of the Interior pursuant to a grant program to be established by the Secretary to support collaborative watershed restoration and education activities intended to promote the recovery of candidate, threatened, and endangered species under the Endangered Species Act of 1973; and (B) fifty-percent of the funds shall be expended by the Secretary of Agriculture, acting through the Chief of the Forest Service, for the Youth Conservation Corps program.".

SEC. 304. ANNUAL LICENSES.

Section 15(a) of the Federal Power Act (16 U.S.C. 808(a)) is amended by adding at the end the following:

"(4) Prior to issuing a fourth and subsequent annual license under paragraph (1), the Commission shall first consult with the Secretary of the Interior and the Secretary of Commerce, and if the project is within any reservation, with the Secretary under whose supervision such reservation falls.

"(5) Prior to issuing a fourth and subsequent annual license under paragraph (1), the Commission shall publish a written statement setting forth the reasons why the annual license is needed, and describing the results of consultation with the Secretary of the Interior, the Secretary of Commerce, and the Secretary under whose supervision the reservation falls. Such explanation shall also contain the best judgment of the Commission as to whether the Commission anticipates issuing an additional annual license.

"(6) At least 60 days prior to expiration of the seventh and subsequent annual licenses issued under paragraph (1), the Commission shall submit to Congress the written statement required in paragraph (5).".

SEC. 305. ENFORCEMENT.

(a) MONITORING AND INVESTIGATIONS OF MANDATORY CONDITIONS AND FISHWAY PRESCRIPTIONS.—The first sentence of section 31(a) of the Federal Power Act (16 U.S.C. 823b(a)) is amended to read as follows:

"The Commission shall monitor and investigate compliance with each license and permit issued under this Part, each condition imposed under section 4(e) or 4(h), each fishway prescription imposed under section 18, and each exemption granted from any requirement of this Part."

(b) COMPLIANCE ORDERS.—The third sentence of section 31(a) of the Federal Power Act (16 U.S.C. 823(a)) is amended to read as follows:

"After notice and opportunity for public hearing, the Commission may issue such orders as necessary to require compliance with the terms and conditions of licenses and permits issued under this Part, with conditions imposed under section 4(e) or 4(h), with fishway prescriptions imposed under section 18, and with the terms and conditions of exemptions granted from any requirement of this Part."

SEC. 306. ESTABLISHMENT OF HYDROELECTRIC RELICENSING PROCEDURES.

(a) JOINT PROCEDURES OF THE COMMISSION AND RESOURCE AGENCIES.—

(1) Within 18 months after the date of enactment of this section, the Commission, the Secretary of the Interior, the Secretary of Commerce, and the Secretary of Agriculture, shall, after consultation with the interested states and public review and comment, issue coordinated regulations governing the issuance of a license under section 15 of the Federal Power Act (16 U.S.C. 808).

(2) Such regulations shall provide for—

(A) the participation of the Commission in the pre-application environmental scoping process conducted by the resource agencies pursuant to section 15(b) of the Federal Power Act (16 U.S.C. 808(b)), sufficient to allow the Commission and the resource agencies to coordinate environmental reviews and other regulatory procedures of the Commission and the resource agencies under Part I of the Federal Power Act, and under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

(B) issuance by the resource agencies of draft and final mandatory conditions under section 4(e) of the Federal Power Act (16 U.S.C. 797(e)), and draft and final fishway prescriptions under section 18 of the Federal Power Act (16 U.S.C. 811);

(C) to the maximum extent possible, identification by the Commission staff in the draft analysis of the license application conducted under the National Environmental Policy Act, of all license articles and license conditions the Commission is likely to include in the license;

(D) coordination by the Commission and the resource agencies of analysis under the National Environmental Policy Act for final license articles and conditions recommended by Commission staff, and the final mandatory conditions and fishway prescriptions of the resource agencies;

(E) procedures for ensuring coordination and sharing, to the maximum extent possible, of information, studies, data and analysis by the Commission and the resource agencies to reduce the need for duplicative studies and analysis by license applicants and other parties to the license proceeding; and

(F) procedures for ensuring resolution at an early stage of the process of the scope and type of reasonable and necessary information, studies, data, and analysis to be provided by the license applicant

(b) PROCEDURES OF THE COMMISSION.—Within 18 months after the date of enactment of this section, the Commission shall, after consultation with the interested federal agencies and states and after public comment and review, issue additional regulations governing the issuance of a license under section 15 of the Federal Power Act (16 U.S.C. 808). Such regulations shall—

(1) set a schedule for the Commission to issue—

(A) a tendering notice indicating that an application has been filed with the Commission;

(B) advanced notice to resource agencies of the issuance of the Ready for Environmental Analysis Notice requesting submission of recommendations, conditions, prescriptions, and comments;

(C) a license decision after completion of environmental assessments or environmental impact statements prepared pursuant to the National Environmental Policy Act; and

(D) responses to petitions, motions, complaints and requests for rehearing;

(2) set deadlines for an applicant to conduct all needed resource studies in support of its license application;

(3) ensure a coordinated schedule for all major actions by the applicant, the Commission, affected Federal and State agencies, Indian Tribes and other parties, through final decision on the application; and

(4) provide for the adjustment of schedules if unavoidable delays occur.

SEC. 307. RELICENSING STUDY.

(a) IN GENERAL.—The Federal Energy Regulatory Commission shall, jointly with the Secretary of Commerce, the Secretary of the Interior, and the Secretary of Agriculture, conduct a study of all new licenses issued for existing projects under section 15 of the Federal Power Act (16 U.S.C. 808) since January 1, 1994.

(b) SCOPE.—The study shall analyze:

(1) the length of time the Commission has taken to issue each new license for an existing project;

(2) the additional cost to the licensee attributable to new license conditions;

(3) the change in generating capacity attributable to new license conditions;

(4) the environmental benefits achieved by new license conditions;

(5) significant unmitigated environmental damage of the project and costs to mitigate such damage; and

(6) litigation arising from the issuance or failure to issue new licenses for existing projects under section 15 of the Federal Power Act or the imposition or failure to impose new license conditions.

(c) DEFINITION.—As used in this section, the term "new license condition" means any condition imposed under—

(1) section 4(e) of the Federal Power Act (16 U.S.C. 797(e)),

(2) section 10(a) of the Federal Power Act (16 U.S.C. 803(a)),

(3) section 10(e) of the Federal Power Act (16 U.S.C. 803(e)),

(4) section 10(j) of the Federal Power Act (16 U.S.C. 803(j)),

(5) section 18 of the Federal Power Act (16 U.S.C. 811), or

(6) section 401(d) of the Clean Water Act (33 U.S.C. 1341(d)).

(d) CONSULTATION.—The Commission shall give interested persons and licensees an opportunity to submit information and views in writing.

(e) REPORT.—The Commission shall report its findings to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Energy and Commerce of the House of Representatives not later than 24 months after the date of enactment of this section.

SEC. 308. DATA COLLECTION PROCEDURES.

Within 24 months after the date of enactment of this section, the Federal Energy Regulatory Commission, the Secretary of the Interior, the Secretary of Commerce, and the Secretary of Agriculture shall jointly develop procedures for ensuring complete and accurate information concerning the time and cost to parties in the hydroelectric licensing process under part I of the Federal Power Act (16 U.S.C. 791 et seq.). Such data shall be published regularly, but no less frequently than every three years.

TITLE IV—INDIAN ENERGY

SEC. 401. COMPREHENSIVE INDIAN ENERGY PROGRAM.

Title XXVI of the Energy Policy Act of 1992 (25 U.S.C. 3501–3506) is amended by adding after section 2606 the following:

"SEC. 2607. COMPREHENSIVE INDIAN ENERGY PROGRAM.

"(a) DEFINITIONS.—For purposes of this section—

"(1) the term 'Director' means the Director of the Office of Indian Energy Policy and Programs established by section 217 of the Department of Energy Organization Act, and

"(2) the term 'Indian land' means—

"(A) any land within the limits of an Indian reservation, pueblo, or rancheria;

"(B) any land not within the limits of an Indian reservation, pueblo, or rancheria whose title on the date of enactment of this section was held—

"(i) in trust by the United States for the benefit of an Indian tribe,

"(ii) by an Indian tribe subject to restriction by the United States against alienation, or

"(iii) by a dependent Indian community; and

"(C) land conveyed to an Alaska Native Corporation under the Alaska Native Claims Settlement Act.

"(b) INDIAN ENERGY EDUCATION PLANNING AND MANAGEMENT ASSISTANCE.—

"(1) The Director shall establish programs within the Office of Indian Energy Policy and Programs to assist Indian tribes in meeting their energy education, research and development, planning, and management needs.

"(2) The Director may make grants, on a competitive basis, to an Indian tribe for—

"(A) renewable energy, energy efficiency, and conservation programs;

"(B) studies and other activities supporting tribal acquisition of energy supplies, services, and facilities;

"(C) planning, constructing, developing, operating, maintaining, and improving tribal electrical generation, transmission, and distribution facilities; and

"(D) developing, constructing, and interconnecting electric power transmission facilities with transmission facilities owned and operated by a Federal power marketing agency or an electric utility that provides open access transmission service.

"(3) The Director may develop, in consultation with Indian tribes, a formula for making grants under this section. The formula may take into account the following—

"(A) the total number of acres of Indian land owned by an Indian tribe;

"(B) the total number of households on the Indian tribe's Indian land;

"(C) the total number of households on the Indian tribe's Indian land that have no electricity service or are under-served; and

"(D) financial or other assets available to the Indian tribe from any source.

"(4) In making a grant under paragraph (2), the Director shall give priority to an application received from an Indian tribe that is not served or is served inadequately by an electric utility, as that term is defined in section 3(4) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2602(4)), or by a person, State agency, or any other non-federal entity that owns or operates a local distribution facility used for the sale of electric energy to an electric consumer.

"(5) There are authorized to be appropriated to the Department of Energy such sums as may be necessary to carry out the purposes of this section.

"(6) The Secretary is authorized to promulgate such regulations as the Secretary determines to be necessary to carry out the provisions of this subsection.

"(c) LOAN GUARANTEE PROGRAM.—

"(1) AUTHORITY.—The Secretary may guarantee not more than 90 percent of the unpaid principal and interest due on any loan made to any Indian tribe for energy development, including the planning, development, construction, and maintenance of electrical generation plants, and for transmission and delivery mechanisms for electricity produced on Indian land. A loan guaranteed under this subsection shall be made by—

"(A) a financial institution subject to the examination of the Secretary; or

"(B) an Indian tribe, from funds of the Indian tribe, to another Indian tribe.

"(2) AVAILABILITY OF APPROPRIATIONS.—Amounts appropriated to cover the cost of loan guarantees shall be available without fiscal year limitation to the Secretary to fulfill obligations arising under this subsection.

"(3) AUTHORIZATION OF APPROPRIATIONS.—

"(A) There are authorized to be appropriated to the Secretary such sums as may be necessary to cover the cost of loan guarantees, as defined by section 502(5) of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a(5)).

"(B) There are authorized to be appropriated to the Secretary such sums as may be necessary to cover the administrative expenses related to carrying out the loan guarantee program established by this subsection.

"(4) LIMITATION ON AMOUNT.—The aggregate outstanding amount guaranteed by the Secretary of Energy at any one time under this subsection shall not exceed **$2,000,000,000**.

"(5) REGULATIONS.—The Secretary is authorized to promulgate such regulations as the Secretary determines to be necessary to carry out the provisions of this subsection.

"(d) INDIAN ENERGY PREFERENCE.—(1) An agency or department of the United States Government may give, in the purchase of electricity, oil, gas, coal, or other energy product or by-product, preference in such purchase to an energy and resource production enterprise, partnership, corporation, or other type of business organization majority or wholly owned and controlled by a tribal government.

"(2) In implementing this subsection, an agency or department shall pay no more than the prevailing market price for the energy product or by-product and shall obtain no less than existing market terms and conditions.

"(e) EFFECT ON OTHER LAWS.— This section does not—

"(1) limit the discretion vested in an Administrator of a Federal power marketing agency to market and allocate Federal power, or

"(2) alter Federal laws under which a Federal power marketing agency markets, allocates, or purchases power.".

SEC. 402. OFFICE OF INDIAN ENERGY POLICY AND PROGRAMS.

Title II of the Department of Energy Organization Act is amended by adding at the end the following:

"OFFICE OF INDIAN ENERGY POLICY AND PROGRAMS.

"SEC. 217. (a) There is established within the Department an Office of Indian Energy Policy and Programs. This Office shall be headed by a Director, who shall be appointed by the Secretary and compensated at the rate equal to that of level IV of the Executive Schedule under section 5315 of Title 5, United States Code.

"(b) The Director shall provide, direct, foster, coordinate, and implement energy planning, education, management, conservation, and delivery programs of the Department that—

"(1) promote tribal energy efficiency and utilization;

"(2) modernize and develop, for the benefit of Indian tribes, tribal energy and economic infrastructure related to natural resource development and electrification;

"(3) preserve and promote tribal sovereignty and self determination related to energy matters and energy deregulation;

"(4) lower or stabilize energy costs; and

"(5) electrify tribal members' homes and tribal lands.

"(c) The Director shall carry out the duties assigned the Secretary or the Director under title XXVI of the Energy Policy Act of 1992 (25 U.S.C. 3501 et seq.).".

SEC. 403. CONFORMING AMENDMENTS.

(a) AUTHORIZATION OF APPROPRIATIONS.—Section 2603(c) of the Energy Policy Act of 1992 (25 U.S.C. 3503(c)) is amended to read as follows:

"(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out the purposes of this section.".

(b) TABLE OF CONTENTS.—The Table of Contents of the Department of Energy Act is amended by inserting after the item relating to section 216 the following new item:

"Sec. 217. Office of Indian Energy Policy and Programs.".

(c) EXECUTIVE SCHEDULE.—Section 5315 of title 5, United States Code, is amended by inserting "Director, Office of Indian Energy Policy and Programs, Department of Energy." after "Inspector General, Department of Energy.".

SEC. 404. SITING ENERGY FACILITIES ON TRIBAL LANDS.

(a) DEFINITIONS.—For purposes of this section:

(1) INDIAN TRIBE.—The term "Indian tribe" means any Indian tribe, band, nation, or other organized group or community, which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians, except that such term does not include any Regional Corporation as defined in section 3(g) of the Alaska Native Claims Settlement Act (43 U.S.C. 1602(g)).

(2) INTERESTED PARTY.—The term "interested party" means a person whose interests could be adversely affected by the decision of an Indian tribe to grant a lease or right-of-way pursuant to this section.

(3) PETITION.—The term "petition" means a written request submitted to the Secretary for the review of an action (or inaction) of the Indian tribe that is claimed to be in violation of the approved tribal regulations;

(4) RESERVATION.—The term "reservation" means—

(A) with respect to a reservation in a State other than Oklahoma, all land that has been set aside or that has been acknowledged as having been set aside by the United States for the use of an Indian tribe, the exterior boundaries of which are more particularly defined in a final tribal treaty, agreement, executive order, federal statute, secretarial order, or judicial determination;

(B) with respect to a reservation in the State of Oklahoma, all land that is—

(i) within the jurisdictional area of an Indian tribe, and

(ii) within the boundaries of the last reservation of such tribe that was established by treaty, executive order, or secretarial order.

(5) SECRETARY.—The term "Secretary" means the Secretary of the Interior.

(6) TRIBAL LANDS.—The term "tribal lands" means any tribal trust lands or other lands owned by an Indian tribe that are within a reservation, or tribal trust lands located contiguous thereto.

(b) LEASES INVOLVING GENERATION, TRANSMISSION, DISTRIBUTION OR ENERGY PROCESSING FACILITIES.—An Indian tribe may grant a lease of tribal land for electric generation, transmission, or distribution facilities, or facilities to process or refine renewable or nonrenewable energy resources developed on tribal lands, and such leases shall not require the approval of the Secretary if the lease is executed under tribal regulations approved by the Secretary under this subsection and the term of the lease does not exceed 30 years.

(c) RIGHTS-OF-WAY FOR ELECTRIC GENERATION, TRANSMISSION, DISTRIBUTION OR ENERGY PROCESSING FACILITIES.—An Indian tribe may grant a right-of-way over tribal lands for a pipeline or an electric transmission or distribution line without separate approval by the Secretary, if—

(1) the right-of-way is executed under and complies with tribal regulations approved by the Secretary and the term of the right-of-way does not exceed 30 years; and

(2) the pipeline or electric transmission or distribution line serves—

(A) an electric generation, transmission or distribution facility located on tribal land, or

(B) a facility located on tribal land that processes or refines renewable or nonrenewable energy resources developed on tribal lands.

(d) RENEWALS.—Leases or rights-of-way entered into under this subsection may be renewed at the discretion of the Indian tribe in accordance with the requirements of this section.

(e) TRIBAL REGULATION REQUIREMENTS.—

(1) The Secretary shall have the authority to approve or disapprove tribal regulations required under this subsection. The Secretary shall approve such tribal regulations if they are comprehensive in nature, including provisions that address—

(A) securing necessary information from the lessee or right-of-way applicant;

(B) term of the conveyance;

(C) amendments and renewals;

(D) consideration for the lease or right-of-way;

(E) technical or other relevant requirements;

(F) requirements for environmental review as set forth in paragraph (3);

(G) requirements for complying with all applicable environmental laws; and

(H) final approval authority.

(2) No lease or right-of-way shall be valid unless authorized in compliance with the approved tribal regulations.

(3) An Indian tribe, as a condition of securing Secretarial approval as contemplated in paragraph (1), must establish an environmental review process that includes the following—

(A) an identification and evaluation of all significant environmental impacts of the proposed action as compared to a no action alternative;

(B) identification of proposed mitigation;

(C) a process for ensuring that the public is informed of and has an opportunity to comment on the proposed action prior to tribal approval of the lease or right-of-way; and

(D) sufficient administrative support and technical capability to carry out the environmental review process.

(4) The Secretary shall review and approve or disapprove the regulations of the Indian tribe within 180 days of the submission of such regulations to the Secretary. Any disapproval of such regulations by the Secretary shall be accompanied by written documentation that sets forth the basis for the disapproval. The 180-day period may be extended by the Secretary after consultation with the Indian tribe.

(5) If the Indian tribe executes a lease or right-of-way pursuant to tribal regulations required under this subsection, the Indian tribe shall provide the Secretary with—

(A) a copy of the lease or right-of-way document and all amendments and renewals thereto; and

(B) in the case of regulations or a lease or right-of-way that permits payment to be made directly to the Indian tribe, documentation of the payments sufficient to enable the Secretary to discharge the trust responsibility of the United States as appropriate under existing law.

(6) The United States shall not be liable for losses sustained by any party to a lease executed pursuant to tribal regulations under this subsection, including the Indian tribe.

(7) (A) An interested party may, after exhaustion of tribal remedies, submit, in a timely manner, a petition to the Secretary to review the compliance of the Indian tribe with any tribal regulations approved under this subsection. If upon such review, the Secretary determines that the regulations were violated, the Secretary may take such action as may be necessary to remedy the violation, including rescinding or holding the lease or right-of-way in abeyance until the violation is cured. The Secretary may also rescind the approval of the tribal regulations and reassume the responsibility for approval of leases or rights-of-way associated with the facilities addressed in this section.

(B) If the Secretary seeks to remedy a violation described in subparagraph (A), the Secretary shall—

(i) make a written determination with respect to the regulations that have been violated;

(ii) provide the Indian tribe with a written notice of the alleged violation together with such written determination; and

(iii) prior to the exercise of any remedy or the rescission of the approval of the regulations involved and reassumption of the lease or right-of-way approval responsibility, provide the Indian tribe with a hearing and a reasonable opportunity to cure the alleged violation.

(C) The tribe shall retain all rights to appeal as provided by regulations promulgated by the Secretary.

(f) AGREEMENTS.—

(1) Agreements between an Indian tribe and a business entity that are directly associated with the development of electric generation, transmission or distribution facilities, or facilities to process or refine renewable or nonrenewable energy resources developed on tribal lands, shall not separately require the approval of the Secretary pursuant to section 18 of title 25, United States Code, so long as the activity that is the subject of the agreement has been the subject of an environmental review process pursuant to subsection (e) of this section.

(2) The United States shall not be liable for any losses or damages sustained by any party, including the Indian tribe, that are associated with an agreement entered into under this subsection.

(g) DISCLAIMER.—Nothing in this section is intended to modify or otherwise affect the applicability of any provision of the Indian Mineral Leasing Act of 1938 (25 U.S.C. 396a–396g); Indian Mineral Development Act of 1982 (25 U.S.C. 2101–2108); Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1201–1328); any amendments thereto; or any other laws not specifically addressed in this section.

SEC. 405. INDIAN MINERAL DEVELOPMENT ACT REVIEW.

(a) IN GENERAL.—The Secretary of the Interior shall conduct a review of the activities that have been conducted by the governments of Indian tribes under the authority of the Indian Mineral Development Act of 1982 (25 U.S.C. 2101 et seq.).

(b) REPORT.—Not later than one year after the date of the enactment of this Act, the Secretary shall transmit to the Committee on Resources of the House of Representatives and the Committee on Indian Affairs and the Committee on Energy and Natural Resources of the Senate a report containing:

(1) the results of the review;

(2) recommendations designed to help ensure that Indian tribes have the opportunity to develop their nonrenewable energy resources; and

(3) an analysis of the barriers to the development of energy resources on Indian land, including federal policies and regulations, and make recommendations regarding the removal of those barriers.

(c) CONSULTATION.—The Secretary shall consult with Indian tribes on a government-to-government basis in developing the report and recommendations as provided in this subsection.

SEC. 406. RENEWABLE ENERGY STUDY.

(a) IN GENERAL.—Not later than 2 years after the date of the enactment of this Act, and once every 2 years thereafter, the Secretary of Energy shall transmit to the Committees on Energy and Commerce and Resources of the House of Representatives and the Committees on Energy and Natural Resources and Indian Affairs of the Senate a report on energy consumption and renewable energy development potential on Indian land. The report shall identify barriers to the development of renewable energy by Indian tribes, including federal policies and regulations, and make recommendations regarding the removal of such barriers.

(b) CONSULTATION.—The Secretary shall consult with Indian tribes on a government-to-government basis in developing the report and recommendations as provided in this section.

SEC. 407. FEDERAL POWER MARKETING ADMINISTRATIONS.

Title XXVI of the Energy Policy Act of 1992 (25 U.S.C. 3501) (as amended by section 201) is amended by adding the at the end of the following:

"SEC. 2608. FEDERAL POWER MARKETING ADMINISTRATIONS.

"(a) DEFINITION OF ADMINISTRATOR.—In this section, the term 'Administrator' means—

"(1) the Administrator of the Bonneville Power Administration; or

"(2) the Administrator of the Western Area Power Administration.

"(b) ASSISTANCE FOR TRANSMISSION STUDIES.—

"(1) Each Administrator may provide technical assistance to Indian tribes seeking to use the high-voltage transmission system for delivery of electric power. The costs of such technical assistance shall be funded—

"(A) by the Administrator using non-reimbursable funds appropriated for this purpose, or

"(B) by the Indian tribe.-

"(2) PRIORITY FOR ASSISTANCE FOR TRANSMISSION STUDIES.—In providing discretionary assistance to Indian tribes under paragraph (1), each Administrator shall give priority in funding to Indian tribes that have limited financial capability to conduct such studies.

"(c) POWER ALLOCATION STUDY.——

"(1) Not later than 2 years after the date of enactment of this Act, the Secretary of Energy shall transmit to the Committees on Energy and Commerce and Resources of the House of Representatives and the Committees on Energy and Natural Resources and Indian Affairs of the Senate a report on Indian tribes' utilization of federal power allocations of the Western Area Power Administration, or power sold by the Southwestern Power Administration, and the Bonneville Power Administration to or for the benefit of Indian tribes in their service areas. The report shall identify—

"(A) the amount of power allocated to tribes by the Western Area Power Administration, and how the benefit of that power is utilized by the tribes;

"(B) the amount of power sold to tribes by other Power Marketing Administrations; and

"(C) existing barriers that impede tribal access to and utilization of federal power, and opportunities to remove such barriers and improve the ability of the Power Marketing Administration to facilitate the utilization of federal power by Indian tribes.

"(2) The Power Marketing Administrations shall consult with Indian tribes on a government-to-government basis in developing the report provided in this section.

"(d) AUTHORIZATION FOR APPROPRIATION.—There are authorized to be appropriated to the Secretary of Energy such sums as may be necessary to carry out the purposes of this section.".

SEC. 408. FEASIBILITY STUDY OF COMBINED WIND AND HYDROPOWER DEMONSTRATION PROJECT.

(a) STUDY.—The Secretary of Energy, in coordination with the Secretary of the Army and the Secretary of the Interior, shall conduct a study of the cost and feasibility of developing a demonstration project that would use wind energy generated by Indian tribes and hydropower generated by the Army Corps of Engineers on the Missouri River to supply firming power to the Western Area Power Administration.

(b) SCOPE OF STUDY.—The study shall—

(1) determine the feasibility of the blending of wind energy and hydropower generated from the Missouri River dams operated by the Army Corps of Engineers;

(2) review historical purchase requirements and projected purchase requirements for firming and the patterns of availability and use of firming energy;

(3) assess the wind energy resource potential on tribal lands and projected cost savings through a blend of wind and hydropower over a thirty-year period; and

(4) include a preliminary interconnection study and a determination of resource adequacy of the Upper Great Plains Region of the Western Area Power Administration;

(5) determine seasonal capacity needs and associated transmission upgrades for integration of tribal wind generation; and

(6) include an independent tribal engineer as a study team member.

(c) REPORT.—The Secretary of Energy and Secretary of the Army shall submit a report to Congress not later than one year after the date of enactment of this title. The Secretaries shall include in the report—

(1) an analysis of the potential energy cost savings to the customers of the Western Area Power Administration through the blend of wind and hydropower;

(2) an evaluation of whether a combined wind and hydropower system can reduce reservoir fluctuation, enhance efficient and reliable energy production and provide Missouri River management flexibility;

(3) recommendations for a demonstration project which the Western Area Power Administration could carry out in partnership with an Indian tribal government or tribal government energy consortium to demonstrate the feasibility and potential of using wind energy produced on Indian lands to supply firming energy to the Western Area Power Administration or other Federal power marketing agency; and

(4) an identification of the economic and environmental benefits to be realized through such a federal-tribal partnership and identification of how such a partnership could contribute to the energy security of the United States.

(d) CONSULTATION.—The Secretary shall consult with Indian tribes on a government-to-government basis in developing the report and recommendations provided in this section.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $500,000 to carry out this section, which shall remain available until expended. All costs incurred by the Western Area Power Administration associated with performing the tasks required under this section shall be non-reimbursable.

TITLE V—NUCLEAR POWER

Subtitle A—Price-Anderson Act Reauthorization

SEC. 501. SHORT TITLE.

This subtitle may be cited as the "Price-Anderson Amendments Act of 2002".

SEC. 502. EXTENSION OF DEPARTMENT OF ENERGY INDEMNIFICATION AUTHORITY.

Section 170 d.(1)(A) of the Atomic Energy Act of 1954 (42 U.S.C. 2210(d)(1)(A)) is amended by striking ", until August 1, 2002,".

SEC. 503. DEPARTMENT OF ENERGY LIABILITY LIMIT.

(a) INDEMNIFICATION OF DEPARTMENT OF ENERGY CONTRACTORS.—Section 170 d. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(d)) is amended by striking paragraph (2) and inserting the following:

“(2) In agreements of indemnification entered into under paragraph (1), the Secretary—

“(A) may require the contractor to provide and maintain financial protection of such a type and in such amounts as the Secretary shall determine to be appropriate to cover public liability arising out of or in connection with the contractual activity, and

“(B) shall indemnify the persons indemnified against such claims above the amount of the financial protection required, in the amount of $10,000,000,000 (subject to adjustment for inflation under subsection t.), in the aggregate, for all persons indemnified in connection with such contract and for each nuclear incident, including such legal costs of the contractor as are approved by the Secretary.”.

(b) CONTRACT AMENDMENTS.—Section 170 d. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(d)) is further amended by striking paragraph (3) and inserting the following:

“(3) All agreements of indemnification under which the Department of Energy (or its predecessor agencies) may be required to indemnify any person under this section shall be deemed to be amended, on the date of the enactment of the Price-Anderson Amendments Act of 2002, to reflect the amount of indemnity for public liability and any applicable financial protection required of the contractor under this subsection.”.

(c) LIABILITY LIMIT.—Section 170 e.(1)(B) of the Atomic Energy Act of 1954 (42 U.S.C. 2210(e)(1)(B)) is amended by striking “paragraph (3)” and inserting “paragraph (2)(B)”.

SEC. 504. INCIDENTS OUTSIDE THE UNITED STATES.

(a) AMOUNT OF INDEMNIFICATION.—Section 170 d.(5) of the Atomic Energy Act of 1954 (42 U.S.C. 2210(d)(5)) is amended by striking “$100,000,000” and inserting “$500,000,000”.

(b) LIABILITY LIMIT.—Section 170 e.(4) of the Atomic Energy Act of 1954 (42 U.S.C. 2210(e)(4) is amended by striking “$100,000,000” and inserting “$500,000,000”.

SEC. 505. REPORTS.

Section 170 p. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(p)) is amended by striking “August 1, 1998” and inserting “August 1, 2008”.

SEC. 506. INFLATION ADJUSTMENT.

Section 170 t. of the Atomic Energy Act of 1954 (42 U.S.C. 2210 (t)) is amended—

(1) by renumbering paragraph (2) as paragraph (3); and

(2) by adding after paragraph (1) the following:

“(2) The Secretary shall adjust the amount of indemnification provided under an agreement of indemnification under subsection d. not less than once during each 5-year period following July 1, 2002, in accordance with the aggregate percentage change in the Consumer Price Index since—

“(A) such date of enactment, in the case of the first adjustment under this paragraph; or

“(B) the previous adjustment under this paragraph.”.

SEC. 507. CIVIL PENALTIES.

(a) REPEAL OF AUTOMATIC REMISSION.—Section 234A b.(2) of the Atomic Energy Act of 1954 (42 U.S.C. 2282a (b)(2)) is amended by striking the last sentence.

(b) LIMITATION FOR NOT-FOR-PROFIT INSTITUTIONS.—Subsection d. of section 234A of the Atomic Energy Act of 1954 (42 U.S.C. 2282a(d)) is amended to read as follows:

“d. (1) Notwithstanding subsection a., a civil penalty for a violation under subsection a. shall not exceed the amount of the fee paid under the contract under which such violation occurs for any not-for-profit contractor, subcontractor, or supplier.

“(2) For purposes of this section, the term ‘not-for-profit’ means that no part of the net earnings of the contractor, subcontractor, or supplier inures, or may lawfully inure, to the benefit of any natural person or for-profit artificial person.”.

(c) EFFECTIVE DATE.—The amendments made by this section shall not apply to any violation of the Atomic Energy Act of 1954 occurring under a contract entered into before the date of enactment of this section.

SEC. 508. EFFECTIVE DATE.

The amendments made by sections 503(a) and 504 shall not apply to any nuclear incident that occurs before the date of the enactment of this subtitle.

Subtitle B—Miscellaneous Provisions

SEC. 511. URANIUM SALES.

(a) INVENTORY SALES.—Section 3112(d) of the USEC Privatization Act (42 U.S.C. 2297h-10(d)) is amended to read as follows:

“(d) INVENTORY SALES.—(1) In addition to the transfers authorized under subsections (b), (c), and (e), the Secretary may, from time to time, sell or transfer uranium (including natural uranium concentrates, natural uranium hexafluoride, enriched uranium, and depleted uranium) from the Department of Energy’s stockpile.

“(2) Except as provided in subsections (b), (c), and (e), the Secretary may not deliver uranium in any form for consumption by end users in any year in excess of the following amounts:

“**Annual Maximum Deliveries to End Users**

“Year:-	(million lbs. U_3O_8 equivalent)
2003 through 2009-	3
2010-	5
2011-	5
2012-	7
2013 and each year thereafter-	10.

“(3) Except as provided in subsections (b), (c), and (e), no sale or transfer of uranium in any form shall be made unless—

“(A) the President determines that the material is not necessary for national security needs;

“(B) the Secretary determines, based on the written views of the Secretary of State and the Assistant to the President for National Security Affairs, that the sale or transfer will not adversely affect the national security interests of the United States;

“(C) the Secretary determines that the sale of the material will not have an adverse material impact on the domestic uranium mining, conversion, or enrichment industry, taking into account the sales of uranium under the Russian HEU Agreement and the Suspension Agreement; and

“(D) the price paid to the Secretary will not be less than the fair market value of the material.”.

(b) EXEMPT TRANSFERS AND SALES.—Section 3112(e) of the USEC Privatization Act (42-U.S.C. 2297h-10(e)) is amended to read as follows:

“(e) EXEMPT SALES OR TRANSFERS.—Notwithstanding subsection (d)(2), the Secretary may transfer or sell uranium—

“(1) to the Tennessee Valley Authority for use pursuant to the Department of Energy’s highly enriched uranium or tritium program, to the extent provided by law;

“(2) to research and test reactors under the University Reactor Fuel Assistance and Support Program or the Reduced Enrichment for Research and Test Reactors Program;

“(3) to USEC Inc. to replace contaminated uranium received from the Department of Energy when the United States Enrichment Corporation was privatized;

“(4) to any person for emergency purposes in the event of a disruption in supply to end users in the United States; and

“(5) to any person for national security purposes, as determined by the Secretary.”.

SEC. 512. REAUTHORIZATION OF THORIUM REIMBURSEMENT.

(a) REIMBURSEMENT OF THORIUM LICENSEES.— Section 1001(b)(2)(C) of the Energy Policy Act of 1992 (42 U.S.C. 2296a) is amended—

(1) by striking “$140,000,000” and inserting “$365,000,000”; and

(2) by adding at the end the following: “Such payments shall not exceed the following amounts:

“(i) $90,000,000 in fiscal year 2002.

“(ii) $55,000,000 in fiscal year 2003.

“(iii) $20,000,000 in fiscal year 2004.

“(iv) $20,000,000 in fiscal year 2005.

“(v) $20,000,000 in fiscal year 2006.

“(vi) $20,000,000 in fiscal year 2007.

Any amounts authorized to be paid in a fiscal year under this subparagraph that are not paid in that fiscal year may be paid in subsequent fiscal years.”.

(b) AUTHORIZATION OF APPROPRIATIONS.— Section 1003(a) of the Energy Policy Act of 1992 (42 U.S.C. 2296a-2) is amended by striking “$490,000,000” and inserting “$715,000,000”.

(c) DECONTAMINATION AND DECOMMISSIONING FUND.—Section 1802(a) of the Atomic Energy Act of 1954 (42 U.S.C. 2297g-1(a)) is amended—

(1) by striking “$488,333,333” and inserting “$518,233,333 ”; and

(2) by inserting after “inflation” the following: “beginning on the date of enactment of the Energy Policy Act of 1992”.

SEC. 513. FAST FLUX TEST FACILITY.

The Secretary of Energy shall not reactivate the Fast Flux Test Facility to conduct—

(1) any atomic energy defense activity,

(2) any space-related mission, or

(3) any program for the production or utilization of nuclear material if the Secretary has determined, in a record of decision, that the program can be carried out at existing operating facilities.

DIVISION B—DOMESTIC OIL AND GAS PRODUCTION AND TRANSPORTATION

TITLE VI—OIL AND GAS PRODUCTION

SEC. 601. PERMANENT AUTHORITY TO OPERATE THE STRATEGIC PETROLEUM RESERVE.

(a) AMENDMENT TO TITLE I OF THE ENERGY POLICY AND CONSERVATION ACT.—Title I of the Energy Policy and Conservation Act (42 U.S.C. 6211 et seq.) is amended—

(1) by striking section 166 (42 U.S.C. 6246) and inserting—

“SEC. 166. There are authorized to be appropriated to the Secretary such sums as may be necessary to carry out this part, to remain available until expended.”; and

(2) by striking part E (42 U.S.C. 6251; relating to the expiration of title I of the Act) and its heading.

(b) AMENDMENT TO TITLE II OF THE ENERGY POLICY AND CONSERVATION ACT.—Title II of the Energy Policy and Conservation Act (42 U.S.C. 6271 et seq.) is amended—

(1) by striking section 256(h) (42 U.S.C. 6276(h)) and inserting—

"(h) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary such sums as may be necessary to carry out this part, to remain available until expended.".

(2) by striking section 273(e) (42 U.S.C. 6283(e); relating to the expiration of summer fill and fuel budgeting programs); and

(3) by striking part D (42 U.S.C. 6285; relating to the expiration of title II of the Act) and its heading.

(c) TECHNICAL AMENDMENTS.—The table of contents for the Energy Policy and Conservation Act is amended by striking the items relating to part D of title I and part D of title II.

SEC. 602. FEDERAL ONSHORE LEASING PROGRAMS FOR OIL AND GAS.

(a) TIMELY ACTION ON LEASES AND PERMITS.—To ensure timely action on oil and gas leases and applications for permits to drill on lands otherwise available for leasing, the Secretary of the Interior shall—

(1) ensure expeditious compliance with the requirements section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C));

(2) improve consultation and coordination with the States;

(3) improve the collection, storage, and retrieval of information related to such leasing activities; and

(4) improve inspection and enforcement activities related to oil and gas leases.

(b) AUTHORIZATION OF APPROPRIATIONS.—For the purpose of carrying out paragraphs (1) through (4) of subsection (a), there are authorized to be appropriated to the Secretary of the Interior $60,000,000 for each of the fiscal years 2003 through 2006, in addition to amounts otherwise authorized to be appropriated for the purpose of carrying out section 17 of the Mineral Leasing Act (30 U.S.C. 226).

SEC. 603. OIL AND GAS LEASE ACREAGE LIMITATIONS.

Section 27(d)(1) of the Mineral Leasing Act (30 U.S.C. 184(d)(1)) is amended by inserting after "acreage held in special tar sand areas" the following: "as well as acreage under any lease any portion of which has been committed to a Federally approved unit or cooperative plan or communitization agreement, or for which royalty, including compensatory royalty or royalty in kind, was paid in the preceding calendar year,".

SEC. 604. ORPHANED AND ABANDONED WELLS ON FEDERAL LAND.

(a) ESTABLISHMENT.—(1) The Secretary of the Interior, in cooperation with the Secretary of Agriculture, shall establish a program to ensure within three years after the date of enactment of this Act, remediation, reclamation, and closure of orphaned oil and gas wells located on lands administered by the land management agencies within the Department of the Interior and the U.S. Forest Service that are—

(A) abandoned;

(B) orphaned; or

(C) idled for more than 5 years and having no beneficial use.

(2) The program shall include a means of ranking critical sites for priority in remediation based on potential environmental harm, other land use priorities, and public health and safety.

(3) The program shall provide that responsible parties be identified wherever possible and that the costs of remediation be recovered.

(4) In carrying out the program, the Secretary of the Interior shall work cooperatively with the Secretary of Agriculture and the states within which the federal lands are located, and shall consult with the Secretary of Energy, and the Interstate Oil and Gas Compact Commission.

(b) PLAN.—Within six months from the date of enactment of this section, the Secretary of the Interior, in cooperation with the Secretary of Agriculture, shall prepare a plan for carrying out the program established under subsection (a). Copies of the plan shall be transmitted to the Committee on Energy and Natural Resources of the Senate and the Committee on Resources of the House of Representatives.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of the Interior $5,000,000 for each of fiscal years 2003 through 2005 to carry out the activities provided for in this section.

SEC. 605. ORPHANED AND ABANDONED OIL AND GAS WELL PROGRAM.

(a) ESTABLISHMENT.—The Secretary of Energy shall establish a program to provide technical assistance to the various oil and gas producing states to facilitate state efforts over a ten-year period to ensure a practical and economical remedy for environmental problems caused by orphaned and abandoned exploration or production well sites on state and private lands. The Secretary shall work with the states, through the Interstate Oil and Gas Compact Commission, to assist the states in quantifying and mitigating environmental risks of onshore abandoned and orphaned wells on state and private lands.

(b) PROGRAM ELEMENTS.—The program should include—

(1) mechanisms to facilitate identification of responsible parties wherever possible;

(2) criteria for ranking critical sites based on factors such as other land use priorities, potential environmental harm and public visibility; and

(3) information and training programs on best practices for remediation of different types of sites.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Energy for the activities under this section $5,000,000 for each of fiscal years 2003 through 2005 to carry out the provisions of this section.

SEC. 606. OFFSHORE DEVELOPMENT.

Section 5 of the Outer Continental Shelf Lands Act of 1953 (43 U.S.C. 1334) is amended by adding at the end the following:

"(k) SUSPENSION OF OPERATIONS FOR SUBSALT EXPLORATION.—Notwithstanding any other provision of law or regulation, the Secretary may grant a request for a suspension of operations under any lease to allow the lessee to reprocess or reinterpret geologic or geophysical data beneath allocthonous salt sheets, when in the Secretary's judgment such suspension is necessary to prevent waste caused by the drilling of unnecessary wells, and to maximize ultimate recovery of hydrocarbon resources under the lease. Such suspension shall be limited to the minimum period of time the Secretary determines is necessary to achieve the objectives of this subsection.".

SEC. 607. COALBED METHANE STUDY.

(a) STUDY.—The National Academy of Sciences shall conduct a study on the effects of coalbed methane production on surface and water resources.

(b) DATA ANALYSIS.—The study shall analyze available hydrogeologic and water quality data, along with other pertinent environmental or other information to determine—

(1) adverse effects associated with surface or subsurface disposal of waters produced during extraction of coalbed methane;

(2) depletion of groundwater aquifers or drinking water sources associated with production of coalbed methane;

(3) any other significant adverse impacts to surface or water resources associated with production of coalbed methane; and

(4) production techniques or other factors that can mitigate adverse impacts from coalbed methane development.

(c) RECOMMENDATIONS.—The study shall analyze existing Federal and State laws and regulations, and make recommendations as to changes, if any, to Federal law necessary to address adverse impacts to surface or water resources attributable to coalbed methane development.

(d) COMPLETION OF STUDY.—The National Academy of Sciences shall submit the study to the Secretary of the Interior within 18 months after the date of enactment of this Act, and shall make the study available to the public at the same time.

(e) REPORT TO CONGRESS.—The Secretary of the Interior shall report to Congress within 6 months of her receipt of the study on—

(1) the findings and recommendations of the study;

(2) the Secretary's agreement or disagreement with each of its findings and recommendations; and

(3) any recommended changes in funding to address the effects of coalbed methane production on surface and water resources.

SEC. 608. FISCAL POLICIES TO MAXIMIZE RECOVERY OF DOMESTIC OIL AND GAS RESOURCES.

(a) EVALUATION.—The Secretary of Energy, in coordination with the Secretaries of the Interior, Commerce, and Treasury, Indian tribes and the Interstate Oil and Gas Compact Commission, shall evaluate the impact of existing Federal and State tax and royalty policies on the development of domestic oil and gas resources and on revenues to Federal, State, local and tribal governments.

(b) SCOPE.—The evaluation under subsection (a) shall—

(1) analyze the impact of fiscal policies on oil and natural gas exploration, development drilling, and production under different price scenarios, including the impact of the individual and corporate Alternative Minimum Tax, state and local production taxes and fixed royalty rates during low price periods;

(2) assess the effect of existing federal and state fiscal policies on investment under different geological and developmental circumstances, including but not limited to deepwater environments, subsalt formations, deep and deviated wells, coalbed methane and other unconventional oil and gas formations;

(3) assess the extent to which federal and state fiscal policies negatively impact the ultimate recovery of resources from existing fields and smaller accumulations in offshore waters, especially in water depths less than 800 meters, of the Gulf of Mexico;

(4) compare existing federal and state policies with tax and royalty regimes in other countries with particular emphasis on similar geological, developmental and infrastructure conditions; and

(5) evaluate how alternative tax and royalty policies, including counter-cyclical measures, could increase recovery of domestic oil and natural gas resources and revenues to Federal, State, local and tribal governments.

(c) POLICY RECOMMENDATIONS.—Based upon the findings of the evaluation under subsection (a), a report describing the findings and recommendations for policy changes shall be provided to the President, the Congress, the Governors of the member states of the Interstate Oil and Gas Compact Commission, and Indian tribes having an oil and gas lease approved by the Secretary of the Interior. The recommendations should ensure that the public interest in receiving the economic benefits of tax and royalty revenues is balanced with the broader national security and economic interests in maximizing recovery of domestic resources. The report should include recommendations regarding actions to—

(1) ensure stable development drilling during periods of low oil and/or natural gas prices to maintain reserve replacement and deliverability;

(2) minimize the negative impact of a volatile investment climate on the oil and gas service industry and domestic oil and gas exploration and production;

(3) ensure a consistent level of domestic activity to encourage the education and retention of a technical workforce; and

(4) maintain production capability during periods of low oil and/or natural gas prices.

(d) ROYALTY GUIDELINES.—The recommendations required under (c) should include guidelines for private resource holders as to the appropriate level of royalties given geology, development cost, and the national interest in maximizing recovery of oil and gas resources.

(e) REPORT.—The study under subsection (a) shall be completed not later than 18 months after the date of enactment of this section. The report and recommendations required in (c) shall be transmitted to the President, the Congress, Indian tribes, and the Governors of the member States of the Interstate Oil and Gas Compact Commission.

SEC. 609. STRATEGIC PETROLEUM RESERVE.

(a) FULL CAPACITY.—The President shall—

(1) fill the Strategic Petroleum Reserve established pursuant to part B of title I of the Energy Policy and Conservation Act (42 U.S.C. 6231 et seq.) to full capacity as soon as practicable;

(2) acquire petroleum for the Strategic Petroleum Reserve by the most practicable and cost-effective means, including the acquisition of crude oil the United States is entitled to receive in kind as royalties from production on Federal lands; and

(3) ensure that the fill rate minimizes impacts on petroleum markets.

(b) RECOMMENDATIONS.—Not later than 180 days after the date of enactment of this Act, the Secretary of Energy shall submit to Congress a plan toB

(1) eliminate any infrastructure impediments that may limit maximum drawdown capability; and

(2) determine whether the capacity of the Strategic Petroleum Reserve on the date of enactment of this section is adequate in light of the increasing consumption of petroleum and the reliance on imported petroleum.

TITLE VII—NATURAL GAS PIPELINES

Subtitle A—Alaska Natural Gas Pipeline

SEC. 701. SHORT TITLE.

This subtitle may be cited as the "Alaska Natural Gas Pipeline Act of 2002".

SEC. 702. FINDINGS.

The Congress finds that:

(1) Construction of a natural gas pipeline system from the Alaskan North Slope to United States markets is in the national interest and will enhance national energy security by providing access to the significant gas reserves in Alaska needed to meet the anticipated demand for natural gas.

(2) The Commission issued a certificate of public convenience and necessity for the Alaska Natural Gas Transportation System, which remains in effect.

SEC. 703. PURPOSES.

The purposes of this subtitle are—

(1) to expedite the approval, construction, and initial operation of one or more transportation systems for the delivery of Alaska natural gas to the contiguous United States;

(2) to ensure access to such transportation systems on an equal and nondiscriminatory basis and to promote competition in the exploration, development and production of Alaska natural gas; and

(3) to provide federal financial assistance to any transportation system for the transport of Alaska natural gas to the contiguous United States, for which an application for a certificate of public convenience and necessity is filed with the Commission not later than 6 months after the date of enactment of this subtitle.

SEC. 704. ISSUANCE OF CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY.

(a) AUTHORITY OF THE COMMISSION.—Notwithstanding the provisions of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719–719o), the Commission may, pursuant to section 7(c) of the Natural Gas Act (15 U.S.C. 717f(c)), consider and act on an application for the issuance of a certificate of public convenience and necessity authorizing the construction and operation of an Alaska natural gas transportation project other than the Alaska Natural Gas Transportation System.

(b) ISSUANCE OF CERTIFICATE.—

(1) The Commission shall issue a certificate of public convenience and necessity authorizing the construction and operation of an Alaska natural gas transportation project under this section if the applicant has—

(A) entered into a contract to transport Alaska natural gas through the proposed Alaska natural gas transportation project for use in the contiguous United States; and

(B) satisfied the requirements of section 7(e) of the Natural Gas Act (15 U.S.C. 717f(e)).

(2) In considering an application under this section, the Commission shall presume that—

(A) a public need exists to construct and operate the proposed Alaska natural gas transportation project; and

(B) sufficient downstream capacity will exist to transport the Alaska natural gas moving through such project to markets in the contiguous United States.

(c) EXPEDITED APPROVAL PROCESS.—The Commission shall issue a final order granting or denying any application for a certificate of public and convenience and necessity under section 7(c) of the Natural Gas Act (15 U.S.C. 717f(c)) and this section not more than 60 days after the issuance of the final environmental impact statement for that project pursuant to section 704.

(d) REVIEWS AND ACTIONS OF OTHER FEDERAL AGENCIES.—All reviews conducted and actions taken by any federal officer or agency relating to an Alaska natural gas transportation project authorized under this section shall be expedited, in a manner consistent with completion of the necessary reviews and approvals by the deadlines set forth in this subtitle.

(e) REGULATIONS.—The Commission may issue regulations to carry out the provisions of this section.

SEC. 705. ENVIRONMENTAL REVIEWS.

(a) COMPLIANCE WITH NEPA.—The issuance of a certificate of public convenience and necessity authorizing the construction and operation of any Alaska natural gas transportation project under section 704 shall be treated as a major federal action significantly affecting the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)).

(b) DESIGNATION OF LEAD AGENCY.—The Commission shall be the lead agency for purposes of complying with the National Environmental Policy Act of 1969, and shall be responsible for preparing the statement required by section 102(2)(c) of that Act (42 U.S.C. 4332(2)(c)) with respect to an Alaska natural gas transportation project under section 704. The Commission shall prepare a single environmental statement under this section, which shall consolidate the environmental reviews of all Federal agencies considering any aspect of the project.

(c) OTHER AGENCIES.—All Federal agencies considering aspects of the construction and operation of an Alaska natural gas transportation project section 704 shall cooperate with the Commission, and shall comply with deadlines established by the Commission in the preparation of the statement under this section. The statement prepared under this section shall be used by all such agencies to satisfy their responsibilities under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) with respect to such project.

(d) EXPEDITED PROCESS.—The Commission shall issue a draft statement under this section not later than 12 months after the Commission determines the application to be complete and shall issue the final statement not later than 6 months after the Commission issues the draft statement, unless the Commission for good cause finds that additional time is needed.

(e) UPDATED ENVIRONMENTAL REVIEWS UNDER ANGTA.—The Secretary of Energy shall require the sponsor of the Alaska Natural Gas Transportation System to submit such updated environmental data, reports, permits, and impact analyses as the Secretary determines are necessary to develop detailed terms, conditions, and compliance plans required by section 5 of the President's Decision.

SEC. 706. FEDERAL COORDINATOR.

(a) ESTABLISHMENT.—There is established as an independent establishment in the executive branch, the Office of the Federal Coordinator for Alaska Natural Gas Transportation Projects.

(b) THE FEDERAL COORDINATOR.—The Office shall be headed by a Federal Coordinator for Alaska Natural Gas Transportation Projects, who shall—

(1) be appointed by the President, by and with the advice of the Senate,

(2) hold office at the pleasure of the President, and

(3) be compensated at the rate prescribed for level III of the Executive Schedule (5 U.S.C. 5314).

(c) DUTIES.—The Federal Coordinator shall be responsible for—

(1) coordinating the expeditious discharge of all activities by federal agencies with respect to an Alaska natural gas transportation project; and

(2) ensuring the compliance of Federal agencies with the provisions of this subtitle.

SEC. 707. JUDICIAL REVIEW.

(a) EXCLUSIVE JURISDICTION.—The United States Court of Appeals for the District of

Columbia Circuit shall have exclusive jurisdiction to determine—

(1) the validity of any final order or action (including a failure to act) of the Commission under this subtitle;

(2) the constitutionality of any provision of this subtitle, or any decision made or action taken thereunder; or

(3) the adequacy of any environmental impact statement prepared under the National Environmental Policy Act of 1969 with respect to any action under this subtitle.

(b) DEADLINE FOR FILING CLAIM.—Claims arising under this subtitle may be brought not later than 60 days after the date of the decision or action giving rise to the claim.

SEC. 708. LOAN GUARANTEE.

(a) AUTHORITY.— The Secretary of Energy may guarantee not more than 80 percent of the principal of any loan made to the holder of a certificate of public convenience and necessity issued under section 704(b) of this Act or section 9 of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719g) for the purpose of constructing an Alaska natural gas transportation project.

(b) CONDITIONS.—

(1) The Secretary of Energy may not guarantee a loan under this section unless the guarantee has filed an application for a certificate of public convenience and necessity under section 704(b) of this Act or for an amended certificate under section 9 of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719g) with the Commission not later than 6 months after the date of enactment of this subtitle.

(2) A loan guaranteed under this section shall be made by a financial institution subject to the examination of the Secretary.

(3) Loan requirements, including term, maximum size, collateral requirements and other features shall be determined by the Secretary.

(c) LIMITATION ON AMOUNT.—Commitments to guarantee loans may be made by the Secretary of Energy only to the extent that the total loan principal, any part of which is guaranteed, will not exceed $10,000,000,000.

(d) REGULATIONS.—The Secretary of Energy may issue regulations to carry out the provisions of this section.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary such sums as may be necessary to cover the cost of loan guarantees, as defined by section 502(5) of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a(5)).

SEC. 709. STUDY OF ALTERNATIVE MEANS OF CONSTRUCTION.

(a) REQUIREMENT OF STUDY.—If no application for the issuance of a certificate of public convenience and necessity authorizing the construction and operation of an Alaska natural gas transportation project has been filed with the Commission within 6 months after the date of enactment of this title, the Secretary of Energy shall conduct a study of alternative approaches to the construction and operation of the project.

(b) SCOPE OF STUDY.—The study shall consider the feasibility of establishing a government corporation to construct an Alaska natural gas transportation project, and alternative means of providing federal financing and ownership (including alternative combinations of government and private corporate ownership) of the project.

(c) CONSULTATION.—In conducting the study, the Secretary of Energy shall consult with the Secretary of the Treasury and the Secretary of the Army (acting through the Commanding General of the Corps of Engineers).

(d) REPORT.—If the Secretary of Energy is required to conduct a study under subsection (a), he shall submit a report containing the results of the study, his recommendations, and any proposals for legislation to implement his recommendations to the Congress within 6 months after the expiration of the Secretary of Energy's authority to guarantee a loan under section 708.

SEC. 710. SAVINGS CLAUSE.

Nothing in this subtitle affects any decision, certificate, permit, right-of-way, lease, or other authorization issued under section 9 of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719g).

SEC. 711. CLARIFICATION OF AUTHORITY TO AMEND TERMS AND CONDITIONS TO MEET CURRENT PROJECT REQUIREMENTS.

Any Federal officer or agency responsible for granting or issuing any certificate, permit, right-of-way, lease, or other authorization under section 9 of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719g) may add to, amend, or abrogate any term or condition included in such certificate, permit, right-of-way, lease, or other authorization to meet current project requirements (including the physical design, facilities, and tariff specifications), so long as such action does not compel a change in the basic nature and general route of the Alaska Natural Gas Transportation System as designated and described in section 2 of the President's Decision, or would otherwise prevent or impair in any significant respect the expeditious construction and initial operation of such transportation system.

SEC. 712. DEFINITIONS.

For purposes of this subtitle:

(1) The term "Alaska natural gas" has the meaning given such term by section 4(1) of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719b(1)).

(2) The term "Alaska natural gas transportation project" means any other natural gas pipeline system that carries Alaska natural gas from the North Slope of Alaska to the border between Alaska and Canada (including related facilities subject to the jurisdiction of the Commission) that is authorized under either—

(A) the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719–719o); or

(B) section 704 of this subtitle.

(3) The term "Alaska Natural Gas Transportation System" means the Alaska natural gas transportation project authorized under the Alaska Natural Gas Transportation Act of 1976 and designated and described in section 2 of the President's Decision.

(4) The term "Commission" means the Federal Energy Regulatory Commission.

(5) The term "natural gas company" means a person engaged in the transportation of natural gas in interstate commerce or the sale in interstate commerce of such gas for resale; and

(6) The term "President's Decision" means the Decision and Report to Congress on the Alaska Natural Gas Transportation system issued by the President on September 22, 1977 pursuant to section 7 of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719c) and approved by Public Law 95–158.

SEC. 713. SENSE OF THE SENATE.

It is the sense of the Senate that an Alaska natural gas transportation project will provide significant economic benefits to the United States and Canada. In order to maximize those benefits, the Senate urges the sponsors of the pipeline project to make every effort to use steel that is manufactured or produced in North America and to negotiate a project labor agreement to expedite construction of the pipeline.

Subtitle B—Operating Pipelines

SEC. 721. APPLICATION OF HISTORIC PRESERVATION ACT TO OPERATING PIPELINES.

Section 7 of the Natural Gas Act (15 U.S.C. 717(f)) is amended by adding at the end the following:

"(l)(1) Notwithstanding the National Historic Preservation Act (16 U.S.C. 470 et seq.), a transportation facility shall not be eligible for inclusion on the National Register of Historic Places unless—

"(A) the Commission has permitted the abandonment of the transportation facility pursuant to subsection (b), or

"(B) the owner of the facility has given written consent to such eligibility.

"(2) Any transportation facility considered eligible for inclusion on the National Register of Historic Places prior to the date of enactment of this subsection shall no longer be eligible unless the owner of the facility gives written consent to such eligibility.".

SEC. 722. ENVIRONMENTAL REVIEW AND PERMITTING OF NATURAL GAS PIPELINE PROJECTS.

(a) INTERAGENCY REVIEW.—The Chairman of the Council on Environmental Quality, in coordination with the Federal Energy Regulatory Commission, shall establish an interagency task force to develop an interagency memorandum of understanding to expedite the environmental review and permitting of natural gas pipeline projects.

(b) MEMBERSHIP OF INTERAGENCY TASK FORCE.—The task force shall consist of—

(1) the Chairman of the Council on Environmental Quality, who shall serve as the Chairman of the interagency task force,

(2) the Chairman of the Federal Energy Regulatory Commission,

(3) the Director of the Bureau of Land Management,

(4) the Director of the U.S. Fish and Wildlife Service,

(5) the Commanding General, U.S. Army Corps of Engineers,

(6) the Chief of the Forest Service,

(7) the Administrator of the Environmental Protection Agency,

(8) the Chairman of the Advisory Council on Historic Preservation, and

(9) the heads of such other agencies as the Chairman of the Council on Environmental Quality and the Chairman of the Federal Energy Regulatory Commission deem appropriate.

(c) MEMORANDUM OF UNDERSTANDING.—The agencies represented by the members of the interagency task force shall enter into the memorandum of understanding not later than one year after the date of the enactment of this section.

DIVISION C—DIVERSIFYING ENERGY DEMAND AND IMPROVING EFFICIENCY

TITLE VIII—FUELS AND VEHICLES

Subtitle A—CAFE Standards and Related Matters

SEC. 801. AVERAGE FUEL ECONOMY STANDARDS FOR PASSENGER AUTOMOBILES AND LIGHT TRUCKS.

(a) INCREASED STANDARDS.—Section 32902 of title 49, United States Code, is amended—

(1) by striking "NON-PASSENGER AUTOMOBILES.—" in subsection (a) and inserting "PRESCRIPTION OF STANDARDS BY REGULATION.—"; and

(2) by striking "(except passenger automobiles)" in subsection (a) and inserting "(except passenger automobiles and light trucks)";

(3) by striking subsection (b) and inserting the following:

"(b) STANDARDS FOR PASSENGER AUTOMOBILES AND LIGHT TRUCKS.—

"(1) IN GENERAL.—The Secretary of Transportation, after consultation with the Administrator of the Environmental Protection Agency, shall prescribe average fuel economy standards for passenger automobiles and light trucks manufactured by a manufacturer in each model year beginning with model year 2005 in order to achieve a combined average fuel economy standard for passenger automobiles and light trucks for model year 2013 of at least 35 miles per gallon.

"(2) ANNUAL PROGRESS TOWARD STANDARD REQUIRED.—In prescribing average fuel economy standards under paragraph (1), the Secretary shall prescribe appropriate annual fuel economy standard increases for passenger automobiles and light trucks that—

"(A) increase the applicable average fuel economy standard ratably over the 9 model-year period beginning with model year 2005 and ending with model year 2013;

"(B) require that each manufacturer achieve—

"(i) a fuel economy standard for passenger automobiles manufactured by that manufacturer of at least 33.2 miles per gallon no later than model year 2010; and

"(ii) a fuel economy standard for light trucks manufactured by that manufacturer of at least 26.3 miles per gallon no later than model year 2010; and

"(C) for any model year within that 9 model-year period does not result in an average fuel economy standard lower than—

"(i) 27.5 miles per gallon for passenger automobiles; or

"(ii) 20.7 miles per gallon for light duty trucks.

"(3) DEADLINE FOR REGULATIONS.—The Secretary shall promulgate the regulations required by paragraphs (1) and (2) in final form no later than 18 months after the date of enactment of the Energy Policy Act of 2002.

"(4) DEFAULT STANDARDS.—If the Secretary fails to meet the requirement of paragraph (3), the average fuel economy standard for passenger automobiles and light trucks manufactured by a manufacturer in each model year beginning with model year 2005 is the average fuel economy standard set forth in the following tables:

"For model year –	The average fuel economy standard for passenger automobiles is:
"2005 —	28 miles per gallon
"2006 —	28.5 miles per gallon
"2007 —	30 miles per gallon
"2008 —	31 miles per gallon
"2009 —	32.5 miles per gallon
"2010 —	34 miles per gallon
"2011 —	35 miles per gallon
"2012 —	36.5 miles per gallon
"2013 and thereafter –	38.3 miles per gallon

"For model year –	The average fuel economy standard for light trucks is:
"2005 —	21.5 miles per gallon
"2006 —	22.5 miles per gallon
"2007 —	23.5 miles per gallon
"2008 —	24.5 miles per gallon
"2009 —	26 miles per gallon
"2010 —	27.5 miles per gallon
"2011 —	29.5 miles per gallon
"2012 —	31 miles per gallon
"2013 and thereafter –	32 miles per gallon

"(5) COMBINED STANDARD FOR MODEL YEARS AFTER MODEL YEAR 2010.—Unless the default standards under paragraph (4) are in effect, for model years after model year 2010, the Secretary may by rulemaking establish—

"(A) separate average fuel economy standards for passenger automobiles and light trucks manufactured by a manufacturer; or

"(B) a combined average fuel economy standard for passenger automobiles and light trucks manufactured by a manufacturer.";

(4) by striking "the standard" in subsection (c)(1) and inserting "a standard";

(5) by striking the first and last sentences of subsection (c)(2); and

(6) by striking "(and submit the amendment to Congress when required under subsection (c)(2) of this section)" in subsection (g).

(b) DEFINITION OF LIGHT TRUCKS.—

(1) IN GENERAL.—Section 32901(a) of title 49, United States Code, is amended by adding at the end the following:

"(17) 'light truck' means an automobile that the Secretary decides by regulation—

"(A) is manufactured primarily for transporting not more than 10 individuals;

"(B) is rated at not more than 10,000 pounds gross vehicle weight;

"(C) is not a passenger automobile; and

"(D) does not fall within the exceptions from the definition of 'medium duty passenger vehicle' under section 86.1803-01 of title 40, Code of Federal Regulations.".

"(2) DEADLINE FOR REGULATIONS.—The Secretary of Transportation—

(A) shall issue proposed regulations implementing the amendment made by paragraph (1) not later than 1 year after the date of the enactment of this Act; and

(B) shall issue final regulations implementing the amendment not later than 18 months after the date of the enactment of this Act.

(3) EFFECTIVE DATE.—Regulations prescribed under paragraph (1) shall apply beginning with model year 2007.

(c) APPLICABILITY OF EXISTING STANDARDS.—This section does not affect the application of section 32902 of title 49, United States Code, to passenger automobiles or non-passenger automobiles manufactured before model year 2005.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Transportation to carry out the provisions of chapter 329 of title 49, United States Code, $25,000,000 for each of fiscal years 2003 through 2015.

SEC. 802. FUEL ECONOMY TRUTH IN TESTING.

(a) IN GENERAL.—Section 32907 of title 49, United States Code, is amended by adding at the end the following:

"(c) IMPROVED TESTING PROCEDURES.—

"(1) IN GENERAL.—The Administrator of the Environmental Protection Agency shall conduct—

"(A) an ongoing examination of the accuracy of fuel economy testing of passenger automobiles and light trucks by the Administrator performed in accordance with the procedures in effect as of the date of enactment of the Energy Policy Act of 2002 for the purpose of determining whether, and to what extent, the fuel economy of passenger automobiles and light trucks as tested by the Administrator differs from the fuel economy reasonably to be expected from those automobiles and trucks when driven by average drivers under average driving conditions; and

"(B) an assessment of the extent to which fuel economy changes during the life of passenger automobiles and light trucks.".

"(2) REPORT.—The Administrator of the Environmental Protection Agency shall, within 12 months after the date of enactment of the Energy Policy Act of 2002 and annually thereafter, submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Commerce of the House of Representatives a report on the results of the study required by paragraph (1). The report shall include—

"(A) a comparison between—

"(i) fuel economy measured, for each model in the applicable model year, through testing procedures in effect as of the date of enactment of the Energy Policy Act of 2002; and

"(ii) fuel economy of such passenger automobiles and light trucks during actual on-road performance, as determined under that paragraph;

"(B) a statement of the percentage difference, if any, between actual on-road fuel economy and fuel economy measured by test procedures of the Environmental Protection Administration; and

"(C) a plan to reduce, by model year 2015, the percentage difference identified under subparagraph (B) by using uniform test methods that reflect actual on-the-road fuel economy consumers experience under normal driving conditions to no greater than 5 percent.".

SEC. 803. ENSURING SAFETY OF PASSENGER AUTOMOBILES AND LIGHT TRUCKS.

(a) IN GENERAL.—The Secretary of Transportation shall exercise such authority under Federal law as the Secretary may have to ensure that—

(1) passenger automobiles and light trucks (as those terms are defined in section 32901 of title 49, United States Code) are safe;

(2) progress is made in improving the overall safety of passenger automobiles and light trucks; and

(3) progress is made in maximizing United States employment.

(b) IMPROVED CRASHWORTHINESS.—Subchapter II of chapter 301 of title 49, United States Code, is amended by adding at the end the following:

"§ 30128. Improved crashworthiness

"(a) ROLLOVERS.—Within 3 years after the date of enactment of the Energy Policy Act of 2002, the Secretary of Transportation, through the National Highway Traffic Safety Administration, shall prescribe a motor vehicle safety standard under this chapter for rollover crashworthiness standards that includes—

"(1) dynamic roof crush standards;

"(2) improved seat structure and safety belt design;

"(3) side impact head protection airbags; and

"(4) roof injury protection measures.

"(b) HEAVY VEHICLE HARM REDUCTION COMPATIBILITY STANDARD.—

"(1) Within 3 years after the date of enactment of the Energy Policy Act of 2002, the Secretary, through the National Highway Traffic Safety Administration, shall prescribe a federal motor vehicle safety standard under this chapter that will reduce the aggressivity of light trucks by 30 percent, using a baseline of model year 2002, and will improve vehicle compatibility in collisions between light trucks and cars, in order to protect against unnecessary death and injury.

"(2) The Secretary should review the effectiveness of this standard every five years following final issuance of the standard and shall issue, through the National Highway Traffic Safety Administration, upgrades to the standard to reduce fatalities and injuries related to vehicle compatibility and light truck aggressivity.".

(c) CONFORMING AMENDMENT.—The chapter analysis for chapter 301 of title 49, United States Code, is amended by inserting after the item relating to section 30127 the following: "30128. Improved crashworthiness".

SEC. 804. HIGH OCCUPANCY VEHICLE EXCEPTION.

(a) IN GENERAL.—Notwithstanding section 102(a)(1) of title 23, United States Code, a State may, for the purpose of promoting energy conservation, permit a vehicle with fewer than 2 occupants to operate in high occupancy vehicle lanes if it is a hybrid vehicle or is certified by the Secretary of Transportation, after consultation with the Administrator of the Environmental Protection Agency, to be a vehicle that runs only on an alternative fuel.

(b) HYBRID VEHICLE DEFINED.—In this section, the term "hybrid vehicle" means a motor vehicle—

(1) which—

(A) draws propulsion energy from onboard sources of stored energy which are both—

(i) an internal combustion or heat engine using combustible fuel; and

(ii) a rechargeable energy storage system; or

(B) recovers kinetic energy through regenerative braking and provides at least 13 percent maximum power from the electrical storage device;

(2) which, in the case of a passenger automobile or light truck—

(A) for 2002 and later model vehicles, has received a certificate of conformity under section 206 of the Clean Air Act (42 U.S.C. 7525) and meets or exceeds the equivalent qualifying California low emission vehicle standard under section 243(e)(2) of the Clean Air Act (42 U.S.C. 7583(e)(2)) for that make and model year; and

(B) for 2004 and later model vehicles, has received a certificate that such vehicle meets the Tier II emission level established in regulations prescribed by the Administrator of the Environmental Protection Agency under section 202(i) of the Clean Air Act (42 U.S.C. 7521(i)) for that make and model year vehicle; and

(3) which is made by a manufacturer.

(c) ALTERNATIVE FUEL DEFINED.—In this section, the term "alternative fuel" has the meaning such term has under section 301(2) of the Energy Policy Act of 1992 (42 U.S.C. 13211(2)).

SEC. 805. CREDIT TRADING PROGRAM.

(a) IN GENERAL.—Section 32903 of title 49, United States Code, is amended by adding at the end the following:

"(g) VEHICLE CREDIT TRADING SYSTEM.—

"(1) IN GENERAL.—The Secretary of Transportation, with technical assistance from the Administrator of the Environmental Protection Agency, may establish a system under which manufacturers with credits under this section may sell those credits to other manufacturers or transfer them among a manufacturer's fleets.

"(2) PURPOSES.—The purposes of the system are:

"(A) Reducing the adverse effects of inefficient consumption of fuel by passenger automobiles and light trucks.

"(B) Accelerating introduction of advanced technology vehicles into use in the United States.

"(C) Encouraging manufacturers to exceed the average fuel economy standards established by section 32902.

"(D) Reducing emissions of carbon dioxide by passenger automobiles and light trucks.

"(E) Decreasing the United States' consumption of oil as vehicular fuel.

"(F) Providing manufacturers flexibility in meeting the average fuel economy standards established by section 32902.

"(G) Increasing consumer choice.

"(3) PROGRAM REQUIREMENTS.—The system established under paragraph (1) shall—

"(A) make only credits accrued after the date of enactment of the Energy Policy Act of 2002 eligible for transfer or sale;

"(B) use techniques and methods that minimize reporting costs for manufacturers;

"(C) provide for monitoring and verification of credit purchases;

"(D) require participating manufacturers to report monthly sales of vehicles to the Administrator of the Environmental Protection Agency; and

"(E) make manufacturer-specific credit, transfer, sale, and purchase information publicly available through annual reports and monthly posting of transactions on the Internet.

"(4) CREDITS MAY BE TRADED BETWEEN PASSENGER AUTOMOBILES AND LIGHT TRUCKS AND BETWEEN DOMESTIC AND IMPORT FLEETS.—The system shall provide that credits earned under this section—

"(A) with respect to passenger automobiles may be applied with respect to light trucks;

"(B) with respect to light trucks may be applied with respect to passenger automobiles;

"(C) with respect to passenger automobiles manufactured domestically may be applied with respect to passenger automobiles not manufactured domestically; and

"(D) with respect to passenger automobiles not manufactured domestically may be applied with respect to passenger automobiles manufactured domestically.

"(5) REPORT.—The Secretary and the Administrator shall jointly submit an annual report to the Congress—

"(A) describing the effectiveness of the credits provided by this subsection achieving the purposes described in paragraph (2); and

"(B) setting forth a full accounting of all credits, transfers, sales, and purchases for the most recent model year for which data is available.".

(b) NO CARRYBACK OF CREDITS.—Section 32903(a) of title 49, United States Code, is amended—

(1) by striking "applied to—" and inserting "applied—";

(2) by inserting "for model years before model year 2006, to" in paragraph (1) before "any";

(3) by striking "and" after the semicolon in paragraph (1);

(4) by striking "earned." in paragraph (2) and inserting "earned; and"; and

(5) by adding at the end the following:

"(3) for model years after 2001, in accordance with the vehicle credit trading system established under subsection (g), to any of the 3 consecutive model years immediately after the model year for which the credit was earned.".

(c) USE OF CREDIT VALUE TO CALCULATE CIVIL PENALTY.—Section 32912(b) of title 49, United States Code, is amended—

(1) by inserting "and is unable to purchase sufficient credits under section 32903(g) to comply with the standard" after "title" the first place it appears; and

(2) by striking all after "penalty" and inserting "of the greater of—

"(1) an amount determined by multiplying—

"(A) the number of credits necessary to enable the manufacturer to meet that standard; by

"(B) 1.5 times the previous year's weighted average open market price of a credit under section 32903(g); or

"(2) $5 multiplied by each 0.1 of a mile a gallon by which the applicable average fuel economy standard under section 32902 exceeds the average fuel economy—

"(A) calculated under section 32904(a)(1)(A) or (B) for automobiles to which the standard applied manufactured by the manufacturer during the model year;

"(B) multiplied by the number of those automobiles; and

"(C) reduced by the credits available to the manufacturer under section 32903 for the model year.".

(d) CONFORMING AMENDMENTS.—Section 32903 of title 49, United States Code, is amended—

(1) by inserting "or light trucks" after "passenger automobiles" each place it appears in subsection (c);

(2) by inserting after "manufacturer." in subsection (d) "Credits earned with respect to passenger automobiles may be used with respect to nonpassenger automobiles and light duty trucks."; and

(3) by inserting after "manufacturer." in subsection (e) "Credits earned with respect to non-passenger automobiles or light trucks may be used with respect to passenger automobiles.".

SEC. 806. GREEN LABELS FOR FUEL ECONOMY.

Section 32908 of title 49, United States Code, is amended—

(1) by striking "title." in subsection (a)(1) and inserting "title, and a light truck (as defined in section 32901(17) after model year 2005; and";

(2) by redesignating subparagraph (F) of subsection (b)(1) as subparagraph (H), and inserting after subparagraph (E) the following:

"(F) a label (or a logo imprinted on a label required by this paragraph) that—

"(i) reflects an automobile's performance on the basis of criteria developed by the Administrator to reflect the fuel economy and greenhouse gas and other emissions consequences of operating the automobile over its likely useful life;

"(ii) permits consumers to compare performance results under clause (i) among all passenger automobiles and light duty trucks (as defined in section 32901) and with vehicles in the vehicle class to which it belongs; and

"(iii) is designed to encourage the manufacture and sale of passenger automobiles and light trucks that meet or exceed applicable fuel economy standards under section 32902; and

"(G) a fuelstar under paragraph (5)."; and

(3) by adding at the end of subsection (b) the following:

"(4) GREEN LABEL PROGRAM.—

"(A) MARKETING ANALYSIS.—Within 2 years after the date of enactment of the Energy Policy Act of 2002, the Administrator shall complete a study of social marketing strategies with the goal of maximizing consumer understanding of point-of-sale labels or logos described in paragraph (1)(F).

"(B) CRITERIA.—In developing criteria for the label or logo, the Administrator shall also consider, among others as appropriate, the following factors:

"(i) The amount of greenhouse gases that will be emitted over the life-cycle of the automobile.

"(ii) The fuel economy of the automobile.

"(iii) The recyclability of the automobile.

"(iv) Any other pollutants or harmful byproducts related to the automobile, which may include those generated during manufacture of the automobile, those issued during use of the automobile, or those generated after the automobile ceases to be operated.

"(5) FUELSTAR PROGRAM.—The Secretary, in consultation with the Administrator, shall establish a program, to be known as the 'fuelstar' program, under which stars shall be imprinted on or attached to the label required by paragraph (1) that will, consistent with the findings of the marketing analysis required under subsection 4(A), provide consumer incentives to purchase vehicles that exceed the applicable fuel economy standard.

SEC. 807. LIGHT TRUCK CHALLENGE.

(a) IN GENERAL.—The Secretary of Transportation shall conduct an open competition for a project to demonstrate the feasibility of multiple fuel hybrid electric vehicle powertrains in sport utility vehicles and light trucks. The Secretary shall execute a contract with the entity determined by the Secretary to be the winner of the competition under which the Secretary will provide $10,000,000 to that entity in each of fiscal years 2003 and 2004 to carry out the project.

(b) PROJECT REQUIREMENTS.—Under the contract, the Secretary shall require the entity to which the contract is awarded to—

(1) select a current model year production vehicle;

(2) modify that vehicle so that it—

(A) meets all existing vehicle performance characteristics of the sport utility vehicle or light truck selected for the project;

(B) improves the vehicle's fuel economy rating by 50 percent or more (as measured by gasoline consumption); and

(3) meet the requirements of paragraph (2) in such a way that incorporation of the modification in the manufacturer's production process would not increase the vehicle's incremental production costs by more than 10 percent.

(c) ELIGIBLE ENTRANTS.—The competition conducted by the Secretary shall be open to any entity, or consortium of nongovernmental entities, educational institutions, and not-for-profit organizations, that—

(1) has the technical capability and resources needed to complete the project successfully; and

(2) has sufficient financial resources in addition to the contract amount, if necessary, to complete the contract successfully.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Transportation $10,000,000 for each of fiscal years 2003 and 2004 to carry out this section.

SEC. 808. SECRETARY OF TRANSPORTATION TO CERTIFY BENEFITS.

Beginning with model year 2005, the Secretary of Transportation, in consultation with the Administrator of the Environmental Protection Agency, shall determine and certify annually to the Congress—

(1) the annual reduction in United States consumption of petroleum used for vehicle fuel, and

(2) the annual reduction in greenhouse gas emissions, properly attributable to the implementation of the average fuel economy standards imposed under section 32902 of title 49, United States Code, as a result of the amendments made by this Act.

SEC. 809. DEPARTMENT OF TRANSPORTATION ENGINEERING AWARD PROGRAM.

(a) ENGINEERING TEAM AWARDS.—The Secretary of Transportation shall establish an engineering award program to recognize the engineering team of any manufacturer of passenger automobiles or light trucks (as such terms are defined in section 32901 of title 49, United States Code) whose work directly results in production models of—

(1) the first large sport utility vehicle, van, or light truck to achieve a fuel economy rating of 30 miles per gallon under section 32902 of such title;

(2) the first mid-sized sport utility vehicle, van, or light truck to achieve a fuel economy rating of 35 miles per gallon under section 32902 of such title; and

(3) the first small sport utility vehicle, van, or light truck to achieve a fuel economy rating of 40 miles per gallon under section 32902 of such title.

(b) MANUFACTURER'S AWARD.—The Secretary of Transportation shall establish an Oil Independence Award to recognize the first manufacturer of domestically-manufactured (within the meaning of section 32903 of title 49, United States Code) passenger automobiles and light trucks to achieve a combined fuel economy rating of 37 miles per gallon under section 32902 of such title.

(c) REQUIREMENTS FOR PARTICIPATION IN ENGINEERING TEAM AWARDS PROGRAM.—In establishing the engineering team awards program under subsection (a), the Secretary shall establish eligibility requirements that include—

(1) a requirement that the vehicle, van, or truck be domestically-manufactured or manufacturable (if a prototype) within the meaning of section 32903 of title 49, United States Code;

(2) a requirement that the vehicle, van, or truck meet all applicable Federal standards for emissions and safety (except that crash testing shall not be required for a prototype); and

(3) such additional requirements as the Secretary may require in order to carry out the program.

(d) AMOUNT OF PRIZE.—The Secretary shall award a prize of not less than $10,000 to each engineering team determined by the Secretary to have successfully met the requirements of subsection (a)(1), (2), or (3). The Secretary shall provide for recognition of any manufacturer to have met the requirements of subsection (b) with appropriate ceremonies and activities, and may provide a monetary award in an amount determined by the Secretary to be appropriate.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Transportation such sums as may be necessary to carry out this section.

SEC. 810. COOPERATIVE TECHNOLOGY AGREEMENTS.

(a) IN GENERAL.—The Secretary of Transportation, in cooperation with the Administrator of the Environmental Protection Agency, may execute a cooperative research and development agreement with any manufacturer of passenger automobiles or light trucks (as those terms are defined in section 32901 of title 49, United States Code) to implement, utilize, and incorporate in production government-developed or jointly-developed fuel economy technology that will result in improvements in the average fuel economy of any class of vehicles produced by that manufacturer of at least 55 percent greater than the average fuel economy of that class of vehicles for model year 2000.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Transportation and the Administrator of the Environmental Protection Agency such sums as may be necessary to carry out this section.

Subtitle B—Alternative and Renewable Fuels

SEC. 811. INCREASED USE OF ALTERNATIVE FUELS BY FEDERAL FLEETS.

(a) REQUIREMENT TO USE ALTERNATIVE FUELS.—Section 400AA(a)(3)(E) of the Energy Policy and Conservation Act (42 U.S.C. 6374(a)(3)(E)) is amended to read as follows:

"(E) Dual fueled vehicles acquired pursuant to this section shall be operated on alternative fuels. If the Secretary determines that all dual fueled vehicles acquired pursuant to this section cannot operate on alternative fuels at all times, he may waive the requirement in part, but only to the extent that:

"(i) not later than September 30, 2003, not less than 50 percent of the total annual volume of fuel used in such dual fueled vehicles shall be from alternative fuels; and

"(ii) not later than September 30, 2005, not less than 75 percent of the total annual volume of fuel used in such dual fueled vehicles shall be from alternative fuels.".

(b) DEFINITION OF "DEDICATED VEHICLE".—Section 400AA(g)(4)(B) of the Energy Policy and Conservation Act (42 U.S.C. 6374(g)(4)(B)) is amended by inserting after "solely on alternative fuel" the following: ", including a three-wheeled enclosed electric vehicle having a vehicle identification number".

SEC. 812. EXCEPTION TO HOV PASSENGER REQUIREMENTS FOR ALTERNATIVE FUEL VEHICLES.

Section 102(a)(1) of title 23, United States Code, is amended by inserting after "required" the following: "(unless, in the discretion of the State transportation department, the vehicle is being operated on, or is being fueled by, an alternative fuel (as defined in section 301(2) of the Energy Policy Act of 1992 (42 U.S.C. 13211(2)))".

SEC. 813. DATA COLLECTION.

Section 205 of the Department of Energy Organization Act (42 U.S.C. 7135) is amended by adding at the end the following:

"(m) In order to improve the ability to evaluate the effectiveness of the Nation's renewable fuels mandate, the Administrator shall conduct and publish the results of a survey of renewable fuels consumption in the motor vehicle fuels market in the United States monthly, and in a manner designed to protect the confidentiality of individual responses. In conducting the survey, the Administrator shall collect information both on a national basis and a regional basis, including—

(1) the quantity of renewable fuels produced;

(2) the cost of production;

(3) the cost of blending and marketing;

(4) the quantity of renewable fuels consumed;

(5) the quantity of renewable fuels imported; and

(6) market price data.

SEC. 814. GREEN SCHOOL BUS PILOT PROGRAM.

(a) ESTABLISHMENT.—The Secretary of Energy and the Secretary of Transportation shall jointly establish a pilot program for awarding grants on a competitive basis to eligible entities for the demonstration and commercial application of alternative fuel school buses and ultra-low sulfur diesel school buses.

(b) REQUIREMENTS.—Not later than 3 months after the date of the enactment of this Act, the Secretary shall establish and publish in the Federal Register grant requirements on eligibility for assistance, and on implementation of the program established under subsection (a), including certification requirements to ensure compliance with this subtitle.

(c) SOLICITATION.—Not later than 6 months after the date of the enactment of this Act, the Secretary shall solicit proposals for grants under this section.

(d) ELIGIBLE RECIPIENTS.—A grant shall be awarded under this section only—

(1) to a local governmental entity responsible for providing school bus service for one or more public school systems; or

(2) jointly to an entity described in paragraph (1) and a contracting entity that provides school bus service to the public school system or systems.

(e) Types of Grants.—

(1) In general.—Grants under this section shall be for the demonstration and commercial application of technologies to facilitate the use of alternative fuel school buses and ultra-low sulfur diesel school buses instead of buses manufactured before model year 1977 and diesel-powered buses manufactured before model year 1991.

(2) No economic benefit.—Other than the receipt of the grant, a recipient of a grant under this section may not receive any economic benefit in connection with the receipt of the grant.

(3) Priority of grant applications.—The Secretary shall give priority to awarding grants to applicants who can demonstrate the use of alternative fuel buses and ultra-low sulfur diesel school buses instead of buses manufactured before model year 1977.

(f) Conditions of Grant.—A grant provided under this section shall include the following conditions:

(1) All buses acquired with funds provided under the grant shall be operated as part of the school bus fleet for which the grant was made for a minimum of 5 years.

(2) Funds provided under the grant may only be used—

(A) to pay the cost, except as provided in paragraph (3), of new alternative fuel school buses or ultra-low sulfur diesel school buses, including State taxes and contract fees; and

(B) to provide—

(i) up to 10 percent of the price of the alternative fuel buses acquired, for necessary alternative fuel infrastructure if the infrastructure will only be available to the grant recipient; and

(ii) up to 15 percent of the price of the alternative fuel buses acquired, for necessary alternative fuel infrastructure if the infrastructure will be available to the grant recipient and to other bus fleets.

(3) The grant recipient shall be required to provide at least the lesser of 15 percent of the total cost of each bus received or $15,000 per bus.

(4) In the case of a grant recipient receiving a grant to demonstrate ultra-low sulfur diesel school buses, the grant recipient shall be required to provide documentation to the satisfaction of the Secretary that diesel fuel containing sulfur at not more than 15 parts per million is available for carrying out the purposes of the grant, and a commitment by the applicant to use such fuel in carrying out the purposes of the grant.

(g) Buses.—Funding under a grant made under this section may only be used to demonstrate the use of new alternative fuel school buses or ultra-low sulfur diesel school buses that—

(1) have a gross vehicle weight greater than 14,000 pounds;

(2) are powered by a heavy duty engine;

(3) in the case of alternative fuel school buses, emit not more than—

(A) for buses manufactured in model year 2002, 2.5 grams per brake horsepower-hour of nonmethane hydrocarbons and oxides of nitrogen and .01 grams per brake horsepower-hour of particulate matter; and

(B) for buses manufactured in model years 2003 through 2006, 1.8 grams per brake horsepower-hour of nonmethane hydrocarbons and oxides of nitrogen and .01 grams per brake horsepower-hour of particulate matter; and

(4) in the case of ultra-low sulfur diesel school buses, emit not more than the lesser of—

(A) the emissions of nonmethane hydrocarbons, oxides of nitrogen, and particulate matter of the best performing technology of the same class of ultra-low sulfur diesel school buses commercially available at the time the grant is made; or

(B) the applicable following amounts—

(i) for buses manufactured in model year 2002 or 2003, 3.0 grams per brake horsepower-hour of oxides of nitrogen and .01 grams per brake horsepower-hour of particulate matter; and

(ii) for buses manufactured in model years 2004 through 2006, 2.5 grams per brake horsepower-hour of nonmethane hydrocarbons and oxides of nitrogen and .01 grams per brake horsepower-hour of particulate matter.

(h) Deployment and Distribution.—The Secretary shall seek to the maximum extent practicable to achieve nationwide deployment of alternative fuel school buses through the program under this section, and shall ensure a broad geographic distribution of grant awards, with a goal of no State receiving more than 10 percent of the grant funding made available under this section for a fiscal year.

(i) Limit on Funding.—The Secretary shall provide not less than 20 percent and not more than 25 percent of the grant funding made available under this section for any fiscal year for the acquisition of ultra-low sulfur diesel school buses.

(j) Definitions.—For purposes of this section—

(1) the term "alternative fuel school bus" means a bus powered substantially by electricity (including electricity supplied by a fuel cell), or by liquefied natural gas, compressed natural gas, liquefied petroleum gas, hydrogen, propane, or methanol or ethanol at no less than 85 percent by volume; and

(2) the term "ultra-low sulfur diesel school bus" means a school bus powered by diesel fuel which contains sulfur at not more than 15 parts per million.

SEC. 815. FUEL CELL BUS DEVELOPMENT AND DEMONSTRATION PROGRAM.

(a) Establishment of Program.—The Secretary shall establish a program for entering into cooperative agreements with private sector fuel cell bus developers for the development of fuel cell-powered school buses, and subsequently with not less than 2 units of local government using natural gas-powered school buses and such private sector fuel cell bus developers to demonstrate the use of fuel cell-powered school buses.

(b) Cost Sharing.—The non-Federal contribution for activities funded under this section shall be not less than—

(1) 20 percent for fuel infrastructure development activities; and

(2) 50 percent for demonstration activities and for development activities not described in paragraph (1).

(c) Funding.—No more than $25,000,000 of the amounts authorized under section 815 may be used for carrying out this section for the period encompassing fiscal years 2003 through 2006.

(d) Reports to Congress.—Not later than 3 years after the date of the enactment of this Act, and not later than October 1, 2006, the Secretary shall transmit to the appropriate congressional committees a report that—

(1) evaluates the process of converting natural gas infrastructure to accommodate fuel cell-powered school buses; and

(2) assesses the results of the development and demonstration program under this section.

SEC. 816. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary of Energy for carrying out sections 814 and 815, to remain available until expended—

(1) $50,000,000 for fiscal year 2003;

(2) $60,000,000 for fiscal year 2004;

(3) $70,000,000 for fiscal year 2005; and

(4) $80,000,000 for fiscal year 2006.

SEC. 817. BIODIESEL FUEL USE CREDIT.

Section 312(c) of the Energy Policy Act of 1992 (42 U.S.C. 13220(c)) is amended—

(1) by striking "NOT" in the subsection heading; and

(2) by striking "not".

SEC. 818. NEIGHBORHOOD ELECTRIC VEHICLES.

Section 301 of the Energy Policy Act of 1992 (42 U.S.C. 13211) is amended—

(1) by striking "or a dual fueled vehicle" and inserting ", a dual fueled vehicle, or a neighborhood electric vehicle";

(2) by striking "and" at the end of paragraph (13);

(3) by striking the period at the end of subparagraph (14) and inserting "; and"; and

(4) by adding at the end the following:

"(15) the term 'neighborhood electric vehicle' means a motor vehicle that qualifies as both—

"(A) a low-speed vehicle, as such term is defined in section 571.3(b) of title 49, Code of Federal Regulations; and

"(B) a zero-emission vehicle, as such term is defined in section 86.1703–99 of title 40, Code of Federal Regulations.".

Subtitle C—Additional Fuel Efficiency Measures

SEC. 821. FUEL EFFICIENCY OF THE FEDERAL FLEET OF AUTOMOBILES.

Section 32917 of title 49, United States Code, is amended to read as follows:

"§ 32917. Standards for executive agency automobiles

"(a) Baseline Average Fuel Economy.—The head of each executive agency shall determine, for all automobiles in the agency's fleet of automobiles that were leased or bought as a new vehicle in fiscal year 1999, the average fuel economy for such automobiles. For the purposes of this section, the average fuel economy so determined shall be the baseline average fuel economy for the agency's fleet of automobiles.

"(b) Increase of Average Fuel Economy.—The head of an executive agency shall manage the procurement of automobiles for that agency in such a manner that—

"(1) not later than September 30, 2003, the average fuel economy of the new automobiles in the agency's fleet of automobiles is not less than 1 mile per gallon higher than the baseline average fuel economy determined under subsection (a) for that fleet; and

"(2) not later than September 30, 2005, the average fuel economy of the new automobiles in the agency's fleet of automobiles is not less than 3 miles per gallon higher than the baseline average fuel economy determined under subsection (a) for that fleet.

"(c) Calculation of Average Fuel Economy.—Average fuel economy shall be calculated for the purposes of this section in accordance with guidance which the Secretary of Transportation shall prescribe for the implementation of this section.

"(d) Definitions.—In this section:

"(1) The term 'automobile' does not include any vehicle designed for combat-related missions, law enforcement work, or emergency rescue work.

"(2) The term 'executive agency' has the meaning given that term in section 105 of title 5.

"(3) The term 'new automobile', with respect to the fleet of automobiles of an executive agency, means an automobile that is leased for at least 60 consecutive days or bought, by or for the agency, after September 30, 1999.".

SEC. 822. ASSISTANCE FOR STATE PROGRAMS TO RETIRE FUEL-INEFFICIENT MOTOR VEHICLES.

(a) Establishment.—The Secretary shall establish a program, to be known as the "National Motor Vehicle Efficiency Improvement Program." Under this program, the Secretary shall provide grants to States to operate programs to offer owners of passenger automobiles and light-duty trucks manufactured in model years more than 15 years prior to the fiscal year in which appropriations are made under subsection (d) financial incentives to voluntarily—

(1) scrap such automobiles and to replace them with automobiles with higher fuel efficiency; or

(2) repair such vehicles to improve their fuel economy.

(b) State Plan.—Not later than 180 days after the date of enactment of an appropriations act containing funds authorized under subsection (d), to be eligible to receive funds under the program, the Governor of a State shall submit to the Secretary a plan to carry out a program under this subtitle in that State.

(c) Eligibility Criteria.—The Secretary shall approve a State plan and provide the funds under subsection (d), if the State plan—

(1) for voluntary vehicle scrappage programs—

(A) requires that all passenger automobiles and light-duty trucks turned in be scrapped;

(B) requires that prior to scrapping a vehicle, the state provide public notification of the intent to scrap and allow for the salvage of valuable parts from the vehicle;

(C) requires that all passenger automobiles and light-duty trucks turned in be currently registered in the State in order to be eligible;

(D) requires that all passenger automobiles and light-duty trucks turned in be operational at the time that they are turned in;

(E) restricts automobile owners (except not-for-profit organizations) from turning in more than one passenger automobile and one light-duty truck in a 12-month period;

(F) provides an appropriate payment to the person recycling the scrapped passenger automobile or light-duty truck for each turned-in passenger automobile or light-duty truck;

(G) provides a minimum payment to the automobile owner for each passenger automobile and light-duty truck turned in;

(H) provides, in addition to the payment under subparagraph (G), an additional credit that may be redeemed by the owner of the turned-in passenger automobile or light-duty truck at the time of purchase of new fuel-efficient automobile; and

(I) estimates the fuel efficiency benefits of the program, and reports the estimated results to the Secretary annually; and

(2) for voluntary vehicle repair programs—

(A) requires the vehicle owner contribute at least 20 percent of the cost of the repairs;

(B) sets a ceiling beyond which the vehicle owner is responsible for the cost of repairs;

(C) allows the vehicle owner to opt out of the program if the cost of the repairs is considered to be too great; and

(D) estimates the fuel economy benefits of the program and reports the estimated results to the Secretary annually.

(d) Authorization of Appropriations.—There are hereby authorized to be appropriated to the Secretary to carry out this section such sums as may be necessary, to remain available until expended.

(e) Allocation Formula.—The amounts appropriated pursuant to subsection (d) shall be allocated among the States on the basis of the population of the States as contained in the most recent reliable census data available from the Bureau of the Census, Department of Commerce, for all States at the time that the Secretary needs to compute shares under this subsection.

(f) Definitions.—In this section:

(1) Automobile.—The term "automobile" has the meaning given such term in section 32901(3) of title 49, United States Code.

(2) Fuel-efficient automobile.—

(A) The term "fuel-efficient automobile" means a passenger automobile or a light-duty truck that has an average fuel economy greater than the average fuel economy standard prescribed pursuant to section 32902 of title 49, United States Code, or other law, applicable to such passenger automobile or light-duty truck.

(B) The term "average fuel economy" has the meaning given such term in section 32901(5) of title 49, United States Code.

(C) The term "average fuel economy standard" has the meaning given such term in section 32901(6) of title 49, United States Code.

(D) The term "fuel economy" has the meaning given such term in section 32901(10) of title 49, United States Code.

(3) Light-duty truck.—The term "light-duty truck" means an automobile that is not a passenger automobile. Such term shall include a pickup truck, a van, or a four-wheel-drive general utility vehicle, as those terms are defined in section 600.002–85 of title 40, Code of Federal Regulations.

(4) Passenger automobile.—The term "passenger automobile" has the meaning given such term by section 32901(16) of title 49, United States Code.

(5) Secretary.—The term "Secretary" means the Secretary of Energy.

(6) State.—The term "State" means any of the several States and the District of Columbia.

SEC. 823. IDLING REDUCTION SYSTEMS IN HEAVY DUTY VEHICLES.

Title III of the Energy Policy and Conservation Act (42 U.S.C. 6291 et seq.) is amended by adding at the end the following:

"PART K—REDUCING TRUCK IDLING

"SEC. 400AAA. REDUCING TRUCK IDLING.

"(a) Study.—Not later than 18 months after the date of enactment of this section, the Secretary shall, in consultation with the Secretary of Transportation, commence a study to analyze the potential fuel savings resulting from long duration idling of main drive engines in heavy-duty vehicles.

"(b) Regulations.—Upon completion of the study under subsection (a), the Secretary may issue regulations requiring the installation of idling reduction systems on all newly manufactured heavy duty vehicles.

"(c) Definitions.—As used in this section:

"(1) The term 'heavy-duty vehicle' means a vehicle that has a gross vehicle weight rating greater than 8,500 pounds and is powered by a diesel engine.

"(2) The term 'idling reduction system' means a device or system of devices used to reduce long duration idling of a diesel engine in a vehicle.

"(3) The term 'long duration idling' means the operation of a main drive engine of a heavy-duty vehicle for a period of more than 15 consecutive minutes when the main drive engine is not engaged in gear, except that such term does not include idling as a result of traffic congestion or other impediments to the movement of a heavy-duty vehicle.

"(4) The term 'vehicle' has the meaning given such term in section 4 of title 1, United States Code.".

TITLE IX—ENERGY EFFICIENCY AND ASSISTANCE TO LOW INCOME CONSUMERS

Subtitle A—Low Income Assistance and State Energy Programs

SEC. 901. INCREASED FUNDING FOR LIHEAP, WEATHERIZATION ASSISTANCE, AND STATE ENERGY GRANTS.

"(a) LIHEAP.—(1) Section 2602(b) of the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621(b)) is amended by striking the first sentence and inserting the following: "There are authorized to be appropriated to carry out the provisions of this title (other than section 2607A), $3,400,000,000 for each of fiscal years 2003 through 2005.".

(2) Section 2602(e) of the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621(e)) is amended by striking "$600,000,000" and inserting "$1,000,000,000".

(3) Section 2609A(a) of the Low-Income Energy Assistance Act of 1981 (42 U.S.C. 8628a(a)) is amended by striking "not more than $300,000" and inserting: "not more than $750,000".

(b) Weatherization Assistance.—Section 422 of the Energy Conservation and Production Act (42 U.S.C. 6872) is amended by striking "for fiscal years 1999 through 2003 such sums as may be necessary." and inserting: "$325,000,000 for fiscal year 2003, $400,000,000 for fiscal year 2004, and $500,000,000 for fiscal year 2005.".

SEC. 902. STATE ENERGY PROGRAMS.

(a) State Energy Conservation Plans.—Section 362 of the Energy Policy and Conservation Act (42 U.S.C. 6322)) is amended by adding at the end the following:

"(g) The Secretary shall, at least once every three years, invite the Governor of each State to review and, if necessary, revise the energy conservation plan of the State submitted under subsection (b) or (e). Such reviews should consider the energy conservation plans of other States within the region, and identify opportunities and actions that may be carried out in pursuit of common energy conservation goals.".

(b) State Energy Conservation Goals.—Section 364 of the Energy Policy and Conservation Act (42 U.S.C. 6324) is amended to read as follows:

"Sec. 364. Each State energy conservation plan with respect to which assistance is made available under this part on or after the date of enactment of the Energy Policy Act of 2002 shall contain a goal, consisting of an improvement of 25 percent or more in the efficiency of use of energy in the State concerned in calendar year 2010 as compared to calendar year 1990, and may contain interim goals.".

(c) State Energy Conservation Grants.—Section 365(f) of the Energy Policy and Conservation Act (42 U.S.C. 6325(f)) is amended by striking "for fiscal years 1999 through 2003 such sums as may be necessary." and inserting: "$100,000,000 for each of fiscal years 2003 and 2004; $125,000,000 for fiscal year 2005; and such sums as may be necessary for each fiscal year thereafter.".

SEC. 903. ENERGY EFFICIENT SCHOOLS.

(a) Establishment.—There is established in the Department of Energy the High Performance Schools Program (in this section referred to as the "Program").

(b) Grants.—The Secretary of Energy may make grants to a State energy office—

(1) to assist school districts in the State to improve the energy efficiency of school buildings;

(2) to administer the Program; and

(3) to promote participation in the Program.

(c) Grants To Assist School Districts.—The Secretary shall condition grants under subsection (b)(1) on the State energy office using the grants to assist school districts that have demonstrated—

(1) a need for the grants to build additional school buildings to meet increasing elementary or secondary enrollments or to renovate existing school buildings; and

(2) a commitment to use the grant funds to develop high performance school buildings in accordance with a plan that the State energy office, in consultation with the State educational agency, has determined is feasible and appropriate to achieve the purposes for which the grant is made.

(d) Grants for Administration.—Grants under subsection (b)(2) shall be used to—

(1) evaluate compliance by school districts with requirements of this section;

(2) distribute information and materials to clearly define and promote the development of high performance school buildings for both new and existing facilities;

(3) organize and conduct programs for school board members, school personnel, architects, engineers, and others to advance the concepts of high performance school buildings;

(4) obtain technical services and assistance in planning and designing high performance school buildings; or

(5) collect and monitor data and information pertaining to the high performance school building projects.

(e) Grants to Promote Participation.—Grants under subsection (b)(3) shall be used for promotional and marketing activities, including facilitating private and public financing, promoting the use of energy savings performance contracts, working with school administrations, students, and communities, and coordinating public benefit programs.

(f) Supplementing Grant Funds.—The State energy office shall encourage qualifying school districts to supplement funds awarded pursuant to this section with funds from other sources in the implementation of their plans.

(g) Allocations.—Except as provided in subsection (h), funds appropriated to carry out this section shall be allocated as follows:

(1) 70 percent shall be used to make grants under subsection (b)(1);

(2) 15 percent shall be used to make grants under subsection (b)(2); and

(3) 15 percent shall be used to make grants under subsection (b)(3).

(h) Other Funds.—The Secretary of Energy may retain an amount, not to exceed $300,000 per year, to assist State energy offices in coordinating and implementing the Program. Such funds may be used to develop reference materials to further define the principles and criteria to achieve high performance school buildings.

(i) Authorization of Appropriations.—For grants under subsection (b) there are authorized to be appropriated—

(1) $200,000,000 for fiscal year 2003;

(2) $210,000,000 for fiscal year 2004;

(3) $220,000,000 for fiscal year 2005;

(4) $230,000,000 for fiscal year 2006; and

(5) such sums as may be necessary for fiscal year 2007 and each fiscal year thereafter through fiscal year 2012.

(j) Definitions.—For purposes of this section:

(1) High performance school building.—The term "high performance school building" means a school building that, in its design, construction, operation, and maintenance—

(A) maximizes use of renewable energy and energy-efficient technologies and systems;

(B) is cost-effective on a life-cycle basis;

(C) achieves either—

(i) the applicable Energy Star building energy performance ratings, or

(ii) energy consumption levels at least 30 percent below those of the most recent version of ASHRAE Standard 90.1;

(D) uses affordable, environmentally preferable, and durable materials;

(E) enhances indoor environmental quality;

(F) protects and conserves water; and

(G) optimizes site potential.

(2) Renewable energy.—The term "renewable energy" means energy produced by solar, wind, biomass, ocean, geothermal, or hydroelectric power.

(3) School.—The term "school" means—

(A) an "elementary school" as that term is defined in section 14101(14) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 8801(14)),

(B) a "secondary school" as that term is defined in section 14101(25) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 8801(25)), or

(C) an elementary or secondary Indian school funded by the Bureau of Indian Affairs.

(4) State educational agency.—The term "State educational agency" has the same meaning given such term in section 14101(28) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 8801(28)).

(5) State energy office.—The term "State energy office" means the State agency responsible for developing State energy conservation plans under section 362 of the Energy Policy and Conservation Act (42 U.S.C. 6322), or, if no such agency exists, a State agency designated by the Governor of the State.

SEC. 904. LOW INCOME COMMUNITY ENERGY EFFICIENCY PILOT PROGRAM.

(a) Grants.—The Secretary of Energy is authorized to make grants to private, nonprofit community development organizations and Indian tribe economic development entities to improve energy efficiency, identify and develop alternative renewable and distributed energy supplies, and increase energy conservation in low income rural and urban communities.

(b) Purpose of Grants.—The Secretary may make grants on a competitive basis to a community development organization for—

(1) investments that develop alternative renewable and distributed energy supplies;

(2) energy efficiency projects and energy conservation programs;

(3) studies and other activities that improve energy efficiency in low income rural and urban communities;

(4) planning and development assistance for increasing the energy efficiency of buildings and facilities; and

(5) technical and financial assistance to local government and private entities on developing new renewable and distributed sources of power or combined heat and power generation.

(c) Definition.—For purposes of this section, the term "Indian tribe" means any Indian tribe, band, nation, or other organized group or community, including any Alaskan Native Village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

(d) Authorization of Appropriations.—For the purposes of this section there are authorized to be appropriated to the Secretary of Energy an amount not to exceed $10 million for fiscal year 2003 and each fiscal year thereafter through fiscal year 2005.

Subtitle B—Federal Energy Efficiency

SEC. 911. ENERGY MANAGEMENT REQUIREMENTS.

(a) Energy Reduction Goals.—Section 543(a)(1) of the National Energy Conservation Policy Act (42 U.S.C. 8253(a)(1)) is amended to read as follows:

"(1) Subject to paragraph (2), each agency shall apply energy conservation measures to, and shall improve the design for the construction of, the Federal buildings of the agency (including each industrial or laboratory facility) so that the energy consumption per gross square foot of the Federal buildings of the agency in fiscal years 2002 through 2011 is reduced, as compared with the energy consumption per gross square foot of the Federal buildings of the agency in fiscal year 2000, by the percentage specified in the following table:

"Fiscal Year	Percentage reduction
2002–	2
2003–	4
2004	6
2005	8
2006–	10
2007–	12
2008–	14
2009–	16
2010–	18
2011	20.".

(b) Review and Revision of Energy Performance Requirement.—Section 543(a) of the National Energy Conservation Policy Act (42 U.S.C. 8253(a)) is further amended by adding at the end the following:

"(3) Not later than December 31, 2010, the Secretary shall review the results of the implementation of the energy performance requirement established under paragraph (1) and submit to Congress recommendations concerning energy performance requirements for calendar years 2012 through 2021.".

(c) Exclusions.—Section 543(c)(1) of the National Energy Conservation Policy Act (42 U.S.C. 8253(c)(1)) is amended to read as follows:

"(1)(A) An agency may exclude, from the energy performance requirement for a calendar year established under subsection (a) and the energy management requirement established under subsection (b), any Federal building or collection of Federal buildings, if the head of the agency finds that—

"(i) compliance with those requirements would be impracticable;

"(ii) the agency has completed and submitted all federally required energy management reports;

"(iii) the agency has achieved compliance with the energy efficiency requirements of this Act, the Energy Policy Act of 1992, Executives Orders, and other federal law; and

"(iv) the agency has implemented all practicable, life-cycle cost-effective projects with respect to the Federal building or collection of Federal buildings to be excluded.

"(B) A finding of impracticability under subparagraph (A)(i) shall be based on—

"(i) the energy intensiveness of activities carried out in the Federal building or collection of Federal buildings; or

"(ii) the fact that the Federal building or collection of Federal buildings is used in the performance of a national security function.".

(d) REVIEW BY SECRETARY.—Section 543(c)(2) of the National Energy Conservation Policy Act (42 U.S.C. 8253(c)(2)) is amended—

(1) by striking “impracticability standards” and inserting “standards for exclusion”; and

(2) by striking “a finding of impracticability” and inserting “the exclusion”.

(e) CRITERIA.—Section 543(c) of the National Energy Conservation Policy Act (42 U.S.C. 8253(c)) is further amended by adding at the end the following:

“(3) Not later than 180 days after the date of enactment of this paragraph, the Secretary shall issue guidelines that establish criteria for exclusions under paragraph (1).”.

(f) REPORTS.—Section 548(b) of the National Energy Conservation Policy Act (42 U.S.C. 8258(b)) is amended—

(1) in the subsection heading, by inserting “The PRESIDENT and” before “CONGRESS”; and

(2) by inserting “President and” before “Congress”.

(g) CONFORMING AMENDMENT.—Section 550(d) of the National Energy Conservation Policy Act (42 U.S.C. 8258b(d)) is amended in the second sentence by striking “the 20 percent reduction goal established under section 543(a) of the National Energy Conservation Policy Act (42 U.S.C. 8253(a)).” and inserting “each of the energy reduction goals established under section 543(a).”.

SEC. 912. ENERGY USE MEASUREMENT AND ACCOUNTABILITY.

Section 543 of the National Energy Conservation Policy Act (42 U.S.C. 8253) is further amended by adding at the end the following:

“(e) METERING OF ENERGY USE.—

“(1) DEADLINE.—By October 1, 2004, all Federal buildings shall be metered or submetered in accordance with guidelines established by the Secretary under paragraph (2).

“(2) GUIDELINES.—

“(A) IN GENERAL.—Not later than 180 days after the date of enactment of this subsection, the Secretary, in consultation with the Department of Defense, the General Service Administration and representatives from the metering industry, energy services industry, national laboratories, universities and federal facility energy managers, shall establish guidelines for agencies to carry out paragraph (1).

“(B) REQUIREMENTS FOR GUIDELINES.—The guidelines shall—

“(i) take into consideration—

“(I) the cost of metering and submetering and the reduced cost of operation and maintenance expected to result from metering and submetering;

“(II) the extent to which metering and submetering are expected to result in increased potential for energy management, increased potential for energy savings and energy efficiency improvement, and cost and energy savings due to utility contract aggregation; and

“(III) the measurement and verification protocols of the Department of Energy;

“(ii) include recommendations concerning the amount of funds and the number of trained personnel necessary to gather and use the metering information to track and reduce energy use;

“(iii) establish 1 or more dates, not later than 1 year after the date of issuance of the guidelines, on which the requirement specified in paragraph (1) shall take effect; and

“(iv) establish exclusions from the requirement specified in paragraph (1) based on the de minimus quantity of energy use of a Federal building, industrial process, or structure.

“(f) USE OF ENERGY CONSUMPTION DATA IN FEDERAL BUILDINGS.—

“(1) IN GENERAL.—Beginning not later than January 1, 2003, each agency shall use, to the maximum extent practicable, for the purposes of efficient use of energy and reduction in the cost of electricity used in the Federal buildings of the agency, interval consumption data that measure on a real-time or daily basis consumption of electricity in the Federal buildings of the agency.

“(2) PLAN.—As soon as practicable after the date of enactment of this subsection, in a report submitted by the agency under section 548(a), each agency shall submit to the Secretary a plan describing how the agency will implement the requirement of paragraph (1), including how the agency will designate personnel primarily responsible for achieving the requirement.”.

SEC. 913. FEDERAL BUILDING PERFORMANCE STANDARDS.

(a) REVISED STANDARDS.—Section 305(a) of the Energy Conservation and Production Act (42 U.S.C. 6834(a)) is amended—

(1) in paragraph (2)(A), by striking “CABO Model Energy Code, 1992” and inserting “the 2000 International Energy Conservation Code”; and

(2) by adding at the end the following:

(3) REVISED FEDERAL BUILDING ENERGY EFFICIENCY PERFORMANCE STANDARDS.—

“(A) IN GENERAL.—Not later than 1 year after the date of enactment of this paragraph, the Secretary of Energy shall establish, by rule, revised Federal building energy efficiency performance standards that require that, if cost-effective—

“(i) new commercial buildings and multifamily high rise residential buildings be constructed so as to achieve the applicable Energy Star building energy performance ratings or energy consumption levels at least 30 percent below those of the most recent ASHRAE Standard 90.1, whichever results in the greater increase in energy efficiency;

“(ii) new residential buildings (other than those described in clause (i)) be constructed so as to achieve the applicable Energy Star building energy performance ratings or achieve energy consumption levels at least 30 percent below the requirements of the most recent version of the International Energy Conservation Code, whichever results in the greater increase in energy efficiency; and

“(iii) sustainable design principles are applied to the siting, design, and construction of all new and replacement buildings.

“(B) ADDITIONAL REVISIONS.—Not later than 1 year after the date of approval of amendments to ASHRAE Standard 90.1 or the 2000 International Energy Conservation Code, the Secretary of Energy shall determine, based on the cost-effectiveness of the requirements under the amendments, whether the revised standards established under this paragraph should be updated to reflect the amendments.

“(C) STATEMENT ON COMPLIANCE OF NEW BUILDINGS.—In the budget request of the Federal agency for each fiscal year and each report submitted by the Federal agency under section 548(a) of the National Energy Conservation Policy Act (42 U.S.C. 8258(a)), the head of each Federal agency shall include—

“(i) a list of all new Federal buildings of the Federal agency; and

“(ii) a statement concerning whether the Federal buildings meet or exceed the revised standards established under this paragraph, including a monitoring and commissioning report that is in compliance with the measurement and verification protocols of the Department of Energy.

“(D) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as are necessary to carry out this paragraph and to implement the revised standards established under this paragraph.”.

(b) ENERGY LABELING PROGRAM.—Section 305(a) of the Energy Conservation and Production Act (42 U.S.C. 6834(a)) is further amended by adding at the end the following:

“(e) ENERGY LABELING PROGRAM.—The Secretary of Energy, in cooperation with the Administrator of the Environmental Protection Agency, shall develop an energy labeling program for new Federal buildings that exceed the revised standards established under subsection (a)(3) by 15 percent or more.”.

SEC. 914. PROCUREMENT OF ENERGY EFFICIENT PRODUCTS.

(a) REQUIREMENTS.—Part 3 of title V of the National Energy Conservation Policy Act is amended by adding at the end the following:

“SEC. 552. FEDERAL PROCUREMENT OF ENERGY EFFICIENT PRODUCTS.

“(a) DEFINITIONS.—In this section:

“(1) ENERGY STAR PRODUCT.—The term ‘Energy Star product’ means a product that is rated for energy efficiency under an Energy Star program.

“(2) ENERGY STAR PROGRAM.—The term ‘Energy Star program’ means the program established by section 324A of the Energy Policy and Conservation Act.

“(3) EXECUTIVE AGENCY.—The term ‘executive agency’ has the meaning given the term in section 4 of the Office of Federal Procurement Policy Act (41 U.S.C. 403).

“(4) FEMP DESIGNATED PRODUCT.—The term ‘FEMP designated product’ means a product that is designated under the Federal Energy Management Program of the Department of Energy as being among the highest 25 percent of equivalent products for energy efficiency.

“(b) PROCUREMENT OF ENERGY EFFICIENT PRODUCTS.—

“(1) REQUIREMENT.—To meet the requirements of an executive agency for an energy consuming product, the head of the executive agency shall, except as provided in paragraph (2), procure—

“(A) an Energy Star product; or

“(B) a FEMP designated product.

“(2) EXCEPTIONS.—The head of an executive agency is not required to procure an Energy Star product or FEMP designated product under paragraph (1) if—

“(A) an Energy Star product or FEMP designated product is not cost effective over the life cycle of the product; or

“(B) no Energy Star product or FEMP designated product is reasonably available that meets the requirements of the executive agency.

“(3) PROCUREMENT PLANNING.—The head of an executive agency shall incorporate into the specifications for all procurements involving energy consuming products and systems, and into the factors for the evaluation of offers received for the procurement, criteria for energy efficiency that are consistent with the criteria used for rating Energy Star products and for rating FEMP designated products.

“(c) LISTING OF ENERGY EFFICIENT PRODUCTS IN FEDERAL CATALOGS.—Energy Star and FEMP designated products shall be clearly identified and prominently displayed in any inventory or listing of products by the General Services Administration or the Defense Logistics Agency.

(b) CONFORMING AMENDMENT.—The table of contents in section 1(b) of the National Energy Conservation Policy Act (42 U.S.C. 8201 note) is amended by inserting after the item relating to section 551 the following:

"Sec. 552. Federal Government procurement of energy efficient products."

(c) Regulations.—Not later than 180 days after the effective date specified in subsection (f), the Secretary of Energy shall issue guidelines to carry out section 552 of the National Energy Conservation Policy Act (as added by subsection (a)).

(d) Designation of Energy Star Products.—The Administrator of the Environmental Protection Agency and the Secretary of Energy shall expedite the process of designating products as Energy Star products (as defined in section 552 of the National Energy Conservation Policy Act (as added by subsection (a)).

(e) Designation of Electric Motors.—In the case of electric motors of 1 to 500 horsepower, agencies shall select only premium efficient motors that meet a standard designated by the Secretary. The Secretary shall designate such a standard within 120 days of the enactment of this paragraph, after considering the recommendations of associated electric motor manufacturers and energy efficiency groups.

(f) Effective Date.—Subsection (a) and the amendment made by that subsection take effect on the date that is 180 days after the date of enactment of this Act.

SEC. 915. REPEAL OF ENERGY SAVINGS PERFORMANCE CONTRACT SUNSET.

Section 801(c) of the National Energy Conservation Policy Act (42 U.S.C. 8287(c)) is repealed.

SEC. 916. ENERGY SAVINGS PERFORMANCE CONTRACT DEFINITIONS.

(a) Energy Savings.—Section 804(2) of the National Energy Conservation Policy Act (42 U.S.C. 8287c(2)) is amended to read as follows:

"(2) The term 'energy savings' means a reduction in the cost of energy or water, from a base cost established through a methodology set forth in the contract, used in an existing federally owned building or buildings or other federally owned facilities as a result of—

"(A) the lease or purchase of operating equipment, improvements, altered operation and maintenance, or technical services;

"(B) the increased efficient use of existing energy sources by cogeneration or heat recovery, excluding any cogeneration process for other than a federally owned building or buildings or other federally owned facilities; or

"(C) the increased efficient use of existing water sources.".

(b) Energy Savings Contract.—Section 804(3) of the National Energy Conservation Policy Act (42 U.S.C. 8287c(3)) is amended to read as follows:

"(3) The terms 'energy savings contract' and 'energy savings performance contract' mean a contract which provides for the performance of services for the design, acquisition, installation, testing, operation, and, where appropriate, maintenance and repair, of an identified energy or water conservation measure or series of measures at one or more locations.".

(c) Energy or Water Conservation Measure.—Section 804(4) of the National Energy Conservation Policy Act (42 U.S.C. 8287c(4)) is amended to read as follows:

"(4) The term 'energy or water conservation measure' means—

"(A) an energy conservation measure, as defined in section 551(4) (42 U.S.C. 8259(4)); or

"(B) a water conservation measure that improves water efficiency, is life cycle cost effective, and involves water conservation, water recycling or reuse, more efficient treatment of wastewater or stormwater, improvements in operation or maintenance efficiencies, retrofit activities or other related activities, not at a Federal hydroelectric facility.".

SEC. 917. REVIEW OF ENERGY SAVINGS PERFORMANCE CONTRACT PROGRAM.

Within 180 days after the date of the enactment of this Act, the Secretary of Energy shall complete a review of the Energy Savings Performance Contract program to identify statutory, regulatory, and administrative obstacles that prevent Federal agencies from fully utilizing the program. In addition, this review shall identify all areas for increasing program flexibility and effectiveness, including audit and measurement verification requirements, accounting for energy use in determining savings, contracting requirements, and energy efficiency services covered. The Secretary shall report these findings to the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate, and shall implement identified administrative and regulatory changes to increase program flexibility and effectiveness to the extent that such changes are consistent with statutory authority.

SEC. 918. FEDERAL ENERGY BANK.

Part 3 of title V of the National Energy Conservation Policy Act is amended by adding at the end the following:

"SEC. 553. FEDERAL ENERGY BANK.

"(a) Definitions.—In this section:

"(1) Bank.—The term 'Bank' means the Federal Energy Bank established by subsection (b).

"(2) Energy or water efficiency project.—The term 'energy or water efficiency project' means a project that assists a Federal agency in meeting or exceeding the energy or water efficiency requirements of—

"(A) this part;

"(B) title VIII;

"(C) subtitle F of title I of the Energy Policy Act of 1992 (42 U.S.C. 8262 et seq.); or

"(D) any applicable Executive order, including Executive Order No. 13123.

"(3) Federal agency.—The term 'Federal agency' means—

"(A) an Executive agency (as defined in section 105 of title 5, United States Code);

"(B) the United States Postal Service;

"(C) Congress and any other entity in the legislative branch; and

"(D) a Federal court and any other entity in the judicial branch.

"(b) Establishment of Bank.—

"(1) In general.—There is established in the Treasury of the United States a fund to be known as the 'Federal Energy Bank', consisting of—

"(A) such amounts as are deposited in the Bank under paragraph (2);

"(B) such amounts as are repaid to the Bank under subsection (c)(2)(D); and

"(C) any interest earned on investment of amounts in the Bank under paragraph (3).

"(2) Deposits in bank.—

"(A) In general.—Subject to the availability of appropriations and to subparagraph (B), the Secretary of the Treasury shall deposit in the Bank an amount equal to $250,000,000 in fiscal year 2003 and in each fiscal year thereafter.

"(B) Maximum amount in bank.—Deposits under subparagraph (A) shall cease beginning with the fiscal year following the fiscal year in which the amounts in the Bank (including amounts on loan from the Bank) become equal to or exceed $1,000,000,000.

"(3) Investment of amounts.—The Secretary of the Treasury shall invest such portion of the Bank as is not, in the judgment of the Secretary, required to meet current withdrawals. Investments may be made only in interest-bearing obligations of the United States.

"(c) Loans From the Bank.—

"(1) In general.—The Secretary of the Treasury shall transfer from the Bank to the Secretary such amounts as are appropriated to carry out the loan program under paragraph (2).

"(2) Loan program.—

"(A) Establishment.—

"(i) In general.—In accordance with subsection (d), the Secretary, in consultation with the Secretary of Defense, the Administrator of General Services, and the Director of the Office of Management and Budget, shall establish a program to make loans of amounts in the Bank to any Federal agency that submits an application satisfactory to the Secretary in order to pay the costs of a project described in subparagraph (C).

"(ii) Commencement of operations.—The Secretary may begin—

"(I) accepting applications for loans from the Bank in fiscal year 2002; and

"(II) making loans from the Bank in fiscal year 2003.

"(B) Energy savings performance contracting funding.—To the extent practicable, an agency shall not submit a project for which energy performance contracting funding is available and is acceptable to the Federal agency under title VIII.

"(C) Purposes of Loan.—

"(i) In general.—A loan from the Bank may be used to pay—

"(I) the costs of an energy or water efficiency project, or a renewable or alternative energy project, for a new or existing Federal building (including selection and design of the project);

"(II) the costs of an energy metering plan and metering equipment installed pursuant to section 543(e) or for the purpose of verification of the energy savings under an energy savings performance contract under title VIII; or

"(III) at the time of contracting, the costs of cofunding of an energy savings performance contract (including a utility energy service agreement) in order to shorten the payback period of the project that is the subject of the energy savings performance contract.

"(ii) Limitation.—A Federal agency may use not more than 10 percent of the amount of a loan under subclause (I) or (II) of clause (i) to pay the costs of administration and proposal development (including data collection and energy surveys).

"(iii) Renewable and alternative energy projects.—Not more than 25 percent of the amount on loan from the Bank at any time may be loaned for renewable energy and alternative energy projects (as defined by the Secretary in accordance with applicable law (including Executive Orders)).

"(D) Repayments.—

"(i) In general.—Subject to clauses (ii) through (iv), a Federal agency shall repay to the Bank the principal amount of a loan plus interest at a rate determined by the President, in consultation with the Secretary and the Secretary of the Treasury.

"(ii) Waiver or Reduction of Interest.—The Secretary may waive or reduce the rate of interest required to be paid under clause (i) if the Secretary determines that payment of interest by a Federal agency at the rate determined under that clause is not required to fund the operations of the Bank.

"(iii) DETERMINATION OF INTEREST RATE.—The interest rate determined under clause (i) shall be at a rate that is sufficient to ensure that, beginning not later than October 1, 2007, interest payments will be sufficient to fully fund the operations of the Bank.

"(iv) INSUFFICIENCY OF APPROPRIATIONS.—

"(I) REQUEST FOR APPROPRIATIONS.—As part of the budget request of the Federal agency for each fiscal year, the head of each Federal agency shall submit to the President a request for such amounts as are necessary to make such repayments as are expected to become due in the fiscal year under this subparagraph.

"(II) SUSPENSION OF REPAYMENT REQUIREMENT.—If, for any fiscal year, sufficient appropriations are not made available to a Federal agency to make repayments under this subparagraph, the Bank shall suspend the requirement of repayment under this subparagraph until such appropriations are made available.

"(E) FEDERAL AGENCY ENERGY BUDGETS.—Until a loan is repaid, a Federal agency budget submitted by the President to Congress for a fiscal year shall not be reduced by the value of energy savings accrued as a result of any energy conservation measure implemented using amounts from the Bank.

"(F) NO RESCISSION OR REPROGRAMMING.—A Federal agency shall not rescind or reprogram loan amounts made available from the Bank except as permitted under guidelines issued under subparagraph (G).

"(G) GUIDELINES.—The Secretary shall issue guidelines for implementation of the loan program under this paragraph, including selection criteria, maximum loan amounts, and loan repayment terms.

"(d) SELECTION CRITERIA.—

"(1) IN GENERAL.—The Secretary shall establish criteria for the selection of projects to be awarded loans in accordance with paragraph (2).

"(2) SELECTION CRITERIA.—

"(A) IN GENERAL.—The Secretary may make loans from the Bank only for a project that—

"(i) is technically feasible;

"(ii) is determined to be cost-effective using life cycle cost methods established by the Secretary;

"(iii) includes a measurement and management component, based on the measurement and verification protocols of the Department of Energy, to—

"(I) commission energy savings for new and existing Federal facilities;

"(II) monitor and improve energy efficiency management at existing Federal facilities; and

"(III) verify the energy savings under an energy savings performance contract under title VIII;

and

"(iv)(I) in the case of renewable energy or alternative energy project, has a simple payback period of not more than 15 years; and

"(II) in the case of any other project, has a simple payback period of not more than 10 years.

"(B) PRIORITY.—In selecting projects, the Secretary shall give priority to projects that—

"(i) are a component of a comprehensive energy management project for a Federal facility; and

"(ii) are designed to significantly reduce the energy use of the Federal facility.

"(e) REPORTS AND AUDITS.—

"(1) REPORTS TO THE SECRETARY.—Not later than 1 year after the completion of installation of a project that has a cost of more than $1,000,000, and annually thereafter, a Federal agency shall submit to the Secretary a report that—

"(A) states whether the project meets or fails to meet the energy savings projections for the project; and

"(B) for each project that fails to meet the energy savings projections, states the reasons for the failure and describes proposed remedies.

"(2) AUDITS.—The Secretary may audit, or require a Federal agency that receives a loan from the Bank to audit, any project financed with amounts from the Bank to assess the performance of the project.

"(3) REPORTS TO CONGRESS.—At the end of each fiscal year, the Secretary shall submit to Congress a report on the operations of the Bank, including a statement of—

"(A) the total receipts by the Bank;

"(B) the total amount of loans from the Bank to each Federal agency; and

"(C) the estimated cost and energy savings resulting from projects funded with loans from the Bank.

"(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to such sums as are necessary to carry out this section."

SEC. 919. ENERGY AND WATER SAVING MEASURES IN CONGRESSIONAL BUILDINGS.

(a) IN GENERAL.—Part 3 of title V of the National Energy Conservation Policy Act is amended by adding at the end:

"SEC. 554. ENERGY AND WATER SAVINGS MEASURES IN CONGRESSIONAL BUILDINGS.

"(a) IN GENERAL.—The Architect of the Capitol—

"(1) shall develop, update, and implement a cost-effective energy conservation and management plan (referred to in this section as the "plan") for all facilities administered by the Congress (referred to in this section as "congressional buildings") to meet the energy performance requirements for Federal buildings established under section 543(a)(1).

"(2) shall submit the plan to Congress, not later than 180 days after the date of enactment of this section.

"(b) PLAN REQUIREMENTS.—The plan shall include—

"(1) a description of the life-cycle cost analysis used to determine the cost-effectiveness of proposed energy efficiency projects;

"(2) a schedule of energy surveys to ensure complete surveys of all congressional buildings every five years to determine the cost and payback period of energy and water conservation measures;

"(3) a strategy for installation of life cycle cost effective energy and water conservation measures;

"(4) the results of a study of the costs and benefits of installation of submetering in congressional buildings; and

"(5) information packages and "how-to" guides for each Member and employing authority of Congress that detail simple, cost-effective methods to save energy and taxpayer dollars in the workplace.

"(c) CONTRACTING AUTHORITY.—The Architect—

"(1) may contract with nongovernmental entities and use private sector capital to finance energy conservation projects and meet energy performance requirements; and

"(2) may use innovative contracting methods-that will attract private sector funding for the installation of energy efficient and renewable energy technology, such as energy savings performance contracts described in title VIII.

"(d) CAPITOL VISITOR CENTER.—The Architect—

"(1) shall ensure that state-of-the-art energy efficiency and renewable energy technologies are used in the construction and design of the Visitor Center; and

"(2) shall include in the Visitor Center an exhibit on the energy efficiency and renewable energy measures used in congressional buildings.

"(e) ANNUAL REPORT.—The Architect shall submit to Congress annually a report on congressional energy management and conservation programs required under this section that describes in detail—

"(1) energy expenditures and savings estimates for each facility;—

"(2) energy management and conservation projects; and

"(3) future priorities to ensure compliance with this section.".

(b) REPEAL.—Section 310 of the Legislative Branch Appropriations Act, 1999 (40 U.S.C. 1661), is repealed.

Subtitle C—Industrial Efficiency and Consumer Products

SEC. 921. VOLUNTARY COMMITMENTS TO REDUCE INDUSTRIAL ENERGY INTENSITY.

(a) VOLUNTARY AGREEMENTS.—The Secretary of Energy shall enter into voluntary agreements with one or more persons in industrial sectors that consume significant amounts of primary energy per unit of physical output to reduce the energy intensity of their production activities.

(b) GOAL.—Voluntary agreements under this section shall have a goal of reducing energy intensity by not less than 2.5 percent each year from 2002 through 2012.

(c) RECOGNITION.—The Secretary of Energy, in cooperation with the Administrator of the Environmental Protection Agency and other appropriate federal agencies, shall develop mechanisms to recognize and publicize the achievements of participants in voluntary agreements under this section.

(d) DEFINITION.—In this section, the term "energy intensity" means the primary energy consumed per unit of physical output in an industrial process.

(e) TECHNICAL ASSISTANCE.—An entity that enters into an agreement under this section and continues to make a good faith effort to achieve the energy efficiency goals specified in the agreement shall be eligible to receive from the Secretary a grant or technical assistance as appropriate to assist in the achievement of those goals.

(f) REPORT.—Not later than June 30, 2008 and June 30, 2012, the Secretary shall submit to Congress a report that evaluates the success of the voluntary agreements, with independent verification of a sample of the energy savings estimates provided by participating firms.

SEC. 922. AUTHORITY TO SET STANDARDS FOR COMMERCIAL PRODUCTS.

Part B of title III of the Energy Policy and Conservation Act (42 U.S.C. 6291 et seq.) is amended as follows:

(1) In the heading for such part, by inserting "AND COMMERCIAL" after "CONSUMER".

(2) In section 321(2), by inserting "or commercial" after "consumer".

(3) In paragraphs (4), (5), and (15) of section 321, by striking "consumer" each place it appears and inserting "covered".

(4) In section 322(a), by inserting "or commercial" after "consumer" the first place it appears in the material preceding paragraph (1).

(5) In section 322(b), by inserting "or commercial" after "consumer" each place it appears.

(6) In section 322 (b)(1)(B) and (b)(2)(A), by inserting “or per business in the case of a commercial product” after “per-household” each place it appears.

(7) In section 322 (b)(2)(A), by inserting “or businesses in the case of commercial products” after ‘households” each place it appears.

(8) In section 322 (B)(2)(C)—

(A) by striking “term” and inserting “terms”; and

(B) by inserting “and ‘business’” after “household”.

(9) In section 323 (b)(1) (B) by inserting “or commercial” after “consumer”.

SEC. 923. ADDITIONAL DEFINITIONS.

Section 321 of the Energy Policy and Conservation Act (42 U.S.C. 6291) is amended by adding at the end the following:

“(32) The term ‘battery charger’ means a device that charges batteries for consumer products.

“(33) The term ‘commercial refrigerator, freezer and refrigerator-freezer’ means a refrigerator, freezer or refrigerator-freezer that—

“(A) is not a consumer product regulated under this Act; and

“(B) incorporates most components involved in the vapor-compression cycle and the refrigerated compartment in a single package.

“(34) The term ‘external power supply’ means an external power supply circuit that is used to convert household electric current into either DC current or lower-voltage AC current to operate a consumer product.

“(35) The term ‘illuminated exit sign’ means a sign that—

“(A) is designed to be permanently fixed in place to identify an exit; and

“(B) consists of—

“(i) an electrically powered integral light source that illuminates the legend ‘EXIT’ and any directional indicators; and

“(ii) provides contrast between the legend, any directional indicators, and the background.

“(36)(A) Except as provided in subsection (B), the term ‘low-voltage dry-type transformer’ means a transformer that—.

“(i) has an input voltage of 600 volts or less;

“(ii) is air-cooled;

“(iii) does not use oil as a coolant; and

“(iv) is rated for operation at a frequency of 60 Hertz.

“(B) The term ‘low-voltage dry-type transformer’ does not include—

“(i) transformers with multiple voltage taps, with the highest voltage tap equaling at least 20 percent more than the lowest voltage tap;

“(ii) transformers that are designed to be used in a special purpose application, such as transformers commonly known as drive transformers, rectifier transformers, autotransformers, Uninterruptible Power System transformers, impedance transformers, harmonic transformers, regulating transformers, sealed and nonventilating transformers, machine tool transformers, welding transformers, grounding transformers, or testing transformers; or

“(iii) any transformer not listed in clause (ii) that is excluded by the Secretary by rule because the transformer is designed for a special application and the application of standards to the transformer would not result in significant energy savings.

“(37) The term “standby mode” means the lowest amount of electric power used by a household appliance when not performing its active functions, as defined on an individual product basis by the Secretary.

“(38) The term ‘torchiere’ means a portable electric lamp with a reflector bowl that directs light upward so as to give indirect illumination.

“(39) The term ‘transformer’ means a device consisting of 2 or more coils of insulated wire that transfers alternating current by electromagnetic induction from one coil to another to change the original voltage or current value.

“(40) The term ‘unit heater’ means a self-contained fan-type heater designed to be installed within the heated space, except that such term does not include a warm air furnace.

SEC. 924. ADDITIONAL TEST PROCEDURES.

(a) EXIT SIGNS.—Section 323(b) of the Energy Policy and Conservation Act (42 U.S.C. 6293) is amended by adding at the end the following:

“(9) Test procedures for illuminated exit signs shall be based on the test method used under the Energy Star program of the Environmental Protection Agency for illuminated exit signs, as in effect on the date of enactment of this paragraph.

“(10) Test procedures for low voltage dry-type distribution transformers shall be based on the ‘Standard Test Method for Measuring the Energy Consumption of Distribution Transformers’ prescribed by the National Electrical Manufacturers Association (NEMA TP 2-1998). The Secretary may review and revise this test procedure based on future revisions to such standard test method.

(b) ADDITIONAL CONSUMER AND COMMERCIAL PRODUCTS.—Section 323 of the Energy Policy and Conservation Act (42 U.S.C. 6293) is further amended by adding at the end the following:

“(f) ADDITIONAL CONSUMER AND COMMERCIAL PRODUCTS.—The Secretary shall within 24 months after the date of enactment of this subsection prescribe testing requirements for suspended ceiling fans, refrigerated bottled or canned beverage vending machines, commercial unit heaters, and commercial refrigerators, freezers and refrigerator-freezers. Such testing requirements shall be based on existing test procedures used in industry to the extent practical and reasonable. In the case of suspended ceiling fans, such test procedures shall include efficiency at both maximum output and at an output no more than 50 percent of the maximum output.”.

SEC. 925. ENERGY LABELING.

(a) RULEMAKING ON EFFECTIVENESS OF CONSUMER PRODUCT LABELING.—Paragraph (2) of section 324(a) of the Energy Policy and Conservation Act (42 U.S.C. 6294(a)(2)) is amended by adding at the end the following:

“(F) Not later than three months after the date of enactment of this subparagraph, the Commission shall initiate a rulemaking to consider the effectiveness of the current consumer products labeling program in assisting consumers in making purchasing decisions and improving energy efficiency and to consider changes to the labeling rules that would improve the effectiveness of consumer product labels. Such rulemaking shall be completed within 15 months of the date of enactment of this subparagraph.”.

(b) RULEMAKING ON LABELING FOR ADDITIONAL PRODUCTS.—Section 324(a) of the Energy Policy and Conservation Act (42 U.S.C. 6294(a)) is further amended by adding at the end the following:

“(5) The Secretary shall within 6 months after the date on which energy conservation standards are prescribed by the Secretary for covered products referred to in subsections (u) and (v) of section 325, and within 18 months of enactment of this paragraph for products referred to in subsections (w) through (y) of section 325, prescribe, by rule, labeling requirements for such products. Labeling requirements adopted under this paragraph shall take effect on the same date as the standards set pursuant to sections 325(v) through (y).

SEC. 926. ENERGY STAR PROGRAM.

The Energy Policy and Conservation Act (42 U.S.C. 6201 and following) is amended by inserting after section 324 the following:

“ENERGY STAR PROGRAM.

“SEC. 324A. (a) IN GENERAL.—There is established at the Department of Energy and the Environmental Protection Agency a program to identify and promote energy-efficient products and buildings in order to reduce energy consumption, improve energy security, and reduce pollution through labeling of products and buildings that meet the highest energy efficiency standards. Responsibilities under the program shall be divided between the Department of Energy and the Environmental Protection Agency consistent with the terms of agreements between the two agencies. The Administrator and the Secretary shall—

“(1) promote Energy Star compliant technologies as the preferred technologies in the marketplace for achieving energy efficiency and to reduce pollution;

(2) work to enhance public awareness of the Energy Star label;

(3) preserve the integrity of the Energy Star label; and

(4) solicit the comments of interested parties in establishing a new Energy Star product category or in revising a product category, and upon adoption of a new or revised product category provide an explanation of the decision that responds to significant public comments.”.

SEC. 927. ENERGY CONSERVATION STANDARDS FOR CENTRAL AIR-CONDITIONERS AND HEAT PUMPS.

Section 325(d) of the Energy Policy and Conservation Act (42 U.S.C. 6295(d)) is amended to read as follows:

“(1) Except as provided in paragraph (3), the seasonal energy efficiency ratio of central air conditioners and central air conditioning heat pumps manufactured on or after January 23, 2006 shall be no less than 13.0.

“(2) Except as provided in paragraph (4), the heating seasonal performance factor of central air conditioning heat pumps manufactured on or after January 23, 2006 shall be no less than 7.7.

“(3) The seasonal energy efficiency ratio of central air conditioners or central air conditioning heat pumps manufactured on or after January 23, 2006 shall be no less than 12.0 for products that—

“(A) have a rated cooling capacity equal to or less than 30,000 Btu per hour;

“(B) have an outdoor or indoor unit having at least two overall exterior dimensions or an overall displacement that—

“(i) is substantially smaller than those of other units that are currently installed in site-built single family homes, and of a similar cooling or heating capacity, and

“(ii) if increased would result in a significant increase in the cost of installation or would result in a significant loss in the utility of the product to the consumer; and

“(C) were available for purchase in the United States as of December 1, 2000.

“(4) The heating seasonal performance factor of central air conditioning heat pumps manufactured on or after January 25, 2006 shall not be less 7.4 for products that meet the criteria in paragraph (3).

"(5) The Secretary may postpone the requirements of paragraphs (3) and (4) for specific product types until a date no later than January 23, 2010, if he determines that compliance is either—

"(A) not technologically feasible, or

"(B) not economically justifiable.

"(6) The Secretary shall publish a final rule not later than January 1, 2006 to determine whether the standards in effect for central air conditioners and central air conditioning heat pumps should be amended. Such rule shall provide that any amendment shall apply to products manufactured on or after January 1, 2011.".

SEC. 928. ENERGY CONSERVATION STANDARDS FOR ADDITIONAL CONSUMER AND COMMERCIAL PRODUCTS.

Section 325 of the Energy Policy and Conservation Act (42 U.S.C. 6295) is amended by adding at the end the following:

"(u) Standby Mode Electric Energy Consumption.—

"(1) Initial rulemaking.—

"(A) The Secretary shall, within 18 months after the date of enactment of this subsection, prescribe by notice and comment, definitions of standby mode and test procedures for the standby mode power use of battery chargers and external power supplies. In establishing these test procedures, the Secretary shall consider, among other factors, existing test procedures used for measuring energy consumption in standby mode and assess the current and projected future market for battery chargers and external power supplies. This assessment shall include estimates of the significance of potential energy savings from technical improvements to these products and suggested product classes for standards. Prior to the end of this time period, the Secretary shall hold a scoping workshop to discuss and receive comments on plans for developing energy conservation standards for standby mode energy use for these products.

"(B) The Secretary shall, within 3 years after the date of enactment of this subsection, issue a final rule that determines whether energy conservation standards shall be promulgated for battery chargers and external power supplies or classes thereof. For each product class, any such standards shall be set at the lowest level of standby energy use that—

(i) meets the criteria of subsections (o), (p), (q), (r), (s) and (t); and

(ii) will result in significant overall annual energy savings, considering both standby mode and other operating modes.

"(2) Designation of additional covered products.—

"(A) Not later than 180 days after the date of enactment of this subsection, the Secretary shall publish for public comment and public hearing a notice to determine whether any noncovered products should be designated as covered products for the purpose of instituting a rulemaking under this section to determine whether an energy conservation standard restricting standby mode energy consumption, should be promulgated; providing that any restriction on standby mode energy consumption shall be limited to major sources of such consumption.

"(B) In making the determinations pursuant to subparagraph (A) of whether to designate new covered products and institute rulemakings, the Secretary shall, among other relevant factors and in addition to the criteria in section 322(b), consider—

"(i) standby mode power consumption compared to overall product energy consumption; and

"(ii) the priority and energy savings potential of standards which may be promulgated under this subsection compared to other required rulemakings under this section and the available resources of the Department to conduct such rulemakings.

"(C) Not later than one year after the date of enactment of this subsection, the Secretary shall issue a determination of any new covered products for which he intends to institute rulemakings on standby mode pursuant to this section and he shall state the dates by which he intends to initiate those rulemakings.

"(3) Review of standby energy use in covered products.—In determining pursuant to section 323 whether test procedures and energy conservation standards pursuant to section 325 should be revised, the Secretary shall consider for covered products which are major sources of standby mode energy consumption whether to incorporate standby mode into such test procedures and energy conservation standards, taking into account, among other relevant factors, the criteria for non-covered products in subparagraph (B) of this subsection.

"(4) Rulemaking for standby mode.—

"(A) Any rulemaking instituted under this subsection or for covered products under this section which restricts standby mode power consumption shall be subject to the criteria and procedures for issuing energy conservation standards set forth in section 325 and the criteria set forth in paragraph 2(B) of this subsection.

"(B) No standard can be proposed for new covered products or covered products in a standby mode unless the Secretary has promulgated applicable test procedures for each product pursuant to section 323.

"(C) The provisions of section 327 shall apply to new covered products which are subject to the rulemakings for standby mode after a final rule has been issued.

(5) Effective date.—Any standard promulgated under this subsection shall be applicable to products manufactured or imported three years after the date of promulgation.

(6) Voluntary programs to reduce standby mode energy use.—The Secretary and the Administrator shall collaborate and develop programs, including programs pursuant to section 324A and other voluntary industry agreements or codes of conduct, which are designed to reduce standby mode energy use.

"(v) Suspended Ceiling Fans, Vending Machines, Unit Heaters, and Commercial Refrigerators, Freezers and Refrigerator-Freezers.—The Secretary shall within 24 months after the date on which testing requirements are prescribed by the Secretary pursuant to section 323(f), prescribe, by rule, energy conservation standards for suspended ceiling fans, refrigerated bottled or canned beverage vending machines, unit heaters, and commercial refrigerators, freezers and refrigerator-freezers. In establishing standards under this subsection, the Secretary shall use the criteria and procedures contained in subsections (l) and (m). Any standard prescribed under this subsection shall apply to products manufactured 3 years after the date of publication of a final rule establishing such standard.

"(w) Illuminated Exit Signs.—Illuminated exit signs manufactured on or after January 1, 2005 shall meet the Energy Star Program performance requirements for illuminated exit signs prescribed by the Environmental Protection Agency as in effect on the date of enactment of this subsection.

"(x) Torchieres.—Torchieres manufactured on or after January 1, 2005—

"(1) shall consume not more than 190 watts of power; and

"(2) shall not be capable of operating with lamps that total more than 190 watts.

"(y) Low Voltage Dry-Type Transformers.—

"The efficiency of low voltage dry-type transformers manufactured on or after January 1, 2005 shall be the Class I Efficiency Levels for low voltage dry-type transformers specified in Table 4-2 of the 'Guide for Determining Energy Efficiency for Distribution Transformers' published by the National Electrical Manufacturers Association (NEMA TP-1-1996).".

SEC. 929. CONSUMER EDUCATION ON ENERGY EFFICIENCY BENEFITS OF AIR CONDITIONING, HEATING, AND VENTILATION MAINTENANCE.

Section 337 of the Energy Policy and Conservation Act (42 U.S.C. 6307) is amended by adding at the end the following:

"(c) HVAC Maintenance.—(1) For the purpose of ensuring that installed air conditioning and heating systems operate at their maximum rated efficiency levels, the Secretary shall, within 180 days of the date of enactment of this subsection, carry out a program to educate homeowners and small business owners concerning the energy savings resulting from properly conducted maintenance of air conditioning, heating, and ventilating systems.

"(2) The Secretary may carry out the program in cooperation with industry trade associations, industry members, and energy efficiency organizations.".

Subtitle D—Housing Efficiency

SEC. 931. CAPACITY BUILDING FOR ENERGY EFFICIENT, AFFORDABLE HOUSING.

Section 4(b) of the HUD Demonstration Act of 1993 (42 U.S.C. 9816 note) is amended—

(1) in paragraph (1), by inserting before the semicolon at the end the following: ", including capabilities regarding the provision of energy efficient, affordable housing and residential energy conservation measures"; and

(2) in paragraph (2), by inserting before the semicolon the following: ", including such activities relating to the provision of energy efficient, affordable housing and residential energy conservation measures that benefit low-income families".

SEC. 932. INCREASE OF CDBG PUBLIC SERVICES CAP FOR ENERGY CONSERVATION AND EFFICIENCY ACTIVITIES:

Section 105(a)(8) of the Housing and Community Development Act of 1974 (42 U.S.C. 5305(a)(8)) is amended—

(1) by inserting "or efficiency" after "energy conservation";

(2) by striking ", and except that" and inserting "; except that"; and

(3) by inserting before the period at the end the following: "; and except that each percentage limitation under this paragraph on the amount of assistance provided under this title that may be used for the provision of public services is hereby increased by 10 percent, but such percentage increase may be used only for the provision of public services concerning energy conservation or efficiency".

SEC. 933. FHA MORTGAGE INSURANCE INCENTIVES FOR ENERGY EFFICIENT HOUSING.

(a) Single Family Housing Mortgage Insurance.—Section 203(b)(2) of the National Housing Act (12 U.S.C. 1709(b)(2)) is amended, in the first undesignated paragraph beginning after subparagraph (B)(iii) (relating to solar energy systems)—

(1) by inserting "or paragraph (10)"; and

(2) by striking "20 percent" and inserting "30 percent".

(b) MULTIFAMILY HOUSING MORTGAGE INSURANCE.—Section 207(c) of the National Housing Act (12 U.S.C. 1713(c)) is amended, in the second undesignated paragraph beginning after paragraph (3) (relating to solar energy systems and residential energy conservation measures), by striking "20 percent" and inserting "30 percent".

(c) COOPERATIVE HOUSING MORTGAGE INSURANCE.—Section 213(p) of the National Housing Act (12 U.S.C. 1715e(p)) is amended by striking "20 per centum" and inserting "30 percent".

(d) REHABILITATION AND NEIGHBORHOOD CONSERVATION HOUSING MORTGAGE INSURANCE.—Section 220(d)(3)(B)(iii) of the National Housing Act (12 U.S.C. 1715k(d)(3)(B)(iii)) is amended by striking "20 per centum" and inserting "30 percent".

(e) LOW-INCOME MULTIFAMILY HOUSING MORTGAGE INSURANCE.—Section 221(k) of the National Housing Act (12 U.S.C. 1715l(k)) is amended by striking "20 per centum" and inserting "30 percent".

(f) ELDERLY HOUSING MORTGAGE INSURANCE.—The proviso at the end of section 213(c)(2) of the National Housing Act (12 U.S.C. 1715v(c)(2)) is amended by striking "20 per centum" and inserting :"30 percent".

(g) CONDOMINIUM HOUSING MORTGAGE INSURANCE.—Section 234(j) of the National Housing Act (12 U.S.C. 1715y(j)) is amended by striking "20 per centum" and inserting "30 percent".

SEC. 934. PUBLIC HOUSING CAPITAL FUND.

Section 9(d)(1) of the United States Housing Act of 1937 (42 U.S.C. 1437g(d)(1)) is amended—

(1) in subparagraph (I), by striking "and" at the end;

(2) in subparagraph (K), by striking the period at the end and inserting "; and"; and

(3) by adding at the end the following new subparagraph:

"(L) improvement of energy and water-use efficiency by installing fixtures and fittings that conform to the American Society of Mechanical Engineers/American National Standards Institute standards A112.19.2–1998 and 112.18.1–2000, or any revision thereto, applicable at the time of installation, and by increasing energy efficiency and water conservation by such other means as the Secretary determines are appropriate.".

SEC. 935. GRANTS FOR ENERGY-CONSERVING IMPROVEMENTS FOR ASSISTED HOUSING.

Section 251(b)(1) of the National Energy Conservation Policy Act (42 U.S.C. 8231(1)) is amended—

(1) by striking "financed with loans" and inserting "assisted";

(2) by inserting after "1959," the following: "which are eligible multifamily housing projects (as such term is defined in section 512 of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note) and are subject to a mortgage restructuring and rental assistance sufficiency plans under such Act,"; and

(3) by inserting after the period at the end of the first sentence the following new sentence: "Such improvements may also include the installation of energy and water conserving fixtures and fittings that conform to the American Society of Mechanical Engineers/American National Standards Institute standards A112.19.2–1998 and A112.18.1–2000, or any revision thereto, applicable at the time of installation.".

SEC. 936. NORTH AMERICAN DEVELOPMENT BANK.

Part 2 of subtitle D of title V of the North American Free Trade Agreement Implementation Act (22 U.S.C. 290m-290m-3) is amended by adding at the end the following:

"SEC. 545. SUPPORT FOR CERTAIN ENERGY POLICIES.

"Consistent with the focus of the Bank's Charter on environmental infrastructure projects, the Board members representing the United States should use their voice and vote to encourage the Bank to finance projects related to clean and efficient energy, including energy conservation, that prevent, control, or reduce environmental pollutants or contaminants.".

DIVISION D—INTEGRATION OF ENERGY POLICY AND CLIMATE CHANGE POLICY

TITLE X—CLIMATE CHANGE POLICY FORMULATION

Subtitle A—Global Warming

SEC. 1001. SENSE OF CONGRESS ON GLOBAL WARMING.

(a) FINDINGS.—The Congress makes the following findings:

(1) Evidence continues to build that increases in atmospheric concentrations of man-made greenhouse gases are contributing to global climate change.

(2) The Intergovernmental Panel on Climate Change (IPCC) has concluded that "there is new and stronger evidence that most of the warming observed over the last 50 years is attributable to human activities" and that the Earth's average temperature can be expected to rise between 2.5 and 10.4 degrees Fahrenheit in this century.

(3) The National Academy of Sciences confirmed the findings of the IPCC, stating that "the IPCC's conclusion that most of the observed warming of the last 50 years is likely to have been due to the increase of greenhouse gas concentrations accurately reflects the current thinking of the scientific community on this issue" and that "there is general agreement that the observed warming is real and particularly strong within the past twenty years".

(4) The IPCC has stated that in the last 40 years, the global average sea level has risen, ocean heat content has increased, and snow cover and ice extent have decreased, which threatens to inundate low-lying island nations and coastal regions throughout the world.

(5) The Environmental Protection Agency has found that global warming may harm the United States by altering crop yields, accelerating sea level rise, and increasing the spread of tropical infectious diseases.

(6) In 1992, the United States ratified the United Nations Framework Convention of Climate Change, done at New York on May 9, 1992, the ultimate objective of which is the "stabilization of greenhouse gas concentrations in the atmosphere at a level that would prevent dangerous anthropogenic interference with the climate system", and which stated in part "the Parties to the Convention are to implement policies with the aim of returning . . . to their 1990 levels anthropogenic emissions of carbon dioxide and other greenhouse gases."

(7) There is a shared international responsibility to address this problem, as industrial nations are the largest historic and current emitters of greenhouse gases and developing nations' emissions will significantly increase in the future.

(8) The United Nations Framework Convention on Climate Change further states that "developed country Parties should take the lead in combating climate change and the adverse effects thereof", as these nations are the largest historic and current emitters of greenhouse gases.

(9) Senate Resolution 98 of July 1997, which expressed that developing nations, especially the largest emitters, must also be included in any future, binding climate change treaty and such a treaty must not result in serious harm to the United States economy, should not cause the United States to abandon its shared responsibility to help find a solution to the global climate change dilemma.

(10) American businesses need to know how governments worldwide will respond to the threat of global warming.

(11) The United States has benefitted and will continue to benefit from investments in the research, development and deployment of a range of clean energy and efficiency technologies that can mitigate global warming and that can make the United States economy more productive, bolster energy security, create jobs, and protect the environment.

(b) SENSE OF CONGRESS.—It is the sense of the United States Congress that the United States should demonstrate international leadership and responsibility in mitigating the health, environmental, and economic threats posed by global warming by—

(1) taking responsible action to ensure significant and meaningful reductions in emissions of greenhouse gases from all sectors;

(2) creating flexible international and domestic mechanisms, including joint implementation, technology deployment, emissions trading and carbon sequestration projects that will reduce, avoid, and sequester greenhouse gas emissions; and

(3) participating in international negotiations, including putting forth a proposal at the next meeting of the Conference of the Parties, with the objective of securing United States' participation in a revised Kyoto Protocol or other future binding climate change agreements in a manner that is consistent with the environmental objectives of the Framework Convention on Climate Change, that protects the economic interests of the United States, and recognizes the shared international responsibility for addressing climate change, including developing country participation.

Subtitle B—Climate Change Strategy

SEC. 1011. SHORT TITLE.

This title may be cited as the "Climate Change Strategy and Technology Innovation Act of 2002".

SEC. 1012. FINDINGS.

Congress finds that—

(1) evidence continues to build that increases in atmospheric concentrations of greenhouse gases are contributing to global climate change;

(2) in 1992, the Senate ratified the United Nations Framework Convention on Climate Change, done at New York on May 9, 1992, the ultimate objective of which is the "stabilization of greenhouse gas concentrations in the atmosphere at a level that would prevent dangerous anthropogenic interference with the climate system";

(3) although science currently cannot determine precisely what atmospheric concentrations are "dangerous", the current trajectory of greenhouse gas emissions will lead to a continued rise in greenhouse gas concentrations in the atmosphere, not stabilization;

(4) the remaining scientific uncertainties call for temperance of human actions, but not inaction;

(5) greenhouse gases are associated with a wide range of human activities, including energy production, transportation, agriculture, forestry, manufacturing, buildings, and other activities;

(6) the economic consequences of poorly designed climate change response strategies, or of inaction, may cost the global economy trillions of dollars;

(7) a large share of this economic burden would be borne by the United States;

(8) stabilization of greenhouse gas concentrations in the atmosphere will require transformational change in the global energy system and other emitting sectors at an almost unimaginable level—a veritable industrial revolution is required;

(9) such a revolution can occur only if the revolution is preceded by research and development that leads to bold technological breakthroughs;

(10) over the decade preceding the date of enactment of this Act—

(A) energy research and development budgets in the public and private sectors have declined precipitously and have not been focused on the climate change response challenge; and

(B) the investments that have been made have not been guided by a comprehensive strategy;

(11) the negative trends in research and development funding described in paragraph (10) must be reversed with a focus on not only traditional energy research and development, but also bolder, breakthrough research;

(12) much more progress could be made on the issue of climate change if the United States were to adopt a new approach for addressing climate change that included, as an ultimate long-term goal—

(A) stabilization of greenhouse gas concentrations in the atmosphere at a level that would prevent dangerous anthropogenic interference with the climate system; and

(B) a response strategy with 4 key elements consisting of—

(i) definition of interim emission mitigation levels, that, coupled with specific mitigation approaches and after taking into account actions by other nations (if any), would result in stabilization of greenhouse gas concentrations;

(ii) technology development, including—

(I) a national commitment to double energy research and development by the United States public and private sectors; and

(II) in carrying out such research and development, a national commitment to provide a high degree of emphasis on bold, breakthrough technologies that will make possible a profound transformation of the energy, transportation, industrial, agricultural, and building sectors of the United States;

(iii) climate adaptation research that—

(I) focuses on response actions necessary to adapt to climate change that may have already occurred; and

(II) focuses on response actions necessary to adapt to climate change that may occur under any future climate change scenario; and

(iv) climate science research that—

(I) builds on the substantial scientific understanding of climate change that exists as of the date of enactment of this Act; and

(II) focuses on resolving the remaining scientific, technical, and economic uncertainties to aid in the development of sound response strategies; and

(13) inherent in each of the 4 key elements of the response strategy is consideration of the international nature of the challenge, which will require—

(A) establishment of joint climate response strategies and joint research programs;

(B) assistance to developing countries and countries in transition for building technical and institutional capacities and incentives for addressing the challenge; and

(C) promotion of public awareness of the issue.

SEC. 1013. PURPOSE.

The purpose of this title is to implement the new approach described in section 1012(12) by developing a national focal point for climate change response through—

(1) the establishment of the National Office of Climate Change Response within the Executive Office of the President to develop the United States Climate Change Response Strategy that—

(A) incorporates the 4 key elements of that new approach;

(B) is supportive of and integrated in the overall energy, transportation, industrial, agricultural, forestry, and environmental policies of the United States;

(C) takes into account—

(i) the diversity of energy sources and technologies;

(ii) supply-side and demand-side solutions; and

(iii) national infrastructure, energy distribution, and transportation systems;

(D) provides for the inclusion and equitable participation of Federal, State, tribal, and local government agencies, nongovernmental organizations, academia, scientific bodies, industry, the public, and other interested parties;

(E) incorporates new models of Federal-State cooperation;

(F) defines a comprehensive energy technology research and development program that—

(i) recognizes the important contributions that research and development programs in existence on the date of enactment of this title make toward addressing the climate change response challenge; and

(ii) includes an additional research and development agenda that focuses on the bold, breakthrough technologies that are critical to the long-term stabilization of greenhouse gas concentrations in the atmosphere;

(G) includes consideration of other efforts to address critical environmental and health concerns, including clean air, clean water, and responsible land use policies; and

(H) incorporates initiatives to promote the deployment of clean energy technologies developed in the United States and abroad;

(2) the establishment of the Interagency Task Force, chaired by the Director of the White House Office, to serve as the primary mechanism through which the heads of Federal agencies work together to develop and implement the Strategy;

(3) the establishment of the Office of Climate Change Technology within the Department of Energy—

(A) to manage, as its primary responsibility, an innovative research and development program that focuses on the bold, breakthrough technologies that are critical to the long-term stabilization of greenhouse gas concentrations in the atmosphere; and

(B) to provide analytical support and data to the White House Office, other agencies, and the public;

(4) the establishment of an independent review board—

(A) to review the Strategy and annually assess United States and international progress toward the goal of stabilization of greenhouse gas concentrations in the atmosphere at a level that would prevent dangerous anthropogenic interference with the climate system; and

(B) to assess—

(i) the performance of each Federal agency that has responsibilities under the Strategy; and

(ii) the adequacy of the budget of each such Federal agency to fulfill the responsibilities of the Federal agency under the Strategy; and

(5) the establishment of offices in, or the carrying out of activities by, the Department of Agriculture, the Department of Transportation, the Department of Commerce, the Environmental Protection Agency, and other Federal agencies as necessary to carry out this title.

SEC. 1014. DEFINITIONS.

In this title:

(1) CLIMATE-FRIENDLY TECHNOLOGY.—The term "climate-friendly technology" means any energy supply or end-use technology that, over the life of the technology and compared to similar technology in commercial use as of the date of enactment of this Act—

(A) results in reduced emissions of greenhouse gases;

(B) may substantially lower emissions of other pollutants; and

(C) may generate substantially smaller or less hazardous quantities of solid or liquid waste.

(2) DEPARTMENT.—The term "Department" means the Department of Energy.

(3) DEPARTMENT OFFICE.—The term "Department Office" means the Office of Climate Change Technology of the Department established by section 1017(a).

(4) FEDERAL AGENCY.—The term "Federal agency" has the meaning given the term "agency" in section 551 of title 5, United States Code.

(5) GREENHOUSE GAS.—The term "greenhouse gas" means—

(A) an anthropogenic gaseous constituent of the atmosphere (including carbon dioxide, methane, nitrous oxide, chlorofluorocarbons, hydrofluorocarbons, perfluorocarbons, sulfur hexafluoride, and tropospheric ozone) that absorbs and re-emits infrared radiation and influences climate; and

(B) an anthropogenic aerosol (such as black soot) that absorbs solar radiation and influences climate.

(6) INTERAGENCY TASK FORCE.—The term "Interagency Task Force" means the United States Climate Change Response Interagency Task Force established under section 1016(d).

(7) KEY ELEMENT.—The term "key element", with respect to the Strategy, means—

(A) definition of interim emission mitigation levels, that, coupled with specific mitigation approaches and after taking into account actions by other nations (if any), would result in stabilization of greenhouse gas concentrations;

(B) technology development, including—

(i) a national commitment to double energy research and development by the United States public and private sectors; and

(ii) in carrying out such research and development, a national commitment to provide a high degree of emphasis on bold, breakthrough technologies that will make possible a profound transformation of the energy, transportation, industrial, agricultural, and building sectors of the United States;

(C) climate adaptation research that—

(i) focuses on response actions necessary to adapt to climate change that may have already occurred; and

(ii) focuses on response actions necessary to adapt to climate change that may occur under any future climate change scenario; and

(D) climate science research that—

(i) builds on the substantial scientific understanding of climate change that exists as of the date of enactment of this Act; and

(ii) focuses on resolving the remaining scientific, technical, and economic uncertainties to aid in the development of sound response strategies.

(8) QUALIFIED INDIVIDUAL.—

(A) IN GENERAL.—The term "qualified individual" means an individual who has demonstrated expertise and leadership skills to draw on other experts in diverse fields of knowledge that are relevant to addressing the climate change response challenge.

(B) FIELDS OF KNOWLEDGE.—The fields of knowledge referred to in subparagraph (A) are—

(i) the science of primary and secondary climate change impacts;

(ii) energy and environmental economics;

(iii) technology transfer and diffusion;

(iv) the social dimensions of climate change;

(v) climate change adaptation strategies;

(vi) fossil, nuclear, and renewable energy technology;

(vii) energy efficiency and energy conservation;

(viii) energy systems integration;

(ix) engineered and terrestrial carbon sequestration;

(x) transportation, industrial, and building sector concerns;

(xi) regulatory and market-based mechanisms for addressing climate change;

(xii) risk and decision analysis;

(xiii) strategic planning; and

(xiv) the international implications of climate change response strategies.

(9) REVIEW BOARD.—The term "Review Board" means the United States Climate Change Response Strategy Review Board established by section 1019.

(10) SECRETARY.—The term "Secretary" means the Secretary of Energy.

(11) STABILIZATION OF GREENHOUSE GAS CONCENTRATIONS.—The term "stabilization of greenhouse gas concentrations" means the stabilization of greenhouse gas concentrations in the atmosphere at a level that would prevent dangerous anthropogenic interference with the climate system, recognizing that such a level should be achieved within a time frame sufficient to allow ecosystems to adapt naturally to climate change, to ensure that food production is not threatened and to enable economic development to proceed in a sustainable manner, as contemplated by the United Nations Framework Convention on Climate Change, done at New York on May 9, 1992.

(12) STRATEGY.—The term "Strategy" means the United States Climate Change Response Strategy developed under section 1015.

(13) WHITE HOUSE OFFICE.—The term "White House Office" means the National Office of Climate Change Response of the Executive Office of the President established by section 1016(a).

SEC. 1015. UNITED STATES CLIMATE CHANGE RESPONSE STRATEGY.

(a) IN GENERAL.—The Director of the White House Office shall develop the United States Climate Change Response Strategy, which shall—

(1) have the long-term goal of stabilization of greenhouse gas concentrations through actions taken by the United States and other nations;

(2) recognize that accomplishing the long-term goal of stabilization will take from many decades to more than a century, but acknowledging that significant actions must begin in the near term;

(3) build on the 4 key elements;

(4) be developed on the basis of an examination of a broad range of emissions levels and dates for achievement of those levels (including those evaluated by the Intergovernmental Panel on Climate Change and those consistent with U.S. treaty commitments) that, after taking into account by actions other nations (if any), would culminate in the stabilization of greenhouse gas concentrations;

(5) consider the broad range of activities and actions that can be taken by United States entities to reduce, avoid, or sequester greenhouse gas emissions both within the United States and in other nations through the use of market mechanisms, which may include but not limited to mitigation activities, terrestrial sequestration, earning offsets through carbon capture or project-based activities, trading of emissions credits in domestic and international markets, and the application of the resulting credits from any of the above within the United States;

(6) minimize any adverse short-term and long-term social, economic, national security, and environmental impacts, including ensuring that the strategy is developed in an economically and environmentally sound manner;

(7) incorporate mitigation approaches leading to the development and deployment of advanced technologies and practices that will reduce, avoid, or sequester greenhouse gas emissions;

(8) recognize that the climate change response strategy is intended to guide the nation's effort to address climate change, but it shall not create a legal obligation on the part of any person or entity other than the duties of the Director of the White House Office and Interagency Task Force in the development of the strategy;

(9) be consistent with the goals of energy, transportation, industrial, agricultural, forestry, environmental, economic, and other relevant policies of the United States;

(10) be consistent with the goals of energy, transportation, industrial, agricultural, forestry, environmental, and other relevant policies of the United States;

(11) have a scope that considers the totality of United States public, private, and public-private sector actions that bear on the long-term goal;

(12) be based on an evaluation of a wide range of approaches for achieving the long-term goal, including evaluation of—

(A) a variety of cost-effective Federal and State policies, programs, standards, and incentives;

(B) policies that integrate and promote innovative, market-based solutions in the United States and in foreign countries; and

(C) participation in other international institutions, or in the support of international activities, that are established or conducted to facilitate stabilization of greenhouse gas concentrations;

(13) in the final recommendations of the Strategy, emphasize response strategies that achieve the long-term goal and provide specific recommendations concerning—

(A) measures determined to be appropriate for short-term implementation, giving preference to cost-effective and technologically feasible measures that will—

(i) produce measurable net reductions in United States emissions that lead toward achievement of the long-term goal; and

(ii) minimize any adverse short-term and long-term economic, environmental, national security, and social impacts on the United States;

(B) the development of technologies that have the potential for long-term implementation—

(i) giving preference to technologies that have the potential to reduce significantly the overall cost of stabilization of greenhouse gas concentrations; and

(ii) considering a full range of energy sources, energy conversion and use technologies, and efficiency options;

(C) such changes in institutional and technology systems as are necessary to adapt to climate change in the short-term and the long-term;

(D) such review, modification, and enhancement of the scientific, technical, and economic research efforts of the United States, and improvements to the data resulting from research, as are appropriate to improve the accuracy of predictions concerning climate change and the economic and social costs and opportunities relating to climate change; and

(E) changes that should be made to project and grant evaluation criteria under other Federal research and development programs so that those criteria do not inhibit development of climate-friendly technologies;

(14) be developed in a manner that provides for meaningful participation by, and consultation among, Federal, State, tribal, and local government agencies, nongovernmental organizations, academia, scientific bodies, industry, the public, and other interested parties in accordance with subsections (b)(4)(C)(iv)(II) and (d)(3)(B)(iii) of section 1016;

(15) address how the United States should engage State, tribal, and local governments in developing and carrying out a response to climate change;

(16) promote, to the maximum extent practicable, public awareness, outreach, and information-sharing to further the understanding of the full range of climate change-related issues;

(17) provide a detailed explanation of how the measures recommended by the Strategy will ensure that they do not result in serious harm to the economy of the United States;

(18) provide a detailed explanation of how the measures recommended by the Strategy will achieve the long-term goal of stabilization of greenhouse gas concentrations;

(19) include any recommendations for legislative and administrative actions necessary to implement the Strategy;

(20) serve as a framework for climate change response actions by all Federal agencies;

(21) recommend which Federal agencies are, or should be, responsible for the various aspects of implementation of the Strategy and any budgetary implications;

(22) address how the United States should engage foreign governments in developing an international response to climate change; and

(23) be subject to review by an independent review board in accordance with section 1019.

(b) SUBMISSION TO CONGRESS.—Not later than 1 year after the date of enactment of this title, the President shall submit to Congress the Strategy.

(c) UPDATING.—Not later than 2 years after the date of submission of the Strategy to Congress under subsection (b), and at the end of each 2-year period thereafter, the President shall submit to Congress an updated version of the Strategy.

(d) PROGRESS REPORTS.—Not later than 1 year after the date of submission of the

Strategy to Congress under subsection (b), and at the end of each 1-year period thereafter, the President shall submit to Congress a report that—

(1) describes the progress on implementation of the Strategy; and

(2) provides recommendations for improvement of the Strategy and the implementation of the Strategy.

(e) ALIGNMENT WITH ENERGY, TRANSPORTATION, INDUSTRIAL, AGRICULTURAL, FORESTRY, AND OTHER POLICIES.—The President, the Director of the White House Office, the Secretary, and the other members of the Interagency Task Force shall work together to align the actions carried out under the Strategy and actions associated with the energy, transportation, industrial, agricultural, forestry, and other relevant policies of the United States so that the objectives of both the Strategy and the policies are met without compromising the climate change-related goals of the Strategy or the goals of the policies.

SEC. 1016. NATIONAL OFFICE OF CLIMATE CHANGE RESPONSE OF THE EXECUTIVE OFFICE OF THE PRESIDENT.

(a) ESTABLISHMENT.—

(1) IN GENERAL.—There is established, within the Executive Office of the President, the National Office of Climate Change Response.

(2) FOCUS.—The White House Office shall have the focus of achieving the long-term goal of stabilization of greenhouse gas concentrations while minimizing adverse short-term and long-term economic and social impacts.

(3) DUTIES.—Consistent with paragraph (2), the White House Office shall—

(A) establish policies, objectives, and priorities for the Strategy;

(B) in accordance with subsection (d), establish the Interagency Task Force to serve as the primary mechanism through which the heads of Federal agencies shall assist the Director of the White House Office in developing and implementing the Strategy;

(C) to the maximum extent practicable, ensure that the Strategy is based on objective, quantitative analysis, drawing on the analytical capabilities of Federal and State agencies, especially the Department Office;

(D) advise the President concerning necessary changes in organization, management, budgeting, and personnel allocation of Federal agencies involved in climate change response activities; and

(E) advise the President and notify a Federal agency if the policies and discretionary programs of the agency are not well aligned with, or are not contributing effectively to, the long-term goal of stabilization of greenhouse gas concentrations.

(b) DIRECTOR OF THE WHITE HOUSE OFFICE.—

(1) IN GENERAL.—The White House Office shall be headed by a Director, who shall report directly to the President.

(2) APPOINTMENT.—The Director of the White House Office shall be a qualified individual appointed by the President, by and with the advice and consent of the Senate.

(3) DUTIES OF THE DIRECTOR OF THE WHITE HOUSE OFFICE.—

(A) STRATEGY.—In accordance with section 1015, the Director of the White House Office shall coordinate the development and updating of the Strategy.

(B) INTERAGENCY TASK FORCE.—The Director of the White House Office shall serve as Chairperson of the Interagency Task Force.

(C) ADVISORY DUTIES.—

(i) CLIMATE, ENERGY, TRANSPORTATION, INDUSTRIAL, AGRICULTURAL, BUILDING, FORESTRY, AND OTHER PROGRAMS.—The Director of the White House Office, using an integrated perspective considering the totality of actions in the United States, shall advise the President and the heads of Federal agencies on—

(I) the extent to which United States energy, transportation, industrial, agricultural, forestry, building, and other relevant programs are capable of producing progress on the long-term goal of stabilization of greenhouse gas concentrations; and

(II) the extent to which proposed or newly created energy, transportation, industrial, agricultural, forestry, building, and other relevant programs positively or negatively affect the ability of the United States to achieve the long-term goal of stabilization of greenhouse gas concentrations.

(ii) TAX, TRADE, AND FOREIGN POLICIES.—The Director of the White House Office, using an integrated perspective considering the totality of actions in the United States, shall advise the President and the heads of Federal agencies on—

(I) the extent to which the United States tax policy, trade policy, and foreign policy are capable of producing progress on the long-term goal of stabilization of greenhouse gas concentrations; and

(II) the extent to which proposed or newly created tax policy, trade policy, and foreign policy positively or negatively affect the ability of the United States to achieve the long-term goal of stabilization of greenhouse gas concentrations.

(iii) INTERNATIONAL TREATIES.—The Secretary of State, acting in conjunction with the Interagency Task Force and using the analytical tools available to the White House Office, shall provide to the Director of the White House Office an opinion that—

(I) specifies, to the maximum extent practicable, the economic and environmental costs and benefits of any proposed international treaties or components of treaties that have an influence on greenhouse gas management; and

(II) assesses the extent to which the treaties advance the long-term goal of stabilization of greenhouse gas concentrations, while minimizing adverse short-term and long-term economic and social impacts and considering other impacts.

(iv) CONSULTATION.—

(I) WITH MEMBERS OF INTERAGENCY TASK FORCE.—To the extent practicable and appropriate, the Director of the White House Office shall consult with all members of the Interagency Task Force and other interested parties before providing advice to the President.

(II) WITH OTHER INTERESTED PARTIES.—The Director of the White House Office shall establish a process for obtaining the meaningful participation of Federal, State, tribal, and local government agencies, nongovernmental organizations, academia, scientific bodies, industry, the public, and other interested parties in the formulation of advice to be provided to the President.

(D) PUBLIC EDUCATION, AWARENESS, OUTREACH, AND INFORMATION-SHARING.—The Director of the White House Office, to the maximum extent practicable, shall promote public awareness, outreach, and information-sharing to further the understanding of the full range of climate change-related issues.

(4) ANNUAL REPORTS.—The Director of the White House Office, in consultation with the Interagency Task Force and other interested parties, shall prepare an annual report for submission by the President to Congress that—

(A) assesses progress in implementation of the Strategy;

(B) assesses progress, in the United States and in foreign countries, toward the long-term goal of stabilization of greenhouse gas concentrations;

(C) assesses progress toward meeting climate change-related international obligations;

(D) makes recommendations for actions by the Federal Government designed to close any gap between progress-to-date and the measures that are necessary to achieve the long-term goal of stabilization of greenhouse gas concentrations; and

(E) addresses the totality of actions in the United States that relate to the 4 key elements.

(5) ANALYSIS.—During development of the Strategy, preparation of the annual reports submitted under paragraph (5), and provision of advice to the President and the heads of Federal agencies, the Director of the White House Office shall place significant emphasis on the use of objective, quantitative analysis, taking into consideration any uncertainties associated with the analysis.

(c) STAFF.—

(1) IN GENERAL.—The Director of the White House Office shall employ a professional staff of not more than 25 individuals to carry out the duties of the White House Office.

(2) INTERGOVERNMENTAL PERSONNEL AND FELLOWSHIPS.—The Director of the White House Office may use the authority provided by the Intergovernmental Personnel Act of 1970 (42 U.S.C. 4701 et seq.) and subchapter VI of chapter 33 of title 5, United States Code, and fellowships, to obtain staff from academia, scientific bodies, nonprofit organizations, and national laboratories, for appointments of a limited term.

(d) INTERAGENCY TASK FORCE.—

(1) IN GENERAL.—The Director of the White House Office shall establish the United States Climate Change Response Interagency Task Force.

(2) COMPOSITION.—The Interagency Task Force shall be composed of—

(A) the Director of the White House Office, who shall serve as Chairperson;

(B) the Secretary of State;

(C) the Secretary;

(D) the Secretary of Commerce;

(E) the Secretary of the Treasury;

(F) the Secretary of Transportation;

(G) the Secretary of Agriculture;

(H) the Administrator of the Environmental Protection Agency;

(I) the Administrator of the Agency for International Development;

(J) the United States Trade Representative;

(K) the National Security Advisor;

(L) the Chairman of the Council of Economic Advisers;

(M) the Chairman of the Council on Environmental Quality;

(N) the Director of the Office of Science and Technology Policy;

(O) the Chairperson of the Subcommittee on Global Change Research (which performs the functions of the Committee on Earth and Environmental Sciences established by section 102 of the Global Change Research Act of 1990 (15 U.S.C. 2932)); and

(P) the heads of such other Federal agencies as the Chairperson determines should be members of the Interagency Task Force.

(3) STRATEGY.—

(A) IN GENERAL.—The Interagency Task Force shall serve as the primary forum through which the Federal agencies represented on the Interagency Task Force jointly—

(i) assist the Director of the White House Office in developing and updating the Strategy; and

(ii) assist the Director of the White House Office in preparing annual reports under subsection (b)(5).

(B) REQUIRED ELEMENTS.—In carrying out subparagraph (A), the Interagency Task Force shall—

(i) take into account the long-term goal and other requirements of the Strategy specified in section 1015(a);

(ii) consult with State, tribal, and local government agencies, nongovernmental organizations, academia, scientific bodies, industry, the public, and other interested parties; and

(iii) build consensus around a Strategy that is based on strong scientific, technical, and economic analyses.

(4) WORKING GROUPS.—The Chairperson of the Interagency Task Force may establish such topical working groups as are necessary to carry out the duties of the Interagency Task Force.

(e) PROVISION OF SUPPORT STAFF.—In accordance with procedures established by the Chairperson of the Interagency Task Force, the Federal agencies represented on the Interagency Task Force shall provide staff from the agencies to support information, data collection, and analyses required by the Interagency Task Force.

(f) HEARINGS.—On request of the Chairperson, the Interagency Task Force may hold such hearings, meet and act at such times and places, take such testimony, and receive such evidence as the Interagency Task Force considers to be appropriate.

SEC. 1017. TECHNOLOGY INNOVATION PROGRAM IMPLEMENTED THROUGH THE OFFICE OF CLIMATE CHANGE TECHNOLOGY OF THE DEPARTMENT OF ENERGY.

(a) ESTABLISHMENT OF OFFICE OF CLIMATE CHANGE TECHNOLOGY OF THE DEPARTMENT OF ENERGY.—

(1) IN GENERAL.—There is established, within the Department, the Office of Climate Change Technology.

(2) DUTIES.—The Department Office shall—

(A) manage an energy technology research and development program that directly supports the Strategy by—

(i) focusing on high-risk, bold, breakthrough technologies that—

(I) have significant promise of contributing to the national climate change policy of long-term stabilization of greenhouse gas concentrations by—

(aa) mitigating the emissions of greenhouse gases;

(bb) removing and sequestering greenhouse gases from emission streams; or

(cc) removing and sequestering greenhouse gases from the atmosphere;

(II) are not being addressed significantly by other Federal programs; and

(III) would represent a substantial advance beyond technology available on the date of enactment of this title;

(ii) forging fundamentally new research and development partnerships among various Department, other Federal, and State programs, particularly between basic science and energy technology programs, in cases in which such partnerships have significant potential to affect the ability of the United States to achieve stabilization of greenhouse gas concentrations at the lowest possible cost;

(iii) forging international research and development partnerships that are in the interests of the United States and make progress on stabilization of greenhouse gas concentrations;

(iv) making available, through monitoring, experimentation, and analysis, data that are essential to proving the technical and economic viability of technology central to addressing climate change; and

(v) transitioning research and development programs to other program offices of the Department once such a research and development program crosses the threshold of high-risk research and moves into the realm of more conventional technology development;

(B) prepare annual reports in accordance with subsection (b)(6);

(C) identify the total contribution of all Department programs to climate change response;

(D) provide substantial analytical support to the White House Office, particularly support in the development of the Strategy and associated progress reporting; and

(E) advise the Secretary on climate change-related issues, including necessary changes in Department organization, management, budgeting, and personnel allocation in the programs involved in climate change response-related activities.

(b) DIRECTOR OF THE DEPARTMENT OFFICE.—

(1) IN GENERAL.—The Department Office shall be headed by a Director, who shall report directly to the Secretary.

(2) APPOINTMENT.—The Director of the Department Office shall be an employee of the Federal Government who is a qualified individual appointed by the President.

(3) TERM.—The Director of the Department Office shall be appointed for a term of 4 years.

(4) VACANCIES.—A vacancy in the position of the Director of the Department Office shall be filled in the same manner as the original appointment was made.

(5) DUTIES OF THE DIRECTOR OF THE DEPARTMENT OFFICE.—

(A) TECHNOLOGY DEVELOPMENT.—The Director of the Department Office shall manage the energy technology research and development program described in subsection (a)(2)(A).

(B) STRATEGY.—The Director of the Department Office shall support development of the Strategy through the provision of staff and analytical support.

(C) INTERAGENCY TASK FORCE.—Through active participation in the Interagency Task Force, the Director of the Department Office shall—

(i) based on the analytical capabilities of the Department Office, share analyses of alternative climate change response strategies with other members of the Interagency Task Force to assist all members in understanding—

(I) the scale of the climate change response challenge; and

(II) how the actions of the Federal agencies of the members positively or negatively contribute to climate change solutions; and

(ii) determine how the energy technology research and development program described in subsection (a)(2)(A) can be designed for maximum impact on the long-term goal of stabilization of greenhouse gas concentrations.

(D) TOOLS, DATA, AND CAPABILITIES.—The Director of the Department Office shall foster the development of tools, data, and capabilities to ensure that—

(i) the United States has a robust capability for evaluating alternative climate change response scenarios; and

(ii) the Department Office provides long-term analytical continuity during the terms of service of successive Presidents.

(E) ADVISORY DUTIES.—The Director of the Department Office shall advise the Secretary on all aspects of climate change response.

(6) ANNUAL REPORTS.—The Director of the Department Office shall prepare an annual report for submission by the Secretary to Congress and the White House Office that—

(A) assesses progress toward meeting the goals of the energy technology research and development program described in subsection (a)(2)(A);

(B) assesses the activities of the Department Office;

(C) assesses the contributions of all energy technology research and development programs of the Department (including science programs) to the long-term goal and other requirements of the Strategy specified in section 1015(a); and

(D) makes recommendations for actions by the Department and other Federal agencies to address the components of technology development that are necessary to support the Strategy.

(7) ANALYSIS.—During development of the Strategy, annual reports submitted under paragraph (6), and advice to the Secretary, the Director of the Department Office shall place significant emphasis on the use of objective, quantitative analysis, taking into consideration any associated uncertainties.

(c) STAFF.—The Director of the Department Office shall employ a professional staff of not more than 25 individuals to carry out the duties of the Department Office.

(d) INTERGOVERNMENTAL PERSONNEL AND FELLOWSHIPS.—The Department Office may use the authority provided by the Intergovernmental Personnel Act of 1970 (42 U.S.C. 4701 et seq.), subchapter VI of chapter 33 of title 5, United States Code, and other Departmental personnel authorities, to obtain staff from academia, scientific bodies, nonprofit organizations, industry, and national laboratories, for appointments of a limited term.

(e) RELATIONSHIP TO OTHER DEPARTMENT PROGRAMS.—Each project carried out by the Department Office shall be—

(1) initiated only after consultation with 1 or more other appropriate program offices of the Department that support research and development in areas relating to the project;

(2) managed by the Department Office; and

(3) in the case of a project that reaches a sufficient level of maturity, with the concurrence of the Department Office and an appropriate office described in paragraph (1), transferred to the appropriate office, along with the funds necessary to continue the project to the point at which non-Federal funding can provide substantial support for the project.

(f) ANALYSIS OF STRATEGIC CLIMATE CHANGE RESPONSE.—

(1) IN GENERAL.—

(A) GOAL.—The Department Office shall foster the development and application of advanced computational tools, data, and capabilities that, together with the capabilities of other federal agencies, support integrated assessment of alternative climate change response scenarios and implementation of the Strategy.

(B) PARTICIPATION AND SUPPORT.—Projects supported by the Department Office may include participation of, and be supported by, other Federal agencies that have a role in the development, commercialization, or transfer of energy, transportation, industrial, agricultural, forestry, or other climate change-related technology.

(2) PROGRAMS.—

(A) IN GENERAL.—The Department Office shall—

(i) develop and maintain core analytical competencies and complex, integrated computational modeling capabilities that, together with the capabilities of other federal agencies, are necessary to support the design and implementation of the Strategy; and

(ii) track United States and international progress toward the long-term goal of stabilization of greenhouse gas concentrations.

(B) INTERNATIONAL CARBON DIOXIDE SEQUESTRATION MONITORING AND DATA PROGRAM.—In consultation with Federal, State, academic, scientific, private sector, nongovernmental, tribal, and international carbon capture and sequestration technology programs, the Department Office shall design and carry out an international carbon dioxide sequestration monitoring and data program to collect, analyze, and make available the technical and economic data to ascertain—

(i) whether engineered sequestration and terrestrial sequestration will be acceptable technologies from regulatory, economic, and international perspectives;

(ii) whether carbon dioxide sequestered in geological formations or ocean systems is stable and has inconsequential leakage rates on a geologic time-scale; and

(iii) the extent to which forest, agricultural, and other terrestrial systems are suitable carbon sinks.

(3) AREAS OF EXPERTISE.—

(A) IN GENERAL.—The Department Office shall develop and maintain expertise in integrated assessment, modeling, and related capabilities necessary—

(i) to understand the relationship between natural, agricultural, industrial, energy, and economic systems;

(ii) to design effective research and development programs; and

(iii) to develop and implement the Strategy.

(B) TECHNOLOGY TRANSFER AND DIFFUSION.—The expertise described in clause (i) shall include knowledge of technology transfer and technology diffusion in United States markets and foreign markets.

(4) DISSEMINATION OF INFORMATION.—The Department Office shall ensure, to the maximum extent practicable, that technical and scientific knowledge relating to greenhouse gas emission reduction, avoidance, and sequestration is broadly disseminated through publications, fellowships, and training programs.

(5) ASSESSMENTS.—In a manner consistent with the Strategy, the Department shall conduct assessments of deployment of climate-friendly technology.

(6) USE OF PRIVATE SECTOR FUNDING.—

(A) IN GENERAL.—The Department Office shall create an operating model that allows for collaboration, division of effort, and cost sharing with industry on individual climate change response projects.

(B) REQUIREMENTS.—Although cost sharing in some cases may be appropriate, the Department Office shall focus on long-term high-risk research and development and should not make industrial partnerships or cost sharing a requirement, if such a requirement would bias the activities of the Department Office toward incremental innovations.

(C) REEVALUATION ON TRANSITION.—At such time as any bold, breakthrough research and development program reaches a sufficient level of technological maturity such that the program is transitioned to a program office of the Department other than the Department Office, the cost-sharing requirements and criteria applicable to the program should be reevaluated.

(D) PUBLICATION IN FEDERAL REGISTER.—Each cost-sharing agreement entered into under this subparagraph shall be published in the Federal Register.

SEC. 1018. ADDITIONAL OFFICES AND ACTIVITIES.

The Secretary of Agriculture, the Secretary of Transportation, the Secretary of Commerce, the Administrator of the Environmental Protection Agency, and the heads of other Federal agencies may establish such offices and carry out such activities, in addition to those established or authorized by this Act, as are necessary to carry out this Act.

SEC. 1019. UNITED STATES CLIMATE CHANGE RESPONSE STRATEGY REVIEW BOARD.

(a) ESTABLISHMENT.—There is established as an independent establishment within the executive branch the United States Climate Change Response Strategy Review Board.

(b) MEMBERSHIP.—

(1) COMPOSITION.—The Review Board shall consist of 11 members who shall be appointed, not later than 90 days after the date of enactment of this Act, by the President by and with the advice and consent of the Senate, from among qualified individuals nominated by the National Academy of Sciences in accordance with paragraph (2).

(2) NOMINATIONS.—Not later than 60 days after the date of enactment of this Act, after taking into strong consideration the guidance and recommendations of a broad range of scientific and technical societies that have the capability of recommending qualified individuals, the National Academy of Sciences shall nominate for appointment to the Review Board not fewer than 22 individuals who—

(A) are—

(i) qualified individuals; or

(ii) experts in a field of knowledge specified in section 1014(9)(B); and

(B) as a group represent broad, balanced expertise.

(3) PROHIBITION ON FEDERAL GOVERNMENT EMPLOYMENT.—A member of the Review Board shall not be an employee of the Federal Government.

(4) TERMS; VACANCIES.—

(A) TERMS.—

(i) IN GENERAL.—Subject to clause (ii), each member of the Review Board shall be appointed for a term of 4 years.

(ii) INITIAL TERMS.—

(I) COMMENCEMENT DATE.—The term of each member initially appointed to the Review Board shall commence 120 days after the date of enactment of this title.

(II) TERMINATION DATE.—Of the 11 members initially appointed to the Review Board, 5 members shall be appointed for a term of 2 years and 6 members shall be appointed for a term of 4 years, to be designated by the President at the time of appointment.

(B) VACANCIES.—

(i) IN GENERAL.—A vacancy on the Review Board shall be filled in the manner described in this subparagraph.

(ii) NOMINATIONS BY THE NATIONAL ACADEMY OF SCIENCES.—Not later than 60 days after the date on which a vacancy commences, the National Academy of Sciences shall—

(I) after taking into strong consideration the guidance and recommendations of a broad range of scientific and technical societies that have the capability of recommending qualified individuals, nominate, from among qualified individuals, not fewer than 2 individuals to fill the vacancy; and

(II) submit the names of the nominees to the President.

(iii) SELECTION.—Not later than 30 days after the date on which the nominations under clause (ii) are submitted to the President, the President shall select from among the nominees an individual to fill the vacancy.

(iv) SENATE CONFIRMATION.—An individual appointed to fill a vacancy on the Review Board shall be appointed by and with the advice and consent of the Senate.

(5) APPLICABILITY OF ETHICS IN GOVERNMENT ACT OF 1978.—A member of the Review Board shall be deemed to be an individual subject to the Ethics in Government Act of 1978 (5 U.S.C. App.).

(6) CHAIRPERSON; VICE CHAIRPERSON.—The members of the Review Board shall select a Chairperson and a Vice Chairperson of the Review Board from among the members of the Review Board.

(c) DUTIES.—

(1) IN GENERAL.—Not later than 180 days after the date of submission of the initial Strategy under section 1015(b), each updated version of the Strategy under section 1015(c), and each progress report under section 1015(d), the Review Board shall submit to the President, Congress, and the heads of Federal agencies as appropriate a report assessing the adequacy of the Strategy or report.

(2) COMMENTS.—In reviewing the Strategy or a report under paragraph (1), the Review Board shall consider and comment on—

(A) the adequacy of effort and the appropriateness of focus of the totality of all public, private, and public-private sector actions of the United States with respect to the 4 key elements;

(B) the extent to which actions of the United States, with respect to climate change, complement or leverage international research and other efforts designed to manage global emissions of greenhouse gases, to further the long-term goal of stabilization of greenhouse gas concentrations;

(C) the funding implications of any recommendations made by the Review Board; and

(D)(i) the effectiveness with which each Federal agency is carrying out the responsibilities of the Federal agency with respect to the short-term and long-term greenhouse gas management goals; and

(ii) the adequacy of the budget of each such Federal agency to carry out those responsibilities.

(3) ADDITIONAL RECOMMENDATIONS.—.

(A) IN GENERAL.—Subject to subparagraph (B), the Review Board, at the request of the President or Congress, may provide recommendations on additional climate change-related topics.

(B) SECONDARY DUTY.—The provision of recommendations under subparagraph (A) shall be a secondary duty to the primary duty of the Review Board of providing independent review of the Strategy and the reports under paragraphs (1) and (2).

(d) POWERS.—

(1) HEARINGS.—

(A) IN GENERAL.—On request of the Chairperson or a majority of the members of the Review Board, the Review Board may hold such hearings, meet and act at such times and places, take such testimony, and receive such evidence as the Review Board considers to be appropriate.

(B) ADMINISTRATION OF OATHS.—Any member of the Review Board may administer an oath or affirmation to any witness that appears before the Review Board.

(2) PRODUCTION OF DOCUMENTS.—

(A) IN GENERAL.—On request of the Chairperson or a majority of the members of the Review Board, and subject to applicable law, the Secretary or head of a Federal agency represented on the Interagency Task Force, or a contractor of such an agency, shall provide the Review Board with such records, files, papers, data, and information as are necessary to respond to any inquiry of the Review Board under this Act.

(B) Inclusion of work in progress.—Subject to applicable law, information obtainable under subparagraph (A)—

(i) shall not be limited to final work products; but

(ii) shall include draft work products and documentation of work in progress.

(3) Postal services.—The Review Board may use the United States mails in the same manner and under the same conditions as other agencies of the Federal Government.

(e) Compensation of Members.—A member of the Review Board shall be compensated at a rate equal to the daily equivalent of the annual rate of basic pay prescribed for level IV of the Executive Schedule under section 5315 of title 5, United States Code, for each day (including travel time) during which the member is engaged in the performance of the duties of the Review Board.

(f) Travel Expenses.—A member of the Review Board shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for an employee of an agency under subchapter I of chapter 57 of title 5, United States Code, while away from the home or regular place of business of the member in the performance of the duties of the Review Board.

(g) Staff.—

(1) In general.—The Chairperson of the Review Board may, without regard to the provisions of title 5, United States Code, regarding appointments in the competitive service, appoint and terminate an executive director and such other additional personnel as are necessary to enable the Review Board to perform the duties of the Review Board.

(2) Confirmation of executive director.—The employment of an executive director shall be subject to confirmation by the Review Board.

(3) Compensation.—

(A) In general.—Except as provided in subparagraph (B), the Chairperson of the Review Board may fix the compensation of the executive director and other personnel without regard to the provisions of chapter 51 and subchapter III of chapter 53 of title 5, United States Code, relating to classification of positions and General Schedule pay rates.

(B) Maximum rate of pay.—The rate of pay for the executive director and other personnel shall not exceed the rate payable for level V of the Executive Schedule under section 5316 of title 5, United States Code.

(h) Procurement of Temporary and Intermittent Services.—The Chairperson of the Review Board may procure temporary and intermittent services in accordance with section 3109(b) of title 5, United States Code, at rates for individuals that do not exceed the daily equivalent of the annual rate of basic pay prescribed for level V of the Executive Schedule under section 5316 of that title.

SEC. 1020. AUTHORIZATION OF APPROPRIATIONS.

(a) White House Office.—

(1) Use of available appropriations.—From funds made available to Federal agencies for the fiscal year in which this Title is enacted, the President shall provide such sums as are necessary to carry out the duties of the White House Office under this title until the date on which funds are made available under paragraph (2).

(2) Authorization of appropriations.—There is authorized to be appropriated to the White House Office to carry out the duties of the White House Office under this Title $5,000,000 for each of fiscal years 2003 through 2011, to remain available through September 30, 2011.

(b) Department Office.—

(1) Use of available appropriations.—From funds made available to Federal agencies for the fiscal year in which this title is enacted, the President shall provide such sums as are necessary to carry out the duties of the Department Office under this Title until the date on which funds are made available under paragraph (2).

(2) Authorization of appropriations.—There is authorized to be appropriated to the Department Office to carry out the duties of the Department Office under this title $4,750,000,000 for the period of fiscal years 2003 through 2011, to remain available through September 30, 2011.

(c) Review Board.—

(1) Use of available appropriations.—From funds made available to Federal agencies for the fiscal year in which this title is enacted, the President shall provide such sums as are necessary to carry out the duties of the Review Board under this title until the date on which funds are made available under paragraph (2).

(2) Authorization of appropriations.—There is authorized to be appropriated to the Review Board to carry out the duties of the Review Board under this title $3,000,000 for each of fiscal years 2003 through 2011, to remain available until expended.

(d) Additional Amounts.—Amounts authorized to be appropriated under this section shall be in addition to—

(1) amounts made available to carry out the United States Global Change Research Program under the Global Change Research Act of 1990 (15 U.S.C. 2921 et seq.); and

(2) amounts made available under other provisions of law for energy research and development.

Subtitle C—Science and Technology Policy

SEC. 1031. GLOBAL CLIMATE CHANGE IN THE OFFICE OF SCIENCE AND TECHNOLOGY POLICY.

Section 101(b) of the National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6601(b)) is amended—

(1) by redesignating paragraphs (7) through (13) as paragraphs (8) through (14), respectively; and

(2) by inserting after paragraph (6) the following:

"(7) improving efforts to understand, assess, predict, mitigate, and respond to global climate change;".

SEC. 1032. ESTABLISHMENT OF ASSOCIATE DIRECTOR FOR GLOBAL CLIMATE CHANGE.

Section 203 of the National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6612) is amended—

(1) by striking "four" in the second sentence and inserting "five"; and

(2) by striking "title." in the second sentence and inserting "title, one of whom shall be responsible for global climate change science and technology under the Office of Science and Technology Policy.".

Subtitle D—Miscellaneous Provisions

SEC. 1041. ADDITIONAL INFORMATION FOR REGULATORY REVIEW.

In each case that an agency prepares and submits a Statement of Energy Effects pursuant to Executive Order 13211 of May 18, 2001 (relating to actions concerning regulations that significantly affect energy supply, distribution, or use), or as part of compliance with Executive Order 12866 of September 30, 1993 (relating to regulatory planning and review) or its successor, the agency shall also submit an estimate of the change in net annual greenhouse gas emissions resulting from the proposed significant energy action. In the case in which there is an increase in net annual greenhouse gas emissions as a result of the proposed significant energy action, the agency shall indicate what policies or measures will be undertaken to mitigate or offset the increased emissions.

SEC. 1042. GREENHOUSE GAS EMISSIONS FROM FEDERAL FACILITIES.

(a) Methodology.—

(1) In general.—Not later than one year after the date of enactment of this section, the Secretary of Energy, Secretary of Agriculture, Secretary of Commerce, and Administrator of the Environmental Protection Agency shall publish a jointly developed methodology for preparing estimates of annual net greenhouse gas emissions from all Federally owned, leased, or operated facilities and emission sources, including mobile sources.

(2) Indirect and other emissions.—The methodology under paragraph (1) shall include emissions resulting from any Federal procurement action with an annual Federal expenditure of greater than $100 million, indirect emissions associated with Federal electricity consumption, and other emissions resulting from Federal actions that the heads of the agencies under paragraph (1) may jointly decide to include in the estimates.

(b) Publication.—Not later than 18 months after the date of enactment of this section, and annually thereafter, the Secretary of Energy shall publish an estimate of annual net greenhouse gas emissions from all Federally owned, leased, or operated facilities and emission sources, using the methodology published under subsection (a).-

TITLE1 XI—NATIONAL GREENHOUSE GAS DATABASE

SEC. 1101. PURPOSE.

The purpose of this title is to establish a greenhouse gas inventory, reductions registry, and information system that—

(1) is complete, consistent, transparent, and accurate;

(2) will create reliable and accurate data that can be used by public and private entities to design efficient and effective greenhouse gas emission reduction strategies; and,

(3) will encourage and acknowledge greenhouse gas emissions reductions.

SEC. 1102. DEFINITIONS.

In this title—

(1) Database.—The term "database" means the National Greenhouse Gas Database established under section 1104.

(2) Designated agency or agencies.— The term "Designated Agency or Agencies" means the Department or Departments and/or Agency or Agencies given the responsibility for a function or program under the Memorandum of Agreement entered into pursuant to Section 1103.

(3) Direct emissions.—The term "direct emissions" means greenhouse gas emissions by an entity from a facility that is owned or controlled by that entity.-

(4) Entity.—The term "entity" means—

(A) a person located in the United States; or

(B) a public or private entity, to the extent that the entity operates in the United States.

(5) Facility.—The term "facility" means all buildings, structures, or installations located on any one or more of contiguous or adjacent property or properties, or a fleet of

20 or more transportation vehicles, under common control of the same entity.

(6) GREENHOUSE GAS.—The term ''greenhouse gas'' means—

(A) carbon dioxide;

(B) methane;

(C) nitrous oxide;

(D) hydrofluororcarbons;

(E) perfluorocarbons; and

(F) sulfur hexafluoride.

(7) INDIRECT EMISSIONS.—The term 'indirect emissions' means greenhouse gas emissions that are a consequence of the activities of an entity but that are emitted from a facility owned or controlled by another entity and are not already reported as direct emissions by a covered entity.

(8) SEQUESTRATION.—The term 'sequestration' means the capture, long-term separation; isolation, or removal of greenhouse gases from the atmosphere, including through a biological or geologic method such as reforestation or an underground reservoir.

SEC. 1103. ESTABLISHMENT OF MEMORANDUM OF AGREEMENT.

(a) Not later than one year after the date of enactment of this title, the President, acting through the Chairman of the Council on Environmental Quality, shall direct the Department of Energy, the Department of Commerce, the Department of Agriculture, the Department of Transportation and the Environmental Protection Agency, to enter into a Memorandum of Agreement that will—

(1) recognize and maintain existing statutory and regulatory authorities, functions and programs that collect data on greenhouse gas emissions and effects and that are necessary for the operation of the National Greenhouse Gas Database;

(2) distribute additional responsibilities and activities identified by this title to Federal departments or agencies according to their mission and expertise and to maximize the use of existing resources; and

(3) provide for the comprehensive collection and analysis of data on the emissions related to product use, including fossil fuel and energy consuming appliances and vehicles.

(b) The Memorandum of Agreement entered into under subsection (a) shall, at a minimum, retain the following functions for the respective Departments and agencies:

(1) The Department of Energy shall be primarily responsible for developing, maintaining, and verifying the emissions reduction registry, under both this title and its authority under section 1605(b) of the Energy Policy Act of 1992 (42 U.S.C. 13385(b)).

(2) The Department of Commerce shall be primarily responsible for the development of measurement standards for emissions monitoring and verification technologies and methods to ensure that there is a consistent and technically accurate record of emissions, reductions and atmospheric concentrations of greenhouse gases for the database under this title.

(3) The Environmental Protection Agency shall be primarily responsible for emissions monitoring, measurement, verification and data collection, pursuant to this title and existing authority under Titles IV and VIII of the Clean Air Act, and including mobile source emissions information from implementation of the Corporate Average Fuel Economy program (49 U.S.C. Chapter 329), and the Agency's role in completing the national inventory for compliance with the United Nations Framework Convention on Climate Change.

(c) The Chairman shall publish a draft version of the Memorandum of Agreement in the Federal Register and solicit comments on it as soon as practicable and publish the final Memorandum of Agreement in the Federal Register not later than 15 months after the date of enactment of this title.

(d) The final Memorandum of Agreement shall not be subject to judicial review.

SEC. 1104. NATIONAL GREENHOUSE GAS DATABASE.

(a) ESTABLISHMENT.—The Designated Agency or Agencies, working in consultation with the private sector and nongovernmental organizations, shall establish, operate and maintain a database to be known as the National Greenhouse Gas Database to collect, verify, and analyze information on—

(1) greenhouse gas emissions by entities located in the United States; and

(2) greenhouse gas emission reductions by entities based in the United States.

(b) NATIONAL GREENHOUSE GAS DATABASE COMPONENTS.—The database shall consist of an inventory of greenhouse gas emissions and a registry of greenhouse gas emissions reductions.

(c) DEADLINE.—Not later than 2 years after the date of enactment of this title, the Designated Agency or Agencies shall promulgate a rule to implement a comprehensive system for greenhouse gas emissions reporting, inventorying and reductions registration. The Designated Agency or Agencies shall ensure that the system is designed to maximize completeness, transparency, and accuracy and to minimize measurement and reporting costs for covered entities.

(d) REQUIRED ELEMENTS OF DATABASE REPORTING SYSTEM.—

(1) MANDATORY REPORTING.—

(A) Beginning one year after promulgation of the final rule issued under subsection (c), each entity that exceeds the greenhouse gas emissions threshold in paragraph (2) shall report annually to the Designated Agency or Agencies, for inclusion in the National Greenhouse Gas Database, the entity-wide emissions of greenhouse gases in the previous calendar year. Such reports are due annually to the Designated Agency or Agencies, but must be submitted no later than April 30 of each calendar year in support of the previous years' emission reporting requirements.

(B) Each report submitted shall include:

(i) direct emissions from stationary sources;

(ii) direct emissions from vehicles owned or controlled by a covered entity;

(iii) direct emissions from any land use activities that release significant quantities of greenhouse gases;

(iv) indirect emissions from all outsourced activities, contract manufacturing, wastes transferred from the control of an entity, and other relevant instances, as determined to be practicable under the rule;

(v) indirect emissions from electricity, heat, and steam imported from another entity, as determined to be practicable under the rule;

(vi) the production, distribution or import of greenhouse gases listed under section 1102 by an entity; and

(vii) such other categories, which the designated Agency or Agencies determine by rule, after public notice and comment, should be included to accomplish the purposes of this title.

(C) Each report shall include total mass quantities for each greenhouse gas emitted, and in terms of carbon dioxide equivalent.

(D) Each report shall include the greenhouse gas emissions per unit of output by an entity, such as tons of carbon dioxide per kilowatt-hour or a similar metric.

(E) The first report shall be required to be submitted not later than April 30 of the fourth year after the date of enactment of this title.

(2) THRESHOLD FOR REPORTING.—

(A) An entity shall not be required to make a report under paragraph (1) unless:

(i) the total greenhouse gas emissions of at least one facility owned by an entity in the calendar year for reporting exceeds 10,000 metric tons of carbon dioxide equivalent, or a greater level as determined by rule; or,

(ii) the total quantity of greenhouse gases produced, distributed or imported by the entity exceeds 10,000 metric tons of carbon dioxide equivalent, or a greater level as determined by rule.

(B) the final rule promulgated under section 1104(c) and subsequent revisions to that rule with respect to the threshold for reporting in subparagraph (A) shall capture information on no less than 75 percent of anthropogenic greenhouse gas emissions from entities.

(3) METHOD OF REPORTING.—Entity-wide emissions shall be reported at the facility level.

(4) ADDITIONAL VOLUNTARY REPORTING.—An entity may voluntarily report to the Designated Agency or Agencies, for inclusion in the registry portion of the national database—

(A) with respect to the preceding calendar year and any greenhouse gas emitted by the entity—

(i) project reductions from facilities owned or controlled by the reporting entity in the United States;

(ii) transfers of project reductions to and from any other entity;

(iii) project reductions and transfers of project reductions outside the United States;

(iv) other indirect emissions that are not required to be reported under subsection (d); and

(v) product use phase emissions; and

(B) with respect to greenhouse gas emissions reductions activities carried out since 1990 and verified according to rules implementing subparagraphs (6) and (8) of this subsection and submitted to the Designated Agency or Agencies before the date that is three years after the date of enactment of this title, those reductions that have been reported or submitted by an entity under section 1605(b) of the Energy Policy Act of 1992 (42 U.S.C. 13385(b)) or under other Federal or State voluntary greenhouse gas reduction programs.

(5) TYPES OF ACTIVITIES.—Under paragraph (4), an entity may report projects that reduce greenhouse gas emissions or sequester a greenhouse gas, including—

(A) fuel switching;

(B) energy efficiency improvements;

(C) use of renewable energy;

(D) use of combined heat and power systems;

(E) management of cropland, grassland, and grazing land;

(F) forestry activities that increase forest carbon stocks or reduce forest carbon emissions;

(G) carbon capture and storage;

(H) methane recovery; and

(I) greenhouse gas offset investments.

(6) PROVISION OF VERIFICATION INFORMATION BY REPORTING ENTITIES.—Each reporting entity shall provide information sufficient for the Designated Agency or Agencies to verify, in accordance with measurement and verification criteria developed under Section 1106, that the greenhouse gas report of the reporting entity—

(A) has been accurately reported; and

(B) in the case of each additional voluntary report, represents—

(i) actual reductions in direct greenhouse gas emissions relative to historic emission levels and net of any increases in direct emissions and indirect emissions described in clauses (iv) and (v) of paragraph (1)(B), or

(ii) actual increases in net sequestration.

(7) INDEPENDENT THIRD-PARTY VERIFICATION.—A reporting entity may—

(A) obtain independent third-party verification; and

(B) present the results of the third-party verification to the Designated Agency or Agencies for consideration by the Designated Agency or Agencies in carrying out paragraph (1).

(8) DATA QUALITY.—The rule under subsection (c)shall establish procedures and protocols needed to—

(A) prevent the reporting of some or all of the same greenhouse gas emissions or emission reductions by more than one reporting entity;

(B) provide for corrections to errors in data submitted to the database;

(C) provide for adjustment to data by reporting entities that have had a significant organizational change (including mergers, acquisitions, and divestiture), in order to maintain comparability among data in the database over time;

(D) provide for adjustments to reflect new technologies or methods for measuring or calculating greenhouse gas emissions; and,

(E) account for changes in registration of ownership of emissions reductions resulting from a voluntary private transaction between reporting entities.

(9) AVAILABILITY OF DATA.—The Designated Agency or Agencies shall ensure that information in the database is published, accessible to the public, and made available in electronic format on the Internet, except in cases where the Designated Agency or Agencies determine that publishing or making available the information would disclose information vital to national security.

(10) DATA INFRASTRUCTURE.—The Designated Agency or Agencies shall ensure that the database established by this Act shall utilize and is integrated with existing Federal, regional, and state greenhouse gas data collection and reporting systems to the maximum extent possible and avoid duplication of such systems.

(11) ADDITIONAL ISSUES TO BE CONSIDERED.—In promulgating the rules for and implementing the Database, the Designated Agency or Agencies shall consider a broad range of issues involved in establishing an effective database, including the following:

(A) UNITS FOR REPORTING.—The appropriate units for reporting each greenhouse gas, and whether to require reporting of emission efficiency rates (including emissions per kilowatt-hour for electricity generators) in addition to mass emissions of greenhouse gases.

(B) INTERNATIONAL CONSISTENCY.—The greenhouse gas reduction and sequestration methods and standards applied in other countries, as applicable or relevant; and

(C) DATA SUFFICIENCY.—The extent to which available fossil fuels, greenhouse gas emissions, and greenhouse gas production and importation data are adequate to implement a comprehensive National Greenhouse Gas Database.

(e) ENFORCEMENT.—The Attorney General may, at the request of the Designated Agency or Agencies, bring a civil action in United States District Court against an entity that fails to comply with reporting requirements under this section, to impose a civil penalty of not more than $25,000 for each day that the failure to comply continues.

(f) ANNUAL REPORT.—The Designated Agency or Agencies shall publish an annual report that—

(1) describes the total greenhouse gas emissions and emission reductions reported to the database;

(2) provides entity-by-entity and sector-by-sector analyses of the emissions and emission reductions reported, and

(3) describes the atmospheric concentrations of greenhouse gases and tracks such information over time.

SEC. 1105. REPORT ON STATUTORY CHANGES AND HARMONIZATION.

Not later than 3 years after the date of enactment of this title, the President shall submit to Congress a report identifying any changes needed to this title or to other provisions of law to improve the accuracy or operation of the Greenhouse Gas Database and related programs under this title.

SEC. 1106. MEASUREMENT AND VERIFICATION.

The Designated Agency or Agencies shall, not later than 1 year after the date of enactment of this title, design and develop comprehensive measurement and verification methods and standards to ensure a consistent and technically accurate record of greenhouse gas emissions, reductions, and atmospheric concentrations for use in the national greenhouse gas database. The Agency or Agencies shall periodically review and revise these methods and standards as necessary.

SEC. 1107. INDEPENDENT REVIEW.

(a) The General Accounting Office shall submit a report to Congress five years after the date of enactment of this title, and every three years thereafter, providing a review of the efficacy of the implementation and operation of the National Greenhouse Gas Database established in section 1104 and making recommendations for improvements to the programs created pursuant to this title and changes to the law that will achieve a consistent and technically accurate record of greenhouse gas emissions, reductions, and atmospheric concentrations and the other purposes of this title.

(b) The Designated Agency or Agencies shall enter into an agreement with the National Academy of Sciences to review the scientific methods, assumptions and standards used by the Agency or Agencies implementing this title, and to report to Congress not later than four years after the date of enactment of this title with recommendations for improving those methods and standards or related elements of the programs or structure of the reporting and registry system established by this title.

SEC. 1108. AUTHORIZATION OF APPROPRIATIONS.

There is authorized to be appropriated such sums as are necessary to carry out the activities and programs included in this title.

DIVISION E—ENHANCING RESEARCH, DEVELOPMENT, AND TRAINING

TITLE XII—ENERGY RESEARCH AND DEVELOPMENT PROGRAMS

SEC. 1201. SHORT TITLE.

This division may be cited as the "Energy Science and Technology Enhancement Act of 2002".

SEC. 1202. FINDINGS.

The Congress finds the following:

(1) A coherent national energy strategy requires an energy research and development program that supports basic energy research and provides mechanisms to develop, demonstrate, and deploy new energy technologies in partnership with industry.

(2) An aggressive national energy research, development, demonstration, and technology deployment program is an integral part of a national climate change strategy, because it can reduce—

(A) United States energy intensity by 1.9 percent per year from 1999 to 2020;

(B) United States energy consumption in 2020 by 8 quadrillion Btu from otherwise expected levels; and

(C) United States carbon dioxide emissions from expected levels by 166 million metric tons in carbon equivalent in 2020.

(3) An aggressive national energy research, development, demonstration, and technology deployment program can help maintain domestic United States production of energy, increase United States hydrocarbon reserves by 14 percent, and lower natural gas prices by 20 percent, compared to estimates for 2020.

(4) An aggressive national energy research, development, demonstration, and technology deployment program is needed if United States suppliers and manufacturers are to compete in future markets for advanced energy technologies.

SEC. 1203. DEFINITIONS.

In this title:

(1) DEPARTMENT.—The term "Department" means the Department of Energy.

(2) DEPARTMENTAL MISSION.—The term "departmental mission" means any of the functions vested in the Secretary of Energy by the Department of Energy Organization Act (42 U.S.C. 7101 et seq.) or other law.

(3) INSTITUTION OF HIGHER EDUCATION.—The term "institution of higher education" has the meaning given that term in section 1201(a) of the Higher Education Act of 1965 (20 U.S.C. 1141(a));

(4) NATIONAL LABORATORY.—The term "National Laboratory" means any of the following multi-purpose laboratories owned by the Department of Energy—

(A) Argonne National Laboratory;

(B) Brookhaven National Laboratory;

(C) Idaho National Engineering and Environmental Laboratory;

(D) Lawrence Berkeley National Laboratory;

(E) Lawrence Livermore National Laboratory;

(F) Los Alamos National Laboratory;

(G) National Energy Technology Laboratory;

(H) National Renewable Energy Laboratory;

(I) Oak Ridge National Laboratory;

(J) Pacific Northwest National Laboratory; or

(K) Sandia National Laboratory.

(5) SECRETARY.—The term "Secretary" means the Secretary of Energy.

(6) TECHNOLOGY DEPLOYMENT.—The term "technology deployment" means activities to promote acceptance and utilization of technologies in commercial application, including activities undertaken pursuant to section 7 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5906) or section 6 of the Renewable Energy and Energy Efficiency Technology Competitiveness Act of 1989 (42 U.S.C. 12007).

SEC. 1204. CONSTRUCTION WITH OTHER LAWS.

Except as otherwise provided in this title and title XIV, the Secretary shall carry out the research, development, demonstration, and technology deployment programs authorized by this title in accordance with the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.), the Federal Nonnuclear Research and Development Act of 1974 (42 U.S.C. 5901 et seq.), the Energy Policy Act of 1992 (42 U.S.C.13201 et seq.), or any other Act under which the Secretary is authorized to carry out such activities.

Subtitle A—Energy Efficiency

SEC. 1211. ENHANCED ENERGY EFFICIENCY RESEARCH AND DEVELOPMENT.

(a) PROGRAM DIRECTION.—The Secretary shall conduct balanced energy research, development, demonstration, and technology deployment programs to enhance energy efficiency in buildings, industry, power technologies, and transportation.

(b) PROGRAM GOALS.—

(1) ENERGY-EFFICIENT HOUSING.—The goal of the energy-efficient housing program shall be to develop, in partnership with industry, enabling technologies (including lighting technologies), designs, production methods, and supporting activities that will, by 2010—

(A) cut the energy use of new housing by 50 percent, and

(B) reduce energy use in existing homes by 30 percent.

(2) INDUSTRIAL ENERGY EFFICIENCY.—The goal of the industrial energy efficiency program shall be to develop, in partnership with industry, enabling technologies, designs, production methods, and supporting activities that will, by 2010, enable energy-intensive industries such as the following industries to reduce their energy intensity by at least 25 percent—

(A) the wood product manufacturing industry;

(B) the pulp and paper industry;

(C) the petroleum and coal products manufacturing industry;

(D) the mining industry;

(E) the chemical manufacturing industry;

(F) the glass and glass product manufacturing industry;

(G) the iron and steel mills and ferroalloy manufacturing industry;

(H) the primary aluminum production industry;

(I) the foundries industry; and

(J) U.S. agriculture.

(3) TRANSPORTATION ENERGY EFFICIENCY.—The goal of the transportation energy efficiency program shall be to develop, in partnership with industry, technologies that will enable the achievement—

(A) by 2010, passenger automobiles with a fuel economy of 80 miles per gallon;

(B) by 2010, light trucks (classes 1 and 2a) with a fuel economy of 60 miles per gallon;

(C) by 2010, medium trucks and buses (classes 2b through 6 and class 8 transit buses) with a fuel economy, in ton-miles per gallon, that is three times that of year 2000 equivalent vehicles;

(D) by 2010, heavy trucks (classes 7 and 8) with a fuel economy, in ton-miles per gallon, that is two times that of year 2000 equivalent vehicles; and

(E) by 2015, the production of fuel-cell powered passenger vehicles with a fuel economy of 110 miles per gallon.

(4) ENERGY EFFICIENT DISTRIBUTED GENERATION—The goals of the energy efficient onsite generation program shall be to help remove environmental and regulatory barriers to on-site, or distributed, generation and combined heat and power by developing technologies by 2015 that achieve—

(A) electricity generating efficiencies greater than 40 percent for on-site generation technologies based upon natural gas, including fuel cells, microturbines, reciprocating engines and industrial gas turbines;

(B) combined heat and power total (electric and thermal) efficiencies of more than 85 percent;

(C) fuel flexibility to include hydrogen, biofuels and natural gas;

(D) near zero emissions of pollutants that form smog and acid rain;

(E) reduction of carbon dioxide emissions by at least 40 percent;

(F) packaged system integration at end user facilities providing complete services in heating, cooling, electricity and air quality; and

(G) increased reliability for the consumer and greater stability for the national electricity grid.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out research, development, demonstration, and technology deployment activities under this subtitle—

(1)$700,000,000 for fiscal year 2003;

(2) $784,000,000 for fiscal year 2004;

(3) $878,000,000 for fiscal year 2005; and

(4) $983,000,000 for fiscal year 2006.

(d) LIMITATION ON USE OF FUNDS.—None of the funds authorized to be appropriated in subsection (c) may be used for the following programs of the Department—

(1) Weatherization Assistance Program;

(2) State Energy Program; or

(3) Federal Energy Management Program.

SEC. 1212. ENERGY EFFICIENCY SCIENCE INITIATIVE.

(a) ESTABLISHMENT AND AUTHORIZATION OF APPROPRIATIONS.—From amounts authorized under section 1211(c), there are authorized to be appropriated not more than $50,000,000 in any fiscal year, for an Energy Efficiency Science Initiative to be managed by the Assistant Secretary in the Department with responsibility for energy conservation under section 203(a)(9) of the Department of Energy Organization Act (42 U.S.C. 7133(a)(9)), in consultation with the Director of the Office of Science, for grants to be competitively awarded and subject to peer review for research relating to energy efficiency.

(b) REPORT.—The Secretary of Energy shall submit to the Committee on Science and the Committee on Appropriations of the United States House of Representatives, and to the Committee on Energy and Natural Resources and the Committee on Appropriations of the United States Senate, an annual report on the activities of the Energy Efficiency Science Initiative, including a description of the process used to award the funds and an explanation of how the research relates to energy efficiency.

SEC. 1213. NEXT GENERATION LIGHTING INITIATIVE.

(a) ESTABLISHMENT.—There is established in the Department a Next Generation Lighting Initiative to research, develop, and conduct demonstration activities on advanced solid-state lighting technologies based on white light emitting diodes.

(b) OBJECTIVES.—

(1) IN GENERAL.—The objectives of the initiative shall be to develop, by 2011, advanced solid-state lighting technologies based on white light emitting diodes that, compared to incandescent and fluorescent lighting technologies, are—

(A) longer lasting;

(B) more energy-efficient; and

(C) cost-competitive.

(2) INORGANIC WHITE LIGHT EMITTING DIODE.—The objective of the initiative with respect to inorganic white light emitting diodes shall be to develop an inorganic white light emitting diode that has an efficiency of 160 lumens per watt and a 10-year lifetime.

(3) ORGANIC WHITE LIGHT EMITTING DIODE.—The objective of the initiative with respect to organic white light emitting diodes shall be to develop an organic white light emitting diode with an efficiency of 100 lumens per watt with a 5-year lifetime that—

(A) illuminates over a full color spectrum;

(B) covers large areas over flexible surfaces; and

(C) does not contain harmful pollutants typical of fluorescent lamps such as mercury.

(c) CONSORTIUM.—

(1) IN GENERAL.—The Secretary shall initiate and manage basic and manufacturing-related research on advanced solid-state lighting technologies based on white light emitting diodes for the initiative, in cooperation with the Next Generation Lighting Initiative Consortium.

(2) COMPOSITION.—The consortium shall be composed of firms, national laboratories, and other entities so that the consortium is representative of the United States solid state lighting research, development, and manufacturing expertise as a whole.

(3) FUNDING.—The consortium shall be funded by—

(A) participation fees; and

(B) grants provided under subsection (e)(1).

(4) ELIGIBILITY.—To be eligible to receive a grant under subsection (e)(1), the consortium shall—

(A) enter into a consortium participation agreement that—

(i) is agreed to by all participants; and

(ii) describes the responsibilities of participants, participation fees, and the scope of research activities; and

(B) develop an annual program plan.

(5) INTELLECTUAL PROPERTY.—Participants in the consortium shall have royalty-free nonexclusive rights to use intellectual property derived from consortium research conducted under subsection (e)(1).

(d) PLANNING BOARD.—

(1) IN GENERAL.—Not later than 90 days after the establishment of the consortium, the Secretary shall establish and appoint the members of a planning board, to be known as the "Next Generation Lighting Initiative Planning Board", to assist the Secretary in carrying out this section.

(2) COMPOSITION.—The planning board shall be composed of—

(A) 4 members from universities, national laboratories, and other individuals with expertise in advanced solid-state lighting and technologies based on white light emitting diodes; and

(B) 3 members from a list of not less than 6 nominees from industry submitted by the consortium.

(3) STUDY.—

(A) IN GENERAL.—Not later than 90 days after the date on which the Secretary appoints members to the planning board, the planning board shall complete a study on strategies for the development and implementation of advanced solid-state lighting technologies based on white light emitting diodes.

(B) REQUIREMENTS.—The study shall develop a comprehensive strategy to implement, through the initiative, the use of white light emitting diodes to increase energy efficiency and enhance United States competitiveness.

(C) IMPLEMENTATION.—As soon as practicable after the study is submitted to the Secretary, the Secretary shall implement the initiative in accordance with the recommendations of the planning board.

(4) Termination.—The planning board shall terminate upon completion of the study under paragraph (3).

(e) Grants.—

(1) Fundamental research.—The Secretary, through the consortium, shall make grants to conduct basic and manufacturing-related research related to advanced solid-state lighting technologies based on white light emitting diode technologies.

(2) Technology development and demonstration.—The Secretary shall enter into grants, contracts, and cooperative agreements to conduct or promote technology research, development, or demonstration activities. In providing funding under this paragraph, the Secretary shall give preference to participants in the consortium.

(3) Continuing assessment.—The consortium, in collaboration with the Secretary, shall formulate annual operating and performance objectives, develop technology roadmaps, and recommend research and development priorities for the initiative. The Secretary may also establish or utilize advisory committees, or enter into appropriate arrangements with the National Academy of Sciences, to conduct periodic reviews of the initiative. The Secretary shall consider the results of such assessment and review activities in making funding decisions under paragraphs (1) and (2) of this subsection.

(4) Technical assistance.—The National Laboratories shall cooperate with and provide technical assistance to persons carrying out projects under the initiative.

(5) Audits.—

(A) In general.—The Secretary shall retain an independent, commercial auditor to determine the extent to which funds made available under this section have been expended in a manner that is consistent with the objectives under subsection (b) and, in the case of funds made available to the consortium, the annual program plan of the consortium under subsection (c)(4)(B).

(B) Reports.—The auditor shall submit to Congress, the Secretary, and the Comptroller General of the United States an annual report containing the results of the audit.

(6) Applicable law.—Grants, contracts, and cooperative agreements under this section shall not be subject to the Federal Acquisition Regulation.

(f) Protection of Information.—Information obtained by the Federal Government on a confidential basis under this section shall be considered to constitute trade secrets and commercial or financial information obtained from a person and privileged or confidential under section 552(b)(4) of title 5, United States Code.

(g) Authorization of Appropriations.—In addition to amounts authorized under section 1211(c), there are authorized to be appropriated for activities under this section **$50,000,000** for each of fiscal years 2003 through 2011.

(h) Definitions.—In this section:

(1) Advanced solid-state lighting.—The term "advanced solid-state lighting" means a semiconducting device package and delivery system that produces white light using externally applied voltage.

(2) Consortium.—The term "consortium" means the Next Generation Lighting Initiative Consortium under subsection (c).

(3) Initiative.—The term "initiative" means the Next Generation Lighting Initiative established under subsection (a).

(4) inorganic white light emitting diode.—The term "inorganic white light emitting diode" means an inorganic semiconducting package that produces white light using externally applied voltage.

(5) Organic white light emitting diode.—The term "organic white light emitting diode" means an organic semiconducting compound that produces white light using externally applied voltage.

(6) White light emitting diode.—The term "white light emitting diode" means—

(A) an inorganic white light emitting diode; or

(B) an organic white light emitting diode.

SEC. 1214. RAILROAD EFFICIENCY.

(a) Establishment.—The Secretary shall, in cooperation with the Secretaries of Transportation and Defense, and the Administrator of the Environmental Protection Agency, establish a public-private research partnership involving the federal government, railroad carriers, locomotive manufacturers, and the Association of American Railroads. The goal of the initiative shall include developing and demonstrating locomotive technologies that increase fuel economy, reduce emissions, improve safety, and lower costs.

(b) Authorization of Appropriations.—There are authorized to be appropriated to carry out the requirements of this section **$60,000,000** for fiscal year 2003 and **$70,000,000** for fiscal year 2004.

Subtitle B—Renewable Energy

SEC. 1221. ENHANCED RENEWABLE ENERGY RESEARCH AND DEVELOPMENT.

(a) Program Direction.—The Secretary shall conduct balanced energy research, development, demonstration, and technology deployment programs to enhance the use of renewable energy.

(b) Program Goals.—

(1) Wind power.—The goals of the wind power program shall be to develop, in partnership with industry, a variety of advanced wind turbine designs and manufacturing technologies that are cost-competitive with fossil-fuel generated electricity, with a focus on developing advanced low wind speed technologies that, by 2007, will enable the expanding utilization of widespread class 3 and 4 winds.

(2) Photovoltaics.—The goal of the photovoltaic program shall be to develop, in partnership with industry, total photovoltaic systems with installed costs of **$4000** per peak kilowatt by 2005 and **$2000** per peak kilowatt by 2015.

(3) Solar thermal electric systems.—The goal of the solar thermal electric systems program shall be to develop, in partnership with industry, solar power technologies (including baseload solar power) that are competitive with fossil-fuel generated electricity by 2015, by combining high-efficiency and high-temperature receivers with advanced thermal storage and power cycles.

(4) Biomass-based power systems.—The goal of the biomass program shall be to develop, in partnership with industry, integrated power-generating systems, advanced conversion, and feedstock technologies capable of producing electric power that is cost-competitive with fossil-fuel generated electricity by 2010, together with the production of fuels, chemicals, and other products under paragraph (6).

(5) Geothermal energy.—The goal of the geothermal program shall be to develop, in partnership with industry, technologies and processes based on advanced hydrothermal systems and advanced heat and power systems, including geothermal heat pump technology, with a specific focus on—

(A) improving exploration and characterization technology to increase the probability of drilling successful wells from 20 percent to 40 percent by 2006;

(B) reducing the cost of drilling by 2008 to an average cost of **$150** per foot; and

(C) developing enhanced geothermal systems technology with the potential to double the useable geothermal resource base.

(6) Biofuels.—The goal of the biofuels program shall be to develop, in partnership with industry, advanced biochemical and thermochemical conversion technologies capable of making liquid and gaseous fuels from cellulosic feedstocks, that are price-competitive with gasoline or diesel, in either internal combustion engines or fuel cell vehicles, by 2010.

(7) Hydrogen-based energy systems.—The goals of the hydrogen program shall be to support research and development on technologies for production, storage, and use of hydrogen, including fuel cells and, specifically, fuel-cell vehicle development activities under section 1211.

(8) Hydropower.—The goal of the hydropower program shall be to develop, in partnership with industry, a new generation of turbine technologies that are less damaging to fish and aquatic ecosystems.

(9) Electric energy systems and storage.—The goals of the electric energy and storage program shall be to develop, in partnership with industry—

(A) generators and transmission, distribution, and storage systems that combine high capacity with high efficiency;

(B) technologies to interconnect distributed energy resources with electric power systems, comply with any national interconnection standards, have a minimum 10-year useful life;

(C) advanced technologies to increase the average efficiency of electric transmission facilities in rural and remote areas, giving priority for demonstrations to advanced transmission technologies that are being or have been field tested;

(D) the use of new transmission technologies, including composite conductor materials, advanced protection devices, controllers, and other cost-effective methods and technologies;

(E) the use of superconducting materials in power delivery equipment such as transmission and distribution cables, transformers, and generators;

(F) energy management technologies for enterprises with aggregated loads and distributed generation, such as power parks;

(G) economic and system models to measure the costs and benefits of improved system performance;

(H) hybrid distributed energy systems to optimize two or more distributed or on-site generation technologies; and

(I) real-time transmission and distribution system control technologies that provide for continual exchange of information between generation, transmission, distribution, and end-user facilities.

(c) Special Projects.—In carrying out this section, the Secretary shall demonstrate—

(1) the use of advanced wind power technology, biomass, geothermal energy systems, and other renewable energy technologies to assist in delivering electricity to rural and remote locations; and

(2) the combined use of wind power and coal gasification technologies.

(d) Financial Assistance to Rural Areas.—In carrying out special projects under subsection (c), the Secretary may provide financial assistance to rural electric cooperatives and other rural entities.

(e) Authorization of Appropriations.—There are authorized to be appropriated to the Secretary for carrying out research, development, demonstration, and technology deployment activities under this subtitle—

(1) $500,000,000 for fiscal year 2003;

(2) $595,000,000 for fiscal year 2004;

(3) $683,000,000 for fiscal year 2005; and

(4) $733,000,000 for fiscal year 2006.

SEC. 1222. BIOENERGY PROGRAMS.

(a) Program Direction.—The Secretary shall carry out research, development, demonstration, and technology development activities related to bioenergy, including programs under paragraphs (4) and (6) of section 1221(b).

(b) Authorization of Appropriations.—

(1) Biopower energy systems.—From amounts authorized under section 1221(e), there are authorized to be appropriated to the Secretary for biopower energy systems—

(A) $60,300,000 for fiscal year 2003;

(B) $69,300,000 for fiscal year 2004;

(C) $79,600,000 for fiscal year 2005; and

(D) $86,250,000 for fiscal year 2006.

(2) Biofuels energy systems.—From amounts authorized under section 1221(e), there are authorized to be appropriated to the Secretary for biofuels energy systems—

(A) $57,500,000 for fiscal year 2003;

(B) $66,125,000 for fiscal year 2004;

(C) $76,000,000 for fiscal year 2005; and

(D) $81,400,000 for fiscal year 2006.

(3) Integrated bioenergy research and development.—The Secretary may use funds authorized under paragraph (1) or (2) for programs, projects, or activities that integrate applications for both biopower and biofuels, including cross-cutting research and development in feedstocks and economic analysis.

SEC. 1223. HYDROGEN RESEARCH AND DEVELOPMENT.

(a) Short Title.—This section may be cited as the "Hydrogen Future Act of 2002".

(b) Purposes.—Section 102(b) of the Spark M. Matsunaga Hydrogen Research, Development, and Demonstration Act of 1990 (42 U.S.C. 12401(b)) is amended by striking paragraphs (2) and (3) and inserting the following:

"(2) to direct the Secretary to develop a program of technology assessment, information transfer, and education in which Federal agencies, members of the transportation, energy, and other industries, and other entities may participate;

"(3) to develop methods of hydrogen production that minimize production of greenhouse gases, including developing—

"(A) efficient production from non-renewable resources; and

"(B) cost-effective production from renewable resources such as biomass, geothermal, wind, and solar energy; and

"(4) to foster the use of hydrogen as a major energy source, including developing the use of hydrogen in—

"(A) isolated villages, islands, and communities in which other energy sources are not available or are very expensive; and

"(B) foreign economic development, to avoid environmental damage from increased fossil fuel use.".

(c) Report to Congress.—Section 103 of the Spark M. Matsunaga Hydrogen Research, Development, and Demonstration Act of 1990 (42 U.S.C. 12402) is amended—

(1) in subsection (a), by striking "January 1, 1999," and inserting "1 year after the date of enactment of the Hydrogen Future Act of 2002, and biennially thereafter,";

(2) in subsection (b), by striking paragraphs (1) and (2) and inserting the following:

"(1) an analysis of hydrogen-related activities throughout the United States Government to identify productive areas for increased intragovernmental collaboration;

"(2) recommendations of the Hydrogen Technical Advisory Panel established by section 108 for any improvements in the program that are needed, including recommendations for additional legislation; and

"(3) to the extent practicable, an analysis of State and local hydrogen-related activities."; and

(3) by adding at the end the following:

"(c) Coordination Plan.—The report under subsection (a) shall be based on a comprehensive coordination plan for hydrogen energy prepared by the Secretary in consultation with other Federal agencies.".

(d) Hydrogen Research and Development.—Section 104 of the Spark M. Matsunaga Hydrogen Research, Development, and Demonstration Act of 1990 (42 U.S.C. 12403) is amended—

(1) in subsection (b)(1), by striking "marketplace;" and inserting "marketplace, including foreign markets, particularly where an energy infrastructure is not well developed;";

(2) in subsection (e), by striking "this chapter" and inserting "this Act";

(3) by striking subsection (g) and inserting the following:

"(g) Cost sharing.—

"(1) Inability to fund entire cost.—The Secretary shall not consider a proposal submitted by a person from industry unless the proposal contains a certification that—

"(A) reasonable efforts to obtain non-Federal funding in the amount necessary to pay 100 percent of the cost of the project have been made; and

"(B) non-Federal funding in that amount could not reasonably be obtained.

"(2) Non-federal share.—

"(A) In general.—The Secretary shall require a commitment from non-Federal sources of at least 25 percent of the cost of the project.

"(B) Reduction or elimination.—The Secretary may reduce or eliminate the cost-sharing requirement under subparagraph (A) for the proposed research and development project, including for technical analyses, economic analyses, outreach activities, and educational programs, if the Secretary determines that reduction or elimination is necessary to achieve the objectives of this Act.

(4) in subsection (i), by striking "this chapter" and inserting "this Act".

(e) Demonstrations.—Section 105 of the Spark M. Matsunaga Hydrogen Research, Development, and Demonstration Act of 1990 (42 U.S.C. 12404) is amended by striking subsection (c) and inserting the following:

"(c) Non-Federal Share.—

"(1) In general.—Except as provided in paragraph (2), the Secretary shall require a commitment from non-Federal sources of at least 50 percent of the costs directly relating to a demonstration project under this section.

"(2) Reduction.—The Secretary may reduce the non-Federal requirement under paragraph (1) if the Secretary determines that the reduction is appropriate considering the technological risks involved in the project and is necessary to meet the objectives of this Act.".

(f) Technology Transfer.—Section 106 of the Spark M. Matsunaga Hydrogen Research, Development, and Demonstration Act of 1990 (42 U.S.C. 12405) is amended—

(1) in subsection (a)—

(A) in the first sentence—

(i) by striking "The Secretary shall conduct a program designed to accelerate wider application" and inserting the following:

"(1) In general.—The Secretary shall conduct a program designed to—

"(A) accelerate wider application"; and

(ii) by striking "private sector" and inserting "private sector; and

"(B) accelerate wider application of hydrogen technologies in foreign countries to increase the global market for the technologies and foster global economic development without harmful environmental effects."; and

(B) in the second sentence, by striking "The Secretary" and inserting the following:

"(2) Advice and assistance.—The Secretary"; and

(2) in subsection (b)—

(A) in paragraph (2), by redesignating subparagraphs (A) through (D) as clauses (i) through (iv), respectively, and indenting appropriately;

(B) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B), respectively, and indenting appropriately;

(C) by striking "The Secretary, in" and inserting the following:

"(1) In general.—The Secretary, in";

(D) by striking "The information" and inserting the following:

"(2) Activities.—The information"; and

(E) in paragraph (1) (as designated by subparagraph (C))—

(i) in subparagraph (A) (as redesignated by subparagraph (B)), by striking "an inventory" and inserting "an update of the inventory"; and

(ii) in subparagraph (B) (as redesignated by subparagraph (B)), by striking "develop" and all that follows through "to improve" and inserting "develop with the National Aeronautics and Space Administration, the Department of Energy, other Federal agencies as appropriate, and industry, an information exchange program to improve".

(g) Technical Panel Review.—

(1) In general.—Section 108 of the Spark M. Matsunaga Hydrogen Research, Development, and Demonstration Act of 1990 (42 U.S.C. 12407) is amended—

(A) in subsection (b)—

(i) by striking "(b) Membership.—The technical panel shall be appointed" and inserting the following:

"(b) Membership.—

"(1) In general.—The technical panel shall be comprised of not fewer than 9 nor more than 15 members appointed";

(ii) by striking the second sentence and inserting the following:

"(2) Terms.—

"(A) In general.—The term of a member of the technical panel shall be not more than 3 years.

"(B) Staggered terms.—The Secretary may appoint members of the technical panel in a manner that allows the terms of the members serving at any time to expire at spaced intervals so as to ensure continuity in the functioning of the technical panel.

"(C) Reappointment.—A member of the technical panel whose term expires may be reappointed."; and

(iii) by striking "The technical panel shall have a chairman," and inserting the following:

"(3) Chairperson.—The technical panel shall have a chairperson,"; and

(B) in subsection (d)—

(i) in the matter preceding paragraph (1), by striking "the following items";

(ii) in paragraph (1), by striking "and" at the end;

(iii) in paragraph (2), by striking the period at the end and inserting "; and"; and

(iv) by adding at the end the following:

"(3) the plan developed by the interagency task force under section 202(b) of the Hydrogen Future Act of 1996.".

(2) NEW APPOINTMENTS.—Not later than 180 days after the date of enactment of this Act, the Secretary—

(A) shall review the membership composition of the Hydrogen Technical Advisory Panel; and

(B) may appoint new members consistent with the amendments made by subsection (a).

(h) AUTHORIZATION OF APPROPRIATIONS.—Section 109 of the Spark M. Matsunaga Hydrogen Research, Development, and Demonstration Act of 1990 (42 U.S.C. 12408) is amended—

(1) in paragraph (8), by striking "and";

(2) in paragraph (9), by striking the period and inserting a semicolon; and

(3) by adding at the end the following:

"(10) $65,000,000 for fiscal year 2003;

"(11) $70,000,000 for fiscal year 2004;

"(12) $75,000,000 for fiscal year 2005; and

"(13) $80,000,000 for fiscal year 2006.".

(i) FUEL CELLS.—

(1) INTEGRATION OF FUEL CELLS WITH HYDROGEN PRODUCTION SYSTEMS.—Section 201 of the Hydrogen Future Act of 1996 is amended—

(A) in subsection (a)—

(i) by striking "(a) Not later than 180 days after the date of enactment of this section, and subject" and inserting "(a) IN GENERAL.—Subject"; and

(B) by striking "with"— and all that follows and inserting "into Federal, State, and local government facilities for stationary and transportation applications.";

(2) in subsection (b), by striking "gas is" and inserting "basis";

(3) in subsection (c)(2), by striking "systems described in subsections (a)(1) and (a)(2)" and inserting "projects proposed"; and

(4) by striking subsection (d) and inserting the following:

"(d) NON-FEDERAL SHARE.—

"(1) IN GENERAL.—Except as provided in paragraph (2), the Secretary shall require a commitment from non-Federal sources of at least 50 percent of the costs directly relating to a demonstration project under this section.

"(2) REDUCTION.—The Secretary may reduce the non-Federal requirement under paragraph (1) if the Secretary determines that the reduction is appropriate considering the technological risks involved in the project and is necessary to meet the objectives of this Act.".

(2) COOPERATIVE AND COST-SHARING AGREEMENTS; INTEGRATION OF TECHNICAL INFORMATION.—Title II of the Hydrogen Future Act of 1996 (42 U.S.C. 12403 note; Public Law 104-271) is amended by striking section 202 and inserting the following:

"SEC. 202. INTERAGENCY TASK FORCE.

"(a) ESTABLISHMENT.—Not later than 120 days after the date of enactment of this section, the Secretary shall establish an interagency task force led by a Deputy Assistant Secretary of the Department of Energy and comprised of representatives of—

"(1) the Office of Science and Technology Policy;

"(2) the Department of Transportation;

"(3) the Department of Defense;

"(4) the Department of Commerce (including the National Institute for Standards and Technology);

"(5) the Environmental Protection Agency;

"(6) the National Aeronautics and Space Administration; and

"(7) other agencies as appropriate.

"(b) DUTIES.—

"(1) IN GENERAL.—The task force shall develop a plan for carrying out this title.

"(2) FOCUS OF PLAN.—The plan shall focus on development and demonstration of integrated systems and components for—

"(A) hydrogen production, storage, and use in Federal, State, and local government buildings and vehicles;

"(B) hydrogen-based infrastructure for buses and other fleet transportation systems that include zero-emission vehicles; and

"(C) hydrogen-based distributed power generation, including the generation of combined heat, power, and hydrogen.

"SEC. 203. COOPERATIVE AND COST-SHARING AGREEMENTS.

"The Secretary shall enter into cooperative and cost-sharing agreements with Federal, State, and local agencies for participation by the agencies in demonstrations at facilities administered by the agencies, with the aim of integrating high efficiency hydrogen systems using fuel cells into the facilities to provide immediate benefits and promote a smooth transition to hydrogen as an energy source.

"SEC. 204. INTEGRATION AND DISSEMINATION OF TECHNICAL INFORMATION.

"The Secretary shall—

"(1) integrate all the technical information that becomes available as a result of development and demonstration projects under this title;

"(2) make the information available to all Federal and State agencies for dissemination to all interested persons; and

"(3) foster the exchange of generic, nonproprietary information and technology developed under this title among industry, academia, and Federal, State, and local governments, to help the United States economy attain the economic benefits of the information and technology.

SEC. 205. AUTHORIZATION OF APPROPRIATIONS.

"There are authorized to be appropriated, for activities under this title—

"(1) $25,000,000 for fiscal year 2003;

"(2) $30,000,000 for fiscal year 2004;

"(3) $35,000,000 for fiscal year 2005; and

"(4) $40,000,000 for fiscal year 2006.".

Subtitle C—Fossil Energy

SEC. 1231. ENHANCED FOSSIL ENERGY RESEARCH AND DEVELOPMENT.

(a) PROGRAM DIRECTION.—The Secretary shall conduct a balanced energy research, development, demonstration, and technology deployment program to enhance fossil energy.

(b) PROGRAM GOALS.—

(1) CORE FOSSIL RESEARCH AND DEVELOPMENT.—The goals of the core fossil research and development program shall be to reduce emissions from fossil fuel use by developing technologies, including precombustion technologies, by 2015 with the capability of realizing—

(A) electricity generating efficiencies of 60 percent for coal and 75 percent for natural gas;

(B) combined heat and power thermal efficiencies of more than 85 percent;

(C) fuels utilization efficiency of 75 percent for the production of liquid transportation fuels from coal;

(D) near zero emissions of mercury and of emissions that form fine particles, smog, and acid rain;

(E) reduction of carbon dioxide emissions by at least 40 percent through efficiency improvements and 100 percent with sequestration; and

(F) improved reliability, efficiency, reductions of air pollutant emissions, or reductions in solid waste disposal requirements.

(2) OFFSHORE OIL AND NATURAL GAS RESOURCES.—The goal of the offshore oil and natural gas resources program shall be to develop technologies to—

(A) extract methane hydrates in coastal waters of the United States, and

(B) develop natural gas and oil reserves in the ultra-deepwater of the Central and Western Gulf of Mexico.

(3) ONSHORE OIL AND NATURAL GAS RESOURCES.—The goal of the onshore oil and natural gas resources program shall be to advance the science and technology available to domestic onshore petroleum producers, particularly independent operators, through—

(A) advances in technology for exploration and production of domestic petroleum resources, particularly those not accessible with current technology;

(B) improvement in the ability to extract hydrocarbons from known reservoirs and classes of reservoirs; and

(C) development of technologies and practices that reduce the threat to the environment from petroleum exploration and production and decrease the cost of effective environmental compliance.

(4) TRANSPORTATION FUELS.—The goals of the transportation fuels program shall be to increase the price elasticity of oil supply and demand by focusing research on—

(A) reducing the cost of producing transportation fuels from coal and natural gas; and

(B) indirect liquefaction of coal and biomass.

(c) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There are authorized to be appropriated to the Secretary for carrying out research, development, demonstration, and technology deployment activities under this section—

(1) $485,000,000 for fiscal year 2003;

(2) $508,000,000 for fiscal year 2004;

(3) $532,000,000 for fiscal year 2005; and

(4) $558,000,000 for fiscal year 2006.

(2) LIMITS ON USE OF FUNDS.—

(A) None of the funds authorized in paragraph (1) may be used for—

(i) Fossil energy environmental restoration;

(ii) Import/export authorization;

(iii) Program direction; or

(iv) General plant projects.

(B) COAL-BASED PROJECTS.—The coal-based projects funded under this section shall be consistent with the goals in subsection (b). The program shall emphasize carbon capture and sequestration technologies and gasification technologies, including gasification combined cycle, gasification fuel cells, gasification co-production, hybrid gasification/combustion, or other technology with the potential to address the goals in subparagraphs (D) or (E) of subsection (b)(1).

SEC. 1232. POWER PLANT IMPROVEMENT INITIATIVE.

(a) PROGRAM DIRECTION.—The Secretary shall conduct a balanced energy research, development, demonstration, and technology deployment program to demonstrate commercial applications of advanced lignite and coal-based technologies applicable to new or existing power plants (including co-production plants) that advance the efficiency, environmental performance, and cost-competitiveness substantially beyond technologies that are in operation or have been demonstrated by the date of enactment of this subtitle.

(b) TECHNICAL MILESTONES.—

(1) IN GENERAL.—The Secretary shall set technical milestones specifying efficiency

and emissions levels that projects shall be designed to achieve. The milestones shall become more restrictive over the life of the program.

(2) 2010 EFFICIENCY MILESTONES.—The milestones shall be designed to achieve by 2010 interim thermal efficiency of—

(A) 45 percent for coal of more than 9,000 Btu;

(B) 44 percent for coal of 7,000 to 9,000 Btu; and

(C) 42 percent for coal of less than 7,000 Btu.

(3) 2020 EFFICIENCY MILESTONES.—The milestones shall be designed to achieve by 2020 thermal efficiency of—

(A) 60 percent for coal of more than 9,000 Btu;

(B) 59 percent for coal of 7,000 to 9,000 Btu; and,

(C) 57 percent for coal of less than 7,000 Btu.

(4) EMISSIONS MILESTONES.—The milestones shall include near zero emissions of mercury and greenhouse gases and of emissions that form fine particles, smog, and acid rain.

(4) REGIONAL AND QUALITY DIFFERENCES.—The Secretary may consider regional and quality differences in developing the efficiency milestones.

(c) PROJECT CRITERIA.—The demonstration activities proposed to be conducted at a new or existing coal-based electric generation unit having a nameplate rating of not less than 100 megawatts, excluding a co-production plant, shall include at least one of the following—

(1) a means of recycling or reusing a significant portion of coal combustion wastes produced by coal-based generating units, excluding practices that are commercially available by the date of enactment of this subtitle;

(2) a means of capture and sequestering emissions, including greenhouse gases, in a manner that is more effective and substantially below the cost of technologies that are in operation or that have been demonstrated by the date of enactment of this subtitle;

(3) a means of controlling sulfur dioxide and nitrogen oxide or mercury in a manner that improves environmental performance beyond technologies that are in operation or that have been demonstrated by the date of enactment of this subtitle, and

(A) in the case of an existing unit, achieve an overall thermal design efficiency improvement compared to the efficiency of the unit as operated, of not less than—

(i) 7 percent for coal of more than 9,000 Btu;

(ii) 6 percent for coal of 7,000 to 9,000 Btu; or

(iii) 4 percent for coal of less than 7,000 Btu; or

(B) in the case of a new unit, achieve the efficiency milestones set for in subsection (b) compared to the efficiency of a typical unit as operated on the date of enactment of this subtitle, before any retrofit, repowering, replacement, or installation.

(d) STUDY.—The Secretary, in consultation with the Administrator of the Environmental Protection Agency, the Secretary of the Interior, and interested entities (including coal producers, industries using coal, organizations to promote coal or advanced coal technologies, environmental organizations, and organizations representing workers), shall conduct an assessment that identifies performance criteria that would be necessary for coal-based technologies to meet, to enable future reliance on coal in an environmentally sustainable manner for electricity generation, use as a chemical feedstock, and use as a transportation fuel.

(e) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There are authorized to be appropriated to the Secretary for carrying out activities under this section $200,000,000 for each of fiscal years 2003 through 2011.

(2) LIMITATION ON FUNDING OF PROJECTS.—Eighty percent of the funding under this section shall be limited to—

(A) carbon capture and sequestration technologies; or

(B) gasification technologies, including gasification combined cycle, gasification fuel cells, gasification co-production, or hybrid gasification/combustion, or

(C) or other technology either by itself or in conjunction with other technologies has the potential to achieve near zero emissions.

SEC. 1233. RESEARCH AND DEVELOPMENT FOR ADVANCED SAFE AND EFFICIENT COAL MINING TECHNOLOGIES.

(a) ESTABLISHMENT.—The Secretary of Energy shall establish a cooperative research partnership involving appropriate Federal agencies, coal producers, including associations, equipment manufacturers, universities with mining engineering departments, and other relevant entities to—

(1) develop mining research priorities identified by the Mining Industry of the Future Program and in the recommendations from relevant reports of the National Academy of Sciences on mining technologies;

(2) establish a process for conducting joint industry-government research and development; and

(3) expand mining research capabilities at institutions of higher education.

(b) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There are authorized to be appropriated to carry out activities under this section, $12,000,000 in fiscal year 2003 and $15,000,000 in fiscal year 2004.

(2) LIMIT ON USE OF FUNDS.—Not less than 20 percent of any funds appropriated in a given fiscal year under this subsection shall be dedicated to research carried out at institutions of higher education.

SEC. 1234. ULTRA-DEEPWATER AND UNCONVENTIONAL RESOURCE EXPLORATION AND PRODUCTION TECHNOLOGIES.

(a) DEFINITIONS.—In this section:

(1) ADVISORY COMMITTEE.—The term "Advisory Committee" means the Ultra-Deepwater and Unconventional Resource Technology Advisory Committee established under subsection (c).

(2) AWARD.—The term "award" means a cooperative agreement, contract, award or other types of agreement as appropriate.

(3) DEEPWATER.—The term "deepwater" means a water depth that is greater than 200 but less than 1,500 meters.

(4) ELIGIBLE AWARD RECIPIENT.—The term "eligible award recipient" includes—

(A) a research institution;

(B) an institution of higher education;

(C) a corporation; and

(D) a managing consortium formed among entities described in subparagraphs (A) through (C).

(5) INSTITUTION OF HIGHER EDUCATION.—The term "institution of higher education" has the meaning given the term in section 101 of the Higher Education Act of 1965 (20 U.S.C. 1001).

(6) MANAGING CONSORTIUM.—The term "managing consortium" means an entity that—

(A) exists as of the date of enactment of this section;

(B)(i) is an organization described in section 501(c)(3) of the Internal Revenue Code of 1986; and

(ii) is exempt from taxation under section 501(a) of that Code;

(C) is experienced in planning and managing programs in natural gas or other petroleum exploration and production research, development, and demonstration; and

(D) has demonstrated capabilities and experience in representing the views and priorities of industry, institutions of higher education and other research institutions in formulating comprehensive research and development plans and programs.

(7) PROGRAM.—The term "program" means the program of research, development, and demonstration established under subsection (b)(1)(A).

(8) ULTRA-DEEPWATER.—The term "ultra-deepwater" means a water depth that is equal to or greater than 1,500 meters.

(9) ULTRA-DEEPWATER ARCHITECTURE.—The term "ultra-deepwater architecture" means the integration of technologies to explore and produce natural gas or petroleum products located at ultra-deepwater depths.

(10) ULTRA-DEEPWATER RESOURCE.—The term "ultra-deepwater resource" means natural gas or any other petroleum resource (including methane hydrate) located in an ultra-deepwater area.

(11) UNCONVENTIONAL RESOURCE.—The term "unconventional resource" means natural gas or any other petroleum resource located in a formation on physically or economically inaccessible land currently available for lease for purposes of natural gas or other petroleum exploration or production.

(b) ULTRA-DEEPWATER AND UNCONVENTIONAL EXPLORATION AND PRODUCTION PROGRAM.—

(1) ESTABLISHMENT.—

(A) IN GENERAL.—The Secretary shall establish a program of research into, and development and demonstration of, ultra-deepwater resource and unconventional resource exploration and production technologies.

(B) LOCATION; IMPLEMENTATION.—The program under this subsection shall be carried out—

(i) in areas on the outer Continental Shelf that, as of the date of enactment of this section, are available for leasing; and

(ii) on unconventional resources.

(2) COMPONENTS.—The program shall include one or more programs for long-term research into—

(A) new deepwater ultra-deepwater resource and unconventional resource exploration and production technologies; or

(B) environmental mitigation technologies for production of ultra-deepwater resource and unconventional resource.

(c) ADVISORY COMMITTEE.—

(1) ESTABLISHMENT.—Not later than 30 days after the date of enactment of this section, the Secretary shall establish an advisory committee to be known as the "Ultra-Deepwater and Unconventional Resource Technology Advisory Committee".

(2) MEMBERSHIP.—

(A) COMPOSITION.—Subject to subparagraph (B), the advisory committee shall be composed of 7 members appointed by the Secretary that—

(i) have extensive operational knowledge of and experience in the natural gas and other petroleum exploration and production industry; and

(ii) are not Federal employees or employees of contractors to a federal agency.

(B) EXPERTISE.—Of the members of the advisory committee appointed under subparagraph (A)—

(i) at least 4 members shall have extensive knowledge of ultra-deepwater resource exploration and production technologies;

(ii) at least 3 members shall have extensive knowledge of unconventional resource exploration and production technologies.

(3) Duties.—The advisory committee shall advise the Secretary in the implementation of this section.

(4) Compensation.—A member of the advisory committee shall serve without compensation but shall receive travel expenses, including per diem in lieu of subsistence, in accordance with applicable provisions under subchapter I of chapter 57 of title 5, United States Code.

(d) Awards.—

(1) Types of awards.—

(A) Ultra-deepwater resources.—

(i) In general.—The Secretary shall make awards for research into, and development and demonstration of, ultra-deepwater resource exploration and production technologies—

(I) to maximize the value of the ultra-deepwater resources of the United States;

(II) to increase the supply of ultra-deepwater resources by lowering the cost and improving the efficiency of exploration and production of such resources; and

(III) to improve safety and minimize negative environmental impacts of that exploration and production.

(ii) Ultra-deepwater architecture.—In furtherance of the purposes described in clause (i), the Secretary shall, where appropriate, solicit proposals from a managing consortium to develop and demonstrate next-generation architecture for ultra-deepwater resource production.

(B) Unconventional resources.—The Secretary shall make awards—

(i) to carry out research into, and development and demonstration of, technologies to maximize the value of unconventional resources; and

(ii) to develop technologies to simultaneously—

(I) increase the supply of unconventional resources by lowering the cost and improving the efficiency of exploration and production of unconventional resources; and

(II) improve safety and minimize negative environmental impacts of that exploration and production.

(2) Conditions.—An award made under this subsection shall be subject to the following conditions:

(A) Multiple entities.—If an award recipient is composed of more than one eligible organization, the recipient shall provide a signed contract, agreed to by all eligible organizations comprising the award recipient, that defines, in a manner that is consistent with all applicable law in effect as of the date of the contract, all rights to intellectual property for—

(i) technology in existence as of that date; and

(ii) future inventions conceived and developed using funds provided under the award.

(B) Components of application.—An application for an award for a demonstration project shall describe with specificity any intended commercial applications of the technology to be demonstrated.

(C) Cost sharing.—Non-federal cost sharing shall be in accordance with section 1403.

(e) Plan and funding.—

(1) In general.—The Secretary, and where appropriate, a managing consortium under subsection (d)(1)(A)(ii), shall formulate annual operating and performance objectives, develop multi-year technology roadmaps, and establish research and development priorities for the funding of activities under this section which will serve as guidelines for making awards including cost-matching objectives.

(2) Industry input.—In carrying out this program, the Secretary shall promote maximum industry input through the use of managing consortia or other organizations in planning and executing the research areas and conducting workshops or reviews to ensure that this program focuses on industry problems and needs.

(f) Auditing.—

(1) In general.—The Secretary shall retain an independent, commercial auditor to determine the extent to which funds authorized by this section, provided through a managing consortium, are expended in a manner consistent with the purposes of this section.

(2) Reports.—The auditor retained under paragraph (1) shall submit to the Secretary, and the Secretary shall transmit to the appropriate congressional committees, an annual report that describes—

(A) the findings of the auditor under paragraph (1); and

(B) a plan under which the Secretary may remedy any deficiencies identified by the auditor.

(g) Authorization of Appropriations.—There are authorized to be appropriated to the Secretary such sums as may be necessary to carry out this section.

(h) Termination of Authority.—The authority provided by this section shall terminate on September 30, 2009.

(i) Savings Provision.—Nothing in this section is intended to displace, duplicate or diminish any previously authorized research activities of the Department of Energy.

SEC. 1235. RESEARCH AND DEVELOPMENT FOR NEW NATURAL GAS TRANSPORTATION TECHNOLOGIES.

The Secretary of Energy shall conduct a comprehensive five-year program for research, development and demonstration to improve the reliability, efficiency, safety and integrity of the natural gas transportation and distribution infrastructure and for distributed energy resources (including microturbines, fuel cells, advanced engine-generators, gas turbines, reciprocating engines, hybrid power generation systems, and all ancillary equipment for dispatch, control and maintenance).

SEC. 1236. AUTHORIZATION OF APPROPRIATIONS FOR OFFICE OF ARCTIC ENERGY.

There are authorized to be appropriated to the Secretary for the Office of Arctic Energy under section 3197 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (Public Law 106-398) such sums as may be necessary, but not to exceed $25,000,000 for each of fiscal years 2003 through 2011.

Subtitle D—Nuclear Energy

SEC. 1241. ENHANCED NUCLEAR ENERGY RESEARCH AND DEVELOPMENT.

(a) Program Direction.—The Secretary shall conduct an energy research, development, demonstration, and technology deployment program to enhance nuclear energy.

(b) Program Goals.—The program shall—

(1) support research related to existing United States nuclear power reactors to extend their lifetimes and increase their reliability while optimizing their current operations for greater efficiencies;

(2) examine advanced proliferation-resistant and passively safe reactor designs, new reactor designs with higher efficiency, lower cost, and improved safety, proliferation-resistant and high burn-up nuclear fuels, minimization of generation of radioactive materials, improved nuclear waste management technologies, and improved instrumentation science;

(3) attract new students and faculty to the nuclear sciences and nuclear engineering and related fields (including health physics and nuclear and radiochemistry) through—

(A) university-based fundamental research for existing faculty and new junior faculty;

(B) support for the re-licensing of existing training reactors at universities in conjunction with industry; and

(C) completing the conversion of existing training reactors with proliferation resistant fuels that are low enriched and to adapt those reactors to new investigative uses;

(4) maintain a national capability and infrastructure to produce medical isotopes and ensure a well trained cadre of nuclear medicine specialists in partnership with industry;

(5) ensure that our nation has adequate capability to power future satellite and space missions; and

(6) maintain, where appropriate through a prioritization process, a balanced research infrastructure so that future research programs can use these facilities.

(c) Authorization of Appropriations.—

(1) Core nuclear research programs.—There are authorized to be appropriated to the Secretary for carrying out research, development, demonstration, and technology deployment activities under subsection (b)(1) through (3)—

(A) $100,000,000 for fiscal year 2003;

(B) $110,000,000 for fiscal year 2004;

(C) $120,000,000 for fiscal year 2005; and

(D) $130,000,000 for fiscal year 2006.

(2) Supporting nuclear activities.—There are authorized to be appropriated to the Secretary for carrying out activities under subsection (b)(4) through (6), as well as nuclear facilities management and program direction—

(A) $200,000,000 for fiscal year 2003;

(B) $202,000,000 for fiscal year 2004;

(C) $207,000,000 for fiscal year 2005; and

(D) $212,000,000 for fiscal year 2006.

SEC. 1242. UNIVERSITY NUCLEAR SCIENCE AND ENGINEERING SUPPORT.

(a) Establishment.—The Secretary shall support a program to maintain the nation's human resource investment and infrastructure in the nuclear sciences and engineering and related fields (including health physics and nuclear and radiochemistry), consistent with departmental missions related to civilian nuclear research and development.

(b) Duties.—In carrying out the program under this section, the Secretary shall—

(1) develop a graduate and undergraduate fellowship program to attract new and talented students;

(2) assist universities in recruiting and retaining new faculty in the nuclear sciences and engineering through a Junior Faculty Research Initiation Grant Program;

(3) support fundamental nuclear sciences and engineering research through the Nuclear Engineering Education Research Program;

(4) encourage collaborative nuclear research between industry, national laboratories and universities through the Nuclear Energy Research Initiative; and

(5) support communication and outreach related to nuclear science and engineering.

(c) Maintaining University Research and Training Reactors and Associated Infrastructure.—Activities under this section may include:

(1) converting research reactors to low-enrichment fuels, upgrading operational instrumentation, and sharing of reactors among universities;

(2) providing technical assistance, in collaboration with the U.S. nuclear industry, in re-licensing and upgrading training reactors as part of a student training program;

(3) providing funding for reactor improvements as part of a focused effort that emphasizes research, training, and education.

(d) University-National Laboratory Interactions.—The Secretary shall develop—

(1) a sabbatical fellowship program for university professors to spend extended periods of time at National Laboratories in the areas of nuclear science and technology; and

(2) a visiting scientist program in which National Laboratory staff can spend time in academic nuclear science and engineering departments. The Secretary may provide for fellowships for students to spend time at National Laboratories in the area of nuclear science with a member of the Laboratory staff acting as a mentor.

(e) Operating and Maintenance Costs.—Funding for a research project provided under this section may be used to offset a portion of the operating and maintenance costs of a university research reactor used in the research project, on a cost-shared basis with the university.

(f) Authorization of Appropriations.—From amounts authorized under section 1241(c)(1), the following amounts are authorized for activities under this section—

(1) $33,000,000 for fiscal year 2003;

(2) $37,900,000 for fiscal year 2004;

(3) $43,600,000 for fiscal year 2005; and

(4) $50,100,000 for fiscal year 2006.

SEC. 1243. NUCLEAR ENERGY RESEARCH INITIATIVE.

(a) Establishment.—The Secretary shall support a Nuclear Energy Research Initiative for grants for research relating to nuclear energy.

(b) Authorization of Appropriations.—From amounts authorized under section 1241(c), there are authorized to be appropriated to the Secretary for activities under this section such sums as are necessary for each fiscal year.

SEC. 1244. NUCLEAR ENERGY PLANT OPTIMIZATION PROGRAM.

(a) Establishment.—The Secretary shall support a Nuclear Energy Plant Optimization Program for grants to improve nuclear energy plant reliability, availability, and productivity. Notwithstanding section 1403, the program shall require industry cost-sharing of at least 50 percent and be subject to annual review by the Nuclear Energy Research Advisory Committee of the Department.

(b) Authorization of Appropriations.—From amounts authorized under section 1241(c), there are authorized to be appropriated to the Secretary for activities under this section such sums as are necessary for each fiscal year.

SEC. 1245. NUCLEAR ENERGY TECHNOLOGY DEVELOPMENT PROGRAM.

(a) Establishment.—The Secretary shall support a Nuclear Energy Technology Development Program to develop a technology roadmap to design and develop new nuclear energy powerplants in the United States.

(b) Generation IV Reactor Study.—The Secretary shall, as part of the program under subsection (a), also conduct a study of Generation IV nuclear energy systems, including development of a technology roadmap and performance of research and development necessary to make an informed technical decision regarding the most promising candidates for commercial deployment. The study shall examine advanced proliferation-resistant and passively safe reactor designs, new reactor designs with higher efficiency, lower cost and improved safety, proliferation-resistant and high burn-up fuels, minimization of generation of radioactive materials, improved nuclear waste management technologies, and improved instrumentation science. Not later than December 31, 2002, the Secretary shall submit to Congress a report describing the results of the study.

(c) Authorization of Appropriations.—From amounts authorized to be appropriated under section 1241(c), there are authorized to be appropriated to the Secretary for activities under this section such sums as are necessary for each fiscal year.

Subtitle E—Fundamental Energy Science

SEC. 1251. ENHANCED PROGRAMS IN FUNDAMENTAL ENERGY SCIENCE.

(a) Program Direction.—The Secretary, acting through the Office of Science, shall—

(1) conduct a comprehensive program of fundamental research, including research on chemical sciences, physics, materials sciences, biological and environmental sciences, geosciences, engineering sciences, plasma sciences, mathematics, and advanced scientific computing;

(2) maintain, upgrade and expand the scientific user facilities maintained by the Office of Science and ensure that they are an integral part of the departmental mission for exploring the frontiers of fundamental science;

(3) maintain a leading-edge research capability in the energy-related aspects of nanoscience and nanotechnology, advanced scientific computing and genome research; and

(4) ensure that its fundamental science programs, where appropriate, help inform the applied research and development programs of the Department.

(b) Authorization of Appropriations.—There are authorized to be appropriated to the Secretary for carrying out research, development, demonstration, and technology deployment activities under this subtitle—

(1) $3,785,000,000 for fiscal year 2003;

(2) $4,153,000,000 for fiscal year 2004;

(3) $4,586,000,000 for fiscal year 2005; and

(4) $5,000,000,000 for fiscal year 2006.

SEC. 1252. NANOSCALE SCIENCE AND ENGINEERING RESEARCH.

(a) Establishment.—The Secretary, acting through the Office of Science, shall support a program of research and development in nanoscience and nanoengineering consistent with the Department's statutory authorities related to research and development. The program shall include efforts to further the understanding of the chemistry, physics, materials science and engineering of phenomena on the scale of 1 to 100 nanometers.

(b) Duties of the Office of Science.—In carrying out the program under this section, the Office of Science shall—

(1) support both individual investigators and multidisciplinary teams of investigators;

(2) pursuant to subsection (c), develop, plan, construct, acquire, or operate special equipment or facilities for the use of investigators conducting research and development in nanoscience and nanoengineering;

(3) support technology transfer activities to benefit industry and other users of nanoscience and nanoengineering; and

(4) coordinate research and development activities with industry and other federal agencies.

(c) Nanoscience and Nanoengineering Research Centers and Major Instrumentation.—

(1) Authorization.—From amounts authorized to be appropriated under section 1251(b), the amounts specified under subsection (d)(2) shall, subject to appropriations, be available for projects to develop, plan, construct, acquire, or operate special equipment, instrumentation, or facilities for investigators conducting research and development in nanoscience and nanoengineering.

(2) Projects.—Projects under paragraph (1) may include the measurement of properties at the scale of 1 to 100 nanometers, manipulation at such scales, and the integration of technologies based on nanoscience or nanoengineering into bulk materials or other technologies.

(3) Facilities.—Facilities under paragraph (1) may include electron microcharacterization facilities, microlithography facilities, scanning probe facilities and related instrumentation science.

(4) Collaboration.—The Secretary shall encourage collaborations among universities, laboratories and industry at facilities under this subsection. At least one facility under this subsection shall have a specific mission of technology transfer to other institutions and to industry.

(d) Authorization of Appropriations.—

(1) Total authorization.—From amounts authorized to be appropriated under section 1251(b), the following amounts are authorized for activities under this section—

(A) $270,000,000 for fiscal year 2003;

(B) $290,000,000 for fiscal year 2004;

(C) $310,000,000 for fiscal year 2005; and

(D) $330,000,000 for fiscal year 2006.

(2) Nanoscience and nanoengineering research centers and major instrumentation.—Of the amounts under paragraph (1), the following amounts are authorized to carry out subsection (c)—

(A) $135,000,000 for fiscal year 2003;

(B) $150,000,000 for fiscal year 2004;

(C) $120,000,000 for fiscal year 2005; and

(D) $100,000,000 for fiscal year 2006.

SEC. 1253. ADVANCED SCIENTIFIC COMPUTING FOR ENERGY MISSIONS.

(a) Establishment.—The Secretary, acting through the Office of Science, shall support a program to advance the Nation's computing capability across a diverse set of grand challenge computationally based science problems related to departmental missions.

(b) Duties of the Office of Science.—In carrying out the program under this section, the Office of Science shall—

(1) advance basic science through computation by developing software to solve grand challenge science problems on new generations of computing platforms,

(2) enhance the foundations for scientific computing by developing the basic mathematical and computing systems software needed to take full advantage of the computing capabilities of computers with peak speeds of 100 teraflops or more, some of which may be unique to the scientific problem of interest,

(3) enhance national collaboratory and networking capabilities by developing software to integrate geographically separated researchers into effective research teams and to facilitate access to and movement and analysis of large (petabyte) data sets, and

(4) maintain a robust scientific computing hardware infrastructure to ensure that the computing resources needed to address DOE missions are available; explore new computing approaches and technologies that promise to advance scientific computing.

(c) High-Performance Computing Act Program.—Section 203(a) of the High-Performance Computing Act of 1991 (15 U.S.C. 5523(a)) is amended—

(1) in paragraph (3), by striking "and";

(2) in paragraph (4), by striking the period and inserting "; and"; and

(3) by adding after paragraph (4) the following: "(5) conduct an integrated program of research, development, and provision of facilities to develop and deploy to scientific and technical users the high-performance computing and collaboration tools needed to fulfill the statutory missions of the Department of Energy in conducting basic and applied energy research.".

(d) COORDINATION WITH THE DOE NATIONAL NUCLEAR SECURITY AGENCY ACCELERATED STRATEGIC COMPUTING INITIATIVE AND OTHER NATIONAL COMPUTING PROGRAMS.—The Secretary shall ensure that this program, to the extent feasible, is integrated and consistent with—

(1) the Accelerated Strategic Computing Initiative of the National Nuclear Security Agency; and

(2) other national efforts related to advanced scientific computing for science and engineering.

(e) AUTHORIZATION OF APPROPRIATIONS.—From amounts authorized under section 1251(b), the following amounts are authorized for activities under this section—

(1) $285,000,000 for fiscal year 2003;

(2) $300,000,000 for fiscal year 2004;

(3) $310,000,000 for fiscal year 2005; and

(4) $320,000,000 for fiscal year 2006.

SEC. 1254. FUSION ENERGY SCIENCES PROGRAM AND PLANNING.

(a) OVERALL PLAN FOR FUSION ENERGY SCIENCES PROGRAM.—

(1) IN GENERAL.—Not later than 6 months after the date of enactment of this subtitle, the Secretary, after consultation with the Fusion Energy Sciences Advisory Committee, shall develop and transmit to the Congress a plan to ensure a strong scientific base for the Fusion Energy Sciences Program within the Office of Science and to enable the experiments described in subsections (b) and (c).

(2) OBJECTIVES OF PLAN.—The plan under this subsection shall include as its objectives—

(A) to ensure that existing fusion research facilities and equipment are more fully utilized with appropriate measurements and control tools;

(B) to ensure a strengthened fusion science theory and computational base;

(C) to encourage and ensure that the selection of and funding for new magnetic and inertial fusion research facilities is based on scientific innovation and cost effectiveness;

(D) to improve the communication of scientific results and methods between the fusion science community and the wider scientific community;

(E) to ensure that adequate support is provided to optimize the design of the magnetic fusion burning plasma experiments referred to in subsections (b) and (c); and

(F) to ensure that inertial confinement fusion facilities are utilized to the extent practicable for the purpose of inertial fusion energy research and development.

(b) PLAN FOR UNITED STATES FUSION EXPERIMENT.—

(1) IN GENERAL.—The Secretary, after consultation with the Fusion Energy Sciences Advisory Committee, shall develop a plan for construction in the United States of a magnetic fusion burning plasma experiment for the purpose of accelerating scientific understanding of fusion plasmas. The Secretary shall request a review of the plan by the National Academy of Sciences and shall transmit the plan and the review to the Congress by July 1, 2004.

(2) REQUIREMENTS OF PLAN.—The plan described in paragraph (1) shall—

(A) address key burning plasma physics issues; and

(B) include specific information on the scientific capabilities of the proposed experiment, the relevance of these capabilities to the goal of practical fusion energy, and the overall design of the experiment including its estimated cost and potential construction sites.

(c) PLAN FOR PARTICIPATION IN AN INTERNATIONAL EXPERIMENT.—In addition to the plan described in subsection (b), the Secretary, after consultation with the Fusion Energy Sciences Advisory Committee, may also develop a plan for United States participation in an international burning plasma experiment for the same purpose, whose construction is found by the Secretary to be highly likely and where United States participation is cost-effective relative to the cost and scientific benefits of a domestic experiment described in subsection (b). If the Secretary elects to develop a plan under this subsection, he shall include the information described in subsection (b)(2), and an estimate of the cost of United States participation in such an international experiment. The Secretary shall request a review by the National Academy of Sciences of a plan developed under this subsection, and shall transmit the plan and the review to the Congress no later than July 1, 2004.

(d) AUTHORIZATION FOR RESEARCH AND DEVELOPMENT.—The Secretary, through the Office of Science, may conduct any research and development necessary to fully develop the plans described in this section.

(e) AUTHORIZATION OF APPROPRIATIONS.—From amounts authorized under section 1251(b) for fiscal year 2003, $335,000,000 are authorized for fiscal year 2003 for activities under this section and for activities of the Fusion Energy Sciences Program.

Subtitle F—Energy, Safety, and Environmental Protection

SEC. 1261. CRITICAL ENERGY INFRASTRUCTURE PROTECTION RESEARCH AND DEVELOPMENT.

(a) IN GENERAL.—The Secretary shall carry out a research, development, demonstration and technology deployment program, in partnership with industry, on critical energy infrastructure protection, consistent with the roles and missions outlined for the Secretary in Presidential Decision Directive 63, entitled "Critical Infrastructure Protection", The program shall have the following goals:

(1) Increase the understanding of physical and information system disruptions to the energy infrastructure that could result in cascading or widespread regional outages.

(2) Develop energy infrastructure assurance "best practices" through vulnerability and risk assessments.

(3) Protect against, mitigate the effect of, and improve the ability to recover from disruptive incidents within the energy infrastructure.

(b) PROGRAM SCOPE.—The program under subsection (a) shall include research, development, deployment, technology demonstration for——

(1) analysis of energy infrastructure interdependencies to quantify the impacts of system vulnerabilities in relation to each other;

(2) probabilistic risk assessment of the energy infrastructure to account for unconventional and terrorist threats;

(3) incident tracking and trend analysis tools to assess the severity of threats and reported incidents to the energy infrastructure; and

(4) integrated multi-sensor, warning and mitigation technologies to detect, integrate, and localize events affecting the energy infrastructure including real time control to permit the reconfiguration of energy delivery systems.

(c) REGIONAL COORDINATION.—The program under this section shall cooperate with Departmental activities to promote regional coordination under section 102 of this Act, to ensure that the technologies and assessments developed by the program are transferred in a timely manner to State and local authorities, and to the energy industries.

(d) COORDINATION WITH INDUSTRY RESEARCH ORGANIZATIONS.—The Secretary may enter into grants, contracts, and cooperative agreements with industry research organizations to facilitate industry participation in research under this section and to fulfill applicable cost-sharing requirements.

(e) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Secretary to carry out this section—

(1) $25,000,000 for fiscal year 2003;

(2) $26,000,000 for fiscal year 2004;

(3) $27,000,000 for fiscal year 2005; and

(4) $28,000,000 for fiscal year 2006.

(f) CRITICAL ENERGY INFRASTRUCTURE FACILITY DEFINED.—For purposes of this section, the term "critical energy infrastructure facility" means a physical or cyber-based system or service for the generation, transmission or distribution of electrical energy, or the production, refining, transportation, or storage of petroleum, natural gas, or petroleum product, the incapacity or destruction of which would have a debilitating impact on the defense or economic security of the United States. The term shall not include a facility that is licensed by the Nuclear Regulatory Commission under section 103 or 104b of the Atomic Energy Act of 1954 (42 U.S.C. 2133 and 2134(b)).

SEC. 1262. PIPELINE INTEGRITY, SAFETY, AND RELIABILITY RESEARCH AND DEVELOPMENT.

(a) IN GENERAL.—The Secretary of Transportation, in coordination with the Secretary of Energy, shall develop and implement an accelerated cooperative program of research and development to ensure the integrity of natural gas and hazardous liquid pipelines. This research and development program shall include materials inspection techniques, risk assessment methodology, and information systems surety.

(b) PURPOSE.—The purpose of the cooperative research program shall be to promote research and development to—

(1) ensure long-term safety, reliability and service life for existing pipelines;

(2) expand capabilities of internal inspection devices to identify and accurately measure defects and anomalies;

(3) develop inspection techniques for pipelines that cannot accommodate the internal inspection devices available on the date of enactment;

(4) develop innovative techniques to measure the structural integrity of pipelines to prevent pipeline failures;

(5) develop improved materials and coatings for use in pipelines;

(6) improve the capability, reliability, and practicality of external leak detection devices;

(7) identify underground environments that might lead to shortened service life;

(8) enhance safety in pipeline siting and land use;

(9) minimize the environmental impact of pipelines;

(10) demonstrate technologies that improve pipeline safety, reliability, and integrity;

(11) provide risk assessment tools for optimizing risk mitigation strategies; and

(12) provide highly secure information systems for controlling the operation of pipelines.

(c) AREAS.—In carrying out this section, the Secretary of Transportation, in coordination with the Secretary of Energy, shall consider research and development on natural gas, crude oil, and petroleum product pipelines for—

(1) early crack, defect, and damage detection, including real-time damage monitoring;

(2) automated internal pipeline inspection sensor systems;

(3) land use guidance and set back management along pipeline rights-of-way for communities;

(4) internal corrosion control;

(5) corrosion-resistant coatings;

(6) improved cathodic protection;

(7) inspection techniques where internal inspection is not feasible, including measurement of structural integrity;

(8) external leak detection, including portable real-time video imaging technology, and the advancement of computerized control center leak detection systems utilizing real-time remote field data input;

(9) longer life, high strength, non-corrosive pipeline materials;

(10) assessing the remaining strength of existing pipes;

(11) risk and reliability analysis models, to be used to identify safety improvements that could be realized in the near term resulting from analysis of data obtained from a pipeline performance tracking initiative;

(12) identification, monitoring, and prevention of outside force damage, including satellite surveillance; and

(13) any other areas necessary to ensuring the public safety and protecting the environment.

(d) RESEARCH AND DEVELOPMENT PROGRAM PLAN.—Within 240 days after the date of enactment of this section, the Secretary of Transportation, in coordination with the Secretary of Energy and the Pipeline Integrity Technical Advisory Committee, shall prepare and submit to the Congress a five-year program plan to guide activities under this section. In preparing the program plan, the Secretary shall consult with appropriate representatives of the natural gas, crude oil, and petroleum product pipeline industries to select and prioritize appropriate project proposals. The Secretary may also seek the advice of utilities, manufacturers, institutions of higher learning, Federal agencies, the pipeline research institutions, national laboratories, State pipeline safety officials, environmental organizations, pipeline safety advocates, and professional and technical societies.

(e) IMPLEMENTATION.—The Secretary of Transportation shall have primary responsibility for ensuring the five-year plan provided for in subsection (d) is implemented as intended by this section. In carrying out the research, development, and demonstration activities under this section, the Secretary of Transportation and the Secretary of Energy may use, to the extent authorized under applicable provisions of law, contracts, cooperative agreements, cooperative research and development agreements under the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701 et seq.), grants, joint ventures, other transactions, and any other form of agreement available to the Secretary consistent with the recommendations of the Advisory Committee.

(f) REPORTS TO CONGRESS.—The Secretary of Transportation shall report to the Congress annually as to the status and results to date of the implementation of the research and development program plan. The report shall include the activities of the Departments of Transportation and Energy, the natural laboratories, universities, and any other research organizations, including industry research organizations.

(g) PIPELINE INTEGRITY TECHNICAL ADVISORY COMMITTEE.—

(1) ESTABLISHMENT.—The Secretary of Transportation shall enter into appropriate arrangements with the National Academy of Sciences to establish and manage the Pipeline Integrity Technical Advisory Committee for the purpose of advising the Secretary of Transportation and the Secretary of Energy on the development and implementation of the research and development program plan under subsection (d). The Advisory Committee shall have an ongoing role in evaluating the progress and results of the research, development, and demonstration carried out under this section.

(2) MEMBERSHIP.—The National Academy of Sciences shall appoint the members of the Pipeline Integrity Technical Advisory Committee after consultation with the Secretary of Transportation and the Secretary of Energy. Members appointed to the Advisory Committee should have the necessary qualifications to provide technical contributions to the purposes of the Advisory Committee.

(h) AUTHORIZATION OF APPROPRIATIONS.—

(1) There are authorized to be appropriated to the Secretary of Transportation for carrying out this section $3,000,000, to be derived from user fees under section 60301 of title 49, United States Code, for each of the fiscal years 2003 through 2006.

(2) Of the amounts available in the Oil Spill Liability Trust Fund established by section 9509 of the Internal Revenue Code of 1986 (26 U.S.C. 9509), $3,000,000 shall be transferred to the Secretary of Transportation, as provided in appropriation Acts, to carry out programs for detection, prevention and mitigation of oil spills under this section for each of the fiscal years 2003 through 2006.

(3) There are authorized to be appropriated to the Secretary of Energy for carrying out this section such sums as may be necessary for each of the fiscal years 2003 through 2006.

SEC. 1263. RESEARCH AND DEMONSTRATION FOR REMEDIATION OF GROUNDWATER FROM ENERGY ACTIVITIES.

(a) IN GENERAL.—The Secretary shall carry out a research, development, demonstration, and technology deployment program to improve methods for environmental restoration of groundwater contaminated by energy activities, including oil and gas production, surface and underground mining of coal, and in-situ extraction of energy resources.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out this section $10,000,000 for each of fiscal years 2003 through 2006.

TITLE XIII—CLIMATE CHANGE-RELATED RESEARCH AND DEVELOPMENT

Subtitle A—Department of Energy Programs

SEC. 1301. PROGRAM GOALS.

The goals of the research, development, demonstration, and technology deployment programs under this subtitle shall be to—

(1) provide a sound scientific understanding of the human and natural forces that influence the Earth's climate system, particularly those forces related to energy production and use;

(2) help mitigate climate change from human activities related to energy production and use; and

(3) reduce, avoid, or sequester emissions of greenhouse gases in furtherance of the goals of the United National Framework Convention on Climate Change, done at New York on May 9, 1992, in a manner that does not result in serious harm to the U.S. economy.

SEC. 1302. DEPARTMENT OF ENERGY GLOBAL CHANGE SCIENCE RESEARCH.

(a) PROGRAM DIRECTION.—The Secretary, acting through the Office of Science, shall conduct a comprehensive research program to understand and address the effects of energy production and use on the global climate system.

(b) PROGRAM ELEMENTS.—

(1) CLIMATE MODELING.—The Secretary shall—

(A) conduct observational and analytical research to acquire and interpret the data needed to describe the radiation balance from the surface of the Earth to the top of the atmosphere;

(B) determine the factors responsible for the Earth's radiation balance and incorporate improved understanding of such factors in climate models;

(C) improve the treatment of aerosols and clouds in climate models;

(D) reduce the uncertainty in decade-to-century model-based projections of climate change; and

(E) increase the availability and utility of climate change simulations to researchers and policy makers interested in assessing the relationship between energy and climate change.

(2) CARBON CYCLE.—The Secretary shall—

(A) carry out field research and modeling activities—

(i) to understand and document the net exchange of carbon dioxide between major terrestrial ecosystems and the atmosphere; or

(ii) to evaluate the potential of proposed methods of carbon sequestration;

(B) develop and test carbon cycle models; and

(C) acquire data and develop and test models to simulate and predict the transport, transformation, and fate of energy-related emissions in the atmosphere.

(3) ECOLOGICAL PROCESSES.—The Secretary shall carry out long-term experiments of the response of intact terrestrial ecosystems to—

(A) alterations in climate and atmospheric composition; or

(B) land-use changes that affect ecosystem extent and function.

(4) INTEGRATED ASSESSMENT.—The Secretary shall develop and improve methods and tools for integrated analyses of the climate change system from emissions of aerosols and greenhouse gases to the consequences of these emissions on climate and the resulting effects of human-induced climate change on economic and social systems, with emphasis on critical gaps in integrated assessment modeling, including modeling of technology innovation and diffusion and the development of metrics of economic costs of climate change and policies for mitigating or adapting to climate change.

(c) AUTHORIZATION OF APPROPRIATIONS.—From amounts authorized under section 1440(c), there are authorized to be appropriated to the Secretary for carrying out activities under this section—

(1) $150,000,000 for fiscal year 2003;

(2) $175,000,000 for fiscal year 2004;

(3) $200,000,000 for fiscal year 2005; and

(4) $230,000,000 for fiscal year 2006.

(d) Limitation on Funds.—Funds authorized to be appropriated under this section shall not be used for the development, demonstration, or deployment of technology to reduce, avoid, or sequester greenhouse gas emissions.

SEC. 1303. AMENDMENTS TO THE FEDERAL NONNUCLEAR RESEARCH AND DEVELOPMENT ACT OF 1974.

Section 6 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5905) is amended—

(1) in subsection (a)—

(A) in paragraph (2), by striking "and" at the end;

(B) in paragraph (3) by striking the period at the end and inserting ", and"; and

(C) by adding at the end the following:

"(4) solutions to the effective management of greenhouse gas emissions in the long term by the development of technologies and practices designed to—

"(A) reduce or avoid anthropogenic emissions of greenhouse gases;

"(B) remove and sequester greenhouse gases from emissions streams; and

"(C) remove and sequester greenhouse gases from the atmosphere."; and

(2) in subsection (b)—

(A) in paragraph (2), by striking "subsection (a)(1) through (3)" and inserting "paragraphs (1) through (4) of subsection (a)"; and

(B) in paragraph (3)—

(i) in subparagraph (R), by striking "and" at the end;

(ii) in subparagraph (S), by striking the period at the end and inserting "; and"; and

(iii) by adding at the end the following:

"(T) to pursue a long-term climate technology strategy designed to demonstrate a variety of technologies by which stabilization of greenhouse gases might be best achieved, including accelerated research, development, demonstration and deployment of—

"(i) renewable energy systems;

"(ii) advanced fossil energy technology;

"(iii) advanced nuclear power plant design;

"(iv) fuel cell technology for residential, industrial and transportation applications;

"(v) carbon sequestration practices and technologies, including agricultural and forestry practices that store and sequester carbon;

"(vi) efficient electrical generation, transmission and distribution technologies; and

"(vii) efficient end use energy technologies.".

Subtitle B—Department of Agriculture Programs

SEC. 1311. CARBON SEQUESTRATION BASIC AND APPLIED RESEARCH.

(a) Basic Research.—

(1) In general.—The Secretary of Agriculture shall carry out research in the areas of soil science that promote understanding of—

(A) the net sequestration of organic carbon in soil; and

(B) net emissions of other greenhouse gases from agriculture.

(2) Agricultural research service.—The Secretary of Agriculture, acting through the Agricultural Research Service, shall collaborate with other Federal agencies in developing data and carrying out research addressing soil carbon fluxes (losses and gains) and net emissions of methane and nitrous oxide from cultivation and animal management activities.

(3) Cooperative state research extension and education service.—

(A) In general.—The Secretary of Agriculture, acting through the Cooperative State Research Extension and Education Service, shall establish a competitive grant program to carry out research on the matters described in paragraph (1) in land grant universities and other research institutions.

(B) Consultation on research topics.—Before issuing a request for proposals for basic research under paragraph (1), the Cooperative State Research, Education, and Extension Service shall consult with the Agricultural Research Service to ensure that proposed research areas are complementary with and do not duplicate research projects underway at the Agricultural Research Service or other Federal agencies.

(b) Applied Research.—

(1) In general.—The Secretary of Agriculture shall carry out applied research in the areas of soil science, agronomy, agricultural economics and other agricultural sciences to—

(A) promote understanding of—

(i) how agricultural and forestry practices affect the sequestration of organic and inorganic carbon in soil and net emissions of other greenhouse gases;

(ii) how changes in soil carbon pools are cost-effectively measured, monitored, and verified; and

(iii) how public programs and private market approaches can be devised to incorporate carbon sequestration in a broader societal greenhouse gas emission reduction effort;

(B) develop methods for establishing baselines for measuring the quantities of carbon and other greenhouse gases sequestered; and

(C) evaluate leakage and performance issues.

(2) Requirements.—To the maximum extent practicable, applied research under paragraph (1) shall—

(A) draw on existing technologies and methods; and

(B) strive to provide methodologies that are accessible to a nontechnical audience.

(3) Minimization of adverse environmental impacts.—All applied research under paragraph (1) shall be conducted with an emphasis on minimizing adverse environmental impacts.

(4) Natural resources conservation service.—The Secretary of Agriculture, acting through the Natural Resources Conservation Service, shall collaborate with other Federal agencies, including the National Institute of Standards and Technology, in developing new measuring techniques and equipment or adapting existing techniques and equipment to enable cost-effective and accurate monitoring and verification, for a wide range of agricultural and forestry practices, of—

(A) changes in soil carbon content in agricultural soils, plants, and trees; and

(B) net emissions of other greenhouse gases.

(5) Cooperative state research extension and education service.—

(A) In general.—The Secretary of Agriculture, acting through the Cooperative State Research Extension and Education Service, shall establish a competitive grant program to encourage research on the matters described in paragraph (1) by land grant universities and other research institutions.

(B) Consultation on research topics.—Before issuing a request for proposals for applied research under paragraph (1), the Cooperative State Research, Education, and Extension Service shall consult with the National Resources Conservation Service and the Agricultural Research Service to ensure that proposed research areas are complementary with and do not duplicate research projects underway at the Agricultural Research Service or other Federal agencies.

(c) Research Consortia.—

(1) In general.—The Secretary of Agriculture may designate not more than 2 research consortia to carry out research projects under this section, with the requirement that the consortia propose to conduct basic, research under subsection (a) and applied research under subsection (b).

(2) Selection.—The consortia shall be selected in a competitive manner by the Cooperative State Research, Education, and Extension Service.

(3) Eligible consortium participants.—Entities eligible to participate in a consortium include—

(A) land grant colleges and universities;

(B) private research institutions;

(C) State geological surveys;

(D) agencies of the Department of Agriculture;

(E) research centers of the National Aeronautics and Space Administration and the Department of Energy;

(F) other Federal agencies;

(G) representatives of agricultural businesses and organizations with demonstrated expertise in these areas; and

(H) representatives of the private sector with demonstrated expertise in these areas.

(4) Reservation of funding.—If the Secretary of Agriculture designates 1 or 2 consortia, the Secretary of Agriculture shall reserve for research projects carried out by the consortium or consortia not more than 25 percent of the amounts made available to carry out this section for a fiscal year.

(d) Standards of Precision.—

(1) Conference.—Not later than 3 years after the date of enactment of this subtitle, the Secretary of Agriculture, acting through the Agricultural Research Service and in consultation with the Natural Resources Conservation Service, shall convene a conference of key scientific experts on carbon sequestration and measurement techniques from various sectors (including the government, academic, and private sectors) to—

(A) discuss benchmark standards of precision for measuring soil carbon content and net emissions of other greenhouse gases;

(B) designate packages of measurement techniques and modeling approaches to achieve a level of precision agreed on by the participants in the conference; and

(C) evaluate results of analyses on baseline, permanence, and leakage issues.

(2) Development of benchmark standards.—

(A) In general.—The Secretary shall develop benchmark standards for measuring the carbon content of soils and plants (including trees) based on—

(i) information from the conference under paragraph (1);

(ii) research conducted under this section; and

(iii) other information available to the Secretary.

(B) Opportunity for public comment.—The Secretary shall provide an opportunity for the public to comment on benchmark standards developed under subparagraph (A).

(3) Report.—Not later than 180 days after the conclusion of the conference under paragraph (1), the Secretary of Agriculture shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report on the results of the conference.

(e) Authorization of Appropriations.—

(1) In general.—There are authorized to be appropriated to carry out this section

$25,000,000 for each of fiscal years 2003 through 2006.

(2) ALLOCATION.—Of the amounts made available to carry out this section for a fiscal year, at least 50 percent shall be allocated for competitive grants by the Cooperative State Research, Education, and Extension Service.

SEC. 1312. CARBON SEQUESTRATION DEMONSTRATION PROJECTS AND OUTREACH.

(a) DEMONSTRATION PROJECTS.—

(1) DEVELOPMENT OF MONITORING PROGRAMS.—

(A) IN GENERAL.—The Secretary of Agriculture, acting through the Natural Resources Conservation Service and in cooperation with local extension agents, experts from land grant universities, and other local agricultural or conservation organizations, shall develop user-friendly, programs that combine measurement tools and modeling techniques into integrated packages to monitor the carbon sequestering benefits of conservation practices and net changes in greenhouse gas emissions.

(B) BENCHMARK LEVELS OF PRECISION.—The programs developed under subparagraph (A) shall strive to achieve benchmark levels of precision in measurement in a cost-effective manner.

(2) PROJECTS.—

(A) IN GENERAL.—The Secretary of Agriculture, acting through the Farm Service Agency, shall establish a program under which projects use the monitoring programs developed under paragraph (1) to demonstrate the feasibility of methods of measuring, verifying, and monitoring—

(i) changes in organic carbon content and other carbon pools in agricultural soils, plants, and trees; and

(ii) net changes in emissions of other greenhouse gases.

(B) EVALUATION OF IMPLICATIONS.—The projects under subparagraph (A) shall include evaluation of the implications for reassessed baselines, carbon or other greenhouse gas leakage, and permanence of sequestration.

(C) SUBMISSION OF PROPOSALS.—Proposals for projects under subparagraph (A) shall be submitted by the appropriate agency of each State, in cooperation with interested local jurisdictions and State agricultural and conservation organizations.

(D) LIMITATION.—Not more than 10 projects under subparagraph (A) may be approved in conjunction with applied research projects under section 1331(b) until benchmark measurement and assessment standards are established under section 1331(d).

(b) OUTREACH.—

(1) IN GENERAL.—The Cooperative State Research Extension and Education Service shall widely disseminate information about the economic and environmental benefits that can be generated by adoption of conservation practices (including benefits from increased sequestration of carbon and reduced emission of other greenhouse gases).

(2) PROJECT RESULTS.—The Cooperative State Research Extension and Education Service shall inform farmers, ranchers, and State agricultural and energy offices in each State of—

(A) the results of demonstration projects under subsection (a)(2) in the State; and

(B) the ways in which the methods demonstrated in the projects might be applicable to the operations of those farmers and ranchers.

(3) POLICY OUTREACH.—On a periodic basis, the Cooperative State Research Extension and Education Service shall disseminate information on the policy nexus between global climate change mitigation strategies and agriculture, so that farmers and ranchers may better understand the global implications of the activities of farmers and ranchers.

(c) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There are authorized to be appropriated to carry out this section $10,000,000 for each of fiscal years 2003 through 2006.

(2) ALLOCATION.—Of the amounts made available to carry out this section for a fiscal year, at least 50 percent shall be allocated for demonstration projects under subsection (a)(2).

Subtitle C—Clean Energy Technology Exports Program

SEC. 1321. CLEAN ENERGY TECHNOLOGY EXPORTS PROGRAM.

(a) DEFINITIONS.—In this section:

(1) CLEAN ENERGY TECHNOLOGY.—The term "clean energy technology" means an energy supply or end-use technology that, over its lifecycle and compared to a similar technology already in commercial use in developing countries, countries in transition, and other partner countries—

(A) emits substantially lower levels of pollutants or greenhouse gases; and

(B) may generate substantially smaller or less toxic volumes of solid or liquid waste.

(2) INTERAGENCY WORKING GROUP.—The term "interagency working group" means the Interagency Working Group on Clean Energy Technology Exports established under subsection (b).

(b) INTERAGENCY WORKING GROUP.—

(1) ESTABLISHMENT.—Not later than 90 days after the date of enactment of this section, the Secretary of Energy, the Secretary of Commerce, and the Administrator of the U.S. Agency for International Development shall jointly establish a Interagency Working Group on Clean Energy Technology Exports. The interagency working group will focus on opening and expanding energy markets and transferring clean energy technology to the developing countries, countries in transition, and other partner countries that are expected to experience, over the next 20 years, the most significant growth in energy production and associated greenhouse gas emissions, including through technology transfer programs under the Framework Convention on Climate Change, other international agreements, and relevant Federal efforts.

(2) MEMBERSHIP.—The interagency working group shall be jointly chaired by representatives appointed by the agency heads under paragraph (1) and shall also include representatives from the Department of State, the Department of Treasury, the Environmental Protection Agency, the Export-Import Bank, the Overseas Private Investment Corporation, the Trade and Development Agency, and other federal agencies as deemed appropriate by all three agency heads under paragraph (1).

(3) DUTIES.—The interagency working group shall—

(A) analyze technology, policy, and market opportunities for international development, demonstration, and deployment of clean energy technology;

(B) investigate issues associated with building capacity to deploy clean energy technology in developing countries, countries in transition, and other partner countries, including—

(i) energy-sector reform;

(ii) creation of open, transparent, and competitive markets for energy technologies;

(iii) availability of trained personnel to deploy and maintain the technology; and

(iv) demonstration and cost-buydown mechanisms to promote first adoption of the technology;

(C) examine relevant trade, tax, international, and other policy issues to assess what policies would help open markets and improve U.S. clean energy technology exports in support of the following areas:

(i) enhancing energy innovation and cooperation, including energy sector and market reform, capacity building, and financing measures;

(ii) improving energy end-use efficiency technologies, including buildings and facilities, vehicle, industrial, and co-generation technology initiatives; and

(iii) promoting energy supply technologies, including fossil, nuclear, and renewable technology initiatives;

(D) establish an advisory committee involving the private sector and other interested groups on the export and deployment of clean energy technology;

(E) monitor each agency's progress towards meeting goals in the 5-year strategic plan submitted to Congress pursuant to the Energy and Water Development Appropriations Act, 2001, and the Energy and Water Development Appropriations Act, 2002;

(F) make recommendations to heads of appropriate Federal agencies on ways to streamline federal programs and policies to improve each agency's role in the international development, demonstration, and deployment of clean energy technology;

(G) make assessments and recommendations regarding the distinct technological, market, regional, and stakeholder challenges necessary to carry out the program; and

(H) recommend conditions and criteria that will help ensure that United States funds promote sound energy policies in participating countries while simultaneously opening their markets and exporting United States energy technology.

(c) FEDERAL SUPPORT FOR CLEAN ENERGY TECHNOLOGY TRANSFER.—Notwithstanding any other provision of law, each federal agency or government corporation carrying out an assistance program in support of the activities of United States persons in the environment or energy sector of a developing country, country in transition, or other partner country shall support, to the maximum extent practicable, the transfer of United States clean energy technology as part of that program.

(d) ANNUAL REPORT.—Not later than April 1, 2002, and each year thereafter, the Interagency Working Group shall submit a report to Congress on its activities during the preceding calendar year. The report shall include a description of the technology, policy, and market opportunities for international development, demonstration, and deployment of clean energy technology investigated by the Interagency Working Group in that year, as well as any policy recommendations to improve the expansion of clean energy markets and U.S. clean energy technology exports.

(e) REPORT ON USE OF FUNDS.—Not later than October 1, 2002, and each year thereafter, the Secretary of State, in consultation with other federal agencies, shall submit a report to Congress indicating how United States funds appropriated for clean energy technology exports and other relevant federal programs are being directed in a manner that promotes sound energy policy commitments in developing countries, countries in transition, and other partner countries, including efforts pursuant to multi-lateral environmental agreements.

(f) Authorization of Appropriations.—There are authorized to be appropriated to the departments, agencies, and entities of the United States described in subsection (b) such sums as may be necessary to support the transfer of clean energy technology, consistent with the subsidy codes of the World Trade Organization, as part of assistance programs carried out by those departments, agencies, and entities in support of activities of United States persons in the energy sector of a developing country, country in transition, or other partner country.

SEC. 1322. INTERNATIONAL ENERGY TECHNOLOGY DEPLOYMENT PROGRAM.

(a) In General.—Section 1608 of the Energy Policy Act of 1992 (42 U.S.C. 13387) is amended by striking subsection (l) and inserting the following:

"(l) International Energy Technology Deployment Program—

"(1) Definitions.—In this subsection:

"(A) International energy deployment project.—The term 'international energy deployment project' means a project to construct an energy production facility outside the United States—

"(i) the output of which will be consumed outside the United States; and

"(ii) the deployment of which will result in a greenhouse gas reduction per unit of energy produced when compared to the technology that would otherwise be implemented—

"(I) 10 percentage points or more, in the case of a unit placed in service before January 1, 2010;

"(II) 20 percentage points or more, in the case of a unit placed in service after December 31, 2009, and before January 1, 2020; or

"(III) 30 percentage points or more, in the case of a unit placed in service after December 31, 2019, and before January 1, 2030.

"(B) Qualifying international energy deployment project.—The term 'qualifying international energy deployment project' means an international energy deployment project that—

"(i) is submitted by a United States firm to the Secretary in accordance with procedures established by the Secretary by regulation;

"(ii) uses technology that has been successfully developed or deployed in the United States;

"(iii) meets the criteria of subsection (k);

"(iv) is approved by the Secretary, with notice of the approval being published in the Federal Register; and

"(v) complies with such terms and conditions as the Secretary establishes by regulation.

"(C) United states.—For purposes of this paragraph, the term 'United States', when used in a geographical sense, means the 50 States, the District of Columbia, Puerto Rico, Guam, the Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands.

"(2) Pilot program for financial assistance.—

"(A) In general.—Not later than 180 days after the date of enactment of this subsection, the Secretary shall, by regulation, provide for a pilot program for financial assistance for qualifying international energy deployment projects.

"(B) Selection criteria.—After consultation with the Secretary of State, the Secretary of Commerce, and the United States Trade Representative, the Secretary shall select projects for participation in the program based solely on the criteria under this title and without regard to the country in which the project is located.

"(C) Financial assistance.—

"(i) In general.—A United States firm that undertakes a qualifying international energy deployment project that is selected to participate in the pilot program shall be eligible to receive a loan or a loan guarantee from the Secretary.

"(ii) Rate of interest.—The rate of interest of any loan made under clause (i) shall be equal to the rate for Treasury obligations then issued for periods of comparable maturities.

"(iii) Amount.—The amount of a loan or loan guarantee under clause (i) shall not exceed 50 percent of the total cost of the qualified international energy deployment project.

"(iv) Developed countries.—Loans or loan guarantees made for projects to be located in a developed country, as listed in Annex I of the United Nations Framework Convention on Climate Change, shall require at least a 50 percent contribution towards the total cost of the loan or loan guarantee by the host country.

"(v) Developing countries.—Loans or loan guarantees made for projects to be located in a developing country (those countries not listed in Annex I of the United Nations Framework Convention on Climate Change) shall require at least a 10 percent contribution towards the total cost of the loan or loan guarantee by the host country.

"(vi) Capacity building research.—Proposals made for projects to be located in a developing country may include a research component intended to build technological capacity within the host country. Such research must be related to the technologies being deployed and must involve both an institution in the host country and an industry, university or national laboratory participant from the United States. The host institution shall contribute at least 50 percent of funds provided for the capacity building research.

"(D) Coordination with other programs.—A qualifying international energy deployment project funded under this section shall not be eligible as a qualifying clean coal technology under section 415 of the Clean Air Act (42 U.S.C. 7651n).

"(E) Report.—Not later than 5 years after the date of enactment of this subsection, the Secretary shall submit to the President a report on the results of the pilot projects.

"(F) Recommendation.—Not later than 60 days after receiving the report under subparagraph (E), the President shall submit to Congress a recommendation, based on the results of the pilot projects as reported by the Secretary of Energy, concerning whether the financial assistance program under this section should be continued, expanded, reduced, or eliminated.

"(3) Authorization of appropriations.—There are authorized to be appropriated to the Secretary carry out this section $100,000,000 for each of fiscal years 2003 through 2011, to remain available until expended.".

Subtitle D—Climate Change Science and Information

PART I—AMENDMENTS TO THE GLOBAL CHANGE RESEARCH ACT OF 1990

SEC. 1331. AMENDMENT OF GLOBAL CHANGE RESEARCH ACT OF 1990.

Except as otherwise expressly provided, whenever in this subtitle an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Global Change Research Act of 1990 (15 U.S.C. 2921 et seq.).

SEC. 1332. CHANGES IN DEFINITIONS.

Paragraph (1) of section 2 (15 U.S.C. 2921) is amended by striking "Earth and" inserting "Climate and".

SEC. 1333. CHANGE IN COMMITTEE NAME.

Section 102 (15 U.S.C. 2932) is amended—

(1) by striking "**EARTH AND**" in the section heading and inserting "**CLIMATE AND**"; and

(2) by striking "Earth and" in subsection (a) and inserting "Climate and".

SEC. 1334. CHANGE IN NATIONAL GLOBAL CHANGE RESEARCH PLAN.

Section 104 (15 U.S.C. 2934) is amended—

(1) by adding at the end of subsection (c) the following:

"(6) Methods for integrating information to provide predictive tools for planning and decision making by governments, communities and the private sector.";

(2) by inserting "local, State, and Federal" before "policy makers" in subsection (d)(3);

(3) by striking "and" in subsection (d)(2);

(4) by striking "change." in subsection (d)(3) and inserting "change; and";

(5) by adding at the end of subsection (d) the following:

"(4) establish a common assessment and modeling framework that may be used in both research and operations to predict and assess the vulnerability of natural and managed ecosystems and of human society in the context of other environmental and social changes."; and

(6) by adding at the end the following:

"(g) Strategic Plan; Revised Implementation Plan.—The Chairman of the Council, through the Committee, shall develop a strategic plan for the United States Global Climate Change Research Program for the 10-year period beginning in 2002 and submit the plan to the Congress within 180 days after the date of enactment of the Global Climate Change Act of 2002. The Chairman, through the Committee, shall also submit a revised implementation plan under subsection (a).".

SEC. 1335. INTEGRATED PROGRAM OFFICE.

Section 105 (15 U.S.C. 2935) is amended—

(1) by redesignating subsections (a), (b), and (c) as subsections (b), (c), and (d), respectively; and

(2) inserting before subsection (b), as redesignated, the following:

"(a) Integrated Program Office.—

"(1) Establishment.—There is established in the Office of Science and Technology Policy an integrated program office for the global change research program.

"(2) Organization.—The integrated program office established under paragraph (1) shall be headed by the associate director with responsibility for climate change science and technology and shall include a representative from each Federal agency participating in the global change research program.

"(3) Function.—The integrated program office shall—

"(A) manage, working in conjunction with the Committee, interagency coordination and program integration of global change research activities and budget requests;

"(B) ensure that the activities and programs of each Federal agency or department participating in the program address the goals and objectives identified in the strategic research plan and interagency implementation plans;

"(C) ensure program and budget recommendations of the Committee are communicated to the President and are integrated into the climate change action strategy;

"(D) review, solicit, and identify, and allocate funds for, partnership projects that address critical research objectives or operational goals of the program, including projects that would fill research gaps identified by the program, and for which project resources are shared among at least 2 agencies participating in the program; and

"(E) review and provide recommendations on, in conjunction with the Committee, all annual appropriations requests from Federal agencies or departments participating in the program.

"(4) GRANT AUTHORITY.—The Integrated Program Office may authorize 1 or more of the departments or agencies participating in the program to enter into contracts and make grants, using funds appropriated for use by the Office of Science and Technology Policy for the purpose of carrying out the responsibilities of that Office.

"(5) FUNDING.—For fiscal year 2003, and each fiscal year thereafter, not less than $13,000,000 shall be made available to the Integrated Program Office from amounts appropriated to or for the use of the Office of Science and Technology Policy.";

(3) by striking "Committee." in paragraph (2) of subsection (c), as redesignated, and inserting "Committee and the Integrated Program Office."; and

(4) by inserting "and the Integrated Program Office" after "Committee" in paragraph (1) of subsection (d), as redesignated.

PART II—NATIONAL CLIMATE SERVICES AND MONITORING

SEC. 1341. AMENDMENT OF NATIONAL CLIMATE PROGRAM ACT.

Except as otherwise expressly provided, whenever in this subtitle an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the National Climate Program Act (15 U.S.C. 2901 et seq.).

SEC. 1342. CHANGES IN FINDINGS.

Section 2 (15 U.S.C. 2901) is amended—

(1) by striking "Weather and climate change affect" in paragraph (1) and inserting "Weather, climate change, and climate variability affect public safety, environmental security, human health,";

(2) by striking "climate" in paragraph (2) and inserting "climate, including seasonal and decadal fluctuations,";

(3) by striking "changes." in paragraph (5) and inserting "changes and providing free exchange of meteorological data."; and

(4) by adding at the end the following:

"(7) The present rate of advance in research and development is inadequate and new developments must be incorporated rapidly into services for the benefit of the public.

"(8) The United States lacks adequate infrastructure and research to meet national climate monitoring and prediction needs.".

SEC. 1343. TOOLS FOR REGIONAL PLANNING.

Section 5(d) (15 U.S.C. 2904(d)) is amended—

(1) by redesignating paragraphs (4) through (9) as paragraphs (5) through (10), respectively;

(2) by inserting after paragraph (3) the following:

"(4) methods for improving modeling and predictive capabilities and developing assessment methods to guide national, regional, and local planning and decision-making on land use, water hazards, and related issues;

(3) by inserting "sharing," after "collection," in paragraph (5), as redesignated;

(4) by striking "experimental" each place it appears in paragraph (9), as redesignated;

(5) by striking "preliminary" in paragraph (10), as redesignated;

(6) by striking "this Act," the first place it appears in paragraph (10), as redesignated, and inserting "the Global Climate Change Act of 2002,"; and

(7) by striking "this Act," the second place it appears in paragraph (10), as redesignated, and inserting "that Act,".

SEC. 1344. AUTHORIZATION OF APPROPRIATIONS.

Section 9 (15 U.S.C. 2908) is amended—

(1) by striking "1979," and inserting "2002,";

(2) by striking "1980," and inserting "2003,";

(3) by striking "1981," and inserting "2004,"; and

(4) by striking "$25,500,000" and inserting "$75,500,000".

SEC. 1345. NATIONAL CLIMATE SERVICE PLAN.

The Act (15 U.S.C. 2901 et seq.) is amended by inserting after section 5 the following:

"SEC. 6. NATIONAL CLIMATE SERVICE PLAN.

"Within one year after the date of enactment of the Global Climate Change Act of 2002, the Secretary of Commerce shall submit to the Senate Committee on Commerce, Science, and Transportation and the House Science Committee a plan of action for a National Climate Service under the National Climate Program. The plan shall set forth recommendations and funding estimates for—

"(1) a national center for operational climate monitoring and predicting with the functional capacity to monitor and adjust observing systems as necessary to reduce bias;

"(2) the design, deployment, and operation of an adequate national climate observing system that builds upon existing environmental monitoring systems and closes gaps in coverage by existing systems;

"(3) the establishment of a national coordinated modeling strategy, including a national climate modeling center to provide a dedicated capability for climate modeling and a regular schedule of projections on a long and short term time schedule and at a range of spatial scales;

"(4) improvements in modeling and assessment capabilities needed to integrate information to predict regional and local climate changes and impacts;

"(5) in coordination with the private sector, improving the capacity to assess the impacts of predicted and projected climate changes and variations;

"(6) a program for long term stewardship, quality control, development of relevant climate products, and efficient access to all relevant climate data, products, and critical model simulations; and

"(7) mechanisms to coordinate among Federal agencies, State, and local government entities and the academic community to ensure timely and full sharing and dissemination of climate information and services, both domestically and internationally.".

SEC. 1346. INTERNATIONAL PACIFIC RESEARCH AND COOPERATION.

The Secretary of Commerce, in cooperation with the Administrator of the National Aeronautics and Space Administration, shall conduct international research in the Pacific region that will increase understanding of the nature and predictability of climate variability in the Asia-Pacific sector, including regional aspects of global environmental change. Such research activities shall be conducted in cooperation with other nations of the region. There are authorized to be appropriated for purposes of this section $1,500,000 to the National Oceanic and Atmospheric Administration, $1,500,000 to the National Aeronautics and Space Administration, and $500,000 for the Pacific ENSO Applications Center.

SEC. 1347. REPORTING ON TRENDS.

(a) ATMOSPHERIC MONITORING AND VERIFICATION PROGRAM.—The Secretary of Commerce, in coordination with relevant Federal agencies, shall, as part of the National Climate Service, establish an atmospheric monitoring and verification program utilizing aircraft, satellite, ground sensors, and modeling capabilities to monitor, measure, and verify atmospheric greenhouse gas levels, dates, and emissions. Where feasible, the program shall measure emissions from identified sources participating in the reporting system for verification purposes. The program shall use measurements and standards that are consistent with those utilized in the greenhouse gas measurement and reporting system established under subsection (a) and the registry established under section 1102.

(b) ANNUAL REPORTING.—The Secretary of Commerce shall issue an annual report that identifies greenhouse emissions and trends on a local, regional, and national level. The report shall also identify emissions or reductions attributable to individual or multiple sources covered by the greenhouse gas measurement and reporting system established under section 1102.

PART III—OCEAN AND COASTAL OBSERVING SYSTEM

SEC. 1351. OCEAN AND COASTAL OBSERVING SYSTEM.

(a) ESTABLISHMENT.—The President, through the National Ocean Research Leadership Council, established by section 7902(a) of title 10, United States Code, shall establish and maintain an integrated ocean and coastal observing system that provides for long-term, continuous, and real-time observations of the oceans and coasts for the purposes of—

(1) understanding, assessing and responding to human-induced and natural processes of global change;

(2) improving weather forecasts and public warnings;

(3) strengthening national security and military preparedness;

(4) enhancing the safety and efficiency of marine operations;

(5) supporting efforts to restore the health of and manage coastal and marine ecosystems and living resources;

(6) monitoring and evaluating the effectiveness of ocean and coastal environmental policies;

(7) reducing and mitigating ocean and coastal pollution; and

(8) providing information that contributes to public awareness of the state and importance of the oceans.

(b) COUNCIL FUNCTIONS.—In addition to its responsibilities under section 7902(a) of such title, the Council shall be responsible for planning and coordinating the observing system and in carrying out this responsibility shall—

(1) develop and submit to the Congress, within 6 months after the date of enactment of this Act, a plan for implementing a national ocean and coastal observing system that—

(A) uses an end-to-end engineering and development approach to develop a system design and schedule for operational implementation;

(B) determines how current and planned observing activities can be integrated in a cost-effective manner;

(C) provides for regional and concept demonstration projects;

(D) describes the role and estimated budget of each Federal agency in implementing the plan;

(E) contributes, to the extent practicable, to the National Global Change Research Plan under section 104 of the Global Change Research Act of 1990 (15 U.S.C. 2934); and

(F) makes recommendations for coordination of ocean observing activities of the United States with those of other nations and international organizations;

(2) serve as the mechanism for coordinating Federal ocean observing requirements and activities;

(3) work with academic, State, industry and other actual and potential users of the observing system to make effective use of existing capabilities and incorporate new technologies;

(4) approve standards and protocols for the administration of the system, including—

(A) a common set of measurements to be collected and distributed routinely and by uniform methods;

(B) standards for quality control and assessment of data;

(C) design, testing and employment of forecast models for ocean conditions;

(D) data management, including data transfer protocols and archiving; and

(E) designation of coastal ocean observing regions; and

(5) in consultation with the Secretary of State, provide representation at international meetings on ocean observing programs and coordinate relevant Federal activities with those of other nations.

(c) System Elements.—The integrated ocean and coastal observing system shall include the following elements:

(1) A nationally coordinated network of regional coastal ocean observing systems that measure and disseminate a common set of ocean observations and related products in a uniform manner and according to sound scientific practice, but that are adapted to local and regional needs.

(2) Ocean sensors for climate observations, including the Arctic Ocean and sub-polar seas.

(3) Coastal, relocatable, and cabled sea floor observatories.

(4) Broad bandwidth communications that are capable of transmitting high volumes of data from open ocean locations at low cost and in real time.

(5) Ocean data management and assimilation systems that ensure full use of new sources of data from space-borne and in situ sensors.

(6) Focused research programs.

(7) Technology development program to develop new observing technologies and techniques, including data management and dissemination.

(8) Public outreach and education.

SEC. 1352. AUTHORIZATION OF APPROPRIATIONS.

For development and implementation of an integrated ocean and coastal observation system under this title, including financial assistance to regional coastal ocean observing systems, there are authorized to be appropriated **$235,000,000** in fiscal year 2003, **$315,000,000** in fiscal year 2004, **$390,000,000** in fiscal year 2005, and **$445,000,000** in fiscal year 2006.

Subtitle E—Climate Change Technology

SEC. 1361. NIST GREENHOUSE GAS FUNCTIONS.

Section 2(c) of the National Institute of Standards and Technology Act (15 U.S.C. 272(c)) is amended—

(1) striking "and" after the semicolon in paragraph (21);

(2) by redesignating paragraph (22) as paragraph (23); and

(3) by inserting after paragraph (21) the following:

"(22) perform research to develop enhanced measurements, calibrations, standards, and technologies which will enable the reduced production in the United States of greenhouse gases associated with global warming, including carbon dioxide, methane, nitrous oxide, ozone, perfluorocarbons, hydrofluorocarbons, and sulphur hexafluoride; and".

SEC. 1362. DEVELOPMENT OF NEW MEASUREMENT TECHNOLOGIES.

(a) In General.—The Secretary of Commerce shall initiate a program to develop, with technical assistance from appropriate Federal agencies, innovative standards and measurement technologies (including technologies to measure carbon changes due to changes in land use cover) to calculate—

(1) greenhouse gas emissions and reductions from agriculture, forestry, and other land use practices;

(2) non-carbon dioxide greenhouse gas emissions from transportation;

(3) greenhouse gas emissions from facilities or sources using remote sensing technology; and

(4) any other greenhouse gas emission or reductions for which no accurate or reliable measurement technology exists.

SEC. 1363. ENHANCED ENVIRONMENTAL MEASUREMENTS AND STANDARDS.

The National Institute of Standards and Technology Act (15 U.S.C. 271 et seq.) is amended—

(1) by redesignating sections 17 through 32 as sections 18 through 33, respectively; and

(2) by inserting after section 16 the following:

"SEC. 17. CLIMATE CHANGE STANDARDS AND PROCESSES.

"(a) In General.—The Director shall establish within the Institute a program to perform and support research on global climate change standards and processes, with the goal of providing scientific and technical knowledge applicable to the reduction of greenhouse gases (as defined in section 4 of the Global Climate Change Act of 2002).

"(b) Research Program.—

"(1) In general.—The Director is authorized to conduct, directly or through contracts or grants, a global climate change standards and processes research program.

"(2) Research projects.—The specific contents and priorities of the research program shall be determined in consultation with appropriate Federal agencies, including the Environmental Protection Agency, the National Oceanic and Atmospheric Administration, and the National Aeronautics and Space Administration. The program generally shall include basic and applied research—

"(A) to develop and provide the enhanced measurements, calibrations, data, models, and reference material standards which will enable the monitoring of greenhouse gases;

"(B) to assist in establishing of a baseline reference point for future trading in greenhouse gases and the measurement of progress in emissions reduction;

"(C) that will be exchanged internationally as scientific or technical information which has the stated purpose of developing mutually recognized measurements, standards, and procedures for reducing greenhouse gases; and

"(D) to assist in developing improved industrial processes designed to reduce or eliminate greenhouse gases.

"(c) National Measurement Laboratories.—

"(1) In general.—In carrying out this section, the Director shall utilize the collective skills of the National Measurement Laboratories of the National Institute of Standards and Technology to improve the accuracy of measurements that will permit better understanding and control of these industrial chemical processes and result in the reduction or elimination of greenhouse gases.

"(2) Material, process, and building research.—The National Measurement Laboratories shall conduct research under this subsection that includes—

"(A) developing material and manufacturing processes which are designed for energy efficiency and reduced greenhouse gas emissions into the environment;

"(B) developing environmentally-friendly, 'green' chemical processes to be used by industry; and

"(C) enhancing building performance with a focus in developing standards or tools which will help incorporate low or no-emission technologies into building designs.

"(3) Standards and tools.—The National Measurement Laboratories shall develop standards and tools under this subsection that include software to assist designers in selecting alternate building materials, performance data on materials, artificial intelligence-aided design procedures for building subsystems and 'smart buildings', and improved test methods and rating procedures for evaluating the energy performance of residential and commercial appliances and products.

"(d) National Voluntary Laboratory Accreditation Program.—The Director shall utilize the National Voluntary Laboratory Accreditation Program under this section to establish a program to include specific calibration or test standards and related methods and protocols assembled to satisfy the unique needs for accreditation in measuring the production of greenhouse gases. In carrying out this subsection the Director may cooperate with other departments and agencies of the Federal Government, State and local governments, and private organizations.".

SEC. 1364. TECHNOLOGY DEVELOPMENT AND DIFFUSION.

(a) Advanced Technology Program Competitions.—The Director of the National Institute of Standards and Technology, through the Advanced Technology Program, may hold a portion of the Institute's competitions in thematic areas, selected after consultation with industry, academics, and other Federal Agencies, designed to develop and commercialize enabling technologies to address global climate change by significantly reducing greenhouse gas emissions and concentrations in the atmosphere.

(b) Manufacturing Extension Partnership Program for "Green" Manufacturing.—The Director of the National Institute of Standards and Technology, through the Manufacturing Extension Partnership Program, may develop a program to support the implementation of new "green" manufacturing technologies and techniques by the more than 380,000 small manufacturers.

SEC. 1365. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Director to carry out functions pursuant to sections 1345, 1351, and 1361 through 1363, $10,000,000 for fiscal years 2002 through 2006.

Subtitle F—Climate Adaptation and Hazards Prevention

PART I—ASSESSMENT AND ADAPTATION

SEC. 1371. REGIONAL CLIMATE ASSESSMENT AND ADAPTATION PROGRAM.

(a) In General.—The President shall establish within the Department of Commerce a National Climate Change Vulnerability and Adaptation Program for regional impacts related to increasing concentrations of greenhouse gases in the atmosphere and climate variability.

(b) Coordination.—In designing such program the Secretary shall consult with the Federal Emergency Management Agency, the Environmental Protection Agency, the Army Corps of Engineers, the Department of Transportation, and other appropriate Federal, State, and local government entities.

(c) Vulnerability Assessments.—The program shall—

(1) evaluate, based on predictions developed under this Act and the National Climate Program Act (15 U.S.C. 2901 et seq.), regional vulnerability to phenomena associated with climate change and climate variability, including—

(A) increases in severe weather events;

(B) sea level rise and shifts in the hydrological cycle;

(C) natural hazards, including tsunami, drought, flood and fire; and

(D) alteration of ecological communities, including at the ecosystem or watershed levels; and

(2) build upon predictions and other information developed in the National Assessments prepared under the Global Change Research Act of 1990 (15 U.S.C. 2921 et seq.).

(d) Preparedness Recommendations.—The program shall submit a report to Congress within 2 years after the date of enactment of this Act that identifies and recommends implementation and funding strategies for short and long-term actions that may be taken at the national, regional, State, and local level—

(1) to minimize threats to human life and property,

(2) to improve resilience to hazards,

(3) to minimize economic impacts; and

(4) to reduce threats to critical biological and ecological processes.

(e) Information and Technology.—The Secretary shall make available appropriate information and other technologies and products that will assist national, regional, State, and local efforts to reduce loss of life and property, and coordinate dissemination of such technologies and products.

(f) Authorization of Appropriations.—There are authorized to be appropriated to the Secretary of Commerce $4,500,000 to implement the requirements of this section.

SEC. 1372. COASTAL VULNERABILITY AND ADAPTATION.

(a) Coastal Vulnerability.—Within 2 years after the date of enactment of this Act, the Secretary shall, in consultation with the appropriate Federal, State, and local governmental entities, conduct regional assessments of the vulnerability of coastal areas to hazards associated with climate change, climate variability, sea level rise, and fluctuation of Great Lakes water levels. The Secretary may also establish, as warranted, longer term regional assessment programs. The Secretary may also consult with the governments of Canada and Mexico as appropriate in developing such regional assessments. In preparing the regional assessments, the Secretary shall collect and compile current information on climate change, sea level rise, natural hazards, and coastal erosion and mapping, and specifically address impacts on Arctic regions and the Central, Western, and South Pacific regions. The regional assessments shall include an evaluation of—

(1) social impacts associated with threats to and potential losses of housing, communities, and infrastructure;

(2) physical impacts such as coastal erosion, flooding and loss of estuarine habitat, saltwater intrusion of aquifers and saltwater encroachment, and species migration; and

(3) economic impact on local, State, and regional economies, including the impact on abundance or distribution of economically important living marine resources.

(b) Coastal Adaptation Plan.—The Secretary shall, within 3 years after the date of enactment of this Act, submit to the Congress a national coastal adaptation plan, composed of individual regional adaptation plans that recommend targets and strategies to address coastal impacts associated with climate change, sea level rise, or climate variability. The plan shall be developed with the participation of other Federal, State, and local government agencies that will be critical in the implementation of the plan at the State and local levels. The regional plans that will make up the national coastal adaptation plan shall be based on the information contained in the regional assessments and shall identify special needs associated with Arctic areas and the Central, Western, and South Pacific regions. The Plan shall recommend both short and long-term adaptation strategies and shall include recommendations regarding—

(1) Federal flood insurance program modifications;

(2) areas that have been identified as high risk through mapping and assessment;

(3) mitigation incentives such as rolling easements, strategic retreat, State or Federal acquisition in fee simple or other interest in land, construction standards, and zoning;

(4) land and property owner education;

(5) economic planning for small communities dependent upon affected coastal resources, including fisheries; and

(6) funding requirements and mechanisms.

(c) Technical Planning Assistance.—The Secretary, through the National Ocean Service, shall establish a coordinated program to provide technical planning assistance and products to coastal States and local governments as they develop and implement adaptation or mitigation strategies and plans. Products, information, tools and technical expertise generated from the development of the regional assessments and the regional adaptation plans will be made available to coastal States for the purposes of developing their own State and local plans.

(d) Coastal Adaptation Grants.—The Secretary shall provide grants of financial assistance to coastal States with Federally approved coastal zone management programs to develop and begin implementing coastal adaptation programs if the State provides a Federal-to-State match of 4 to 1 in the first fiscal year, 2.3 to 1 in the second fiscal year, 2 to 1 in the third fiscal year, and 1 to 1 thereafter. Distribution of these funds to coastal states shall be based upon the formula established under section 306(c) of the Coastal Zone Management Act of 1972 (16 U.S.C. 1455(c)), adjusted in consultation with the States as necessary to provide assistance to particularly vulnerable coastlines.

(e) Coastal Response Pilot Program.—

(1) In General.—The Secretary shall establish a 4-year pilot program to provide financial assistance to coastal communities most adversely affected by the impact of climate change or climate variability that are located in States with Federally approved coastal zone management programs.

(2) Eligible Projects.—A project is eligible for financial assistance under the pilot program if it—

(A) will restore or strengthen coastal resources, facilities, or infrastructure that have been damaged by such an impact, as determined by the Secretary;

(B) meets the requirements of the Coastal Zone Management Act (16 U.S.C. 1451 et seq.) and is consistent with the coastal zone management plan of the State in which it is located; and

(C) will not cost more than $100,000.

(3) Funding Share.—The Federal funding share of any project under this subsection may not exceed 75 percent of the total cost of the project. In the administration of this paragraph—

(A) the Secretary may take into account in-kind contributions and other non-cash support of any project to determine the Federal funding share for that project; and

(B) the Secretary may waive the requirements of this paragraph for a project in a community if—

(i) the Secretary determines that the project is important; and

(ii) the economy and available resources of the community in which the project is to be conducted are insufficient to meet the non-Federal share of the projects's costs.

(f) Definitions.—Any term used in this section that is defined in section 304 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1453) has the meaning given it by that section.

(g) Authorization of Appropriations.—There are authorized to be appropriated $3,000,000 annually for regional assessments under subsection (a), and $3,000,000 annually for coastal adaptation grants under subsection (d).

PART II—FORECASTING AND PLANNING PILOT PROGRAMS

SEC. 1381. REMOTE SENSING PILOT PROJECTS.

(a) In General.—The Administrator of the National Aeronautics and Space Administration shall establish, through the National Oceanic and Atmospheric Administration's Coastal Services Center, a program of grants for competitively awarded pilot projects to explore the integrated use of sources of remote sensing and other geospatial information to address State, local, regional, and tribal agency needs to forecast a plan for adaptation to coastal zone and land use changes that may result as a consequence of global climate change or climate variability.

(b) Preferred Projects.—In awarding grants under this section, the Center shall give preference to projects that—

(1) focus on areas that are most sensitive to the consequences of global climate change or climate variability;

(2) make use of existing public or commercial data sets;

(3) integrate multiple sources of geospatial information, such as geographic information system data, satellite-provided positioning data, and remotely sensed data, in innovative ways;

(4) offer diverse, innovative approaches that may serve as models for establishing a future coordinated framework for planning strategies for adaptation to coastal zone and land use changes related to global climate change or climate variability;

(5) include funds or in-kind contributions from non-Federal sources;

(6) involve the participation of commercial entities that process raw or lightly processed data, often merging that data with other geospatial information, to create data products that have significant value added to the original data; and

(7) taken together demonstrate as diverse a set of public sector applications as possible.

(c) OPPORTUNITIES.—In carrying out this section, the Center shall seek opportunities to assist—

(1) in the development of commercial applications potentially available from the remote sensing industry; and

(2) State, local, regional, and tribal agencies in applying remote sensing and other geospatial information technologies for management and adaptation to coastal and land use consequences of global climate change or climate variability.

(d) DURATION.—Assistance for a pilot project under subsection (a) shall be provided for a period of not more than 3 years.

(e) RESPONSIBILITIES OF GRANTEES.—Within 180 days after completion of a grant project, each recipient of a grant under subsection (a) shall transmit a report to the Center on the results of the pilot project and conduct at least one workshop for potential users to disseminate the lessons learned from the pilot project as widely as feasible.

(f) REGULATIONS.—The Center shall issue regulations establishing application, selection, and implementation procedures for pilot projects, and guidelines for reports and workshops required by this section.

SEC. 1382. DATABASE ESTABLISHMENT.

The Center shall establish and maintain an electronic, Internet-accessible database of the results of each pilot project completed under section 1381.

SEC. 1383. DEFINITIONS.

In this subtitle:

(1) CENTER.—The term "Center" means the Coastal Services Center of the National Oceanic and Atmospheric Administration.

(2) GEOSPATIAL INFORMATION.—The term "geospatial information" means knowledge of the nature and distribution of physical and cultural features on the landscape based on analysis of data from airborne or spaceborne platforms or other types and sources of data.

(3) INSTITUTION OF HIGHER EDUCATION.—The term "institution of higher education" has the meaning given that term in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a)).

SEC. 1384. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Administrator to carry out the provisions of this subtitle—

(1) $17,500,000 for fiscal year 2003;

(2) $20,000,000 for fiscal year 2004;

(3) $22,500,000 for fiscal year 2005; and

(4) $25,000,000 for fiscal year 2006.

TITLE XIV—MANAGEMENT OF DOE SCIENCE AND TECHNOLOGY PROGRAMS

SEC. 1401. DEFINITIONS.

In this title:

(1) APPLICABILITY OF DEFINITIONS.—The definitions in section 1203 shall apply.

(2) SINGLE-PURPOSE RESEARCH FACILITY.—The term "single-purpose research facility" means any of the following primarily single purpose entities owned by the Department of Energy—

(A) Ames Laboratory;

(B) East Tennessee Technology Park;

(C) Environmental Measurement Laboratory;

(D) Fernald Environmental Management Project;

(E) Fermi National Accelerator Laboratory;

(F) Kansas City Plant;

(G) Nevada Test Site;

(H) New Brunswick Laboratory;

(I) Pantex Weapons Facility;

(J) Princeton Plasma Physics Laboratory;

(K) Savannah River Technology Center;

(L) Stanford Linear Accelerator Center;

(M) Thomas Jefferson National Accelerator Facility;

(N) Y-12 facility at Oak Ridge National Laboratory;

(O) Waste Isolation Pilot Plant; or

(P) other similar organization of the Department designated by the Secretary that engages in technology transfer, partnering, or licensing activities.

SEC. 1402. AVAILABILITY OF FUNDS.

Funds authorized to be appropriated to the Department of Energy under title XII, title XIII, and title XV shall remain available until expended.

SEC. 1403. COST SHARING.

(a) RESEARCH AND DEVELOPMENT.—For research and development projects funded from appropriations authorized under subtitles A through D of title XII, the Secretary shall require a commitment from non-federal sources of at least 20 percent of the cost of the project. The Secretary may reduce or eliminate the non-Federal requirement under this subsection if the Secretary determines that the research and development is of a basic or fundamental nature.

(b) DEMONSTRATION AND DEPLOYMENT.—For demonstration and technology deployment activities funded from appropriations authorized under subtitles A through D of title XII, the Secretary shall require a commitment from non-federal sources of at least 50 percent of the costs of the project directly and specifically related to any demonstration or technology deployment activity. The Secretary may reduce or eliminate the non-federal requirement under this subsection if the Secretary determines that the reduction is necessary and appropriate considering the technological risks involved in the project and is necessary to meet one or more goals of this title.

(c) CALCULATION OF AMOUNT.—In calculating the amount of the non-Federal commitment under subsection (a) or (b), the Secretary shall include cash, personnel, services, equipment, and other resources.

SEC. 1404. MERIT REVIEW OF PROPOSALS.

Awards of funds authorized under title XII, subtitle A of title XIII, and title XV shall be made only after an independent review of the scientific and technical merit of the proposals for such awards has been made by the Department of Energy.

SEC. 1405. EXTERNAL TECHNICAL REVIEW OF DEPARTMENTAL PROGRAMS.

(a) NATIONAL ENERGY RESEARCH AND DEVELOPMENT ADVISORY BOARDS.—(1) The Secretary shall establish an advisory board to oversee Department research and development programs in each of the following areas—

(A) energy efficiency;

(B) renewable energy;

(C) fossil energy;

(D) nuclear energy; and

(E) climate change technology, with emphasis on integration, collaboration, and other special features of the cross-cutting technologies supported by the Office of Climate Change Technology.

(2) The Secretary may designate an existing advisory board within the Department to fulfill the responsibilities of an advisory board under this subsection, or may enter into appropriate arrangements with the National Academy of Sciences to establish such an advisory board.

(b) UTILIZATION OF EXISTING COMMITTEES.—The Secretary of Energy shall continue to use the scientific program advisory committees chartered under the Federal Advisory Committee Act by the Office of Science to oversee research and development programs under that Office.

(c) MEMBERSHIP.—Each advisory board under this section shall consist of experts drawn from industry, academia, federal laboratories, research institutions, or state, local, or tribal governments, as appropriate.

(d) MEETINGS AND PURPOSES.—Each advisory board under this section shall meet at least semi-annually to review and advise on the progress made by the respective research, development, demonstration, and technology deployment program. The advisory board shall also review the adequacy and relevance of the goals established for each program by Congress and the President, and may otherwise advise on promising future directions in research and development that should be considered by each program.

SEC. 1406. IMPROVED COORDINATION AND MANAGEMENT OF CIVILIAN SCIENCE AND TECHNOLOGY PROGRAMS.

(a) EFFECTIVE TOP-LEVEL COORDINATION OF RESEARCH AND DEVELOPMENT PROGRAMS.—Section 202(b) of the Department of Energy Organization Act (42 U.S.C. 7132(b)) is amended to read as follows:

"(b)(1) There shall be in the Department an Under Secretary for Energy and Science, who shall be appointed by the President, by and with the advice and consent of the Senate. The Under Secretary shall be compensated at the rate provided for at level III of the Executive Schedule under section 5314 of title 5, United States Code.

"(2) The Under Secretary for Energy and Science shall be appointed from among persons who—

"(A) have extensive background in scientific or engineering fields; and

"(B) are well qualified to manage the civilian research and development programs of the Department of Energy.

"(3) The Under Secretary for Energy and Science shall—

"(A) serve as the Science and Technology Advisor to the Secretary;

"(B) monitor the Department's research and development programs in order to advise the Secretary with respect to any undesirable duplication or gaps in such programs;

"(C) advise the Secretary with respect to the well-being and management of the multipurpose laboratories under the jurisdiction of the Department;

"(D) advise the Secretary with respect to education and training activities required for effective short- and long-term basic and applied research activities of the Department;

"(E) advise the Secretary with respect to grants and other forms of financial assistance required for effective short- and long-term basic and applied research activities of the Department; and

"(F) exercise authority and responsibility over Assistant Secretaries carrying out energy research and development and energy technology functions under sections 203 and 209, as well as other elements of the Department assigned by the Secretary.

(b) RECONFIGURATION OF POSITION OF DIRECTOR OF THE OFFICE OF SCIENCE.—Section 209 of the Department of Energy Organization

Act (41 U.S.C. 7139) is amended to read as follows—

"(a) There shall be within the Department an Office of Science, to be headed by an Assistant Secretary of Science, who shall be appointed by the President, by and with the advice and consent of the Senate, and who shall be compensated at the rate provided for level IV of the Executive Schedule under section 5315 of title 5, United States Code.

"(b) The Assistant Secretary of Science shall be in addition to the Assistant Secretaries provided for under section 203 of this Act.

"(c) It shall be the duty and responsibility of the Assistant Secretary of Science to carry out the fundamental science and engineering research functions of the Department, including the responsibility for policy and,management of such research, as well as other functions vested in the Secretary which he may assign to the Assistant Secretary.".

(c) Additional Assistant Secretary Position To Enable Improved Management of Nuclear Energy Issues.—

(1) Section 203(a) of the Department of Energy Organization Act (42 U.S.C. 7133(a)) is amended by striking "There shall be in the Department six Assistant Secretaries" and inserting "Except as provided in section 209, there shall be in the Department seven Assistant Secretaries".

(2) It is the Sense of the Senate that the leadership for departmental missions in nuclear energy should be at the Assistant Secretary level.

(d) Technical and Conforming Amendments.—

(1) Section 202 of the Department of Energy Organization Act (42 U.S.C. 7132) is further amended by adding the following at the end:

"(d) There shall be in the Department an Under Secretary, who shall be appointed by the President, by and with the advice and consent of the Senate, and who shall perform such functions and duties as the Secretary shall prescribe, consistent with this section. The Under Secretary shall be compensated at the rate provided for level III of the Executive Schedule under section 5314 of title 5, United States Code.

"(e) There shall be in the Department a General Counsel, who shall be appointed by the President, by and with the advice and consent of the Senate. The General Counsel shall be compensated at the rate provided for level IV of the Executive Schedule under section 5315 of title 5, United States Code.".

(2) Section 5314 of title 5, United States Code, is amended by striking "Under Secretaries of Energy (2)" and inserting "Under Secretaries of Energy (3)".

(3) Section 5315 of title 5, United States Code, is amended by—

(A) striking "Director, Office of Science, Department of Energy."; and

(B) striking "Assistant Secretaries of Energy (6)" and inserting "Assistant Secretaries of Energy (8)".

(4) The table of contents for the Department of Energy Organization Act (42 U.S.C. 7101 note) is amended—

(A) by striking "Section 209" and inserting "Sec. 209";

(B) by striking "213." and inserting "Sec. 213.";

(C) by striking "214." and inserting "Sec. 214.";

(D) by striking "215." and inserting "Sec. 215."; and

(E) by striking "216." and inserting "Sec. 216.".

SEC. 1407. IMPROVED COORDINATION OF TECHNOLOGY TRANSFER ACTIVITIES.

(a) Technology Transfer Coordinator.—The Secretary shall appoint a Technology Transfer Coordinator to perform oversight of and policy development for technology transfer activities at the Department. The Technology Transfer Coordinator shall coordinate the activities of the Technology Partnerships Working Group, and shall oversee the expenditure of funds allocated to the Technology Partnership Working Group.

(b) Technology Partnership Working Group.—The Secretary shall establish a Technology Partnership Working Group, which shall consist of representatives of the National Laboratories and single-purpose research facilities, to—

(1) coordinate technology transfer activities occurring at National Laboratories and single-purpose research facilities;

(2) exchange information about technology transfer practices; and

(3) develop and disseminate to the public and prospective technology partners information about opportunities and procedures for technology transfer with the Department.

SEC 1408. TECHNOLOGY INFRASTRUCTURE PROGRAM.

(a) Establishment.—The Secretary shall establish a Technology Infrastructure Program in accordance with this section.

(b) Purpose.—The purpose of the Technology Infrastructure Program shall be to improve the ability of National Laboratories or single-purpose research facilities to support departmental missions by—

(1) stimulating the development of technology clusters that can support departmental missions at the National Laboratories or single-purpose research facilities;

(2) improving the ability of National Laboratories or single-purpose research facilities to leverage and benefit from commercial research, technology, products, processes, and services; and

(3) encouraging the exchange of scientific and technological expertise between National Laboratories or single-purpose research facilities and—

(A) institutions of higher education,

(B) technology-related business concerns,

(C) nonprofit institutions, and

(D) agencies of State, tribal, or local governments, that can support departmental missions at the National Laboratories and single-purpose research facilities.

(c) Projects.—The Secretary shall authorize the Director of each National Laboratory or facility to implement the Technology Infrastructure Program at such National Laboratory or single-purpose research facility through projects that meet the requirements of subsections (d) and (e).

(d) Program Requirements.—Each project funded under this section shall meet the following requirements:

(1) Minimum participants.—Each project shall at a minimum include—

(A) a National Laboratory or single-purpose research facility; and

(B) one of the following entities—

(i) a business,

(ii) an institution of higher education,

(iii) a nonprofit institution, or

(iv) an agency of a State, local, or tribal government.

(2) Cost sharing.—

(A) Minimum amount.—Not less than 50 percent of the costs of each project funded under this section shall be provided from non-Federal sources.

(B) Qualified funding and resources.—

(i) The calculation of costs paid by the non-Federal sources to a project shall include cash, personnel, services, equipment, and other resources expended on the project.

(ii) Independent research and development expenses of government contractors that qualify for reimbursement under section 31–205–18(e) of the Federal Acquisition Regulations issued pursuant to section 25(c)(1) of the Office of Federal Procurement Policy Act (41 U.S.C. 421(c)(1)) may be credited towards costs paid by non-Federal sources to a project, if the expenses meet the other requirements of this section.

(iii) No funds or other resources expended either before the start of a project under this section or outside the project's scope of work shall be credited toward the costs paid by the non-Federal sources to the project.

(3) Competitive selection.—All projects in which a party other than the Department, a National Laboratory, or a single-purpose research facility receives funding under this section shall, to the extent practicable, be competitively selected by the National Laboratory or facility using procedures determined to be appropriate by the Secretary.

(4) Accounting standards.—Any participant that receives funds under this section, other than a National Laboratory or single-purpose research facility, may use generally accepted accounting principles for maintaining accounts, books, and records relating to the project.

(5) Limitations.—No Federal funds shall be made available under this section for—

(A) construction; or

(B) any project for more than five years.

(e) Selection Criteria.—

(1) Threshold funding criteria.—The Secretary shall allocate funds under this section only if the Director of the National Laboratory or single-purpose research facility managing the project determines that the project is likely to improve the ability of the National Laboratory or single-purpose research facility to achieve technical success in meeting departmental missions.

(2) Additional criteria.—The Secretary shall require the Director of the National Laboratory or single-purpose research facility managing a project under this section to consider the following criteria in selecting a project to receive Federal funds—

(A) the potential of the project to succeed, based on its technical merit, team members, management approach, resources, and project plan;

(B) the potential of the project to promote the development of a commercially sustainable technology cluster, which will derive most of the demand for its products or services from the private sector, and which will support departmental missions at the participating National Laboratory or single-purpose research facility;

(C) the potential of the project to promote the use of commercial research, technology, products, processes, and services by the participating National Laboratory or single-purpose research facility to achieve its departmental mission or the commercial development of technological innovations made at the participating National Laboratory or single-purpose research facility;

(D) the commitment shown by non-Federal organizations to the project, based primarily on the nature and amount of the financial and other resources they will risk on the project;

(E) the extent to which the project involves a wide variety and number of institutions of higher education, nonprofit institutions, and technology-related business concerns that can support the missions of the participating National Laboratory or single-purpose research facility and that will make substantive contributions to achieving the goals of the project;

(F) the extent of participation in the project by agencies of State, tribal, or local governments that will make substantive contributions to achieving the goals of the project;

(G) the extent to which the project focuses on promoting the development of technology-related business concerns that are small business concerns or involves such small business concerns substantively in the project; and

(H) such other criteria as the Secretary determines to be appropriate.

(f) REPORT TO CONGRESS.—Not later than January 1, 2004, the Secretary shall report to Congress on whether the Technology Infrastructure Program should be continued and, if so, how the program should be managed.

(g) DEFINITIONS.—In this section:

(1) TECHNOLOGY CLUSTER.—The term "technology cluster" means a concentration of—

(A) technology-related business concerns;

(B) institutions of higher education; or

(C) other nonprofit institutions,

that reinforce each other's performance in the areas of technology development through formal or informal relationships.

(2) TECHNOLOGY-RELATED BUSINESS CONCERN.—The term "technology-related business concern" means a for-profit corporation, company, association, firm, partnership, or small business concern that—

(A) conducts scientific or engineering research,

(B) develops new technologies,

(C) manufactures products based on new technologies, or

(D) performs technological services.

(h) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for activities under this section $10,000,000 for each of fiscal years 2003 and 2004.

SEC. 1409. SMALL BUSINESS ADVOCACY AND ASSISTANCE.

(a) SMALL BUSINESS ADVOCATE.—The Secretary shall require the Director of each National Laboratory, and may require the Director of a single-purpose research facility, to appoint a small business advocate to—

(1) increase the participation of small business concerns, including socially and economically disadvantaged small business concerns, in procurement, collaborative research, technology licensing, and technology transfer activities conducted by the National Laboratory or single-purpose research facility;

(2) report to the Director of the National Laboratory or single-purpose research facility on the actual participation of small business concerns in procurement and collaborative research along with recommendations, if appropriate, on how to improve participation;

(3) make available to small business concerns training, mentoring, and clear, up-to-date information on how to participate in the procurement and collaborative research, including how to submit effective proposals;

(4) increase the awareness inside the National Laboratory or single-purpose research facility of the capabilities and opportunities presented by small business concerns; and

(5) establish guidelines for the program under subsection (b) and report on the effectiveness of such program to the Director of the National Laboratory or single-purpose research facility.

(b) ESTABLISHMENT OF SMALL BUSINESS ASSISTANCE PROGRAM.—The Secretary shall require the Director of each National Laboratory, and may require the director of a single-purpose research facility, to establish a program to provide small business concerns—

(1) assistance directed at making them more effective and efficient subcontractors or suppliers to the National Laboratory or single-purpose research facility; or

(2) general technical assistance, the cost of which shall not exceed $10,000 per instance of assistance, to improve the small business concern's products or services.

(c) USE OF FUNDS.—None of the funds expended under subsection (b) may be used for direct grants to the small business concerns.

(d) DEFINITIONS.—In this section:

(1) SMALL BUSINESS CONCERN.—The term "small business concern" has the meaning given such term in section 3 of the Small Business Act (15 U.S.C. 632).

(2) SOCIALLY AND ECONOMICALLY DISADVANTAGED SMALL BUSINESS CONCERNS.—The term "socially and economically disadvantaged small business concerns" has the meaning given such term in section 8(a)(4) of the Small Business Act (15 U.S.C. 637(a)(4)).

SEC. 1410. OTHER TRANSACTIONS.

(a) IN GENERAL.—Section 646 of the Department of Energy Organization Act (42 U.S.C. 7256) is amended by adding at the end the following:

"(g) OTHER TRANSACTIONS AUTHORITY.—(1) In addition to other authorities granted to the Secretary to enter into procurement contracts, leases, cooperative agreements, grants, and other similar arrangements, the Secretary may enter into other transactions with public agencies, private organizations, or persons on such terms as the Secretary may deem appropriate in furtherance of basic, applied, and advanced research functions now or hereafter vested in the Secretary. Such other transactions shall not be subject to the provisions of section 9 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5908).

"(2)(A) The Secretary of Energy shall ensure that—

"(i) to the maximum extent practicable, no transaction entered into under paragraph (1) provides for research that duplicates research being conducted under existing programs carried out by the Department of Energy; and

"(ii) to the extent that the Secretary determines practicable, the funds provided by the Government under a transaction authorized by paragraph (1) do not exceed the total amount provided by other parties to the transaction.

"(B) A transaction authorized by paragraph (1) may be used for a research project when the use of a standard contract, grant, or cooperative agreement for such project is not feasible or appropriate.

"(3)(A) The Secretary shall not disclose any trade secret or commercial or financial information submitted by a non-Federal entity under paragraph (1) that is privileged and confidential.

"(B) The Secretary shall not disclose, for five years after the date the information is received, any other information submitted by a non-Federal entity under paragraph (1), including any proposal, proposal abstract, document supporting a proposal, business plan, or technical information that is privileged and confidential.

"(C) The Secretary may protect from disclosure, for up to five years, any information developed pursuant to a transaction under paragraph (1) that would be protected from disclosure under section 552(b)(4) of title 5, United States Code, if obtained from a person other than a Federal agency.".

(b) IMPLEMENTATION.—Not later than six months after the date of enactment of this section, the Department shall establish guidelines for the use of other transactions.

SEC. 1411. MOBILITY OF SCIENTIFIC AND TECHNICAL PERSONNEL.

Not later than two years after the enactment of this section, the Secretary, acting through the Technology Transfer Coordinator under section 1407, shall determine whether each contractor operating a National Laboratory or single-purpose research facility has policies and procedures that do not create disincentives to the transfer of scientific and technical personnel among the contractor-operated National Laboratories or contractor-operated single-purpose research facilities.

SEC. 1412. NATIONAL ACADEMY OF SCIENCES REPORT.

Within 90 days after the date of enactment of this Act, the Secretary shall contract with the National Academy of Sciences to—

(1) conduct a study on the obstacles to accelerating the innovation cycle for energy technology, and

(2) report to the Congress recommendations for shortening the cycle of research, development, and deployment.

SEC. 1413. REPORT ON TECHNOLOGY READINESS AND BARRIERS TO TECHNOLOGY TRANSFER.

(a) IN GENERAL.—The Secretary, acting through the Technology Partnership Working Group and in consultation with representatives of affected industries, universities, and small business concerns, shall—

(1) assess the readiness for technology transfer of energy technologies developed through projects funded from appropriations authorized under subtitles A through D of title XIV, and

(2) identify barriers to technology transfer and cooperative research and development agreements between the Department or a National Laboratory and a non-federal person; and

(3) make recommendations for administrative or legislative actions needed to reduce or eliminate such barriers.

(b) REPORT.—The Secretary provide a report to Congress and the President on activities carried out under this section not later than one year after the date of enactment of this section, and shall update such report on a biennial basis, taking into account progress toward eliminating barriers to technology transfer identified in previous reports under this section.

TITLE XV—PERSONNEL AND TRAINING

SEC. 1501. WORKFORCE TRENDS AND TRAINEESHIP GRANTS.

(a) WORKFORCE TRENDS.—

(1) MONITORING.—The Secretary of Energy (in this title referred to as the "Secretary"), acting through the Administrator of the Energy Information Administration, in consultation with the Secretary of Labor, shall monitor trends in the workforce of skilled technical personnel supporting energy technology industries, including renewable energy industries, companies developing and commercializing devices to increase energy-efficiency, the oil and gas industry, nuclear power industry, the coal industry, and other industrial sectors as the Secretary may deem appropriate.

(2) ANNUAL REPORTS.—The Administrator of the Energy Information Administration shall include statistics on energy industry workforce trends in the annual reports of the Energy Information Administration.

(3) SPECIAL REPORTS.—The Secretary shall report to the appropriate committees of Congress whenever the Secretary determines that significant shortfalls of technical personnel in one or more energy industry segments are forecast or have occurred.

(b) TRAINEESHIP GRANTS FOR TECHNICALLY SKILLED PERSONNEL.—

(1) GRANT PROGRAMS.—The Secretary shall establish grant programs in the appropriate offices of the Department to enhance training of technically skilled personnel for which a shortfall is determined under subsection (a).

(2) ELIGIBLE INSTITUTIONS.—As determined by the Secretary to be appropriate to the particular workforce shortfall, the Secretary shall make grants under paragraph (1) to—

(A) an institution of higher education;

(B) a postsecondary educational institution providing vocational and technical education (within the meaning given those terms in section 3 of the Carl D. Perkins Vocational and Technical Education Act of 1998 (20 U.S.C. 2302));

(C) appropriate agencies of State, local, or tribal governments; or

(D) joint labor and management training organizations with state or federally recognized apprenticeship programs and other employee-based training organizations as the Secretary considers appropriate.

(c) DEFINITION.—For purposes of this section, the term "skilled technical personnel" means journey and apprentice level workers who are enrolled in or have completed a state or federally recognized apprenticeship program and other skilled workers in energy technology industries.

(d) AUTHORIZATION OF APPROPRIATIONS.—From amounts authorized under section 1241(c), there are authorized to be appropriated to the Secretary for activities under this section such sums as may be necessary for each fiscal year.

SEC. 1502. POSTDOCTORAL AND SENIOR RESEARCH FELLOWSHIPS IN ENERGY RESEARCH.

(a) POSTDOCTORAL FELLOWSHIPS.—The Secretary shall establish a program of fellowships to encourage outstanding young scientists and engineers to pursue postdoctoral research appointments in energy research and development at institutions of higher education of their choice. In establishing a program under this subsection, the Secretary may enter into appropriate arrangements with the National Academy of Sciences to help administer the program.

(b) DISTINGUISHED SENIOR RESEARCH FELLOWSHIPS.—The Secretary shall establish a program of fellowships to allow outstanding senior researchers in energy research and development and their research groups to explore research and development topics of their choosing for a fixed period of time. Awards under this program shall be made on the basis of past scientific or technical accomplishment and promise for continued accomplishment during the period of support, which shall not be less than 3 years.

(c) AUTHORIZATION OF APPROPRIATIONS.—From amounts authorized under section 1241(c), there are authorized to be appropriated to the Secretary for activities under this section such sums as may be necessary for each fiscal year.

SEC. 1503. TRAINING GUIDELINES FOR ELECTRIC ENERGY INDUSTRY PERSONNEL.

(a) MODEL GUIDELINES.—The Secretary shall, in cooperation with electric generation, transmission, and distribution companies and recognized representatives of employees of those entities, develop model employee training guidelines to support electric supply system reliability and safety.

(b) CONTENT OF GUIDELINES.—The guidelines under this section shall include—

(1) requirements for worker training, competency, and certification, developed using criteria set forth by the Utility Industry Group recognized by the National Skill Standards Board; and

(2) consolidation of existing guidelines on the construction, operation, maintenance, and inspection of electric supply generation, transmission and distribution facilities such as those established by the National Electric Safety Code and other industry consensus standards.

SEC. 1504. NATIONAL CENTER ON ENERGY MANAGEMENT AND BUILDING TECHNOLOGIES.

The Secretary shall establish a National Center on Energy Management and Building Technologies, to carry out research, education, and training activities to facilitate the improvement of energy efficiency and indoor air quality in industrial, commercial and residential buildings. The National Center shall be established in cooperation with—

(1) recognized representatives of employees in the heating, ventilation, and air conditioning industry;

(2) contractors that install and maintain heating, ventilation and air conditioning systems and equipment;

(3) manufacturers of heating, ventilation and air-conditioning systems and equipment;

(4) representatives of the advanced building envelope industry, including design, windows, lighting, and insulation industries; and

(5) other entities as appropriate.

SEC. 1505. IMPROVED ACCESS TO ENERGY-RELATED SCIENTIFIC AND TECHNICAL CAREERS.

(a) DEPARTMENT OF ENERGY SCIENCE EDUCATION PROGRAMS.—

Section 3164 of the Department of Energy Science Education Enhancement Act (42 U.S.C. 7381a) is amended by adding at the end the following:

"(c) PROGRAMS FOR WOMEN AND MINORITY STUDENTS.—In carrying out a program under subsection (a), the Secretary shall give priority to activities that are designed to encourage women and minority students to pursue scientific and technical careers.".

(b) PARTNERSHIPS WITH HISTORICALLY BLACK COLLEGES AND UNIVERSITIES, HISPANIC-SERVICING INSTITUTIONS, AND TRIBAL COLLEGES.—The Department of Energy Science Education Enhancement Act (42 U.S.C. 7381 et seq.) is amended—

(1) by redesignating sections 3167 and 3168 as sections 3168 and 3169, respectively; and

(2) by inserting after section 3166 the following:

"SEC. 3167. PARTNERSHIPS WITH HISTORICALLY BLACK COLLEGES AND UNIVERSITIES, HISPANIC-SERVING INSTITUTIONS, AND TRIBAL COLLEGES.

"(a) DEFINITIONS.—In this section:

"(1) HISPANIC-SERVING INSTITUTION.—The term 'Hispanic-serving institution' has the meaning given the term in section 502(a) of the Higher Education Act of 1965 (20 U.S.C. 1101a(a)).

"(2) HISTORICALLY BLACK COLLEGE OR UNIVERSITY.—The term 'historically Black college or university' has the meaning given the term 'part B institution' in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061).

"(3) NATIONAL LABORATORY.—The term 'National Laboratory' has the meaning given the term in section 1203 of the Energy Science and Technology Enhancement Act of 2002.

"(4) SCIENCE FACILITY.—The term 'science facility' has the meaning given the term 'single-purpose research facility' in section 1401 of the Energy Science and Technology Enhancement Act of 2002.

"(5) TRIBAL COLLEGE.—The term 'tribal college' has the meaning given the term 'tribally controlled college or university' in section 2(a) of the Tribally Controlled College or University Assistance Act of 1978 (25 U.S.C. 1801(a)).

"(b) EDUCATION PARTNERSHIP.—

"(1) IN GENERAL.—The Secretary shall direct the Director of each National Laboratory, and may direct the head of any science facility, to increase the participation of historically Black colleges or universities, Hispanic-serving institutions, or tribal colleges in activities that increase the capacity of the historically Black colleges or universities, Hispanic-serving institutions, or tribal colleges to train personnel in science or engineering.

"(2) ACTIVITIES.—An activity under paragraph (1) may include—

"(A) collaborative research;

"(B) a transfer of equipment;

"(C) training of personnel at a National Laboratory or science facility; and

"(D) a mentoring activity by personnel at a National Laboratory or science facility.

"(c) REPORT.—Not later than 2 years after the date of enactment of this section, the Secretary shall submit to the Committee on Science of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the activities carried out under this section.".

DIVISION F—TECHNOLOGY ASSESSMENT AND STUDIES

TITLE XVI—TECHNOLOGY ASSESSMENT

SEC. 1601. NATIONAL SCIENCE AND TECHNOLOGY ASSESSMENT SERVICE.

The National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6601 et seq.) is amended by adding at the end the following:

"TITLE VII—NATIONAL SCIENCE AND TECHNOLOGY ASSESSMENT SERVICE

"SEC. 701. ESTABLISHMENT.

"There is hereby created a Science and Technology Assessment Service (hereinafter referred to as the 'Service'), which shall be within and responsible to the legislative branch of the Government.

"SEC. 702. COMPOSITION.

"The Service shall consist of a Science and Technology Board (hereinafter referred to as the 'Board') which shall formulate and promulgate the policies of the Service, and a Director who shall carry out such policies and administer the operations of the Service.

"SEC. 703. FUNCTIONS AND DUTIES.

"The Service shall coordinate and develop information for Congress relating to the uses and application of technology to address current national science and technology policy issues. In developing such technical assessments for Congress, the Service shall utilize, to the extent practicable, experts selected in coordination with the National Research Council.

"SEC. 704. INITIATION OF ACTIVITIES.

"Science and technology assessment activities undertaken by the Service may be initiated upon the request of—

"(1) the Chairman of any standing, special, or select committee of either House of the Congress, or of any joint committee of the Congress, acting for himself or at the request of the ranking minority member or a majority of the committee members;

"(2) the Board; or

"(3) the Director.

"SEC. 705. ADMINISTRATION AND SUPPORT.

"The Director of the Science and Technology Assessment Service shall be appointed by the Board and shall serve for a term of 6 years unless sooner removed by the Board. The Director shall receive basic pay at the rate provided for level III of the Executive Schedule under section 5314 of title 5, United States Code. The Director shall contract for administrative support from the Library of Congress.

"SEC. 706. AUTHORITY.

"The Service shall have the authority, within the limits of available appropriations, to do all things necessary to carry out the provisions of this section, including, but without being limited to, the authority to—

"(1) make full use of competent personnel and organizations outside the Office, public or private, and form special ad hoc task forces or make other arrangements when appropriate;

"(2) enter into contracts or other arrangements as may be necessary for the conduct of the work of the Office with any agency or instrumentality of the United States, with any State, territory, or possession or any political subdivision thereof, or with any person, firm, association, corporation, or educational institution, with or without reimbursement, without performance or other bonds, and without regard to section 3709 of the Revised Statutes (41 U.S.C. 51);

"(3) accept and utilize the services of voluntary and uncompensated personnel necessary for the conduct of the work of the Service and provide transportation and subsistence as authorized by section 5703 of title 5, United States Code, for persons serving without compensation; and

"(4) prescribe such rules and regulations as it deems necessary governing the operation and organization of the Service.

"SEC. 707. BOARD.

"The Board shall consist of 13 members as follows—

"(1) 6 Members of the Senate, appointed by the President pro tempore of the Senate, 3 from the majority party and 3 from the minority party;

"(2) 6 Members of the House of Representatives appointed by the Speaker of the House of Representatives, 3 from the majority party and 3 from the minority party; and

"(3) the Director, who shall not be a voting member.

"SEC. 708. REPORT TO CONGRESS.

"The Service shall submit to the Congress an annual report which shall include, but not be limited to, an evaluation of technology assessment techniques and identification, insofar as may be feasible, of technological areas and programs requiring future analysis. The annual report shall be submitted not later than March 15 of each year.

"SEC. 709. AUTHORIZATION OF APPROPRIATIONS.

"There are authorized to be appropriated to the Service such sums as are necessary to fulfill the requirements of this title.".

TITLE XVII—STUDIES

SEC. 1701. REGULATORY REVIEWS.

(a) Regulatory Reviews.—Not later than one year after the date of enactment of this section and every five years thereafter, each Federal agency shall review relevant regulations and standards to identify—

(1) existing regulations and standards that act as barriers to—

(A) market entry for emerging energy technologies (including fuel cells, combined heat and power, distributed power generation, and small-scale renewable energy), and

(B) market development and expansion for existing energy technologies (including combined heat and power, small-scale renewable energy, and energy recovery in industrial processes), and

(2) actions the agency is taking or could take to—

(A) remove barriers to market entry for emerging energy technologies and to market expansion for existing technologies,

(B) increase energy efficiency and conservation, or

(C) encourage the use of new and existing processes to meet energy and environmental goals.

(b) Report to Congress.—Not later than 18 months after the date of enactment of this section, and every five years thereafter, the Director of the Office of Science and Technology Policy shall report to the Congress on the results of the agency reviews conducted under subsection (a).

(c) Contents of the Report.—The report shall—

(1) identify all regulatory barriers to—

(A) the development and commercialization of emerging energy technologies and processes, and

(B) the further development and expansion of existing energy conservation technologies and processes,

(2) actions taken, or proposed to be taken, to remove such barriers, and

(3) recommendations for changes in laws or regulations that may be needed to—

(A) expedite the siting and development of energy production and distribution facilities,

(B) encourage the adoption of energy efficiency and process improvements,

(C) facilitate the expanded use of existing energy conservation technologies, and

(D) reduce the environmental impacts of energy facilities and processes through transparent and flexible compliance methods.

SEC. 1702. ASSESSMENT OF DEPENDENCE OF HAWAII ON OIL.

(a) Study.—Not later than 60 days after the enactment of this Act, the Secretary of Energy shall initiate a study that assesses the economic risk posed by the dependence of Hawaii on oil as the principal source of energy.

(b) Scope of the Study.—The Secretary shall assess—

(1) the short- and long-term threats to the economy of Hawaii posed by insecure supply and volatile prices;

(2) the impact on availability and cost of refined petroleum products if oil-fired electric generation is displaced by other sources;

(3) the feasibility of increasing the contribution of renewable sources to the overall energy requirements of Hawaii; and

(4) the feasibility of using liquid natural gas as a source of energy to supplement oil.

(c) Report.—Not later than 300 days after the date of enactment of this section, the Secretary shall prepare, in consultation with appropriate agencies of the State of Hawaii, industry representatives, and citizen groups, and shall submit to Congress a report detailing the Secretary's findings, conclusions, and recommendations. The report shall include—

(1) a detailed analysis of the availability, economics, infrastructure needs, and recommendations to increase the contribution of renewable energy sources to the overall energy requirements of Hawaii; and

(2) a detailed analysis of the use of liquid natural gas, including—

(A) the availability of supply,

(B) economics,

(C) environmental and safety considerations,

(D) technical limitations,

(E) infrastructure and transportation requirements,

(F) siting and facility configurations, including—

(i) onshore and offshore alternatives, and

(ii) environmental and safety considerations of both onshore and offshore alternatives.

(d) Authorization of Appropriations.—There are authorized to be appropriated to the Secretary of Energy such sums as may be necessary to carry out the purposes of this section.

SEC. 1703. STUDY OF SITING AN ELECTRIC TRANSMISSION SYSTEM ON AMTRAK RIGHT-OF-WAY.

(a) Study.—The Secretary of Energy shall contract with Amtrak to conduct a study of the feasibility of building and operating a new electric transmission system on the Amtrak right-of-way in the Northeast Corridor.

(b) Scope of the Study.—The study shall focus on siting the new system on the Amtrak right-of-way within the Northeastern Corridor between Washington, D.C., and New Rochelle, New York, including the Amtrak right-of-way between Philadelphia, Pennsylvania and Harrisburg, Pennsylvania.

(c) Contents of the Study.—The study shall consider—

(1) alternative geographic configuration of a new electronic transmission system on the Amtrak right-of-way;

(2) alternative technologies for the system;

(3) the estimated costs of building and operating each alternative;

(4) alternative means of financing the system;

(5) the environmental risks and benefits of building and operating each alternative as well as environmental risks and benefits of building and operating the system on the Northeast Corridor rather than at other locations;

(6) engineering and technological obstacles to building and operating each alternative; and

(7) the extent to which each alternative would enhance the reliability of the electric transmission grid and enhance competition in the sale of electric energy at wholesale within the Northeast Corridor.

(d) Recommendations.—The study shall recommend the optimal geographic configuration, the optimal technology, the optimal engineering design, and the optimal means of financing for the new system from among the alternatives considered.

(e) Report.—The Secretary of Energy shall submit the completed study to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Energy and Commerce of the House of Representatives not later than 270 days after the date of enactment of this section.

(f) Definitions.—For purposes of this section—

(1) the term "Amtrak" means the National Railroad Passenger Corporation established under chapter 243 of title 49, United States Code; and

(2) the term "Northeast Corridor" shall have the meaning given such term under section 24102(7) of title 49, United States Code.

DIVISION G—ENERGY INFRASTRUCTURE SECURITY

TITLE XVIII—CRITICAL ENERGY INFRASTRUCTURE

Subtitle A—Department of Energy Programs

SEC. 1801. DEFINITIONS.

In this title:

(1) Critical energy infrastructure.—

(A) IN GENERAL.—The term "critical energy infrastructure" means a physical or cyber-based system or service for—

(i) the generation, transmission or distribution of electric energy; or

(ii) the production, refining, or storage of petroleum, natural gas, or petroleum product—

the incapacity or destruction of which would have a debilitating impact on the defense or economic security of the United States.

(B) EXCLUSION.—The term shall not include a facility that is licensed by the Nuclear Regulatory Commission under section 103 or 104 b. of the Atomic Energy Act of 1954 (42 U.S.C. 2133 and 2134(b)).

(2) DEPARTMENT; NATIONAL LABORATORY; SECRETARY.—The terms "Department", "National Laboratory", and "Secretary" have the meaning given such terms in section 1203.

SEC. 1802. ROLE OF THE DEPARTMENT OF ENERGY.

Section 102 of the Department of Energy Organization Act (42 U.S.C. 7112) is amended by adding at the end the following:

"(20) To ensure the safety, reliability, and security of the nation's energy infrastructure, and to respond to any threat to or disruption of such infrastructure, through activities including—

"(A) research and development;

"(B) financial assistance, technical assistance, and cooperative activities with States, industry, and other interested parties; and

"(C) education and public outreach activities.".

SEC. 1803. CRITICAL ENERGY INFRASTRUCTURE PROGRAMS.

(a) PROGRAMS.—In addition to the authorities otherwise provided by law (including section 1261), the Secretary is authorized to establish programs of financial, technical, or administrative assistance to—

(1) enhance the security of critical energy infrastructure in the United States;

(2) develop and disseminate, in cooperation with industry, best practices for critical energy infrastructure assurance; and

(3) protect against, mitigate the effect of, and improve the ability to recover from disruptive incidents affecting critical energy infrastructure.

(b) REQUIREMENTS.—A program established under this section shall—

(1) be undertaken in consultation with the advisory committee established under section 1804;

(2) have available to it the scientific and technical resources of the Department, including resources at a National Laboratory; and

(3) be consistent with any overall Federal plan for national infrastructure security developed by the President or his designee.

SEC. 1804. ADVISORY COMMITTEE ON ENERGY INFRASTRUCTURE SECURITY.

(a) ESTABLISHMENT.—The Secretary shall establish an advisory committee, or utilize an existing advisory committee within the Department, to advise the Secretary on policies and programs related to the security of U.S. energy infrastructure.

(b) BALANCED MEMBERSHIP.—The Secretary shall ensure that the advisory committee established or utilized under subsection (a) has a membership with an appropriate balance among the various interests related to energy infrastructure security, including—

(1) scientific and technical experts;

(2) industrial managers;

(3) worker representatives;

(4) insurance companies or organizations;

(5) environmental organizations;

(6) representatives of State, local, and tribal governments; and

(7) such other interests as the Secretary may deem appropriate.

(c) EXPENSES.—Members of the advisory committee established or utilized under subsection (a) shall serve without compensation, and shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for an employee of an agency under subchapter I of chapter 57 of title 5, United States Code, while away from the home or regular place of business of the member in the performance of the duties of the committee.

SEC. 1805. BEST PRACTICES AND STANDARDS FOR ENERGY INFRASTRUCTURE SECURITY.

The Secretary, in consultation with the advisory committee under section 1804, shall enter into appropriate arrangements with one or more standard-setting organizations, or similar organizations, to assist the development of industry best practices and standards for security related to protecting critical energy infrastructure.

Subtitle B—Department of the Interior Programs

SEC. 1811. OUTER CONTINENTAL SHELF ENERGY INFRASTRUCTURE SECURITY.

(a) DEFINITIONS.—In this section:

(1) APPROVED STATE PLAN.—The term "approved State plan" means a State plan approved by the Secretary under subsection (c)(3).

(2) COASTLINE.—The term "coastline" has the same meaning as the term "coast line" as defined in subsection 2(c) of the Submerged Lands Act (43 U.S.C. 1301(c)).

(3) CRITICAL OCS ENERGY INFRASTRUCTURE FACILITY.—The term "OCS critical energy infrastructure facility" means—

(A) a facility located in an OCS Production State or in the waters of such state related to the production of oil or gas on the Outer Continental Shelf; or

(B) a related facility located in an OCS Production State or in the waters of such state that carries out a public service, transportation, or infrastructure activity critical to the operation of an Outer Continental Shelf energy infrastructure facility, as determined by the Secretary.

(4) DISTANCE.—The term "distance" means the minimum great circle distance, measured in statute miles.

(5) LEASED TRACT.—

(A) IN GENERAL.—The term "leased tract" means a tract that—

(i) is subject to a lease under section 6 or 8 of the Outer Continental Shelf Lands Act (43 U.S.C. 1335, 1337) for the purpose of drilling for, developing, and producing oil or natural gas resources; and

(ii) consists of a block, a portion of a block, a combination of blocks or portions of blocks, or a combination of portions of blocks, as—

(I) specified in the lease; and

(II) depicted on an outer Continental Shelf official protraction diagram.

(B) EXCLUSION.—The term "leased tract" does not include a tract described in subparagraph (A) that is located in a geographic area subject to a leasing moratorium on January 1, 2001, unless the lease was in production on that date.

(6) OCS POLITICAL SUBDIVISION.—The term "OCS political subdivision" means a county, parish, borough or any equivalent subdivision of an OCS Production State all or part of which subdivision lies within the coastal zone (as defined in section 304(1) of the Coastal Zone Management Act of 1972 (16 U.S.C. 1453(1)).

(7) OCS PRODUCTION STATE.—The term "OCS Production State" means the State of—

(A) Alaska;

(B) Alabama;

(C) California;

(D) Florida;

(F) Louisiana;

(G) Mississippi; or

(H) Texas.

(8) PRODUCTION.—The term "production" has the meaning given the term in section 2 of the Outer Continental Shelf Lands Act (43 U.S.C. 1331).

(9) PROGRAM.—The term "program" means the Outer Continental Shelf Energy Infrastructure Security Program established under subsection (b).

(10) QUALIFIED OUTER CONTINENTAL SHELF REVENUES.—The term "qualified Outer Continental Shelf revenues" means all amounts received by the United States from each leased tract or portion of a leased tract lying seaward of the zone defined and governed by section 8(g) of the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.), or lying within such zone but to which section 8(g) does not apply, the geographic center of which lies within a distance of 200 miles from any part of the coastline of any State, including bonus bids, rents, royalties (including payments for royalties taken in kind and sold), net profit share payments, and related late payment interest. Such term does not include any revenues from a leased tract or portion of a leased tract that is included within any area of the Outer Continental Shelf where a moratorium on new leasing was in effect as of January 1, 2001, unless the lease was issued prior to the establishment of the moratorium and was in production on January 1, 2001.

(11) SECRETARY.—The term 'Secretary' means the Secretary of the Interior.

(12) STATE PLAN.—The term 'State plan' means a State plan described in subsection (b).

(b) ESTABLISHMENT.—The Secretary shall establish a program, to be known as the "Outer Continental Shelf Energy Infrastructure Security Program," under which the Secretary shall provide funds to OCS Production States to implement approved State plans to provide security against hostile and natural threats to critical OCS energy infrastructure facilities and support of any necessary public service or transportation activities that are needed to maintain the safety and operation of critical energy infrastructure activities. For purposes of this program, restoration of any coastal wetland shall be considered to be an activity that secures critical OCS energy infrastructure facilities from a natural threat.

(c) STATE PLANS.—

(1) INITIAL PLAN.—Not later than 180 days after the date of enactment of this Act, to be eligible to receive funds under the program, the Governor of an OCS Production State shall submit to the Secretary a plan to provide security against hostile and natural threats to critical energy infrastructure facilities in the OCS Production State and to support any of the necessary public service or transportation activities that are needed to maintain the safety and operation of critical energy infrastructure facilities. Such plan shall include—

(A) the name of the State agency that will have the authority to represent and act for the State in dealing with the Secretary for purposes of this section;

(B) a program for the implementation of the plan which describes how the amounts provided under this section will be used;

(C) a contact for each OCS political subdivision and description of how such political subdivisions will use amounts provided under this section, including a certification by the Governor that such uses are consistent with the requirements of this section; and

(D) Measures for taking into account other relevant Federal resources and programs.

(2) ANNUAL REVIEWS.—Not later than 1 year after the date of submission of the plan and annually thereafter, the Governor of an OCS Production State shall—

(A) review the approved State plan; and

(B) submit to the Secretary any revised State plan resulting from the review.

(3) APPROVAL OF PLANS.—

(A) IN GENERAL.—In consultation with appropriate Federal security officials and the Secretaries of Commerce and Energy, the Secretary shall—

(i) approve each State plan; or

(ii) recommend changes to the State plan.

(B) RESUBMISSION OF STATE PLANS.—If the Secretary recommends changes to a State plan under subparagraph (A)(ii), the Governor of the OCS Production State may resubmit a revised State plan to the Secretary for approval.

(4) AVAILABILITY OF PLANS.—The Secretary shall provide to Congress a copy of each approved State plan.

(5) CONSULTATION AND PUBLIC COMMENT.—

(A) CONSULTATION.—The Governor of an OCS Production State shall develop the State plan in consultation with Federal, State, and local law enforcement and public safety officials, industry, Indian tribes, the scientific community, and other persons as appropriate.

(B) PUBLIC COMMENT.—The Governor of an OCS Production State may solicit public comments on the State plan to the extent that the Governor determines to be appropriate.

(d) ALLOCATION OF AMOUNTS BY THE SECRETARY.—The Secretary shall allocate the amounts made available for the purposes of carrying out the program provided for by this section among OCS Production States as follows—

(1) 25 percent of the amounts shall be divided equally among OCS Production States; and

(2) 75 percent of the amounts shall be divided among OCS Production States on the basis of the proximity of each OCS Production State to offshore locations at which oil and gas are being produced.

(e) CALCULATION.—The amount for each OCS Production State under paragraph (d)(2) shall be calculated based on the ratio of qualified OCS revenues generated off the coastline of the OCS Production State to the qualified OCS revenues generated off the coastlines of all OCS Production States for the prior five-year period. Where there is more than one OCS Production State within 200 miles of a leased tract, the amount of each OCS Production State's payment under paragraph (d)(2) for such leased tract shall be inversely proportional to the distance between the nearest point on the coastline of such State and the geographic center of each leased tract or portion of the leased tract (to the nearest whole mile) that is within 200 miles of that coastline, as determined by the Secretary. A leased tract or portion of a leased tract shall be excluded if the tract or portion is located in a geographic area where a moratorium on new leasing was in effect on January 1, 2001, unless the lease was issued prior to the establishment of the moratorium and was in production on January 1, 2001.

(f) PAYMENTS TO OCS POLITICAL SUBDIVISIONS.—Thirty-five percent of each OCS Production State's allocable share as determined under subsection (e) shall be paid directly to the OCS political subdivisions by the Secretary based on the following formula:

(1) 25 percent shall be allocated based on the ratio of such OCS political subdivision's population to the population of all OCS political subdivisions in the OCS Production State.

(2) 25 percent shall be allocated based on the ratio of such OCS political subdivision's coastline miles to the coastline miles of all OCS political subdivisions in the OCS Production State. For purposes of this subsection, those OCS political subdivisions without coastlines shall be considered to have a coastline that is the average length of the coastlines of all political subdivisions in the state.

(3) 50 percent shall be allocated based on the relative distance of such OCS political subdivision from any leased tract used to calculate that OCS Production State's allocation using ratios that are inversely proportional to the distance between the point in the coastal political subdivision closest to the geographic center of each leased tract or portion, as determined by the Secretary. For purposes of the calculations under this subparagraph, a leased tract or portion of a leased tract shall be excluded if the leased tract or portion is located in a geographic area where a moratorium on new leasing was in effect on January 1, 2001, unless the lease was issued prior to the establishment of the moratorium and was in production on January 1, 2001.

(g) FAILURE TO HAVE PLAN APPROVED.—Any amount allocated to an OCS Production State or OCS political subdivision but not disbursed because of a failure to have an approved Plan under this section shall be allocated equally by the Secretary among all other OCS Production States in a manner consistent with this subsection except that the Secretary shall hold in escrow such amount until the final resolution of any appeal regarding the disapproval of a plan submitted under this section. The Secretary may waive the provisions of this paragraph and hold an OCS Production State's allocable share in escrow if the Secretary determines that such State is making a good faith effort to develop and submit, or update, a Plan.

(h) USE OF AMOUNTS ALLOCATED BY THE SECRETARY.—

(1) IN GENERAL.—Amounts allocated by the Secretary under subsection (d) may be used only in accordance with a plan approved pursuant to subsection (c) for—

(A) activities to secure critical OCS energy infrastructure facilities from human or natural threats; and

(B) support of any necessary public service or transportation activities that are needed to maintain the safety and operation of critical OCS energy infrastructure facilities.

(2) RESTORATION OF COASTAL WETLAND.—For the purpose of subparagraph (1)(A), restoration of any coastal wetland shall be considered to be an activity that secures critical OCS energy infrastructure facilities from a natural threat.

(i) FAILURE TO HAVE USE.—Any amount allocated to an OCS political subdivision but not disbursed because of a failure to have a qualifying use as described in subsection (h) shall be allocated by the Secretary to the OCS Production State in which the OCS political subdivision is located except that the Secretary shall hold in escrow such amount until the final resolution of any appeal regarding the use of the funds.

(j) COMPLIANCE WITH AUTHORIZED USES.—If the Secretary determines that any expenditure made by an OCS Production State or an OCS political subdivision is not consistent with the uses authorized in subsection (h), the Secretary shall not disburse any further amounts under this section to that OCS Production State or OCS political subdivision until the amounts used for the inconsistent expenditure have been repaid or obligated for authorized uses.

(k) RULEMAKING.—The Secretary may promulgate such rules and regulations as may be necessary to carry out the purposes of this section, including rules and regulations setting forth an appropriate process for appeals.

(l) AUTHORIZATION OF APPROPRIATIONS.—There are hereby authorized to be appropriated $450,000,000 for each of the fiscal years 2003 through 2008 to carry out the purposes of this section.

ORDERS FOR THURSDAY, FEBRUARY 28, 2002

Mr. REID. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until the hour of 10:30 a.m., Thursday, February 28; that following the prayer and the pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and there be a period of morning business until 11 a.m. with Senators permitted to speak for up to 10 minutes each; further, at 11 a.m., the Senate resume consideration of the election reform bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADJOURNMENT UNTIL TOMORROW

Mr. REID. Mr. President, I believe there is no further business to come before the Senate this evening. Therefore, I ask unanimous consent the Senate stand in adjournment under the previous order.

There being no objection, the Senate, at 6:15 p.m., adjourned until Thursday, February 28, 2002, at 10:30 a.m.

NOMINATIONS

Executive nominations received by the Senate February 27, 2002:

NATIONAL CREDIT UNION ADMINISTRATION

DEBORAH MATZ, OF NEW YORK, TO BE A MEMBER OF THE NATIONAL CREDIT UNION ADMINISTRATION BOARD FOR A TERM EXPIRING AUGUST 2, 2005, VICE GEOFF BACINO, TO WHICH POSITION SHE WAS APPOINTED DURING THE RECESS OF THE SENATE FROM DECEMBER 20, 2001, TO JANUARY 23, 2002.

DEPARTMENT OF STATE

LAWRENCE E. BUTLER, OF MAINE, A CAREER MEMBER OF THE SENIOR FOREIGN SERVICE, CLASS OF COUNSELOR, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE FORMER YUGOSLAV REPUBLIC OF MACEDONIA.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

J. RUSSELL GEORGE, OF VIRGINIA, TO BE INSPECTOR GENERAL, CORPORATION FOR NATIONAL AND COMMUNITY SERVICE, VICE LUISE S. JORDAN, RESIGNED.

CONFIRMATIONS

Executive Nominations Confirmed by the Senate February 27, 2002:

IN THE AIR FORCE

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT IN THE UNITED STATES AIR FORCE TO THE GRADE INDICATED WHILE ASSIGNED TO A POSITION OF IMPORTANCE AND RESPONSIBILITY UNDER TITLE 10, U.S.C., SECTION 601:

To be lieutenant general

MAJ. GEN. STEVEN R. POLK

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT IN THE UNITED STATES AIR FORCE TO THE GRADE INDICATED WHILE ASSIGNED TO A POSITION OF IMPORTANCE AND RESPONSIBILITY UNDER TITLE 10, U.S.C., SECTION 601:

To be lieutenant general

MAJ. GEN. JOHN R. BAKER

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT IN THE UNITED STATES AIR FORCE TO THE GRADE INDICATED WHILE ASSIGNED TO A POSITION OF IMPORTANCE AND RESPONSIBILITY UNDER TITLE 10, U.S.C., SECTION 601:

To be general

LT. GEN. LANCE W. LORD

THE ABOVE NOMINATIONS WERE APPROVED SUBJECT TO THE NOMINEES' COMMITMENT TO RESPOND TO REQUESTS TO APPEAR AND TESTIFY BEFORE ANY DULY CONSTITUTED COMMITTEE OF THE SENATE.

AIR FORCE NOMINATION OF DAVID E. BLUM.

AIR FORCE NOMINATIONS BEGINNING JAMES C. COOPER II AND ENDING JOHN J. KUPKO II, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON DECEMBER 20, 2001.

AIR FORCE NOMINATIONS BEGINNING LINDA F. JONES AND ENDING ROBERT J. KING, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 23, 2002.

AIR FORCE NOMINATION OF DAN ROSE.

AIR FORCE NOMINATIONS BEGINNING DOUGLAS W. KNIGHTON AND ENDING ROBERT J. SEMRAD, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 23, 2002.

AIR FORCE NOMINATIONS BEGINNING RICHARD E. HORN AND ENDING MARK A. WEINER, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 23, 2002.

AIR FORCE NOMINATIONS BEGINNING VINCENT G. DEBONO, JR. AND ENDING AMY M. ROWE, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 28, 2002.

AIR FORCE NOMINATIONS BEGINNING KATHRYN L. AASEN AND ENDING JUSTIN N. ZUMSTEIN, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 28, 2002.

AIR FORCE NOMINATIONS BEGINNING *MELISSA A. AERTS AND ENDING RICHARD M. ZWIRKO, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 28, 2002.

AIR FORCE NOMINATIONS BEGINNING TODD E. ABBOTT AND ENDING STEPHEN J. ZIMMERMANN, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 28, 2002.

AIR FORCE NOMINATIONS BEGINNING *KIRBY D. AMONSON AND ENDING *DALTON P. WILSON, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 28, 2002.

AIR FORCE NOMINATIONS BEGINNING SANDRA G. MATHEWS AND ENDING MARGARET M. NONNEMACHER, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 29, 2002.

AIR FORCE NOMINATIONS BEGINNING REBECCA A. DOBBS AND ENDING MAX S. KUSH, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 29, 2002.

AIR FORCE NOMINATIONS BEGINNING ERNEST H. BARNETT AND ENDING RONALD W. SCHMIDT, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 29, 2002.

AIR FORCE NOMINATIONS BEGINNING SANDRA H. ALFORD AND ENDING FRANCIS C. ZUCCONI, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 29, 2002.

AIR FORCE NOMINATIONS BEGINNING RAUL A. AGUILAR AND ENDING GILBERT L. WERGOWSKE, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 29, 2002.

AIR FORCE NOMINATIONS BEGINNING LARRY W. ALEXANDER AND ENDING CLAUDIA R. ZIEBIS, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 29, 2002.

ARMY NOMINATION OF LESLIE C. SMITH II.

ARMY NOMINATIONS BEGINNING FRANKLIN E. LIMERICK, JR. AND ENDING GARY J. THORSTENSON, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 23, 2002.

ARMY NOMINATIONS BEGINNING DARLENE S. COLLINS AND ENDING MICHAEL J. WAGNER, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 23, 2002.

ARMY NOMINATIONS BEGINNING GARY J. BROCKINGTON AND ENDING DONNA M. WRIGHT, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 28, 2002.

ARMY NOMINATIONS BEGINNING MARIAN AMREIN AND ENDING STEVEN M. WALTERS, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON FEBRUARY 15, 2002.

MARINE CORPS NOMINATIONS BEGINNING ROBERT J. ABBLITT AND ENDING CARL J. WOODS, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 28, 2002.

MARINE CORPS NOMINATIONS BEGINNING DONALD A. BARNETT AND ENDING NICOLAS R. WISECARVER, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON JANUARY 28, 2002.

MARINE CORPS NOMINATIONS BEGINNING ALBERT R. ADLER AND ENDING PETER D. ZORETIC, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON FEBRUARY 11, 2002.

NAVY NOMINATIONS BEGINNING GREGORY W. KIRWAN AND ENDING MATTHEW M. SCOTT, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON FEBRUARY 5, 2002.

NAVY NOMINATIONS BEGINNING MICHAEL J. ADAMS AND ENDING SCOTT A. SUOZZI, WHICH NOMINATIONS

WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON FEBRUARY 5, 2002.

NAVY NOMINATION OF JOHN J. WHYTE.

NAVY NOMINATIONS BEGINNING KELLY V. AHLM AND ENDING THOMAS A. WINTER, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON FEBRUARY 11, 2002.

NAVY NOMINATIONS BEGINNING RENE V. ABADESCO AND ENDING MARK W. YATES, WHICH NOMINATIONS WERE RECEIVED BY THE SENATE AND APPEARED IN THE CONGRESSIONAL RECORD ON FEBRUARY 11, 2002.

EXTENSIONS OF REMARKS

PERSONAL EXPLANATION

HON. ANTHONY D. WEINER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. WEINER. Mr. Speaker, I was unavoidably detained in my district on Tuesday, February 26, 2002, and I would like the record to indicate how I would have voted had I been present.

For rollcall vote No. 39, the bill to amend the Immigration and Nationality Act to provide for the acceptance of an affidavit of support from another eligible sponsor if the original sponsor has died and the Attorney General has determined for humanitarian reasons that the original sponsor's classification petition should not be revoked, I would have voted "yea."

For rollcall vote No. 40, the resolution expressing sympathy to the people of the Democratic Republic of the Congo who were tragically affected by the eruption of the Nyiragongo volcano on January 17, 2002, and supporting an increase in the amount of assistance provided by the United States to the people of the Democratic Republic of the Congo I would have voted "yea."

RETAINING A STRONG AND HEALTHY STEEL INDUSTRY IN U.S. IS A MUST

HON. RALPH REGULA

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. REGULA. Mr. Speaker, I would like to commend the President for initiating his three-prong program to address the steel import crisis. This crisis, caused by a worldwide over capacity of steel making is slowly destroying our domestic steel industry. The increased level of imports, often subsidized by foreign governments, keeps driving steel prices down. Not even the most efficient steel mills in the U.S. are able to make money when steel is priced so low. As of this week, thirty-one steel companies have declared bankruptcy and over fifty steel-making and related plants had been shut down.

The President's steel plan includes the Section 201 investigation initiated last June and efforts to negotiate a reduction of worldwide steel making capacity with foreign nations. The key element in the President's plan is the 201 investigation. The International Trade Commission (ITC), which completed the 201 investigation last fall, unanimously found that the level of steel imports coming into the U.S. was injuring the domestic steel industry. Now it is up to the President to implement a meaningful remedy. The industry and its workers are asking for at least 40 percent tariffs across the board. Tariffs would provide the most immediate relief to the industry allowing prices to recover. Tariffs would also send a clear message to our trading partners that this U.S. is not the dumping ground for all the world's excess steel.

Our steel companies need a "time-out" from the constant flow of low-priced imports. Strong tariffs will provide such a "time-out." Domestic steel companies and their workers have downsized and restructured and they continue to do so. One example is Republic Technologies International, which has facilities in my Congressional District. Republic had to file for bankruptcy protection. In order to keep operating in this very difficult market, all workers had to take a 15 percent pay reduction and additional cost cutting measures are being implemented to reduce costs another 20 percent. Overall employment has fallen by 20 percent recently. The type of 201 remedy will directly impact how Republic will be able to restructure and come out of bankruptcy. If the President implements a strong remedy, investor confidence will increase and Republic will be able to preserve more jobs as it restructures. If the President imposes a weak remedy, Republic may face significant job cuts during its restructuring.

As steel mills close, it is not just the steelworkers and their families that suffer. Steel company retirees will lose their retiree health benefits in many instances. Furthermore, every steelworker supports more than three jobs in other industries, from workers who make production equipment to those who process raw materials and move the steel products to market. Steel communities are also impacted by the loss of steelworker jobs because people buy less groceries and use less services. It is imperative that we retain a strong and healthy steel industry in the U.S. not only for our economic well-being but also to supply our national defense needs.

IN SUPPORT OF INTERNATIONAL FAMILY PLANNING FUNDING

HON. JANE HARMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Ms. HARMAN. Mr. Speaker, I rise in strong opposition to the Administration's decision to withhold funds already appropriated for the United Nations Population Fund (UNFPA).

Last year, after extensive negotiations between Congress and the Bush Administration, Congress passed and the President signed the FY02 Foreign Operations Appropriations bill, including $34 million for UNFPA.

The decision to withhold funding from this vital program was founded on the mistaken belief that UNFPA supported forced abortion in China.

This decision is part of a disturbing trend of anti-choice opposition within the Administration to any type of family planning funding. This funding is vital to women's health and vital to sustainable international development, and the President should reverse this decision immediately.

I would like to remind my colleagues that since 1973 no U.S. dollars have been used to pay for the performance of an abortion as a method of family planning or for involuntary sterilizations overseas—none.

Turning UNFPA funding into a debate about abortion does a disservice to the millions of women throughout the world who do not have access to the health care and reproductive services, education and treatment that is available to women in this country.

The World Health Organization estimates that close to 600,000 women die each year of causes related to pregnancy or childbirth. Three hundred fifty million women in developing countries don't have access to safe and effective family planning methods. More than 600,000 infants become infected with HIV each year worldwide. These statistics are appalling. How can we possibly claim to be working to prevent the spread of HIV if we do not offer counsel and education in family planning?

UNFPA is the largest international source of population assistance to developing countries, often working in countries where few others go, such as Vietnam. UNFPA does not fund abortion in China and its program there is rigorously monitored to ensure that it does not support coercion in any form.

We cannot allow yet another issue to get caught up in abortion politics. We have the chance to really make a difference for millions of women worldwide. Let's give women the opportunity to make informed and educated decisions about their reproductive health. Mr. President, reverse the decision to withhold UNFPA funds.

INTRODUCTION OF THE PAUL REVERE FREEDOM TO WARN ACT

HON. STEVE ISRAEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. ISRAEL. Mr. Speaker, on the evening of April 18, 1775, Paul Revere bravely went out into the Massachusetts night to warn his fellow patriots of a threat they faced.

The tyranny of the time dictated that if caught, Paul Revere would be hanged; he rode that night knowing that if caught, he would die.

Today we have other Americans who take risks that are just as real to preserve our liberty. These brave men and women risk their jobs, their livelihoods, to ensure our safety.

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

They are fighting for us. And so the least we can do is fight for them.

I didn't come here to Washington to fight for the special interests. I came here to make sure the little guy was protected.

In today's climate, we face new threats, threats of life and death. And despite these threats, there are still powerful interests that try to hide their mistakes and negligence rather than protect the public.

When there are powerful interests trying to hide what they are doing, we have found that there is always a brave soul willing to step up and take the heat. We have seen that with the FAA and airline security. We have seen some of that with Enron. And yes, we saw that with the brave whistleblowers I met with this morning. They each stood up and fought for what was right and just.

And all of them faced real heat and the intimidation that too often comes along with doing the right thing. All too often that heat isn't fair, and in fact, isn't even legal.

The law is clear: according to the Lloyd-LaFollette Act, employers can't interfere with whistleblowers. Unfortunately, while the law is clear, it doesn't have any penalties if the act is violated. It has no teeth; it is like Paul Revere without a voice. The Paul Revere Freedom to Warn Act, which I will be introducing later today, protects employees who blow the whistle by allowing them to bring a civil action in federal courts with jury trials.

These people have three years to bring these actions for lost wages and benefits, reinstatement, costs and attorney fees, compensatory or punitive damages, and any other relief that the courts believe are appropriate.

This is just common sense; if something is against the law, then there has to be a price to pay if you violate the law.

Mr. Speaker, it is time for us all to stand up for the whistleblowers. They are the true patriots, and I want to thank them, salute them, and help them by introducing and passing the Paul Revere Freedom to Warn Act.

I would like to thank the Government Accountability Project (GAP). In particular, I want to thank Tom Devine and Doug Hartnett, for constantly keeping the issue of whistleblower protection before Congress.

The price of liberty is eternal vigilance, and even though they only represent whistleblowers, they too serve as modern Paul Reveres through their work.

The Government Accountability Project has been a very effective partner in laying the groundwork for this necessary legislation.

TRIBUTE TO THE HONORABLE JOHN W. GARDNER

HON. ANNA G. ESHOO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Ms. ESHOO. Mr. Speaker, I rise to pay tribute today to a distinguished Californian and a great American, John W. Gardner, who died at the age of eighty-nine on February 16, 2002. He leaves his wife of 67 years, Aida, and his two daughters, Stephanie Gardner Trimble and Francesca Gardner. He also leaves two granddaughters, two grandsons, two great-grandchildren and a brother, Louis.

John W. Gardner was born in California in 1912. A true American hero, he devoted his life to public service, pioneering the modern movement for citizen activism, campaign finance reform and healthcare for the needy.

A 1935 graduate of Stanford University, John Gardner went on to earn a doctorate in psychology from the University of California, Berkeley. He taught psychology at Connecticut College and Mount Holyoke and was later named Haas Centennial Professor of Public Service at Stanford.

John Gardner served under six U.S. Presidents including President Lyndon B. Johnson who named him Secretary of Health, Education and Welfare. A Republican, Mr. Gardner believed good ideas transcended partisanship, and as Secretary, he initiated and implemented many of the programs in President Johnson's War on Poverty. He developed many of these innovative ideas during his decade as President of the Carnegie Corporation.

After leaving government service, Mr. Gardner continued to serve the public. In 1970 he founded Common Cause, a prominent citizens' watchdog organization that remains a powerful political force today. John Gardner was also cofounder of Independent Sector, a philanthropic coalition of over six hundred corporate and nonprofit organizations.

Inspired by his commitment to public service, both Stanford and U.C. Berkeley have established a successful public service fellowship in his honor. Modeled after the White House Fellows Program which Gardner designed, the John Gardner Fellowship in Public Service serves as a critical launching pad for graduating seniors looking to pursue a career in public service.

When the House passed Campaign Finance Reform in the early hours of February fourteenth, it was John Gardner whom I thought of first because no one did more or spoke more eloquently about the need for this critical reform. Frequently referred to as the "father of campaign finance reform," he was appointed by President Clinton as co-chairman of the Campaign Finance Reform Commission. The American people owe an enormous debt of gratitude to this extraordinary individual for his leadership, his commitment and his vision.

Mr. Speaker, I ask my colleagues to join me in paying tribute to this exceptional man and extend our condolences to his wife and family. We are a better community, a better country and a better people because of John W. Gardner.

IN HONOR OF MOTHERS' VOICES—UNITED TO END AIDS

HON. JERROLD NADLER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. NADLER. Mr. Speaker, I rise today to congratulate Mothers' Voices on the occasion of its 10th anniversary. Mothers' Voices is an organization of mothers and supporters, based on Manhattan's West Side, that works to educate our families about the prevention of HIV/AIDS and to advocate for creative and effective public policy to stem the tide of this devastating epidemic.

While the rate of HIV/AIDS infection among young people under 25 continues to climb, it is increasingly necessary to mobilize our entire community to expand education and prevention programs. Despite the advancements in research and treatment of AIDS, the statistics on the rate of infection are disheartening. The Centers for Disease Control recently announced that the HIV/AIDS infection rate for the U.S. has risen by 8 percent in the last year alone. New York had the highest rate of increase, at 47 percent. Approximately half of the 40,000 new HIV infections occurring annually in America are in young people under the age of 25. Every hour of every day, two Americans between the ages of 13 and 24 become infected with HIV. The CDC report recommends the need for community-based outreach and education, like the programs offered by Mothers' Voices. As an organization of parents, Mothers' Voices has the unique ability to educate young people about the devastating consequences of HIV/AIDS. Under the leadership of President Suzanne Benzer and Executive Director Carol Henry, Mothers' Voices has worked to inform the public about the deadly effects of HIV/AIDS and how to properly prevent infection.

As the toll of HIV/AIDS on our families and communities mounts higher and higher, it is imperative that Mothers' Voices keeps working to provide educational outreach and advocacy. I wholeheartedly congratulate Mothers' Voices for ten successful years of educating our families, raising awareness and advocating for our children's health and well being.

A TRIBUTE TO THE RECIPIENTS OF THE FIRST ANNUAL CHILDREN AND FAMILIES HEROES AWARD

HON. SAM FARR

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. FARR of California. Mr. Speaker, I rise today to honor the recipients of the First Annual Children and Families Heroes Award from Santa Cruz County. These men and women have all invested time and energy in numerous endeavors designed to improve the welfare of children. Along with the Children & Families Commission, I would like to recognize them for their commitment and service to our community.

The Santa Cruz County Board of Supervisors established this commission in 1998 to determine the best practices to promote the welfare of children. The commission has strived "to ensure that family-friendly services and education are available so that each child reaches the fifth year of life, healthy, ready and able to learn, and emotionally well developed." Through promoting the ideas of healthy and school ready children, as well as strong families in combination with facilitating community discussions, task forces, surveys and data analysis, the commission continues to preserve the future viability of the nation.

I applaud the commission for its work and for its recognition of individuals in the community who promote the welfare of children. In honoring these individuals we realize that the goals of the commission could not be met without the support and leadership of countless members of the Santa Cruz County community.

I join the Children and Families Commission in congratulating the following recipients for their commitment to improving the lives of children in Santa Cruz County: Dr. Salem Margarian, Laurie Hester, Mountain Community Resources, Terry Jimenez, The Beck Family, Sara Wood Smith, Maria Cristina Negrete, Special Parents Information Network, Rita Mori, Marcia Meyer, Una Baer, Ana Granados, Catherine and Martin Newman, Julie Olsen Edwards, and Luis Villacreces. These individuals and organizations demonstrate the ongoing need to promote child welfare programs.

NATIONAL CENTER FOR SOCIAL WORK RESEARCH ACT

HON. CIRO D. RODRIGUEZ

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. RODRIGUEZ. Mr. Speaker, I rise today to acknowledge the hard work and dedication of social workers across the nation. This Friday, March 1st, marks the start of the National Professional Social Work Month. I encourage Members to take this opportunity to reach out to social workers in their local communities.

Social workers are an integral part of the safety net fabric woven to support the most vulnerable in our community—children, senior citizens, victims of violence. Every day, social workers are on the front lines coordinating services and ensuring individuals have their basic needs of food, shelter, and health care met. On the local level, they can be found in elementary schools, nursing homes, children's and veteran's hospitals, and a variety of service agencies. On the national level, they advocate for better social welfare policy through organizations like the National Association of Social Workers.

Through their work, social workers promote healthier and stronger communities, and their experience puts them in a unique position to provide valuable research information on how to address societal challenges. However, the bulk of research addressing these complex social issues has produced clinical and empirical data that is difficult to translate into effective policy solutions. The Social Work Research Center would provide a venue for this research to be coordinated and disseminated to Congress and the public.

While the Federal Government provides funding for various social work research activities through the National Institutes of Health and other Federal agencies, it is difficult to coordinate or consolidate these critical activities. Furthermore, for the data we do have, there has been neither an overall assessment of need nor the opportunity to translate the data into effective policy recommendations. For this reason, I strongly believe in the creation of a National Center for Social Work Research within the National Institutes of Health. This proposal has received widespread support from the community and bipartisan support in Congress.

Mr. Speaker, the establishment of a National Center for Social Work Research would result in improved behavioral and mental health care policy proposals for our nation's children, families, and elderly.

I urge my colleagues to support the establishment of this Center and cosponsor the National Center for Social Work Research Act.

REMEDY SELECTION FOR THE 201 STEEL INVESTIGATION

HON. SONNY CALLAHAN

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. CALLAHAN. Mr. Speaker, within the next few days the President will make a decision on the appropriate course of action in response to the International Trade Commission (ITC) findings on steel imports. I am grateful to the President for addressing this matter and hope he will stay the course on the issue of steel imports and keeping our trading partners interested in negotiations on global overcapacity reductions.

Steel is an important part of the economy in Alabama. There are over 20,000 jobs directly tied to steel in our state. Alabama is home to some of the most efficient steel makers in the world. A mill in my district can turn scrap into high grade steel in a matter of hours. It can supply steel for ship building as well as a number of other products from street lights to bridges.

All the steel companies in the U.S. are suffering. The accepted reason for this downturn is the overproduction of steel world-wide. The ITC and our trading partners agree there is a real problem. Everyone recognizes that global over capacity is the root cause, and we are meeting with other steel producing nations to do something about it.

But the solution will take years to develop, and in the meantime the open borders of the U.S. are drawing a lot of this overcapacity and damaging our domestic industry. In the short run we need to stabilize the domestic market, while continuing global trade talks.

A four-year time out, is not a lot of time to correct this situation. The steel industry has asked for a four-year tariff starting at 40 percent. Each year that tariff will be reduced. This tariff will do two things, first it will send a message that we are very serious about this problem, and second it will demonstrate that these trade talks are not for show. I am reasonably certain that the talks would not be so well attended without the threat of tariffs.

This tariff will allow the U.S. market to stabilize and provide time to see if these global talks will bear fruit. The President should provide this assistance, which is perfectly legal under the WTO, and which is necessary to bring some stability to the steel markets.

The U.S. steel industry underpins our basic manufacturing base. We need to be very careful about allowing an industry that is so essential to our infrastructure and security to be unjustly damaged. I hope the President will do the right thing and use the tools provided in the WTO to give some breathing room to the domestic industry. I will support him in a strong action.

PAYING TRIBUTE TO CHRIS PARMETER

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. McINNIS. Mr. Speaker, it is with a great deal of pride that I pay tribute today to Chris Parmeter, a Colorado Division of Wildlife officer, whose courageous act of capturing two dangerous fugitives went above and beyond the call of duty, and displayed a measure of heroism worthy of being brought before this body of Congress. During his tenure as a Division of Wildlife officer, Chris has embodied the ideals of integrity, honesty and courage that we, as Americans, have come to expect from the men and women who serve in our state parks. I, along with the citizens of Colorado, am both grateful and proud of Chris' extraordinary act of valor, and believe it appropriate to pay tribute to him for his courage and bravery.

Though not typically in the job description, Chris' extraordinary efforts to apprehend two armed killers near Salida, Colorado on September 29, 2001 are a testament to his relentless dedication to his job, to his community and to his state. While manning a roadblock in the area where the fugitives were believed to be, Chris became involved in the search for the two killers. When they were finally flushed from hiding, it was Chris, along with other state wildlife employees, who apprehended the two suspects, and ultimately brought them into custody. Because of his incredible bravery, these criminals are now in the hands of law enforcement officials, and of no threat to anyone else in the area. His courage in the face of both fear and adversity is truly remarkable, and I applaud him for his actions.

Mr. Speaker, I am honored today to rise and pay tribute to a man whose actions are the very essence of all that makes this country great, and I am deeply honored to be able to bring them to the attention of this body of Congress. It is in times of great need that true heroes emerge, and I am proud to say Chris Parmeter is a hero not only to me, but to his family, his friends and to this country. It is with a great deal of pride that I stand to honor him today, and wish him all the best in his future endeavors.

TARIFF-BASED SECTION 201 RELIEF

HON. AMO HOUGHTON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. HOUGHTON. Mr. Speaker, I rise today along with many of my fellow colleagues to urge the President to implement a strong, effective remedy for the U.S. steel industry as a result of the ITC's recent Section 201 investigation, even if I speak from a somewhat different perspective than many of these colleagues.

While I am well aware of the importance of a stable domestic steel industry to the financial security and national defense of this country, I do not represent a district with an extensive steel industry presence that has been devastated by the recent steel crisis. However, I do have a steel specialty company that closed last year, laying off many individuals. The plant was recently purchased by a new owner and is in the process of reopening. In addition, I have many constituents in the district with steel-related jobs that have been hurt by the steel imports. In New York State, the number of employees in the New York steel industry dropped by 27 percent from January 1998 to July 2001. I also represent thousands of hard-working Americans who want to know that America's trade laws are going to be enforced if their own livelihoods ever come under a similar attack. That is why I stand before you today.

I applaud the President for his recognition that the domestic steel industry is in the midst of a crisis and for initiating a Section 201 investigation. That investigation has culminated in a unanimous agreement at the ITC that the U.S. steel industry has been significantly injured by the unfair trade practices of foreign producers and nations. Our laws now put the ball back in the President's court and call on the Administration to implement a remedy that will give the domestic industry a real opportunity to recover from years of unfair trade and to compete in today's ever-changing marketplace. This remedy must come in the form of strong, tariff-based relief.

An effective tariff-based remedy would help return steel prices to their normal pre-crisis levels and allow American steel companies to make the necessary investments to remain viable and competitive in the future. It would also stimulate foreign governments and steel producers to make the difficult decisions that U.S. producers have already made—to bring stability and balance to the global steel market. In order to be effective, this remedy must meet certain criteria.

The first key to an effective tariff-based remedy is that it must be substantial in order to ensure that import prices return to market-based levels. To that end, the domestic industry has determined that a 40 percent tariff rate on flat-rolled products is warranted. In the Section 201 investigation, two of the ITC Commissioners fully agreed with this determination.

An effective remedy also must be comprehensive and must be imposed for a substantial period of time. Applying a consistent tariff-based remedy across all flat steel products is the only fair way to impose relief, and the only way to ensure that foreign producers don't simply shift their excess production to other areas. Further, in order for a remedy to have any real effect on the domestic and global marketplace, it must be enforced for at least four years. This will allow the domestic industry to make the necessary adjustments to import competition, and the President to achieve his objective of repairing the global steel trading system.

In endorsing the use of an effective, tariff-based remedy, I strongly urge the President to steer clear of quota-based relief. Such a remedy would further distort the global marketplace by providing an artificial incentive for foreign producers to ship substantial amounts of low-priced steel into our borders as quickly as possible in order to "get in under the quota." The last thing U.S. producers need at this time is another uncontrolled flood of under-priced steel.

The Administration has promised on a number of occasions to be tough on unfair trade, and now is the time to live up to that promise. The President must implement this effective tariff-based relief in order to demonstrate to foreign producers and governments that the Administration is serious about addressing not just the problem of foreign excess steel capacity, but also the problem of unfair trade practices in general. Our laws are consistent with international law and designed to ensure that our industries have somewhere to turn for relief when they fall victim to unfair trade. These laws are only effective to the extent they are enforced, and their enforcement is a duty that we owe to the American people.

ON THE FIRST ANNIVERSARY OF THE ENACTMENT OF THE CHILD CITIZENSHIP ACT OF 2001

HON. WILLIAM D. DELAHUNT

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. DELAHUNT. Mr. Speaker, for all our colleagues in this chamber, the days are long and the rewards often intangible. Once in a great while, however, the results of our work together are so compelling that it's worth stopping for a moment to take notice.

In this spirit, I rise today to celebrate the first anniversary of the implementation of the Child Citizenship Act of 2001. With the help of a remarkable bipartisan coalition—Congressmen HENRY HYDE and LAMAR SMITH; Senators DON NICKLES, MARY LANDRIEU and TED KENNEDY, to name just a few—we made history for tens of thousands of American families, and for the scores of overseas orphans they have embraced as their own.

On February 27, 2001, United States citizenship was conferred automatically on every young child under age 18 adopted by American parents. By the most conservative estimates, more than 150,000 children woke up that morning as American citizens.

The joy of that sunny morning brimmed on the faces of adoptive families, their relatives and neighbors from coast to coast. Spontaneous commemorations, public and private, sprouted up in dozens of communities across the country, from Atlanta to Alaska.

It was a special pleasure to help host the national celebration one year ago today, in Boston's historic Fanueil Hall. Since its construction in 1742, that hall has occupied a hallowed place on our nation's trail toward freedom. It witnessed the revolutionary speeches of Samuel Adams, the anti-slavery oratory of Frederick Douglass, and the stirring call of Susan B. Anthony for women's suffrage. Last February 27, we gathered in that cradle of liberty to mark another step forward.

The new law lives not only in the bright eyes of these children and the pride in their parents' hearts, but also in the story of human compassion. In addition to those "overnight citizens" of last February 27, the Child Citizenship Act has conferred automatic U.S. citizenship upon the lawful completion of each international adoption since. In 2001 alone, U.S. parents adopted over 4600 orphans from China and 4200 from Russia, 1700 from South Korea, 1600 from Guatemala, 1200 from Ukraine, 700 from each of Romania, Vietnam and Kazakhstan; 500 from India; 400 from Cambodia; and hundreds more from Bulgaria, Colombia, the Philippines, Haiti, Ethiopia, Poland, Thailand, Mexico, Jamaica, Liberia, and dozens of other nations—altogether, more than 19,000 overseas children since the new law took effect.

Each is now a United States citizen. Not one had to struggle with the red tape or expense of the naturalization process. No federal agency was saddled with reams of paperwork to process their cases.

The real meaning, of course, cannot adequately be measured in statistics. The deepest gratification lies in the strengthening of the family—the American family and the universal, extended family of which we are all a part. During the Faneuil Hall celebration, my own daughter Kara, herself a beneficiary of the Saigon Babylift 26 years ago and a naturalized citizen, stressed that U.S. citizenship is not a rejection of one's country of origin, but rather an opportunity to weave a new, deeply personal heritage.

The enactment of the Child Citizenship Act was a model of bipartisan legislative collaboration. I still hope to build on this success to address, either administratively or through additional legislation, a number of questions that remain about the Act's application to children of American citizens living abroad.

My only real disappointment—last February and still today—is the reluctance of the U.S. Immigration and Naturalization Service to streamline its protocols for issuing certificates of citizenship.

Many of the 150,000 who assumed citizenship last year, and those since adopted, naturally desire official affirmation of their new status. Thousands have taken advantage of the new State Department procedures to acquire United States passports. The process is so straightforward that Senator KENNEDY was able to hand-deliver the first such passport in the nation on the stage at the Fanueil Hall celebration, within two hours of the legislation taking effect.

Inexplicably, however, the INS still has not followed suit. If an adoptive child who is now a U.S. citizen seeks an INS certificate, he or she must undergo the same lengthy, expensive and cumbersome process that faces a non-citizen seeking naturalization. This procedure is irrationally burdensome for both the applicant and the agency; and it offends nearly everyone who has the misfortune to have to undergo it.

These children are already American citizens. All adoptive parents want is a piece of paper affirming that fact. It should be no harder than getting a driver's license—or a passport.

Fortunately, this problem cannot negate the enormous benefits the law has conferred on adoptive families and our entire community. Especially in the wake of September 11, as we all struggle against global misunderstanding, this new law helps fulfill the lifelong dream of thousands of families and shows enormous respect to the compassion of our own great, diverse and generous nation.

IN HONOR OF GRAND MARSHAL MARYANN CONNELLY

HON. ROBERT MENENDEZ

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. MENENDEZ. Mr. Speaker, I rise today to honor and acknowledge the many accomplishments of Grand Marshal Maryann Connelly. The St. Patrick's Parade Committee honored her on Sunday, February 24th, 2002, at the annual brunch at the Hi-Hat Caterers in Bayonne, New Jersey.

Maryann Connelly is the Principal at the Philip G. Vroom Elementary School in Bayonne, New Jersey. She has been employed by the Bayonne Board of Education for the past ten years as a teacher and guidance counselor.

She is an active volunteer in a variety of organizations: she was the first female President of Ireland's 32 in 1992; elected by Ireland's 32 as the first "Irishwoman of the Year" in 1985; elected to Bayonne St. Patrick's Parade Committee and was the first female Chairperson elected in 1991; and is currently serving her eighth consecutive term as the General Chairperson. She raised funds for the Hudson County March of Dimes; is a member of the Art Auction Committee for the Bayonne Hospital Foundation; and co-hosts a weekly Irish-American radio show.

Mrs. Connelly received the State of New Jersey Governor's Teacher Recognition Award in 1992; became a member of Who's Who Among American Teachers in 1996; was recognized as Outstanding Community Leader from Ireland's Civic Organization in 1999; and was awarded the New Jersey Heritage Award in 2001.

Maryann Connelly earned her Bachelors and Masters of Arts degree from New Jersey City University.

She is married to Philip Connelly and is the proud mother of Kevin Patrick.

Today, I ask my colleagues to join me in honoring Grand Marshal Maryann Connelly for her contributions towards cultural understanding and the education of our youth. We are pleased to have her play such an important and positive role in the community of Bayonne, New Jersey.

HONORING DR. A.B. FALCONE

HON. GEORGE RADANOVICH

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. RADANOVICH. Mr. Speaker, I rise today to honor the memory of Dr. A.B. Falcone on the occasion of the one year anniversary of his passing, February 20, 2001. Dr. Falcone's resume is full of academic, professional and community service accolades which reveal his dedication to bettering the society in which he lived. Dr. Falcone's memory and work are alive and continue his legacy of service.

In December of 1953, as a medical researcher in biochemistry, Dr. Falcone co-discovered the phosphate exchange reactions of the mitochondrial ATP Synthetase of Oxidative Phosphorylation. He has been widely published, recognized by the International Who's Who of Intellectuals and Who's Who in the World and invited to participate in numerous seminars and scientific meetings.

Dr. Falcone had a number of professional memberships including the American Medical Association, the American Diabetes Association and the American Federation for Clinical Research. His community organization memberships included the Archeological Society of America, the Association for Academic Excellence, the Marines Memorial Association and the California Association for the Gifted. The Falcone Foundation has established an endowment for undergraduate research in chemistry at the College of Chemistry at the University of California, Berkeley.

Mr. Speaker, I rise today to honor Dr. Falcone for his unending support of and contributions to academia, his community, our nation and the entire world. I invite my colleagues to join me in commemorating his life and wishing his family well.

IN RECOGNITION OF THE HONORABLE JACK McNULTY

HON. GARY L. ACKERMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. ACKERMAN. Mr. Speaker, I rise today in recognition of the Honorable Jack McNulty, on the occasion of his 80th birthday today. Mr. McNulty is the father of our esteemed colleague, Congressman Mike McNulty.

The Honorable Jack McNulty has had a long and distinguished career in public service. He was first elected to office in 1949 and has been re-elected to serve the people of his community in every decade since. Just this past November, he was re-elected as Mayor of Green Island, a village in New York which his son, Mike, represents with distinction in Congress.

Jack McNulty is an upstanding citizen, dedicated public servant, and devoted father. I ask my colleagues to rise and Join with me in honoring Jack McNulty and wishing him a happy 80th birthday, and many, many more to come.

WELCOMING THE CITY AND COUNTY OF BROOMFIELD

HON. MARK UDALL

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. UDALL of Colorada. Mr. Speaker, I rise today to recognize the "First 100 Days" of Colorado's newest county.

At midnight on November 15, 2001, the City of Broomfield, Colorado, became the City and County of Broomfield, and as such became Colorado's 64th county. It represents the culmination of years of difficult and tireless work the results of which will benefit Broomfield residents with enhanced and more efficient services—not to mention a higher profile.

The success of these efforts is illustrated in an article from the Rocky Mountain News that I am attaching for the information of our colleagues.

It all started in 1994 when a citizen group first publicly broached the idea due to the inconveniences of a city spread across four separate counties. This resulted in a fractured community that had to depend on four different seats for basic services and property taxes that varied throughout the city. After four years of organizing and diligence on the part of many Broomfield officials, Colorado's voters took the necessary step of agreeing to amend Colorado's Constitution to allow the city to become a city and county.

But this was only the beginning of the work that lay ahead. As many in Broomfield County can now attest, creating a new county from scratch is a monumental task.

In order to prepare the new county for business, a city and county building, a courthouse and a county jail had to be located and constructed. In addition to these and other physical changes, an entirely new administrative system had to be developed, which included the complex and daunting county health care program. In the political arena, rather than conduct elections for county commissioners, Broomfield elected to have their town council and mayor perform the task of the county commission. This innovative system will ensure a smooth transition and ensure those city services and county services are coordinated, assuring the best possible results to residents.

The people and the government of Broomfield are to be commended for such an innovative and far-sighted task. Their years of hard work have at last come to fruition and their success will be measured by a better quality of life for their citizens. I hope my colleagues will join me in recognizing this accomplishment and in wishing the people of Broomfield City and County continued success and much prosperity in the years to come.

[From Rocky Mountain News, Feb. 22, 2002]

100-DAY-OLD BROOMFIELD HAPPY AS A LARK

(By Berry Morson)

BROOMFIELD—Greg Young was turned away at the motor vehicle department in this newly formed county when he tried recently to register a used Subaru.

He didn't have the right paper-work, Young was told.

But it's what happened next that surprised Young.

The clerk who turned him away, Darlene Yengich, picked up the phone and politely, but firmly explained to the car's former owner which papers must be turned over to Young for the vehicle to get plates.

"It stunned me that she just called the person." Young said, He had made numerous calls to the previous owner in a vain quest for the magic papers.

Thanks to Yengich's call, Young is now legally driving the streets of Broomfield in his '92 gray Subaru wagon.

That's the kind of personal service community leaders were hoping to achieve when they campaigned for a 1998 ballot proposal to make Broomfield a county, as well as a city.

Today, Broomfield is quietly celebrating its 100th day as Colorado's 64th county, which took effect Nov. 15. No speeches or parades are planned.

But Young is taking plenty about the benefits of being able to register his car in the community where he's lived for 12 years. He showed up recently at a City Council meeting to tell City leaders about how helpful Yengich had been.

"I said, 'You must have gotten her from Planet Wonderful,' " Young said.

Before Nov. 15, Broomfield was divided among four counties—Adams, Boulder, Jefferson and Weld. Conducting business such as registering a car or applying for a marriage license meant a drive to a distant county seat.

Transition from a city of a city-and-county has been smooth, partly because citizens are behind the changes, said Russ Ragsdale, the county clerk and Yengich's boss.

"They all, as a majority, were behind this county thing, and they want to see us succeed, and they've helped," Ragsdale said. "I can see it when I sit in the motor vehicle office, and watch the customers as they come in. They're glad to have us here, and they make it easy on us."

Transfer of records from the previous counties to Broomfield went with few hitches, Ragsdale said.

Among the people most happy that Broomfield is now a county are police officers.

Before Nov. 15, arrests meant transporting a prisoner to jail in one of the other counties, said police Chief Tom Deland. They are resting officer was off the street for hours.

Now the county has its own 80-bed jail.

Under a unique system, prisoners are booked at the arrest scene via computer hook-up. The prisoner is taken to jail in a van, while the arresting officer goes back on patrol, Deland said.

Never a high-crime area, the daily jail population at the new jail has not broken the low 20s, Deland said.

The number will increase in coming months—probably to the 50s—as more people begin serving sentences imposed by Broomfield County court. Most Broomfield crimes now before courts were committed before Nov. 15, and so they are being heard in the previous counties.

So far, the most serious crime committed in the city or county of Broomfield was assault on a police officer with a knife, Deland said. No murders or sexual assault reports have occurred.

Yengich, the motor vehicle clerk who helped Young register his Subaru, said she would have gone out of her way to help a customer at the Jefferson County motor vehicle office, where she previously worked.

But, she said, the Broomfield office "is smaller and not quite as busy as the Jefferson County office. . . . It seems like everybody is closer knit here."

Yengich said she's in the process of selling her house in Lakewood. She plans to move to Broomfield.

PAYING TRIBUTE TO J.W. WILDER

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. McINNIS. Mr. Speaker, it is with a great deal of pride that I pay tribute today to senior Colorado State Parks ranger J.W. Wilder, whose courageous act of capturing two dangerous fugitives went above and beyond the call of duty, and displayed a measure of heroism worthy of being brought before this body of Congress. It takes a truly special person to put himself in harm's way, not out of duty or obligation, but out of simple benevolence and civic responsibility. I, along with the citizens of Colorado, am both grateful and proud of J.W.'s extraordinary act of valor, and believe it appropriate to pay tribute to him for his courage and bravery.

Though not typically in the job description, J.W.'s extraordinary efforts to apprehend two armed killers near Salida, Colorado on September 29, 2001 are a testament to his relentless dedication to his job, to his community and to his state. After checking on a colleague who was manning a roadblock, J.W. became involved in the search for the two killers. When the two fugitives were finally flushed from hiding, it was J.W., along with other state wildlife employees, who apprehended the two suspects, and ultimately brought them into custody. Because of his incredible bravery, these criminals are now in the hands of law enforcement officials, and of no threat to anyone else in the area. His courage in the face of both fear and adversity is truly remarkable, and for his efforts, J.W. was named the outstanding ranger of the year by the Colorado State Parks.

Mr. Speaker, I am honored today to rise and pay tribute to a man whose actions are the very essence of all that makes this country great, and I am deeply honored to be able to bring them to the attention of this body of Congress. It is in times of great need that true heroes emerge, and I am proud to say J.W. Wilder is a hero not only to me, but to his family, his friends and to this country. It is with a great deal of pride that I stand to honor him today, and wish him at the best in his future endeavors.

HEALTH INFORMATION INDEPENDENCE ACT OF 2002

HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. PAUL. Mr. Speaker, I rise to introduce the Health Information Independence Act of 2002. This act takes a major step toward restoring the right of consumers to purchase the dietary supplements of their choice and receive accurate information about the health benefits of foods and dietary supplements. The Health Information Independence Act repeals the Food and Drug Administration's (FDA) authority to approve health claims of foods and dietary supplements. Instead, that authority is vested in an independent review board. The board is comprised of independent scientific experts randomly chosen by the FDA. However, anyone who is, or has ever been, on the FDA's payroll is disqualified from serving on the commission. The FDA is forbidden from exercising any influence over the review board. If the board recommends approval of a health claim then the FDA must approve the claim.

The board also must consider whether any claims can be rendered non-misleading by adopting a disclaimer before rejecting a claim out of hand. For example, if the board finds that the scientific evidence does not conclusively support a claim, but the claim could be rendered non-misleading if accompanied with a disclaimer then the board must approve the claim provided the claim is always accompanied by an appropriate disclaimer. The disclaimer would be a simple statement to the effect that "scientific studies on these claims are inconclusive" and/or "these claims are not approved by the FDA." Thus, the bill tilts the balance of federal law in favor of allowing consumers access to information regarding the health benefits of foods and dietary supplements, which is proper in a free society.

The procedures established by the Health Information Independence Act are a fair and balanced way to ensure consumers have access to truthful information about dietary supplements. Over the past decade, the American people have made it clear they do not want the federal government to interfere with their access to dietary supplements, yet the FDA continues to engage in heavy-handed attempts to restrict access to dietary supplements.

In 1994, Congress responded to the American people's desire for greater access to information about the benefits of dietary supplements by passing the Dietary Supplements and Health and Education Act of 1994 (DSHEA), which liberalized rules regarding the regulation of dietary supplements. Congressional offices received a record number of comments in favor of DSHEA.

Despite DSHEA, FDA officials continued to attempt to enforce regulations aimed at keeping the American public in the dark about the benefits of dietary supplements. Finally, in the case of Pearson v. Shalala, 154 F.3d 650 (DC Cir. 1999), reh'g denied en banc, 172 F.3d 72 (DC Cir. 1999), the United States Court of Appeals for the DC Circuit Court reaffirmed consumers' First Amendment right to learn about dietary supplements without unnecessary interference from the FDA. The Pearson court anticipated my legislation by suggesting the FDA adopt disclaimers in order to render some health claims non-misleading.

In the more than two years since the Pearson decision, members of Congress have had to continually intervene with the FDA to ensure it followed the court order. The FDA continues to deny consumers access to truthful health information. Clearly, the FDA is determined to continue to (as the Pearson court pointed out) act as though liberalizing regulations regarding health claims is the equivalent of "asking consumers to buy something while hypnotized and therefore they are bound to be misled." Therefore, if Congress is serious about respecting the First Amendment rights of the people, we must remove FDA authority to censor non-misleading health claims, and those claims which can be rendered non-misleading by the simple device of adopting a disclaimer, by passing my Health Information Independence Act.

In conclusion, I urge my colleagues to help establish an objective process that respects consumers' First Amendment rights to non-misleading information regarding the health benefits of foods and dietary supplements by cosponsoring the Health Information Independence Act.

FAMILY AND MEDICAL LEAVE EXPANSION ACT

HON. GENE GREEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. GREEN of Texas. Mr. Speaker, I rise today to introduce legislation which would expand the Family and Medical Leave Act so that individuals can take time off when disaster strikes.

Each year, disasters such as hurricanes, floods, wildfires, earthquakes, and other tragedies strike thousands of families and businesses throughout the United States. In the last year alone, the Federal Emergency Management Agency (FEMA) responded to forty-five declared disasters and ten emergencies in thirty-two states, the District of Columbia, Guam and Puerto Rico. More than 49,500 affected families and businesses sought assistance after the September 11th attacks.

Following a disaster, families often have no home, belongings, clothing, or transportation. They struggle to deal with insurance companies, government officials, the Red Cross, and other organizations so that they can get the assistance they need to get back to normal. For many individuals this process can take several weeks, if not months.

While most employers are sympathetic and compassionate people, they sometimes will not allow employees to take the time they need to manage a disaster and get their lives in order again. As a result, these individuals are left with no home, no belongings and no job. This situation can often create a downward spiral for some families, where they cannot recover.

The legislation I have introduced would expand the successful Family and Medical Leave Act (FMLA) so that individuals can take time off from work to resolve their situations during a natural disaster. Dealing with a natural disaster is as trying an ordeal as a health crisis, and amending the FMLA to include this change will ensure that workers are protected in times of family crisis.

I urge my colleagues to support this legislation.

H.R.—

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Family Medical Leave Expansion Act".

SEC. 2. LEAVE IN CASE OF STATE OR FEDERALLY DECLARED DISASTER.

(a) NON-FEDERAL EMPLOYEES.—Section 102(a)(1) of the Family and Medical Leave Act of 1993 (29 U.S.C. 2612(a)(1)) is amended by adding at the end the following new subparagraph:

"(E) Because of a State or Federally declared disaster occurring in the geographical area in which the employee resides, works, or through which the employee must travel to get to work or as a part of the employee's work duties.".

(b) FEDERAL EMPLOYEES.—Section 6382(a)(1) of title 5, United States Code, is amended by adding at the end the following new subparagraph:

"(E) Because of a State or Federally declared disaster occurring in the geographical area in which the employee resides, works, or through which the employee must travel to get to work or as a part of the employee's work duties.".

CONGRATULATIONS ON 25TH ANNIVERSARY OF FOUNDING OF AARP CHAPTER 2840 IN FALLING SPRING, PENNSYLVANIA

HON. BILL SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. SHUSTER. Mr. Speaker, I rise today to congratulate the members of AARP chapter number 2840 of Falling Spring, Pennsylvania, on the 25th Anniversary of the chapter's founding. The AARP is dedicated to enhancing the quality of life for its members and for members of the community through education, advocacy, and service.

This very active chapter is comprised of nearly 650 members and 100 honorary members. The members of this chapter focus on community service and strive to live by their motto "To Serve and Not to be Served." To that end, this chapter has served as the longtime sponsor and supporter of the Chambersburg Toy Mission, which help bring the Christmas spirit to children in Franklin County. The members also participate in the Adopt-a-Highway program and the "Meals on Wheels" program. The chapter even has its own chorus that tours the area performing for residents of nursing and retirement homes.

The Falling Spring chapter of the AARP is a wonderful example of an organization that is making a difference in the lives of the people of central Pennsylvania. I enthusiastically congratulate them on their anniversary and wish them another successful 25 years.

IN FOND MEMORY OF JUDY BOGGS

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. SCHIFF. Mr. Speaker, I rise today in great sorrow to remember the life of Judy Boggs. Judy passed away suddenly on Monday, February 25th. She will be greatly missed, not only by my staff and me, but by countless members of the community which she served so thoughtfully over the past 30 years.

Judy grew up in Portland, Oregon and graduated from the University of Washington. She had a passion for the university's football team, and it was in 1961 when the Huskies played in the Rose Bowl that Judy was introduced to Pasadena and the surrounding areas which she grew to love. After marrying Mr. Dale Boggs, she moved from the Pacific Northwest to La Cañada Flintridge in the mid-1960s and was a resident of that community for over 30 years.

Judy will long be regarded as one of the most influential Democratic political activists in the foothills communities of my Congressional District. She began her political career by volunteering for the 1972 presidential campaign of George McGovern, but her involvement in local politics began in 1973 when she co-founded ACT, a non-partisan action group which over the years has supported campaigns for elected leaders serving the foothill communities in the California state Assembly and Senate, and the U.S. House of Representatives.

Most recently Judy served as a Senior Field Deputy to State Senator Jack Scott. It is in this capacity that my staff and I grew to respect Judy for her wealth of experience and knowledge, and to love her for her charm, grace and dignity. She possessed an unmatched spirit, and brought joy and laughter to all who had an opportunity to work with her.

I believe the former mayor of Pasadena, the Honorable Kathryn Nack, said it best when she commented, "You don't meet a Judy Boggs in this world and not . . . want to see her all the time." Judy's bright smile and quick wit were adored by all who were lucky enough to have Judy in their lives, and we will always carry a terrific fondness and love for her.

I ask all Members of the United States House of Representatives to pause and join me today in honoring the life of Judy Boggs, for her many gifts, most especially her friendship. She will be missed by many people.

FAMILY SPONSOR IMMIGRATION ACT

HON. CHRISTOPHER H. SMITH

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. SMITH of New Jersey. Mr. Speaker, yesterday, the House overwhelmingly passed H.R. 1892, The Family Sponsor Immigration Act, a bill that will help keep the American Dream alive for immigrants whose hopes have been crushed by the sudden or unexpected death of their American sponsors.

We know that hundreds of thousands of immigrants throughout the world go through the immigration process each year for the chance to share in the promise of America. And what a wonderful promise it is—the opportunity to share in the freedom and blessings of a nation born out of ideals.

In many ways, our immigration process is unique. President Reagan often remarked, "You can go to Turkey and live there your whole life, but never really become a Turk. You can go to Japan and live there, but never really become Japanese. You can go to Germany, but never become German. But, you can come from any place in the world and become an American."

This process is often lengthy and many times even tedious. But our laws are designed to provide for the fairest and most just system possible, a system that will not only allow others access to our society, but that will also help foster their success. Integral to the success of immigrants are their American sponsors—proven citizens with established roots and financial security. American sponsors provide the support necessary to help an immigrant begin their journey in America.

We know, however, that under current law, in the rare case that an immigrant's American sponsor passes away, so too dies the promise of America for the immigrant. Imagine the case of an immigrant who applies to become a permanent resident, who plays by all the rules and waits patiently in hope, perhaps to be united with a long separated loved one, but who at the last minute is hit by the death of this loved one. Not only is the loss of this person a tragedy to be overcome, but the hopes and dreams of the immigrant are thwarted as well.

According to reports from INS, this scenario became part of the September 11 tragedy. As the towers crumbled and thousands of lives were lost, so too was lost the chance for immigrants in-waiting to continue on the road to become Americans. Thankfully, the Patriot Act which the President signed last fall included important provisions to extend visas and filing deadlines for the alien relatives of those killed in the World Trade Center already involved with the immigration process. However, more needs to be done to accommodate future scenarios.

HR 1892 will help correct this glitch in our immigration law. It says if a qualifying relative of the deceased sponsor exists, they can act as a replacement. As an immigrant you don't have to start the whole process over again.

Remember, we want to reward those who have played by the rules—those who attempt to go through the process we have designed, seeking justice and fair treatment. Let's correct this unfair technicality in our immigration law to help keep the American Dream a reality for those who lose their sponsors. The hope of freedom should not die because of the untimely death of a sponsor. I thank my colleagues for supporting HR 1892.

PAYING TRIBUTE TO ESTHER MASH

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. McINNIS. Mr. Speaker, I would like to take this opportunity to pay tribute to Esther Mash and thank her for her extraordinary contributions to the children of Mesa County and the State of Colorado. Her life-long dedication to her job as a schoolteacher and now as a volunteer at her local elementary school is matched only by the level of integrity and honesty with which she has conducted herself each and every day. The children whose lives she has touched are eternally grateful for all that she has taught them in her lifetime of public service.

At age ninety-one, Esther is the oldest volunteer in the Mesa County Retired Senior Volunteer Program. Every weekday, Esther walks to Taylor Elementary to volunteer her mornings and afternoons to tutor needy children. Known to the children as "Grandma Mash," Esther brings to the classroom the rare gift of a lifetime of experience gained as a teacher for over 20 years with District 51, located in southeast Colorado. She retired in 1975, after providing countless children with the gift of learning.

Esther continued to dedicate her efforts to children when she moved to Palisade, Colorado in 1995. There, she began to volunteer at Taylor Elementary, and continues to enjoy the respect and adulation from colleagues and children throughout the school. The school community, from the principal and teachers to the children and parents, has repeatedly expressed their gratitude for Esther's volunteer efforts. Taylor Elementary recently awarded her efforts with the title of "extraordinary volunteer."

Mr. Speaker, it is with great pride that I bring to the attention of this body of Congress, and this nation, the life and spirit of such an incredible woman. Throughout her life, Esther has managed to enrich and improve the lives of those around her. She continues to dedicate her time and energy to bring the gift of learning to children throughout the community. Esther Mash is truly an inspiration to all of us and I am honored to recognize her passion for life and indomitable human spirit that sets an example of charity to us all.

IN HONOR OF MAYOR PATRICIA SIANO-GILLIGAN

HON. ROBERT MENENDEZ

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. MENENDEZ. Mr. Speaker, I rise today to recognize Mayor Patricia Siano-Gilligan of Keansburg, New Jersey, who was honored on February 22, 2002, at the First Annual Keansburg Mayor's Ball.

Mayor Gilligan was born in Hoboken, New Jersey, and lived in Union City and Carteret before moving to Keansburg sixteen years ago.

In 1994, Mayor Gilligan was elected to the Keansburg City Council, where she served until 1998, becoming the youngest councilperson ever elected to office in the Bayshore area of New Jersey. Following her tenure as councilperson, she focused her efforts on reorganizing the Keansburg Democratic Party preparation for the General Election of 2000.

Patricia Siano-Gilligan was sworn-in as the Mayor of Keansburg in 2000, becoming the only female mayor in the Bayshore area, as well as the youngest mayor in the area. Mayor Gilligan was a founding member of "Save the Bay" Committee, which successfully stopped a proposed waste site off the coast of Keansburg.

For several years, she has been a dedicated basketball and softball coach, and is active with such veterans' organizations as the American Legion and VFW, as well as various senior citizen organizations.

Today, I ask my colleagues to join me in honoring Mayor Patricia Siano-Gilligan of Keansburg, New Jersey, for her many accomplishments and her dedication to public service.

HONORING DON OLSEN

HON. GEORGE RADANOVICH

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. RADANOVICH. Mr. Speaker, I rise today to recognize Don Olsen on the occasion of the completion of his term as President of the Eastern Madera County Chamber of Commerce. Mr. Olsen provided valuable leadership during his tenure and has an exemplary record of career and civic leadership. He served as the Chamber's President from January 1, 2001, until December 31, 2001.

Mr. Olsen has been a member of the Eastern Madera County Chamber of Commerce for five years. As President, he coordinated the effort of the organization's many officers, directors, and committee chairpersons to create an effective mechanism to organize and sponsor many successful projects that benefited the local community, the business community, and local civic organizations.

In addition to his responsibilities with the Eastern Madera County Chamber of Commerce, Mr. Olsen has been a member of the Oakhurst Sierra Sunrise Rotary for seven years, Director for the Boys and Girls Club of Oakhurst, and Senior Coach of Sierra Little League for three years.

Mr. Speaker, I rise today to honor Don Olsen for his service as President to the Eastern Madera County Chamber of Commerce. I invite my colleagues to join me in thanking him for his community service and wishing him many more years of continued success.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, February 28, 2002 may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

MARCH 1

10 a.m.

Governmental Affairs

International Security, Proliferation and Federal Services Subcommittee

To hold hearings to examine U. S. policy in Iraq.

SD–342

MARCH 5

9:30 a.m.

Armed Services

To hold hearings on proposed legislation authorizing funds for fiscal year 2003 for the Department of Defense and the Future Years Defense Program, focusing on unified and regional commanders, military strategy and operational requirements.

SH–216

10 a.m.

Indian Affairs

To hold hearings on the President's proposed budget request for fiscal year 2003 for Indian programs.

SR–485

Banking, Housing, and Urban Affairs

To hold oversight hearings to examine accounting and investor protection issues raised by Enron and other public companies.

SD–538

Appropriations

Commerce, Justice, State, and the Judiciary Subcommittee

To hold hearings on proposed budget estimates for fiscal year 2003 for the Judiciary.

SD–138

Judiciary

To hold hearings on pending executive branch nominations.

SD–226

2:30 p.m.

Veterans' Affairs

To hold hearings on the nomination of Robert H. Roswell, of Florida, to be Under Secretary for Health, and Daniel L. Cooper, of Pennsylvania, to be Under Secretary for Benefits, both of the Department of Veterans Affairs.

SR–418

Governmental Affairs

To hold hearings on the nomination of Jeanette J. Clark, to be an Associate Judge of the Superior Court of the District of Columbia.

SD–342

Armed Services

SeaPower Subcommittee

To hold hearings on proposed legislation authorizing funds for fiscal year 2003, focusing on Marine Corps modernization programs.

SR–222

Health, Education, Labor, and Pensions

To hold hearings to examine the dangers of cloning and the promise of regenerative medicine.

SD–430

MARCH 6

9:30 a.m.

Governmental Affairs

To hold hearings to examine the monitoring of accountability and competition in the Federal and Service Contract Workforce.

SH–216

Agriculture, Nutrition, and Forestry

To hold hearings to examine the nominations of Thomas C. Dorr, of Iowa, to be a Member of the Board of Directors of the Commodity Credit Corporation, and to be Under Secretary of Agriculture for Rural Development, Nancy Southard Bryson, of the District of Columbia, to be General Counsel of the Department of Agriculture, and Grace Trujillo Daniel, of California, and Fred L. Dailey, of Ohio, each to be a Member of the Board of Directors of the Federal Agricultural Mortgage Corporation, Farm Credit Administration.

SD–106

10 a.m.

Armed Services

Readiness and Management Support Subcommittee

To hold hearings to examine financial management issues of the Department of Defense.

SR–222

Appropriations

Defense Subcommittee

To hold hearings on proposed budget estimates for fiscal year 2003 for the Army budget.

SD–192

Foreign Relations

To hold hearings to examine the terrorist nuclear threat, focusing on dirty bombs and basement nukes.

SD–419

Budget

To hold hearings to examine the President's proposed budget request for fiscal year 2003, focusing on analysis of the Congressional Budget Office.

SD–608

Health, Education, Labor, and Pensions

Public Health Subcommittee

To hold hearings to examine the improvement of surveillance of chronic conditions and potential links to environmental exposures.

SD–430

Banking, Housing, and Urban Affairs

To hold oversight hearings to examine accounting and investor protection issues raised by Enron and other public companies.

SD–538

10:30 a.m.

Judiciary

Antitrust, Competition and Business and Consumer Rights Subcommittee

To hold hearings to examine cable competition, focusing on the Echostar-Direct TV merger.

SD–226

2:30 p.m.

Commerce, Science, and Transportation

Communications Subcommittee

To hold hearings to examine wireless communications infrastructure in the United States.

SR–253

Banking, Housing, and Urban Affairs

Housing and Transportation Subcommittee

To hold oversight hearings to examine the proposed reauthorization of the HUD McKinney-Vento Homeless Assistant Act Programs.

SD–538

Armed Services

Emerging Threats and Capabilities Subcommittee

To hold hearings on proposed legislation authorizing funds for fiscal year 2003 for the Department of Defense, focusing on nonproliferation programs of the Department of Energy and the Cooperative Threat Reduction program of the Department of Defense.

SR–222

Intelligence

To hold closed hearings on pending intelligence matters.

SH–219

MARCH 7

9:30 a.m.

Armed Services

To hold hearings on proposed legislation authorizing funds for fiscal year 2003 for the Department of Defense, and the Future Years Defense Program.

SH–216

10 a.m.

Veterans' Affairs

To hold joint hearings with the House Committee on Veterans' Affairs to examine the legislative presentations of the Paralyzed Veterans of America, Jewish War Veterans, Blinded Veterans Association, the Non-Commissioned Officers Association, and the Military Order of the Purple Heart.

345, Cannon Building

Appropriations

Commerce, Justice, State, and the Judiciary Subcommittee

To hold hearings on proposed budget estimates for fiscal year 2003 for the Securities and Exchange Commission and the Federal Communications Commission.

SR–253

Indian Affairs

To resume hearings on the President's proposed budget request for fiscal year 2003 for Indian programs.

SR–485

Banking, Housing, and Urban Affairs

To hold oversight hearings to examine the semi-annual report on Monetary Policy of the Federal Reserve.

SD–106

Health, Education, Labor, and Pensions

To hold hearings on proposed legislation authorizing funds for national service programs.

SD–430

2:30 p.m.

Energy and Natural Resources

National Parks Subcommittee

To hold hearings to examine S. 1069, to amend the National Trails System Act to clarify Federal authority relating to land acquisition from willing sellers from the majority of the trails in the System; S. 213, to amend the National Trails System Act to update the feasibility and suitability studies of 4 national historic trails and provide for possible additions to such trails; H.R. 1384, to amend the National Trails System Act to designate the Navajo Long Walk to Bosque Redondo as a national historic trail; and S. 1946, to amend the National Trails System Act to designate the Old Spanish Trail as a National Historic Trail.

SD–366

MARCH 12

10 a.m.
Appropriations
Commerce, Justice, State, and the Judiciary Subcommittee
To hold hearings on proposed budget estimates for fiscal year 2003 for the Department of State.
SD–138

2:30 p.m.
Armed Services
Emerging Threats and Capabilities Subcommittee
To hold hearings on proposed legislation authorizing funds for fiscal year 2003 for the Department of Defense and the Future Years Defense Program, focusing on special operations military capabilities, operational requirements, and technology acquisition.
SR–222

MARCH 13

10 a.m.
Appropriations
Commerce, Justice, State, and the Judiciary Subcommittee
To hold hearings on proposed budget estimates for fiscal year 2003 for the Department of Commerce.
SD–116

MARCH 14

10 a.m.
Veterans' Affairs
To hold joint hearings with the House Committee on Veterans' Affairs to examine the legislative presentations of the Gold Star Wives of America, the Fleet Reserve Association, the Air Force Sergeants Association, and the Retired Enlisted Association.
345, Cannon Building

MARCH 19

10 a.m.
Appropriations
Commerce, Justice, State, and the Judiciary Subcommittee
To hold hearings on proposed budget estimates for fiscal year 2003 for the National Oceanic and Atmospheric Administration and the Small Business Administration.
SD–138

MARCH 20

10 a.m.
Judiciary
Technology, Terrorism, and Government Information Subcommittee
To hold hearings to examine identity theft and information protection.
SD–226

2 p.m.
Veterans' Affairs
To hold joint hearings with the House Committee on Veterans' Affairs to examine the legislative presentations of American Ex-Prisoners of War, the Vietnam Veterans of America, the Retired Officers Association, the National Association of State Directors of Veterans Affairs, and AMVETS.
345, Cannon Building

MARCH 21

10 a.m.
Appropriations
Commerce, Justice, State, and the Judiciary Subcommittee
To hold hearings on proposed budget estimates for fiscal year 2003 for the Federal Bureau of Investigation, Immigration and Naturalization Service, and the Drug Enforcement Administration, all of the Department of Justice.
SD–116

APRIL 10

10:30 a.m.
Judiciary
Antitrust, Competition and Business and Consumer Rights Subcommittee
To hold hearings to examine cable competition, focusing on the ATT-Comcast merger.
SD–226

HOUSE OF REPRESENTATIVES—*Thursday, February 28, 2002*

The House met at 10 a.m. and was called to order by the Speaker pro tempore (Mr. SIMPSON).

DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
February 28, 2002.

I hereby appoint the Honorable MICHAEL K. SIMPSON to act as Speaker pro tempore on this day.

J. DENNIS HASTERT,
Speaker of the House of Representatives.

PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

Lord of light and majesty, a few weeks ago this Chamber prayed for Your blessing and protection upon the Olympic Winter Games before the torch was lighted. We confess that often enough we cry out to You when in need, and sometimes forget to return to You to offer thanks.

Today, Lord, we praise and thank You as the Lord God who made heaven and Earth, who granted peace and security to the Olympics in Salt Lake City.

We know You will bless and provide a just reward to the God-fearing people of Utah for all their labor in hosting the Olympics. We are grateful You have granted safe travel to all who attended the games, and brought them home to be received with joy and peace.

During the games, many young people around the globe came to see themselves as children of light, bringing new life and reconciliation to an aching world. May the Olympians throughout their lifetime be ambassadors of friendship and fair play beyond national borders. Knowing the importance of good order and abiding by the rules, and having glimpsed the glory of a community born of freedom and excellence, may they bring to people of all ages a spirit that will build upon yesterday's joys and tomorrow's hopes for a world free of drugs, addictions, and compulsions, even that of always winning or being first.

We seek such freedom from You, now and forever. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Iowa (Mr. GANSKE) come forward and lead the House in the Pledge of Allegiance.

Mr. GANSKE led the Pledge of Allegiance as follows:

> I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

DEFENDING THE TRADITIONAL VALUES COALITION

(Mr. DELAY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DELAY. Mr. Speaker, last month we saw a clear example of irresponsible journalism. In January, National Public Radio aired a story that inappropriately linked the Traditional Values Coalition to the anthrax terror attacks against the Senate, but the NPR story did not present any credible evidence to support the awful association they suggested.

NPR's conduct is outrageous and ignores their basic responsibilities as journalists: presenting the facts to the public accurately and without bias. There was no legitimate justification for including TVC in the story describing the anthrax investigation. The only plausible explanation is an attempt by NPR to practice guilt by association.

I have worked with the Traditional Values Coalition for many years. They are a principled, compassionate, Christian organization which speaks for 43,000 member churches from across the United States. The Traditional Values Coalition is dedicated to defending the sanctity of life and upholding the dignity of every individual.

NPR needs to hold itself to far higher standards. By inserting a group without any possible connection to the anthrax attack into its report, NPR raised serious questions about their presentation of the news. NPR should be cautious about the damage that can be done to a group's reputation by similar association.

The public should expect responsible reporting from NPR, and they ought to demand it of themselves.

EXPRESSING CONDOLENCES TO THE FAMILY OF DANIELLE VAN DAM, AND URGING MEMBERS TO JOIN THE CONGRESSIONAL MISSING AND EXPLOITED CHILDREN'S CAUCUS

(Mr. LAMPSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMPSON. Mr. Speaker, I rise today on behalf of the Congressional Caucus on Missing and Exploited Children to express my condolences to the family and the friends of Danielle van Dam. As an activist on the issue of missing kids, far too often I have seen parents who have had to deal with this tragedy. I have seen communities mobilized to search for a child who has not come home from school or disappeared from home.

We must continue to work hard to educate and protect America's children from exploitation. I urge all Members to go back to their offices and log onto www.missingkids.org and find out how we can talk to our children and what we can do to help in our communities. Our efforts to prevent crimes against children have not kept pace with the increasing vulnerability of our young citizens.

Please contact my office if Members are not already a member of the Congressional Caucus on Missing and Exploited Children. Our children, grandchildren, nieces and nephews are counting on Members to give them a voice in Washington, as are people like Ludwig Koons, who is being kept illegally in Italy with little or no help from the Italian Government or the United States State Department. We must bring our children home.

RECOGNIZING MIAMI DADE COMMUNITY COLLEGE FOR ITS PROGRAMS, INCLUDING THE MDCC SCHOOL OF JUSTICE

(Ms. ROS-LEHTINEN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. ROS-LEHTINEN. Mr. Speaker, today I would like to congratulate a special higher education center located in my congressional district, Miami Dade Community College, which operates six campuses, two major outreach centers, and additional instruction sites, including a center at Miami International Airport.

Run by Dr. Eduardo Padron, the college has a wide variety of departments,

---

☐This symbol represents the time of day during the House proceedings, e.g., ☐1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

including the much-acclaimed School of Justice. Each year, Miami Dade Community College's School of Justice provides training for over 350 law enforcement recruits, in-service training for over 3,000 sworn officers, and 2,500 State of Florida-certified security officers.

Additionally, the School of Justice has developed and administered over 170 law enforcement assessment and testing programs to 25 State agencies since 1981. The FBI and the London Metropolitan Police have used Miami Dade Community College's programs as a benchmark.

Please join me in congratulating and recognizing Miami Dade Community College's School of Justice, and especially Debbie Goodman, the school Chair; Robert Calabrese, the interim director; Ron Forester, the deputy director; but most especially, Dr. Eduardo Padron.

NATIONAL PUBLIC RADIO

(Mr. FOLEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FOLEY. Mr. Speaker, following up on the comments of the majority whip, the gentleman from Texas (Mr. DELAY), I am also concerned about what has happened here with NPR.

Although I had supported NPR's public funding in the past, I know when someone has been wronged. It does not matter if it is the Traditional Values Coalition or the ACLU, right or left wing, they simply did not deserve to be treated this way, to be forced to prove or disprove a negative.

America is still recovering from September 11, and the fight ought to be Americans versus terrorists, not Americans versus Americans. When such reckless, irresponsible accusations are pulled out of thin air, we are doing exactly what Osama bin Laden would like us to do, to turn on each other.

I am happy to see NPR has technically apologized. I can only hope they do so again much more loudly and much more often. It is a disgrace to journalism to make such a reckless accusation against a fine organization operating in this country.

I insist, before I continue to support their organizations, that they, in fact, do apologize more forcefully.

HATS OFF TO WADE SATERN AND ANDY ROUSCH, AND ALL KIDS WHO QUALIFY FOR THEIR STATE HIGH SCHOOL WRESTLING TOURNAMENTS

(Mr. GANSKE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GANSKE. Mr. Speaker, hats are off to all the kids who qualify for their State high school wrestling tournaments across the country. We exhigh school and college wrestlers now in Congress know the hard work those accomplishments take.

However, I want to especially recognize two individuals. Wade Satern, of Humboldt, Iowa, won the 119-pound class 2–A championship, and Andrew "Andy" Rousch of Wilton, Iowa, placed third at 103 pounds in class 1–A.

Each of these young men wrestled with only one leg. Satern lost his leg as an infant; and he has said, "I earned it just like any other kid earns a State championship: I worked my tail off. I personally do not feel like I am handicapped."

The Speaker of the House, an exwrestling coach himself, joins me in saying to these young men, congratulations for a job well done.

NPR BREAKS TRUST WITH AMERICANS WITH IRRESPONSIBLE REPORTING

(Mr. BLUNT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BLUNT. Mr. Speaker, in a report already mentioned today on Morning Edition, NPR implied, as we have already heard, that a conservative group, the Traditional Values Coalition, was involved in the anthrax mailings to the Senate because they disagreed with two members of that body on a religious issue.

The first amendment to the Constitution of the United States establishes the freedom of the press, forbidding the Congress to make any law abridging the right of the press to speak freely.

I, like all of us, am a true believer in the Constitution and what it stands for. However, I believe that with this freedom comes responsibility, the responsibility of the press to report accurately and in an unbiased manner the facts of an issue. This trust is compounded in the case of public television and public radio in that they receive taxpayer dollars to fund part of their operations.

On the morning of January 22, NPR broke their contract with the American people by reporting hearsay as fact. They did their fellow journalists and their listeners a grave disservice. In this case, the United States taxpayers did not get what they paid for. This report was completely inaccurate and irresponsible.

As I have stated, the press has a responsibility to report the facts, not unproven accusations. Two results should emerge from our 1-minutes today: one, NPR should issue an equally public apology to the Traditional Values Coalition; and, two, Congress should look long and hard at the recipients of taxpayer dollars.

NPR CROSSED THE LINE FROM BIAS TO OUTRIGHT LIBEL IN INACCURATE COMMENT ON TRADITIONAL VALUES COALITION

(Mr. CALVERT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CALVERT. Mr. Speaker, like most Americans, I have become jaded to the fact that the news media uses the airways to promote their liberal agenda. But when National Public Radio made a thinly veiled accusation that the Traditional Values Coalition could be responsible for the anthrax attacks on Capitol Hill, they crossed the line from simple bias to outright libel.

Mr. Speaker, the thousands of men and women who make up the Traditional Values Coalition are our neighbors, our fellow churchgoers. They are the people who responded to our national emergency by giving their money, clothes, food, time, and even their blood to the victims of September 11. But to NPR, they are simply accused terrorists.

In the end, while the people of the Traditional Values Coalition practice the American ideals of charity and compassion, NPR continues to practice their traditional values: shameful pettiness and slanderous lies.

COMMEMORATING AFRICAN AMERICAN HISTORY AS AMERICAN HISTORY

(Ms. JACKSON-LEE of Texas asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JACKSON-LEE of Texas. Mr. Speaker, on this last day of the month that we commemorate African American history, as I speak to my schools and community groups, I make the argument that we should celebrate and commemorate all of our diversities throughout the year because we all are Americans, and the history of African Americans is just that, the history of America.

☐ 1015

I rise today to honor a local hero, Nellye Joyce Punch, who happens to be an African American soldier of good fortune for those who do not have. Nellye Joyce Punch has been someone who has worked in the fifth ward area for a number of years, and she fights against hunger in our community. Last evening, Target Hunger, an organization that she helped found, honored her. Well deserved. Because Nellye Joyce Punch when no one was speaking about the hungry in America, she was on the front line. She was someone who worked with my predecessor Mickey Leland and as well the Honorable Barbara Jordan. She has never left the fifth ward community. She is an educator. She is known as someone whose door is always open. She and her husband are both charitable and wise, and young people always know that when Nellye Joyce Punch is around she is there to be of help.

What a great African American hero. What a great hero of America. What a great person. Nellye Joyce Punch should be honored by all of us not only this month but throughout the year.

UNETHICAL REPORTING BY NPR

(Mr. TIAHRT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TIAHRT. Mr. Speaker, today the Corporation for Public Broadcasting will testify before the Subcommittee on Labor, Health and Human Services and Education of the Committee on Appropriations. The Corporation for Public Broadcasting oversees National Public Radio. As we review National Public Radio's budget, I must express my outrage at their unethical report on the anthrax mailings.

On January 22, NPR broadcast a story linking the Traditional Values Coalition to the anthrax mailings here on Capitol Hill. There are no facts and no sources to support this charge of the NPR broadcast. Though they have since issued a correction of the story, there was no apology. I am very concerned that their previously liberal bias has transformed into an all-out attack on conservative and Christian organizations. Four people died from the anthrax mailings, and it is very serious to accuse people of that crime without any supporting facts.

Andrea Lafferty and Reverend Shelton of the Tradition Values Coalition are good friends and loving people. It is shocking that anybody could consider them capable of such a horrific act. NPR receives Federal funds, and therefore we in Congress have a responsibility to make sure that our constituents' taxpayer dollars are not misused for such malicious and unethical reporting.

COMMENDING THE WORLDCOM CLASSIC

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, I rise today to commend the charitable efforts of Worldcom Classic, the Heritage of Golf and the Heritage Golf Classic Foundation, a non-profit organization located at Hilton Head Island, South Carolina, which sponsors the annual Worldcom Classic Golf Tournament in April of each year and which generates $56 million for the hospitality industry of Beaufort County and the low country of South Carolina.

Since 1987 the Heritage Classic Foundation, chaired by Joseph B. Fraser, has given over $8.1 million to numerous charities, including noteworthy organizations such as Volunteers in Medicine of Hilton Head Island, the Shiners Hospital for Crippled Children in Greenville, Boys and Girls Club of Hilton Head Island, The Penn Center and Meals on Wheels. Also, 88 students have benefited from over half a million dollars distributed in scholarships to Beaufort County High School graduates.

Last year they donated a record amount of $1 million, surpassing the $2 million total of the prior 7 years, which goes out to the 102 charities and colleges across South Carolina.

I want to thank the tournament director, Steve Wilmot, and all those involved with Worldcom Classic, the Heritage Foundation of Golf, for their tireless efforts to support the low country of South Carolina and congratulate them on being an example to all communities of this Nation of how one group with the determination and desire to reach out and help neighbors can actually change lives and make dreams come true.

IMMORALITY OF CLONING

(Mr. PITTS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTS. Mr. Speaker, the world was amazed a few years ago when scientists in Scotland successfully cloned a sheep. Many of us wondered what was coming next. Well, in November, Advanced Cell Technology of Massachusetts announced that they had successfully cloned a human embryo. Amazingly, there are people out there who think cloning human beings is perfectly okay. Right now the U.N. is meeting to discuss a ban on what they call "reproductive cloning."

Mr. Speaker, I think we all know what a redundancy is. It means using two words that mean the same thing. Cloning is by definition reproductive. The only question is how long will the clones survive. But the pro-cloning crowd wants to create this false distinction so they can keep on cloning human beings as long as they do not grow up. In other words, they want to clone human beings as long as they are used for experimentation and then destroyed.

Mr. Speaker, this is sick and it needs to stop. The House has passed a cloning ban. America is still waiting for the other body to do the same thing so we can put a stop to this immoral and ethical science.

HONORING AMERICA'S POSTAL WORKERS

(Mr. DAVIS of Illinois asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DAVIS of Illinois. Mr. Speaker, I would like to take this opportunity to acknowledge the hard work and amazing contributions of United States postal workers who since September 11, since the anthrax scare has continued to do yeoman work in delivering the mail without any sense of stoppage. I just think that these men and women are continuously owed a debt of gratitude, and we say thanks to the American postal workers.

SAFE TRANSPORTATION OF SPENT NUCLEAR FUEL

(Mr. SHIMKUS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SHIMKUS. Mr. Speaker, I rise today to put an end to the claims from opponents of used nuclear fuel disposal who say transporting the material is unsafe. These claims have become louder since President Bush made a decision to move forward with the disposing of nuclear waste in Yucca Mountain. The truth is their concerns are misguided. You cannot argue with the fact that almost 3,000 safe shipments of used nuclear fuel have taken place without any release of radioactive material. That is right. On some 3,000 occasions used fuel has traveled by truck or rail across this country including almost 500 in my home State of Illinois. And the reason you probably have not heard about this is because not one of these shipments has threatened the environment or public safety.

States like Illinois have gone to great lengths to set up a system that will ensure safe transportation of nuclear waste through the State and across State lines. Transporting spend nuclear fuel is safe. It has been proven to be safe, and there is no reason to doubt that it will remain safe.

HONORING MICHAEL DUNCAN, JR.

(Mr. GIBBONS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GIBBONS. Mr. Speaker, it has been more than 5 months since the terrible terrorist attacks on the World Trade Center and the Pentagon. And since that fateful day, thousands of dedicated Americans have united to help build this country. Today I rise, Mr. Speaker, to recognize one of those great Americans, Mr. Michael Duncan, Jr., who was the only Nevadan deployed from the Disaster Mortuary Operational Response Team, also known as DMORT. DMORT is a Federal-level response team which provides mortuary assistance in cases of mass fatality incidents like September 11.

Unfortunately, due to the heinous acts of the terrorists, our Nation has had to call upon DMORT for assistance at Ground Zero in New York City.

Mr. Speaker, I would like today to recognize the efforts of DMORT and specifically of Mr. Michael Duncan. On behalf of a grateful Nation, I thank him for his dedicated effort to a stressful, tragic and demanding job but a job which has to be done. Mr. Duncan serves as a role model for Nevadans and for all Americans.

STALLING THE FARM BILL

(Mr. KINGSTON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KINGSTON. Mr. Speaker, several months ago back in October the House of Representatives passed a farm bill. Farm bills are important because in our food service delivery production chain, the government is very involved in the production end on the farm; and farmers cannot make planting decisions until the law for the coming year is stipulated. And one reason they cannot is they cannot borrow money to plant their crops because the banks will not lend money until they know what the farm bill says in it.

Now, because of the House of Representatives return by Republicans is responsible, we passed this many, many months ago. Unfortunately it is across the hall in a body led by the other party, and they are still sitting on it. It is sad when so many people have such a callous disregard for farmers in America and for production agriculture. We need food in this country.

The miracle of our food, to think that less than 2 percent of the population is serving 100 percent plus the world; and yet we cannot get the other body to pass the farm bill. It is ridiculous. Let us move on for the sake of farmers and for the sake of American consumers and get this thing done.

APPOINTMENT OF CONFEREES ON H.R. 3448, PUBLIC HEALTH SECURITY AND BIOTERRORISM RESPONSE ACT OF 2001

Mr. TAUZIN. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 3448) to improve the ability of the United States to prevent, prepare for, and respond to bioterrorism and other public health emergencies, with Senate amendments thereto, disagree to the Senate amendments, and agree to the conference asked by the Senate.

The SPEAKER pro tempore (Mr. SIMPSON). Is there objection to the request of the gentleman from Louisiana?

There was no objection.

MOTION TO INSTRUCT OFFERED BY MS. ESHOO

Ms. ESHOO. Mr. Speaker, I offer a motion to instruct conferees.

The Clerk read as follows:

Ms. ESHOO moves that the managers on the part of the House at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill H.R. 3448 be instructed—

(1) to work diligently to reconcile the differences between the two Houses in order to promote public health security and address potential bioterrorist threats;

(2) to recognize that Federal resources to combat bioterrorism and other public health emergencies have been increased through recent appropriations bills, to enhance preparedness and response to bioterrorism and other public health emergencies for fiscal year 2002, and that the managers on the part of the House should be careful not to disrupt or delay this much needed funding for fiscal year 2002;

(3) to recognize the pressing need to establish a national system for tracking the possession and use of deadly biological agents;

(4) to recognize the need to prioritize Federal and State resources to address potential threats to the food supply;

(5) to acknowledge the need to work with the Administration to ensure feasibility of enhanced food safety regulatory programs; and

(6) to provide for vulnerability assessments, emergency response plans, and other actions with respect to public drinking water supplies.

The SPEAKER pro tempore. The gentlewoman from California (Ms. ESHOO) will be recognized for 30 minutes and the gentleman from Louisiana (Mr. TAUZIN) will be recognized for 30 minutes.

The Chair recognizes the gentlewoman from California (Ms. ESHOO).

Ms. ESHOO. Mr. Speaker, I yield myself such time as I might consume.

Mr. Speaker, I rise this morning in support of this motion of the House bill and emphasize the need for conferees to address and quickly resolve their differences on the bioterrorism legislation.

We live in unsettling times. Our hope is that we never again experience an act of terrorism, but we have to plan and prepare to respond to further attacks. The conferees face a complex task. The bills passed by the House and Senate cover many subjects including grants to our first responders, regulation of select agents, protection of our food supply, and protection of our water systems.

The motion recognizes the need for conferees to coordinate the final legislation with ongoing efforts to support existing plans and programs. Bioterrorist threats and public health emergencies can come in many forms, in many places; and the House bill is sensitive to that fact. We want an aggressive response to this problem.

Title I of H.R. 3448 provides a funding structure that focuses resources towards first responders with a minimum of delay and with maximum efficiency. This bill is a down payment, not a full measure of what will be needed for our citizens and our community to prevent, prepare for, and respond to terrorist attacks.

Title III of H.R. 3448, the Public Health Security and Bioterrorism Response Act of 2001 which we overwhelmingly passed on December 11, 2001, establishes important new regulatory authorities for the protection of our Nation's food supply. These new authorities enable the Food and Drug Administration to allocate its limited inspection resources more effectively where they are needed the most, at the ports of entry into the United States. In addition, the bill authorizes the appropriations of new funds for increased inspections of food, the development of rapid testing technologies, and an assessment of threats for the adulteration of food.

□ 1030

Along with improving FDA's information management systems as they pertain to imported food, the bill mandates that FDA notify relevant States when it has information indicating that a shipment of food presents a threat of serious adverse health consequences and requests that such States take appropriate remedial action.

Mr. Speaker, this is a motion on which I would expect all of my colleagues would agree. The bill passed the House by a vote of 418 to 2, and I believe my colleagues are unified in their desire to pass this legislation as soon as possible, and I urge them to do that.

I would also like to add that, as we have emphasized, a good part of the legislation is built around first responders, that what they will have in their hands, the tools that they will use, represent the best of the biotechnology industry of our country, the technology industry and high technology, both of which find a home in the 14th Congressional District of California. So America's best will be placed in America's best hands as first responders. I am very proud of that, and I know that my colleagues are as well.

Mr. Speaker, I thank all of my colleagues for the work that has been done on one of the most important bills that the House of Representatives will pass.

Mr. Speaker, I reserve the balance of my time.

Mr. TAUZIN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of the motion offered by my dear friend and colleague, the gentlewoman from California (Ms. ESHOO), a valued member of the Committee on Energy and Commerce, and thank her for this motion.

This motion is obviously to instruct the conferees on H.R. 3448, the other Tauzin-Dingell bill, the Tauzin-Dingell Public Health Security and Bioterrorism Response Act; and also I want to, obviously, thank the gentleman from Michigan (Mr. DINGELL), the ranking member of the Committee on

Energy and Commerce, for again an extraordinary bipartisan effort to do what I think is something awfully important and necessary for our country.

As the gentlewoman explained, this bill came out of the Committee on Energy and Commerce in December and passed the House by 418 to 2, again a remarkable expression of the concern all Members have on both sides of the aisle for protecting America from these chemical and bioterrorism attacks. I believe that now we have to work even more diligently to reconcile the differences between our House-passed bill and the bill the Senate eventually passed in late December and go to a conference and get this bill accomplished as quickly as possible.

At its core, H.R. 3448 is about the safety and about the security of our country, a country that is now faced with profound new threats of terrorism and public health emergencies. Increasing Federal resources available to identify, to prevent, to deter and to respond to threats of bioterrorism is probably the most important thing we can do now in improving our readiness to face an enemy that is now here at home and threatens a free and prosperous society.

For fiscal year 2002 we have already addressed increasing the funding to combat bioterrorism through appropriations bills and by administrative actions. We must be careful not to disrupt or delay this very much needed funding by unnecessarily imposing substantial new requirements on the grants or the funding for fiscal year 2002. We must also enact a strong framework that combines smart, innovative policy with these additional resources to prepare our country for these bioterrorism threats, to improve our abilities to respond, as the gentlewoman said, quickly and efficiently if, in fact, those threats not only arise but are carried out as many predict al Qaeda and other members are still attempting to do.

Title I of the House-passed bill is intended to step up our preparedness and our capacity to identify and respond to these kinds of threats. The title will improve communications between and among the levels of government, public health officials, first responders, the health care providers and the facilities that must obviously take care of victims in the case of those emergencies.

As we work to reconcile the House- and Senate-passed bills, we must also enhance the controls on deadly biological agents in order to help prevent bioterrorism, establish a national database on dangerous pathogens. Even today we do not have a national system in place for tracking the possession and use of the anthrax that has already killed and injured citizens and continues to pose a threat to our national and economic security and public health and welfare, not to mention the lives of our postal workers and others in our society who are threatened by such an attack.

Title II of the House-passed bill imposes new registration requirements on all the possessors of the 36 most dangerous biological agents and toxins. It mandates tough new safety and security requirements to ensure that only legitimate scientists working in appropriate laboratory facilities can gain access to these potential weapons of mass personal destruction.

Title III of the House bill protects the food and drug supplies by increasing Food and Drug Administration resources to hire more inspectors at the border where so little of our food is inspected and by providing additional authority for the FDA to detain food and to investigate credible evidence of contamination and to improve access to records to assist in investigating any threats to our food supplies.

Finally, we must recognize the need to provide for the vulnerability assessments, emergency response plans and other actions with respect to public drinking water supplies. All of us should pay special attention to what is happening in Rome where tunnels were found and suspects arrested who had materials on hand designed to infect the water supplies of the Americans who work in our embassy there and could possibly have poisoned them and damaged them or hurt them or killed them. That single incident in Rome ought to stand as a stock warning to everyone in this country that it can happen here, too, if we are not careful.

Title IV of the House-passed bill requires a comprehensive review of the ways to detect and respond to chemical, biological, radiological contamination of drinking water, as well as ways to prevent and mitigate the effects of physical attacks upon those assets.

Again, I want to thank the gentleman from Michigan (Mr. DINGELL) and the members of the Committee on Energy and Commerce on both sides of the aisle for their tireless, extraordinary efforts to produce H.R. 3448. Once again, the House led the Senate in getting this legislation passed, but the Senate has done its job, too, now, and we need to reconcile the differences between the legislation.

I look forward to working expeditiously with the House and Senate managers to resolve those differences so this country can quickly get a strong public health security and bioterrorism-response bill to the President's desk, not just this year but hopefully by the time we conclude in another month. We ought to get this thing done not in months but in days and weeks, and we ought to put it on the President's desk so the country can have the benefit of this kind of security.

I urge my colleagues to support this motion and commend the gentlewoman for presenting it to the House.

Mr. Speaker, I reserve the balance of my time.

Ms. ESHOO. Mr. Speaker, I yield myself such time as I may consume.

I would like to congratulate the chairman of our committee for the extraordinary work that has been done on this bill and to the gentleman from Michigan (Mr. DINGELL) our ranking member.

Mr. Speaker, I yield 3 minutes to the gentlewoman from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. Mr. Speaker, I thank the gentlewoman from California (Ms. ESHOO) for her leadership on this issue and her energy on the Committee on Energy and Commerce and also on the Homeland Security Task Force.

I thank the chairman and the ranking member of this full committee and stand to support this legislation, particularly as it relates to authorizing funding to develop antidote drugs in case of attacks, grants for emergency preparedness, aid to hospitals and other health and food programs.

This bill, along with the Justice Department reauthorization bill, H.R. 2215, is expected to deal with issues of terrorism, and of course, all of us are singularly committed to fighting against terrorism but also protecting the homeland.

I am particularly gratified that this legislation will help us stockpile vaccines and drugs, strengthen public health systems and promote other efforts to defend against biological attacks. We must reconcile the Senate bill with what we are attempting to do.

What I like about this legislation is it expands the role of the Centers for Disease Control. Many of us visited the Centers for Disease Control right after the September 11 tragic incident and right after the anthrax, and we saw there was great need in reinforcing its fund, reinforcing its expanse, because it relates to the public health system and also giving it money to help restore its physical plant. This is a very important aspect of this legislation.

As the chair of the Congressional Children's Caucus, let me say how glad I am that we have established the National Task Force on Children and Terrorism and the Emergency Public Information Communications Task Force. One of the greater or silent victims of September 11 was all of the children that were impacted by terrorism.

I am interested also in the funding source, and I might raise this, I am concerned with first responders and local government. If someone comes out of local government, I am a former city council member, and I would like to make sure that those dollars get to the first responders and local governments. I know that we are dealing with block grants, and if I might put on the RECORD that it is very important that our mayors and county commissioners and those who are first responders are the ones that actually get those dollars.

I hope as we are resolving this legislation that we can assure that the ground firefighters and police and the emergency paramedics and hospitals get those dollars. As I met with those groups in my own congressional district, I can assure my colleagues that that is an important issue to us.

As I close, let me say that in my community we are establishing a biomedical center. Also, NASA is very much involved in biomedicine, and I believe we have a lot of good collaborators that can work with us on this issue, and I simply hope that, as we work together on these particular issues, we will make sure that those dollars get to those who need it.

Finally, might I say the food safety and security is extremely important. I do not know if we realize that the food supply of our farm animals even, the seed, needs to be protected, because that then generates into a potential for devastation among our population.

I rise again to ask support for this legislation, hope in conference some of my concerns will be addressed.

Mr. TAUZIN. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from Illinois (Mr. SHIMKUS) from the Committee on Energy and Commerce who played an instrumental role in fashioning the very important frame upon which H.R. 3448 was built and who will be joining us on the conference committee with the Senate.

Mr. SHIMKUS. Mr. Speaker, I thank the gentleman from Louisiana (Mr. TAUZIN) for yielding me the time. I appreciate the ranking member and this motion to recommit, and I want to associate with my colleague, the gentlewoman from Texas (Ms. JACKSON-LEE).

On Monday I met with over 150 firefighters as they tried to figure out how to competitively complete work on the fire grant acts and try to get up to snuff to be able to respond. Of great concern to them is responding to bioterrorism. And I am a Federalist, I believe in Federal responsibilities and local responsibilities, but this new world, there is something new that has emerged.

We have a responsibility if we want to rely on these people to respond to these great crises that could face our country. They have to be trained. They have to be equipped. They have to be able to be there. Because no matter, as an Army officer, no matter how we drop in a field medical office, those firefighters, those police officers, those local sheriffs are going to be there and they better be equipped and trained and be able to perform the mission, not only them but our local hospitals.

This whole health care debate and the changing from hospital rooms, I think now there is a big gap. If there is a great crisis, where are these sick people going to go? How are we going to be able to respond? So the local hospitals, the community health clinics and those things are just critical, and I know this is a way that we are going to try to wrestle out some of those problems and get a way that we can help the local responders, and I am honored to be able to serve on the conference.

I look forward to working hard.

Ms. ESHOO. Mr. Speaker, I have no further speakers; and I yield back the balance of my time.

Mr. TAUZIN. Mr. Speaker, I have no further speakers; and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. SIMPSON). Without objection, the previous question is ordered on the motion to instruct.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to instruct offered by the gentlewoman from California (Ms. ESHOO).

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. TAUZIN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion will be postponed.

□ 1045

APPOINTMENT OF CONFEREES ON H.R. 2646, FARM SECURITY ACT OF 2001

Mr. COMBEST. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 2646) to provide for the continuation of agricultural programs through fiscal year 2011, with a Senate amendment thereto, disagree to the Senate amendment, and agree to the conference asked by the Senate.

The SPEAKER pro tempore (Mr. SIMPSON). Is there objection to the request of the gentleman from Texas? The Chair hears none and, without objection, appoints the following conferees: Messrs. COMBEST, BOEHNER, GOODLATTE, POMBO, EVERETT, LUCAS of Oklahoma, CHAMBLISS, MORAN of Kansas, STENHOLM, CONDIT, PETERSON of Minnesota, DOOLEY of California, Mrs. CLAYTON and Mr. HOLDEN.

There was no objection.

The SPEAKER pro tempore. The Speaker may supplement the appointment at a future time.

MOTION TO INSTRUCT CONFEREES ON H.R. 3448, PUBLIC HEALTH SECURITY AND BIOTERRORISM RESPONSE ACT OF 2001

The SPEAKER pro tempore. The pending business is the question on the motion to instruct conferees on H.R. 3448 on which further proceedings were postponed and on which the yeas and nays were ordered.

The Clerk will redesignate the motion.

The Clerk redesignated the motion.

The SPEAKER pro tempore. The question is on the motion to instruct conferees offered by the gentlewoman from California (Ms. ESHOO).

The vote was taken by electronic device, and there were—yeas 412, nays 0, not voting 22, as follows:

☐ 1114

Mr. Jefferson changed his vote from "nay" to "yea."

So the motion to instruct was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mrs. CLAYTON. Mr. Speaker, I missed the last vote, rollcall 46. If I had been here, I would have voted "yea."

Mr. SANDLIN. Mr. Speaker, I ask that it be entered in the RECORD that if I had been present today I would have voted "yea" on rollcall No. 46, the motion to instruct conferees on H.R. 3448, the Public Health Security and Bioterrorism Response Act of 2002.

PERSONAL EXPLANATION

Mr. GILMAN. Mr. Speaker, this week, due to personal matters, I was unable to vote on rollcall No. 44. If I had been present I would have voted "no."

In addition, I was not present to vote on rollcall Nos. 39, 40, 41, 42, 43, 45, and 46. If I had been present I would have voted "yes."

The SPEAKER pro tempore (Mr. SIMPSON). Without objection, the Chair appoints the following conferees:

From the Committee on Energy and Commerce, for consideration of the House bill and the Senate amendment, and modifications committed to conferences: Messrs. TAUZIN, BILIRAKIS, GILLMOR, BURR of North Carolina, SHIMKUS, DINGELL, WAXMAN, and BROWN of Ohio.

Provided that Mr. PALLONE is appointed in lieu of Mr. BROWN of Ohio for consideration of Title IV of the House bill, and modifications committed to conference.

From the Committee on Agriculture, for consideration of Title II of the House bill and section 216 and Title V of the Senate amendment, and modifications committed to conference:

Messrs. COMBEST, LUCAS of Oklahoma, CHAMBLISS, STENHOLM and HOLDEN.

From the Committee on the Judiciary, for consideration of Title II of the House bill and sections 216 and 401 of the Senate amendment, and modifications committed to conference:

Messrs. SENSENBRENNER, SMITH of Texas, and CONYERS.

There was no objection.

LEGISLATIVE PROGRAM

(Ms. PELOSI asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. PELOSI. Mr. Speaker, I have an inquiry of the distinguished majority leader about the schedule for next week.

Mr. ARMEY. Mr. Speaker, will the gentlewoman yield?

Ms. PELOSI. I yield to the gentleman from Texas.

☐ 1115

Mr. ARMEY. Mr. Speaker, I am pleased to announce that the House has completed its legislative business for the week.

The House will next meet for legislative business on Tuesday, March 5, at 12:30 p.m. for morning hour and 2 p.m. for legislative business. The House will consider a number of measures under suspension of the rules, a list of which will be distributed to Members' offices tomorrow.

Mr. Speaker, Members should make special note that on Tuesday, recorded votes will be postponed until 6 p.m.; and that 6 p.m. is for next week only.

On Wednesday and Thursday, the House will consider the following measures subject to rules:

Networking and Information Technology Research Advancement Act; and

The Department of Justice authorization conference report, if it is available.

Mr. Speaker, I am also talking with Chairman OXLEY about the possibility of moving H.R. 2604, the Multinational Bank Reauthorization Act, next week.

I thank the gentlewoman for yielding.

Ms. PELOSI. I thank the majority leader.

I had some further questions about the schedule. Is there any Social Security legislation that will be scheduled on the floor next Tuesday or any other day next week?

Mr. ARMEY. I thank the gentlewoman for that inquiry.

At this point, I see no legislation on that subject that would be available for the floor next week.

Ms. PELOSI. It is my understanding that the Committee on Ways and Means today is holding hearings on Social Security certificates legislation. When would that legislation be expected to come to the floor?

Mr. ARMEY. Again I thank the gentlewoman for her inquiry.

I do know that the hearings were held today, but I have not been requested to provide floor time to the committee for any pending legislation.

Ms. PELOSI. Mr. Leader, once again I am disappointed that there is no legislation addressing unemployment assistance. We all know that there is an urgent need for that.

Will we be appointing conferees on that legislation next week? If so, when might that occur?

Mr. ARMEY. Again let me thank the gentlewoman for the inquiry.

The Speaker and I have spoken about this only briefly, but at this point he has not asked me to schedule any appointment of conferees.

Ms. PELOSI. I find that disappointing because, as the gentleman knows, we have people who are suffering in our country. We passed the airline bailout bill in a matter of days of September 11, and that was appropriate. We should have at that time passed unemployment benefits for those who are affected by September 11. Now we are 6 months later, and we still do not have the conferees appointed.

Mr. ARMEY. If the gentlewoman will yield, and I do appreciate her concern. In fact, we, too, share this concern. The frustration that she feels is felt over here, too. Having passed unemployment insurance extensions three times through this body to the other body and having seen such a disappointing response by the other body, we do understand her concern and we are hopeful that we can work this out as well as opportunities to go back to work for most of these people.

Ms. PELOSI. I appreciate the majority leader saying that, Mr. Speaker, because the American people expect and deserve for this Congress, in this House for us to work together in a bipartisan way to bring the same relief to the American workers affected by September 11 as we did to bail out the airline industry only a few days after September 11, as I mentioned.

Mr. Speaker, on the question of the schedule, as the gentleman knows, there are primaries beginning this spring. We have our own this Tuesday in California. Will there be any change in the vote schedule on Tuesdays with the primaries?

Mr. ARMEY. Again I thank the gentlewoman for the inquiry.

I know that, in fact, just a week later, we will have ours in Texas. Primary season this year does generally fall on Tuesdays. Unfortunately, it is our need to convene the body for work on Tuesdays. We try to have the votes later in the evening so that Members hopefully would be able to vote in their States in the mornings and return. It is a difficulty for California, but I believe we have done the best we can in terms of our accommodation for next week.

Ms. PELOSI. Mr. Leader, I assume that I should not take it personally that on the day of the California primary you have made the votes earlier rather than later.

Mr. ARMEY. I thank the gentlewoman for the inquiry; but let me just say that this body, as the Nation, admires and respects California and can only hope for the best for your great State.

Ms. PELOSI. I am certain of that. I thank the gentleman for the information.

ADJOURNMENT TO MONDAY, MARCH 4, 2002

Mr. ARMEY. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at 2 p.m. on Monday next.

The SPEAKER pro tempore (Mr. SWEENEY). Is there objection to the request of the gentleman from Texas?

There was no objection.

HOUR OF MEETING ON TUESDAY, MARCH 5, 2002

Mr. ARMEY. Mr. Speaker, I ask unanimous consent that when the House adjourns on Monday March 4, 2002, it adjourn to meet at 12:30 p.m. on Tuesday, March 5, for morning hour debates.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

DISPENSING WITH CALENDAR WEDNESDAY BUSINESS ON WEDNESDAY NEXT

Mr. ARMEY. Mr. Speaker, I ask unanimous consent that the business in order under the Calendar Wednesday rule be dispensed with on Wednesday next.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

EXTENDING CONGRATULATIONS AND BEST WISHES TO JOE YANCEY

Mr. ARMEY. Mr. Speaker, I ask unanimous consent that this body join me in extending congratulations and best wishes to Mr. Joe Yancey on this very special day in his life.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

RECOGNIZING CIVIL AIR PATROL FOR 60 YEARS OF SERVICE TO UNITED STATES

Mr. SENSENBRENNER. Mr. Speaker, I ask unanimous consent that the Committee on the Judiciary be discharged from further consideration of the concurrent resolution (H. Con. Res. 311) recognizing the Civil Air Patrol for 60 years of service to the United States, and ask for its immediate consideration in the House.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

Mr. HASTINGS of Florida. Mr. Speaker, reserving the right to object, I would like to begin in great sincerity by thanking the gentleman from Wisconsin (Mr. SENSENBRENNER) and the gentleman from Michigan (Mr. CONYERS), the chairman and ranking member of the Committee on the Judiciary, for allowing this resolution to be brought to the floor. Their stewardship of that distinguished committee is an inspiration to me, and I appreciate their taking the time to review my request on such short notice. The 60th anniversary gala of the Civil Air Patrol is being held here in Washington, D.C., this Saturday evening; so, honestly, their diligence in steering this resolution through the committee is timely indeed.

In 1938 as the winds of war began to stir over Europe and East Asia, a group of concerned American pilots began to advocate for the creation of a civilian air defense. Their concerns about American involvement in the coming world conflict proved to be prophetic. The Civil Air Patrol, commonly known as CAP, was organized on December 1, 1941, 6 days before the attack on Pearl Harbor.

Over the course of the Second World War, CAP volunteers would log more than 500,000 flying hours performing coastal patrols to search for enemy submarines, search and rescue missions, and cargo and courier flights for military personnel. Their efforts freed countless Army Air Corps enlistees to fight at the front and contributed greatly to homeland defense. Several historical sources suggest that the CAP coastal patrol rid the Atlantic coast of German U-boats by 1943.

With the end of hostilities, CAP's responsibilities grew. In 1946, CAP was incorporated as a benevolent, nonprofit organization. Two years later, it became an auxiliary of the newly created United States Air Force. For the next 54 years, CAP would mobilize its resources to fulfill its congressionally mandated mission of providing aerospace education, cadet programs, and emergency services to the American public.

It has performed this mission with distinction. The CAP cadet program has trained more than 750,000 youths in leadership and life skills over the past 60 years. During that same period, CAP pilots have flown over 1 million hours on search and rescue missions, saving hundreds of lives. In 1951, CAP initiated its aerospace education program which has since trained more than 300,000 teachers in math and science as they relate to aviation. These teachers have, in turn, taught over 18 million students. Since 1986, CAP has cooperated with the United States Air Force, the U.S. Customs Service, the Drug Enforcement Administration, and the United States Forest Service to stem the flow of illegal drugs into our country. Together with these agencies, it has assisted in the confiscation or eradication of billions of dollars of illegal drugs. Today, CAP is stronger than ever, boasting a membership of 60,000 individuals and a fleet of over 500 airplanes.

In offering this resolution, I implore my colleagues to award the Civil Air Patrol the honor it is due for its untiring service to the Nation. To the members of the Civil Air Patrol, I say happy 60th birthday. I wish you, at the very least, 60 more.

Mr. SENSENBRENNER. Mr. Speaker, will the gentleman yield?

Mr. HASTINGS of Florida. I yield to the gentleman from Wisconsin.

Mr. SENSENBRENNER. I thank the gentleman from Florida for yielding.

Mr. Speaker, I also support H. Con. Res. 311, recognizing the Civil Air Patrol for 60 years of distinguished service to the United States.

Mr. Speaker, the Civil Air Patrol was established on December 1, 1941, days before the attack on Pearl Harbor. Today it provides an important service to our country by performing search and rescue missions, assisting law enforcement with antidrug operations, and helping the FAA to monitor airports.

The Civil Air Patrol deserves our support, praise, and thanks. With this concurrent resolution, we recognize it for the important role it has played in our Nation.

Mr. HASTINGS of Florida. Mr. Speaker, again I thank Chairman SENSENBRENNER for his great help.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The Clerk read the concurrent resolution, as follows:

H. CON. RES. 311

Whereas the Civil Air Patrol was established on December 1, 1941, in the Office of Civilian Defense;

Whereas during World War II the volunteer units of the Civil Air Patrol conducted search and rescue missions, provided air transportation for military personnel and cargo, towed targets for the training of Army Air Corps gunners, and patrolled the coasts of the United States searching for enemy submarines;

Whereas by the end of World War II the Civil Air Patrol had flown more than 500,000 hours, sunk 2 German U-boats, and saved hundreds of crash victims;

Whereas on July 1, 1946, the Civil Air Patrol was chartered by the United States as a nonprofit, benevolent corporation;

Whereas on May 26, 1948, the Civil Air Patrol was permanently established as a volunteer auxiliary of the United States Air Force;

Whereas since 1942 the cadet programs of the Civil Air Patrol have trained approximately 750,000 youth, providing them with leadership and life skills;

Whereas since 1942 the Civil Air Patrol has flown more than 1,000,000 hours of search and rescue missions, saving several thousand lives; and

Whereas since 1951 the aerospace education programs of the Civil Air Patrol have provided training and educational materials to more than 300,000 teachers, who have educated more than 8,000,000 students about aerospace: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That Congress recognizes the Civil Air Patrol for 60 years of service to the United States.

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. SENSENBRENNER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and to include extraneous material on the subject of House Concurrent Resolution 311 just adopted.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

RECOGNIZING SIGNIFICANCE OF BLACK HISTORY MONTH

Mrs. JO ANN DAVIS of Virginia. Mr. Speaker, I ask unanimous consent that the Committee on Government Reform be discharged from further consideration of the concurrent resolution (H. Con. Res. 335) recognizing the significance of Black History Month and the contributions of black Americans as a significant part of the history, progress, and heritage of the United States, and ask for its immediate consideration.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Virginia?

Mr. DAVIS of Illinois. Mr. Speaker, reserving the right to object, and I will not object, I yield to the gentlewoman from Virginia (Mrs. JO ANN DAVIS) to explain the concurrent resolution.

Mrs. JO ANN DAVIS of Virginia. Mr. Speaker, House Concurrent Resolution 335 expresses the sense of Congress that the contributions of black Americans are a significant part of the history, progress, and heritage of the United States and that the ethnic and racial diversity of the United States enriches and strengthens the Nation.

Mr. Speaker, I rise today in honor and acknowledgment of Black History Month, a great tradition honoring and celebrating black Americans. This 74-year tradition seeks to broaden our vision of the world, the legacy of black Americans in our Nation's history, and their role in our Nation's future. I commend the distinguished gentleman from Oklahoma (Mr. WATTS) for introducing this important piece of legislation.

Mr. Speaker, the first black Americans were brought to these shores as early as the 17th century. These black Americans and subsequent generations were enslaved and brought to America against their free will. Despite this setback, early black Americans made their mark in the economic, educational, political, artistic, literary, scientific, and technological advancement of the United States. Black Americans have also contributed to protecting the Nation's security and freedom through service in the Armed Forces. In addition, they have built many of the Nation's strongest faith-based institutions which serve the Nation's poorest citizens, strengthen the Nation's moral code, and uplift its spirits.

Mr. Speaker, it is important that we stand today and recognize the achievements of black Americans. Their heritage and history are invaluable learning tools to the people of our great Nation. I thank the gentleman for yielding.

Mr. DAVIS of Illinois. Mr. Speaker, reclaiming my time, when I think of this bill, which was introduced by the gentleman from Oklahoma (Mr. WATTS), I think of the words of Langston Hughes, the African-American poet, who stated:

"O, let America be America again.
The land that never has been yet
And yet must be.
The land where every man is free.
The land that's mine—
The poor man's, Indian's, Negro's, me—
Who made America,
Whose sweat and blood,
Whose faith and pain,
Whose hand at the foundry,
Whose plow in the rain,
Must bring back our mighty dream again."

□ 1130

That is from "Let America be America Again." Those eloquent words of celebrated African American poet and writer Langston Hughes resound today as we celebrate Black History Month and as we discuss this resolution recognizing the significance of Black History Month.

On February 1, 2002, Mr. Hughes joined the other 24 prominent African Americans distinguished by having a stamp issued in their honor as part of the U.S. Postal Service's Black Heritage Stamp service.

There was certainly a time in our not-too-distant past when this would have been unthinkable, issuing stamps depicting prominent African Americans. Indeed, this was the case in February 1926 when renowned African American educator Carter G. Woodson, founder of the Association for the Study of African American History and Life, designated a week in February coinciding with the birthdays of two great Americans, Frederick Douglass and Abraham Lincoln, as Negro History Week. Mr. Woodson hoped that the contributions of African Americans would be studied as integral to our shared American history. Fifty years later, in 1976, the observance was expanded to embrace the entire month of February, and here we are today commemorating yet another Black History Month.

In 1926, the landscape in this country for African Americans was demonstrably different than it is today. At that time, "separate but equal," a doctrine that afforded Black Americans second-class citizenship, was the law of the land, although an immoral one.

Through the heroic efforts of many Americans of all races, legalized discrimination became a thing of the past. This body passed landmark legislation, most notably the Civil Rights Act of 1964 and Voting Rights Act of 1965. However, the story of racial discrimination did not end in 1965.

Here we are in 2002, and the theme for this year's observance of Black History Month is most appropriately timed: "The color line revisited: Is racism dead?" The answer obviously is a resounding "no."

One only needs to read the newspapers from around the country every day to see that racism is not dead. New York Times, January 15: "New Jersey troopers avoid jail in case that highlighted profiling."

Chicago Tribune, January 21: "Racial profiling is bad policing."

Detroit Free Press, January 11: "Black Arab-American leaders assail racial profiling."

Denver Post, November 28, 2001: "Hispanics, Blacks, get searched more."

Dallas Morning News, January 2, 2002: "Racial profiling ban takes effect."

I could go on and on and on; but African Americans, despite our robust laws, face a daily dosage of humiliation as the result of racism. Thousands of African Americans and other racial and ethnic minorities have been the victims of racial, ethnic or national origin profiling; targeted, identified, stopped, questioned and searched by law enforcement officials under the guise of committing a crime, when in reality their only crime was the color of their skin or their country of origin.

Young black men are particularly prone to DWB, driving while black. Since September 11, law-abiding Arab-American citizens have been targeted for profiling by law enforcement officials. Racial profiling violates the equal protection provisions of our great Constitution. Not only is it un-American, it is also bad law enforcement.

Salim Muwakkil, in the Chicago Tribune, wrote about University of Toledo law professor David A. Harris' new book, "Profiles in Injustice: Why Racial Profiling Cannot Work." Harris' book, for the first time, compared all of the available data on racial profiling with relevant crime statistics and makes clear that the "hit rate," the rate at which police actually find contraband on people they stop in racial profiling, is actually lower for blacks than for whites. The hit rate for Latinos is much lower than for either.

In 2001, a Department of Justice report came to the same conclusion. Wade Henderson, executive director of the Leadership Conference on Civil Rights said, "Most Americans think that the most blatant forms of discrimination and segregation have ended, that we are dealing now with a much more complex, often more subtle form of discrimination. Yet incidents like the ones we are discussing now seem to belie the point. They seem to suggest that even the more blatant forms of discrimination, though not as institutionalized as they once were, are still occurring, and I think stand in mockery of the perception that America has become a color-blind nation."

Since June of last year, the End Racial Profiling Act of 2001 has been pending in our esteemed institution. This 107th Congress could put an end to racial profiling by passing this act and sending it to the President for signature. Then we would really be celebrating Black History Month 2002.

So I end, Mr. Speaker, as I began. "O, let America be America again; the land that never has been yet and must be; the land where every man is free."

I urge my colleagues to support this resolution.

Mr. Speaker, further reserving the right to object, I am pleased to yield to the gentleman from Oklahoma (Mr. WATTS).

Mr. WATTS of Oklahoma. Mr. Speaker, I rise today in celebration of Black History Month. Since 1976, each year during the month of February, Black History Month is celebrated across the Nation.

The origins of Black History Month are dated back to 1976 when, as the gentleman from Illinois (Mr. DAVIS) said, Dr. Carter G. Woodson, an American of African descent who was an educator and historian, set aside a special period of time in the month of February which began as Negro History Week, to recognize the heritage, the achievements and contributions of Americans of African descent to our great Nation.

When you consider that Abraham Lincoln, the Great Emancipator, is celebrated during February, it is only appropriate that those people whom he freed more than a century ago be celebrated during this month as well.

However, although February is officially recognized as Black History Month, we should celebrate black history throughout the entire year. This is a magnificent opportunity for everyone, red, yellow, brown, black and white, to learn about their own history.

After all, black history is American history. Rising from the horrors and brutality of slave roots, Americans of African descent are the epitome of strength and endurance, perseverance, intellect and creativity.

Throughout America's history, Americans of African descent have consistently served as a catalyst for change and progress. The innumerable struggles and successes of the African American people have made it possible for all Americans to enjoy and share the same civil rights and privileges which we all hold so dear: freedom, liberty, and equality.

It is impossible to imagine our world without the contributions of Americans of African descent. Americans of African descent have played an integral role in building this country and making it the superpower that we all know it to be today. From helping to fight the Civil War, to constructing America's most prominent addresses, the United States Capitol and the White House, as well as making some of the most important discoveries and inventions that to this day still influence every aspect of our lives, be it economics, politics, language, art, technology, food or music, Americans of African descent have made an extraordinary and indelible mark on American culture.

No one chooses to be born red, yellow, brown, black or white. Rather, the good Lord above makes that decision. And if it is good enough for God, it should be good enough for all of us; and it is surely good enough for me.

Therefore, I challenge each and every one of us who are gathered here today and all Americans to celebrate black history and the many different cultures that constitute this place that we all call home and the rest of the world calls America. After all, our diversity is our strength.

Mr. DAVIS of Illinois. Mr. Speaker, continuing my reservation, I urge passage of this resolution.

Mr. LANGEVIN. Mr. Speaker, today marks the end of Black History Month, a time when we are reminded of the great contributions of African-Americans to our Nation. Rhode Island has a proud history of African-American accomplishments ranging from the heroic deeds of the Black Regiment, which fought under General Nathaniel Greene during the American Revolution, to Ruth Simmons who, as president of Brown University, is the first African-American to head an Ivy League institution.

Last month, I met with civil rights leaders from Rhode Island to discuss the work of Rev. Martin Luther King, Jr., and how we are still working to keep alive his vision for America. While we have made great strides since Dr. King's death, we have much more to accomplish. Throughout my service as a public official, I have met far too often with people with no access to affordable health care, housing, or even quality education for their children, and who fear for the safety of their loved ones because of gun violence. Congress must have the courage to address these problems immediately and promote efforts to improve the lives of all Americans.

We cannot tolerate violence and crimes that target a victim's race, religion, gender, sexual orientation, or disability. We must demand affordable health care and housing. We must support equal pay for equal work. And we must defend affirmative action in order to provide greater opportunities to minority students, workers, and business owners.

When accepting his Nobel Peace Prize Reverend King said, "I have the audacity to believe that peoples everywhere can have three meals a day for their bodies, education and culture for their minds, and dignity, equality and freedom for their spirits." I challenge all of us to share Dr. King's audacity and to continue fighting for an America that offers equality for all.

Mr. GILMAN. Mr. Speaker, I rise to honor the many achievements of African-Americans this February 2002, Black History Month.

The first Black History Month took place in 1926, when Carter G. Woodson chose the second week in February, a week that includes the birthdays of Abraham Lincoln and

Frederick Douglass, to honor the contributions of African-Americans.

The rich history of African-Americans reflects the challenges our Nation has faced, the diversity of our people, and the bright future ahead. Throughout our history, African-Americans have bravely fought for the freedoms we hold dear. The first American to lose his life in the American Revolution was a free black man named Crispus Attucks and, posing as a double agent, a slave, James Armistead, a slave, received permission to enlist in the Army under French General Marquis de LaFayette, providing the Americans with crucial information about British naval support.

During the 19th century, many African-Americans joined the abolitionist movement, fighting against the injustices of slavery. We remember the bravery of Frederick Douglass, Harriet Tubman, and Sojourner Truth who stood for the principles of freedom and equality.

The 20th century has also known many achievements of African-Americans. In New York a remarkable period of literary creativity in the 1920s and 1930s came to be known as the Harlem Rennaissance. Among the notable writers of this era were Langston Hughes, Claude McKay, and poet James Weldon Johnson. In sports, while fans will remember Jackie Robinson's talents in fielding, hitting, and base running, it was his bravery in breaking the color barrier that paved the way for many great athletes.

In our mutual struggle for civil rights, our Nation has reaped the benefits of dedicated African-Americans. We must never forget the life, message, and many achievements of Dr. Martin Luther King, Jr., whose efforts paved the way for the revolutionary legislation of the 1960s. In addition we remember the bravery of Ms. Rosa Parks, who as a young woman, stood to end discrimination on a bus in Alabama and ignited change throughout our Nation.

Our society has come a long way. Today, many African-Americans serve in this body and in the President's Cabinet. President Bush recently stated that "Nobody can understand this country without understanding the African-American experience. It began when America began."

Mr. Speaker, too often, people think of Black History Month as a time for African-Americans to reflect and celebrate their rich history. However, this is a time for us all to recognize the significant contributions of African-Americans, to reflect upon the struggle to end slavery and to extend civil rights to all, and to reinvigorate our efforts to end prejudice throughout our Nation and our world.

I am pleased to join my colleagues and all Americans in expressing appreciation for the contributions African-Americans have made to our Nation this Black History Month.

Mr. DAVIS of Illinois. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore (Mr. Sweeney). Is there objection to the request of the gentlewoman from Virginia?

There was no objection.

The Clerk read the concurrent resolution, as follows:

H. Con. Res. 335

Whereas the first Black Americans were brought to these shores as early as the 17th century;

Whereas these first Black Americans and subsequent generations were enslaved and brought to America against their free will;

Whereas, despite this enslavement, early Black Americans made significant contributions to the economic, educational, political, artistic, literary, scientific, and technological advancement of the United States;

Whereas many of these enslaved Black Americans fought and died in the Revolutionary War and the Civil War;

Whereas, despite official and social discrimination, subsequent generations of Black Americans have continued to build on these early contributions and continue to make important advancements in politics, business, culture, education, art, literature, science, and technology;

Whereas Black Americans have worked consistently and arduously to strengthen the Constitutional values of freedom, liberty, and equality;

Whereas Black Americans have disproportionately contributed to protecting the Nation's security and freedom through service in the Armed Forces;

Whereas Black Americans have built many of the Nation's strongest faith-based institutions which serve the Nation's poorest citizens, strengthen the Nation's moral core, and uplift its spirit; and

Whereas the month of February is officially celebrated as Black History Month, which dates back to 1926, when Dr. Carter G. Woodson set aside a special period of time in February to recognize the heritage and achievements of Black Americans: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That—

(1) Congress recognizes the significance of Black History Month, an important time to recognize the contributions of Black Americans in the Nation's history, and encourages the continued celebration of this month to provide an opportunity for all people of the United States to learn more about the past and to better understand the experiences that have shaped the Nation; and

(2) it is the sense of Congress that—

(A) the contributions of Black Americans are a significant part of the history, progress, and heritage of the United States; and

(B) the ethnic and racial diversity of the United States enriches and strengthens the Nation.

The concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mrs. JO ANN DAVIS of Virginia. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H. Con. Res. 335.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Virginia?

There was no objection.

COMMENDING THE WINNERS OF THE ROSA PARKS ESSAY CONTEST HELD IN INDIANA'S TENTH CONGRESSIONAL DISTRICT.

(Ms. Carson of Indiana asked and was given permission to address the House for 1 minute and to revise and extend her remarks and include therein extraneous material.)

Ms. CARSON of Indiana. Mr. Speaker, as we celebrate Black History Month, I rise to commend the six winners of the Rosa Parks Essay Contest held in Indianapolis' Tenth Congressional District conducted by my office in conjunction with the recent movie premier of "Ride to Freedom, the Rosa Parks Story."

I challenged the students of the Indianapolis public schools to write essays discussing the difference Rosa Parks made in the world and the difference they can make in their own lives. This competition was opened to students in grades 6 through 12. The six winners received two tickets to attend the movie premier of the "Ride to Freedom," as well as a replication of the Rosa Parks Congressional Gold Medal.

The winners were selected by my Congressional Youth Caucus: April Johnson and Ashlee Johnson, Arlington high school; Gabrielle Hayes and Alicia Henderson, both eight grade students at the Sidener Learning Community; Heather Sweigart and Tiffany Thompson, both 7th grade students at John Marshall Middle School.

One of the winners wrote, "Rosa Parks is a leader and fighter for her beliefs," and that is what she wants to be. "We must stand up for what is right, no matter what the cost. In the end we will live safer, longer, and better . . ."

Mr. Speaker, I include copies of the essays by the winners for the Congressional Record.

The essays referred to are as follows:

(By Tiffany Thompson)

Rosa Parks was born in 1913, grew up in Montgomery, Alabama, where racism, segregation, and insults were a daily part of her life. She didn't care so she did it in her own way. For example, she would take the stairs instead of the elevators marked "color" elevators. Rosa grew up in a bad environment that is probably why it became more active in the civil rights movement. Rosa graduated from Alabama State College, and she worked as a housekeeper.

On December 1, 1955 after a long day at work pressing shirts, Parks was too tired to go all the way to the back so she sat in the section where blacks weren't supposed to sit but if a white person wasn't there they could. Parks and three other black women were sitting in the same section. When a white person got on the bus the three women went to the back but Rosa refused because she was too tired of work and racism. Then the Montgomery Boycott started. After refusing to move, Parks was arrested. She could have just paid a fine instead she chose to fight for her rights as well as others, and with the support of her family, she won, she took a stand that America will never forget.

What I am doing to help the community, first of all, at church we are donating shoes, clothes, food, and other things to the shelters and poor people. Second, we are giving money to help the people in New York, who don't have homes and have lost family members. Last, we are helping the community by all the kids who need help and who need families. In conclusion, this is how me and my church are helping the community.

"THE WOMAN WHO MADE A DIFFERENCE"

(By Heather Sweigart)

The things that Rosa Parks made a difference in her community. First of all, she was active in the Montgomery Voters League and the NAACP (National Association for the Advancement of Colored People) Youth Council. She was secretary of the Montgomery branch of the NAACP. On the other hand, Rosa also worked as a fundraiser for the NAACP. Rosa founded the Rosa and Raymond Parks Institute for Self-Development in 1987. The institute for self-development was for offering guidance to young blacks. That is how Rosa Parks made a difference.

These are the things that I do to make a difference. First, I help other people and volunteer for things during and after school. Right now at school, I'm helping do the yearbook and newspaper. I'm also helping Mrs. Hastings teach some people how to play volleyball. Most of the time, I'm helping people do math, reading, and s. studies homework. I like to help people by giving them my opinion on how to draw something, too. In conclusion, I volunteer during and after school, I help do yearbook and newspaper, help Mrs. Hastings teach volleyball, help people do different homework papers, and give opinion on drawings, that's how I make a difference.

(By Gabrielle Hayes)

Rosa Parks made a big impact on the people in America, she made her mark around the world. Her act of refusing to give up a seat started change in race relations and transportation. Back then, blacks were to sit in the back of the bus. She worked very hard and she was tired. Now you can sit anywhere you want on the buses. Rosa Parks is a leader and fighter for her beliefs. She never compromised what she thought was right. Although she had some personal tragedies in her life, she never showed any signs of loneliness. She is an icon all over the world for Civil Rights. She makes everyone around her do their best. When she was a young woman she worked as a seamstress. She had lost everything she worked hard for when she refused to go to the back of the bus.

I can do some good for my community by getting an education and remaining drug free. I can be a role model for my younger brother and sisters. We must stand up for what is right no matter what the cost. In the end we will live safer, longer, and better as imitators of Rosa Parks. Who knows someone some day may remember Gabrielle Hayes for making a difference in Indianapolis.

(By Alicia Henderson)

The influence of Rosa Parks on the world community started by her refusal to give up a seat. That one refusal changed public transportation. She started a movement that demanded change with the way things were run. Her hard work and dedication to help the fight for civil rights established her as a firm believer in nonviolence. Parks fought for civil rights even though she herself was suffering terrible personal losses. The lives of her brother, husband, and mother were claimed by cancer. Although going through much pain she never let it show. Through many personal battles she never lost sight of the purpose she set out to fulfill.

What Rosa Parks does shows the true power of one person. Confidence, strong-will and perseverance make her an outstanding leader and role model; she has qualities that not many people have. She embodies the spirit of what one can do if she sets her mind to it. A small step can go a long way toward making a dream come alive.

Rosa Parks is an inspiring person. She helps young people like me realize that the small things we do can add to a greater cause. I, as one person, can help by making sure my generation doesn't forget what people like Rosa Parks did to ensure that African Americans of future generations can live the dream.

(By Ashlee Johnson)

Rosa Parks was a nice and respectful black woman. She made a big difference in this world by standing up for herself. Mrs. Parks influenced others to stand up for themselves by not letting people run over them. The details behind Mrs. Parks standing up for herself is that one day Mrs. Parks had just had a hard and tired day, just like anybody else that works. So Rosa decided to ride the bus home.

Now back in 1955 black people were to sit in the back of the bus, and white people were to sit in the front of the bus. But if there were not enough seats for the white people, the black people were to stand up so the white people could be seated. It just so happened that Mrs. Parks was that black person that was suppose to stand up for the white person, but she did not let anyone disrespect her, and she did not disrespect them either. She just simply told them in a soft toned voice, "I'm not moving." In conclusion by Rosa Parks doing this, she made a big difference in the world. She influenced them to stand up for themselves.

A difference that I can make in this world for people in general is that I can get people to stop judging people by the way they look. I can influence them to stop saying, "Ohh, girl look at her, she know she look stinky." Instead of just laughing it off, I could say, "What if that was you? You would not want anyone to talk about you. Would you?" To sum it up, this is how I could make a difference in the world.

(By April Johnson)

Rosa Parks made a big difference. Rosa Parks stood up for what she believed and took a stand. She made people more confident and she influenced people to stand up for their rights. Rosa did what any ordinary person could do.

I believe in myself and I believe I could make the same difference. I would stand up for what is right and be my own person. I would demand justice for blacks. I would try to succeed and do what no other black has ever done. I would try to make a difference step by step. I would make a difference on racism and segregation. These are a couple of differences I would make. I like to work hard and make my family proud of me. I will accomplish great deeds in the future and be remembered as an honorable young lady. I will make it so minorities have the same rights as white people. I will try to stop criticism and violence. These are a couple of differences I would try to make.

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 3, 2001, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

HONOR THE FALLEN

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Virginia (Mrs. JO ANN DAVIS) is recognized for 5 minutes.

Mrs. JO ANN DAVIS of Virginia. Mr. Speaker, last session I was joined by my colleagues in honoring those who lost their lives or are still missing as a result of the September 11 terrorist attacks upon America by reading their names on the House floor and having them entered into the CONGRESSIONAL RECORD.

Today I would like to again take up the effort to pay tribute and honor the fallen who perished as a result of the attacks on September 11, 2001. This list of over 3,000 names is comprised of many of the victims of the recent horrific attacks on our Nation, including firefighters and policemen who willingly gave their lives in an attempt to rescue others. I intend to read these names for as many days as it takes to bring honor and recognition to those individuals who lost their lives or are still missing.

Mr. Speaker, I encourage my colleagues to call my office to obtain the alphabetical list we are utilizing for this effort, and to join me in this worthy cause.

Mark Petrocelli, Matthew Petterno; Philip S. Petti; Glen K. Pettit; Dominick A. Pezzulo; Kaleen E. Pezzuti; Kevin Pfeifer; Tu-Anh Pham; Kenneth Phelan; Eugenia Piantieri; Ludwig J. Picarro; Matthew Picerno; Joseph Pick; Christopher Pickford; Dennis Pierce; Bernard T. Pietronico; Nicholas P. Pietrunti; Susan Elizabeth Pinto; Joseph Piskadlo; Christopher Todd Pitman; Josh Piver; Robert R. Ploger; Zandra Ploger; Joseph Plumitallo; John M. Pocher; William H. Pohlmann; Laurence M. Polatsch; Thomas H. Polhemus; Steve Pollicino; Susan Pollio; Darin Howard Pontell; Eric Thomas Popiteau; Joshua Poptean; Giovanna Porras; Anthony Portillo; James Edward Potorti; Daphne Pouletsos; Richard Poulos; Stephen E. Poulos; Shawn Edward Powell; Scott Powell; Brandon Jerome Powell; Tony Pratt; Gregory M. Preziose; Wanda Astol Prince; Vincent Princiotta; Kevin M. Prior; Everett Martin "Marty" Proctor, III; Carrie B. Progen; David Lee Pruim; Richard Prunty; John F. Puckett; Robert D. Pugliese; Edward F. Pullis; Patricia Ann Puma; Jack Punches; Sonia Morales Puopolo; Joseph John Pycior, Jr.; Edward Richard Pykon; Christopher Quackenbush.

□ 1145

Mr. Speaker, I ask again that the families forgive me if I have mispronounced any of the names, but we do this to honor those who gave their lives. Again, Mr. Speaker, I ask that my colleagues join me in this worthy endeavor.

TEN COMMANDMENTS SHOULD REMAIN ON PUBLIC BUILDINGS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Indiana (Mr. PENCE) is recognized for 5 minutes.

Mr. PENCE. Mr. Speaker, we are told that "there is a time for everything and a season for every activity under heaven." At this time in our Nation's history, it is undeniable that citizens have found a newfound interest in spiritual things. And until 2 days ago, the Supreme Court was poised to hear a case from my home State of Indiana that was driven by, I believe, this newfound interest in the permanent things in our lives.

Indiana Governor Frank O'Bannan had asked to have the Ten Commandments posted on the lawn of the Indiana State House. It was the governor's purpose to replace a plaque that had been there for decades, Mr. Speaker. It had been desecrated and destroyed by vandals. But on Tuesday of this week, the Supreme Court of the United States of America refused to take the case.

In a similar case in the city of Richmond, Indiana, in my own district, the county government has been sued by the local civil liberties union. The plaintiff in the case has requested that Wayne County, Indiana, remove the Ten Commandments from the courthouse lawn, commandments that have stood, Mr. Speaker, on the lawn of the Wayne County courthouse for over 4 decades.

Lawsuits like this are being brought before courts across the country. As I have said, Mr. Speaker, these cases come at a unique time in our Nation's history. I am greatly disappointed that the Supreme Court has refused to hear this case at such a time as this. Not only are these lawsuits to remove the Ten Commandments from our Nation's public buildings based on a flawed reading of the U.S. Constitution, but I assert it also reveals a profound misunderstanding of the foundations of our national government.

The first amendment to the Constitution reads, as we all know, that "Congress shall make no law respecting an establishment of religion or prohibiting the free exercise thereof." As scholars and average citizens know, until the 1960s, most Americans understood this to be the Establishment Clause. It was intended to allow Americans to worship freely and prevented the Federal Government from creating any official religion. The Establishment Clause was interpreted again and again by the Supreme Court to be a requirement that we as Americans accommodate in the public square the fact that we are, as one court wrote a "deeply religious peoples whose institutions presuppose a supreme being." In fact, on the very walls of this Chamber that read, in my presence, the phrase, "In God We Trust," on the very walls of the United States Supreme Court hang the Ten Commandments themselves, this is proven out.

Beginning with the Supreme Court's decision in Everson v. Board of Education, our courts have reinterpreted the meaning of the Establishment Clause, and now many Americans believe the phrase, "wall of separation of church and State" actually appears in our Constitution.

Chief Justice William Rehnquist said, and I am quoting now, "There is simply no historical foundation for the proposition that the Framers intended to build a 'wall of separation'" as expressed in the Everson case. "The 'wall of separation' between church and State is a metaphor based," the Chief Justice said, "on bad history, a metaphor which has proved useless as a guide to judging."

With the phrase "bad history," the Chief Justice points out, perhaps the greatest problems with those like the civil liberty lawyers who would remove all vestiges of religion from public life, a lack of understanding about the foundations of our Nation and our national laws. As I said, Mr. Speaker, the reality is that as evidenced on these walls, as evidenced as I look up in this Chamber and am looked down upon by the very gaze and likeness of Moses himself, the reality is that the Ten Commandments represent not just the cornerstone of the three great religions of planet Earth, but also they are the inconvenient cornerstone of western civilization. They are, however inconvenient to the modernists and the liberals of our day, they are the cornerstone of our moral and legal and governmental institutions in Western Civilization.

So for the court to have missed an opportunity this week to reframe our constitutional law to once again accommodate the religious expression of good people, the good people of Indiana, the good people of Wayne County, Indiana, is deeply saddening to me and to many millions of Americans.

Therefore, next week, Mr. Speaker, I will do what I can in this Chamber to reset the legal dial to join this national debate. I will introduce legislation known as the Ten Commandments Defense Act that will allow States to determine the appropriate display of this inconvenient cornerstone of Western Civilization.

TRIBUTE TO PROFESSOR HAKI MADHUBUTI

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois (Mr. DAVIS) is recognized for 5 minutes.

Mr. DAVIS of Illinois. Mr. Speaker, I rise today as we continue to celebrate the achievements and milestones that comprise black history. Indeed, my remarks proclaim how far we have come and chronicle the lives of historical individuals of preceding generations. There are trailblazers today as well, and I appreciate the opportunity to pay tribute to my friend, Professor Haki Madhubuti.

In August 2001, Professor Madhubuti was appointed Distinguished Professor by Chicago State University, the first African American male to obtain this distinction in Chicago State University's 135-year history.

Born Donald Luther Lee in Little Rock, Arkansas, in 1951, Haki Madhubuti is an influential poet, essayist, activist, and editor. As a child, he moved to Chicago and later attended the University of Illinois, Roosevelt University, and earned his Masters of Fine Arts from the University of Iowa.

According to Professor Madhubuti, "Ideas are important. The writing of ideas, the publishing of ideas, and the purveying of ideas. So at 17 years old, I got into the idea business: thinking them, writing them, and later on at publishing them."

Consequently, he is the author of more than 20 books, including "Heart Love: Wedding & Love Poems"; "Groundwork and Selected Poems of Haki R. Madhubuti Don L. Lee"; "Killing Memory, Seeking Ancestors; Earthquakes and Sunrise Missions: Poetry and Essays of Black Renewal"; "Book of Life"; and "Directionscore: Selected and New Poems."

These ideas shaped black literature and history and have helped to make Professor Madhubuti an important part of our intellectual landscape. He has developed his own new concept private school which he and his wife have made a citadel of learning opportunities.

Professor Haki Madhubuti has indeed distinguished himself as an important intellectual, writer, lecturer, poet and, yet, has a spirit of humility as he walks among kings and queens and yet has not lost the common touch. A man of distinction, I am pleased to recognize his contribution.

FEDERAL LAW ENFORCEMENT AGENCIES ARE OUT OF CONTROL

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Tennessee (Mr. DUNCAN) is recognized for 5 minutes.

Mr. DUNCAN. Mr. Speaker, I rose yesterday to discuss in a 5-minute Special Order about the horrendous miscarriage of justice that occurred in a case involving a man named Joseph Salvati in Massachusetts who was kept in prison for more than 30 years, despite the fact that the FBI and the Justice Department knew all along, from the beginning, that he was an innocent man. And even worse than keeping a totally innocent man in prison for more than 30 years, a man with a wife and four small children at the time he went into prison who had, through all of those years, to visit him in prison; even worse, the Justice Department was doing that to protect a man in the witness protection program named Joe "The Animal" Barboza, one of the leading figures in organized crime, who, listen to this, was responsible, according to the FBI and the Justice Department and law enforcement officials, who was responsible for 26 murders.

Mr. Speaker, I mentioned yesterday that I spent 7½ years as a criminal court judge in Tennessee prior to coming to Congress; and I tried the felony criminal cases, the murders, the rapes, the armed robberies, the burglary cases, the most serious cases. I have been a strong supporter of law enforcement. But it seems to me that we have allowed a government to get so big that it just gets totally out of control and then the government can somehow rationalize or justify almost anything.

Now, the Justice Department has convinced the President to stand behind a claim of executive privilege and refuse to release documents about this Salvati case, even though it has been on "60 Minutes," even though it has been publicized all over the world, to keep these documents covered up, in spite of repeated requests or demands from the gentleman from Indiana (Mr. BURTON), the chairman of the Committee on Government Reform. I want to say how much I admire and respect the courage of the gentleman from Indiana (Chairman BURTON) in continuing to hold a series of hearings in regard to this Salvati case and other abuses by the FBI and the Justice Department, especially in regard to this witness protection program.

I mentioned here yesterday that Chairman BURTON's statement that he has now made twice in hearings before the Committee on Government Reform was to me the most shocking statement I have heard in a congressional hearing since I have served in the Congress. I am in my 14th year. I serve on three different committees, five different subcommittees. I have participated in hundreds, possibly even several thousand committee and subcommittee hearings; and I think the statement that I am about to read was the most shocking statement I have ever heard a chairman or any Member, really, give in this Congress. Chairman BURTON has said now at two of our hearings this statement: "The United States Department of Justice allowed lying witnesses to send men to death row. It stood by idly while innocent men spent decades behind bars; it permitted informants to commit murder; it tipped off killers so that they could flee before they were caught; it interfered with local investigations of drug dealing and arms smuggling; and then when people went to the Justice Department with evidence about murders, some of them ended up dead."

This Salvati case, while I hope it is the worst example, is just the tip of the iceberg.

I can tell my colleagues this: there needs to be some reforms within the Justice Department and the FBI. I think the problem has come about because we have expanded those agencies so much and given them so much money that they do not know what to do with all of it.

Forbes Magazine, in 1993, had a cover article in which they said that we had quadrupled the Justice Department between 1980 and 1993 and that there were Federal prosecutors falling all over themselves trying to come up with cases to prosecute because they had so little to do, and that they were prosecuting businessmen and women who had violated obscure rules and regulations that they did not even know were in existence.

We need to be funneling our law enforcement assets to the local law enforcement people who are fighting the real crime, the street crime that people want fought. Some of these Justice Department and FBI officials here in Washington never see a real criminal unless they are mugged on their way to their cars after work. But this idea, or this case, of keeping a man in prison for more than 30 years, even though they knew from the start of his innocence, they did not find out he was innocent after he had been in jail 25 years or so, they knew from the start that he was innocent. To do that to protect a man that had committed 26 murders is just, to me, mind-boggling. It is unbelievable.

They told in this hearing that Barboza's defense lawyer was given great assistance by the Federal Government while the prosecutors were snubbed when they asked for help. A murder weapon in one case was conveniently lost by the FBI. Barboza's own lawyer called him one of the worst men on the face of the Earth.

□ 1200

When asked about the short prison term that Barbosa got in one case, one murder that he committed after he was in the witness protection program, his lawyer said that that was amazing, he figured out that must be how it worked when you had friends in the FBI.

I can tell the Members, the people of this country need to know that we desperately need reforms at the Justice Department and the FBI. Joseph Califano, a former Cabinet member under President Carter and adviser to President Clinton, wrote in a Washington Post column a few days ago, "In the war on terrorism, we need not to overlook the alarming rise in Federal police power that is going on, and not create some type of Federal police state that will abuse citizens in horrible ways."

OMITTED FROM THE CONGRESSIONAL RECORD OF WEDNESDAY FEBRUARY 27, 2002 AT PAGE H564

OKLAHOMA SECRETARY OF STATE,
Oklahoma City, OK, January 14, 2002.

Hon. JEFF TRANDAHL,
House of Representatives, The Capitol, Washington, DC.

DEAR MR. TRANDAHL: Pursuant to Enrolled Senate Bill 7X from the 1st Extraordinary Session of the 48th Legislative Session, and due to the resignation of Steve Largent, United States House of Representatives, effective February 15, 2002, I herewith certify the election results of the Special General Election held on January 8, 2002 for the Office of United States House of Representatives District 1, as certified by the Oklahoma State Election Board this 14th day of January, 2002.

Also, enclosed is a copy of the official notice of resignation from Steve Largent, Congressman of the First District of Oklahoma; and a copy of Enrolled Senate Bill 7X.

If our office can be of further assistance, please do not hesitate to contact Kathy Jekel at 405-522-4564.

Sincerely,

MIKE HUNTER,
Secretary of State.

OFFICE OF THE SECRETARY OF STATE OF OKLAHOMA

CERTIFICATE OF ELECTION FOR UNEXPIRED TERM

This is to certify that on the 8th day of January, 2002, John Sullivan was duly chosen by the qualified electors of the State of Oklahoma as United States Representative, District Number 1, as Representative for the unexpired term ending at noon on the 3rd day of January, 2003, to fill the vacancy in the representation from said State in the United States House of Representatives caused by the resignation of Steve Largent.

Witness: His Excellency our Governor Frank Keating, and our Seal hereto affixed at Oklahoma City, Oklahoma this 14th day of January, 2002.

By the Governor:

Frank Keating, Governor.
Mike Hunter, Secretary of State.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. SANDLIN (at the request of Mr. GEPHARDT) for today on account of family matters.

Mr. GILMAN (at the request of Mr. ARMEY) for February 26 and the balance of the week on account of personal reasons.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. McNULTY) to revise and extend their remarks and include extraneous material:)

Mr. GEORGE MILLER of California, for 5 minutes, today.

Mr. LANGEVIN, for 5 minutes, today.

Mr. FILNER, for 5 minutes, today.

Mr. PALLONE, for 5 minutes, today.

Mr. McGOVERN, for 5 minutes, today.

(The following Members (at the request of Mrs. JO ANN DAVIS of Virginia) to revise and extend their remarks and include extraneous material:)

Mrs. JO ANN DAVIS of Virginia, for 5 minutes, today.

Mr. PENCE, for 5 minutes, today.

Mr. DUNCAN, for 5 minutes, today.

(The following Member (at his own request) to revise and extend his remarks and include extraneous material:)

Mr. DAVIS of Illinois, for 5 minutes, today.

ADJOURNMENT

Mr. DUNCAN. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 12 o'clock and 1 minute p.m.), under its previous order, the House adjourned until Monday, March 4, 2002, at 2 p.m.

OATH FOR ACCESS TO CLASSIFIED INFORMATION

Under clause 13 of rule XXIII, the following Members executed the oath for access to classified information:

Neil Abercrombie, Anibal Acevedo-Vilá, Gary L. Ackerman, Robert B. Aderholt, W. Todd Akin, Thomas H. Allen, Robert E. Andrews, Richard K. Armey, Joe Baca, Spencer Bachus, Brian Baird, Richard H. Baker, John Elias E. Baldacci, Tammy Baldwin, Cass Ballenger, James A. Barcia, Bob Barr, Thomas M. Barrett, Roscoe G. Bartlett, Joe Barton, Charles F. Bass, Xavier Becerra, Ken Bentsen, Doug Bereuter, Shelley Berkley, Howard L. Berman, Marion Berry, Judy Biggert, Michael Bilirakis, Sanford D. Bishop, Jr., Rod R. Blagojevich, Earl Blumenauer, Roy Blunt, Sherwood L. Boehlert, John A. Boehner, Henry Bonilla, David E. Bonior, Mary Bono, John Boozman, Robert A. Borski, Leonard L. Boswell, Rick Boucher, Allen Boyd, Kevin Brady, Robert A. Brady, Corrine Brown, Sherrod Brown, Henry E. Brown, Jr., Ed Bryant, Richard Burr, Dan Burton, Steve Buyer, Sonny Callahan, Ken Calvert, Dave Camp, Chris Cannon, Eric Cantor, Shelley Moore Capito, Lois Capps, Michael E. Capuano, Benjamin L. Cardin, Brad Carson, Julia Carson, Michael N. Castle, Steve Chabot, Saxby Chambliss, Donna M. Christensen, Wm. Lacy Clay, Eva M. Clayton, Bob Clement, James E. Clyburn, Howard Coble, Mac Collins, Larry Combest, Gary A. Condit, John Cooksey, Jerry F. Costello, Christopher Cox, William J. Coyne, Robert E. (Bud) Cramer, Jr., Philip P. Crane, Ander Crenshaw, Joseph Crowley, Barbara Cubin, John Abney Culberson, Elijah E. Cummings, Randy "Duke" Cunningham, Danny K. Davis, Jim Davis, Jo Ann Davis, Susan A. Davis, Thomas M. Davis, Nathan Deal, Peter A. DeFazio, Diana DeGette, William D. Delahunt, Rosa L. DeLauro, Tom DeLay, Jim DeMint, Peter Deutsch, Lincoln Diaz-Balart, Norman D. Dicks, John D. Dingell, Lloyd Doggett, Calvin M. Dooley, John T. Doolittle, Michael F. Doyle, David Dreier, John J. Duncan, Jr., Jennifer Dunn, Chet Edwards, Vernon J. Ehlers, Robert L. Ehrlich, Jr., Jo Ann Emerson, Eliot L. Engel, Phil English, Anna G. Eshoo, Bob Etheridge, Lane Evans, Terry Everett, Eni F.H. ADDITIONAL SPONSORS TO PUBLIC BILLS AND RESOLUTIONS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 134: Mr. Hinchey.

H.R. 250: Mr. Dooley of California and Ms. Roybal-Allard.

H.R. 303: Mr. Lynch.

H.R. 440: Mr. Andrews.

H.R. 461: Mr. Gilman.

H.R. 671: Mr. Blumenauer.

H.R. 774: Mr. Price of North Carolina.

H.R. 776: Mr. Price of North Carolina.

H.R. 817: Mr. Tiahrt.

H.R. 822: Mr. Lipinski.

H.R. 950: Mr. Mascara and Mr. Otter.

H.R. 1081: Mr. Terry.

H.R. 1155: Mr. Tiberi.

H.R. 1184: Mrs. Mink of Hawaii, Mr. Serrano, Mr. Waxman, and Mr. Blagojevich.

H.R. 1490: Mr. Thompson of California.

H.R. 1587: Mr. Foley.

H.R. 1645: Mr. Luther.

H.R. 1724: Mrs. Capito.

H.R. 1784: Ms. Carson of Indiana, Mr. Pallone, Mr. Holt, and Mr. Andrews.

H.R. 1789: Mr. Hall of Texas and Mrs. Christensen.

H.R. 2138: Mr. DeFazio.

H.R. 2148: Ms. Eddie Bernice Johnson of Texas.

H.R. 2153: Mr. Price of North Carolina.

H.R. 2207: Mr. Abercrombie and Mr. Kildee.

H.R. 2219: Mr. Johnnson of Illinois.

H.R. 2316: Mr. Brown of South Carolina, Mr. Wilson of South Carolina, and Mr. Chambliss.

H.R. 2350: Mr. Evans.

H.R. 2405: Mr. Evans, Mr. Rush, Mr. Payne, Mr. Jefferson, Mr. Gonzalez, and Mr. Brown of Ohio.

H.R. 2527: Mr. Thompson of Mississippi, Mr. Gilchrest, Mr. Lipinski, Mr. Moran of Virginia, Ms. Rivers, Mr. Pickering, and Mr. Coyne.

H.R. 2550: Mr. English and Mr. Isakson.

H.R. 2576: Mr. McInnis.

H.R. 2618: Mrs. Thurman.

H.R. 2637: Ms. Sanchez.

H.R. 3007: Ms. Carson of Indiana.

H.R. 3014: Mr. Tom Davis of Virginia.

H.R. 3278: Mr. Leach.

H.R. 3390: Mr. Green of Wisconsin.

H.R. 3410: Mr. Isakson.

H.R. 3429: Mr. Pastor, Mr. Vitter, and Mr. Ferguson.

H.R. 3450: Mr. Issa, Mr. Carson of Oklahoma, Mr. Watt of North Carolina, and Mr. Baldacci.

H.R. 3464: Mrs. Lowey.

H.R. 3477: Mr. Leach.

H.R. 3524: Mr. Olver.

H.R. 3561: Mr. Stenholm.

H.R. 3617: Mr. Baca.

H.R. 3657: Mr. Sherman.

H.R. 3670: Mr. Clay.

H.R. 3717: Mr. Green of Wisconsin, Mr. Ryun of Kansas, Mr. LaHood, Mr. Stenholm, Mrs. Capito, and Mr. Gordon.

H.R. 3749: Mr. Smith of New Jersey, Mr. Wexler, Mrs. Meek of Florida, and Mr. English.

H.R. 3771: Mr. Owens, Ms. Brown of Florida, Mr. Reynolds, Mr. Foley, Mr. Frost, and Mr. Simpson.

H.R. 3794: Mrs. Maloney of New York, Mr. Frost, Mr. Lipinski, Mr. Deutsch, Ms. DeLauro, and Mr. Fossella.

H.J. Res. 6: Mr. Abercrombie, Mr. Sweeney, Mr. Berman, and Mr. Clay.

H. Con. Res. 177: Mr. Faleomavaega.

H. Con. Res. 271: Mr. Gary G. Miller of California.

H. Con. Res. 290: Ms. Kaptur.

H. Con. Res. 311: Mr. Udall of Colorado.

H. Con. Res. 333: Ms. Waters, Ms. Kaptur, Mr. Hinchey, and Ms. McKinney.

DISCHARGE PETITIONS—ADDITIONS OR DELETIONS

The following Members added their names to the following discharge petitions:

Petition 4, by Mr. RANDY "DUKE" CUNNINGHAM, on House Resolution 271: Rick Larsen.

Petition 5, by Mr. DENNIS J. KUCINICH, on House Resolution 304: Sander M. Levin.

SENATE—*Thursday, February 28, 2002*

The Senate met at 10:30 a.m., and was called to order by the Honorable BYRON L. DORGAN, a Senator from the State of North Dakota.

The PRESIDING OFFICER. Today's prayer will be offered by our guest Chaplain, Rev. James A. Scudder of Quentin Road Bible Baptist Church in Lake Zurich, IL.

PRAYER

The guest Chaplain offered the following prayer:

Let us pray:

Dear Heavenly Father, sovereign of our Nation and our personal friend in time of trouble, we come before You with much gratitude for Your bountiful mercy. You are the governor of the universe and You are supremely good. Therefore, the laws You have promulgated must be the expression of a nature infinitely good.

What the terrorists have done is infinitely bad and cannot come from an infinitely good God. Your great goodness and providential loving care have been seen and understood, especially in the midst of a great turmoil our Nation has faced recently. Bestow power to these women and men of the Senate as they seek Your help in silent strength for the difficulties and pressures we are facing as a nation.

Psalms tell us that blessed is the nation whose God is the Lord. And so, Lord, we are blessed that You are our God. These Senators also bless our Nation with their leadership, and we thank You for each man and woman here. Like never before, we beseech You for Your holy strength. We ask for Your mighty hand of power and for Your divine wisdom to assist these Senators as they lead our Nation. Give them the clarity of thought they need to make their many decisions. Give them guidance and help today. Grant them courage for such a time as this. In the name of Your son, Jesus Christ, I pray. Amen.

PLEDGE OF ALLEGIANCE

The Honorable BYRON DORGAN led the Pledge of Allegiance, as follows:

> I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The assistant legislative clerk read the following letter:

> U.S. SENATE,
> PRESIDENT PRO TEMPORE,
> *Washington, DC, February 28, 2002.*
>
> *To the Senate:*
>
> Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable BYRON L. DORGAN, a Senator from the State of North Dakota, to perform the duties of the Chair.
>
> ROBERT C. BYRD,
> *President pro tempore.*

Mr. DORGAN thereupon assumed the chair as Acting President pro tempore.

The ACTING PRESIDENT pro tempore. The Senator from Illinois, Mr. FITZGERALD, is recognized.

THANKING REVEREND JAMES A. SCUDDER

Mr. FITZGERALD. Mr. President, I thank and acknowledge the invocation by Dr. James A. Scudder, the Pastor of Quentin Road Bible Baptist Church in Lake Zurich, IL. Reverend Scudder is one of my distinguished constituents from the State of Illinois. I have appeared before his congregation and I have known him for many years. I appreciate his friendship, and we are all eternally grateful for his being here this morning and giving the prayer.

Dr. Scudder is somewhat nationally known. He has a national television show that appears once a week on WGN–TV. He is an outstanding guest Chaplain for us to have today. I thank Dr. Scudder on behalf of the State of Illinois and the country for being here today.

SCHEDULE

Mr. REID. Mr. President, the Senate will be in a period of morning business very shortly, with Senators permitted to speak for up to 10 minutes each.

At 11 o'clock, we will resume consideration of the election reform bill. As Senators know, cloture was filed yesterday. Therefore, all first-degree amendments are to be filed prior to 1 p.m. today.

Mr. President, once you announce our being in morning business, I ask unanimous consent that I be allowed to speak.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. REID. I thank the Chair.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, leadership time is reserved.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be a period for the transaction of morning business for not to extend beyond the hour of 11 a.m., with Senators permitted to speak therein for up to 10 minutes.

Under the previous order, the Senator from Nevada is recognized.

Mr. REID. I thank the Chair.

Mr. WELLSTONE. May I ask the Senator a question first? Other Senators are here. There are three or four of us on the floor, which would be a little over 30 minutes. I wonder if we can modify that request.

Mr. REID. Mr. President, I think we are going to have a lot of time for morning business today. I would not worry about that at all.

Mr. WELLSTONE. I thank the Senator.

ELECTION REFORM

Mr. REID. Mr. President, I see here one of the persons responsible for the amendment that has brought the Senate to a standstill—Senator WYDEN. I think it is really too bad that the amendment has brought the Senate to a standstill.

The opponents of the Schumer-Wyden amendment claim they are seeking to eliminate fraud and that is why they oppose the amendment. Well, of course, everybody in the Senate is against fraud. However, we over here believe that also we must do anything we can to stop disenfranchisement of voters.

I think it is so important to recognize that we need to encourage people to vote, and vote honestly. Nobody is encouraging people to vote by fraud. But by holding up this legislation—and that is what is happening—the opponents are preventing, among other things, $3 billion going to the States for election reform efforts.

My State, Nevada, needs this money very badly. We have the most modern machines you can buy in southern Nevada, in Las Vegas. They are electronic, beautiful, and they are without fail. But in the other 16 counties, we have a mishmash of other types of machines. In the 1998 election Senator ENSIGN had with me, we had a registrar of voters in Washoe County, Reno, NV, who wanted to save the county money, so she had printed the ballots herself. They were approximately a 16th or a 32nd of an inch off. A lot of them didn't count. They didn't match the machines. It created all kinds of problems. In addition to that, there were—because of the inappropriateness of the

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

machines—a number of ballots that were not counted because they were not put into the machines correctly.

In other counties, we have old-fashioned, very old punchcard machines. This legislation would allow the State of Nevada to have all good machines. That is one of the things being held up here—$3 billion in funding going to the States for election reform efforts.

The secretary of state of Nevada, one of the most progressive secretaries of state, has been in conference with Senator DODD on this legislation. He is a Republican, by the way. He loves our legislation and thinks it should pass. He likes the amendment of the Senator from Oregon. We have letters from secretaries of state of Arkansas, Kentucky, and North Carolina, to name a few, who have strong reservations with the bill's original language dealing with identification.

Currently, there are 19 States and the District of Columbia that have signature verification. An additional 22 States use a signature system in conjunction with something else.

No eligible voter should be prevented from casting their vote. Remember, this bill still has to go to conference, and one of the things that so troubles me with the minority is the President of the United States is a member of their party. The leadership in the House is all Republican. So when we go to conference with this bill, we are in the minority because we are dealing with the President and the Republican leadership in the House. So I cannot understand why they will not let this legislation move on and go to conference. It is as if they are changing the rules in the middle of the game.

Legislation has come before the Senate, an amendment was offered and was adopted. Does that mean anytime legislation comes before this body and an amendment is offered to it we just close up and go on to something else? If that is the case, then we should do everything in committee and forget about action by the full Senate.

By holding up this important legislation, we are wasting valuable time that could be spent on, for example, the energy bill or campaign finance reform. I am terribly disappointed we are not moving forward. I hope cloture will be invoked tomorrow.

I say to my friend from Oregon, I have been tremendously impressed with the State of Oregon and their method of election. The two Senators from Oregon who voted in favor, of course, of the amendment that Senator WYDEN offered were elected by virtue of ballots cast by mail.

I followed very closely what went on in Oregon. I have not heard an iota from newspapers or any other commentary that there was anything wrong with the election. I have never known anyone to say there was any fraud in electing Senator WYDEN or Senator SMITH. They were elected by mail.

Mr. WYDEN. Mr. President, will the Senator yield for a question?

Mr. REID. I will be happy to yield for a question.

Mr. WYDEN. Not only is the Senator right, but Senator SMITH, in particular, deserves great credit because in a very close election, he made no assertions that there was any fraud in the election.

My question is, Is the Senator from Nevada aware of any evidence of any studies or analyses indicating that these vote-by-mail elections are tainted by fraud? I am not aware of any. Senator SMITH deserves a lot of credit because he could have raised that issue in our election, and he declined to do it.

Is the Senator aware of any evidence of fraud in these races?

Mr. REID. Mr. President, I say to my friend, the evidence speaks for itself. The Senator from Oregon courageously stepped forward yesterday and was the only Republican to vote in favor of Senator WYDEN's amendment. Why did he do that? Because he knows the process in Oregon is good.

I think we, as Senators, have to do everything we can to stimulate voter turnout, to make it easier. I am in favor of voting 2 days. In Nevada, I am in favor of—we are a 24-hour town—voting all night long. We have to do everything we can to allow more participation.

I am so impressed with what North Dakota does. In North Dakota, if you want to vote, come on in, we will let you vote. They have same-day registration. Imagine that. I have talked to my friend from North Dakota, and I have never heard—and I do not think he has either—of any fraud.

We live in a world of computers. People are going to cheat. It is easy to find out if they cheat.

We should do everything we can to move forward with allowing people to vote. We should not make it harder for them to vote. We should make it easier for them to vote.

I applaud my friend from Oregon for working on this legislation so hard and, I think, making the legislation so much better. Recognizing there is a problem with it, let us work it out in conference and not say we are going to close up shop and not allow us to move forward on this legislation.

The ACTING PRESIDENT pro tempore. The majority leader.

Mr. DASCHLE. Mr. President, I, too, compliment the distinguished Senator from Oregon for his outstanding work and leadership on this issue. He has gone the extra mile to find a way to resolve this matter. I know he has worked diligently over the last several weeks. He and I have talked about this matter on a number of occasions.

I think Oregon has been the leader in this country in innovative ways to encourage broader voter participation. He so ably represents his State. On this particular issue, no one has provided greater leadership and more insight on what we can do to improve participation than he has.

I join with my colleague from Nevada in thanking him and commending him for his efforts.

AMERICA'S STEEL INDUSTRY

Mr. DASCHLE. Mr. President, I ask the indulgence of my colleagues. I have a short statement that I will use my leader time to make. It involves a matter I know is of great concern to a number of our colleagues. I wish to make a couple of remarks with regard to the so-called 201 decision to be made by the administration relating to steel.

The last few years have been among the worst in history for the American steel industry. In just the last 2 years, 31 steel companies have filed for bankruptcy. Since January of 2000, more than 50 steel-making or related plants have shut down or been idle. Steel prices are now at their lowest level in 20 years.

This crisis has been devastating for steelworkers, their families, and communities. Over 43,000 steelworkers have lost their jobs, and another 600,000 retirees and their surviving spouses are in danger of losing their health care benefits because the companies that once employed them are now facing bankruptcy.

A number of those families are in Washington today. In talking with them, one quickly realizes the numbers do not even begin to capture the pain they are feeling and the insecurity they face about their very future.

These families are hurting because this important sector of our economy is competing against global competitors who unfairly benefit from government subsidies or have resorted to flooding our Nation with imports.

Seven months ago, the President initiated what is called a section 201 investigation. This investigation, conducted by the International Trade Commission, found unanimously that imports have caused serious injury. That means under our trade laws the steel industry deserves an immediate and effective remedy.

In less than a week, by March 6, the President has to make his final ruling on what that remedy will be. But we already know the right remedy. The remedy is a 40-percent tariff rate for 4 years. That would be an effective enforcement of our trade laws and the right thing to do for hard-hit steelworker families.

There is one other action the President must take, and that is lead on the issue of promoting consolidation and the protection of retirement health benefits, the benefits that were promised years ago to workers by companies that are now teetering on the verge of bankruptcy.

These benefits are so-called legacy costs. They really are a lifeline for 600,000 retirees and their surviving spouses and a measure of our commitment to the healthy and decent retirement these workers have earned.

America's steelworkers have literally built this Nation, from skyscrapers that define us, to the military that defends us. In the process, they have proven they can compete against any workers anywhere in the world and win, so long as the rules are fair.

In a very real sense, the future of the steel industry in America hinges on the administration's decision. So today we are asking the administration to use this historic opportunity to do the right thing for America's steelworkers, their industry, and the retirement health benefits on which they depend.

I yield the floor, and I thank my colleagues for their willingness to accommodate me.

The ACTING PRESIDENT pro tempore. The Senator from Missouri.

ELECTION REFORM

Mr. BOND. Mr. President, I just happened to catch the last of the remarks of my very good friend, the distinguished majority whip, about what has happened with this election reform bill.

We ought to get the record straight. My good friend mentioned the fact that we seem to be holding this up over one little amendment. I will tell you what this is all about, Mr. President. We worked long and hard to come to a reasonable, responsible compromise because the Senator from Connecticut very eloquently made the case that we need to make it easier to vote, and I agree with that.

We worked on his portion of the bill. He made some compromises that took care of some of our concerns, but at the same time I tried to testify before the Rules Committee, and I came to the floor and made the case that there is another problem that is as serious a problem as making it difficult for somebody to vote, and that is diluting their vote with fraudulent, improper votes.

I have laid out for this body a number of times the fact that vote fraud continues to exist in Missouri and too many other States. So I proposed some solutions to give us some minimal protection against vote fraud in the future.

As part of the compromise, it was pointed out by my colleagues on the other side that requiring the photo ID may be too difficult, or requiring them to vote in person may be too difficult, although seven States do it, and I think that makes a lot of sense. St. Louis, MO, after we called attention to the vote fraud committed in November of 2000, decided to require photo IDs at the poll in the mayoral primary. Do you know something. It worked. We did not hear any complaints that people could not vote. They had an honest election in St. Louis.

I was willing to compromise with my colleagues, the Senator from Connecticut, the Senator from New York, and the Senator from New Jersey, and say if it is too burdensome to require a photo ID, let us go down the list and see what other things could be done. That is why we added that a bank statement with one's name and address can be used, or a utility bill, a government check, a paycheck, to try to make it possible so that one time in the process they would have to have proof that they were a real live human being.

Now our friends on the other side made fun of the fact that we had dogs registered to vote in Missouri and in Maryland. Well, that sounds kind of crazy, but the system is so sloppy, the motor voter law has made it possible for people to register dogs. I will guarantee there are a lot more fraudulent votes than just the dogs.

Some have objected and said we have not shown widespread fraud in St. Louis. Oh, yes, we have. Wherever we have looked, we have found fraud. Wherever we have looked, we have found ineligible people voting, dead people voting, felons voting—in Virginia, Wisconsin, California, Colorado, North Carolina, Indiana, Florida, and Texas.

What we found that in Missouri they had judges ordering people to be registered to vote. They went before a judge, and he said: Why are you not registered? One said: I am a Democrat. Another one said: I want to vote for Gore. Another one said: I have been a felon and forgot to reregister. Thirteen hundred people were registered by judge order. The secretary of state went back and did an exhaustive search on those 1,300 and found 97 percent of them were not lawful votes.

In the mayoral primary in 2001, 3,000 postcard registrations were dumped on the election board on the last day. At that point, my colleagues in the other party in St. Louis, who were a lot more concerned about stealing a mayor's race than they were about stealing a Governor's race or President's race or a Senate race, raised cane.

When those postcard registrations were looked at, they were all found to have had the same handwriting—many of them had the same handwriting. They were on one or two blocks. Those have all been turned over to the prosecuting authorities. We have not gotten any convictions yet.

We also know that right before the general election in November of 2000, 30,000 postcard registrations were dumped on the St. Louis city election board. Nobody has gone back and reviewed them, but the guess is that at least 15,000 of them were fraudulent. Is it not a little bit beyond credibility that St. Louis, which had 200,000 registered voters, would on the last 2 days of registration register 30,000 people, equal to 15 percent?

That is one of the reasons St. Louis has almost as many registered voters as it has adults. It would be truly remarkable if each one of those registrations equaled a registration of somebody who was an adult human being entitled to vote in Missouri. I do not believe it. We have not had the resources to go back and check.

Frankly, as the Senator from Pennsylvania pointed out yesterday, it is very difficult, particularly under motor voter, to prosecute people who register illegally. Why? Because there is nobody there. You sign somebody else's name, send it in, and say I promise to, with a signature affirmation and verification. I could register all my colleagues on the other side of the aisle in a Republican area of Missouri, and we would have signatures on their mail-in ballots every time. This time they might be voting our way rather than the other way.

I believe some of the people arguing against the bill yesterday were woefully uninformed about what this bill requires. I say to my friend from Oregon, this only applies to people registering after the bill becomes law. It only applies one time, either when you register or when you vote for the first time. You have to show something that would tend to prove you are a live human being, living where you said you were, entitled to vote.

Concern was expressed over provisional voting, and the registration—the identification goes into effect immediately. Right now, 39 States have either provisional voting or same-day registration. I did not draft that part of the bill that says provisional voting would only go into effect in 2004. We would be happy to move it up for the other 11 States so it takes effect immediately.

The Senator from Oregon made a very good point in his discussions yesterday: When a person registers, we ought to make sure when they register that they are legitimate voters. I agree 100 percent.

Do you know what. Motor voter prevents verification of the registration, as it now stands. That is why we had to amend it.

There was a lot of discussion yesterday about how many people we would disenfranchise, and they postulated hundreds of thousands, maybe millions, of people would be disenfranchised because they would not have a photo ID, a utility bill, a bank statement, a government check, that shows their address. I think that is hogwash.

There may be a handful of people who do not have that, but we have money in the bill for the States to go out and affirmatively identify and provide registration for people who fall through the cracks. I am happy to put a provision in there saying the States—if on application by somebody who is entitled to vote, who does not have any of these documents, they can get a State or an election board identification card. Put the burden on the States when somebody shows they have none of these articles or identifiers. I think that might be one-hundredth of a percent at the maximum.

ORDER OF PROCEDURE

The ACTING PRESIDENT pro tempore. The time of the Senator has expired.

Mr. DODD. I ask unanimous consent that the Senator from Missouri be allowed to speak for an additional 10 minutes.

The ACTING PRESIDENT pro tempore. Is there objection?

The Senator from Nevada.

Mr. REID. I ask unanimous consent that the time for morning business be extended until the hour of 11:45 a.m.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. DODD. Mr. President, I ask unanimous consent that the Senator from Missouri be allowed to proceed for another 10 minutes.

The ACTING PRESIDENT pro tempore. Is there objection?

Mr. REID. I ask unanimous consent that the Senator be allowed to speak under the period for morning business.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. WYDEN. Mr. President, I ask unanimous consent to proceed after Senator BOND.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. WELLSTONE. Mr. President, I ask unanimous consent to proceed after the Senator from Oregon.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The Senator from Missouri is recognized for an additional 10 minutes.

ELECTION REFORM

Mr. BOND. Mr. President, I do not need an additional 10 minutes. I have said all the things I need to say.

It is not just my view that signature affirmation or verification does not work. Professor Melody Rose of Portland State University in Oregon has pointed out the significant numbers, 60,000 to 80,000, perhaps, who signed someone else's ballot or had someone else mark it for them. There were problems in Oregon.

The Carter-Ford commission said signature verification and affirmation is not adequate, it is inaccurate. Check page 31 of the report. Why? You sign a mail-in registration which cannot be checked under motor voter; you put a signature on it—it could be a dog, a dead alderman, a neighbor, a fictitious brother—and every time you vote as that person, your signature will match the signature that you put on fraudulently when you registered that person.

I knew when we took on fraud, fraud would fight back. I want to make sure everybody understands that the deal we worked out was widely praised. The Senator from New York said we ought to come together because we have a good bill. I agree. I thought we had a good bill. We made a lot of compromises. There is money there to improve the voting system and get statewide registration to make it easier for those with disabilities to vote, to cut down on fraud, to have provisional voting. That is a reasonable, rational system.

I believe this body cannot go down the road saying we are making it easier to vote and harder to cheat. They blow a huge hole in the voter fraud section by saying all you have to do is sign your name or sign a dog's name or sign a dead person's name or sign a fictitious brother or sister's name. That is what this is all about.

I am not the one trying to torpedo this bill. We had a torpedo in midship, yesterday, from people who had been part of the compromise on grounds I do not think were legitimate. I think there was some misunderstanding by many. We talked to staff people who did not realize the aspects I just pointed out, the fact that it is a one-time registration, only for people who register after this goes into effect. They said, maybe people will be disenfranchised. We will do everything in our power to make sure that does not happen.

Fraud has been proven. Fraud is alive and well in Missouri. There is a whole list of other places where fraud exists.

Mr. SCHUMER. Will the Senator yield?

Mr. BOND. I am happy to yield the floor, and I am happy to respond to any of my colleagues.

Mr. SCHUMER. I have been listening to the Senator as we had a debate on the amendment. The Senator from Oregon and I have added to his proposal. I have been very mindful of the passion of the Senator from Missouri about fraud. I respect it, appreciate it, and do not belittle it in any way. He has been through it.

If the Senator says there has been a large amount of fraud in Missouri, I am not here to quarrel with that. He knows his State better than I do. All I ask is to understand where this Senator is coming from. The Senator from Oregon and I are coming from slightly different places because our systems are different. In New York—and I checked again yesterday; we called around the State, people not just of one party or another—there has been almost no allegation of any kind of fraud with our system, which is a signature system.

Yet I do know one thing. If we were to adopt the section he proposed, it would make it more difficult for many of our citizens to vote. We have 8 million people in New York. About 6 million, a little over than that, are above voting age. Only 3 million have driver's licenses. Half the people in New York City don't have driver's licenses. A good number of those—there are no statistics, as there are no statistics, really, on fraud in our State; it is what you hear and know of your State—a good number of those do not have a utility bill to exhibit.

Having spent a lot of time at polling places, which I do in New York, as does the Senator in Missouri, I know how worried and scared lots of our voters are—new voters, people who voted for the first time, even if they are 30 or 40 years old.

I say to the Senator, I respect his passion to try to deal with fraud. Fraud is terrible for the system. As the Senator knows, except for this provision, I have been fully supportive in our meetings of all the other items—the registration lists and everything else—that the Senator has added to the bill. I believe he has made it a better bill.

My question to the Senator: Is there a way we can deal with the problems in Missouri and still deal with the problems in New York and move this bill forward? That is what I would like to do. I know the Senator from Connecticut has some ideas and others have some ideas. I ask the Senator if he has any thoughts about that. Perhaps we are not—I pray, we are not—on an irreconcilable course.

I yield.

Mr. BOND. Mr. President, I am very pleased to hear that fraud does not exist in New York. That is reassuring.

I pointed out yesterday that 14,000 New York City residents were also registered to vote in south Florida. Would the Senator care to make a friendly wager that none of them voted twice?

Mr. SCHUMER. In answer to my friend's question, I would ask the Senator to give me a single instance of people who voted twice. Here is why: The way our voting rolls work, it would be cleared up by the bill. You must remain on the voting rolls for a minimum, I believe, of 8 years once you stop voting. So every day probably 1,000 people from New York move to south Florida.

My guess is there are more than 14,000 people on the voting rolls in New York and south Florida because you are not stricken from the rolls in New York even if you have not voted for 6 years. That is not an indication of any fraud whatever. If the Senator from

Missouri could come forward and show me even 10 cases where this happened—maybe it has, but we don't have evidence of it, and we certainly don't have evidence that anyone is organized to do it. It is just the way our system works.

I am sure there is occasional fraud in New York. I said to the Senator there is no instance of widespread or organized fraud, of large numbers of people who come in and vote fraudulently, organized by someone or not.

Mr. BOND. Mr. President, I make a friendly wager that maybe quite a few of those people voted twice.

I think the Senator from New York has raised a point we did not adequately address. It was a point raised by the Senator from Montana who said there has to be a more effective way of getting those voters no longer living in the State off the rolls. That causes confusion.

In Montana they have many people who come in and register while they are at college, then move away. If we are going to go back and compromise again, I told some people yesterday this compromise on election reform is like loading frogs in a wheelbarrow: I keep thinking I have a half wheelbarrow full, and I come back with the frogs and the wheelbarrow is empty.

We need to be able to clean up those rolls. Eight years means there is a lot of confusion and a lot of opportunity. We will be happy to work on that.

The second point the Senator from New York has pointed out is there may well be voters in New York who do not have a driver's license. Granted. When I lived in New York, I was scared to death to drive. I was scared to death of taxicabs, but I sure wouldn't take a bike. I did not keep a car in New York City when I lived there.

They may not have a paycheck. Some of them don't even get a government check of any kind.

Mr. SCHUMER. Right.

Mr. BOND. Some of them don't even have a bank account. I think that is a rather small universe. But I am willing to make explicit what I believe is already in the law—staff on the majority side has assured us it is already in the law—that money can be used. But I will be happy to make it explicit. If you have Joe or Jane Doe, who do not have any of those things, we should be providing the money to the registration authority to give them a card or to ascertain their registration and get them registered. If they don't have any of those items, they ought to have a chance to be registered. We ought to identify them.

The Carter-Ford commission says one should have an identifying number. That would help us a lot. Carter-Ford pointed out that, No. 1, signature verification doesn't work—and I can assure you, it doesn't work from our side, from what we have seen in Missouri.

Those are the outlines that I think would work.

The ACTING PRESIDENT pro tempore. The additional time allotted to the Senator from Missouri has expired. The Senator from Oregon is recognized under the previous order.

Mr. WYDEN. Mr. President, I see the Senator from Missouri is in the Chamber. I want to make a comment to address some of the concerns the Senator has voiced.

In particular, with respect to the process that has been followed, I was not involved in any of the negotiations with the Senator from Missouri. I made it very clear I am interested in meeting him halfway in trying to find some common ground. We have been talking since the vote yesterday—Senator DODD, Senator MCCONNELL, Senator SCHUMER, Senator BOND, myself—really, hour after hour since yesterday. I do believe at this point there is a framework for a genuine compromise that could allow this bill to go forward. I want to outline what I think that framework is because we all ought to try to come together and get a bill.

I was asked yesterday by the press and others: Maybe those on the other side just don't want a bill? I stuck up for the Senator from Missouri. I said I believe he wants a bill. I think he wants us to come together. We have some differences of opinion.

Here is the framework for what in my view is a genuine compromise. What we ought to try to do is tighten up at the front end of the process. Let's tighten up with respect to registration. That is the best way to deter fraud. Right now, the tough antifraud provisions with respect to registration don't kick in until a ways down the road. Let's figure out a way to make them kick in earlier. Let's tighten up at the front end so we all come together and make it clear we are interested in deterring fraud, we are not interested in deterring voting.

But at the same time, what we would ask in return for our effort to meet the concerns of our colleague from Missouri with respect to the registration process and tough antifraud processes—at the front end we ask to let the signature be valid when people vote because on our side, and in the State of Oregon, we believe very strongly in the 27 States where that is used, it works. We know our colleague does not share that view. Sincere people agree with him. But I would say when he cites studies in Oregon, which I have not seen, the colleague that sits just a few seats from him, Senator SMITH, made it clear—after a very difficult and contested election where he clearly could have said: I have some questions about how these votes were cast—Senator SMITH, to his credit, said the system worked and there were not the problems the Senator from Missouri has found.

So as of right now, without the legislation that has been drafted by the Senator from New York and me, it seems what we are doing is discouraging people from voting now but not putting in place the toughest antifraud provisions until 2004. We ought to keep negotiating. We ought to continue the work.

By the way, even when we were debating the Schumer and Wyden amendment, I suggested to my colleagues, and was very appreciative of what the chairman of the committee said—I went to him and said: We have the votes. We have the votes now. We have done our checking. We have the votes. But let's still reach out even before the vote and try to have a compromise.

That was echoed by the distinguished chairman of the committee, Senator DODD, who said even the night before the vote: Let's stay at it.

I didn't have a chance to be part of the negotiations and the process. I know there are some who have concerns about that process. But I said from the very beginning, because I was not part of that process, I would have to take steps—I was inclined to put a public hold on the bill to make sure my State wasn't rolled.

At every stage of the process that I had a chance to be part of, and this has been backed up by Senator DODD and Senator SCHUMER and the leadership, we have been trying to find a way to meet in a genuine compromise. I think the framework for that genuine compromise is to tighten up on the front end, come down as aggressively as we possibly can on fraud where we can best deter it, which is at the beginning of the process, through registration, but then let those signatures be valid for a ballot, a system that we believe works in 27 States, and not create new obstacles.

Mr. BOND. Will the Senator yield for a question?

Mr. WYDEN. I am happy to yield.

Mr. BOND. First, the Senator is aware that we did take care of one of the Oregon problems. When he pointed out we could not send a second ballot, he is aware that we did agree to change the requirement in the underlying law. I understood it was at the request of the Senators from Oregon and Washington. We made the change.

Your staff asked for it and we did make the change.

Mr. WYDEN. I want to respond. The Senator clearly has been working in good faith and we appreciate that. What I am trying to do this morning is to see if I can help get the rest of the way. I think in this arcane area of election law, where I think, frankly, the Senators from Missouri and Connecticut and New York know more about this nationally than do I, it is very complicated. But I think there is the framework for a genuine compromise. If we stick with that kind of outline, I think we can still get there and we ought to try with this bill which, as a result of efforts of the Senator from Missouri and the Senator from Connecticut, has a lot of good in it. It has a lot of useful provisions. I am for it, but we have to get over this particular problem.

Mr. BOND. Will the Senator yield?

Mr. WYDEN. Of course.

Mr. BOND. Just a further question. I stated very clearly that I applaud and support the Senator's premise that we ought to make sure the registration the first time is legitimate because that is where the problem begins. I will ask the Senator a two-part question: Does he understand that existing motor voter law does not permit effective ascertainment of the legitimacy of a registration upon registration, No. 1? And, No. 2, that the bill before us would not apply to anybody who is already registered?

We had set up these requirements. Is the Senator aware we set up these requirements only for people registering after the date of the act, and they only have to meet the requirements to prove they are a live, qualified human being, one time—either upon registration or upon the first vote? Is the Senator aware of those two things?

Mr. WYDEN. Mr. President, the Senator makes a valid point with respect to the first part. With respect to the second part, I and others think the motor voter law has been an important step forward. We are concerned about the implication that some of the spirit and substance of it could be unraveled. That is why we are trying to stay at the table with the distinguished Senator from Missouri and work this out.

I think if we can get an acceptance of the proposition that a signature should be valid to the ballot—if that basic proposition can be accepted, which is something we believe works in 27 States—I think we can do a great deal to reach out on the other concerns the Senator from Missouri has. He has raised them consistently. He understands the substance of this very well. We are trying to reach out to him in an effort to get this compromise.

But what we need in return is to know that when people actually vote after they have gone through what I would call a real gauntlet of steps to make sure there are antifraud provisions at the front end, then let us have a signature be valid for the ballot, a system which works very well in our State.

I will close by way of saying I think people are stunned by this. In the Senate special election in 1996, we tripled the rate of voter participation from the previous Senate special elections in this country. This is a system that has empowered voters.

That is why it is so important in those 27 States to seniors, the disabled, minorities, and others. With record turnouts, people are being prosecuted now in a small number of instances. Where there is fraud, we would like to find a way to protect against that as it relates to having a signature be valid to the ballot.

In return, we are willing to meet the Senator from Missouri halfway and more on the front end so that we come down aggressively on fraud in the area where we believe it can do the most.

My time has expired. I am inclined to get back to the negotiating table with the Senators from Missouri, Connecticut, and New York so we can get a bipartisan compromise.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Missouri.

Mr. BOND. Mr. President, my chief of staff and my counsel negotiated 4 to 5 hours a day for 6 months, and they thought they had reached the end. If the Senator from Oregon and I are now talking about different things than what he has outlined, it would seem to make very good sense. No. 1, he says make sure there is a real, live person qualified to vote when they register. Hallelujah. If we can do that, then I agree that they sign a registration, and any time they go to vote, all they have to do is sign, whether it is a mail-in or whether it is voting in person.

But what I want to make sure of is when that first registration comes in, there is something to identify it. It is not a gauntlet. It is picking one of the pieces of evidence that shows they are a real, live human being, or, if we can find a better way, that we can even task the local election authorities to use money we provide them to verify.

If they confirm that the registrations are legitimate, and if they deal with the problem that the Senator from New York and the Senator from Connecticut laid out about the 8 years full of clogged rolls, there is no problem that I have with letting people vote by signature once it is proven they are real, live human beings at the beginning of the registration process. If that is the basis, we can start over again, and see all of you in July, maybe.

But the Senator from Connecticut is good humored, equally determined, and is willing to go at it again.

If what the Senator from Oregon laid out is what I said, then I think there is some good possibility that we can get agreement. But sending in a signature alone is not going to cut the mustard.

We will get back to the Senator from New York on the number of people doubledipping. The December 19th issue of the New York Post reports on doubledippers. We will get back with the information on that. That is a good reason to clean up the registration rolls. I hope we can do that as well.

I thank the Chair. I thank particularly my colleague from Connecticut for his good humor throughout this.

I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. GRASSLEY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. CARPER). Without objection, it is so ordered.

Mr. GRASSLEY. Mr. President, I would like to speak in morning business for about 9 minutes.

The PRESIDING OFFICER. The Senator has that right.

(The remarks of Mr. GRASSLEY pertaining to the introduction of S. 1974 are printed in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

EXTENSION OF MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent that morning business be extended until the hour of 2 o'clock.

The PRESIDING OFFICER. Without objection, it is so ordered.

The PRESIDING OFFICER. The Senator from Minnesota is recognized.

(The remarks of Mr. WELLSTONE pertaining to the submission of S.R. 213 are printed in Today's RECORD under "Statements on Submitted Resolutions.")

THE STEELWORKERS OF AMERICA

Mr. WELLSTONE. Mr. President, I thank the steelworkers of America for coming to Washington, DC, today. I think it is a historic gathering. Time is not neutral or on the side of these workers and their families, including the taconite workers in the Iron Range in Minnesota. I could spend hours on our trade policy and the ways in which I do not think we have a fair trade policy. But when you have the best workers who care fiercely about their families and their communities in our country and essentially the dumping of steel and, for that matter, semifinished steel in our market, way below the cost of production in other countries, much less quite often produced at wages that are deplorable wages, the effect is devastating.

The request and the demand of the White House, which follows up on an International Trade Commission recommendation, is for a 40-percent import fee. If we get that fee, then we will be able to compete effectively. If we don't get that fee, I think it will be very difficult to see a future for the steel industry in our country. There will be no way we can cover legacy costs, health care costs of retirees; and a whole lot of very decent, good, working people are going to be spat out of this economy.

Nobody is asking for a leg up on anybody else. Frankly, when you see the import surge of the last several years—so much of this well below cost of production—and you see the impact on people, you know we ought to do something.

So the President has until the beginning of next week to act. We call on him to do the right thing. We believe it is the right thing. There are going to be steelworkers from all across the country today. There are going to be marching bands from high schools from all across the country today. I have been told there may be more than 10,000 steelworkers coming to Washington, DC, for themselves, for their children, their communities, and for the country. I hope their voice is listened to.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MURKOWSKI. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Ms. LANDRIEU). Without objection, it is so ordered.

The Senator from Alaska.

Mr. MURKOWSKI. Madam President, I ask unanimous consent that I be allowed to speak in morning business for 10 minutes.

The PRESIDING OFFICER. There is a 10-minute time limitation. Without objection, it is so ordered.

Mr. MURKOWSKI. I thank the Chair and welcome the occupant, the Senator from Louisiana. I look forward to providing her with some factual information this morning, not that she has not been exposed to factual information before.

ARCTIC NATIONAL WILDLIFE REFUGE

Mr. MURKOWSKI. Madam President, I received a letter in my office from the respected former President Jimmy Carter. I suspect this letter went to every Member. It was an appeal on the issue of the energy bill which has been laid down by the majority leader and will be taken up at some point, probably next week.

In his letter, President Carter highlights the realization that every decade or so we have a great national debate about whether or not to preserve our national heritage. He indicated that in the sixties, it was over building dams in the Grand Canyon to oil drilling in Yosemite or Yellowstone. Clearly, there is no consideration for oil drilling in either Yosemite or Yellowstone, to both of which I would object. I know virtually every Member in this body would.

President Carter indicates in his letter that the significant issue before us today is the fate of the Coastal Plain of the Arctic National Wildlife Refuge, an area first set aside for protection by President Dwight Eisenhower. He is correct in that generalization, but what he does not add is that out of that area, so-called ANWR, there were 1.5 million acres, or the 1002 area, left out specifically at the declaration of President Eisenhower for Congress to make a determination of the disposition.

Since that time, the matter of opening ANWR has been debated before this body. Many of us will recall that in 1995, in the omnibus bill, ANWR had prevailed and President Clinton vetoed it.

It is important to recognize the sequence of events because they are not necessarily as recounted in President Carter's letter. He states that he has enjoyed the extraordinary beauty of the peninsula and Beaufort Sea, watching the musk ox circle their young. He has wandered on the tundra near the Jago River as the caribou streamed through. He has watched this timeless migration from vital calving grounds. He has watched the dens of wolves, large flocks of Dall sheep, and isolated polar bears. "These phenomena," he terms it, "of the untrammeled earth are what lead wildlife experts to characterize the coastal plain as America's Serengeti."

I live there. I have spent all my life there. I have spent a good deal of time in the Arctic. His description is not without some further explanation.

The difference with the American Serengeti is, of course, the wildlife concentration is virtually year round, and the caribou, which is a nomadic animal, moves through the area. It is quite inspiring when they move through the area, but they are not residents.

In the wintertime, which is 9½ to 10 months of the year, there is virtually no activity of any kind relative to wildlife and bird life. Nonetheless, we have an obligation to address the compatibility of the natural wildlife and the wildlife experience of visitors and the realization that we also have a tremendous amount of reserves of oil in this area. There is a compatibility.

President Carter further states:

> Having traveled extensively in this unique wilderness, I feel very strongly about its incredible natural values.

I do, too.

He hopes Members "will not be distracted by the argument that oil exploration and development will have minimal impact because the 'footprint' of modern drilling technology will be small amid the 1,500,000 acres of the coastal plain."

This is where we depart because what he fails to take into consideration is the people who live there and their thoughts and aspirations. I will perhaps go into that a little later.

One realizes in his letter he assumes this area is an absolute wilderness devoid of any villages, devoid of any footprint, and devoid of any personal expression of attitude from the Eskimo people who live on the Coastal Plain, whether they live in Barrow or Kaktovik, or whether the activities in Prudhoe Bay have, in fact, been a distraction.

He further suggests a precise measurement of activity in the 1002 area would involve a web of drilling pads, gravel pits, access roads, and air fields. While these might not exceed 2,000 acres, they would be spread across a far wider expanse covering hundreds of square miles, connected by a network of what he calls modern transportation routes.

As those who follow the debate recognize, that simply is not the case. We have developed the technology dramatically, and that technology is evidenced in the transition from Prudhoe Bay, which is the 30-year-old technology which uses large areas of surface for roads and so forth, to the development of Endicott, which came on as the 10th largest field, and the actual footprint was 56 acres.

So the point is, we have this technology. It will be advanced if indeed ANWR is opened. It would be further advanced to have ice roads as the access for development of drilling, not roads. We would not open up gravel pits; that would not be necessary because we have technology now that allows us to move only in the wintertime and not leave a footprint in the summer. Further, the directional drilling technology suggests if we were to drill on the Capitol Grounds, we could focus on an oilfield as far away as the Reagan Airport, outside the edge of Washington, DC. That is the technology we have.

So it is an entirely different set of circumstances. To suggest that somehow this would be an expanse covering hundreds of miles, with airports and so forth, is totally inaccurate.

I have a picture. This is children in Kaktovik. To indicate where Kaktovik is, this is in the 1002 area. This is a village that has been there for a long time. There are real people there. They have hopes and aspirations. We have other pictures of Kaktovik which can give an idea of the realism that President Carter simply overlooks in his letter. He suggests this is an unspoiled wilderness. Here is a village that is actually in the 1002 area. There is an old radar site. Here is the community hall.

These people happen to support opening the area. Why? They want a better opportunity. They want health care. They want toilets that flush. They want running water. They want to have opportunities for the children.

It is one thing to simply address the environmental aspects, but that is hardly fair when you have to consider the fact that there are real people living here.

I want to show a little bit about how we develop the Arctic and show some of the activity. Some of the technology we have developed—and I know the occupant of the chair is quite familiar with it—that is used now more often than not is called directional drilling.

This was an article that appeared in the New York Times, and it shows how in one drill pad you can access a huge area that otherwise was unaccessible. This is called directional drilling. You do this through a process called 3D sizement. That has only come about in the last decade.

Before, we used to have to drill down, and if we hit one of those pockets of oil—they are the dark areas—we would hit them or we would miss them. With 3D sizing, you can spot where these other pockets are and directionally drill from one pad. That is the technology of today. That is why President Carter's generalization that this area is going to be covered with roads and air fields and pipelines, and so forth, is totally inaccurate.

Now let me show you how we operate. I said we are not going to have roads. We are not going to open up gravel pits. That is drilling in the Arctic. That is the same as in the 1002 area of ANWR. That is a winter road. It is a road that is frozen. It works fine. You have a drill pad that is on frozen ground. This ground is permafrost. It is frozen year round. On the surface, it does thaw, but remember, winter is just about 9½, 10 months. So you have a long period of time when you can do development. This is what it looks like in the summertime as a consequence of not having to have a road into the area. That is a spot as well.

So when he says the impacts on the fragile tundra, ecosystem, migratory waterfowl, and other wildlife would be devastated by oil activity, that is not necessarily true.

The Senator from Louisiana knows how you operate in the State of Louisiana. You have numerous areas where you have oil and gas drilling. You have commercial shrimping. You have sport fishing. You have access for waterfowl because you consciously protect them. But there is a compatibility by doing it right and using technology. You do it in monuments that have been set aside by Congress, and you do it correctly.

There is some suggestion that this somehow is of a magnitude to parallel dams on the Colorado River, that we have to make choices: We cannot have the untouched, sublime wilderness on one hand compatible with oil development.

If we look at this map, we note that few people have an idea of the distance and the vastness of the State of Alaska. It is one-fifth the size of the United States. It overlays the United States dramatically in a proportional view that hopefully we have with us—but I guess we do not. It shows Alaska overlaying the United States. It shows an overlay, and Alaska runs basically from Florida to California. It runs from Canada to Mexico on a proportionate overlay. It is a big piece of real estate.

We have this entire area of portions of Alaska associated with wilderness. We have 56 million acres of wilderness, and what we do not really reflect on in the issue of opening up ANWR is the fact there are already footprints in the area; there is a community of Kaktovikians, and the Coastal Plain is the green area that would be proposed to be leased. The rest of the 19 million acres is split between a wilderness area, which is about 8½ million acres. That is the light buff color on the chart, and the darker buff color is already in the wilderness. So we are talking about a very small area.

We are also talking about, in the House bill, which authorized the opening, only 2,000 acres. That is the size of that little red dot in the chart. That is about the size of a small farm.

So what does 19 million acres equate to? A lot of people do not recognize that. ANWR and the State of South Carolina are about the same size, 19 million acres. So we are talking about 2,000 acres out of 19 million acres of development, which is hardly reflected in the President's letter to each Member. He says: Opening of the Coastal Plain for oil exploration and development would be, despite all the much-vaunted technological promises, severely damaging to wildlife and the ecosystem.

Let me show what our evidence is in Prudhoe Bay. I am sure we have a chart of the caribou and the bear. This is Prudhoe Bay. We had about 3,000 or 4,000 caribou in Prudhoe Bay when the development started in that particular area. Today we have over 20,000 caribou. The issue is, you cannot shoot them, you cannot run them down with a snow machine, so they propagate dramatically. And those are not stuffed; those are real caribou wandering around. So there is a compatibility.

There is a compatibility with the bears. Here are the bears. I know the occupant of the chair has seen this chart many times. They are walking on the pipeline because it beats walking on the snow. You cannot shoot them. You cannot take a gun in there.

People are concerned about polar bears and polar bear dens, but they never tell you it is against the law to shoot a polar bear in the United States. And Alaska is in the United States. You can go out and get a guide in Canada, you can get a guide in Russia, and take a polar bear, but not in the United States.

Talking about conservation, one of the best ways is to make sure they are protected, and they are. So to suggest a mild amount of activity is going to displace their dens is absolutely balderdash.

They talk about the wilderness qualities. You are talking about huge areas. Fifty-six million acres of wilderness is what we have in the State of Alaska alone. We are very proud of it. To suggest we cannot open this area is totally unrealistic.

Let me show some of the other areas in the United States where we have oil and gas exploration. These two charts show oil production facilities in the Nation's wildlife refuges and wetland management districts. We have 9 in Texas, 12 in Louisiana, 4 in California. The other charts oil production in national wildlife refuges and wetland management districts. We have them in Texas, Oklahoma, North Dakota, New Mexico, Montana, Mississippi, Alabama, Arkansas, one in Alaska, California, Kansas, Louisiana, and Michigan.

We have oil and gas development and mineral development in refuges. It is common. Can we do it safely? That is the question. The answer is yes.

Former President Jimmy Carter's letter fails to recognize people have dreams and aspirations and certain rights. He says:

> It is inherently fatal to the wilderness qualities of this matchless example of America's heritage.

The letter does not say there are 56 million acres of wilderness in Alaska, and we are proud. He implies somehow if the area is open to modest development, it will be detrimental.

He makes another mistake when he says:

> Through compromises that began more than four decades ago and were concluded when I signed the Alaska National Interest Lands Conservation Act in 1980, 95 percent of Alaska's North Slope has already been made available for oil exploration.

We have charts that show the upper Arctic area. This chart illustrates the Arctic Coast from Canada, the area we are talking about, and next is the Prudhoe Bay area, and from Prudhoe Bay we go across the Naval Petroleum Reserve in Alaska. The suggestion that 95 percent is open is inaccurate; 95 percent of it is closed. I guarantee, one cannot get a drilling permit on public land in these areas. This area is the National Petroleum Reserve, and the dark area shows the concentration of lakes. That is where the bird life is. That is Lake Nestia Puk. That is a delicate area. The Department of Interior refused to open leases in those areas. They have leases issued which have been modestly successful, but to make the statement that 95 percent is open, and therefore why not leave the area, is false.

The President has inaccurate information. He said we should not sacrifice the last 5 percent. Well, 95 percent is closed. Furthermore, in his letter he says this issue has assumed gigantic symbolic stature. He is right on target. It is symbolic. It has nothing to do with scientific evidence. It has nothing to do with whether or not there is enough oil to offset the amount of oil we import from Iraq or Saudi Arabia. Some have indicated that this issue is all about our national security. To a large extent, they are right. We are 58-percent dependent upon imported oil in this country. The ramifications of that are very real. As we increase our dependence, we are going to be more and more beholden to those who supply the energy.

We have seen the power of OPEC in reducing the supply and the price goes up. I have discussed time and time again the issue of Iraq. We wonder how we will deal with Saddam Hussein. On September 11, we imported 1 million barrels a day from Iraq; today it is 780,000 barrels. We are still maintaining a no-fly zone, an area blockade, over that country. We put the lives of men and women at risk each day enforcing that no-fly zone. We take out Saddam Hussein's targets, and he tries to shoot us down, but we are taking his oil. We take his oil, put it in our airplanes, and go back. But he takes our money and develops missile capability, maybe aimed at Israel. We have not had an inspector in that country in 6 or 7 years. When will we deal with that? When we have an unfortunate issue such as a terrorist development that might emanate from there we will wish we would have moved sooner?

These are the questions the administration has to deal with and each Member has to deal with in his or her own conscience. These are very real.

From the Persian Gulf we get almost 3 million barrels; from OPEC producing countries, 5.5 million barrels of oil. That is where we get the oil. We need all the conservation we can get—CAFE, wind power, solar power—but America and the world moves on nothing but oil. We do not have the technology. We will continue to be more dependent.

The question is, How can we relieve that dependence? Obviously, in the Gulf of Mexico and off Louisiana and Texas they have extraordinary technology. They are drilling in 2,500 and 3,000 feet of water. The record has been very good because we have that technology. Can we open up ANWR safely? Absolutely.

This next chart is important. What we are doing is rather interesting. We have substantial prospects for oil and gas off the Atlantic Ocean, off our coastal States, including Florida clear up to Maine. Those States do not want development. That is fine if they do not want development. They have taken 31 trillion cubic feet of natural gas that is believed to be off the east coast and said they do not want to develop it. We should respect that. Off Florida on the gulf side, 24 trillion cubic feet, we have taken that off limits.

Now the west coast—Washington, Oregon, California—they do not want drilling offshore where the risks are relatively high. There are storms and all kinds of bad things that can happen. We have taken the middle area of the country, the overthrust zone of Montana, to a degree, Wyoming, Colorado, Utah, and said we will not allow any road access in public lands. We have taken that off. We take these off because the people do not want it. We should respect those areas where people support drilling. In my State of Alaska they do. We are not talking about offshore. We are talking about on land. There is a difference. There is much less risk.

These are the arguments used that frustrate those in the Alaska delegation. It is fair to say we probably include Texas, Louisiana, Mississippi, and Alabama, who do want responsible development offshore. It provides a standard of living. It provides a tax base. Those are very important for working men and women.

This is a jobs issue. If we open ANWR, we are putting up for lease in the area of 1.5 million acres out of 19 million acres. That will be competitive lease sale. Companies will put up money to have the opportunity to lease those lands. How much money? It is estimated somewhere in the area of close to $3 billion. That means $3 billion coming into the Federal Treasury. That, in itself, should interest our budgeteers. In addition, it is jobs for Americans at a time when we are losing jobs. It is payback time to American labor. These people are entitled to these jobs as opposed to sending our dollars overseas and bringing back the oil from Iraq or Saudi Arabia. We have the know-how, we have the technical ability, and we can bring these jobs home.

How many jobs are we talking about with ANWR? Somewhere in the area of 250,000. Talk about stimulus; show me a better stimulus that does not cost the taxpayer a red cent. That is $3 billion in revenue and 250,000 jobs, all paid for and put up by the private sector, not the government and not the taxpayer.

These are some of the issues to which we should relate. It is a matter of what is in the national security interests of our country as well as the realism associated with sound jobs in this country.

President Carter goes on to say the truth: We can drill in every national park, wildlife refuge, et cetera.

We are not talking about that. We are talking about a small area, a footprint of 2,000 acres out of 19 million acres. To suggest we can get there through conservation is unrealistic. It will be an interesting issue to watch the debate on CAFE. Some are going to say we are going to do it, and we will mandate the type of cars or public businesses. We are going to compromise safety. We are going to bring in more foreign cars. That is not the answer.

We need better mileage. There is no question about it. But you just can't get there from here because this particular CAFE is going to be effective in the year 2015, 15 years from now. Some of us are not going to be here to be held accountable.

It is very easy to vote and say, yes, we ought to do that; get 37 miles per gallon by the year 2015. Technically, they say you can't get there without a mandate by the Government telling you what kind of car you are going to drive.

We will have that debate later. Nevertheless, I think we have to address the national energy security of this country.

I am always reminded of the statement of Mark Hatfield, a very respected Member of this body from the State of Oregon, who stood here time and time again and said: I'll vote for ANWR any day rather than send a young man or woman overseas to fight a war on foreign land over oil.

This is leaving us more dependent on foreign oil, and then we know just what happens. Some people forget what happened in 1973 during the Arab oil embargo, the Yom Kippur War, because, I guess, they were too young. We had gas lines around the block. People were indignant. They said: How could Government let this happen?

We were 37-percent dependent on imported oil at that time. Now we are 58-percent dependent.

What does the Department of Energy say? In the year 2007, 2008, we will be somewhere up to 63 or 64 percent dependent. That is reality.

I hope when Members reflect on their vote and recognize the pressures that have been brought about by environmental groups, by President Carter in his letter to each Member, and others, they reflect somewhat on accuracy, factual information, and not the emotional arguments that suggest this is only a 6-month supply; that it is going to take 10 years to go on line; that it is not going to make any difference.

They recognize reality. I hope they recognize their vote should be what is right for America, not what is right to satisfy the environmental lobbyists' desires to use this issue for what it has been used, and that is to generate a tremendous amount of membership and dollars. Once they lose on ANWR, they will go to another major environmental issue and that is understood.

They make a significant contribution. But on this issue they are simply wrong. We can do it right. We can do it safely. It is a significant amount of oil because it is somewhere between 5.6 billion barrels and 16 billion barrels. If it is half that, it is as big as Prudhoe Bay, which has supplied the Nation with 25 percent of the total crude oil produced in this country in the last 27 years.

I will have a chart later. I didn't want to run the risk of having one of my friends from Texas acknowledge that, indeed, ANWR has more oil in it than the proven reserves in one of our largest producer States, and that is the State of Texas.

I think we have to keep the argument in perspective. We have the technology. We can do it right.

When we get on the debate, I trust Members will reflect on the reality that this is one of the biggest jobs issues in the country. Organized labor feels very strongly about the reality of keeping these jobs in the United States.

I will make one more point. As the occupant of the chair is aware, there is a great deal of shipbuilding in Louisiana, Mississippi, and southern California. There is a whole new fleet of tankers being built. They are being built because U.S. law mandates that the movement of oil between two States goes in a U.S.-flagged vessel built in a U.S. shipyard with U.S. crews. Let me tell you, our oil that goes from the Port of Valdez down there, clear down to the west coast of the United States, primarily in the Puget Sound area, the San Francisco Bay area, and the Los Angeles harbor area—these new ships mean jobs in the shipyards, jobs on the ship, and U.S.-documented vessels.

So it is a big jobs issue. The most significant portions of our merchant marine are these tankers that haul the oil.

Washington, Oregon, and California are going to get oil. What happens? They will get it from Iraq, Iran, and Saudi Arabia. It is going to come over in foreign vessels that do not have double bottoms—all our new vessels have double bottoms—and it is going to come over with foreign crews, and they are not going to have the deep pockets of Exxon. I point out what this means in terms of sound, high-paying U.S. jobs.

Let's do what is right for America. I appreciate the time allotted to me and unless there is another Senator seeking recognition, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. NELSON of Nebraska). Without objection, it is so ordered.

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent that I be recognized as in morning business for the purpose of introducing a bill.

The PRESIDING OFFICER. Without objection, it is so ordered. The Senator from California is recognized.

Mrs. FEINSTEIN. I thank the Chair.

(The remarks of Mrs. FEINSTEIN pertaining to the introduction of S. 1796 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

The PRESIDING OFFICER. The Senator from Florida.

BLACK HISTORY MONTH

Mr. NELSON of Florida. Mr. President, as our celebration of Black History Month now comes to a close, I want to acknowledge some of the rich and ongoing contributions made by my State's African-American citizens. Of course, the efforts of African Americans in Florida and throughout our Nation's history should be recognized every day, not just during Black History Month. Back home in Florida, our State has been blessed with a remarkable number of prominent African-American citizens who have served our State and Nation with distinction in a variety of fields. I want to mention a few.

Although not a Florida native, just think of the contributions of Mary McLeod Bethune. She founded one of the oldest and most prestigious black colleges, Bethune-Cookman College. In addition to serving as President of Bethune-Cookman, she also was one of the leading civil rights activists of her time, and the first African-American woman to serve on a Presidential commission. Bethune-Cookman College is one of our stellar institutions of higher learning. It is located in Daytona Beach. I have had the privilege of attending that college and visiting with the distinguished president, who has been there over 2 decades, Dr. Oswald Bronson.

The spirit that school has today carries on in the memory of Mrs. Mary McLeod Bethune. It is just amazing. I have seen that in the classrooms. I have seen it in their auditorium. I have seen it on the football field and the band performing at half time. It is a wonderful and rich part of our heritage in Florida.

That is just one. Let me name another: Justice Joe Hatcher. He was born in Clearwater and, in 1975, Judge Hatcher became the first African American elected a justice of the Supreme Court of Florida. He later went on to serve with distinction on the Federal court of appeals, a body that sits in Atlanta, although he maintained his office right there in Tallahassee. His election to the State supreme court marked the first time an African American won a statewide office since Reconstruction.

I will give you another one: James Weldon Johnson, the first African-American executive director of the NAACP, author, lyricist, creator of the National Negro Anthem, and poet. He was born in Jacksonville.

And then Eatonville, Florida's native, Zora Neale Hurston. She was a folklorist, anthropologist, and acclaimed author of such works as "Their Eyes Were Watching God," and "Of Mules and Men." I got to know about her heritage when I had the privilege, as a young Congressman, of representing Eatonville, FL, in the late 1970s as part of my congressional district.

I will give you another one: Timothy Thomas Fortune. He was born up in the panhandle in Marianna, FL, Jackson County, in 1856. He was the editor and publisher of a paper called the New York Age, and his paper was a platform for defending the civil rights of both northern and southern Blacks.

Here is one you will recognize: Asa Philip Randolph, founder of the Brotherhood of Sleeping Car Porters. He was born in Crescent City, FL. The Brotherhood was the first union founded by and for African Americans.

Not far from there was born, in Palatka, FL, John Henry Lloyd. He was a baseball player and a manager in the Negro leagues, and was considered one of the greatest shortstops in the game. In 1930, as a member of the New York Lincoln Giants, he played in the first Negro League game in Yankee Stadium against the Baltimore Black Sox.

Now I am going to tell you a name that everybody recognizes today: Sidney Poitier, the renowned actor who won an Academy Award in 1964 for his performance in "Lilies of the Field." He was born in Miami.

And our contemporary, my colleague, Winston Scott, one of our Nation's pioneering African-American astronauts, was born in Miami. In 1992, Winston was selected by NASA and served as a mission specialist on flights in 1996 and 1997, and today he has returned to his alma mater, Florida State, where he serves as the dean of students. Winston had logged a total of 24 days, 14 hours, and 34 minutes in space.

Augusta Christine Savage was born in Green Cove Springs, just south of Jacksonville. In 1923, Augusta Christine Savage was among 100 young American women selected to attend the summer program at Fontainebleau, outside of Paris, but was refused admission once the program directors became aware of her race. In the mid-1930s she founded and became the first director of the Harlem Community Arts Theater, which played a crucial role in the development of many young African-American artists. In addition, she became the first Black elected to the National Association of Women Painters and Sculptors.

A Washington hero, GEN Chappie James, the first African-American four-star general, was born in Pensacola. As a young State legislator, I had the privilege of meeting General James. He was right back from Vietnam where he had flown so many combat missions. He became one of the famed Tuskegee Airmen, earning his wings back in World War II and going on to serve as a pilot, a fighter pilot in Korea and Vietnam. In 1975 he received his fourth star and he became the commander of the North American Air Defense System.

I could go on. As we remember the contributions of these and many others, and so many other African-American citizens, duty calls us to remember the difficulties this community faced as our Nation traveled through the struggle to achieve full civil rights for all people. I want to highlight two small initiatives that should help us preserve these important memories.

Florida now is home to more than a dozen former Negro League baseball players. These men are nearing the end of their lives, and they have never received a pension for their time in the league, unlike their counterparts who played Major League baseball. Although Jackie Robinson broke baseball's color barrier in 1947, baseball didn't truly integrate until a decade after Robinson's historic feat. It took all the way up to 1959 for Major League baseball to integrate the last team.

No doubt their fans appreciate their contribution to baseball, but by refusing to grant a pension to these old-timers who played in a segregated society, Major League baseball is denying them an appropriate reward in their efforts. I am trying to help these men resolve their dispute with Major League baseball so that they can receive a small but important token for their contributions to sports history.

Also throughout the era of segregation, when public facilities were segregated by law, the African-American community of Miami was forbidden to use all of the area's beaches but one, Virginia Key Beach, in Biscayne Bay known as "the Negro beach."

Known in those days as the "Colored Only Beach," Virginia Key Beach was an important place in the lives of African-American families—a place for them to gather and enjoy the pleasures of relaxation beside the ocean. The memories of this place are sweet, even mixed and intertwined with the bitterness and memories of segregation.

Together with my friend and colleague, Congresswoman CARRIE MEEK of Miami, we have sponsored legislation that will help preserve this historic place. Our bill would require the Secretary of the Interior to study and report to Congress on the feasibility of incorporating Virginia Key Beach into the National Park System.

By enacting this legislation, we can preserve its 77 acres of beach and wildlife, while honoring its past and present importance to the people of Florida.

These are examples of some of the small ways in which we can honor the lives and memories of our Nation's African-Americans.

My own State, Florida, has an especially proud history in this regard, as well as a willingness to correct past mistakes.

In 1994, for example, the Florida Legislature passed, and the late Gov. Lawton Chiles signed, the Rosewood claims bill, which provided $2.1 million to survivors and the families of victims of the 1923 Rosewood Massacre.

Last year, the legislature enacted sweeping reforms to give every person an equal opportunity to have his or her vote counted.

You don't want any State to ever have to go through what we went through in Florida in the last Presidential election because there were votes that were not counted. So the Florida Legislature, in 2001, in trying to correct the voting rights abuses, passed legislation to help modernize the system in a Presidential election.

Unfortunately, a $50-billion State budget proposed by the Florida House last week left out the second of two installments of $12 million to help counties replace antiquated, punch-card voting machines.

African-Americans were disproportionately affected by flaws in the election system. And Florida lawmakers have made a commitment not only to that community but also to all the people of Florida to fix the system.

Without this funding, they will have broken their promise.

It would be appropriate at this time of recognizing the achievements of African-Americans for the State House to do its duty and to keep its word so that every vote gets counted.

Today—and every day—let us celebrate African-American achievement both by remembering our past and by recommitting ourselves to the current fight for social, political, and economic equality for everyone.

I thank the Chair for the time to address the Senate.

EXTENSION OF MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent that morning business be extended until 3 o'clock today.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER OF BUSINESS

Mr. REID. Mr. President, for the edification of Members, Senator DODD has been working. I talked to him not long ago. He indicated progress was being made. Even though it appears we are not doing anything, there is a lot of committee work going on around the Hill. With this most important election reform legislation, there is a last-ditch attempt by Senator DODD to see if it can be rescued.

As a number of Members indicated this morning, it would be a real shame if this were held up by virtue of a filibuster, especially when we know that matters go to conference, and with the present makeup we have in Washington, with a Republican President and a Republican House, certainly they should be willing to take their chances with a Democratic Senate.

I hope progress is made and we can resolve the Schumer-Wyden matter. But if we can't, I hope Members look forward to invoking cloture on this most important legislation tomorrow when the vote is scheduled.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. NELSON of Florida. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. NELSON of Florida. Mr. President, I seek recognition and ask unanimous consent that upon the completion of my comments, the Senator from North Dakota, who is sitting in the chair at the moment, be recognized.

The ACTING PRESIDENT pro tempore. Is there objection?

The Chair hears none, and it is so ordered.

PLEA TO THE FLORIDA LEGISLATURE

Mr. NELSON of Florida. Mr. President, I want to follow my remarks of a few minutes ago about Black History Month with an underlining of my concern of what is happening in the Florida Legislature as we speak, which is meeting in the capital city of Tallahassee.

It is almost ironic that at the very time the Senate is considering an election reform bill, of which for that legislation we are having discussions, negotiations, and awaiting agreements to finally come forth so we do not have to come to the Chamber to break a filibuster to pass it—and it is legislation that is going to get wide support once we get to final passage—but it is almost ironic what has happened in the Florida Legislature since we started this legislation 2½ weeks ago when I spoke in this Chamber in favor of the legislation. At that time, I took to the floor complimenting the Florida Legislature.

In the State of Florida, we went through a grueling experience in the Presidential election of 2000. We saw so many ballots that were not counted. We saw clear voter intent that was not followed. There was confusion over the ballots. There was confusion in the construction of the ballot, how it fit together. There was the famous butterfly ballot. We saw how even when voter intent was so clear for example, a first-time voter, who was not familiar with the ballot, would go down the Presidential names and select one name and mark that on a punchcard ballot, and then at the bottom of the Presidential names there was a line, and it said: "Write-in," and they would write in the same Presidential candidate—the voter intent was clear, but that ballot was not counted.

So after that awful experience, before which I had never known anything about error rates in ballot counting—and thank the Good Lord I never had a close election, and little did I ever know there could be the confusion and so many people, in effect, disenfranchised in an election—when we started our election reform bill in this Chamber a couple weeks ago, I took to the floor and complimented the Florida Legislature because it changed all of the punchcard ballots and it appropriated, out of a $50 billion annual budget, $24 million so that the counties could buy new voting equipment and they would never have to go through the confusion of that punchcard voting system again. They would have an optical scan system with a much lower error rate.

That was my compliment to the Florida Legislature. They did right. That was a year ago. But just last week, the Florida House of Representatives did not appropriate, in its appropriations bill, the second $12 million installment to modernize the election system. What in the world are we thinking in the year 2002, when it is almost taken for granted that it is a bedrock principle that registered voters should have the right to vote and to have their vote counted?

So as we continue to discuss and debate—and ultimately we will pass—this election reform bill at the Federal level, let me make a plea to the Florida Legislature: You were so gallant, as leaders in the Nation, after the debacle and the disenfranchisement of the 2000 election, to first step forward with an election reform bill and providing the appropriations to fund that election reform.

Please do not falter now, Florida Legislature. Please, appropriate the second half of that appropriation that was promised a year ago so Florida will not have any serious questions about every Floridian's vote being counted.

I thank you, Mr. President, for the opportunity to speak.

I yield the floor.

The ACTING PRESIDENT pro tempore. Does the Senator suggest the absence of a quorum?

Mr. NELSON of Florida. Yes. I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. NELSON of Florida). Without objection, it is so ordered.

UNFAIR TRADE

Mr. DORGAN. Mr. President, Senator DASCHLE, the majority leader, was in the Chamber today talking about a decision that will be made in the coming days by the Bush administration on the subject of trade disputes that exist with respect to the American steel industry.

What is all this about? It is that the steel industry, as with many other American industries, has been under assault. It has been under assault by unfair trade coming from abroad, products being dumped in our country into our marketplace below their acquisition cost, undercutting our domestic producers. This is unfair trade. It is trade that violates our trade laws. In fact, an International Trade Commission investigation has recently determined that the flood of foreign steel has significantly hurt the U.S. steel industry.

The question the President will decide next week is: What will be the remedy? What will be done about it? If our steel industry is being threatened and assaulted by unfair trade and it is closing plants, going into bankruptcy, laying off workers, what is the remedy? That is the question this administration will answer next Wednesday.

My hope is they will answer this question in an aggressive way. My hope is they will say, we intend to stand up for American steel. My hope is they will say, we intend to stand up for all American producers when confronted with unfair trade. How do you stand up for producers when confronted with unfair trade? You take action against those perpetrating that unfair trade against our producers.

We have something like 10,000 steelworkers in Washington, DC, today who are here demonstrating the point that they are losing their jobs and their companies are going bankrupt. This is about them and their families and their future. They are saying: Give us some fairness in international trade. Stand up for our interests.

It is not steelworkers saying, we want our country to be protectionist. It is not them saying, we want to build a wall around our country and prevent imports from coming in. It is a group of workers who have come to Washington to say: When we are confronted with unfair trade, we expect our Government to be in our corner. We expect our Government to stand with us.

It is interesting that the steel dispute is very much like a dispute we have with Canada on the issue of wheat. The North Dakota wheat producers, with a 301 case, brought a trade case against Canada. That case, after investigation, was recently resolved by the United States Trade Representative saying, yes, the Canadian Wheat Board is a state-sponsored monopoly that engages in unfair trade practices that harm United States wheat growers.

If we have decided Canada is guilty of unfair trade with respect to wheat, what have we done about it? USTR's answer was: We are not going to have any remedies. If we provide relief at this moment, it will violate NAFTA and it will violate our World Trade Organization commitments. Therefore, even though we have decided Canada is guilty of unfair trade practices that injure American farmers, we essentially will do nothing at the moment; we will instead take this to the WTO.

That means that our great grandchildren, if we are lucky, may see action by the WTO. Although they probably won't see it because the WTO considers and takes action behind closed doors. And anyway, it is likely not to take much action at all; if it does, it will be years in the future.

I have talked about the steel dispute and the wheat dispute. In both cases, our producers have been told that those who are competing against us, foreign producers, are doing so unfairly, injuring our workers and our farmers. Yet it is very hard to get relief, to get this country to stand up for its producers.

There are some real storm clouds on the horizon. Our trade deficit keeps rising year after year. The more trade agreements we have, the higher the trade deficit.

This chart shows what has happened. We have the GATT Tokyo Round, and then we have the Uruguay Round, the WTO agreement, and then the NAFTA. We can see what has happened to the trade deficit—up, up, up, over a long period of time.

The U.S. Constitution has something to say about international trade. Article I, section 8, says: The Congress shall have the power to regulate commerce with foreign nations and among the several States, and with the Indian tribes.

That means the authority vested by the U.S. Constitution on matters affecting international trade rests here—not at the White House, but in the Congress, and only here. Yet to listen to Republican and Democratic administrations over the last 30 or 40 years, you realize that, by and large, they think they are the ones in control of trade. Administrations empower negotiators to go out and work out trade agreements that they bring back to the Congress under a provision called fast track. Fast track allows administrations to tie the hands of Members of Congress behind their backs and say: Here is the trade agreement we negotiated—mostly in secret—and you have no right to offer any amendment to change any of it at any time. That is fast track.

Fast track is fundamentally undemocratic. I voted against it in the past. I would not support giving it to President Clinton; I will not support giving it to President Bush. Go negotiate treaties, if you wish—but good ones. If you do, the Congress will approve them. If you don't, they deserve to be changed or killed.

Let me talk for a bit about some of these treaties. We've had fast track in the past; fast track was something given to previous Presidents, including President Reagan and the first President Bush. We negotiated an agreement with Canada, and the agreement with Canada went through the House Ways and Means Committee. I was serving in the House at the time. The vote for the United States-Canada trade agreement was 34 to 1. I cast the lone vote against it. There were 34 for it, 1 against.

I believed I was right at the time, and events certainly demonstrated that was the case. We took a small deficit with Canada and doubled it very quickly. They dumped grain into this country, injuring our farmers, and we have had trouble ever since. Do you know why we could not do anything about the provisions in that agreement that traded away the interests of family farmers? Because you can't offer amendments to trade agreements with fast track. So the administration said: Here it is. We negotiated it and, by the way, we had secret side agreements we will not tell you about. You accept it, yes or no. If you don't like it, there can be no amendments because fast track ties your hands behind your back. That is what happened with that trade agreement.

Not long after that, I drove up to Canada with a man named Earl in a 12-year-old, orange, 2-ton truck. The truck was carrying 150 bushels of U.S. durum wheat. All the way to the Canadian border, we saw Canadian 18-wheelers coming into this country, hauling Canadian wheat into this country. There was 18-wheeler after 18-wheeler. In fact, it was a windy day, and even though they had tarps on their trucks, the grain kept spilling off, and it was hitting our windshield all the way to the border. We had that 12-year-old, little, 2-ton orange truck. We arrived at the border having seen dozens of Canadian trucks hauling grain into this country. We were stopped at the border and told: You can't take that 150 bushels of U.S. durum wheat into Canada. We asked: Why not? They said: Because we won't let you in.

All the way to the border, we saw them coming into our country, but we could not take the product of one little orange truck into Canada. Is that fair trade? I don't think so.

The administration turned from Canada to Mexico and did a trade agreement with Mexico called NAFTA. We wrapped Canada and Mexico together. NAFTA sure didn't work. I voted against that as well. We had a very small trade surplus before NAFTA, and we turned that into a very big deficit. Now we are up to our neck in troubles with NAFTA. We have troubles trying to get high-fructose corn syrup in, we have unfair trade with potatoes—you name it.

After we negotiated to reduce tariffs from United States goods going into Mexico, the Mexicans devalued their peso 50 percent, which meant that all the work done to get rid of the 10- or 15-percent tariffs didn't mean anything. They obliterated that by simply devaluing the peso.

What else are we facing? I will give you some examples. Automobiles. We don't make automobiles in North Dakota, but this is a national issue. Let me show you this chart. Absurdities in trade. Last year, we had automobiles coming into the United States from Korea. Last year, we imported into the United States 570,000 automobiles from the country of Korea—570,000 cars. Do you know how many cars the United States sent to Korea? One thousand, seven hundred. I will say that again. We had 570,000 Korean cars driven off boats to be sold in the United States. Going the other way, we had 1,700 United States cars into Korea. Do you know why? If you try to sell an American car in Korea, they will find all kinds of ways to stop you. Not just tariffs, but all kinds of non-tariff barriers, like intimidation of potential buyers with the threat of a tax audit. They want to just ship their cars to our country, and make it one-way trade. If you are somebody working for a car company in this country, you have a right to ask: Who on Earth is minding the store if you let this go on? Is this fair trade? Clearly, no. Somebody ought to stand up on behalf of workers in this country and say we are not going to let that happen.

What about beef to Japan? Every pound of American beef going to Japan has a 38.5-percent tariff on it, and that is 12 years after a beef agreement with Japan. Every pound of T-bone steak going to Tokyo has a 38.5-percent tariff. That is absurd.

Right now, we are fighting and trying to get soybeans into China because they are trying to squeeze the neck of the bottle, just after we had a bilateral trade agreement with China. The list goes on and on and on.

We have a trade agreement with Canada, as I mentioned. Do you know what happens with Canada? They move sugar from Brazil into this country, in contravention of American law, in what they call stuffed molasses. Then they take the sugar out of the molasses and send the molasses back, and they do it again and call it stuffed molasses. It is done every day. That is fundamentally wrong. Yet nobody is willing to stand up on behalf of producers.

Winston Churchill said that when he was a kid, he got into a debate with Atlee in Parliament. As the story went—it was an aggressive debate—he told Atlee: When I was a child, my parents took me to the carnival, and they had a sideshow. At the sideshow, they had these canvas flaps that described what wonderful, extraordinary, outrageous things you were going to see in the sideshow. One of them advertised the boneless wonder—a man apparently born without bones, if you can imagine.

Churchill said: My parents felt I was far too tender in age to be taken into a sideshow to see the boneless wonder. Then, standing on the floor of the Parliament when he was in this debate with Atlee, he said: It has taken 50 years, but I can finally put my eyes on another boneless wonder.

When I think about the boneless wonder, I think about the people who are supposed to be negotiating trade for us and enforcing it and standing up for American interests. They should be working hard on behalf of farmers, steelworkers, auto workers, and so many others in this country, who are part now of a global economy, demanding on their behalf that the rules of trade be fair.

We had a hearing in Congress in which we heard about conditions under which carpets or rugs were made for export to this country. We heard about warehouses where young children, 9, 10, 11, and 12 years old, are using needles to make these carpets that will be sent to Pittsburgh, Los Angeles, and Denver—into the American marketplace. Locked in these warehouses, the children had gunpowder put on the tips of their fingers, and it was lit with a match; their fingertips were burned so they would scar, and these 10- and 12-year-old kids, with scarred fingertips, could then use these needles with impunity, making these carpets, and it would never hurt their fingers because they were now scarred sufficiently to be able to resist the needle's sting. That is how they got more productivity out of 10- and 12-year-old kids. They were making carpets that were being sent to this country.

The question is: Is that something we ought to allow? Is that fair trade? Is that a product we want on American markets? The answer is no, it is not fair trade. We have the marketplace being flooded with products—the products of forced child labor anywhere in the world. It is not fair trade for someone to be paid 16 cents an hour to make shoes in a factory somewhere, and ship it to Pittsburgh, and compete with somebody working in a factory in this country who would be required to be paid some sort of a living wage—and to work in a factory that will not pollute the water and air.

We fought 75 years in this country for those basic conditions. Now we have people saying, let's pole-vault over those issues, and we will go to Bangladesh, or to Indonesia—we will go someplace where we don't have to worry so much about those restrictions, and we will ship the product back in to Toledo, or Buffalo, or Los Angeles.

The global economy needs to define fair trade. We in the U.S. Government need to define for ourselves when and under what conditions we will stand up for American producers. Or is there not a case at all where our Government is willing to stand up for American producers and demand fair trade?

This is an issue that is not going to go away. We will have the debate over so-called trade protection authority. That is a euphemism. You know, in this town, when something becomes controversial, you just change the name.

Fast track became TPA, trade promotion authority. But a hog by any other name is a hog. We are talking about fast track.

In the coming weeks, the President will ask for fast track. I keep coming back to article I, section 8, which says that:

> The Congress shall have Power To . . . regulate Commerce with foreign Nations. . . .

I just ask all of those who are concerned about the decision being made next Wednesday on steel, to ask whether the next group of trade negotiators should go out, lock the door, keep the American public out, negotiate a deal, and then come back to the Congress and say: you have no business suggesting any change under any circumstance to the deal we made.

My hope is we could just once find an administration, Democrat or Republican—it does not matter to me—who would hire trade negotiators and have the will and the backbone and the strength to stand up on behalf of American producers and demand fair trade.

I am so tired of these mountains of Jell-O that serve in public office and negotiate incompetent agreements, sell away the interests of American producers, and then say to us: Oh, by the way, you are correct; this trade is unfair, but we elect not to do anything about it. That is just wrong. I guess on every occasion I have spoken about this, I have suggested—mostly in jest—we ought to have jerseys for our trade negotiators. We have them for the Olympians and they can look down and know they are for the USA. What about jerseys for trade negotiators so that occasionally when they are in meetings, behind those locked doors, they can look down and say: Oh, yes, that's right, now I remember for whom I am negotiating.

Most of our trade policy has been negotiated as foreign policy. Most of it has been eggheaded foreign policy now almost a quarter of a century. For the first quarter century after the Second World War, it was all foreign policy. We just granted trade concessions everywhere, and it did not matter because we were bigger, tougher, and we could compete with anybody around the world with one hand tied behind our back. So our trade policy was almost exclusively foreign policy. Then we had competitors who developed into shrewd, tough, international competitors in the global economy, and we are still running around giving away concessions, tying our hands behind our back, negotiating agreements we will not enforce, and shame on us for doing that.

This country needs an economy with a manufacturing base. We cannot remain a world-class economy unless we have a manufacturing base. We need good jobs that pay well, that sustain a strong manufacturing base in our country.

There are those in this town who divide the trade debate into two thoughtless categories: You are either a smart, incisive person who can see over the horizon and understand that global trade is benefitting our country, or if you say anything at all on the other side of the issue, you are some xenophobic stooge who does not get it, has never gotten it, and wants to build walls around America to keep foreign products out. Of course, that is a thoughtless way to describe relative positions on trade. There is a much better way to describe this country's trade interests, in my judgment, and that is to say this country ought to be willing, ready, and able to compete anywhere in the world with any product as long as the competition is fair.

The doctrine of comparative advantage is a fair doctrine, in my judgment. If someone can make a product better than we can, then by all means let's find a way to acquire that product from a country that has a natural advantage. But the impediments to fair trade have very little to do with comparative advantage; they have to do with political advantage. They have to do with countries that decided they do not want minimum wages; that think it is fine to have 16-year-old kids working 16 hours a day being paid 16 cents an hour; they think that is fine.

This country fought 75 years to say it is not fine, and the American marketplace ought not be open to any and all schemes of production around the globe, regardless of how inhumane and unjust they might be. It is not acceptable to us as consumers and ought not be acceptable to us as public officials who have an obligation to stand up for American producers, for fair trade.

Mr. President, that is a long meandering road to describe the decision next Wednesday that this administration has to make on the subject of steel. My hope is that the administration will make the right decision. I have not seen an administration in some 20 years that has a record in international trade that I think benefits this country and its producers in a way that is fair.

UNANIMOUS CONSENT REQUEST—S. 94

Mr. DORGAN. Mr. President, I notice my colleague from Wyoming is in the Chamber. I did give notice that I was going to propound a unanimous consent request, and if he is in the Chamber for the purpose of representing the minority, I will propound that unanimous request at this point in time.

I spoke yesterday about the subject of the wind energy production tax credit, which expired at the end of last year. The expiration occurred because it became embroiled in the back and forth over the economic recovery package and the stimulus plan. The fact is, the Congress ended its year and its work without having extended the tax extenders—there are some half dozen of them—one of which is the tax credit for wind energy.

In my judgment, it is just fundamentally wrong for us not to take the action we need to take right now to extend that production tax credit for wind energy.

I had a conference in Grand Forks, ND, last week when the Senate was not in session. The conference was on wind energy. Over 700 people showed up. There is great interest in this from all over the country. North Dakota is No. 1 in wind energy potential. The new technology wind turbines are remarkable. To be able to take energy from the wind, put it in a transmission line and move it around the country is remarkable.

There are plans on the books right now. A CEO from one of the largest companies came to see me 3 weeks ago. He said: I have plans for 150 megawatts, 150 one-megawatt towers. It is going to cost $130 million to $150 million. The plans are done. He said: They are ready; I have the money. That is already developed. But it had to be put on the shelf until Congress extends the production tax credit.

We do not seem to think it is urgent. I believe it is urgent.

My colleague, Senator REID, asked he be remembered on this issue because he supports this. He has companies in Nevada with plans on the shelf. They are ready to go, but they are held up. The same is true in many other States in the country.

For that reason, I ask unanimous consent that the Finance Committee be discharged from further consideration of S. 94, a bill to extend tax credits for wind energy; that the Senate proceed to its immediate consideration; that the bill be read a third time and passed; and that the motion to reconsider be laid upon the table.

The PRESIDING OFFICER. Is there objection?

Mr. THOMAS. Mr. President, I object.

The PRESIDING OFFICER. Objection is heard.

Mr. DORGAN. Mr. President, I understood there would be an objection. I want to demonstrate again—and I hope I can do this in the coming days—there are many Republicans and Democrats serving in the Senate who know we ought to pass this bill, who want to get this done. We need to find a way to make this happen. This is urgent. Yet we are sort of at a parade rest on a range of areas.

We can talk about who is at fault. I do not intend to do that. I am much more interested in trying to get this started than I am in trying to figure out why it stalled. Let's see if we can work together to accomplish this goal. We know it needs doing. We are going to turn to the energy bill next. We know having this production tax credit extended is important. It ought to be done now, not later.

Mr. President, I understand my colleague from Wyoming was required to object to this. I will not go beyond that except to say I hope he joins me and others as we find a way to extend these tax credits and that we do so soon.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Wyoming.

Mr. THOMAS. Mr. President, I, too, am supportive of wind energy and the alternatives, of course, but we have been waiting—talk about waiting, we have been waiting for months to get to an energy bill, which has been objected to and held up by the folks on the other side of the aisle. We are finally going to get to it, and certainly this issue ought to be part of an overall energy policy, not a stand-alone bill.

So hopefully next week we will have a chance to get to energy. I do not think there is anything more important before this Congress than to have an energy policy in this country. We have talked about it now for months. I am on the Energy Committee, as well as the Finance Committee. We have talked about energy for a very long time. We did not have a chance to put it together in the committee but, rather, the majority leader took it away from the committee and brought it to the floor.

So now we find ourselves in a very difficult position by putting together a very complex bill, but hopefully starting in the next day or two we will have an opportunity to do that. I hope my friend from North Dakota will have an opportunity to talk about wind energy and the opportunities to do something with it at that time. It seems to me that is the appropriate time to do it.

ELECTION REFORM

Mr. THOMAS. Mr. President, I will now talk a little bit about election reform. Of course, that is the bill that is before us now, but we have not been able to move it forward in the last day and a half or so. Whether we will be able to or not, I do not know. No one disagrees, of course, with seeking to do something to make elections fair; to make the changes, if there need to be changes made, to make elections available to everyone on a free basis, an open basis, and a legal basis.

I am glad the Senate has taken up this bill. I happen to believe the major responsibility for voting, whether it be in Florida or whether it be in Wyoming, lies with the State. Where there are problems with voting, the State election officers, it seems to me, have the primary responsibility to do that.

One of the issues that has come up—not unusually, I suppose; it comes up in many areas such as health care, education—there is a difference between how you do things in New York City and Meeteetsi, WY. That has kind of become an interesting issue with regard to setting up voting standards and the requirements that need to be made for voting precincts. When one has a precinct that has thousands of people in it, that is one thing. Go to Wapiti, WY, with a precinct that may only have 30 to 40 people in it; that is quite different.

When I went home last weekend, we were talking about the proposal initially that there had to be a paved parking lot and access for the disabled. Everyone wants the disabled to be able to vote, and they were saying sometimes we have to look hard to find a place that has a toilet, so we need to do something about that.

I have talked with the chairman, and certainly we could, I think, come to some kind of an agreement. This bill currently requires each polling place to have a machine that is adaptable for ADA. I am a great supporter of ADA, as a matter of fact, and have worked very hard on that, but I think we have to be realistic about how it is dealt with. We have curbside voting, for example. We can do that for people who are disabled. We have these certain kinds of machines in every county seat, but to require that in some 400 rural polling places, as we have in Wyoming, would be extremely difficult. Even though the return sometimes is, "Well, the Government is going to pay for it," regardless of who pays for it, some of it is not good use of taxpayer dollars.

I do not know exactly how it will end up. Perhaps we will not be having a bill if we cannot move it any more than we have. Perhaps we can continue to talk to the chairman, who seems to be receptive, knowing there are differences in how it is dealt with in one place or another.

I do want to say we have talked with the elected officials in Wyoming. As I said, our voting has been very satisfactory. We have a good many registered voters. We had more voters last time than we had registered before the election who came in and could register on election day. It is really quite simple.

We are concerned, if we were required to have very complicated machines in every polling place, that that would not be appropriate. Instead, if we could offer the flexibility to where they could make proposals as to how to deal with voting for disabled and other voters, those could be viewed, and if they were acceptable, then they could do it the way they wanted to do it in that community.

In any event, I do not know whether we will have an amendment. If that becomes necessary—or perhaps we could have a colloquy with the chairman to deal with this in the conference committee—we can do that.

TRADE AUTHORITY

Mr. THOMAS. Mr. President, I have to respond just a little bit to my friend from North Dakota who talked about trade. Obviously, trade is very important for all of us. I am a little interested in how he thinks 435 people could negotiate a trade agreement. The idea is that the trade agreement needs to be negotiated and then brought to the Congress for approval. If it is not approved, it is not approved. I cannot imagine us trying to set up a trade bill and 435 folks trying to deal with that.

So I am not in agreement entirely that we ought to take away the trade authority to negotiate and then bring it to the Congress. Presidents have had that, and hopefully they will continue to have that.

The main constituency of the Senator from North Dakota, of course, is agriculture. Forty percent of agricultural products go into foreign trade. Obviously, we all want trade agreements to be fair and advantageous.

I also have to respond a little bit to the molasses issue. We worked on that for several months, and it has been cured, as a matter of fact. The idea that nobody stood up to it is not accurate. The court has ruled, and that is no longer being done. It was being done, and it was wrong, but we brought it up through the court, and it is no longer the case.

So trade is always difficult, and certainly I feel strongly about it from time to time, too. We are in a world where billions of dollars move around the world every day. We are going to have to trade. We are behind other countries in making trade agreements in South America, for example. So hopefully we can find a way to come up with agreements that will allow us to trade with other countries and, at the same time, of course, be as fair as possible.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXTENSION OF MORNING BUSINESS

Mr. REID. Madam President, I have been meeting with Senator SCHUMER, Senator DODD, and others. There is some hope we can resolve this vexatious issue that has been so troublesome on this legislation. We are in the process of trying to work this out now. Senator DODD has been conferring with members of the minority all day in hopes that something can be resolved.

I ask unanimous consent that morning business be extended until the hour of 4 p.m. today.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXTENSION OF MORNING BUSINESS

Mr. REID. Madam President, I ask unanimous consent that morning business be extended until 4:30 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant bill clerk proceeded to call the roll.

Mr. SPECTER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. DAYTON). Without objection, it is so ordered.

Mr. SPECTER. Mr. President, I ask unanimous consent that I be allowed to speak up to 15 minutes in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

DUMPED STEEL

Mr. SPECTER. Mr. President, I have sought recognition to comment on a meeting which has been held with President Bush and Members of Congress from steel States concerning the plight of the steel industry and the decision which the President is scheduled to make on or before March 6, 2002. The President has initiated proceedings under Section 201, which activated an inquiry by the International Trade Commission. The International Trade Commission has made a recommendation that there be remedies to stop subsidized and dumped steel from coming into the United States in violation of U.S. law and international trade law. The President granted our request for a meeting so that we could state to him our views on this important subject.

The Senate Steel Caucus has 34 members from 24 States. The House Steel Caucus has 133 members. I was Chairman of the Senate Steel Caucus until Senator JEFFORDS made his famous declaration. Now I am Vice Chairman with Senator JAY ROCKEFELLER serving as Chairman.

Senator ROCKEFELLER and I were at the meeting with the President, as were Senator SANTORUM, Senator DURBIN, Senator SESSIONS, and Congressman ENGLISH, Chairman of the House Steel Caucus. We presented the case to the President that this is really the critical stage, that it is not inaccurate to say at this time that it is a do-or-die situation.

There have been tens of thousands—really hundreds of thousands—of jobs lost in the steel industry. There have been bankruptcies literally too numerous to count from the steel companies, and there has been an onslaught of steel coming into the United States which is subsidized and dumped.

When the term "dumping" is used, it means that steel is sold in the United States at a price lower than it is sold, for example, in Brazil where it is manufactured. So it is a calculated effort to sell at a cost so low that it undercuts the legitimate costs of American steel, and the costs are customarily calculated at the cost of production, plus a reasonable profit. The steel which comes into the United States, in addition to being dumped, is subsidized very heavily by foreign governments, so an American steel company is compelled to compete against a foreign government. That is something you cannot compete with, leading to the characterization of the playing field, which is not level.

We presented to the President the consideration that it really require what Commissioners on the International Trade Commission have recommended. The President said: Where did you come up with the idea of a 40 percent tariff for 4 years? The response was: Well, that is what the Republican members of the International Trade Commission said. That is necessary in order to give the American steel industry an opportunity to restructure itself.

There have been very extensive conversations with Mr. Leo Gerard, President of the United Steelworkers of America, and Mr. Tom Usher, President of USX, regarding the steel tariffs. In discussing the remedy, one of the critical parts about imposing a tariff is that it will call upon the foreign steel companies to restructure their steel. There is excess capacity in the world at the present time, and it comes to the United States where it is dumped because we are a great market. We have an open market. We believe in free trade, and I believe in free trade. An essential ingredient of free trade is to not allow subsidies or dumping, which is illegal. Free trade also has the critical component of fair trade, which is a part of free trade.

These considerations were presented. The issue arose as to what the impact would be upon the American consumer. It has been carefully calculated. A tariff of 40 percent would lead to a price increase on steel to around 8.4 percent, a negligible cost on the purchase of an automobile or a refrigerator. It is not going to change the American economy, but it is shortsighted for consumers to seek that kind of cheaper steel because we know for sure that if, as, or when the American steel industry is unable to meet domestic demands, we are at the mercy of foreign steel prices, which are going to go up. It is a boomerang consideration. It is not in the consumers' interest in the long run to have that kind of illegal competition come in and drive the American steel industry out of business.

All of these arguments were presented to the President, a meeting which lasted for the better part of an hour. The President was noncommittal, subjective as to how he was regarding the arguments. He made a number of comments. I think it is fair to say that he was sympathetic to the arguments. He made the point that he was prepared to make the tough decision without regard to political costs or whether Europe was going to be mad over what the decision would be.

President Bush has shown a remarkable tendency to be willing to make his own judgment, to go his own way. He has shown that in the War on Terrorism. He has sometimes been criticized for unilateralism by the United States, but he is a person who studies a situation very carefully, a very good listener who makes up his mind and then is prepared to make a judgment, in accordance with what his conscience says is in the national interest.

Overall, I thought it was a very good meeting, and I am optimistic. It is hard to say much more than that without creating false hope or false impressions.

Earlier in the day there was a rally on the Ellipse, which was calculated to be within earshot of the President. The speaker's stand was set up. The Chair was there, as were many of our colleagues in the Senate. We heard quite a number of speeches, and an enormous number of steelworkers, men and women, were there. The crowd was estimated to be at 25,000. I think that was a conservative estimate. Mr. Leo Gerard, President of the United Steelworkers of America, said they gave out 18,000 tokens. They had to bus people into RFK Stadium—there was no place to park the buses—and have them take the subway. Even when the rally had run for almost an hour, there were still people streaming in.

As I was on the speaker's podium and looked over at the South Portico, I could not tell if the President was there listening or not. However, I think he was within earshot. One of the great things about America is our right to assemble, even within earshot of the White House, as well as the right to freedom of speech and the right to petition the Government.

This whole issue has had a very thorough hearing. It is a matter of great importance. It is a matter of importance to America to have a steel industry. Without a steel industry, what do you do for national defense in time of a national emergency? Without a steel industry, what do you do if you are at the mercy of foreign suppliers? We have laws to stop dumping in subsidy. They are not enforced.

Years ago, I introduced legislation for a private right of action. It has been very difficult to get enforcement proceedings. Through the International Trade Commission, they are laborious. They can be upset easily. By the time they take effect, the critical period has passed. They have not been adequate.

Now, that the President has introduced, to his credit, the Section 201 proceedings, there is a chance for real action. Under the law, the decision has to be made by March 6, 2002, which is next Wednesday. To repeat, I am optimistic there will be a good result.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. SPECTER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

NOMINATIONS

Mr. SPECTER. Mr. President, I have sought again recognition to comment on the pending nomination of District Court Judge Charles Pickering who is up for consideration for the Court of Appeals for the Fifth Circuit. I had spoken briefly on this subject yesterday and had stated my intention to support Judge Pickering because he is a different man in 2002 than he was in the early 1970s when he was a Mississippi State senator.

The world has come a long way in the intervening 30 years. Attitudes have evolved. Judge Pickering has evidenced his sensitivity to civil rights issues. He has been praised broadly by people who know him from Laurel, MS, for taking on the leader of the Ku Klux Klan in a way which was physically endangering to Judge Pickering himself.

I noted yesterday, and I think it worth commenting today, the votes probably will not be there to send Judge Pickering from the Judiciary Committee with an affirmative vote. It looks to me as if it will be a party-line vote of 10 to 9. Regrettably, there is a great deal of partisan politics in the way judges are confirmed by the Senate. Regrettably, that is a practice regardless of which party is in control of the White House and which party has control of the Senate.

When President Clinton, a Democrat, was in the White House, sending over nominations, I expressed my personal dissatisfaction at the way they were handled by the Republican-controlled Senate, Republican-controlled Judiciary Committee. I crossed party lines and voted for Judge Paez, Judge Berzon, Judge Gregory, and the nomination of Bill Lann Lee. Now we have the situation reversed: A Republican President, President George W. Bush, and a Judiciary Committee controlled by the Democrats.

It is time for a truce. It is time for an armistice. We ought to sign a declaration if necessary to set forth a procedure to take partisan politics out of judicial confirmations. That is present very decisively with Judge Pickering. There is an element expressed by some members of the Judiciary Committee on the so-called litmus test, with some people believing that unless a judicial nominee is willing to endorse Roe v. Wade on a woman's right to choose, that individual should not be confirmed to the Supreme Court—really, an effort to place Roe v. Wade on a level with Brown v. Board of Education. But it is clear no one can be confirmed today who said Brown v. Board of Education should be reversed.

When the nominees are questioned before the Judiciary Committee, they frequently will say: I won't answer that question; it is a matter which may come before the court. That is customarily accepted. If someone were to say that about Brown v. Board of Education, not affirming that conclusion—that the decision ending segregation is a vital part of America—I think that person could not be confirmed. To establish that standard for Roe v. Wade I think is very contentious, but that awaits another day.

The issue of taking partisan politics out of judicial selection is one with us right now. Earlier this week, Judge D. Brooks Smith, who is a chief judge of the U.S. District Court for the Western District of Pennsylvania, a person recommended for that position by Senator Heinz and myself back in 1988, was confirmed and is now up for the Court of Appeals for the Third Circuit. Although not as heavily overlaid as Judge Pickering's confirmation was, there is an element of partisanship as to Judge Smith. I believe he has answered the questions adequately, and I am cautiously confident he will be confirmed.

It is my hope that if I am right—hopefully, I am not right and Judge Pickering will be confirmed by a majority here—if it turns out to be a vote along party lines, I am hopeful the Judiciary Committee will send Judge Pickering for action by the full Senate. There is precedence for that. Judge Thomas was not recommended by the committee and received a tie, 7-to-7, vote. That meant it failed. But by a 13-to-1 vote, the Judiciary Committee sent Judge Thomas, who was then a circuit judge, to the Senate, where they voted 13-to-1 that the full Senate should consider him. The full Senate confirmed him 52 to 48.

Judge Bork received a negative vote of 5 in favor and 9 against, and then on a motion to send to the floor, Judge Bork got 9 votes that the full Senate should consider him, with 5 members of the Judiciary Committee dissenting.

In the old days, we used to have the Judiciary Committee bottleneck civil rights litigation, stopping it from coming to the floor.

I believe on the judicial nominations with the overtones of partisanship, this is a matter which ought to be decided by the full Senate. I urge my colleagues to give consideration that in the event there is not an affirmative vote in committee, at least Judge Pickering ought to have standing to have the full Senate consider his nomination.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXTENSION OF MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent morning business be extended to the hour of 5:30 today.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. DASCHLE. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. CARNAHAN). Without objection, it is so ordered.

ORDER OF BUSINESS

Mr. DASCHLE. Madam President, there have been discussions all day long with regard to the so-called Schumer amendment, the matter involving photo identification and the election reform legislation. I think it is accurate to say that while no resolution has been reached, the discussions continue.

This has been an unfortunate and very unproductive period of time, but nonetheless I think it is appropriate at this point to announce there will be no more rollcall votes today. We will be in session tomorrow, and there is a likelihood that we will have at least a cloture vote. There may be other votes as well. So Senators should be advised that at least in the morning tomorrow there will be votes, perhaps beginning at 10 o'clock.

So we will keep Senators informed of our progress. We will not be going out of session tonight. My hope is we might still resume debate and further consideration of the election reform bill, but I think the time has come to recognize that at least if votes could be cast, we could postpone those votes until tomorrow. So no votes tonight but votes certainly in the morning.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. CLINTON). Without objection, it is so ordered.

MORNING BUSINESS

Mr. REID. Madam President, I ask unanimous consent the Senate now proceed to a period of morning business with Senators allowed to speak for up to 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

ELECTION REFORM

Ms. STABENOW. Madam President, I would like to express my strong support for the Schumer-Wyden amendment to S. 565, the Martin Luther King Jr., Equal Protection of Voting Rights Act of 2001. While one of the important goals of this legislation is to prevent voter fraud, we must be careful that we do not go so far that we keep eligible voters out of the electoral process.

This bill currently requires first-time voters who registered by mail to provide either a photo ID or a copy of a utility bill, bank statement, a Government paycheck or other government document that shows the name or address of the voter when they go to cast their vote. While this may sound like a reasonable requirement on the surface, the practical consequences of this requirement could easily prevent countless eligible voters from voting.

For example, senior citizens, who vote in large numbers, often do not drive and therefore, do not have a driver's license to use as a photo ID. Voting age high school and college students, a group that we need to encourage to vote and participate in the democratic process, may not have a photo ID, and certainly will not have a Government paycheck or a utility bill in their name. A photo ID requirement also would place a heavy burden on the millions of Americans with disabilities who do not drive or do not live independently so that their name would be listed on a bank statement or utility bill.

Finally, a photo ID requirement could have an adverse impact on minority voters. Immigrants who have newly become U.S. citizens and come from countries where governments instill fear instead of trust, could be intimidated by these requirements and might be afraid to vote.

The Schumer-Wyden amendment allows States to use signature verification and attestation, in addition to a photo ID and government checks, to verify voters; or a State can opt to use only a signature verification system. This amendment will allow us to be just as tough on voter fraud without turning away eligible voters.

In Michigan, we have several laws that effectively prevent voter fraud, without disenfranchising eligible voters. First-time voters who registered by mail are required to vote in person the first time they cast a ballot. Michigan also requires a voter signature for all voters at the polls, and has a signature verification system to confirm a voter's identity. These measures protect our electoral system against fraud, without undermining voter participation.

I urge my colleagues to support the Schumer-Wyden amendment that protects our electoral system, without preventing eligible voters from exercising their right to vote.

AFRICAN AMERICAN HISTORY MONTH

Mr. LEVIN. Madam President, today, I join the many Americans who this month reflect on the rich and extraordinary achievements of African Americans. We do so in keeping with the spirit and the vision of Dr. Carter G. Woodson, son of a former slave, who in 1926, proposed such a recognition as a way of preserving the history of the Negro. Each year, during the month of February, we celebrate African American History Month.

Dr. Woodson was, himself, an extraordinary individual and I would like to pay tribute to him, as well as several courageous and accomplished individuals claimed by my state of Michigan, all of whom have earned a unique place in African American history.

Dr. Woodson overcame seemingly insurmountable challenges in his rise from the coal mines of West Virginia to one of the highest levels of academic achievement of his time. Author Lerone Bennett, writes of the struggles and successes of Carter G. Woodson, who was an untutored coal miner at the age of 17; and at the age of 19, after teaching himself the fundamentals of English and arithmetic, entered high school and mastered the four-year curriculum in less than two years. At 22, after two-thirds of a year at Berea College in Kentucky, Woodson returned to the coal mines and studied Latin and Greek between trips to the mine shafts. He then went on to the University of Chicago, where he received bachelor's and master's degrees, and Harvard University, where be became the second African American to receive a doctorate in history. The rest, of course, is history.

Dr. Benjamin Solomon Carson, Sr., who was born and raised in Detroit, had a childhood dream of becoming a physician. In his books, Gifted Hands. THINK BIG, and The Big Picture he reveals how growing up in dire poverty with horrible grades and being called "dummy" as well as having a "horrible temper, and low self-esteem," appeared to preclude the realization of that dream. He writes about an inspiring mother, with a third grade education, who worked two and sometimes three jobs as a domestic to care for her two sons, determined that they would succeed. Carson remembers, "we had to read two books a week from the Detroit Public Library, and submit to her written book reports, which she could not read, but we didn't know that . . . my mother was one of twenty four children, went through the foster care system and married at the age of 13—a marriage that rapidly deteriorated."

Today, despite all of the odds stacked against her and him, Sonya Carson's son is one of the world's most gifted surgeons, performing over 500 critical operations on children in dire need each year, over triple the average neurosurgeon's caseload. Dr. Ben Carson is Director of Pediatric Neurosurgery at the Johns Hopkins Medical Institutions, a position he had held since 1984 when he was 32 years old, then the youngest surgeon in the nation to hold this distinguished title. He is also a professor of neurosurgery, oncology, plastic surgery, and pediatrics. On the occasion of its 200th anniversary the Library of Congress named him one of the 89 "Living Legends." In 2001, he was chosen by CNN and Time Magazine as one of America's top 20 physicians and scientists. After graduating with honors from high school, Ben Carson was accepted to Yale University on a scholarship. He received his M.D. from the University of Michigan.

In 1987, he gained worldwide recognition as the principal surgeon in the 22-hour separation of the Binder Siamese twins from Germany. This was the first time occipital craniopagus twins had been separated with both surviving. In 1997, Dr. Carson was the primary surgeon in the team of South African and Zambian surgeons that separated type-2 vertical carniopagus twins (joined at the top of the head) in a 28-hour operation. It represents the first time such complexly joined siamese twins have been separated with both remaining neurologically normal. He is noted for his use of cerebral hemispherectomy to control intractable seizures as well as for his work in craniofacial reconstructive surgery, achondroplasia (human dwarfism), and pediatric neuro-oncology (brain tumors).

Dr. Carson is the president and cofounder of the Carson's Scholars Fund, which recognizes young people of all backgrounds for exceptional academic and humanitarian accomplishments, which he hopes will positively change the perception of high academic achievers among their peers across our nation.

Madam President, I would also like to pay tribute to two women who played a pivotal role in addressing American injustice and inequality. They are Sojourner Truth, who helped lead our country out of the dark days of slavery, and Rosa Parks, whose dignified leadership sparked the Montgomery Bus Boycott and the start of the Civil Rights movement.

Sojourner Truth, though unable to read or write, was considered one of the most eloquent and noted spokespersons of her day, on the inhumanity and immorality of slavery. She was a leader in the abolitionist movement, and a ground breaking speaker on behalf of quality for women. Michigan honored her several years ago with the dedication of the Sojourner Truth Memorial Monument, which was unveiled in Battle Creek, Michigan on September 25, 1999.

Sojourner Truth had an extraordinary life. She was born Isabella Baumfree in 1797, served as a slave under several different masters, and was eventually freed in 1828 when New York state outlawed slavery. In 1851, Sojourner Truth delivered her famous "Ain't I a Woman?" speech at the Women's Convention in Akron, Ohio. In the speech, Truth attacked both racism and sexism. Truth made her case for equality in plain-spoken English when she said, "Then that little man in black there, he says women can't have as much rights as men, cause Christ wasn't a woman? Where did your Christ come from? Where did your Christ come from? From God and a woman! Man had nothing to do with Him"

By the mid-1850s, Truth had settled in Battle Creek, Michigan. She continued to travel and speak out for equality. During the Civil War, Truth traveled throughout Michigan, gathering food and clothing for Negro volunteer regiments. Truth's travels during the war eventually led her to a meeting with President Abraham Lincoln in 1864, at which she presented her ideas on assisting freed slaves. Truth remained in Washington, DC for several years, helping slaves who had fled from the South and appearing at women's suffrage gatherings. Due to bad health, Sojourner Truth returned to Battle Creek in 1875, and remained there until her death in 1883. Sojourner Truth spoke from her heart about the most troubling issues of her time. A testament to Truth's convictions is that her words continue to speak to us today.

On May 4, 1999 legislation was enacted which authorized the President of the United States to award the Congressional Gold Medal to Rosa Parks. The Congressional Gold Medal was presented to Rosa Parks on June 15, 1999 during an elaborate ceremony in the U.S. Capitol Rotunda. I was pleased to cosponsor this fitting tribute to Rosa Parks—the gentle warrior who decided that she would no longer tolerate the humiliation and demoralization of racial segregation on a bus. Her personal bravery and self-sacrifice are remembered with reverence and respect by us all.

Forty six years ago in Montgomery, Alabama the modern civil rights movement began when Rosa Parks refused to give up her seat and move to the back of the bus. The strength and spirit of this courageous woman captured the consciousness of not only the American people, but the entire world. My home state of Michigan proudly claims Rosa Parks as one of our own. Rosa Parks and her husband made the journey to Michigan in 1957. Unceasing threats on their lives and persistent harassment by phone prompted the move to Detroit where Rosa Parks' brother resided.

Rosa Parks' arrest for violating the city's segregation laws was the catalyst for the Montgomery bus boycott. Her stand on that December day in 1955 was not an isolated incident but part of a lifetime of struggle for equality and justice. For instance, twelve years earlier, in 1943, Rosa Parks had been arrested for violating another one of the city's bus related segregation laws, which required African Americans to pay their fares at the front of the bus then get off of the bus and re-board from the rear of the bus. The driver of that bus was the same driver with whom Rosa Parks would have her confrontation 12 years later.

The rest is history. The boycott which Rosa Parks began was the beginning of an American revolution that elevated the status of African Americans nationwide and introduced to the world a young leader who would one day have a national holiday declared in his honor, the Reverend Martin Luther King Jr.

Mr. CLELAND. Madam President, Thomas Carlyle once said, "a mystic bond of brotherhood makes all men one." In light of the events of September 11, this statement has never rung truer. To see the firefighters, police, and rescue teams working side by side in the recovery effort at the World Trade Center, seeking peace for their fallen comrades whether black, white, Hispanic or Asian reminds us just how far we have come in only a few short decades.

And yet there is still a great distance to travel. This month, as we celebrate Black History and the contributions made by members of the African American community, we must remember that work still remains to be done. Senior leadership at Fortune 500 companies and even our own Congress fails to reflect America's racial demographics. But we are certainly moving in the right direction.

Less than 50 years ago, it was unthinkable that a black man or woman be an elected official, or university president, or hold any number of other prestigious positions across our Nation. That started to change, though, with the bravery of men like Doctors Martin Luther King, Jr. and Benjamin E. Mays.

While most everyone has heard of the former, Dr. Mays' name is not as easily recognized by most Americans, but he is every bit as important in the annals of history. Born in South Carolina in 1895, Benjamin Mays distinguished himself as a dean at Howard University and president of Morehouse College. Throughout his life, he served his community, speaking early and often against segregation and on behalf of education.

Mays urged his students to strive for academic excellence, fight for racial justice, and introduced his students to Gandhi's philosophy of non-violence. Years after graduating from Morehouse College, Dr. Martin Luther King, Jr. called Mays his most important "spiritual and intellectual mentor."

Dr. Mays was Martin Luther King, Jr.'s teacher, inspiration, and friend. He stood beside Dr. King as during the struggle for racial equality, and walked behind his casket during one of the darkest times in our Nation's history.

The son of former slaves, Dr. Mays had to fight every day of his life for many of the advantages Americans today take for granted. Mays was a civil and human rights leader, noted theologian, educator, and the recipient of 56 honorary degrees.

It was with great pleasure that I submitted, and witnessed the passage of a resolution encouraging President Bush to award the Presidential Medal of Freedom, the highest honor the U.S. government can bestow upon a civilian.

posthumously to Dr. Mays. It is an honor that is well overdue, and rightfully deserved.

Benjamin Mays understood disappointment and pain, and dealt with both during his long life of public service, but he never lost site of his ultimate goals. He explained why when he said, "The tragedy in life doesn't lie in not reaching your goal. The tragedy lies in having no goal to reach. It isn't a calamity to die with dreams unfulfilled, but it is a calamity not to dream. . . . It is not a disgrace not to reach the stars, but it is a disgrace to have no stars to reach for. Not failure, but low aim, is sin."

It is with those words in mind that we must continue to fight for more equity in our society. Certainly we have come a long way in a relatively short period of time, but let us not lose site of how far away the horizon still lies.

Mr. REED. Madam President, as we conclude Black History Month, I rise to join in the celebration of the achievements of African Americans throughout our Nation's history, and especially in my home State of Rhode Island. Indeed, African Americans have contributed a great deal to my State, and I am honored to be able to acknowledge two such individuals today, the late Reverend Mahlon Van Horne of Newport, and the late John Hope of Brown University.

Reverend Van Horne was one of Newport's most prominent African Americans in the late 1800's. He was an avid civil rights activist, a three term State representative, and was also one of the Nations first black diplomats. Reverend Van Horne came to Newport, RI, in 1868 after being ordained, and graduating from Lincoln University in Pennsylvania. He began his ministry in Rhode Island as the Acting Pastor of the Colored Union Congregational Church of Newport. Despite the times in which he lived, due to his charismatic leadership and scholarly sermons, his congregation was made up of both black and white Rhode Islanders, and the many black professionals from New York, Washington, D.C., and Philadelphia who would come to Newport during the summer months. By 1871, his congregation had grown to the point where they had to tear down the old church to make way for a larger building which was renamed the Union Congregational Church. Despite his success as a minister, Reverend Van Horne did not stop there, in 1871 he was able to successfully draw votes from both blacks and whites to win election to the Newport School Committee, the first African American ever to serve in this capacity. As a member of the school committee, he used his position to continue his civil rights movement and pressed for integration and better education for Newport's black children. In 1885, he was elected to the Rhode Island General Assembly, becoming the first African American to ever serve in the State legislature. He was re-elected in 1886, and 1887, and after his last term he continued in his role as pastor of the Union Congregational Church. His service did not end there. In 1896, President William McKinley appointed Reverend Van Horne as the United States Counsel to the Danish West Indies, in where he served his Nation honorably for 12 more years.

Another great Rhode Islander that I would like to bring attention to was a champion of education; John Hope. Mr. Hope first came to Rhode Island in 1890 when he enrolled as a freshmen at Brown. While in school he became very involved in the African-American community, and later joined the Second Free Will Baptist Church in Providence. While a member of the Church, he started a literary club with the help of other prominent African Americans in the community. In honor of his work in Providence, in 1944, the community center on Burgess street was renamed the John Hope Settlement House and continues to be a vital resource for many of the residents of Providence today. In addition to his community involvement and dedication to the education of blacks in Providence, John Hope was a founding editorial board member of the Daily Herald and a campus correspondent for the New York Tribune, and wrote many articles for the Providence Journal and the Chicago Tribune. After his graduation from Brown, John Hope continued his mission of improving educational opportunities for blacks by taking a position teaching Greek and Latin at the Roger Williams University in Nashville, Tennessee an all black institution. From there, he moved on to become the President of one of the most prestigious historically black institutions of higher education Morehouse College, from 1906 to 1929. He culminated his career in education as the President of Atlanta University, which was the only black graduate school in the Nation at the time, where he served until his death in 1936. John Hope's vision that education is the key to improving the quality of life for not only African Americans, but for all Americans, is one I share.

It is truly my honor and privilege to acknowledge such great Rhode Islander's during Black History Month, and it is my hope that these and other African American leaders from both past and present will continue to inspire our Nation's youth.

SONNY MONTGOMERY AWARD TO SENATOR ROBERTS

Mr. WARNER. Madam President, on Monday night Senator PAT ROBERTS was recognized as the 2002 recipient of the National Guard Bureau's "Sonny Montgomery" Award.

Senator ROBERTS' comments upon receiving this award highlight, in a most thoughtful and eloquent manner, the absolutely critical role our Nation's National Guard plays in the defense of our homeland and our own strategic defense in critical areas beyond our shores—an example being the 29th Division, with elements from Virginia, now serving in Bosnia.

This vital role is nowhere more evident than in Virginia where our National Guard men and women patrol the skies over our Nation's Capital and help defend key military posts and bases across the State.

I would like to highlight my colleague's wise admonition that we must "preserve our founding fathers intent with respect to the National Guard, specifically preserving the connection between military forces and the States, between our national defense and America's local cities and towns." Excellent advice, we in the Congress must be very careful to heed it.

As America is continuing its preparations to defend our homeland against territorial threats, we owe a debt of gratitude to our respected colleague, from the great State of Kansas, as he, serving as chairman of the "Subcommittee on Emerging Threats" of the Armed Services Committee during the 106th Congress, laid foundations—at times in the face of skepticism and resistance—before the attacks of September 11, foundations we are rapidly building on today to strengthen our Homeland Defense.

As Americans reflect, with deep gratitude, on the proud history of America's military, let us never forget that the Guard was our first, being founded in 1636.

I ask unanimous consent that Senator ROBERTS' remarks be printed in the RECORD along with introductory comments by the distinguished Chief of the National Guard Bureau, Lieutenant General Russell C. Davis.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

REMARKS BY CHIEF OF THE NATIONAL GUARD BUREAU (GENERAL RUSS DAVIS) PRESENTING THE SONNY MONTGOMERY AWARD TO SENATOR PAT ROBERTS OF KANSAS, MONDAY, 25, 2002

This evening we gather to bestow the 6th Annual Major General G.V. "Sonny" Montgomery Award. This award was established in 1996 to honor an outstanding individual whose accomplishments were of major significance to the National Guard of the United States. Specifically, it is presented to an individual: who has demonstrated exemplary service to the National Guard at the national level; whose performance exceeded the normal scope of public or private service in support to the Nation's defense; who demonstrated skill and initiative to introduce new policies or procedures that significantly advance the mission of the National Guard; and who exhibited integrity, competence, and the ability to inspire others.

This year we are very pleased to present this Award to Senator Pat Roberts of Kansas. Throughout his career, Senator Roberts has been an industrious and effective advocate for a robust national security posture for the United States. Today he is a member of the Senate Armed Services Committee. He plays a key, forward-thinking role in making certain that America is ready to counter post-Cold War and terrorist threats. He was the first chairman and today is the ranking member of the Emerging Threats and Capabilities Subcommittee.

Senator Roberts has led the way in strengthening America's ability to meet the threat posed by Weapons of Mass Destruction. Years before the events of September 11, Senator Roberts was at the forefront of the debate on increasing the security of the United States homeland.

His strong support for the creation, expansion and sustainment of the National Guard's Weapons of Mass Destruction Civil Support Teams is but one example of the demonstrated leadership, wisdom and foresight of Senator Roberts.

We are joined tonight by a number of other highly distinguished Kansans including the Nation's Chairman of the Joint Chiefs of Staff, General Richard Meyers and the Adjutant General of Kansas, Major General Greg Gardner. I would ask the Honorable Sonny Montgomery to come forward to make the presentation of the award that bears his name.

STATEMENT OF SENATOR PAT ROBERTS, RECIPIENT, THE NATIONAL GUARD BUREAU G.V. "SONNY" MONTGOMERY AWARD

Thank you General Myers, General Davis, General Rees, General Gardner, the Kansas Guard, and distinguished visitors to the Capitol. It is truly an honor to receive the Sonny Montgomery Award from the National Guard Bureau and from the Guardsman and women currently serving our Nation here at home as well as around the world.

2001 was a challenging year for America and her National Guard. Determined enemies attacked America and our way of life, killing thousands, but the Guard sprung into action. Army Guard personnel were tasked to secure our airports, harbors, military bases and other critical infrastructure while Air Guard personnel, along with their active brothers and sisters, were tasked to secure our airspace and yes, if need be, take out the threat of another hijacked jetliner bearing down on an America city.

Guard personnel are participating in the ongoing mission in Afghanistan to kill or capture remaining al Qaeda. On top of that, the Guard continues to develop its primary role in the evolving Homeland security mission area.

Indeed, the National Guard was deployed and in action well before September 11: Southwest Asia, Former Yugoslavia, South America, disaster relief and other missions here at home. The list goes on.

However, I wanted to specifically mention your performance since the attacks: outstanding and inspiring. Your country needs you now more than ever. Keep up the good work and know there are those in Congress who will champion your mission and cause.

It is a privilege to receive an award for "exceptional support to the nation's defense for significantly advancing the mission of the National Guard." I hope I have indeed done so and can live up to Sonny's namesake in the months and years ahead.

And, what a privilege it is to receive and award so deservedly named after the veteran's all time champion Sonny Montgomery: successful businessman; decorated Veteran of World War II & Korea; champion of the Guard; congressman; general; chairman; and colleague, Southern Gentleman.

I don't want to leave the podium tonight without discussing an issue of great importance to the Guard and to our Nation.

This past year I was a part of the dialogue between the Department of Defense and the Air Guard on the future of the active component-National Guard relationship.

Indeed, we can and ought to discuss new missions for various units be they active component, Army Guard, or Air Guard.

Any changes, however, must preserve our founding fathers intent with respect to the National Guard, specifically preserving the connection between military forces and the states, between our national defense and America's local cities and towns.

This relationship serves a critical practical purpose today: when America goes to war, which we are doing often, so to do America's States, cities, and towns.

That kind of connection between the people and their military helps to ensure our forces are not used without at least the knowledge, if not consent and support, of the American people.

So let us have a discussion on transformation, the weapons and tactics of the future, and the future of the active component, National Guard relationship.

But let us not consider severing a critical link between the American people and their military. Let us not make the mistake of taking down flags, consolidating all authority and control in Washington, DC, and broadening whatever gap already exists between the military and civilian sectors.

America needs her Guard now more than ever but not just your outstanding skills, capability and dedication.

For the current international obligations, the War Against Terrorism, and the wars of the future, America must bring to the fight every state, city, town, and community.

Thank you again for this honor and I look forward to working with you in the years ahead.

LOCAL LAW ENFORCEMENT ACT OF 2001

Mr. SMITH of Oregon. Madam President, I rise today to speak about hate crimes legislation I introduced with Senator KENNEDY in March of last year. The Local Law Enforcement Act of 2001 would add new categories to current hate crimes legislation sending a signal that violence of any kind is unacceptable in our society.

I would like to describe a terrible crime that occurred November 11, 1993 in New Orleans, LA. A group of attackers stabbed a gay man to death and injured his friend. The assailants, several men, chased the victims, beat them, and yelled anti-gay slurs.

I believe that government's first duty is to defend its citizens, to defend them against the harms that come out of hate. The Local Law Enforcement Enhancement Act of 2001 is now a symbol that can become substance. I believe that by passing this legislation, we can change hearts and minds as well.

ABDUCTION AND DEATH OF DANIEL PEARL

Mrs. BOXER. Madam President, the shock of September 11 has been replaced with a focus on rebuilding and recovery, but the abduction and death of Daniel Pearl remind us that cold-blooded terrorism continues and that its casualties are too often innocent individuals: moms, dads, sisters, brothers, husbands, wives, and children.

A writer for The Wall Street Journal since 1990, Daniel Pearl, was abducted in Karachi, Pakistan on January 23, while going, he thought, to conduct an interview about the Islamic militant underground. Instead of being granted that interview, Mr. Pearl was abducted, and it is now clear that his kidnappers intended all along to kill him, in the most horrifying fashion.

Born in Princeton, NJ, Daniel Pearl moved as a young man with his family to California's San Fernando Valley, where his parents still reside. He attended Birmingham High School in Van Nuys, and went on to Stanford University where he graduated with a degree in Communications.

Journalism was clearly his calling, and he returned to the northeast to begin his career. Following a stint with a newspaper in Massachusetts, he joined the staff of The Wall Street Journal. Over the next decade, he would see the world, beginning with postings in Atlanta and Washington, and later in London and Paris.

Wherever he went, people were drawn to and delighted by Daniel Pearl. His warmth and wit, his kindness and intelligence, defined him as a person and were gifts that he shared generally with those around him.

I offer my deepest condolences to Daniel Pearl's wife Mariane, 7 months pregnant with their first child; to his parents Dr. Yehuda and Ruth Pearl, and to his sisters Tamara and Michelle, who describe their brother, son and husband as "such a gentle soul . . . the musician, the writer, the storyteller, the bridge builder."

Their courage and dignity in the face of this tragic loss is nothing short of inspirational, and my heart goes out to them.

It is time for the terrorism to stop. In the name of Daniel Pearl and the other innocent victims, we must seek to understand the roots of terrorism in the world and bring to an end the ever-escalating cycle of violence.

U2'S CONTRIBUTION TO A LOST GENERATION

Mr. FRIST. Madam President, I would like to take this time to congratulate Bono and the band U2 on receiving four Grammy Awards at last night's ceremony. While music listeners across the globe recognize Bono's music is well deserving of such accolades, I believe that another aspect of his career is also deserving of recognition.

I was first introduced to Bono when he came by my office to talk about Africa and the struggles many third world countries face, including the issues of debt relief and the global HIV/AIDS epidemic. As chair of the Senate subcommittee on African Affairs and an active participant in medical missionary work in Africa, I was interested in learning how a rock star could contribute to international policy. I quickly found out that Bono was much more than a music icon. He is a serious person, well versed in the many issues that plague third world countries. More importantly, I found a person who was willing to use his time and talent to champion issues that will help end poverty and disease throughout the world.

In January, Bono joined me on my trip to Uganda, where we visited health centers and AIDS clinics to learn how countries are coping with what's become the world's greatest health crisis. In a region where over half the population is under 15, Bono was able to carefully balance compassion and pragmatism. He asked the hard questions that countries like Uganda now face and how we, as a world, can aid in the fight. His interest was genuine. His commitment to making a difference was concrete. And because of his efforts, countries like Uganda and many others have a viable spokesperson committed to ending their strife.

U2's music has always been one of compassion and humanity, committed as much to what their lyrics say as to how the music sounds. But this higher level of political consciousness goes far beyond U2's music. It's a part of their advocacy efforts and apparent in their ability to stay committed to the issues they support. Just as U2 is still being honored for their music after 25 years, I fully expect them to also be remembered for their efforts to improve international policy 25 years from now.

Taking home four of music's most prestigious honors is, in itself, an inspiring feat. But it's Bono and U2's ability to be a voice for a lost generation that deserves the real honor.

WATER INVESTMENT ACT OF 2002

Mr. SMITH of New Hampshire. Madam President, I am pleased to join my colleagues on the Environment & Public Works Committee in introducing the Water Investment Act of 2002. The introduction of this bill to provide clean water for our nation comes in the year that we are celebrating the 30th anniversary of the Clean Water Act. When I became chairman of the committee in 1999, one of my top priorities was a renewed commitment to our nation's water systems and the Americans served by them. Since that time, the committee has held a number of hearings, both at the subcommittee level, chaired by my good friend from Idaho, Senator CRAPO, and at the full committee level. I am pleased that Senators JEFFORDS and GRAHAM have continued to make this a priority in their new roles as full committee and subcommittee chairmen. Today that effort culminates with the introduction of this bipartisan piece of legislation that will address the many water infrastructure problems facing our local communities.

So much of our nation's water infrastructure is aging and in desperate need of replacement. Coupled with the aging problem is the cost burden that local communities face in order to comply with ever increasing State and Federal clean water mandates. This bill addresses these problems and makes structural changes to ensure that we avoid a national crisis now and in the future.

I am a strong advocate of limited government and when it comes to water infrastructure, I do not believe the primary responsibility of financing local water needs lies with the Federal government. I am equally adamant, however, that the Federal government shouldn't place unfunded mandates on our local communities. This bill recognizes both of these principles and strikes a responsible balance. The legislation authorizes $35 billion over the next five years in Federal contribution to the total water infrastructure need to help defray the cost of the mandates placed on communities. This is a substantial increase in Federal commitment, but not nearly as high as some would have preferred. Even so, this commitment does not come without additional responsibilities. When the Clean Water Act was amended by Congress in 1987, a debate I remember well, we set up a revolving fund so more federal money would not be required. The fund would continually revolve providing a continual pool of money for water needs. Unfortunately, many officials did not meet their commitment to properly plan for future needs and what was not to be Federal responsibility became a Federal necessity. Now we are faced with a near crisis situation. This bill makes certain that we do not go down that road again. The Federal government will help to defray the costs of Federal mandates, but with the new money comes a new requirement that all utilities do a better job of managing their funds and plan for future costs. The Federal trough will not continue to be filled up every so many years because there is a dereliction of responsibility—so that 15 years from now, these utilities will not be coming back to Congress looking for an additional $57 billion. The bill requires utilities to assess the condition of their facility and pipes and develop a plan to pay for the long-term repair and replacement of these assets. That plan will include Federal assistance, but it will be limited assistance.

We also make additional structural changes to the law both to address financial concerns and to help achieve improved management of these water systems. One such change to the Clean Water Act is to incorporate a Drinking Water Act provision that allows States, at their discretion, to provide principal forgiveness on loans and to extend the repayment period for loans to disadvantaged communities. This flexibility will provide help to communities struggling with high combined sewer overflow cost to secure additional financial help. This bill also promotes other important cost saving measures that many communities are ready experimenting with throughout the country.

Finally Madam President, New Hampshire is the midst of our worst drought in 50 years. In an effort to help communities facing water shortages, this bill directs the U.S. Geological survey to assess the state of water resources. The USGS is then to share with localities information on water shortages and surplus, planning models and streamlined procedures for local interaction with federal agencies responsible for water resources. This type of information will be helpful to New Hampshire communities facing a severe water shortage.

I am pleased that Republicans and Democrats worked together to introduce this bipartisan bill to address one of the very urgent needs of the nation. It will be a tremendous help to many struggling communities in New Hampshire and across the country. It is my hope that we can move it through the committee process and see it passed by the Senate in short order. Madam President, I want to express my appreciation to Senator CRAPO, who has been my partner in this for over two years. I also want to thank Senators JEFFORDS and GRAHAM for their work in getting us to this point—their leadership will be crucial in getting this bill to the President's desk.

UNIVERSITY OF WISCONSIN BIG TEN CONFERENCE CHAMPIONS

Mr. KOHL. Madam President, it is with great pride that I rise today to honor the University of Wisconsin's men's basketball team. On Wednesday, the Badgers beat Michigan, 74–54, in Madison to finish 11–5 and clinch at least a share of the Big Ten Conference Championship and a No. 1 seed in next week's Conference Tournament. The players and coaches on the University of Wisconsin men's basketball team provide an example of commitment, skill and sportsmanship as they bring the school its first Big Ten Conference title in men's basketball since 1947.

Not too many people gave this young team a chance to succeed before the season began. Based on the preseason consensus, this was to be a rebuilding year and the Badgers would finish near or at the bottom of the league standings. However, in the spirit of the Wisconsin faithful who have supported the men's basketball program both in times of glory and moments of frustration, the Badgers proved themselves to be a hardworking, highly motivated and resilient team.

I especially want to recognize the phenomenal job of first-year UW coach Bo Ryan, who, from day one, brought a winning atmosphere. Likewise, the close-knit group of players committed themselves to improving throughout the season. It all culminated with the team winning its last six Big Ten games. Coach Ryan and his players have given the State of Wisconsin a lot of great basketball to look forward to in the years to come.

Winning the Big Ten is an impressive achievement, one that the players, coaches, and fans should be proud of for as long as they live. The Badgers' season, however, is not done yet. I look forward to cheering the team on during "March Madness," and hope to watch this hard-working team make it all the way to Atlanta for the Final Four. On Wisconsin!

ADDITIONAL STATEMENTS

IN CELEBRATION OF THE 100TH ANNIVERSARY OF 4-H

• Mr. ALLARD. Mr. President, today, it is with great pride that I congratulate one of the finest organizations in the United States for a truly remarkable accomplishment. This year marks the centennial anniversary of 4-H, a youth organization that was launched by a group of volunteer visionaries who wanted to challenge America's youth to become a fundamental building block of our Nation's communities. With the motto, "To make the best better," the organization has grown from an agriculture based institution into a well balanced mix of 7 million urban and rural members.

4-H encourages service; it promotes civility; broadens life experiences; and pushes a better way of life through a healthy spirit and healthy living. After 100 years of existence, the organization has grown to more than 50 million alumni, of which 55 are Members of Congress.

In an interview with Roll Call Daily, I had the chance to reflect on my 4-H experience. I remember well how 4-H taught me how to be a leader, how to prioritize and organize, as well as running meetings with efficiency and purpose. 4-H projects paid for nearly all of my tuition to become a Doctor of Veterinary Medicine.

The value of 4-H to America's youth can be measured in the accomplishments of its members—both past and present, and in the hours and hours of service the many 4-H clubs across the country have dedicated to service projects and personal development. Congratulations, and, I wish the organization many more successful years.•

TRIBUTE TO DREW HENDERSON OF HENRY CLAY HIGH SCHOOL

• Mr. BUNNING. Madam President, I proudly pay tribute to Drew Henderson of Henry Clay High School in Lexington, KY for his most recent academic accomplishment.

Drew Henderson recently discovered, via his mom's delivery bright and early one morning, that he belongs to an elite academic category. He is one of only 12 students nationwide to score a perfect 36 on the ACT Assessment. Drew has been blessed with natural learning abilities and has worked extremely hard to ensure that these talents are not ignored or denied the proper attention. Drew has already applied to 11 schools, with his top choices being Harvard, Princeton, and Penn State. He wants to focus his studies primarily on biology during his time as an undergraduate and then pursue a career in the area of medicine. Besides his commitment to his studies, Drew serves as the National Honor Society treasurer at Henry Clay High School, belongs to both the debate team and beta club, and is the captain for the golf team.

I applaud Drew for his academic as well as his extra curricular achievements and wish him the best of luck in his future endeavors. Drew has made Henry Clay High School and the Commonwealth of Kentucky very proud.•

CONGRATULATIONS TO DAVIESS COUNTY HIGH SCHOOL

• Mr. BUNNING. Madam President, I stand today among my distinguished colleagues to congratulate the students, administration, and faculty of Daviess County High School for winning a Preparing America's Future Award from the U.S. Department of Education.

This recent accolade is just one in the line of many bestowed upon the diligent students and devout faculty of Daviess County High School. In 2001, the U.S. Department of Education selected Daviess County High School as a 1999–2000 National Blue Ribbon School shortly after the Commonwealth awarded them with a Kentucky Blue Ribbon award.

The prestigious Preparing America's Future prize is presented to six high schools throughout the entire Nation that have taken significant strides in improving their academic standards for all students. Daviess County High School was among this elite group based specifically upon their reputation for excellence and a rigorous evaluation of their progress in 12 key school improvement strategies. The review showed above all else that the school is accurately meeting the needs and expectations of today's students. I would like to offer a special thanks to Principal Brad Stanley for his inspiring leadership and robust commitment to the education of our nation's and the Commonwealth's future. With this competent captain at the helm, Daviess County High School will surely experience smooth sailing ahead.

I hope Daviess County High School is as proud of this accomplishment as I am. This award highly reflects upon not only the students and faculty but also the overall community and its dedication to its children. I thank you all for working towards a better educated Kentucky.•

RECOGNIZING SARAH CONN AND JEWELL OF WINCHESTER, KENTUCKY

• Mr. BUNNING. Madam President, I have the distinct honor today of recognizing the recent accomplishments of Sarah Conn and Jewell, both residents of Winchester, KY.

At this year's 126th Westminster Kennel Club Dog Show held in New York City, 12-year-old Sarah Conn and her graceful Boston Terrier, Jewell, put on quite a performance, taking Best in Breed and winning the prestigious Open Junior Handler title. In winning Best in Breed, Sarah amazingly bested a woman who has been showing Boston Terriers for an astonishing 50 years and a man who is rated the top handler in the Boston Terrier category. Sarah and Jewell rose to the occasion, overcoming all obstacles to prove that they do indeed belong at the top.

Sarah and Jewell have obviously worked extremely hard to earn this honorable distinction and deserve our praise for their diligent efforts. I know that the people of Winchester as well as the people of the Commonwealth of Kentucky are proud of their achievements. I finally ask my colleagues to join me in thanking Sarah and Jewell for proudly representing the Commonwealth of Kentucky in this year's Westminster Dog Show.•

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Ms. Evans, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGES FROM THE HOUSE

At 12:03 p.m., a message from the House of Representatives, delivered by

Mr. Hays, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 1542. An act to deregulate the Internet and high speed data services, and for other purposes.

The message also announced that pursuant to section 112 of the Clean Air Act (42 U.S.C. 7412), the Speaker has appointed the following member on the part of the House to the Board of Directors of the National Urban Air Toxics Research Center to fill the existing vacancy thereon: Mr. Hans P. Blascheck of Champaign, Illinois.

At 12:32 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House has agreed to the following concurrent resolutions, in which it requests the concurrence of the Senate:

H. Con. Res. 311. Concurrent resolution recognizing the Civil Air Patrol for 60 years of service to the United States.

H. Con. Res. 335. Concurrent resolution recognizing the significance of Black History Month and the contributions of Black Americans as a significant part of the history, progress, and heritage of the United States.

The message also announced that the House has disagreed to the amendment of the Senate to the bill (H.R. 2646) to provide for the continuation of agricultural programs through fiscal year 2011, and agrees to the conference asked by the Senate on the disagreeing votes of the two Houses thereon; and appoints the following Members as the managers of the conference on the part of the House:

From the Committee on Agriculture, for consideration of the House bill and the Senate amendment, and modifications committed to conference: Mr. COMBEST, Mr. BOEHNER, Mr. GOODLATTE, Mr. POMBO, Mr. EVERETT, Mr. LUCAS of Oklahoma, Mr. CHAMBLISS, Mr. MORAN of Kansas, Mr. STENHOLM, Mr. CONDIT, Mr. PETERSON of Minnesota, Mr. DOOLEY of California, Mrs. CLAYTON, and Mr. HOLDEN.

The message further announced that the House has disagreed to the amendment of the Senate to the bill (H.R. 3448) to improve the ability of the United States to prevent, prepare for, and respond to bioterrorism and other public health emergencies, and agree to the conference asked by the Senate on the disagreeing votes of the two Houses thereon; and that the following Members be the managers of the conference on the part of the House.

From the Committee on Energy and Commerce, for consideration of the House bill and the Senate amendment, and modifications committed to conference: Mr. TAUZIN, Mr. BILIRAKIS, Mr. GILLMOR, Mr. BURR of North Carolina, Mr. SHIMKUS, Mr. DINGELL, Mr. WAXMAN, and Mr. BROWN of Ohio: Provided, that Mr. PALLONE is appointed in lieu of Mr. BROWN of Ohio for consideration of title IV of the House bill, and modifications committed to conference.

From the Committee on Agriculture, for consideration of title II of the House bill and section 216 and title V of the Senate amendment, and modifications committed to conference: Mr. COMBEST, Mr. LUCAS of Oklahoma, Mr. CHAMBLISS, Mr. STENHOLM, and Mr. HOLDEN.

From the Committee on the Judiciary, for consideration of title II of the House bill and sections 216 and 401 of the Senate amendment, and modifications committed to conference: Mr. SENSENBRENNER, Mr. SMITH of Texas, and Mr. CONYERS.

MEASURES REFERRED

The following bill was read the first and the second times by unanimous consent, and referred as indicated:

H.R. 1542. An act to deregulate the Internet and high speed data services, and for other purposes; to the Committee on Commerce, Science, and Transportation.

The following concurrent resolutions were read, and referred as indicated:

H. Con. Res. 311. Concurrent resolution recognizing the Civil Air Patrol for 60 years of service to the United States; to the Committee on Armed Services.

H. Con. Res. 335. Concurrent resolution recognizing the significance of Black History Month and the contributions of Black Americans as a significant part of the history, progress, and heritage of the United States; to the Committee on the Judiciary.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC-5558. A communication from the Acting General Counsel, National Endowment for the Humanities, transmitting, pursuant to law, the report of a vacancy and a nomination confirmed for the position of Chairman of the National Endowment for the Humanities, received on February 1, 2002; to the Committee on Health, Education, Labor, and Pensions.

EC-5559. A communication from the Board of Governors of the Federal Reserve System, transmitting, pursuant to law, the Board's semiannual Monetary Policy Report dated February 27, 2002; to the Committee on Banking, Housing, and Urban Affairs.

EC-5560. A communication from the Principal Deputy Associate Administrator of the Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Hydrogen Peroxide; An Amendment to an Exemption from the Requirement of a Tolerance" (FRL6822-7) received on February 26, 2002; to the Committee on Agriculture, Nutrition, and Forestry.

EC-5561. A communication from the Chief Counsel, Bureau of the Public Debt, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Regulations Governing Book-Entry Treasury Bonds, Notes and Bills—Interim Rule with Request for Comments" (31 CFR Part 357) received on February 12, 2002; to the Committee on Finance.

EC-5562. A communication from the Chairman of the Federal Election Commission, transmitting, pursuant to law, the Commission's Budget Request for Fiscal Year 2003, the Commission's Information Technology Strategic Plan for Fiscal Years 2002-2007, and the Commission's Performance Plan for Fiscal Year 2003; to the Committee on Rules and Administration.

EC-5563. A communication from the Assistant Secretary for Fish and Wildlife and Parks, National Park Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Wrangell—St. Elias National Park and Preservation—Resident Zone Communities" (RIN1024-AC83) received on February 25, 2002; to the Committee on Energy and Natural Resources.

EC-5564. A communication from the Assistant Secretary for Fish and Wildlife and Parks, National Parks Service, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Appalachian National Scenic Trails—Designation of Snowmobile Routes" (RIN1024-AC67) received on February 25, 2002; to the Committee on Energy and Natural Resources.

EC-5565. A communication from the Assistant Secretary of Legislative Affairs, Department of State, transmitting, pursuant to law, a report concerning Nonproliferation and Disarmament Fund activities; to the Committee on Foreign Relations.

EC-5566. A communication from the Assistant Attorney General, Office of Legislative Affairs, Department of Justice, transmitting, pursuant to law, a report concerning the Foreign Agents Registration Act for the period beginning January 1, 2001 through June 30, 2001; to the Committee on Foreign Relations.

EC-5567. A communication from the Administrator of the General Service Administration, transmitting, pursuant to law, the Annual Accountability Report for Fiscal Year 2001; to the Committee on Governmental Affairs.

EC-5568. A communication from the Attorney General, Department of Justice, transmitting, pursuant to law, the Department's Accountability Report for Fiscal Year 2001; to the Committee on Governmental Affairs.

EC-5569. A communication from the Chairman of the Nuclear Regulatory Commission, transmitting, pursuant to law, the Commission's Performance and Accountability Report for Fiscal Year 2001 and the Commission's Inspector General Performance Report for Fiscal Year 2001; to the Committee on Governmental Affairs.

EC-5570. A communication from the Secretary of Labor, transmitting, pursuant to law, the Department's Annual Report on Performance and Accountability for Fiscal Year 2001; to the Committee on Governmental Affairs.

EC-5571. A communication from the Principal Deputy Associate Administrator of the Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Implementation Plans; California State Implementation Plan Revision; Interim Final Determination that State has Corrected the Deficiencies" (FRL7149-7) received on February 26, 2002; to the Committee on Environment and Public Works.

EC-5572. A communication from the Principal Deputy Associate Administrator of the Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Implementation Plans; State of Iowa" (FRL7151-7) received on February 26, 2002; to the Committee on Environment and Public Works.

EC–5573. A communication from the Principal Deputy Associate Administrator of the Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Operating Permits Program; State of Iowa" (FRL7151–9) received on February 26, 2002; to the Committee on Environment and Public Works.

EC–5574. A communication from the Principal Deputy Associate Administrator of the Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "North Carolina: Final Authorization of State Hazardous Waste Management Program Revision" (FRL7150–6) received on February 26, 2002; to the Committee on Environment and Public Works.

EC–5575. A communication from the Principal Deputy Associate Administrator of the Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Revisions to the California State Implementation Plan, El Dorado Air Pollution Control District" (FRL7149–6) received on February 26, 2002; to the Committee on Environment and Public Works.

EC–5576. A communication from the Principal Deputy Associate Administrator of the Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Revision to the California State Implementation Plan, San Joaquin Valley Unified Air Pollution Control District" (FRL7148–8) received on February 26, 2002; to the Committee on Environment and Public Works.

EC–5577. A communication from the Principal Deputy Associate Administrator of the Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Wisconsin: Final Authorization of State Hazardous Waste Management Program Revision" (FRL7150–9) received on February 26, 2002; to the Committee on Environment and Public Works.

EC–5578. A communication from the Chairman of the Office of Economics, Environmental Analysis and Administration, Surface Transportation Board, transmitting, pursuant to law, the report of a rule entitled "Electronic Access to Case Filings" (Ex Parte No. 576) received on February 14, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5579. A communication from the Senior Regulations Analyst, Transportation Security Administration, transmitting, pursuant to law, the report of a rule entitled "Securities Programs for Aircraft 12,500 Pounds or More" (RIN2110–AA04) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5580. A communication from the Senior Regulations Analyst, Transportation Security Administration, transmitting, pursuant to law, the report of a rule entitled "Aviation Security Infrastructure Fees" (RIN2110–AA02) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5581. A communication from the Senior Regulations Analyst, Transportation Security Administration, transmitting, pursuant to law, the report of a rule entitled "Civil Aviation Security Rules" (RIN2110–AA03) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5582. A communication from the Program Analyst of the Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Raytheon Model DH 125, HS 125, BH 125, and BAe 125 Series Airplanes; Model Hawker 800, 800 (U–125A), 800XP, and 1000 Airplanes; Correction" ((RIN2120–AA64)(2002–0113)) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5583. A communication from the Program Analyst of the Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Short Brothers Model SD3 Series Airplanes" ((RIN2120–AA64)(2002–0114)) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5584. A communication from the Program Analyst of the Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Boeing Model 767 Series Airplanes" ((RIN2120–AA64)(2002–0112)) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5585. A communication from the Program Analyst of the Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: General Electric Company GE90 Series Turbofan Engines" ((RIN2120–AA64)(2002–0111)) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5586. A communication from the Program Analyst of the Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Rolls-Royce plc RB211–524G and –524H Series Turbofan Engines" ((RIN2120–AA64)(2002–0119)) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5587. A communication from the Program Analyst of the Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: McDonnell Douglas Model DC 9–81, –82, –83, and –87 Series Airplanes; and Model MD 88 Airplanes" ((RIN2120–AA64)(2002–0118)) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5588. A communication from the Program Analyst of the Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Raytheon Model Beech 400, 400A, and 400T Series Airplanes; Model Beech MU 300–10 Airplanes; and Model Mitsubishi MU 300 Airplanes" ((RIN2120–AA64)(2002–0166)) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5589. A communication from the Program Analyst of the Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Fokker Model F.28 Mark 0070 and 0100 Series Airplanes" ((RIN2120–AA64)(2002–0117)) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5590. A communication from the Program Analyst of the Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Bombardier Model DHC 8–100, –200, and –300 Series Airplanes" ((RIN2120–AA64)(2002–0115)) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5591. A communication from the Program Analyst of the Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Boeing Model 737–100, –200, –200C, –300, –400, and –500 Series Airplanes" ((RIN2120–AA64)(2002–0124)) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5592. A communication from the Program Analyst of the Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Pilatus Aircraft Ltd. Models PC7, PC12, and PC12/45 Airplanes" ((RIN2120–AA64)(2002–0123)) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5593. A communication from the Program Analyst of the Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Bell Helicopter Canada Model 430 Helicopters" ((RIN2120–AA64)(2002–0122)) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5594. A communication from the Program Analyst of the Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Fairchild Aircraft, Inc. SA26, SA226, and SA227 Series Airplanes" ((RIN2120–AA64)(2002–0121)) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5595. A communication from the Program Analyst of the Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Israel Aircraft Industries, Ltd., Model 1124 and 1124A, and Model 1125 Westwind Astra Series Airplanes" ((RIN2120–AA64)(2002–0120)) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5596. A communication from the Program Analyst of the Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: BAE Systems Limited Model BAe 146–200A Series Airplanes" ((RIN2120–AA64)(2002–0126)) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

EC–5597. A communication from the Program Analyst of the Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives: Airbus Model A319, A320, and A321 Series Airplanes" ((RIN2120–AA64)(2002–0125)) received on February 25, 2002; to the Committee on Commerce, Science, and Transportation.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. BAUCUS, from the Committee on Finance, with an amendment in the nature of a substitute:

H.R. 3005: A bill to extend trade authorities procedures with respect to reciprocal trade agreements. (Rept. No. 107–139).

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. HAGEL (for himself, Mr. DAYTON, Mr. SESSIONS, Mr. CLELAND, Mr. WARNER, Mr. BREAUX, Mr. BUNNING, Ms. MIKULSKI, and Mrs. BOXER):

S. 1973. A bill to amend the Richard B. Russell National School Lunch Act to exclude certain basic allowances for housing of a member of a uniformed service from the determination of eligibility for free and reduced price meals of a child of the member; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. LEAHY (for himself and Mr. GRASSLEY):

S. 1974. A bill to make needed reforms in the Federal Bureau of Investigation, and for other purposes; to the Committee on the Judiciary.

By Mr. REID (for himself and Mrs. LINCOLN):

S. 1975. A bill to amend title III of the Public Health Service Act to include each year of fellowship training in geriatric medicine or geriatric psychiatry as a year of obligated service under the National Health Corps Loan Repayment Program; to the Committee on Health, Education, Labor, and Pensions.

By Mrs. FEINSTEIN (for herself, Mr. SMITH of Oregon, Mr. DASCHLE, Mr. JEFFORDS, Mrs. CLINTON, Mrs. HUTCHISON, Ms. MIKULSKI, Ms. SNOWE, Mrs. BOXER, Ms. COLLINS, Ms. LANDRIEU, Mr. CHAFEE, Mrs. MURRAY, Mrs. LINCOLN, Ms. STABENOW, Ms. CANTWELL, Mrs. CARNAHAN, Mr. SCHUMER, Mr. TORRICELLI, Mr. NELSON of Nebraska, Mr. JOHNSON, Mr. REED, Mr. BREAUX, Mr. CORZINE, Mr. LEAHY, Mr. REID, Mr. KERRY, Mr. NELSON of Florida, Mr. GRAHAM, and Mr. DODD):

S. 1976. A bill to provide for a comprehensive Federal effort relating to treatments for, and the prevention of cancer, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mr. THURMOND:

S. 1977. A bill to amend chapter 37 of title 28, United States Code, to provide for appointment of United States marshals by the Attorney General; to the Committee on the Judiciary.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. WELLSTONE (for himself and Mr. BROWNBACK):

S. Res. 213. A resolution condemning human rights violations in Chechnya and urging a political solution to the conflict; to the Committee on Foreign Relations.

By Mr. BIDEN (for himself and Mr. CARPER):

S. Con. Res. 99. A concurrent resolution expressing the sense of the Congress that a commemorative stamp should be issued honoring Felix Octavius Carr Darley; to the Committee on Governmental Affairs.

ADDITIONAL COSPONSORS

S. 414

At the request of Mr. CLELAND, the name of the Senator from Virginia (Mr. ALLEN) was added as a cosponsor of S. 414, a bill to amend the National Telecommunications and Information Administration Organization Act to establish a digital network technology program, and for other purposes.

S. 572

At the request of Mr. CHAFEE, the name of the Senator from Louisiana (Ms. LANDRIEU) was added as a cosponsor of S. 572, a bill to amend title XIX of the Social Security Act to extend modifications to DSH allotments provided under the Medicare, Medicaid, and SCHIP Benefits Improvement and Protection Act of 2000.

S. 682

At the request of Mr. MCCAIN, the name of the Senator from Arkansas (Mr. HUTCHINSON) was added as a cosponsor of S. 682, a bill to amend title II of the Social Security Act to restore the link between the maximum amount of earnings by blind individuals permitted without demonstrating ability to engage in substantial gainful activity and the exempt amount permitted in determining excess earnings under the earnings test.

S. 946

At the request of Ms. SNOWE, the name of the Senator from New York (Mrs. CLINTON) was added as a cosponsor of S. 946, a bill to establish an Office on Women's Health within the Department of Health and Human Services.

S. 957

At the request of Mr. WELLSTONE, the name of the Senator from Missouri (Mrs. CARNAHAN) was added as a cosponsor of S. 957, a bill to provide certain safeguards with respect to the domestic steel industry.

S. 1087

At the request of Mr. CONRAD, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 1087, a bill to amend the Internal Revenue Code of 1986 to provide a shorter recovery period of the depreciation of certain leasehold improvements.

S. 1278

At the request of Mrs. LINCOLN, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of S. 1278, a bill to amend the Internal Revenue Code of 1986 to allow a United States independent film and television production wage credit.

S. 1329

At the request of Mr. JEFFORDS, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of S. 1329, a bill to amend the Internal Revenue Code of 1986 to provide a tax incentive for land sales for conservation purposes.

S. 1335

At the request of Mr. KENNEDY, the names of the Senator from Hawaii (Mr. AKAKA) and the Senator from Vermont (Mr. LEAHY) were added as cosponsors of S. 1335, a bill to support business incubation in academic settings.

S. 1644

At the request of Mr. CAMPBELL, the name of the Senator from New Mexico (Mr. BINGAMAN) was added as a cosponsor of S. 1644, a bill to further the protection and recognition of veterans' memorials, and for other purposes.

S. 1786

At the request of Mr. DURBIN, the name of the Senator from Maryland (Ms. MIKULSKI) was added as a cosponsor of S. 1786, a bill to expand aviation capacity in the Chicago area.

S. 1899

At the request of Mr. BROWNBACK, the name of the Senator from Colorado (Mr. ALLARD) was added as a cosponsor of S. 1899, a bill to amend title 18, United States Code, to prohibit human cloning.

S. 1912

At the request of Mr. SMITH of Oregon, the name of the Senator from Wyoming (Mr. THOMAS) was added as a cosponsor of S. 1912, a bill to amend the Endangered Species Act of 1973 to require the Secretary of the Interior and the Secretary of Commerce to give greater weights to scientific or commercial data that is empirical or has been field-tested or peer-reviewed, and for other purposes.

S. 1917

At the request of Mr. JEFFORDS, the names of the Senator from Georgia (Mr. CLELAND), the Senator from Michigan (Ms. STABENOW), the Senator from Missouri (Mrs. CARNAHAN), and the Senator from Washington (Ms. CANTWELL) were added as cosponsors of S. 1917, a bill to provide for highway infrastructure investment at the guaranteed funding level contained in the Transportation Equity Act for the 21st Century.

At the request of Mr. SMITH of New Hampshire, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. 1917, supra.

S. 1945

At the request of Mr. JOHNSON, the name of the Senator from Mississippi (Mr. COCHRAN) was added as a cosponsor of S. 1945, a bill to provide for the merger of the bank and savings association deposit insurance funds, to modernize and improve the safety and fairness of the Federal deposit insurance system, and for other purposes.

S. RES. 206

At the request of Mr. MURKOWSKI, the names of the Senator from Louisiana (Ms. LANDRIEU), the Senator from Illinois (Mr. DURBIN), and the Senator from Mississippi (Mr. COCHRAN) were added as cosponsors of S. Res. 206, a resolution designating the week of

March 17 through March 23, 2002 as "National Inhalants and Poison Prevention Week."

S. RES. 208

At the request of Ms. COLLINS, the names of the Senator from Montana (Mr. BURNS), the Senator from Nebraska (Mr. HAGEL), the Senator from Wyoming (Mr. THOMAS), the Senator from Ohio (Mr. DEWINE), and the Senator from Mississippi (Mr. COCHRAN) were added as cosponsors of S. Res. 208, a resolution commending students who participated in the United States Senate Youth Program between 1962 and 2002.

S. RES. 211

At the request of Ms. COLLINS, the names of the Senator from Louisiana (Mr. BREAUX), the Senator from New Hampshire (Mr. GREGG), the Senator from Indiana (Mr. LUGAR), and the Senator from Maryland (Ms. MIKULSKI) were added as cosponsors of S. Res. 211, a resolution designating March 2, 2002, as "Read Across America Day."

S. CON. RES. 11

At the request of Mrs. FEINSTEIN, the name of the Senator from Pennsylvania (Mr. SPECTER) was added as a cosponsor of S. Con. Res. 11, a concurrent resolution expressing the sense of Congress to fully use the powers of the Federal Government to enhance the science base required to more fully develop the field of health promotion and disease prevention, and to explore how strategies can be developed to integrate lifestyle improvement programs into national policy, our health care system, schools, workplaces, families and communities.

S. CON. RES. 98

At the request of Mrs. MURRAY, the name of the Senator from Kansas (Mr. ROBERTS) was added as a cosponsor of S. Con. Res. 98, a concurrent resolution commemorating the 30th anniversary of the inauguration of Sino-American relations and the sale of the first commercial jet aircraft to China.

AMENDMENT NO. 2907

At the request of Mr. ROBERTS, the name of the Senator from Michigan (Mr. LEVIN) was added as a cosponsor of amendment No. 2907 intended to be proposed to S. 565, a bill to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes.

STATEMENTS OF INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. HAGEL (for himself, Mr. DAYTON, Mr. SESSIONS, Mr. CLELAND, Mr. WARNER, Mr. BREAUX, Mr. BUNNING, Ms. MIKULSKI, and Mrs. BOXER):

S. 1973. A bill to amend the Richard B. Russell National School Lunch Act to exclude certain basic allowances for housing of a member of a uniformed service from the determination of eligibility for free and reduced price meals of a child of the member; to the Committee on Agriculture, Nutrition, and Forestry.

Mr. HAGEL. Madam President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1973

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. EXCLUSION OF CERTAIN MILITARY BASIC ALLOWANCES FOR HOUSING FOR DETERMINATION OF ELIGIBILITY FOR FREE AND REDUCED PRICE MEALS.

Section 9(b) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1758(b)) is amended by adding at the end the following:

"(7) EXCLUSION OF CERTAIN MILITARY HOUSING ALLOWANCES.—For the 2-year period beginning on the date of enactment of this paragraph, the amount of a basic allowance provided under section 403 of title 37, United States Code, on behalf of a member of a uniformed service for housing that is acquired or constructed under subchapter IV of chapter 169 of title 10, United States Code, or any related provision of law, shall not be considered to be income for the purpose of determining the eligibility of a child of the member for free or reduced price lunches under this Act.".

By Mr. LEAHY (for himself and Mr. GRASSLEY):

S. 1974. A bill to make needed reforms in the Federal Bureau of Investigation, and for other purposes; to the committee on the Judiciary.

Mr. LEAHY. Madam President, I rise today, joined by my good friend Senator GRASSLEY, to introduce the FBI Reform Act of 2002. This bill stems from the lessons learned during a series of Judiciary Committee hearings on oversight of the FBI that I chaired beginning last June. Even more recently, the important changes which are being made under the FBI's new leadership after the September 11 attacks and the new powers granted the FBI by the USA PATRIOT Act have resulted in FBI reform becoming an pressing matter of national importance.

Since the attacks of September 11, 2001, and the anthrax attacks last fall, we have relied on the FBI to detect and prevent acts of catastrophic terrorism that endanger the lives of the American people and the institutions of our country. The men and women of the FBI are performing this task with great professionalism at home and abroad. I think that we have all felt safer as a result of the full mobilization of the FBI's dedicated Special Agents, its expert support personnel, and its exceptional technical capabilities. We owe the men and women of the FBI our thanks.

For decades the FBI has been an outstanding law enforcement agency and a vital member of the United States intelligence community. As our hearings and recent events have shown, however, there is room for improvement at the FBI. We must face the mistakes of the past, and make the changes needed to ensure that they are not repeated. In meeting the international terrorist challenge, the Congress has an opportunity and obligation to strengthen the institutional fibre of the FBI based on lessons learned from recent problems the Bureau has experienced.

This view is not mine alone. When Director Bob Mueller testified at his confirmation hearings last July, he forthrightly acknowledged "that the Bureau's remarkable legacy of service and accomplishment has been tarnished by some serious and highly publicized problems in recent years. Waco, Ruby Ridge, the FBI lab, Wen Ho Lee, Robert Hanssen, and the McVeigh documents—these familiar names and events remind us all that the FBI is far from perfect and that the next director faces significant management and administrative challenges." Since then, the Judiciary Committee has forged a constructive partnership with Director Mueller to get the FBI back on track.

Congress sometimes has followed a hands-off approach about the FBI. But with the FBI's new increased powers, with our increased reliance on them to stop terrorism, and with the increased funding requested in the President's budget will come increased scrutiny. Until the Bureau's problems are resolved and new challenges overcome, we have to take a hands-on approach.

Indeed our hearings and other oversight activities have highlighted tangible steps the Congress should take in an FBI reform bill as part of this hands-on approach. Last year's hearings demonstrated the need to improve FBI internal accountability, extend whistleblower protection, end the double-standard for discipline of senior FBI executives, enhance the FBI's internal security program to protect against espionage as occurred in the Hanssen case, and modernize the FBI's information technology systems. Since last year's oversight hearings, the committee has explored additional management issues that are reflected in the FBI Reform Act. Senator GRASSLEY called attention to concerns about the practices of the FBI and other Federal criminal investigative agencies in reporting and using statistics on their investigations. In addition, FBI officials responsible for protecting its facilities informed us of difficulties in retaining the most qualified people on the FBI's own police force to protect some of our nation's most important and, unfortunately, most targeted facilities.

When Director Mueller announced the first stage of his FBI reorganization last December, he stressed the importance of taking a comprehensive look at the FBI's missions for the future, and Deputy Attorney General Thompson's office has told us that the Attorney General's management review of the FBI is considering this matter. Director Mueller has stated that the second phase of FBI reorganization will be part of a "comprehensive plan to address not only the new challenges of terrorism, but to modernize and streamline the Bureau's more traditional functions. . . ." Thus, through our hearings, our other oversight efforts, and the statements and efforts of the new management team at the FBI, an initial list of challenges facing the FBI has been developed.

The provisions in the FBI Reform Act address each of these challenges.

Titles I, II, and VII of the FBI Reform Act strengthen the system for uncovering and reviewing FBI misconduct and imposing appropriate discipline, so that there is appropriate accountability. Title I creates statutory jurisdiction for the DOJ Inspector General over allegations of misconduct in the FBI. It brings the statutory authorities of the Justice Department's Inspector General into line with the administrative regulations adopted by the Attorney General on July 11, 2001, ensuring that there will be no return to a system in which the FBI enjoyed unique exemption for scrutiny by an independent Inspector General. Title II strengthens whistleblower protection for FBI employees and protects them from retaliation for reporting wrongdoing. Title VII eliminates statutory disparities in disciplinary penalties for Senior Executive Service and non-SES personnel.

The committee received testimony in our oversight hearings showing that, too often, the independence that is part of the FBI's culture crossed the line into arrogance. Senator Danforth expressed concern to the committee about entrenched executives at the FBI who had created a closed and insular culture resistant to disclosure of mistakes and to reforms. His concern was echoed in testimony the committee heard from experienced FBI Special Agents, including a unit chief in the FBI's own Office of Professional Responsibility, who told us of a "club" mentality among some Bureau executives who viewed any criticism or change as a threat to their careers.

If there was one message from these witnesses, it was that FBI executives needed to be more willing to admit their mistakes. Too often their response was to shield the Bureau from embarrassment by sacrificing accountability and needed reform. For example, Senator Danforth testified that the FBI helped fan the flames of conspiracy theories at Waco by covering up evidence that it used pyrotechnic rounds, even though they had nothing to do with starting the fire. The FBI culture demanded covering up rather than admitting a mistake. Of course, as the FBI painfully discovered, the price for circling the wagons in this way can be the loss of public confidence.

The Justice Department Inspector General is in a position to conduct an independent investigation that enables the Attorney General and the FBI Director to hold FBI personnel accountable and learn the necessary lessons from mistakes. When Director Mueller was asked at his confirmation hearing about a separate FBI Inspector General, he replied, "If I were the Attorney General I might have some concern about a separate Inspector General feeding the perception that the FBI was a separate institution accountable only to itself. And I'm not certain in my own mind whether or not what the accountability you seek cannot be discharged by an Inspector General with appropriate personnel in the Department of Justice, as opposed to establishing another Inspector General in the FBI." Attorney General Ashcroft decided to follow this route, and Title I of the FBI Reform Act codifies his action.

The committee also heard disturbing testimony about retaliation against FBI Agents who are tasked to investigate their colleagues or who discuss issues with the Congress, either directly or through cooperation with the General Accounting Office, which assists in congressional oversight. Therefore, Title II is important to ensure that the Federal whistleblower protection laws protect FBI personnel to the greatest extent possible. Senator GRASSLEY deserves great credit for stressing the need for this provision and developing the language in the bill. The bill extends whistleblower protections to employees who report wrongdoing to their supervisors or to Congress, and ensures that whistleblowers will enjoy basic procedural protections, including the normal procedures and judicial review provided under the Administrative Procedure Act, if they are subjected to retaliation. It also ensures that those who report wrongdoing to the Office of the Special Counsel have access to the normal Merit System Protection Board rights if retaliated against.

Title VII addresses the issue of a double standard for discipline of senior executives. Internal investigations must lead to fair and just discipline. A troubling internal FBI study that was released at the committee's July hearing documented a double standard at work, with senior FBI executives receiving a slap on the wrist for the same kind of conduct that would result in serious discipline for lower level employees. At his confirmation hearing, Director Mueller said it is "very important that there be no double standards in accountability. I know there have been allegations that senior FBI officials are sometimes treated more leniently than more junior employees. Any such double standard would be fundamentally unfair and enormously destructive to employee morale." Title VII embodies that principle by eliminating the disparity in authorized punishments between Senior Executive Service members and other Federal employees.

The Hanssen espionage case was a tremendous shock to the nation and to the FBI. A trusted and experienced FBI Supervisory Special Agent was found to have sold many of the nation's most sensitive national security secrets to the Soviet Union and to Russia. Just as the Ames case forced the CIA to revamp its security program after 1994, the Hanssen case requires major changes in FBI security. Former FBI and CIA Director William Webster chairs a commission that is completing its review of lessons learned from the Hanssen case for the Attorney General and the FBI Director. It is my hope that Judge Webster will testify before the Judiciary Committee when his report is complete to present his unclassified findings and recommendations. The FBI Reform Act includes provisions that are based on the Judiciary Committee's initial oversight hearings and we remain open to incorporating the considered recommendations and reforms for which the Webster Commission may call.

Title III of the FBI Reform Act would establish a Career Security Program in the FBI and Title IV would establish an FBI Counterintelligence Polygraph Program for screening personnel in exceptionally sensitive positions with specific safeguards. In addition, as a result of concerns about terrorist attacks against FBI targets, Title V would authorize an FBI police force as part of comprehensive security enhancements.

The FBI Career Security Program would bring the FBI into line with other U.S. intelligence agencies that have strong career security professional cadres whose skills and leadership are dedicated to the protection of agency information, personnel, and facilities. The challenges of espionage, information technology vulnerability, and the FBI's high profile as a target of terrorist attack require that the FBI match or exceed the best security programs in the intelligence and national security community. This can only be achieved by a fundamental change that reverses the tendency, found too often in civilian agencies, to treat security as a secondary mission and security assignments as obstacles to career advancement. Before the Hanssen case, an FBI Special Agent experienced as a criminal investigator might be assigned for a few years to a security position and then move on without building continuity of security expertise. Turnover in FBI security work was high, the top rank was Headquarters Section Chief.

Director Mueller has changed direction by creating a Assistant Director position to head a new Security Division and supporting the principle of a Security Career Program. I support this change. Title II of the FBI Reform Act provides the statutory mandate and tools to achieve this goal based on the experience of the Defense Department in reforming its acquisition career program. The key requirements are leadership and accountability in a Security Director, creation of security career program boards, designation of security positions, identification of security career paths requiring appropriate training and experience, and development of education programs for security professionals. To help ensure that security professionals gain stature comparable to Special Agents, the program would limit the preference for Special Agents in considering persons for security positions. FBI security managers would complete a security management course accredited by the Joint Security Training Consortium recently formed by the Intelligence Community and the Department of Defense.

The FBI Counterintelligence Polygraph Program that would be established under Title III of the Act also addresses the security issue. Title III recognizes the security value of polygraph screening, but provides specific safeguards for those who may be subject to adverse action based on polygraph exams. Screening procedures must address the problems of "false positive" responses, limit adverse actions taken solely by reason of physiological reactions in an examination, ensure quality assurance and control, and allow subjects to have prompt access to unclassified reports on examinations that relate to adverse actions against them. Title III is based upon the simple conviction that increased security and protection of employee rights can and must coexist at the FBI.

Title IV of the Act provides long overdue statutory authorization for a permanent FBI Police force, to protect critical FBI facilities. It would provide the men and women who currently guard the highest risk targets with the same pay and benefits as members of the Uniformed Division of the United States Secret Service. Today the FBI police force operating under delegated authority from the General Services Administration has been unable to retain skilled personnel at a rate commensurate with the threat and the need for experienced leadership. The FBI Reform Act would bring the FBI police force generally into line not only with the Uniformed Division of the Secret Service, but also with the Capitol Police and the Supreme Court police. It is intended to be consistent with the current Memorandum of Agreement between the FBI and the Metropolitan Police Force of the District of Columbia with respect to FBI buildings and grounds covered in Washington, D.C..

The Attorney General has directed Deputy Attorney General Thompson to lead a management review of the FBI, while Director Mueller has already begun reorganizing the Bureau. Congress must participate in reviewing the FBI's structure and identifying its future priorities. The FBI is being called on today to protect the national security from terrorist and intelligence threats mounted from abroad. FBI investigations now extend overseas far more often because of our government's decision to use law enforcement as an instrument of national security along with diplomacy, military deployments, and intelligence operations. At the same time, it must continue with other uniquely Federal areas of enforcement. Title VI requires a set of reports that would enable Congress to engage the Executive branch in a constructive dialogue building a more effective FBI for the future.

To help Congress participate in charting the FBI's course, Title VI directs the Attorney General to submit a comprehensive report on the legal authorities for FBI programs and activities. In the late 1970s the Judiciary Committee considered enactment of a legislative charter for the FBI that would spell out its authorities and responsibilities. That proposal was set aside in 1980 despite determined efforts by then-Judiciary Committee Chairman KENNEDY, Judge Webster and Attorney General Civiletti to reach agreement. The time is ripe to revive consideration of this effort.

In addition to a comprehensive charter, Congress should consider whether the FBI should continue to have responsibility for the broad range of investigations that it is currently expected to conduct. I believe we have gone too far in federalizing criminal law enforcement and that more responsibilities which are not uniquely federal can be transferred back to the states. In addition, even within the Federal law enforcement family, numerous agencies perform redundant functions. The Attorney General's report would recommend whether the FBI should continue to have all its current investigative responsibilities, whether existing legal authority for any FBI program or activity should be modified or repealed, and whether the FBI must or should have express statutory authority for new or existing programs or activities.

Title VI also recognizes that the task of modernizing FBI's information technology and management is as important as setting the FBI's future missions. Judiciary Committee oversight hearings have documented, and Director Mueller has acknowledged, that the FBI must overcome years of neglect in this regard. Congress is providing the funds, especially in the FY 2002 Counterterrorism Supplemental for technology assistance. We must ensure, however, that the FBI can and does use these funds effectively. There is concern that the FBI may need greater flexibility than is allowed under current law to procure new technologies. Congress also needs to see detailed plans as to how the FBI plans to update its information technology systems. Unfortunately, the Department of Justice and the FBI have not provided quarterly status reports on the principal FBI computer upgrade program, known as TRILOGY, as requested in the Appropriations Act for FY 2001. Title VI directs the Attorney General to address these concerns in a comprehensive report on FBI information management and technology.

Finally, Title VI requires the Comptroller General to investigate and complete a report on how statistics are reported and used by Federal law enforcement agencies, including the FBI. Senator GRASSLEY has focused attention on the question whether the FBI and other agencies may be double-counting criminal investigations and arrests in the reporting of accomplishments. We also need to ascertain whether the FBI and other agencies properly use the statistics which they compile in making management decisions. It is important to get the facts and recommendations that put the FBI into the context of the full spectrum of Federal law enforcement agencies. Title VI ensures that the GAO can complete this important task by requiring agencies to comply with its requests for the information that is necessary to assist in preparing this report.

The legislation which Senator GRASSLEY and I introduce today is just one part of a bipartisan, hands-on approach to FBI reform. The committee plans additional oversight hearings to consider the Justice Department Inspector General's report on the belated production of documents in the Oklahoma City bombing case and the report of Judge Webster's Commission on the security lessons of the Robert Hanssen espionage case. The committee also intends to hear from Director Mueller and Deputy Attorney General Thompson on their response to these reports and on their actions and goals in reorganizing the FBI and charting its management course for the future.

At the same time, we are focusing oversight attention on key aspects of

FBI and law enforcement performance in connection with the September 11 terrorist attacks and the lessons learned for developing an effective counterterrorism and homeland security program. As contemplated by the sunset provisions in the USA PATRIOT Act, we must monitor the implementation of new surveillance and investigative powers provided to strengthen counterterrorism efforts and, in some provisions, law enforcement and counterintelligence generally.

The FBI Reform Act is designed to strengthen the FBI as an institution that has a unique role as both a law enforcement agency and a member of the intelligence community. As the Judiciary Committee continues its oversight work and more is learned about recent FBI performance, additional legislation may prove necessary. Especially important will be the lessons from the attacks of September 11, 2001, the anthrax attacks, and implementation of the USA PATRIOT Act and other counterterrorism measures. Strengthening the FBI cannot be accomplished overnight, but today, with the introduction of FBI Reform Act, we take an important step into the future.

For all of these reasons, I am pleased to introduce this legislation with Senator GRASSLEY. I ask unanimous consent that the text of the bill be printed in the RECORD along with the sectional analysis.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1974

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Federal Bureau of Investigation Reform Act of 2002".

TITLE I—IMPROVING FBI OVERSIGHT

SEC. 101. AUTHORITY OF THE DEPARTMENT OF JUSTICE INSPECTOR GENERAL.

Section 8E of the Inspector General Act of 1978 (5 U.S.C. App.) is amended—

(1) in subsection (b), by striking paragraphs (2) and (3) and inserting the following:

"(2) except as specified in subsection (a) and paragraph (3), may investigate allegations of criminal wrongdoing or administrative misconduct by an employee of the Department of Justice, or may, in the discretion of the Inspector General, refer such allegations to the Office of Professional Responsibility or the internal affairs office of the appropriate component of the Department of Justice; and

"(3) shall refer to the Counsel, Office of Professional Responsibility of the Department of Justice, allegations of misconduct involving Department attorneys, investigators, or law enforcement personnel, where the allegations relate to the exercise of the authority of an attorney to investigate, litigate, or provide legal advice, except that no such referral shall be made if the attorney is employed in the Office of Professional Responsibility."; and

(2) by adding at the end the following:

"(d) The Attorney General shall ensure by regulation that any component of the Department of Justice receiving a nonfrivolous allegation of criminal wrongdoing or administrative misconduct by an employee of the Department of Justice shall report that information to the Inspector General.".

SEC. 102. REVIEW OF THE DEPARTMENT OF JUSTICE.

(a) APPOINTMENT OF OVERSIGHT OFFICIAL WITHIN THE OFFICE OF INSPECTOR GENERAL.—

(1) IN GENERAL.—The Inspector General of the Department of Justice shall direct that 1 official from the office of the Inspector General be responsible for supervising and coordinating independent oversight of programs and operations of the Federal Bureau of Investigation until September 30, 2003.

(2) CONTINUATION OF OVERSIGHT.—The Inspector General may continue individual oversight in accordance with paragraph (1) after September 30, 2003, at the discretion of the Inspector General.

(b) INSPECTOR GENERAL OVERSIGHT PLAN FOR THE FEDERAL BUREAU OF INVESTIGATION.—Not later than 30 days after the date of the enactment of this Act, the Inspector General of the Department of Justice shall submit to the Chairman and ranking member of the Committees on the Judiciary of the Senate and the House of Representatives, a plan for oversight of the Federal Bureau of Investigation, which plan may include—

(1) an audit of the financial systems, information technology systems, and computer security systems of the Federal Bureau of Investigation;

(2) an audit and evaluation of programs and processes of the Federal Bureau of Investigation to identify systemic weaknesses or implementation failures and to recommend corrective action;

(3) a review of the activities of internal affairs offices of the Federal Bureau of Investigation, including the Inspections Division and the Office of Professional Responsibility;

(4) an investigation of allegations of serious misconduct by personnel of the Federal Bureau of Investigation;

(5) a review of matters relating to any other program or operation of the Federal Bureau of Investigation that the Inspector General determines requires review; and

(6) an identification of resources needed by the Inspector General to implement a plan for oversight of the Federal Bureau of Investigation.

(c) REPORT ON INSPECTOR GENERAL FOR FEDERAL BUREAU OF INVESTIGATION.—Not later than 90 days after the date of enactment of this Act, the Attorney General shall submit a report and recommendation to the Chairman and ranking member of the Committees on the Judiciary of the Senate and the House of Representatives concerning whether there should be established, within the Department of Justice, a separate office of the Inspector General for the Federal Bureau of Investigation that shall be responsible for supervising independent oversight of programs and operations of the Federal Bureau of Investigation.

TITLE II—WHISTLEBLOWER PROTECTION

SEC. 201. INCREASING PROTECTIONS FOR FBI WHISTLEBLOWERS.

Section 2303 of title 5, United States Code, is amended to read as follows:

"§ 2303. Prohibited personnel practices in the Federal Bureau of Investigation

"(a) DEFINITION.—In this section, the term 'personnel action' means any action described in clauses (i) through (x) of section 2302(a)(2)(A).

"(b) PROHIBITED PRACTICES.—Any employee of the Federal Bureau of Investigation who has the authority to take, direct others to take, recommend, or approve any personnel action, shall not, with respect to such authority, take or fail to take a personnel action with respect to any employee of the Bureau or because of—

"(1) any disclosure of information by the employee to the Attorney General (or an employee designated by the Attorney General for such purpose), a supervisor of the employee, the Inspector General for the Department of Justice, or a Member of Congress that the employee reasonably believes evidences—

"(A) a violation of any law, rule, or regulation; or

"(B) mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety; or

"(2) any disclosure of information by the employee to the Special Counsel of information that the employee reasonably believes evidences—

"(A) a violation of any law, rule, or regulation; or

"(B) mismanagement, a gross waste of funds, an abuse of authority, or a substantial and specific danger to public health or safety,

if such disclosure is not specifically prohibited by law and if such information is not specifically required by Executive order to be kept secret in the interest of national defense or the conduct of foreign affairs.

"(c) INDIVIDUAL RIGHT OF ACTION.—Chapter 12 of this title shall apply to an employee of the Federal Bureau of Investigation who claims that a personnel action has been taken under this section against the employee as a reprisal for any disclosure of information described in subsection (b)(2).

"(d) REGULATIONS.—The Attorney General shall prescribe regulations to ensure that a personnel action under this section shall not be taken against an employee of the Federal Bureau of Investigation as a reprisal for any disclosure of information described in subsection (b)(1), and shall provide for the enforcement of such regulations in a manner consistent with applicable provisions of sections 1214 and 1221, and in accordance with the procedures set forth in sections 554 through 557 and 701 through 706.".

TITLE III—FBI SECURITY CAREER PROGRAM

SEC. 301. SECURITY MANAGEMENT POLICIES.

The Attorney General shall establish policies and procedures for the effective management (including accession, education, training, and career development) of persons serving in security positions in the Federal Bureau of Investigation.

SEC. 302. DIRECTOR OF THE FEDERAL BUREAU OF INVESTIGATION.

(a) IN GENERAL.—Subject to the authority, direction, and control of the Attorney General, the Director of the Federal Bureau of Investigation (referred to in this title as the "Director") shall carry out all powers, functions, and duties of the Attorney General with respect to the security workforce in the Federal Bureau of Investigation.

(b) POLICY IMPLEMENTATION.—The Director shall ensure that the policies of the Attorney General established in accordance with this Act are implemented throughout the Federal Bureau of Investigation.

SEC. 303. DIRECTOR OF SECURITY.

The Director shall appoint a Director of Security, or such other title as the Director may determine, to assist the Director in the performance of the duties of the Director under this Act.

SEC. 304. SECURITY CAREER PROGRAM BOARDS.

(a) ESTABLISHMENT.—The Director acting through the Director of Security shall establish a security career program board to advise the Director in managing the hiring, training, education, and career development of personnel in the security workforce of the Federal Bureau of Investigation.

(b) COMPOSITION OF BOARD.—The security career program board shall include—

(1) the Director of Security (or a representative of the Director of Security);

(2) the senior officials, as designated by the Director, with responsibility for personnel management;

(3) the senior officials, as designated by the Director, with responsibility for information management;

(4) the senior officials, as designated by the Director, with responsibility for training and career development in the various security disciplines; and

(5) such other senior officials for the intelligence community as the Director may designate.

(c) CHAIRPERSON.—The Director of Security (or a representative of the Director of Security) shall be the chairperson of the board.

(d) SUBORDINATE BOARDS.—The Director of Security may establish a subordinate board structure to which functions of the security career program board may be delegated.

SEC. 305. DESIGNATION OF SECURITY POSITIONS.

(a) DESIGNATION.—The Director shall designate, by regulation, those positions in the Federal Bureau of Investigation that are security positions for purposes of this Act.

(b) REQUIRED POSITIONS.—In designating security positions under subsection (a), the Director shall include, at a minimum, all security-related positions in the areas of—

(1) personnel security and access control;

(2) information systems security and information assurance;

(3) physical security and technical surveillance countermeasures;

(4) operational, program, and industrial security; and

(5) information security and classification management.

SEC. 306. CAREER DEVELOPMENT.

(a) CAREER PATHS.—The Director shall ensure that appropriate career paths for personnel who wish to pursue careers in security are identified in terms of the education, training, experience, and assignments necessary for career progression to the most senior security positions and shall make available published information on those career paths.

(b) LIMITATION ON PREFERENCE FOR SPECIAL AGENTS.—

(1) IN GENERAL.—Except as provided in the policy established under paragraph (2), the Attorney General shall ensure that no requirement or preference for a Special Agent of the Federal Bureau of Investigation (referred to in this title as a "Special Agent") is used in the consideration of persons for security positions.

(2) POLICY.—The Attorney General shall establish a policy that permits a particular security position to be specified as available only to Special Agents, if a determination is made, under criteria specified in the policy, that a Special Agent—

(A) is required for that position by law;

(B) is essential for performance of the duties of the position; or

(C) is necessary for another compelling reason.

(3) REPORT.—Not later than December 15 of each year, the Director shall submit to the Attorney General a report that lists—

(A) each security position that is restricted to Special Agents under the policy established under paragraph (2); and

(B) the recommendation of the Director as to whether each restricted security position should remain restricted.

(c) OPPORTUNITIES TO QUALIFY.—The Attorney General shall ensure that all personnel, including Special Agents, are provided the opportunity to acquire the education, training, and experience necessary to qualify for senior security positions.

(d) BEST QUALIFIED.—The Attorney General shall ensure that the policies established under this Act are designed to provide for the selection of the best qualified individual for a position, consistent with other applicable law.

(e) ASSIGNMENTS POLICY.—The Attorney General shall establish a policy for assigning Special Agents to security positions that provides for a balance between—

(1) the need for personnel to serve in career enhancing positions; and

(2) the need for requiring service in each such position for sufficient time to provide the stability necessary to carry out effectively the duties of the position and to allow for the establishment of responsibility and accountability for actions taken in the position.

(f) LENGTH OF ASSIGNMENT.—In implementing the policy established under subsection (b)(2), the Director shall provide, as appropriate, for longer lengths of assignments to security positions than assignments to other positions.

(g) PERFORMANCE APPRAISALS.—The Director shall provide an opportunity for review and inclusion of any comments on any appraisal of the performance of a person serving in a security position by a person serving in a security position in the same security career field.

(h) BALANCED WORKFORCE POLICY.—In the development of security workforce policies under this Act with respect to any employees or applicants for employment, the Attorney General shall, consistent with the merit system principles set out in paragraphs (1) and (2) of section 2301(b) of title 5, take into consideration the need to maintain a balanced workforce in which women and members of racial and ethnic minority groups are appropriately represented in Government service.

SEC. 307. GENERAL EDUCATION, TRAINING, AND EXPERIENCE REQUIREMENTS.

(a) IN GENERAL.—The Director shall establish education, training, and experience requirements for each security position, based on the level of complexity of duties carried out in the position.

(b) QUALIFICATION REQUIREMENTS.—Before being assigned to a position as a program manager or deputy program manager of a significant security program, a person—

(1) must have completed a security program management course that is accredited by the Intelligence Community-Department of Defense Joint Security Training Consortium or is determined to be comparable by the Director; and

(2) must have not less than 6 years experience in security, of which not less than 2 years were performed in a similar program office or organization.

SEC. 308. EDUCATION AND TRAINING PROGRAMS.

(a) IN GENERAL.—The Director, in consultation with the Director of Central Intelligence and the Secretary of Defense, shall establish and implement education and training programs for persons serving in security positions in the Federal Bureau of Investigation.

(b) OTHER PROGRAMS.—The Director shall ensure that programs established under subsection (a) are established and implemented, to the maximum extent practicable, uniformly with the programs of the Intelligence Community and the Department of Defense.

SEC. 309. OFFICE OF PERSONNEL MANAGEMENT APPROVAL.

(a) IN GENERAL.—The Attorney General shall submit any requirement that is established under section 307 to the Director of the Office of Personnel Management for approval.

(b) FINAL APPROVAL.—If the Director does not disapprove the requirements established under section 307 within 30 days after the date on which the Director receives the requirement, the requirement is deemed to be approved by the Director of the Office of Personnel Management.

TITLE IV—FBI COUNTERINTELLIGENCE POLYGRAPH PROGRAM

SEC. 401. DEFINITIONS.

In this title:

(1) POLYGRAPH PROGRAM.—The term "polygraph program" means the counterintelligence screening polygraph program established under section 402.

(2) POLYGRAPH REVIEW.—The term "Polygraph Review" means the review of the scientific validity of the polygraph for counterintelligence screening purposes conducted by the Committee to Review the Scientific Evidence on the Polygraph of the National Academy of Sciences.

SEC. 402. ESTABLISHMENT OF PROGRAM.

Not later than 6 months after publication of the results of the Polygraph Review, the Attorney General, in consultation with the Director of the Federal Bureau of Investigation and the Director of Security of the Federal Bureau of Investigation, shall establish a counterintelligence screening polygraph program for the Federal Bureau of Investigation that consists of periodic polygraph examinations of employees, or contractor employees of the Federal Bureau of Investigation who are in positions specified by the Director of the Federal Bureau of Investigation as exceptionally sensitive in order to minimize the potential for unauthorized release or disclosure of exceptionally sensitive information.

SEC. 403. REGULATIONS.

(a) IN GENERAL.—The Attorney General shall prescribe regulations for the polygraph program in accordance with subchapter II of chapter 5 of title 5, United States Code (commonly referred to as the Administrative Procedures Act).

(b) CONSIDERATIONS.—In prescribing regulations under subsection (a), the Attorney General shall—

(1) take into account the results of the Polygraph Review; and

(2) include procedures for—

(A) identifying and addressing false positive results of polygraph examinations;

(B) ensuring that adverse personnel actions are not taken against an individual solely by reason of the physiological reaction of the individual to a question in a polygraph examination, unless—

(i) reasonable efforts are first made independently to determine through alternative means, the veracity of the response of the individual to the question; and

(ii) the Director of the Federal Bureau of Investigation determines personally that the personnel action is justified;

(C) ensuring quality assurance and quality control in accordance with any guidance provided by the Department of Defense Polygraph Institute and the Director of Central Intelligence; and

(D) allowing any employee or contractor who is the subject of a counterintelligence screening polygraph examination under the polygraph program, upon written request, to have prompt access to any unclassified reports regarding an examination that relates to any adverse personnel action taken with respect to the individual.

SEC. 404. REPORT ON FURTHER ENHANCEMENT OF FBI PERSONNEL SECURITY PROGRAM.

(a) IN GENERAL.—Not later than 9 months after the date of enactment of this Act, the Director of the Federal Bureau of Investigation shall submit to Congress a report setting forth recommendations for any legislative action that the Director considers appropriate in order to enhance the personnel security program of the Federal Bureau of Investigation.

(b) POLYGRAPH REVIEW RESULTS.—Any recommendation under subsection (a) regarding the use of polygraphs shall take into account the results of the Polygraph Review.

TITLE V—FBI POLICE

SEC. 501. DEFINITIONS.

In this title:

(1) DIRECTOR.—The term "Director" means the Director of the Federal Bureau of Investigation.

(2) FBI BUILDINGS AND GROUNDS.—

(A) IN GENERAL.—The term "FBI buildings and grounds" means—

(i) the whole or any part of any building or structure which is occupied under a lease or otherwise by the Federal Bureau of Investigation and is subject to supervision and control by the Federal Bureau of Investigation;

(ii) the land upon which there is situated any building or structure which is occupied wholly by the Federal Bureau of Investigation; and

(iii) any enclosed passageway connecting 2 or more buildings or structures occupied in whole or in part by the Federal Bureau of Investigation.

(B) INCLUSION.—The term "FBI buildings and grounds" includes adjacent streets and sidewalks not to exceed 500 feet from such property.

(3) FBI POLICE.—The term "FBI police" means the permanent police force established under section 502.

SEC. 502. ESTABLISHMENT OF FBI POLICE; DUTIES.

(a) IN GENERAL.—Subject to the supervision of the Attorney General, the Director may establish a permanent police force, to be known as the FBI police.

(b) DUTIES.—The FBI police shall perform such duties as the Director may prescribe in connection with the protection of persons and property within FBI buildings and grounds.

(c) UNIFORMED REPRESENTATIVE.—The Director, or designated representative duly authorized by the Attorney General, may appoint uniformed representatives of the Federal Bureau of Investigation as FBI police for duty in connection with the policing of all FBI buildings and grounds.

(d) AUTHORITY.—

(1) IN GENERAL.—In accordance with regulations prescribed by the Director and approved by the Attorney General, the FBI police may—

(A) police the FBI buildings and grounds for the purpose of protecting persons and property;

(B) in the performance of duties necessary for carrying out subparagraph (A), make arrests and otherwise enforce the laws of the United States, including the laws of the District of Columbia;

(C) carry firearms as may be required for the performance of duties;

(D) prevent breaches of the peace and suppress affrays and unlawful assemblies; and

(E) hold the same powers as sheriffs and constables when policing FBI buildings and grounds.

(2) EXCEPTION.—The authority and policing powers of FBI police under this subsection shall not include the service of civil process.

(e) PAY AND BENEFITS.—

(1) IN GENERAL.—The rates of basic pay, salary schedule, pay provisions, and benefits for members of the FBI police shall be equivalent to the rates of basic pay, salary schedule, pay provisions, and benefits applicable to members of the United States Secret Service Uniformed Division.

(2) APPLICATION.—Pay and benefits for the FBI police under paragraph (1)—

(A) shall be established by regulation;

(B) shall apply with respect to pay periods beginning after January 1, 2003; and

(C) shall not result in any decrease in the rates of pay or benefits of any individual.

SEC. 503. AUTHORITY OF METROPOLITAN POLICE FORCE.

This title does not affect the authority of the Metropolitan Police Force of the District of Columbia with respect to FBI buildings and grounds.

TITLE VI—REPORTS

SEC. 601. REPORT ON LEGAL AUTHORITY FOR FBI PROGRAMS AND ACTIVITIES.

(a) IN GENERAL.—Not later than December 31, 2002, the Attorney General shall submit to Congress a report describing the statutory and other legal authority for all programs and activities of the Federal Bureau of Investigation.

(b) CONTENTS.—The report submitted under subsection (a) shall describe—

(1) the titles within the United States Code and the statutes for which the Federal Bureau of Investigation exercises investigative responsibility;

(2) each program or activity of the Federal Bureau of Investigation that has express statutory authority and the statute which provides that authority; and

(3) each program or activity of the Federal Bureau of Investigation that does not have express statutory authority, and the source of the legal authority for that program or activity.

(c) RECOMMENDATIONS.—The report submitted under subsection (a) shall recommend whether—

(1) the Federal Bureau of Investigation should continue to have investigative responsibility for each statute for which the Federal Bureau of Investigation currently has investigative responsibility;

(2) the legal authority for any program or activity of the Federal Bureau of Investigation should be modified or repealed;

(3) the Federal Bureau of Investigation should have express statutory authority for any program or activity of the Federal Bureau of Investigation for which the Federal Bureau of Investigation does not currently have express statutory authority; and

(4) the Federal Bureau of Investigation should—

(A) have authority for any new program or activity; and

(B) express statutory authority with respect to any new programs or activities.

SEC. 602. REPORT ON FBI INFORMATION MANAGEMENT AND TECHNOLOGY.

(a) IN GENERAL.—Not later than December 31, 2002, the Attorney General shall submit to Congress a report on the information management and technology programs of the Federal Bureau of Investigation including recommendations for any legislation that may be necessary to enhance the effectiveness of those programs.

(b) CONTENTS OF REPORT.—The report submitted under subsection (a) shall provide—

(1) an analysis and evaluation of whether authority for waiver of any provision of procurement law (including any regulation implementing such a law) is necessary to expeditiously and cost-effectively acquire information technology to meet the unique need of the Federal Bureau of Investigation to improve its investigative operations in order to respond better to national law enforcement, intelligence, and counterintelligence requirements;

(2) the results of the studies and audits conducted by the Strategic Management Council and the Inspector General of the Department of Justice to evaluate the information management and technology programs of the Federal Bureau of Investigation, including systems, policies, procedures, practices, and operations; and

(3) a plan for improving the information management and technology programs of the Federal Bureau of Investigation.

(c) RESULTS.—The results provided under subsection (b)(2) shall include an evaluation of—

(1) information technology procedures and practices regarding procurement, training, and systems maintenance;

(2) record keeping policies, procedures, and practices of the Federal Bureau of Investigation, focusing particularly on how information is inputted, stored, managed, utilized, and shared within the Federal Bureau of Investigation;

(3) how information in a given database is related or compared to, or integrated with, information in other technology databases within the Federal Bureau of Investigation;

(4) the effectiveness of the existing information technology infrastructure of the Federal Bureau of Investigation in supporting and accomplishing the overall mission of the Federal Bureau of Investigation;

(5) the management of information technology projects of the Federal Bureau of Investigation, focusing on how the Federal Bureau of Investigation—

(A) selects its information technology projects;

(B) ensures that projects under development deliver benefits; and

(C) ensures that completed projects deliver the expected results; and

(6) the security and access control techniques for classified and sensitive but unclassified information systems in the Federal Bureau of Investigation.

(d) CONTENTS OF PLAN.—The plan provided under subsection (b)(3) shall ensure that—

(1) appropriate key technology management positions in the Federal Bureau of Investigation are filled by personnel with experience in the commercial sector;

(2) access to the most sensitive information is audited in such a manner that suspicious activity is subject to near contemporaneous security review;

(3) critical information systems employ a public key infrastructure to validate both users and recipients of messages or records;

(4) security features are tested by the National Security Agency to meet national information systems security standards;

(5) all employees in the Federal Bureau of Investigation receive annual instruction in records and information management policies and procedures relevant to their positions;

(6) a reserve is established for research and development to guide strategic information management and technology investment decisions;

(7) unnecessary administrative requirements for software purchases under **$2,000,000** are eliminated;

(8) full consideration is given to contacting with an expert technology partner to provide technical support for the information technology procurement for the Federal Bureau of Investigation;

(9) procedures are instituted to procure products and services through contracts of other agencies, as necessary; and

(10) a systems integration and test center, with the participation of field personnel, tests each series of information systems upgrades or application changes before their operational deployment to confirm that they meet proper requirements.

SEC. 603. GAO REPORT ON CRIME STATISTICS REPORTING.

(a) IN GENERAL.—Not later than 9 months after the date of enactment of this Act, the Comptroller General of the United States shall submit to the Committees on the Judiciary of the Senate and the House of Representatives a report on the issue of how statistics are reported and used by Federal law enforcement agencies.

(b) CONTENTS.—The report submitted under subsection (a) shall—

(1) identify the current regulations, procedures, internal policies, or other conditions that allow the investigation or arrest of an individual to be claimed or reported by more than 1 Federal or State agency charged with law enforcement responsibility;

(2) identify and examine the conditions that allow the investigation or arrest of an individual to be claimed or reported by the Offices of Inspectors General and any other Federal agency charged with law enforcement responsibility;

(3) examine the statistics reported by Federal law enforcement agencies, and document those instances in which more than 1 agency, bureau, or office claimed or reported the same investigation or arrest during the years 1998 through 2001;

(4) examine the issue of Federal agencies simultaneously claiming arrest credit for in-custody situations that have already occurred pursuant to a State or local agency arrest situation during the years 1998 through 2001;

(5) examine the issue of how such statistics are used for administrative and management purposes;

(6) set forth a comprehensive definition of the terms "investigation" and "arrest" as those terms apply to Federal agencies charged with law enforcement responsibilities; and

(7) include recommendations, that when implemented, would eliminate unwarranted and duplicative reporting of investigation and arrest statistics by all Federal agencies charged with law enforcement responsibilities.

(c) FEDERAL AGENCY COMPLIANCE.—Federal law enforcement agencies shall comply with requests made by the General Accounting Office for information that is necessary to assist in preparing the report required by this section.

TITLE VII—MISCELLANEOUS PROVISIONS

SEC. 701. ALLOWING DISCIPLINARY SUSPENSIONS OF MEMBERS OF THE SENIOR EXECUTIVE SERVICE FOR 14 DAYS OR LESS.

Section 7542 of title 5, United States Code, is amended by striking "for more than 14 days".

S. 1974—SECTION-BY-SECTION ANALYSIS

TITLE I

Title I of this bill provides for improved Department of Justice and Congressional oversight of the FBI by ensuring that the Department of Justice Office of the Inspector General, "OIG", is authorized to investigate allegations of misconduct at the FBI and requiring a report to the Judiciary Committees on how the OIG carries out this new authority. This title is consistent with provisions in the DOJ Authorization Act, S. 1319/H.R. 2215, which have passed the Senate by unanimous consent.

Section 101. Authority of Department of Justice Inspector General

This section would amend Section 8E of the Inspector General Act of 1978 (5 U.S.C. App.) to provide explicit statutory authority for the OIG to investigate all allegations of criminal or administrative misconduct by DOJ employees, including FBI personnel. The OIG is also authorized to refer certain matters to the FBI Office of Professional Responsibility or to the internal affairs office of the appropriate component of the Department. The Attorney General is directed to promulgate regulations implementing this OIG authority.

For many years, the FBI was excluded from OIG jurisdiction and the FBI's own internal Office of Professional Responsibility had sole authority to investigate FBI personnel misconduct, unless the Attorney General made an exception. The FBI's exclusive domain to investigate its own misconduct was unique in the Department and created the appearance of a conflict of interest. On July 11, 2001, Attorney General Ashcroft issued a new rule expanding the OIG's jurisdiction over the FBI. This section is consistent with, and codifies, the Attorney General's new rule.

Section 102. Review of the Department of Justice

To ensure that the OIG has the necessary structure and resources to effectively assume its new jurisdiction over the FBI and that the Congress is fully informed of such needs, this subsection requires the Inspector General to: 1. appoint an official to help supervise and coordinate oversight operations and programs of the FBI during the transition period; 2. conduct a comprehensive study of the FBI and report back to the Judiciary Committees with a plan for auditing and evaluating various parts of FBI, including information technology, and for effective continued OIG oversight; and 3. report back to the Judiciary Committee on whether an Inspector General for the FBI should be established.

TITLE II

This title of the bill amends Title 5, U.S.C. §2303, to enhance the whistle blower protection provided to FBI employees and protect them from retaliation.

Section 201. Providing whistle blower protection for FBI employees

Section 2303 of title 5, United States Code, is amended to expand the types of disclosures that trigger whistle blower protections by protecting disclosures, which the employee "reasonably believes" evidences misconduct, to the OIG, the Congress, a supervisor of the employee, or the Special Counsel (an office of the Merit Systems Protection Board, "MSPB", provided for by 5 U.S.C. §1214). The amendment would also ensure that the procedural protections of the Administrative Procedure Act, including but not limited to 5 U.S.C. sections 554–57 and 701–706, would be followed in cases where a complaint of retaliation was made by an FBI employee. These procedural protections include, among other things, an impartial decision maker and decision based on the "record" of any proceedings without ex parte contacts and judicial review as provided. Current laws and regulations which allow for the protection of classified material would also be available for such proceedings in appropriate situations. The amendment, in new subsection (c), provides an individual right of action as provided under Chapter 12 of Title 5 before the MSPB. The amendment, in new subsection (d), requires the Attorney General to prescribe regulations to ensure that the title is enforced at the FBI.

TITLE III

Title III requires the FBI to establish a career security program to enhance the internal security of the FBI and ensure that appropriate management tools and resources are devoted to that task. Security professional career development requirements would be modeled generally on the statutory Department of Defense Acquisition Career Program.

Sections 301–305. Establishing and defining career security program

Section 301 requires the Attorney General to establish policies and procedures for career management of FBI security personnel. Section 302 authorizes the Attorney General to delegate to the FBI Director the Attorney General's duties with respect to the FBI security workforce. Section 303 directs the FBI Director to appoint a Security Director, who, under Section 304, would chair a security career program board to advise in managing hiring, training, education, and career development. Section 305 directs the FBI Director to designate certain positions as security positions, with responsibility for personnel security and access control, information systems security, information assurance, physical security, technical surveillance countermeasures, operational, program and industrial security, and information security and classification management.

Sections 306–309. Career development and training

Section 306 requires that career paths to senior positions would be published. FBI Special Agents would not have preference for a security position, and no positions would be restricted to Special Agents unless the Attorney General makes a special determination. All FBI personnel would have the opportunity to acquire the education, training and experience needed for senior security positions. The Attorney General would ensure that policies are designed to select the best qualified individuals, consistent with other applicable law. Consideration would also be given to the need for a balanced workforce.

Section 307 would direct that education, training, and experience requirements would be established for each position. Before assignment as manager or deputy manager of a significant security program, a person would have to complete a security program management course accredited by the Joint DoD-Intelligence Security Training Consortium or determined to be comparable by the Director, and have 6 years security experience including 2 years in a similar program. Section 308 directs the Director, in consultation with the DCI and Secretary of Defense, to establish education and training programs for FBI security personnel that are, to the maximum extent practical, uniform with Intelligence and DoD programs. Section 309 sets forth the process for approval of requirements set forth under section 307.

TITLE IV

This title would require the Attorney General to establish an FBI Counterintelligence Polygraph Program for personnel in exceptionally sensitive positions that reflects the results of a pending National Academy of Sciences review of the validity of the polygraph, within 6 months after publication of that review. The regulations would be prescribed in accordance with the Administrative Procedures Act. A similar requirement for the Department of Energy was passed in the latest Defense Authorization Act.

Sections 401–404. Definitions, establishment of program, regulations, report

Section 402 requires the establishment of a counterintelligence screening polygraph program consisting of periodic polygraph examinations of employees and contractors with access to sensitive compartmented information, special access program information, on restricted data. This program shall be established within 6 months of the publication of the results of the report of the Committee to Review the Scientific Evidence on the Polygraph of the National Academy of Sciences. Section 403 directs that the program have procedures that address "false positive" results and ensure quality assurance and control in accordance with guidance from the DoD Polygraph Institute and the DCI. No adverse personnel action could be taken solely by reason of physiological reactions on an exam without further investigation and personal decision by the Director. Employees could have prompt access to unclassified reports on their exams that relate to adverse personnel action. Section 404 requires a report within 9 months of the enactment of the Act on any further legislative action appropriate in the personnel security area.

TITLE V

This title provides statutory authorization for an already existing FBI police force that protects FBI buildings and adjacent streets. Currently, the FBI police suffers from a high rate of turnover due to lower pay and fewer benefits than the Uniformed Division of Secret Service or Capitol and Supreme Court police. This title would close the disparity.

Sections 501–503. Definitions; establishment; authority of metropolitan police

Section 501 defines the terms "Director," "FBI buildings and grounds," and "FBI police" as used in the title. Section 502 authorizes the FBI Director to establish the FBI police, subject to the Attorney General's supervision, to protect persons and property within FBI buildings and grounds, including adjacent streets and sidewalks within 500 feet. FBI buildings and grounds would include any building occupied by the FBI and subject to FBI supervision and control, the land on which such building is situated, and enclosed passageways connecting such buildings. FBI police would be uniformed representatives of the FBI with authority to make arrests and otherwise enforce federal and D.C. laws, carry firearms, prevent breaches of the peace, suppress unlawful affrays and unlawful assemblies, and hold the same powers as sheriffs and constables. FBI police would not have authority to serve civil process. Pay and benefits would be equivalent to pay and benefits for the Secret Service Uniformed Division. Section 503 provides that the authority of the Washington, D.C. Metropolitan Police would not be affected by this title.

TITLE VI

This title requires two separate reports by the Attorney General and one by the General Accounting Office.

Section 601. FBI authority and mission

Section 601 requires the Attorney General to submit a report to Congress on the legal authority for FBI programs and activities, identifying those that have express statutory authority and those that do not. The FBI does not have a statutory charter. One was proposed in 1979 but never enacted. Many FBI functions including its national intelligence and counterintelligence activities are authorized by Executive order rather than by statute. This section also requires the Attorney General to recommend the criminal statutes for which the FBI should have investigative responsibility, whether the authority for any FBI program or activity should be modified or repealed, whether the FBI should have express statutory authority for any program or activity for which it does not currently have such authority, and whether the FBI should have authority for any new program or activity.

Section 602. FBI information management

Section 602 requires the Attorney General to submit a report on FBI information management and technology, including whether the authority is needed to waive normal procurement regulations. The report would provide the results of pending Justice Management Council studies and Inspector General audits and submitting a 10-point plan for improving FBI information management and technology to ensure that 1. appropriate FBI technology management positions are filled by personnel with commercial sector experience, 2. access to the most sensitive information is audited so that suspicious activity is subject to near contemporaneous review, 3. critical information systems employ a public key infrastructure, 4. security features are tested by the National Security Agency, 5. FBI employees receive annual instruction in records and information management, 6. a research and development reserve is established, 7. undue requirements for less costly software purchases are eliminated, 8. contracting with an expert technology partner is considered, 9. procedures are instituted to procure through contracts of other agencies as necessary, and 10. system upgrades are tested before operational deployment.

Section 603. GAO report on crime statistics reporting

Section 603 requires the General Accounting Office to report on how crime statistics are reported and used by Federal law enforcement agencies. Specifically, the report would identify policies that allow a case to be claimed or reported by more than one law enforcement agency, the conditions that allow such reporting to occur, the number of such cases reported during a 4-year period, similar multiple claims of credit for arrests, the use of such statistics for administrative and management purposes, and relevant definitions. The report would include recommendations for how to eliminate unwarranted and duplicative reporting. Federal law enforcement agencies would be required to comply with GAO requests for information necessary to prepare the report.

TITLE VII

This title would address the issue of the "double standard" in the FBI, to prevent lower level employees from being more harshly disciplined than senior FBI officials. Section 7542 of title 5, United States Code, would be amended to allow disciplinary suspensions of SES members for 14 days or less, as is the case for other federal personnel. Current law provides only for suspension "for more than 14 days."

Section 702. Allowing disciplinary suspensions of members of the senior executive service for 14 days or less

This section would lift the minimum of 14 days suspension that applies in the FBI's SES disciplinary cases and thereby provide additional options for discipline in SES cases and encourage equality of treatment. The current inflexibility of disciplinary options applicable to SES officials was cited at a Senate Judiciary Committee oversight hearing in July, 2001, as one underlying reason for the "double standard" in FBI discipline. In effect, those deciding the discipline of SES employees are often left with the choice of an overly harsh penalty or no penalty at all—so they decide not to impose any meaningful disciplinary action.

Mr. GRASSLEY. Madam President, I am pleased to introduce with Senator LEAHY a bill to reform the FBI. For almost a decade I have been engaged in FBI oversight and during that time I have seen numerous scandals and coverups. While Director Mueller is working to address these problems, Congress also has a role to play in the overhaul of the FBI. The FBI reform bill is designed to address the accountability problems that have plagued the FBI for years. The bill expands the Department of Justice Inspector General's jurisdiction, protects FBI whistleblowers, creates an FBI Security Career program and a Counterintelligence Polygraph program, enhances the FBI police force, and mandates various reports by the Attorney General.

I have advocated some of these measures, particularly those dealing with protecting whistleblowers and expanding the jurisdiction of the DOJ Inspector General's Office to include the FBI. Let me provide some more detail about the most important provisions in the bill.

In the past the FBI's own internal Office of Professional Responsibility was tasked with the sole authority to investigate the misconduct of FBI personnel. Clearly this constitutes a conflict of interest. In fact, no other area of the Department of Justice maintains this type of accountability system.

Last summer, Attorney General Ashcroft issued an order which changed that situation by expanding the jurisdiction of the Department of Justice Office of Inspector General to encompass both the FBI and the DEA. Specifically, the order gave the DOJ Inspector General primary jurisdiction over allegations of misconduct against employees of the FBI and DEA. Previously, the Inspector General could not initiate an investigation within the FBI or the DEA, without receiving permission from the Deputy Attorney General. I commended Attorney General Ashcroft's order because I had been saying for many years that the FBI should not be allowed to police itself. I was encouraged that the establishment of a free and independent oversight entity would have a beneficial impact on the FBI's management culture.

The bill codifies the Attorney General's order making it a permanent fixture in the plan to reform the FBI. Specifically, the bill provides statutory authority for the DOJ Office of Inspector General to investigate all allegations of criminal and administrative misconduct by DOJ employees, including those in the FBI and the DEA. However, it does not abolish the FBI's Office of Professional Responsibility, OPR, but rather gives the DOJ Inspector General discretion to refer certain investigations to the FBI OPR. Because the FBI OPR is particularly good at investigating certain types of low level offenses, it is good that the Inspector General will have this discretion.

The bill also contains much needed protections for FBI whistleblowers. As many of you know, I believe that good government requires that the brave men and women who blow the whistle on wrongdoing be protected. I have been an active champion of the rights of federal whistleblowers since 1983. This is because of my strong belief that disclosures of wrongdoing by whistleblowers are an integral part of our system of checks and balances. Whistleblowers ensure that waste, fraud, and abuse are brought to light. Whistleblowers play a critical role in ensuring that public health and safety problems are exposed.

I truly believe that reform at the FBI will only occur when FBI employees feel free to blow the whistle on wrongdoing. Since the FBI was excluded from the Whistleblower Protection Act I have been concerned about the retaliation that is often perpetrated against whistleblowers at the FBI, such as Dr. Fred Whitehurst, who speak out about abuses and problems with the system.

So, the bill gives FBI whistleblowers the same rights and protections that other Federal employees currently possess. When FBI employees are retaliated against for blowing the whistle, they can avail themselves of all the protections afforded them by the Whistleblower Protection Act.

Since the FBI has made the fight against terrorism its top priority, many would be FBI whistleblowers may blow the whistle on wrongdoing that involves national security issues. Because of the need to keep that information secure, the bill directs the Attorney General to formulate regulations to provide specific protections for these employees consistent with the relevant portions of the WPA and the Administrative Procedures Act.

Our FBI reform bill addresses several other issues that contribute to the FBI's culture of arrogance. I have believed for a long time that one of the biggest contributors to this culture is the cumbersome and unwieldy jurisdiction of the FBI. The Bureau currently investigates over 300 different federal offenses, which are divided between violent crime, white collar crime, organized crime, drugs, national security, and civil rights. Contained within these areas are numerous instances of concurrent or overlapping jurisdiction with other Federal law enforcement agencies.

Despite having what many would describe as an already overburdened array of jurisdiction, the FBI has established a campaign of jurisdictional encroachment. This "Pacman" philosophy of the Bureau's past has only served to feed the culture of arrogance. I pointed this problem out to the DOJ and was pleased to hear of the Attorney General and the FBI Director's intention to put a stop to that "Pacman" mentality and limit the FBI's investigatory scope.

But, this will be a complex issue. Just as Congress has been complicit in the FBI's expansion, we will need to be involved in the divestiture. The Department of Justice's Strategic Plan states that the FBI will focus on building and maintaining its utmost capacity to detect, deter, counter, and prevent terrorist activity. The plan also encourages the FBI to promote and, when available, use new legislation and authorities to conduct investigations of terrorist incidents.

It is ironic that in light of this, the FBI continues to view many violations that it has traditionally investigated as being of strategic importance. Why are environmental crimes, health care fraud, bank robbery, telemarketing and financial institution fraud, computer intrusions, intellectual property crimes, and credit card fraud still viewed by the FBI as of strategic importance? I understand that terrorism investigations could potentially involve any one, or a number, of the above violations, but there are many other Federal regulatory and investigative agencies that have established historic expertise in these same program areas.

In its reorganization, the FBI needs to scale back on some of its law enforcement activities which are duplicated by other Federal and state agencies. The Bureau needs to completely jettison some of these areas, but in other areas the Bureau could simply take a secondary role, allowing another agency to take the lead. It is my hope that by scaling back on certain FBI investigative activities, the FBI will send a positive signal in dealing with its counterparts in state, local, and federal government.

To assist in cutting back on the FBI's jurisdiction, the bill directs the Attorney General to report to Congress on the legal authority for FBI programs and activities, identifying those that have express statutory authority and those that don't. The bill also requires the Attorney General to recommend what criminal statutes he believes the FBI should have investigative responsibility for. This report will help Congress, as we continue to address the FBI's culture of arrogance.

Another issue that contributes to the FBI's culture of arrogance is the collection, use, and reporting of crime statistics. It is often the case in Federal law enforcement that several agencies will claim credit for a single arrest. This double and triple counting of arrests leads to an inflation of statistics that often misrepresents the actual work load of the various agencies. This is a problem because these statistics are used by federal law enforcement agencies, including the FBI, to justify increases in their funding.

To get a handle on the exact nature and extent of this problem, our bill directs the GAO to conduct a review of how crime and investigation statistics are reported and used by Federal law enforcement agencies. This report will assist us in future legislation on this issue.

There are many more reforms contained in our FBI reform bill, but there is just one more that I want to focus on today. This reform is a change in the way employees of the Senior Executive Service are punished.

Last summer, four exceptional and courageous FBI agents alerted the Judiciary Committee to the fact that there exists a gross inequality in the way Senior Executive Service (SES) employees of the FBI and rank and file agents are disciplined. SES employees are given a slap on the wrist for their infractions, while the rank and file agents are often punished to the letter of the law. This issue was further exposed by a GAO report on the investigation of the Larry Potts Retirement Dinner scandal. That report reemphasized what had been reveled in the FBI Law Enforcement Ethics Unit's position paper, "FBI SES Accountability, a Higher Standard or a Double Standard." These two reports document the existence of a double standard.

I was glad to see that former Director Freeh abolished the SES Review Board, but I'm not sure it was a sufficient change for a culture that has historically treated SES employees with kid gloves.

So our FBI Reform bill attempts to address this problem by providing some flexibility in how SES employees can be punished. The Senate Judiciary Committee has heard repeatedly that this inflexibility is one of the main causes for the inequality in punishment at the FBI. Currently, the minimum suspension that SES employees can receive is 14 days, to the Bureau's management is often left with the choice of an overly harsh penalty or no penalty at all—so often they decide not to impose any meaningful disciplinary action.

Specifically, our bill would lift the 14-day minimum suspension for SES disciplinary cases to provide for additional options in disciplining senior executive employees. Hopefully, this change will help to remedy this double standard.

In conclusion, I urge my colleagues to support this bill to foster reform in the FBI. The Bureau is crucial in the war on terrorism. Let's fix the problems we have helped to create, so that the FBI can again be he best at what it does.

By Mrs. FEINSTEIN (for herself, Mr. SMITH of Oregon, Mr. DASCHLE, Mr. JEFFORDS, Mrs. CLINTON, Mrs. HUTCHISON, Ms. MIKULSKI, Ms. SNOWE, Mrs. BOXER, Ms. COLLINS, Ms. LANDRIEU, Mr. CHAFEE, Mrs. MURRAY, Mrs. LINCOLN, Ms. STABENOW, Ms. CANTWELL, Mrs. CARNAHAN, Mr. SCHUMER, Mr. TORRICELLI, Mr. NELSON of Nebraska, Mr. JOHNSON, Mr. REED, Mr. BREAUX, Mr. CORZINE, Mr. LEAHY, Mr. REID, Mr. KERRY, Mr. NELSON of Florida, Mr. GRAHAM, and Mr. DODD):

S. 1976. A bill to provide for a comprehensive Federal effort relating to treatments for, and the prevention of cancer, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mrs. FEINSTEIN. Madam President, I rise today to introduce the National Cancer Act of 2002. This bill is co-sponsored by Senators GORDON SMITH, DASCHLE, JEFFORDS, CLINTON, HUTCHISON, MIKULSKI, SNOWE, BOXER, COLLINS, LANDRIEU, CHAFEE, MURRAY, LINCOLN, STABENOW, CANTWELL, CARNAHAN, SCHUMER, TORRICELLI, BEN NELSON, JOHNSON, REED, BREAUX, CORZINE, LEAHY, REID, KERRY, and BILL NELSON.

Today, cancer is the Nation's second cause of death, trailing heart disease. Over the next 30 years, cancer will surpass heart disease and become the leading cause of death as the baby boomers age.

This bill represents a comprehensive national battle plan to reenergize the Nation's war on cancer, a war begun when President Richard Nixon on January 22, 1971 proposed to Congress that we launch a war on cancer.

That commitment was a critical first step. But it is clear that we must take further steps to address the scourge of cancer in every respect.

The bill we are introducing today is the product of more than 3 years and hundreds of hours of work.

I am the vice-chair of the National Dialogue on Cancer. In discussions with cancer experts from this group, it became clear to me that the National Cancer Act of 1971 was out of date.

We are now in the genomic era, on the cusp of discoveries and cures that we could only have dreamed about in 1971. The science of cancer has advanced dramatically with the revolution in molecular and cellular biology creating unprecedented opportunities for understanding how genetics, environmental risk factors, and lifestyle factors relate to cancer. The explosion in knowledge about the human genome and molecular biology will enable scientists to better target cancer drugs.

I believe the opportunity for new drugs is so bright, we might well find a cure for cancer in my lifetime.

With these advances, I thought it was time to update the National Cancer Act of 1971 to reflect these advances in science.

I asked John Seffrin, CEO of the American Cancer Society, and Dr. Vincent DeVita, Director of the Yale Cancer Center, to form a special committee of cancer experts to provide recommendations on a battle plan to conquer cancer.

The committee produced an ambitious plan and what I tried to do was take the most important components, given the current budget situation, and develop a piece of legislation that could pass the Senate.

On November 7, 2001, President George Bush commended the work of the committee when he wrote, "The journey ahead will not be easy. But 30 years ago, no one would have imagined coming as far as we have. Working together, we will take the next steps necessary to defeat this deadly disease." I invite him today to join me in taking these steps.

Finding a cure for cancer is a very personal goal. I lost both my father, Leon Goldman, and my husband, Bert Feinstein, to cancer. I saw its ravages firsthand, and I experienced the frustrations, the difficulties, and the loneliness that people suffer when a loved-one has cancer. I determined that I would do all I could to reduce the number of people who go through this devastating experience.

And it is my great hope that this legislation will help do just that, and enable us to find a cure for cancer in my lifetime.

This may in fact be the most important thing I do in the Senate.

There are several reasons we need a major attack on cancer. Much has changed since 1971. The way we prevent, diagnose, treat, conduct research, and understand cancer has changed dramatically.

Cancer is a disease of aging and as the American population ages, cancer incidence will grow by 29 percent by 2010 and cancer deaths by 25 percent. The number of Americans over age 65 will double in the next 30 years.

Since 1971, survival rates for some cancers have improved, while others have not. More and more people live with cancer. Compared to 1971, twice as many people, 8.9 million in 1997, are living with a history of cancer.

Since 1971, more cancer care has moved from inpatient to outpatient settings. Some families find themselves virtually becoming nurses to their loved ones in their homes.

Since 1971, more research is collaborative, between the public and private sectors, and more cancer research requires a multi-disciplinary approach.

Since 1971, the biotechnology industry has blossomed and provided a broad array of new treatment options, promising even more innovations in cancer care.

Since 1971, computer technology and communications have expanded and increased in complexity, making the accessing and transmitting of information more widespread, more readily available and transforming research methodologies.

While the science of cancer has seen revolutionary change, there are still many gaps in the system, especially from the patient's perspective.

Just three months ago, the President's Cancer Panel in their report titled, Voices of a Broken System: Real People, Real Problems, told us that cancer is an "equal opportunity" killer, but if you are poor, uneducated, or isolated you are doubly disadvantaged in America. They said, "Access to appropriate cancer care is the crucial fundamental step needed to relieve the desperate physical suffering, financial devastation, and loss of dignity so many people endure when cancer is diagnosed."

Take cancer screening, for example. Cancer screening can reduce cancer mortality. While many screening tools have been developed, screening rates are still low, especially for colorectal cancer. Screening technologies have improved, but cancer screening rates vary by cancer site, by population group, and by health insurance coverage.

Another "hole" in the system: Fewer than 5 percent of adult cancer patients participate in cancer trials. Among the elderly, the population most likely to get cancer, only 3-4 percent participate. Drugs cannot be brought to patients without clinical trials.

The quality of cancer care is uneven and often based on the pure coincidence of where one lives. According to the President's Cancer Panel, "People living in rural, frontier, geographically isolated and impoverished inner city areas suffer the most from the uneven distribution of cancer care resources and providers. . . ." Many studies show that many cancer patients do not receive optimal care.

Additionally, the cancer care workforce will face severe shortages, particularly in long-term care settings.

The pipeline of medical researchers is threatened with, the number of young physicians entering medical research declining.

Over 44 million Americans have no health care insurance and those that do have uneven coverage. The President's Cancer Panel says that at least

31 million Americans have inadequate coverage.

The National Cancer Act of 2002 takes a multi-pronged approach to winning the war against cancer. Here's what the bill will do:

The advances in science that I spoke of earlier on the human genome and molecular biology have thus far produced medications that can target cancer cells and leave in tack healthy cells.

This legislation would enable the National Cancer Institute (NCI) to fund up to 40 percent of grants over 5 years, up from the current level of 28 percent. Why is this important? The research is what will bring the cure.

NCI now funds 4,500 research project grants at nearly 600 institutions every year. This represents 28 percent of the 16,000 grant proposals NCI receives. NCI scientists think funding 40 percent will allow them to fund the most promising grants. At 28 percent, it does not happen.

Funding basic research is a full frontal assault on cancer, which will lead to more breakthroughs, more treatments, and ultimately, I believe, to a cure.

We now have drugs, like Gleevec for Chronic Myeloid Leukemia and Herceptin for breast cancer, that can target and destroy cancer cells while leaving healthy cells unharmed.

Patients, who were considered terminal, have taken Gleevec and were able to get out of their beds and leave the hospice within days of treatment. After one-year of clinical trials for Gleevec, 51 out of 54 patients were still doing well. With 4,500 Americans diagnosed with Chronic Myeloid Leukemia a year, the potential for this drug is tremendous.

And just this month, Gleevec was approved by the FDA to treat another cancer Gastrointestinal Stromal Tumors, suggesting that the potential for this drug may be even greater than we hope.

The bill authorizes funds for new and existing research centers to conduct translational, multidisciplinary cancer research, and to establish networks linking translational research centers to community cancer providers, hospitals, clinics, doctors' practices, particularly in underserved areas.

The purpose of this provision is to greatly accelerate the movement of basic research to the patient, from the "bench to the bedside," so that we can conduct more clinical trials.

Clinical trials test the safety and efficacy of drugs, devices or new medical techniques. They are required for FDA approval. These trials require thousands of participating people to help determine if drugs are safe and effective.

But clinical trials are expensive. They involve many people, who often have to travel to a cancer center; they involve staff time and careful monitoring and recordkeeping. The drug industry says it costs on average $500 million to develop a drug; a November 2001 Tufts University study puts the cost at $800 million. Whatever it is, it is expensive.

The bill includes several steps to expand clinical trials, those research projects that require thousands of people to determine whether new drugs are safe and effective.

First, the bill will provide $100 million per year for new grants for what is called "translational" research, work that moves promising drugs from the "bench to the bedside."

Right now, there are many new drugs under development that are stuck, as though in a funnel, because we have not put the resources into having the people-based research to test those drugs. There are approximately 400 new drugs that are held up in the development process because the resources are not available to fund clinical research to test those drugs.

For every one drug approved, 5,000 to 10,000 were initially considered. The entire process can take as long as 15 years. NCLAC said it takes 12 to 14 years to bring one drug from discovery to patients.

Second, the bill will require insurers to pay the routine or non-research costs for people to participate in clinical trials, while the drug sponsor would continue to pay the research costs. California already requires this coverage by private insurers.

Third, the bill requires the National Cancer Institute to establish a program to recruit patients and doctors to participate in clinical trials. Dr. Robert Comis, President of the Coalition of National Cancer Cooperative Groups, has said that eight out of ten cancer patients do not consider participating in a clinical trial. They are unaware that they might have the option. He also has found that physician involvement is key.

We must work all we can to make both physicians and patients more aware of the importance of participating.

Currently, only 4 to 5 percent of adult cancer patients participate in clinical cancer trials. But Research America polls found that 61 percent of Americans would participate in a clinical trial.

We should heed the example of what is called the "pediatric model." Over 60 percent of children with cancer participate in clinical trials. Children in these trials get optimal care, with an overall physician manager or "quarterback." The five-year survival rates for children with cancer have increased significantly.

In the 1960s, childhood leukemia could not be cured. It was a death sentence. Today, 70 percent of children with acute lymphoblastic leukemia enter remission. This is but one example of the power and importance of clinical trials. An investigational treatment yesterday is standard treatment today.

Only by injecting new funding into cancer research will we enable cancer researchers to conduct the trials that are necessary to bring promising new drugs to market.

Scientists say we will stop defining cancer by body part, like breast cancer or prostate cancer. Because everyday we are understanding better the genetic basis of cancer and can focus drugs on molecular targets, we may have, for example, 50 different kinds of breast cancer, defined by their genetic basis. As NCI's Dr. Rabson has said, "As we've come to understand the molecular signatures of cancer cells, we can classify tumors according to their genetic characteristics."

This means that we need to create incentives to encourage companies to make these targeted drugs because as we redefine cancer, we will have smaller numbers of people who have that particular kind of breast cancer. Companies are often reluctant to make drugs for small patient populations.

This legislation would provide tax and marketing incentives to encourage pharmaceutical companies to produce "orphan drugs," or drugs targeted to small patient populations.

Beginning with Gleevec and continuing into the future, drugs will target a narrow genetic or cellular mutation.

While this holds great promise for patients, it also means that the number of treatments will proliferate, thereby segmenting cancer patients into smaller and smaller populations. In some cases, this will mean that pharmaceutical companies—for strictly financial reasons—may not want to produce a given drug.

This provision would create incentives for those companies to produce and market the drugs targeted to patient populations of less than 200,000.

The impact: This will help to ensure that patients receive the highest quality care, even when the number of people faced with a particular type of cancer is small.

The bill will create a new initiative to train more cancer researchers. Specifically, it will (1) pay off the medical school loans of 100 physicians who commit to spend at least 3 years doing cancer research; and (2) boost the salaries of postdoctoral fellows from $28,000 to $45,000 per year over 5 years.

Every year, young physicians and researchers avoid the field of cancer research because, frankly, they feel they can make more money elsewhere. This provision will help reverse that trend and add thousands of men and women on the front lines of the fight.

The physician-scientist is endangered and essential, concluded a January 1999 study, showing that the number of first-time M.D. applicants for NIH research projects has been declining. The study, published in Science, said, ". . . fewer young M.D.'s are interested in or perhaps prepared for careers as independent NIH-supported investigators."

Young doctors and Ph.Ds do not want to go into cancer research because they can make more money elsewhere. Graduating physicians have medical school debt averaging $75,000 to $80,000. Because of the low pay to be a physician-scientist, these doctors cannot afford to go into research.

Postdoctoral fellows, who conduct the bulk of day-to-day research, receive pay that is neither commensurate with their education and skills nor adequate. To attract the best and the brightest to the field of cancer research, we need to pay them more than $28,000 to start.

The National Academy of Sciences in September 2000 called for increasing their compensation.

All too often having cancer is a lonely and frightening experience. Cancer patients have a team of doctors, from the primary care physician to the radiologist to the oncologist. Patients need one doctor to be in charge.

The Institute of Medicine told the Senate Cancer Coalition in our June 16, 1999 hearing that the care that cancer patients get is all too often just a matter of circumstance: ". . . for many Americans with cancer, there is a wide gulf between what could be construed as the ideal and the reality of Americans' experience with cancer care . . . The ad hoc and fragmented cancer care system does not ensure access to care, lacks coordination, and is inefficient in its use of resources." The Institute of Medicine study on the uneven quality of health care says, "Health care today is characterized by more to know, more to manage, more to watch, more to do, and more people involved in doing it than at any time in the nation's history."

The bill will require plans to pay doctors, preferably oncologists, to become the overall managers of patients' care, what I call a "quarterback physician," to be with the patient from diagnosis through treatment to prevent the patient from being forced to navigate the medical system alone.

I developed this concept after meeting Dr. Judy Schmidt, a solo-practicing oncologist from Montana. Dr. Schmidt cares for her patients from diagnosis to treatment, and she is really a model for doctors across the nation to emulate.

This "quarterback physician" would provide overall management of the patient's care among all the providers. Someone would be in charge. This provision could save money because good coordination can reduce hospitalization costs.

The bill also authorizes $8 million to the Agency for Health Care Research and Quality to convene cancer experts, providers, patients and other relevant experts to coordinate the development of practice guidelines for optimal cancer care, prevention, palliation, symptom management and end-of-life care.

People cannot get good health care if they have no way to pay for it, if insurance plans, public and private, do not cover the basics like screenings for cancer.

My bill will require public plans, like Medicare and Medicaid, and private insurance plans to cover five services important to good cancer care: (1) cancer screenings; (2) genetic testing and counseling for people at risk; (3) smoking cessation; and (4) nutrition counseling.

The coverage added by this bill is important to preventing cancer. Here's an example: On January 31, we read reports of a promising new screening test for colon cancer that can find extremely small traces of cancer in patients' stool, offering an entirely new approach to finding colon cancer, which kills 48,000 Americans annually and is often found too late to cure.

Mammograms, pelvic exams, reducing fat in the diet and stopping smoking—all of which could be enhanced by this bill—can stop cancer before it is too late.

Because too many Americans have no way to pay for their health care when cancer strikes and because seven percent of cancer patients are uninsured, the bill also requires the Institute of Medicine of the National Academy of Sciences to conduct a study of the feasibility and cost of providing Medicare coverage to individuals at any age who are diagnosed with cancer and have no other way to pay for their health care.

Medicare already covers care for people of any age who have End Stage Renal Disease and Amyotrophic Lateral Sclerosis, Lou Gehrig's Disease. This study could provide helpful guidance to the Congress.

Because no assault on cancer is complete without a strong cancer prevention component, the bill provides funds and requires the Centers for Disease Control and Prevention to prepare a model state cancer control and prevention program; expand the National Program of Comprehensive Cancer Control plans and to assist every state to develop a cancer prevention and control program.

The bill also authorizes $250 million to expand the Center for Disease Control and Prevention's breast and cervical cancer screening program and authorizes $50 million for CDC to begin screening programs for colorectal cancer.

Today, 16 states now have cancer plans and 16 states are creating or updating their plans. States could use these funds to promote cancer education and prevention, improve registries, study disparities and other uses.

Because of the aging of the American population, we face a virtual explosion of cancer in the coming 30 years. The number of cases will double. But the sad fact is that we do not have enough nurses and other health care professionals to take care of this expected rise in cancer patients.

My bill will provide $100 million for loans, grants and fellowships to train for the full range of cancer care providers, including nurses for all settings, allied health professionals, and physicians. The bill requires that these applicants have the intention to get a certificate, degree, or license and demonstrate a commitment to working in cancer care.

In nursing alone, those critical people on the front line of care, we face a national nursing shortage in virtually every setting, say many experts, which will peak in the next 10 to 15 years unless steps are taken. By 2020, the RN workforce will be 20 percent short of what is needed. My home state of California ranks 50th among registered nurses per capita.

And it's not just nurses. The Health Resources Services Administration says that the demand of health care professionals will grow at twice the rate of other occupations.

Cancer is primarily a disease of aging. As the baby boomers age, there will be more cancer. Cancer care is becoming more and more complex as technology improves. Skilled providers, from the nurse assistant to the oncologist are needed to administer the complex therapies. This bill should provide some help.

Cancer cannot be conquered without addressing smoking and the use of tobacco products. Smoking causes one-third of all cancers, and is the cause of approximately 165,000 deaths annually.

Over the past two decades, we have learned that tobacco companies have manipulated the level of nicotine in cigarettes to increase the number of people addicted to their product.

There are more than 40 chemicals in tobacco smoke that cause cancer in humans and animals, according to the CDC. Tobacco smoke has toxic components, as well as tar, carbon monoxide and other dangerous additives.

The cancer community is united in the belief that the single most important preventive measure is to place tobacco products under the regulatory control of the Food and Drug Administration (FDA).

It is long past time to reduce the addictive nature of cigarettes and curtail the marketing of these products to young people—I believe that empowering the FDA to regulate tobacco will help do that.

The U.S. Surgeon General and the Centers for Disease Control and Prevention have unequivocally demonstrated that, for example, anti-smoking campaigns can reduce smoking, a major cause of cancer.

California is a good example: My state started an aggressive tobacco control program in 1989 and throughout the 1990s, tobacco use dropped at two to three times faster than the rest of the country.

Ninety percent of adult smokers begin before age 18 and every day, 3,000 young people become smokers.

This bill will provide meaningful regulation by the Food and Drug Administration of the content and marketing of tobacco products, especially the addicting and carcinogenic components. Dr. C. Everett Koop, former U.S. Surgeon General, and Dr. David Kessler, former Commissioner of the Food and Drug Administration, wrote in their 1997 report, cited FDA and other studies and said: "Nicotine in cigarettes and smokeless tobacco has the same pharmacological effects as other drugs that FDA has traditionally regulated . . . nicotine is extremely addictive . . . and the vast majority of people who use nicotine-containing cigarettes and smokeless tobacco do so to satisfy their craving for the pharmacological effects of nicotine; that is, to satisfy their drug-dependence or addiction."

They recommended: "FDA should continue to have authority to regulate all areas of nicotine, as well as other constituents and ingredients, and that authority should be made completely explicit."

I am pleased to note that even the Philip Morris Companies have acknowledged the need for FDA to regulate tobacco. On their Web site, they say:

> We believe federal legislation that includes granting FDA authority to regulate tobacco products could effectively address many of the complex tobacco issues that concern the public, the public health community and us.

It is long past time to reduce the addictive nature of cigarettes and curtail the marketing of these products to young people. This bill gives FDA the power to regulate tobacco products' content, design, sale, and marketing.

The bill requires the NCI and the National Institute for Environmental Health Sciences to one or more strategic plans to intensify research in the following areas: quality of life for cancer patients and survivors; symptom management for patients and survivors; palliative care and pain management; health disparities for racial and ethnic minorities; cancer prevention; behavioral research associated with causing and preventing cancer; environmental risk factors for cancer and gene-environment interactions; new imaging and early detection technologies and methods; and cancer survivorship.

Patient advocates and others have called on NCI and other institutes to develop a broad and responsive portfolio.

Experts say we need to learn more about cancer survivorship. People used to die quickly of cancer, but today, more and more are living with cancer, as many as nine million Americans. Kathleen Foley of Memorial Sloan-Kettering Cancer Center said, "While we work to cure the many types of cancer, nothing would have greater impact on the daily lives of cancer patients and their families than good symptom control and supportive therapy." Charles S. Cleeland, of the M.D. Anderson Cancer Center, said in the June 20, 2001 Washington Post, "We need a new research agenda that focuses on alleviation of disease-related distress." The National Cancer Policy Board of the Institute of Medicine last year recommended that NCI conduct more research on palliative care.

This is an example of an area that needs more emphasis. While NCI's work has brought huge advances in understanding, preventing and treating cancer, there is no question that we could do more.

For eight years I have co-chaired the Senate Cancer Coalition. We have held eight hearings on cancer. With each hearing, I become more and more convinced that we can conquer cancer in my lifetime.

Polls by Research America show that the public wants their tax dollars spent on medical research and that in fact people will pay more in taxes for more medical research.

When Beatle George Harrison died in December of cancer, a Maryland nursery school teacher, Jennifer DeBernardis, said: "All the fame and fortune and talent doesn't save you from something like cancer." Cancer impacts everyone. Everyone knows someone who has had cancer or will have cancer.

I am thoroughly convinced that if we just marshal the resources, we can conquer cancer in the 21st century. Let's begin. The road ahead is long and treacherous. But if we all work together, I honestly believe we can do it.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. SMITH of Oregon. Madam President, I am very pleased and honored to join Senator FEINSTEIN today to introduce this very important piece of legislation. Our country is very good at waging a winning war, but there is one more that we need to wage and win and that is the war on cancer.

I joined Senator FEINSTEIN as an original cosponsor of this for three reasons: First of all, because she asked me to. She is a person of remarkable leadership on this issue and so many more. Second, it was important to her and to me that the other cosponsor be a Republican because cancer is not a partisan issue. It attacks us both equally no matter how we register at the polls. This is one of those issues where truly we ought to be walking in lockstep together as Americans.

Finally, I know something of the pain that families experience through the contraction of cancer. As an honor and a tribute to my own mother, whom I recently lost to cancer, I cosponsor this legislation.

Oregon is a small State relatively—large geographically, but not in population—but cancer knows no boundaries as to States or as to countries. As we consider the statistics I can give, they apply to my State. In percentage terms, they would apply equally to every State. Truly, cancer is the second biggest killer in the State of Oregon, second only to heart disease. And at current rates, it will soon surpass that. This is a war we have to win.

There are 18,000 new cases of cancer diagnosed among Oregonians every year. That is about 50 a day. On average, 19 Oregonians die from cancer every day. Breast cancer is the most common form of diagnosed cancer in my State. Nine women every day hear the dreaded words: You have breast cancer. And every day, one family in Oregon will lose a family member to breast cancer. Every 3 days, a child in Oregon is told that he or she has cancer. I could go on. The statistics become rather numbing. But they are not unique to my State. That makes it all the more tragic that this is such a large and growing problem.

There is something we can do about it. I am proud to say that Senator FEINSTEIN has mentioned Dr. Druker of the Oregon Health Sciences University. He has, through his study of the genome, the genomic field, developed a promising new oral treatment for patients with chronic myeloid leukemia, a rare and life-threatening form of cancer. We met a wonderful woman yesterday who has been apparently cured on the basis of this drug. Gleevec is a target therapy based on new knowledge in this important area of research. It is hoped that future advances in cancer treatment will be equally as successful at targeting abnormalities with curative or less toxic drugs for cancer patients. This legislation will help us on this path.

In the interests of time, I will not review the details of our bill that Senator FEINSTEIN has so very ably and eloquently laid out. This is a good bill. This is a bill that should pass. It is expensive in dollar terms, but how can we put a pricetag on the health of the American people, on an issue as painful as this one?

Again, cancer is not a partisan disease.

I am proud today to cosponsor the National Cancer Act of 2002. I do so as a Republican, but more I do so as an American, and even more I do so as a member of the human family.

I yield the floor.

Mrs. CLINTON. Madam President, I rise today on behalf of legislation I am introducing along with Senator FEINSTEIN and others to help patients and their families around the country who are struggling against cancer.

It has been three decades since we declared war on cancer, and passed the National Cancer Act of 1971. And while we have many new weapons in our arsenal, new surgical techniques, new drugs like Gleevec, and new diagnostic tests to catch cancer in its early stages, the burden of this disease on our Nation is still devastating. One out of every two Americans will hear these devastating words sometime in their lives: "you have cancer." It is the second leading cause of death in our country—surpassed only by heart disease, and it not only devastates the patient; it brings immeasurable pain into the lives of that person's family and friends.

Consider the statistic that 1,500 Americans die of cancer each day—that's 1 out of every 4 deaths attributable to cancer. And the new cases continue to mount. Last year in New York alone there were an estimated 83,200 new cases of cancer—including 14,200 cases of breast cancer and nearly 4,000 cases of Non-Hodgkin's Lymphoma.

Sadly, cancer has become a part of life for all American families. Thanks to research, early detection and treatment, cancer is not automatically a death sentence. It can be beaten. And it is even better to keep it from occurring in the first place. Our hope for this and future generations is this simple dream—that in the long fight against this disease, some day we will ultimately win—that keeps so many patients and families going.

This bill we're introducing today can move us closer to making the dream a reality. It calls for: Recruiting talented medical experts by offering to cover the student loan payments of 100 physicians a year who agree to become cancer researchers; supporting the work of NCI Cancer centers like Memorial Sloan Kettering and Roswell Park in New York; improving cancer care by attracting and training health professionals to provide cancer care, to encourage cancer quarterbacks that can coordinate a patients care, and improving access to important cancer services such as screenings, smoking cessation therapy, genetic testing, and counseling about whether to undertake genetic testing.

While this legislation goes a long way to strengthening the biomedical research efforts, we will also be continuing to work with the States, communities, and public health institutions to educate the public about cancer prevention, to address the risk factors, and promote early intervention.

In the past, the phrase "public health" conjured up battles against infectious diseases like malaria or tuberculosis. Now with chronic diseases, such as heart disease and cancer, as the leading killers, we must think about "public health" in a new light, and fight carcinogens as well as pathogens.

For instance, this bill affirms FDA's authority over tobacco, the carcinogen that is responsible for 1 out of every 3 cancer deaths. Next week I will be chairing a hearing in the Subcommittee on Public Health to explore the need for better tracking of chronic disease and environmental exposure, so that we can identify and understand the connections between the environment and diseases like cancer.

I am a big believer in patient access to clinical trials. In the previous administration Medicare and Medicaid began covering the routine medical costs of participating in clinical trials, and I support extending that coverage to patients who have private insurance as well. The Senate-passed Patients' Bill of rights and the legislation we're introducing today takes steps toward allowing more cancer patients to participate in clinical trials that just might save their lives. I will continue fighting to strengthen this important cornerstone of patient care and scientific progress.

Our hope for this legislation and America's war on cancer is simple: to move cancer from the medical books to the history books. And to live in a world where no one has to hear the words, "you have cancer," ever, ever again.

By Mr. THURMOND:

S. 1977. A bill to amend chapter 37 of title 28, United States Code, to provide for appointment of United States marshals by the Attorney General; to the Committee on the Judiciary.

Mr. THURMOND. Madam President; I rise to introduce legislation that would improve the U.S. Marshals Service by making the U.S. Marshal at the district level a career position rather than a political one. This reform is long overdue and would create an improved management structure for the Marshals Service. This legislation would bring the Service in line with other Federal agencies that choose their top district and field officers by professional advancement, such as the Federal Bureau of Investigation, the Bureau of Alcohol, Tobacco and Firearms, and the Drug Enforcement Administration. As a result of this change, we will ensure that highly qualified and experienced individuals become U.S. Marshals. I encourage my colleagues to support this important reform, which would greatly improve the efficiency and effectiveness of the U.S. Marshals Service.

The U.S. Marshals Service is the oldest Federal law enforcement agency. While its most traditional role is assisting the Federal judiciary by protecting Federal judges and witnesses and by transporting prisoners, it also plays a critical role in Federal law enforcement in other ways. For example, it is the primary Federal agency responsible for apprehending dangerous fugitives from justice, and it conducts many special operations for the Attorney General.

The management of the Marshals Service is unlike any other Federal law enforcement agency. While there is a national Director of the Marshals Service located in Arlington, VA, each judicial district has a U.S. Marshal that is appointed by the President and confirmed by the Senate. Consequently, the district U.S. Marshals are in reality independent and accountable only to the President. Eduardo Gonzalez, past Director of the U.S. Marshals Service, testified before the Senate Judiciary Committee in 1998 that neither the Director of the Marshals Service nor the Attorney General can directly discipline a U.S. Marshal. Rather, the President must specifically authorize the disciplinary action. Additionally, a House report that accompanied a similar reform bill from the 106th Congress stated that the Director of the Marshals Service is powerless to demote, suspend, or transfer a U.S. Marshal. The current system, therefore, undercuts the leadership capacity of the Director of the Marshals Service due to the political independence of the U.S. Marshals.

Each district also has the position of Chief Deputy Marshal, which is occupied by a career professional. The Chief Deputy Marshals assist the politically-appointed U.S. Marshal, who may have little or no experience in law enforcement, and provide continuity and leadership in the district offices. The Chief Deputy Marshals are vital to the operation of the field offices, providing stability during the comings and goings of U.S. Marshals. Due to the inexperience of many U.S. Marshals, the Chief Deputy Marshals have assumed critical roles in the operation of the field offices. In fact, the Marshals Service website states, "The backbone of the Marshals Service has always been the individual Deputy Marshal." It is significant that the politically-appointed U.S. Marshal is not the "backbone" of the Service. Rather, the Deputy Marshal, who arrives at the position through career advancement, is the mainstay of the Marshals Service.

The Chief Deputies in turn have Supervisory Deputy U.S. Marshals to assist them with day-to-day activities. Due to the heavy turnover in leadership at the district level, there must be significant support for new and inexperienced U.S. Marshals. Therefore, the district level offices are heavily staffed. This situation results in an agency that is top heavy in management.

In an excellent book about the U.S. Marshals Service called "The Lawmen" by Frederick Calhoun, the author asserts that the Marshals Service is harmed by the process of appointing district marshals. He writes, "The service remained too politicized. The presidential appointment of the U.S. marshals haunted the organization. It could never escape the taint of politics as long as its top district managers owed their appointments to political favors, not professional advancement." Mr. Calhoun recognized that because of the political appointment of the top field officers, career employees must walk a fine line between balancing their allegiances to the temporary U.S. Marshal and to headquarters. He goes on to say, "The deputies dealt daily with their political supervisors, who controlled their work assignments and annual personnel evaluations, while they looked to headquarters for careers and promotions."

The current organization of the Marshals Service not only causes political strains, but it is also structurally unsound. Wayne Colburn, Director of the U.S. Marshals Service in the early 1970s, argued that the agency functioned as a "loosely organized group of ninety-four judicial districts" due to the weakness of the Director. Mr. Colburn recognized that the management structure was flawed because the agency in effect had ninety-four directors who owed little allegiance to the national director. While Mr. Colburn's concerns were alleviated somewhat by the Marshals Service Act of 1988, which strengthened the policy-making powers of the Director, the Act did not go far enough. The Director has centralized authority, yet he is still extremely limited in his ability to make personnel and disciplinary decisions regarding the politically-appointed U.S. Marshals. This situation is unacceptable in such an important Federal agency. We owe it to our Nation's oldest law enforcement organization to improve its structure and to make its operations more efficient.

I would like to point out that the U.S. Marshals Service has already placed some of its most crucial functions under the management of the national office, thereby avoiding some of the problems that I have discussed so far. For example, the Witness Security Program, which ensures the safety of witnesses who testify for the government, is administered centrally by the Marshals Service. According to former Director Gonzalez's testimony before the Senate Judiciary Committee, the Witness Security Program's operation was changed because it was not functioning correctly at the district level. He said, "Witness Security Inspectors assigned to the districts found they were attempting to serve two masters, the headquarters' Witness Security Program and the U.S. Marshal." This example of internal restructuring by the Service demonstrates the need for Congress to enact fundamental reform.

This reform legislation also has the potential to save taxpayer money. Mr. Gonzalez testified before the Senate Judiciary Committee that if the political selection of U.S. Marshals were ended, the Service would eliminate many field office positions. There would no longer be a need to provide the kind of support that is currently necessary to assist the political appointees, who often do not have the proper experience and expertise. A more streamlined management structure would save money and make operations more efficient. According to Mr. Gonzalez, the Marshals Service has estimated that this change would save over $10 million in the first three years.

Legislation to change the appointment process for district Marshals passed the house in 1997 but did not pass the Senate. That bill, as this one, essentially makes the change effective at the start of the upcoming four-year term for the President. This bill would be effective in January 2005, so that U.S. Marshals appointed by President Bush could complete the current four-year term of the Bush Administration.

It is important to recognize that many district U.S. Marshals who have served over the years have been distinguished public servants and are fine people. However, others had no experience in law enforcement and were not qualified to serve in these important positions.

For the benefit of the Marshals Service, I urge my colleagues to support this important reform measure. It is long overdue. Similar reforms have been supported by Presidential commissions under Presidents Howard Taft, Herbert Hoover, and Franklin Roosevelt. It is time that we professionalized one of our most important law enforcement agencies. We owe it to all those who have served honorably during the proud history of the U.S. Marshals Service, and we owe it to those who entrust their lives to the safekeeping of the U.S. Marshals.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1977

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. APPOINTMENTS OF UNITED STATES MARSHALS.

(a) SHORT TITLE.—This Act may be cited as the "United States Marshals Service Reform Act of 2002".

(b) APPOINTMENTS OF MARSHALS.—

(1) IN GENERAL.—Chapter 37 of title 28, United States Code, is amended—

(A) in section 561(c)—

(i) by striking "The President shall appoint, by and with the advice and consent of the Senate," and inserting "The Attorney General shall appoint"; and

(ii) by inserting "United States marshals shall be appointed subject to the provisions of title 5 governing appointments in the competitive civil service, and shall be paid in accordance with the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and pay rates." after the first sentence;

(B) by striking subsection (d) of section 561;

(C) by redesignating subsections (e), (f), (g), (h), and (i) of section 561 as subsections (d), (e), (f), (g), and (h), respectively; and

(D) by striking section 562.

(2) TECHNICAL AND CONFORMING AMENDMENT.—The table of sections for chapter 37 of title 28, United States Code, is amended by striking the item relating to section 562.

(c) MARSHALS IN OFFICE BEFORE EFFECTIVE DATE.—Notwithstanding the amendments made by this Act, each marshal appointed under chapter 37 of title 28, United States Code, before the effective date of this Act shall, unless that marshal resigns or is removed by the President, continue to perform the duties of that office until the expiration of that marshal's term and the appointment of a successor.

(d) EFFECTIVE DATE.—This Act and the amendments made by this Act shall take effect on January 20, 2005, and shall apply to appointments made on and after that date.

STATEMENTS ON SUBMITTED RESOLUTIONS

SENATE RESOLUTION 213—CONDEMNING HUMAN RIGHTS VIOLATIONS IN CHECHNYA AND URGING A POLITICAL SOLUTION TO THE CONFLICT

Mr. WELLSTONE (for himself and Mr. BROWNBACK) submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. RES. 213

Whereas the United States Department of State Country Reports on Human Rights for 2000 reports that the "indiscriminate use of force by Russian government troops in Chechnya has resulted in widespread civilian casualties and the displacement of hundreds of thousands of persons";

Whereas the United States Department of State Country Reports on Human Rights for 2000 reports that Russian forces continue to arbitrarily detain, torture, extrajudicially execute, extort, rape, and forcibly disappear people in Chechnya;

Whereas credible human rights groups within the Russian Federation and abroad report that Russian authorities have failed to launch thorough investigations into these abuses and have taken no significant steps toward ensuring that its high command has taken all necessary measures to prevent abuse;

Whereas there are credible reports of specific abuses by Russian soldiers in Chechnya, including in Alkhan-Yurt in 1999; Staropromysloviski and Aldi in 2000; Alkhan-Kala, Assinovskaia, and Sernovodsk in 2001; and Tsotsin-Yurt and Argun in 2002;

Whereas the Government of the Russian Federation has cracked down on independent media and threatened to revoke the license of RFE/RL, Incorporated, further limiting the ability to ascertain the extent of the crisis in Chechnya;

Whereas Chechen rebel forces are believed responsible for the assassinations of Chechen civil servants who cooperate with the Government of the Russian Federation, and the Chechen government of Aslan Maskhadov has failed unequivocally to condemn these and other human rights abuses or to distance itself from persons in Chechnya allegedly associated with such forces; and

Whereas the Department of State officially recognizes the grievous human rights abuses in Chechnya and the need to develop and implement a durable political solution: Now, therefore, be it

Resolved, That it is the sense of the Senate that—

(1) the war on terrorism does not excuse, and is ultimately undermined by, abuses by Russian security forces against the civilian population in Chechnya;

(2) the Government of the Russian Federation and the elected leadership of the Chechen government, including President Aslan Maskhadov, should immediately seek a negotiated settlement to the conflict there;

(3) the President of the Russian Federation should—

(A) act immediately to end and to investigate human rights violations by Russian soldiers in Chechnya, and to initiate, where appropriate, prosecutions against those accused;

(B) provide secure and unimpeded access into and around Chechnya by international monitors and humanitarian organizations to report on the situation, investigate alleged atrocities, and distribute assistance; and

(C) ensure that refugees and displaced persons in the North Caucasus are registered in accordance with Russian and international law, receive adequate assistance, and are not forced against their will to return to Chechnya; and

(4) the President of the United States should—

(A) ensure that no security forces or intelligence units that are the recipients of United States assistance or participants in joint operations, exchanges, or training with United States or NATO forces, are implicated in abuses;

(B) seek specific information from the Government of the Russian Federation on investigations of reported human rights abuses in Chechnya and prosecutions against those individuals accused of those abuses;

(C) promote peace negotiations between the Government of the Russian Federation and the elected leadership of the Chechen government, including Aslan Maskhadov; and

(D) re-examine the status of Chechen refugees, especially widows and orphans, including consideration of the possible resettlement of such refugees in the United States.

Mr. WELLSTONE. Madam President, I rise today once again to draw attention to the suffering of people in Chechnya. On behalf of myself and Senator BROWNBACK, I am submitting a resolution urging the Russian government to seek a negotiated settlement to the conflict there, to end human rights violations by Russian soldiers there, to investigate and initiate prosecutions against those accused, and to ensure that refugees receive the assistance they need. The resolution also urges President Bush to promote peace negotiations between the parties, to obtain assurances from the Russian government that no security forces who are recipients of U.S. assistance are implicated in human rights abuses and to seek specific information on the status of investigations into reported abuses.

The war in Chechnya has raged too long, and reports of egregious human rights violations by Russian soldiers continue to increase. Today, Human Rights Watch is releasing yet another report of such abuses, Swept Under: Torture, Forced Disappearances, and Extrajudicial Killings During Sweep Operations in Chechnya. Year after year we receive reports telling the same stories, yet nothing seems to change. Since September 11, Russian officials have argued more vigorously that they are fighting terrorism in Chechnya. Whether the Russian government believes this to be true or not is not the issue. What is clear is that Russia is acting illegally and immorally in Chechnya, and it must stop.

I want to talk briefly about the United States and our relationship to this war. As we increase our cooperation with various governments in the war on terrorism, we cannot condone some of the actions these friends are taking in the name of fighting terrorism.

Russia has been a key member of the anti-terrorist coalition since September 11. It has played a crucial role in our success in Afghanistan. I applaud and support this U.S.-Russian cooperation. But what is happening in Chechnya cannot be justified by the war on terrorism. Russian forces in Chechnya have acted illegally and with unspeakable brutality against the civilian population there. There continue to be credible reports of summary execution, mass detention, rape, torture, forced disappearance, arbitrary arrest and looting. The Russian government has so far refused to investigate such reports.

The Russian government believes it is fighting terrorism in Chechnya. In fact, it frequently compares the U.S. war on terrorism to its own efforts in Chechnya. But the world community must remind Russia's leaders that even in a war on terrorism, ends do not necessarily justify any means. A war against terrorism does not permit abuses against civilians. We must remind Russia that the war against terrorism is a struggle for freedom and democracy. Free and democratic nations do not round up boys and beat them so badly that they have to be carried home when the are finally released. They do not torture and rape women. Today as I read the reports of intensified human rights violations on a massive scale in Chechnya, as well as of Russia's refusal to investigate such reports and hold responsible individuals accountable, I have to question Russia's commitment to democratic norms and to internationally recognized human rights standards.

We have a moral duty not only to speak out against Russian atrocities in Chechnya, but also to ensure that we aren't unintentionally allowing them to continue. We must ensure that no security forces that are the recipients of U.S. assistance or participants in joint operations with the U.S. are implicated in human rights abuses in Chechnya. This resolution urges the President to provide that assurance.

It saddens me to speak once again about a war that has now entered its third year. It is a war that has been conducted with such brutality that it has been hard at times to imagine the situation getting worse. Unfortunately, it has gotten worse. The Russian government apparently has intensified its campaign against civilians in the name of fighting terrorism. When I met recently with the Chechen Foreign Minister, he made it clear to me that he believes the post-September 11 period will be remembered as one of the most savage times in Chechen history.

The New York Times reported recently that, according to Chechen police officials, Russian troops are killing civilians in a campaign of executions and looting that takes place alongside military operations aimed at destroying rebel forces. According to the article, Russian units roll into a town during the day to scout neighborhoods for residents who appear to have money or property worth stealing. Then, at night, the soldiers return in their tanks and burst into houses, stealing goods and killing witnesses. In one of the largest of Grozny's four districts, Chechen investigators have documented 17 cases in the last 12 months implicating Russian Interior Ministry troops in killing civilians during such looting.

Human Rights Watch and Amnesty International have both documented accounts of terrible human rights violations in Chechnya. Our own State Department Country Reports on Human Rights Practices reports the execution of at least 60 civilians last February in the suburbs of Grozny. It reports torture by police officers using electric shocks. It reports the rape of Chechen women by Russian soldiers. These are reports from 2000. The new report for 2001 will be released soon, and, sadly, no one expects it to be better.

There have been credible reports of human rights violations on both sides of the conflict in Chechnya. I condemn human rights violations by all parties, as does the resolution we offer today. Chechen rebel fighters have increasingly targeted for murder Chechen civilians they believe are cooperating with the Russian government. Human Rights Watch World Report for 2002 reports that Chechen fighters murdered at least 18 leaders of district and town administrations and at least five religious leaders, as well as numerous Chechen police officers, teachers and low ranking officials. There are extremist groups in Chechnya—some with ties to Arab extremist groups and possibly to al-Qaeda. I condemn all acts of terrorism, but what is happening in Chechnya is a human tragedy, and nothing justifies the often brutal use of violence by Russian soldiers there.

Credible reports estimate that the war in Chechnya from 1994–1996 left over 80,000 civilians dead. The State Department cities evidence that the current war has resulted in the deaths of thousands of innocent civilians. There is credible evidence of the displacement of nearly 40 percent of the civilian population, or close to 400,000 people. According to the American Committee for Peace in Chechnya, a group committed to finding a political solution to this conflict, a significant portion of the male population between the ages of 16–55 is simply gone.

Doctors without Borders reports that the humanitarian situation for an estimated 180,000 refugees in camps in the neighboring Republic of Ingushetia is deteriorating. The majority of the refugees are living with families, but over 60,000 people remain in tents, empty schools, and factory buildings. Shelter and sanitation facilities are poor, worn out and far below acceptable standards. Sometimes one latrine serves 100 people or more. The government of Russia also refuses to register the refugees, arguing they are economic migrants. Since these refugees are being accorded no legitimate status, they are often unable to get the humanitarian assistance they need. The resolution we offer today urges the Russian government to secure the distribution of humanitarian assistance and to register refugees as required by both Russian and international law.

The government of Russia must work to find a political solution to end the war in Chechnya. In must put a stop to human rights violations by its soldiers, hold those who are responsible accountable for their actions and ensure that refugees get the assistance they need. I urge my colleagues to support this resolution.

Again, this resolution, which Senator BROWNBACK from Kansas and I submit, urges the Russian Government to seek to negotiate a settlement to the conflict there. This deals with the suffering of the people in Chechnya, and it calls on the Russian Government to end human rights violations by Russian soldiers there, to investigate and initiate prosecution against those who are accused, and to ensure that refugees receive the assistance they need.

The resolution also urges President Bush to promote peace negotiations between the parties, to obtain assurances from the Russian Government that no security forces that are recipients of United States assistance are implicated in human rights abuses, and to seek specific information on the status of investigations into reported abuses.

Senator BROWNBACK and I submit this resolution timed with a report that Human Rights Watch is releasing today, which deals with these abuses. The title of the report is "Swept Under: Torture, Forced Disappearances, and Extrajudicial Killings During Sweep Operations in Chechnya."

I recommend that my colleagues and their staffs look at this report, which is deeply troubling.

I ask unanimous consent that a piece in the New York Times, written by Patrick Tyler, on January 25, 2002, be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the New York Times, Jan. 25, 2002]

POLICE IN CHECHNYA ACCUSE RUSSIA'S TROOPS OF MURDER

(By Patrick E. Tyler)

ROZNY, Russia, Jan. 22.—Nearly two years after major hostilities ended here in Chechnya, the devastated republic in the Caucasus, Russian troops are killing civilians in a campaign of executions and looting that takes place alongside military operations aimed at destroying rebel forces, according to Chechen police officials.

Chechen police authorities working under the republic's pro-Russian government said in interviews over the past week that Russian Interior Ministry units, known by their acronym, Obron, have been scouting neighborhoods during mine-sweeping operations for residents who appear to have money or property worth stealing.

At night, the soldiers return in armored personnel carriers, some with identifying markings, and burst into the houses, stealing household goods and killing witnesses. Chechen police investigators say.

In the central Leninsky district of Grozny, skeletal shards of buildings teeter above a landscape of debris that evokes scenes from European cities destroyed in World War II. The rubble now lies sealed under a winter blanket of snow as thousands of Chechen families eke out an isolated existence in bomb-damaged homes.

In Leninsky, the largest of Grozny's four districts, Chechen investigators have documented 17 cases in the last 12 months implicating Interior Ministry troops in killing civilians during looting. One of the most notorious of the units is known as Obron–22, the Chechens say.

But in each case, military and civilian prosecutors have refused to bring criminal cases, the police said. Instead, the prosecutors set aside files as inactive or return them with demands to provide the names of soldiers involved.

"These units burst into people's houses on the pretext of 'mopping up' operations and commit murders," said Alvi Magomed-Mirzoyev, a police lieutenant colonel who returned to Grozny from Moscow a year ago to lead a criminal investigation department in Leninsky.

In Moscow, the Interior Ministry, the Defense Ministry and prosecutors were asked to comment on these allegations, but declined.

Chechen police authorities are drawing up a republic-wide list of unsolved killings of civilians in which federal forces have been implicated by witnesses, but which prosecutors have refused to pursue. One senior member of the Chechen administration in Grozny, taking a significant risk, provided documents on 163 such cases compiled under the heading, "Some cases of detention by representatives of the federal forces of civilians who subsequently disappeared or were found dead."

"These are the conditions we are living under," he said he handed over the document and disappeared into a police headquarters building where Chechen recruits are certified and inducted into a new force.

A typical case in the file is that of Magomed H. Vakhidov, 57, once mayor of Urus-Martan, just south of Grozny. He fled Chechnya when the second war with Russia broke out in September 1999; a year later he sought and received an amnesty to return home.

But at 3 a.m. on July 20, 2001, a squad of Russia soldiers fired smoke grenades into his home and then burst in and arrested him, according to the documents. Russian military authorities denied taking him into custody. On July 31, his body was found in the gardens of a state farm, badly mutilated from torture, electric shock, knife wounds and burns from a blow torch.

Russian officials routinely attribute such killings to "rebels." But, as one Chechen police official noted, "the rebels do not travel in armored personnel carriers."

A number of unsolved cases relate to Chechen rebels who took advantage of amnesties issued by Moscow and by Russian military commanders.

In March 2000, after Russian forces had driven rebel forces from Grozny, Roman S. Bersanukayev, 19, turned himself in to the commander of Russia's 245th Rifle Regiment near Martan-Çhu, near Urus-Martan.

When his relatives asked the local office of the Federal Security Service about his status, they were given a document showing that no criminal proceedings would be lodged against him. They also received an amnesty certificate signed by the Russian military commandant for the district, Y.A. Naumov. But Mr. Bersanukayev then disappeared from federal custody and is feared dead.

"I am an officer and I took an oath to Russia to uphold the law," said Colonel Magomed-Mirzoyev, the policeman, "but I am sick and tired of being afraid and I hate the lawlessness that is going on here, and I want to do everything I can to bring it to an end."

On a visit to Paris this month, President Vladimir V. Putin asserted that Russian troops committing acts of violence against Chechen civilians were being held accountable and that judicial and law enforcement organs were functioning normally. "About 20 servicemen have already been brought to justice," he said.

By lending strong support to President Bush's war against terrorism, Mr. Putin has successfully blunted Western criticism of Russian conduct in Chechnya. Several governments have suggested that Russia had more justification for its actions than had been acknowledged.

But the situation on the ground has continued to fester.

Chechnya's top prosecutor, Vsevolod Chernov, said this week that 212 criminal cases based on reports of missing people had been opened in the last year. "In some cases, the disappearance of people can be connected to special operations conducted by federal units," he said, but "sufficient legally substantiated evidence" was necessary to bring the cases to court.

Local police officials tell a different story. They say criminal cases sent to Mr. Chernov are technically open but are frozen by the inability of criminal investigators to interview Russian soldiers who may be witnesses or suspects involved in crimes against civilians.

The police investigators say that they have tried to gain access to Russian military units, but that they are afraid to approach Russian military prosecutors, who must approve any contact with federal soldiers.

The military prosecutors are housed at Russia's main military base, at Khankala, on the southeast edge of Grozny. The base is known to Chechens as a place where detainees are taken and sometimes never return.

"If the shelling of a civilian neighborhood involved federal servicemen, I wouldn't be able to send my investigator because he might not come back," Colonel Magomed-Mirzoyev said.

Earlier this month, a senior official of the new Chechen administration, Ruslan Yunusov, deputy minister of the Chechen Emergencies Ministry and a veteran of the Soviet military campaign in Afghanistan, was shot dead by federal troops in front of the Russian military police headquarters here when he tried to arrest Russian soldiers in an armored personnel carrier. The soldiers were suspected of wounding one of Mr. Yunusov's officers on Dec. 29.

Several high-profile cases against federal troops have been brought to court in the past year, like the murder trial of Col. Yuri Budanov, accused of the rape and murder of an 18-year-old Chechen woman in March 2000. The trial began nearly a year ago and has suffered numerous delays over demands for psychiatric evaluations by military officials to determine whether Colonel Budanov was temporarily insane when he strangled the woman in a fit of rage over the deaths of his comrades at the hands of rebels.

Chechen officials also point out that there appear to be no active investigations of reports of civilian massacres during the intense Russian military campaign that was begun in Chechnya by Mr. Putin after he became prime minister in 1999. That campaign followed incursions by armed men—Russia called them Islamic extremists—and terrorist attacks that left more than 300 dead in Moscow and other Russian cities.

A martial-style curfew is enforced so strictly here that ambulance service is halted at night, when lethal mayhem takes over. Russian forces hide in their fortified checkpoints as rebels creep into the city to shoot at them or to lay mines to blow up military convoys the next day.

In addition to reported abuses by Interior Ministry forces, regular Russian Army troops continue to inflict punitive raids on Chechen towns and villages, as they did earlier this month in Tsotsin-Yurt, just southeast of Grozny, after two suspected rebels fleeing federal forces took refuge in a house there on Dec. 30. The rebels were killed, and a large column of Russian armored forces surrounded the town.

Town residents said that over the next several days, soldiers seized young and middle-aged men from their homes and looted a number of houses, all in violation of military pledges made last year calling for Chechen authorities to be present to observe such "mopping up" operations.

Seven civilians died during the initial gun battle, town officials said, two of them after they were used as human shields by soldiers attacking the house where the suspected rebels holed up.

One of the men used as a shield was Idris Zakiyev, a 42-year-old tractor driver with four daughters. The other was Musa Ismailov, 43, an elder of the mosque who performed a traditional dance at Chechen funerals; he had five children.

"They were shot at short distance and their bodies showed signs of mutilation," said Ilyas Zakiyev, a brother of Idris.

Even now, weeks later, Russian units have blocked all roads into Tsotsin-Yurt and more than 15,000 residents are being held virtually as prisoners, forced to pay a bribe—amounting to a day's wages in many cases—to enter or leave. Entering Tsotsin-Yurt on Monday, this reporter saw Russian soldiers collecting these tolls from Chechen drivers passing the checkpoints.

Turko Aliev, 51, the chairman of the town elders' council, was among the first to meet with the Russian commander who ordered the assault on the town. The commander threatened to open an artillery attack in 30 minutes unless the elders sent the mayor out to meet him and to identify the seven corpses laid out before Russian news reporters as "rebels."

"I told him that was impossible because the mayor was in Grozny, but he replied, 'You now have 28 minutes,'" said Ilyas Zakiyev, who accompanied the elders.

At that moment, Mr. Aliev stepped forward as chairman of the council and identified the bodies of Idris Zakiyev and Mr. Ismailov, the mosque elder.

The town officials were allowed to take the two bodies away in a car, which Mr. Aliev said he drove through a gantlet of checkpoints where one Russian soldier stopped him and threatened to kill him.

"Where can we complain?" asked Mr. Aliev, as he stood in a makeshift morgue at the town mosque to make the final grim accounting from the raid on the village: three bundles of tattered clothing that belonged to unidentified men blown up in a field on the edge of town.

Mr. WELLSTONE. Madam President, I will read 2 paragraphs:

> In Leninsky, the largest of Grozny's four districts, Chechen investigators have documented 17 cases in the last 12 months implicating Interior Ministry troops in killing civilians during looting. One of the most notorious of the units is known as Obron-22, the Chechens say.
>
> In the central Leninsky district of Grozny, skeletal shards of buildings teeter above the landscape of debris that evokes scenes from European cities destroyed in World War II. The rubble now lies sealed under a winter blanket of snow as thousands of Chechen families eke out an isolated existence in bomb-damaged homes.'

Let me summarize. The conclusions are as follows: It is the sense of the Senate that the war on terrorism does not excuse and is ultimately undermined by abuses by Russian security forces against civilians in Chechnya. It also is the sense of the Senate that Russia and Chechen leadership should seek a negotiated settlement. It is the sense of the Senate that Russian President Putin should: 1, end human rights violations, investigate them, and prosecute them; 2, provide secure access to international monitors and humanitarian organizations; and 3, ensure the registration of refugees and not force them to return against their will.

Finally, the sense of the Senate says President Bush should: 1, ensure no United States assistance goes to Russian units implicated in these abuses; 2, seek specific information on the status of investigations, or lack of investigations, of the human rights abuses; 3, promote peace negotiations; and 4, reexamine the status of Chechen refugees in regard to possible resettlement in the United States.

The reason we introduce this resolution today is, again, this very powerful report that came out by Human Rights Watch. I want the Russian Government to know, and I want the people in Chechnya and in Russia to know, that here on the floor of the Senate we are paying attention to what is happening.

I will send this resolution to the desk, and we will take steps to pass it, and I think there is strong support for this resolution in the Foreign Relations Committee. Most important is the message. The message is that we want to see an end to the terrorism, to the murder of innocent civilians. But, quite frankly, much of what the Russian Government is trying to excuse—all in the name of a war against terrorism—is, unfortunately, rape, torture, and murder of innocent people. That is not acceptable. That needs to be settled before the Senate and we need to pass this resolution.

SENATE CONCURRENT RESOLUTION 99—EXPRESSING THE SENSE OF THE CONGRESS THAT A COMMEMORATIVE STAMP SHOULD BE ISSUED HONORING FELIX OCTAVIUS CARR DARLEY

Mr. BIDEN (for himself and Mr. CARPER) submitted the following concurrent resolution; which was referred to the Committee on Governmental Affairs:

S. CON. RES. 99

Whereas Felix Octavius Carr Darley, a prolific 19th century illustrator and designer, was born on June 22, 1821, in Philadelphia, Pennsylvania, and completed most of his major works while living in Claymont, Delaware, before he died on March 27, 1888;

Whereas Darley was the illustrator for Washington Irving's "The Legend of Sleepy Hollow", "Rip Van Winkle", "Tales of a Traveler", and the five-volume "Life of George Washington";

Whereas Darley created the sketches for Henry Wadsworth Longfellow's "Evangeline", and was the illustrator for the American publications of Charles Dickens, including "A Tale of Two Cities";

Whereas Darley designed and executed the two woodcut illustrations for the first printing of Edgar Allen Poe's "The Gold-Bug" in the Philadelphia Dollar Newspaper;

Whereas Darley provided illustrations for the first known publication of Clement Moore's "A Visit from St. Nicholas", the edition featuring the first change of the last line from "happy Christmas to all" to "merry Christmas to all";

Whereas, in 1875, Darley engaged in preparing 500 drawings to illustrate a book entitled "History of the United States", by B. J. Lossing;

Whereas Darley illustrated more than 500 designs for James Fenimore Cooper's works, including a project involving designs for 64 steel engravings and 120 wood engravings, leading to the publication of "The Cooper Vignettes" which showcased the artist's works;

Whereas Darley provided the line drawings for Nathaniel Hawthorne's "The Scarlet Letter";

Whereas Darley was elected a member of the Academy of Design in 1852;

Whereas Darley was a member of the Artist's Fund Society and was one of the early members of the American Society of Painters in Watercolors;

Whereas Darley was inducted into the Society of Illustrators Hall of Fame in 2001; and

Whereas, for his accomplishments, Darley is credited by many scholars with helping to create the pioneer image of American History: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That it is the sense of the Congress that—

(1) a commemorative stamp should be issued honoring Felix Octavius Carr Darley; and

(2) the Citizens' Stamp Advisory Committee should recommend to the Postmaster General that such a stamp be issued.

Mr. BIDEN. Madam President, I am pleased to submit today a resolution calling on the Citizens' Stamp Advisory Committee to recommend a commemorative stamp honoring the 19th century illustrator, Felix Octavius Carr Darley. My distinguished colleague from the other body, Congressman MICHAEL CASTLE, has already introduced an identical resolution in the House of Representatives.

Felix Darley was the consummate American artist. He was born in Philadelphia, PA in 1821, but spent much of his later years in Delaware, where he died in 1888. In fact, for the last 29 years of Darling's life he lived in my hometown of Claymont, DE, where he produced many of his most famous and renowned drawings. As a Delawarean, and a resident of Claymont, Felix Darley has special significance for me. But he also has a special significance for the entire Nation.

Mr. Darley has been described as "one of the most famous illustrators of his time" and "the first major American illustrator." His works have even been said to have forged our very national identity. Felix Darley was the illustrator of books produced by the legendary writers of his time, including such masterful storytellers and poets as Charles Dickens, Henry Wadsworth Longfellow, Edgar Allan Poe, Washington Irving, Nathaniel Hawthorne, and James Fenimore Cooper. Moreover, he is credited with helping to capture the image of the American frontier, which has become such an integral image of our collective imagination and consciousness. As a testament to his greatness, he was inducted into the Society of Illustrators Hall of Fame last year.

Through his works, Felix Darley commemorated and captured our history and the creative achievements of some of our greatest writers. It is time we commemorate his life and his works for posterity by honoring him with a memorial postage stamp. I urge all of my colleagues to join me in sponsoring this resolution which calls on the Citizens' Stamp Advisory Committee to recommend such a stamp. It is a small, but needed step to recognize an American artist who gave us so much.

AMENDMENTS SUBMITTED AND PROPOSED

SA 2943. Mr. LEVIN (for himself and Mrs. HUTCHISON) submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table.

SA 2944. Mr. ROCKEFELLER submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2945. Mr. ROBERTS submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2946. Mrs. FEINSTEIN submitted an amendment intended to be proposed by her to the bill S. 565, supra; which was ordered to lie on the table.

SA 2947. Mr. DODD submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2948. Mr. THOMAS (for himself and Mr. ENZI) submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2949. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2950. Mr. MCCONNELL submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2951. Mr. DASCHLE (for himself and Mr. WYDEN) submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2952. Mr. DASCHLE (for himself and Mr. WYDEN) submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2953. Mr. REID (for himself, Mr. SCHUMER, and Mr. WYDEN) submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2954. Mr. BOND submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2955. Mr. BOND submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2956. Mr. BOND submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2957. Mr. BURNS submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2958. Mr. DODD submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2959. Mr. DODD submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2960. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2961. Mr. SPECTER (for himself and Mr. REID) submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2962. Mr. KYL submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

SA 2963. Mr. BURNS submitted an amendment intended to be proposed by him to the bill S. 565, supra; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 2943. Mr. LEVIN (for himself and Mrs. HUTCHISON) submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purpose; which was ordered to lie on the table; as follows:

On page 14, between lines 2 and 3, insert the following:

Notwithstanding the preceding provisions of this subsection, a State that had a State law in effect before the date of enactment of this Act that provides for a provisional balloting process shall be deemed to meet the requirements of this subsection as long as such State law is in effect so long as such process includes the following components:

(1) Verification of the registration, identity, and residence of the individual seeking to cast a provisional ballot.

(2) An affidavit executed by the individual seeking to cast a provisional ballot in the precinct asserting that he or she is a registered voter of the jurisdiction and eligible to vote in the election.

(3) Procedures by which the ballot that is tabulated on election day may be retrievable after the election should there be an issue over the individual's eligibility to have voted in the election.

SA 2944. Mr. ROCKEFELLER submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purpose; which was ordered to lie on the table; as follows:

On page 68, between lines 2 and 3, insert the following:

SEC. ____. STUDY AND REPORT ON PERMANENT REGISTRATION OF OVERSEAS VOTERS; ADMINISTRATION OF OVERSEAS VOTING BY A SINGLE STATE OFFICE.

(a) STUDY AND REPORT ON PERMANENT REGISTRATION OF OVERSEAS VOTERS.—

(1) STUDY.—The Election Administration Commission established under section 301 (in this subsection referred to as the "Commission"), shall conduct a study on the feasibility and advisability of providing for permanent registration of overseas voters under section 104 of the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff–3), as amended by section 1606(b) of the National Defense Authorization Act for Fiscal Year 2002 (Public Law 107–107; 115 Stat. 1279).

(2) REPORT.—The Commission shall submit a report to Congress on the study conducted under paragraph (1) together with such recommendations for legislative and administrative action as the Commission determines appropriate.

(b) ADMINISTRATION OF OVERSEAS VOTING BY A SINGLE STATE OFFICE.—Section 102 of the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff–1), as amended by section 1606(a)(1) of the National Defense Authorization Act for Fiscal Year 2002 (Public Law 107–107; 115 Stat. 1278), is amended—

(1) by inserting "(a) IN GENERAL.—" before "Each State"; and

(2) by adding at the end the following new subsection:

"(b) DESIGNATION OF SINGLE STATE OFFICE TO PROVIDE INFORMATION ON REGISTRATION AND ABSENTEE BALLOT PROCEDURES FOR ALL VOTERS IN THE STATE.—

"(1) IN GENERAL.—Each State shall designate a single office which shall be responsible for providing information regarding voter registration procedures and absentee ballot procedures to be used with respect to elections for Federal office (including procedures relating to the use of the Federal write-in absentee ballot) to all absent uniformed services voters and overseas voters who wish to register to vote or vote in any jurisdiction in the State.

"(2) USE OF OFFICE TO ACCEPT AND PROCESS MATERIALS.—The State office designated under paragraph (1) shall be responsible for carrying out the State's duties under this Act that relate to the distribution of information and ballots (but not for carrying out any duties relating to the receipt or counting of ballots), including accepting valid voter registration applications, absentee ballot applications, and absentee ballots (including Federal write-in absentee ballots) from all absent uniformed services voters and overseas voters who wish to register to vote or vote in any jurisdiction in the State.".

(c) STUDY AND REPORT ON EXPANSION OF SINGLE STATE OFFICE DUTIES.—

(1) STUDY.—The Election Administration Commission established under section 301 (in this subsection referred to as the "Commission"), shall conduct a study on the feasibility and advisability of including the duties relating to the receipt and counting of ballots described in section 102(b) of such Act (as added by subsection (b)) in the duties of the State office designated under paragraph (1) of such section (as so added).

(2) REPORT.—The Commission shall submit a report to Congress on the study conducted under paragraph (1) together with such recommendations for legislative and administrative action as the Commission determines appropriate.

SEC. ____. REPORT ON ABSENTEE BALLOTS TRANSMITTED AND RECEIVED AFTER GENERAL ELECTIONS.

(a) IN GENERAL.—Section 102 of the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff–1) is amended by adding at the end the following new subsection:

"(c) REPORT ON NUMBER OF ABSENTEE BALLOTS TRANSMITTED AND RECEIVED.—Not later than 120 days after the date of each regularly scheduled general election for Federal office, each State and unit of local government that administered the election shall (through the State, in the case of a unit of local government) submit a report to the Election Administration Commission (established under the Equal Protection of Voting Rights Act of 2002) on the number of absentee ballots transmitted to absent uniformed services voters and overseas voters for the election and the number of such ballots that were returned by such voters and cast in the election, and shall make such report available to the general public.".

(b) DEVELOPMENT OF STANDARDIZED FORMAT FOR REPORTS.—The Election Administration Commission shall develop a standardized format for the reports submitted by States and units of local government under section 102(c) of the Uniformed and Overseas Citizens Absentee Voting Act (as added by subsection (a)), and shall make the format available to the States and units of local government submitting such reports.

SEC. ____. OTHER REQUIREMENTS TO PROMOTE PARTICIPATION OF OVERSEAS AND ABSENT UNIFORMED SERVICES VOTERS.

Section 102 of the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff–1), as amended by section 402, is amended by adding at the end the following new subsection:

"(d) REGISTRATION NOTIFICATION.—With respect to each absent uniformed services voter and each overseas voter who submits a voter registration application or an absentee ballot request, if the State rejects the application or request, the State shall provide the voter with the reasons for the rejection.".

SEC. ____. STUDY AND REPORT ON THE DEVELOPMENT OF A STANDARD OATH FOR USE WITH OVERSEAS VOTING MATERIALS.

(a) STUDY.—The Election Administration Commission established under section 301 (in this section referred to as the "Commission"), shall conduct a study on the feasibility and advisability of—

(1) prescribing a standard oath for use with any document under the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff et seq) affirming that a material misstatement of fact in the completion of such a document may constitute grounds for a conviction for perjury; and

(2) if the State requires an oath or affirmation to accompany any document under such Act, to require the State to use the standard oath described in paragraph (1).

(b) REPORT.—The Commission shall submit a report to Congress on the study conducted under subsection (a) together with such recommendations for legislative and administrative action as the Commission determines appropriate.

SEC. ____. STUDY AND REPORT ON PROHIBITING NOTARIZATION REQUIREMENTS.

(a) STUDY.—The Election Administration Commission established under section 301 (in this section referred to as the "Commission"), shall conduct a study on the feasibility and advisability of prohibiting a State from refusing to accept any voter registration application, absentee ballot request, or absentee ballot submitted by an absent uniformed services voter or overseas voter on the grounds that the document involved is not notarized.

(b) REPORT.—The Commission shall submit a report to Congress on the study conducted under subsection (a) together with such recommendations for legislative and administrative action as the Commission determines appropriate.

SA 2945. Mr. ROBERTS submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

On page 62, between lines 16 and 17, insert the following:

Subtitle B—Election Administration Advisory Board

SEC. 311. ESTABLISHMENT OF THE ELECTION ADMINISTRATION ADVISORY BOARD.

There is established the Election Administration Advisory Board (in this title referred to as the "Board").

SEC. 312. MEMBERSHIP OF THE BOARD.

(a) NUMBER AND APPOINTMENT.—The Board shall be composed of 24 members appointed by the Election Administration Commission established under section 201 (in this title referred to as the "Commission") as follows:

(1) 12 members appointed by the chairperson of the Commission.

(2) 12 members appointed by the vice chairperson of the Commission.

(b) QUALIFICATIONS.—

(1) IN GENERAL.—Members appointed under subsection (a) shall have experience administering State and local elections.

(2) PROHIBITION.—A member of the Board appointed under paragraph (1) may not be a candidate (as defined in section 301 of the

Federal Election Campaign Act of 1971 (2 U.S.C. 431)), or hold a Federal office (as defined in such section) while serving as a member of the Board.

(3) FEDERAL OFFICERS AND EMPLOYEES.—No member of the Board may be an officer or employee of the Federal Government.

(c) DATE OF APPOINTMENT.—The appointments of the members of the Board under subsection (a) shall be made not later than 90 days after the date on which all the members of the Commission have been appointed under section 202.

(d) PERIOD OF APPOINTMENT; VACANCIES.—

(1) PERIOD OF APPOINTMENT.—Members shall be appointed for a period of 2 years, except that of the members first appointed, 6 members appointed by the chairperson of the Commission shall be appointed for a term of 3 years and 6 members appointed by the vice chairperson of the Commission shall be appointed for a term of 3 years.

(2) VACANCIES.—

(A) IN GENERAL.—A vacancy on the Board shall not affect its powers, but shall be filled in the manner in which the original appointment was made. The appointment made to fill the vacancy shall be subject to any conditions that applied with respect to the original appointment.

(B) FILLING UNEXPIRED TERM.—An individual chosen to fill a vacancy on the Board occurring prior to the expiration of the term for which the individual's predecessor was appointed shall be appointed for the unexpired term of the member replaced.

(3) EXPIRATION OF TERMS.—A member of the Board may serve on the Board after the expiration of the member's term until the successor of such member has taken office as a member of the Board.

(e) CHAIRPERSON; VICE CHAIRPERSON.—

(1) IN GENERAL.—The Board shall elect a chairperson and vice chairperson from among its members to serve a term of 1 year.

(2) POLITICAL AFFILIATION.—The chairperson and vice chairperson may not be affiliated with the same political party.

SEC. 313. DUTY OF THE BOARD.

It shall be the duty of the Board to advise the Commission on the following matters:

(1) The revision and adoption of general policies and procedures under subparagraph (A) and clauses (ii) and (iii) of subparagraph (B) of section 305(b)(2).

(2) The revision of voting system standards under section 101(c)(2).

(3) Upon the request of the Commission, other matters relating to the administration of elections.

SEC. 314. MEETINGS OF THE BOARD.

(a) IN GENERAL.—The Board shall meet at the call of the chairperson.

(b) ANNUAL MEETING REQUIRED.—The Board shall meet not less often than annually.

(c) INITIAL MEETING.—Not later than 30 days after the date on which all members of the Board have been appointed, the Board shall hold its first meeting.

(d) QUORUM.—A majority of the members of the Board shall constitute a quorum.

SEC. 315. VOTING.

Each action of the Board shall be approved by a majority vote of the members of the Board. Each member of the Board shall have 1 vote.

SEC. 316. BOARD PERSONNEL MATTERS.

(a) COMPENSATION OF MEMBERS.—Each member of the Board shall serve without compensation, notwithstanding section 1342 of title 31, United States Code.

(b) TRAVEL EXPENSES.—Each member of the Board shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5, United States Code, while away from their homes or regular places of business in the performance of services for the Board.

SEC. 317. TERMINATION OF THE BOARD.

Section 14 of the Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the Board.

SEC. 318. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—There are authorized to be appropriated to the Board such sums as may be necessary to carry out this title.

(b) AVAILABILITY.—Any sums appropriated under the authorization contained in this section shall remain available, without fiscal year limitation, until expended.

SA 2946. Mrs. FEINSTEIN submitted an amendment intended to be proposed by her to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

At the end, add the following:

SEC. . RETROACTIVE PAYMENTS FOR CERTAIN DRE VOTING SYSTEMS.

In addition to any other payment made under section 206 or 215, the Attorney General may make retroactive payments under such section (as appropriate) to any State or locality having an application approved under section 203 or 213 (as appropriate) for any costs incurred by such State or locality for the purpose of acquiring a direct recording electronic voting system during calendar year 2000 if that State or locality is continuing to make payments for such system as of the date of enactment of this Act.

SA 2947. Mr. DODD submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

On page 69, after line 19, add the following:

SEC. 403. SEVERABILITY OF PROVISIONS.

If any provision of this Act or the application thereof to any person or circumstances is held invalid, the remainder of this Act and the application of the provision to other persons not similarly situated or to other circumstances shall not be affected thereby.

SA 2948. Mr. THOMAS (for himself and Mr. ENZI) submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 5, strike line 22 and all that follows through line 13 on page 6, and insert the following:

(3) ACCESSIBILITY FOR INDIVIDUALS WITH DISABILITIES.—

(A) IN GENERAL.—The voting system shall—

(i) be accessible for individuals with disabilities, including nonvisual accessibility for the blind and visually impaired, in a manner that provides the same opportunity for access and participation (including privacy and independence) as for other voters;

(ii) except as provided in subparagraph (B), satisfy the requirement of clause (i) through the use of at least 1 direct recording electronic voting system or other voting system equipped for individuals with disabilities at each polling place; and

(iii) meet the voting system standards for disability access if purchased with funds made available under title II on or after January 1, 2007.

(B) ACCESS TO VOTING SYSTEMS IN RURAL AREAS.—The requirement of subparagraph (A)(ii) shall not apply to a city, town, or unincorporated area in a State if—

(i) pursuant to the most recent Decennial Census (including any supplemental surveys thereto), the city, town, or area is determined to have a population of less than 50,000 inhabitants (other than an urbanized area immediately adjacent to a city, town, or unincorporated area that has a populations in excess of 50,000 inhabitants); and

(ii) the State submits, as part of the State plan submitted under section 202, a plan demonstrating that individuals with disabilities in the city, town, or unincorporated areas involved will be permitted to vote through the use of—

(I) direct recording electronic voting systems or other voting systems equipped for individuals with disabilities that are located at the office of each county clerk within the areas involved, or the office of each chief election official with jurisdiction over the areas involved, and that are available to such individuals during the entire period in which absentee ballots for the election involved are permitted to be submitted, at least 30 days in advance of the election and up through the day of the election; or

(II) other voting systems determined to be appropriate to provide voting accessibility to individuals with disabilities.

SA 2949. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purpose; which was ordered to lie on the table; as follows:

At the end, add the following:

SEC. . NATIONAL DEMONSTRATION PROGRAM IN EXPERIENCE-BASED CIVIC EDUCATION.

(a) GENERAL AUTHORITY.—The Attorney General is authorized to award a grant or contract to The Citizenship Trust and its American Village for the operation of a national educational demonstration and resource program in experience-based civic education that works to promote citizenship and voter participation.

(b) EDUCATIONAL ACTIVITIES AND PROGRAM CONTENT.—The grant or contract awarded under subsection (a) shall include provisions to—

(1) support, enhance, and expand the 'Securing the Blessings of Liberty' experienced-based civic education program administered by The Citizenship Trust and its American Village national civic education center;

(2) foster increased student learning of challenging and critical content in civics, government, and American history through comprehensive programs, projects, and activities which directly involve students as active participants in simulations, reenactments of historical and contemporary civic events, dramatizations, debates, proceedings, and other programs which illustrate and model important responsibilities of citizens; and

(3) demonstrate ways in which comprehensive experienced-based civic education programs can be implemented by States, school districts, public and private schools, classrooms, and other non-profit entities by developing and making available programs, training, seminars, projects, materials, media, resources and other services.

The content focus of activities under paragraph (2) shall be on the basic principles of the Constitution, the Bill of Rights, key founding documents and events in the history of the United States, and the important role of individual citizens in the founding and sustaining of the American system of liberty and self-government.

(c) AVAILABILITY AND EMPHASIS.—The program and activities carried out under this section shall be available as a national demonstration and resource project to serve public and private elementary and secondary schools throughout the United States. The emphasis of such activities shall be on the experiential component of civic education through a cooperative effort with other civic education programs. Such activities shall model and demonstrate ways in which experience-based civic education can enhance student knowledge and skills in critical areas of civics and government.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section, $650,000 for fiscal year 2002, and such sums as may be necessary for each of the succeeding 6 fiscal years.

SA 2950. Mr. MCCONNEL submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

On page 22, after line 25, insert the following:

SEC. 105. COMPLIANCE WITH ELECTION TECHNOLOGY AND ADMINISTRATION REQUIREMENTS CONDITIONED ON RECEIPT OF FUNDS.

Notwithstanding any other provision of this title, no State or locality shall be required to meet a requirement of this title unless that State or locality elects to apply for a grant under title II and has received funding under that title for the purpose of meeting such requirement.

SA 2951. Mr. DASCHLE (for himself and Mr. WYDEN) submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

On page 68, strike lines 19 and 20, and insert the following:

"(a) IN GENERAL.—Nothing in this Act may be construed to authorize".

SA 2952. Mr. DASCHLE (for himself and Mr. WYDEN) submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 18, line 8, strike through page 19, line 24, and insert the following:

(b) REQUIREMENTS FOR VOTERS WHO REGISTER BY MAIL.—

(1) IN GENERAL.—Notwithstanding section 6(c) of the National Voter Registration Act of 1993 (42 U.S.C. 1973gg-4(c)) and subject to paragraphs (3) and (4), a State shall, in a uniform and nondiscriminatory manner, require an individual to meet the requirements of paragraph (2) if—

(A) the individual has registered to vote in a jurisdiction by mail; and

(B) the individual has not previously voted in an election for Federal office in that State.

(2) REQUIREMENTS.—

(A) IN GENERAL.—An individual meets the requirements of this paragraph if the individual—

(i) in the case of an individual who votes in person—

(I) presents to the appropriate State or local election official a current and valid photo identification;

(II) presents to the appropriate State or local election official a copy of a current utility bill, bank statement, Government check, paycheck, or other Government document that shows the name and address of the voter;

(III) provides written affirmation on a form provided by the appropriate State or local election official of the individual's identity; or

(IV) provides a signature or personal mark for matching with the signature or personal mark of the individual on record with a State or local election official; or

(ii) in the case of an individual who votes by mail, submits with the ballot—

(I) a copy of a current and valid photo identification;

(II) a copy of a current utility bill, bank statement, Government check, paycheck, or other Government document that shows the name and address of the voter; or

(III) provides a signature or personal mark for matching with the signature or personal mark of the individual on record with a State or local election official.

(B) PROVISIONAL VOTING.—An individual who desires to vote in person, but who does not meet the requirements of subparagraph (A)(i), may cast a provisional ballot under section 102(a).

(3) IDENTITY VERIFICATION BY SIGNATURE OR PERSONAL MARK.—In lieu of the requirements of paragraph (1), a State may require each individual described in such paragraph to provide a signature or personal mark for the purpose of matching such signature or mark with the signature or personal mark of that individual on record with a State or local election official.

SA 2953. Mr. REID (for himself, Mr. SCHUMER, and Mr. WYDEN) submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and

Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purpose; which was ordered to lie on the table; as follows:

Beginning on page 18, line 8, strike through page 19, line 24, and insert the following:

(b) REQUIREMENTS FOR VOTERS WHO REGISTER BY MAIL.—

(1) IN GENERAL.—Notwithstanding section 6(c) of the National Voter Registration Act of 1993 (42 U.S.C. 1973gg–4(c)) and subject to paragraphs (3) and (4), a State shall, in a uniform and nondiscriminatory manner, require an individual to meet the requirements of paragraph (2) if—

(A) the individual has registered to vote in a jurisdiction by mail; and

(B) the individual has not previously voted in an election for Federal office in that State.

(2) REQUIREMENTS.—

(A) IN GENERAL.—An individual meets the requirements of this paragraph if the individual—

(i) in the case of an individual who votes in person—

(I) presents to the appropriate State or local election official a current and valid photo identification;

(II) presents to the appropriate State or local election official a copy of a current utility bill, bank statement, Government check, paycheck, or other Government document that shows the name and address of the voter;

(III) provides written affirmation on a form provided by the appropriate State or local election official of the individual's identity; or

(IV) provides a signature or personal mark for matching with the signature or personal mark of the individual on record with a State or local election official; or

(ii) in the case of an individual who votes by mail, submits with the ballot—

(I) a copy of a current and valid photo identification;

(II) a copy of a current utility bill, bank statement, Government check, paycheck, or other Government document that shows the name and address of the voter; or

(III) provides a signature or personal mark for matching with the signature or personal mark of the individual on record with a State or local election official.

(B) PROVISIONAL VOTING.—An individual who desires to vote in person, but who does not meet the requirements of subparagraph (A)(i), may cast a provisional ballot under section 102(a).

(3) IDENTITY VERIFICATION BY SIGNATURE OR PERSONAL MARK.—In lieu of the requirements of paragraph (1), a State may require each individual described in such paragraph to provide a signature or personal mark for the purpose of matching such signature or mark with the signature or personal mark of that individual on record with a State or local election official.

(4) RELATIONSHIP TO OTHER LAWS.—Notwithstanding section 402(a), nothing in this Act may be construed to authorize or require conduct prohibited under any of the laws described in such section, or supersede, restrict, or limit any of the laws described in such section.

SA 2954. Mr. BOND submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

At the end, add the following:

SEC. . PURGING OF VOTER REGISTRATION LISTS.

Not less than once every 2 years, each jurisdiction shall tally the number of registered voters in that jurisdiction and compare that number with the number of citizens of voting age in that jurisdiction, as determined by the U.S. Census Bureau. If the number of registered voters exceeds the number of citizens of voting age in that jurisdiction, the jurisdiction shall provide notice as described in section 8(d)(2) of the National Voter Registration Act of 1993 (42 U.S.C. 1973gg–6(d)(2)) to each citizen of voting age in that jurisdiction and shall remove the name of each citizen from the official list of eligible voters if that citizen does not return the card provided as part of such notice and has not voted in the election for Federal office immediately preceding, and the election for Federal office immediately following, the date on which such notice was provided.

SA 2955. Mr. BOND submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administrative requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

On page 21, between lines 6 and 7, insert the following:

(6) FREE VOTER IDENTIFICATION CARDS.—A State or locality shall not meet the requirements of this subsection unless the State or locality issues, upon request, to any registered voter who lacks appropriate documentation a voter identification card that contains the name, address, and photo of the voter and that is valid only for purposes of the requirements of this subsection. A State or locality may not charge any fee for the issuance of the voter identification card.

SA 2956. Mr. BOND submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

On page 15, between lines 2 and 3, insert the following:

(b) RECENTLY REGISTERED VOTERS.—Any individual who registers to vote in an election for Federal office on or after the date that is 21 days before the date of the election may only vote in that election by casting a provisional ballot under subsection (a).

(c) VOTERS WHO VOTE AFTER THE POLLS CLOSE.—Any individual who votes in an election for Federal office for any reason, including a Federal or State court order, after the time set for closing the polls by a State law in effect 10 days before the date of that election may only vote in that election by casting a provisional ballot under subsection (a).

SA 2957. Mr. BURNS submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

At the end, add the following:

SEC. . CLARIFICATION OF ABILITY OF ELECTION OFFICIALS TO REMOVE REGISTRANTS FROM OFFICIAL LIST OF VOTERS ON GROUNDS OF CHANGE OF RESIDENCE.

(a) IN GENERAL.—Section 8(b)(2) of the National Voter Registration Act of 1993 (42 U.S.C. 1973gg–6(b)(2)) is amended by striking the period at the end and inserting the following: ", except that nothing in this paragraph may be construed to prohibit a State from using the procedures described in subsections (c) and (d) to remove an individual from the official list of eligible voters if the individual has not voted or appeared to vote in 2 or more consecutive general elections for Federal office and has not either notified the applicable registrar (in person or in writing) or responded to a notice sent by the applicable registrar during the period in which such elections are held that the individual intends to remain registered in the registrar's jurisdiction.".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on the day after the date of enactment of this Act.

SA 2958. Mr. DODD submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

On page 18, strike lines 17 through 19, and insert the following:

(B) The individual has not previously voted in an election for Federal office in the State.

SA 2959. Mr. DODD submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

On page 21, strike lines 19 through 23, and insert the following:

(2) REQUIREMENTS FOR VOTERS WHO REGISTER BY MAIL.—

(A) Each State and locality shall be required to comply with the requirements of subsection (b) on and after January 1, 2004; and

(B) The provisions of section (b) shall apply to any individual who registers to vote on or after the first day after the date on which voters must be registered under the law of that State in order to be eligible to vote in the election for Federal office to be held in 2002.

SA 2960. Mr. SESSIONS submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

On page 47, after line 19, insert the following:

Subtitle D—Federal Election Antifraud Pilot Program

SEC. 231. ESTABLISHMENT OF THE FEDERAL ELECTION ANTIFRAUD PILOT PROGRAM.

There is established a Federal Election Antifraud Pilot Program under which the Attorney General is authorized to make grants to States and localities to pay the costs of the activities described in section 234.

SEC. 232. APPLICATION.

(a) IN GENERAL.—Each State or locality that desires to receive a grant under this subtitle shall submit an application to the Attorney General at such time, in such manner, and containing such information as the Attorney General shall require, consistent with the provisions of this section.

(b) CONTENTS.—Each application submitted under subsection (a) shall—

(1) describe the activities for which assistance under this section is sought; and

(2) provide such additional assurances as the Attorney General determines to be essential to ensure compliance with the requirements of this subtitle.

(c) RELATION TO FEDERAL ELECTION REFORM INCENTIVE GRANT PROGRAM.—A State or locality that desires to do so may submit an application under this section as part of any application submitted under section 212(a).

(d) SAFE HARBOR.—No action may be brought against a State or locality on the basis of any information contained in the application submitted under subsection (a).

SEC. 233. APPROVAL OF APPLICATIONS.

The Attorney General shall establish general policies and criteria for the approval of applications submitted under section 232(a).

SEC. 234. AUTHORIZED ACTIVITIES.

A State or locality may use grant payments received under this subtitle—

(1) for the purchase, lease, installation, use, and operation of video cameras or other surveillance equipment at registration and polling sites in order to monitor compliance with the Voting Rights Act of 1965 (42 U.S.C. 1973a et seq.) and other Federal and State voting rights laws;

(2) for the costs of employing law enforcement officers at registration and polling sites in order to monitor compliance with the Voting Rights Act of 1965 (42 U.S.C. 1973a et seq.) and other Federal and State voting rights laws. Such law enforcement officers working at registration and polling sites shall be readily identifiable to the public so that the law enforcement officer can be easily recognized and located in the event that a voter desires to complain that their voting rights have been or are being violated; and

(3) for the costs of implementing a photographic or biometric identification program for all registered voters in the State.

SEC. 235. PAYMENTS.

The Attorney General shall pay to each State or locality having an application approved under section 233 the costs of the activities described in that application.

SEC. 236. AUDITS AND EXAMINATIONS OF STATES AND LOCALITIES.

(a) RECORDKEEPING REQUIREMENT.—Each recipient of a grant under this subtitle shall keep such records as the Attorney General shall prescribe.

(b) AUDITS AND EXAMINATIONS.—The Attorney General and the Comptroller General, or any authorized representative of the Attorney General or the Comptroller General, may audit or examine any recipient of a grant under this subtitle and shall, for the purpose of conducting an audit or examination, have access to any record of a recipient of a grant under this subtitle that the Attorney General or the Comptroller General determines may be related to the grant.

SEC. 237. REPORTS TO CONGRESS AND THE ATTORNEY GENERAL.

(a) REPORTS TO CONGRESS.—

(1) IN GENERAL.—Not later than January 31, 2003, and each year thereafter, the Attorney General shall submit to the President and Congress a report on the grant program established under this subtitle for the preceding year.

(2) CONTENTS.—Each report submitted under paragraph (1) shall contain the following:

(A) A description and analysis of any activities funded by a grant awarded under this subtitle.

(B) Any recommendation for legislative or administrative action that the Attorney General considers appropriate.

(b) REPORTS TO THE ATTORNEY GENERAL.—The Attorney General shall require each recipient of a grant under this subtitle to submit reports to the Attorney General at such time, in such manner, and containing such information as the Attorney General considers appropriate.

SEC. 238. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such sums as may be necessary for fiscal year 2003 to carry out the provisions of this subtitle.

SEC. 239. EFFECTIVE DATE.

The Access Board shall establish the general policies and criteria for the approval of applications under section 233 in a manner that ensures that the Attorney General is able to approve applications not later than October 1, 2002.

SA 2961. Mr. SPECTER (for himself and Mr. REID) submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

At the end, add the following:

SEC. . STUDY AND REPORT ON SECURING THE VOTING RIGHTS OF INDIVIDUALS WHO HAVE SERVED THEIR SENTENCES.

(a) STUDY.—

(1) IN GENERAL.—The Election Administration Commission established under section 301 (in this section referred to as the "Commission") shall conduct a study on the feasibility and advisability of prohibiting States from restricting the right of an individual who is a citizen of the United States to vote in any election for Federal office because that individual has been convicted of a criminal offense unless, at the time of the election, such individual—

(A) is serving a felony sentence in a correctional institution or facility; or

(B) is on parole or probation for a felony offense.

(2) ISSUES STUDIED.—In conducting the study under paragraph (1) the Commission shall determine—

(A) whether the application of State laws that determine the qualifications for voting in Federal elections result in unfair discrepancies regarding which citizens may vote in Federal elections;

(B) the number of individuals in the United States that cannot vote in elections for Federal office as a result of a felony conviction;

(C) whether State disenfranchisement laws disproportionately impact ethnic minorities;

(D) the number of States that disenfranchise ex-offenders who have fully served their sentences, regardless of the nature or seriousness of the offense;

(E) whether the nature and seriousness of the offense should be considered in determining whether voting rights may be restored to an ex-offender; and

(F) the number of individuals who have regained the right to vote after losing that right as the result of a felony conviction and the feasibility and costs of regaining the right to vote through a pardon process on the State or Federal level.

(b) REPORT.—Not later than the date that is 1 year after the date of enactment of this Act, the Commission shall submit to Congress a report on the study conducted under subsection (a)(1) together with recommendations for such legislative and administrative action as the Commission determines appropriate.

SA 2962. Mr. KYL submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

At the end, add the following:

SEC. . CONSTRUCTION REGARDING STATE REQUIREMENT OF PROOF OF CITIZENSHIP FOR VOTER REGISTRATION.

Notwithstanding any other provision of law, nothing in this Act shall be construed to prohibit a State from requiring an individual to provide proof of the citizenship of that individual before permitting that individual to register to vote in an election for Federal office.

SA 2963. Mr. BURNS submitted an amendment intended to be proposed by him to the bill S. 565, to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

On page 22, after line 25, insert the following:

SEC. 105. COMPLIANCE WITH ELECTION TECHNOLOGY AND ADMINISTRATION REQUIREMENTS CONDITIONED ON FUNDING.

Notwithstanding any other provision of this title, no State or locality shall be required to meet a requirement of this title prior to the date on which funds are appropriated pursuant to the authorization contained in section 209.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON ARMED SERVICES

Dr. DORGAN. Mr. President; I ask unanimous consent that the Committee on Armed Services be authorized to meet during the session of the Senate on Thursday, February 28, 2002, at 9:30 a.m., in open session to receive testimony on the future of the North Atlantic Treaty Organization (NATO).

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Mr. DORGAN. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on Thursday, February 28, 2002, at 10 a.m. to conduct an oversight hearing on "Issues Regarding the Sending of Remittances."

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

Mr. DORGAN. Mr. President, I ask unanimous consent that the Committee on Commerce, Science, and Transportation be authorized to meet on Thursday, February 28, 2002, at 9:30 a.m. on protecting content in a digital age-promoting broadband and the digital television transition, in room SR–253.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

Mr. DORGAN. Mr. President, I ask unanimous consent that the Committee on Environment and Public Works, Subcommittee on Fisheries, Wildlife and Water be authorized to meet on Thursday, February 28, 2002, at 2:30 p.m. to conduct a hearing that will focus on S. 1961, the Water Investment Act, a bill to improve the financial and environmental sustainability of the water programs of the United States.

The committee will also receive testimony on the following legislation:

S. 252: A bill to amend the Federal Water Pollution Control Act to authorize appropriations for State water pollution control revolving funds, and for other purposes.

S. 285: A bill to amend the Federal Water Pollution Control Act to authorize the use of State revolving loan funds for construction of water conservation and quality improvements.

S 503: A bill to amend the Safe Water Act to provide grants to small public drinking water system.

S. 1044: A bill to amend the Federal Water Pollution Control Act to provide assistance for nutrient removal technologies to States in the Chesapeake Bay watershed.

The hearing will be held in room SD–406.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. DORGAN. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Thursday, February 28, 2002, at 2:45 p.m. to hold a nomination hearing.

Agenda

Nominees: Mrs. Emmy B. Simmons, of the District of Columbia, to be an Assistant Administrator (Economic Growth, Agriculture, and Trade) of the United States Agency for International Development (New Position); and Robert B. Holland, III, of Texas, to be United States Alternate Executive Director of the International Bank for Reconstruction and Development for a term of two years.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON GOVERNMENTAL AFFAIRS

Mr. DORGAN. Mr. President, I ask unanimous consent that the Committee on Government Affairs be authorized to meet on Thursday, February 28, 2002, at 2:30 p.m. to consider the nomination of Louis Kincannon to be Director of the Census.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON HEALTH, EDUCATION, LABOR AND PENSIONS

Mr. DORGAN. Mr. President, I ask unanimous consent that the Committee on Health, Education, Labor, and Pensions, Subcommittee on Public Health, be authorized to meet for a hearing on "Making Sense of the Mammography Controversy: What Women Need to Know" during the session of the Senate on Thursday, February 28, 2002, at 2:30 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. DORGAN. Mr. President, I ask unanimous consent that the Committee on the Judiciary Subcommittee on Immigration be authorized to meet to conduct a hearing on "The Unaccompanied Alien Child Protection Act" on Thursday, February 28, 2002, at 2:30 p.m. in Dirksen Room 226.

Witness List

Panel I: Michael Creppy, Chief Immigration Judge, Executive Office of Immigration Review, Falls Church, VA; and Stuart Anderson, Executive Associate Commissioner, U.S. Immigration and Naturalization Service, Washington, DC.

Panel II: Edwin Munoz, Grand Rapids, MI; Wendy Young, Director of Government Relations and U.S. Programs, Women's Commission on Refugee Women & Children, Falls Church, VA; Andrew Morton, Attorney, Latham & Watkins, Washington, DC; and Julianne Duncan, Director of Children's Services, United States Conference on Catholic Bishops, Washington, DC.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON INTERNATIONAL TRADE AND FINANCE

Mr. DORGAN. Mr. President, I ask unanimous consent that the Subcommittee on International Trade and Finance of the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on Thursday, February 28, 2002, at 2:30 p.m. to conduct an oversight hearing on "Argentina's Economic Crisis."

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON READINESS AND MANAGEMENT SUPPORT

Mr. DORGAN. Mr. President, I ask unanimous consent that the Subcommittee on Readiness and Management Support of the Armed Services Committee be authorized to meet during the session of the Senate on Thursday, February 28, 2002, at 2:30 p.m., in open session to receive testimony on Department of Defense installation and environmental programs, in review of the defense authorization request for fiscal year 2003.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR

Mr. WELLSTONE. Mr. President, I ask unanimous consent that Michael Misterek, an intern in our office, be allowed to be on the floor during deliberations today.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DORGAN. Mr. President, I ask unanimous consent that Gabriel Adler be granted the privilege of the floor for the duration of my remarks on trade.

The PRESIDING OFFICER. Without objection, it is so ordered.

APPOINTMENT BY THE VICE PRESIDENT

The PRESIDING OFFICER. The Chair, on behalf of the President of the Senate, pursuant to Public Law 85–874, as amended, appoints the Senator from Nevada, Mr. REID, to the Board of Trustees of the John F. Kennedy Center for the Performing Arts, vice the Senator from Mississippi, Mr. LOTT.

SENATE YOUTH PROGRAM

Mr. REID. Madam President, I ask unanimous consent that the Judiciary Committee be discharged from further consideration of S. Res. 208, and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 208) commending students who participated in the United States Senate Youth Program between 1962 and 2002.

There being no objection, the Senate proceeded to consider the resolution.

Mr. REID. Madam President, I ask unanimous consent that the resolution and preamble be agreed to, the motion to reconsider be laid upon the table, and that any statements regarding thereto be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 208) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, is as follows:

S. RES. 208

Whereas the students who have participated in the United States Senate Youth Program (referred to in this resolution as the "Senate Youth Program") over the past 40 years were chosen for their exceptional merit and interest in the political process;

Whereas the students demonstrated outstanding leadership abilities and a strong commitment to community service and have ranked academically in the top 1 percent of their States;

Whereas the Senate Youth Program alumni have continued to achieve unparalleled success in their education and careers and have demonstrated a strong commitment to public service on the local, State, national, and global levels;

Whereas the Senate Youth Program alumni have reflected excellent qualities of citizenship and have contributed to the Nation's constitutional democracy, be it in either professional or volunteer capacities, and have made an indelible impression on their communities;

Whereas the chief State school officers, on behalf of the State Departments of Education, have selected outstanding participants for the Senate Youth Program;

Whereas the Department of Defense, Department of State, and other Federal Departments, as well as Congress, have offered support and provided top level speakers who have inspired and educated the students of the Senate Youth Program; and

Whereas the directors of the William Randolph Hearst Foundation have continually made the Senate Youth Program available for outstanding young students and exposed them to the varied aspects of public service: Now, therefore, be it

Resolved, That the Senate congratulates, honors, and pays tribute to the more than 4,000 exemplary students who have been selected, on their merit, to participate in the United States Senate Youth Program between 1962 and 2002.

ORDERS FOR FRIDAY, MARCH 1, 2002

Mr. REID. Madam President, I ask unanimous consent that when the Senate completes its business today, it adjourn until the hour of 9:15 a.m. on Friday, March 1; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and the Senate resume consideration of the election reform bill, with the time until 9:45 a.m. equally divided between Senators DODD and MCCONNELL or their designees; further, that the Senate vote on cloture at 9:45 a.m., and that Senators have until 9:30 a.m. tomorrow to file second-degree amendments.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADJOURNMENT UNTIL 9:30 A.M. TOMORROW

Mr. REID. Madam President, if there is no further business to come before the Senate—and I believe there is none—I ask unanimous consent the Senate stand in adjournment under the previous order.

There being no objection, the Senate, at 6:10 p.m., adjourned until Friday, March 1, 2002, at 9:15 a.m.

NOMINATIONS

Executive nominations received by the Senate February 28, 2002:

IN THE AIR FORCE

THE FOLLOWING NAMED AIR NATIONAL GUARD OF THE UNITED STATES OFFICERS FOR APPOINTMENT TO THE GRADE INDICATED IN THE RESERVE OF THE AIR FORCE UNDER TITLE 10, U.S.C., SECTIONS 12203 AND 12212:

CLINTON C. HICKS, 9161
JAY R. HONE, 5855
MARY V. JOHNSON, 7826
CARLOS E. RODRIGUEZ, 1918

EXTENSIONS OF REMARKS

IN HONOR OF SARAH HUGHES—LADIES FIGURE SKATING OLYMPIC GOLD MEDALIST, 2002

HON. GARY L. ACKERMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. ACKERMAN. Mr. Speaker, I rise today to honor and congratulate my constituent and America's newest sweetheart, Sarah Hughes, on her spectacular gold medal performance at the 2002 Winter Olympics.

On February 21, 2002, Sarah, a 16-year-old high school junior from Great Neck, New York, accomplished the unimaginable. After years of training and dedication, Sarah skated a flawless performance that included seven triple jumps with two triple-triple combinations. Sarah said that she wasn't skating for a gold medal that night, she just wanted to do her best. And that she did. While many discounted her chances, Sarah's long program left the world awestruck and moved her from fourth place to capture the gold medal ahead of the top skating competitors in the world.

It's not every day that Great Neck produces a gold medalist. Sarah is our hometown hero. Local supermarkets, stores, delis and police stations all proudly display signs of congratulations to Sarah. If you stop the people on the street, everyone has a smile and only praise to share about Sarah Hughes. In addition to being a gold medalist, Sarah is a top student at Great Neck North High School, who despite spending hours training to be an Olympic gold medalist, also attends a full schedule of class and maintains a straight-A average.

Last Thursday night, I had the pleasure to watch Sarah's performance on the big screen with her supporters at Great Neck House, the area's community center. The atmosphere was thick with excitement and the moment Sarah was awarded the gold was a moment I will never forget. To continue the celebration, on March 3rd at 11 a.m., Great Neck will welcome Sarah home with a parade through the center of town.

From her back, yard skating rink to the Olympic stadium, Sarah Hughes has captured the hearts of the American people. Mr. Speaker, it is with great pride that I rise today to honor Sarah for her magnificent performance at the 2002 Winter Olympics. I ask all my colleagues in the House of Representatives to please join me in congratulating Sarah as an Olympic gold medalist.

TRIBUTE TO DAN TANG

HON. MARK UDALL

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. UDALL of Colorado. Mr. Speaker, I rise today to honor a constituent of mine, Mr. Dan Tang, who was recently featured in the Rocky Mountain News for his success as an entrepreneur in the restaurant business. Mr. Tang's story reminds us that perhaps no one enjoys the fruits of the opportunity that America has to offer as much as those who have never had the luxury of taking it for granted.

Over twenty years ago, having heard countless stories of how much our great country has to offer, Mr. Tang bravely escaped communist China with the hope of one day becoming an American citizen. He spent nearly a year in extremely harsh conditions at a refugee camp in Canton awaiting permission to come here. Thankfully, Mr. Tang had relatives in Los Angeles who were able to give him a floor to sleep on, and a roof over his head when he finally received permission to enter the United States.

As an immigrant who spoke no English, he had a life-sustaining dream to overcome the obstacles he faced and move to Colorado. In Colorado he was able to get a job as a dishwasher in an American-owned Chinese restaurant. He worked tirelessly, learned English, and moved up the ladder of the restaurant business, eventually becoming a chef. Recognizing Mr. Tang's talent, a Colorado restaurant owner took him under his wing and taught him the financial side of the business. This knowledge and experience enabled Mr. Tang to purchase his first restaurant, "Heaven Dragon." The restaurant is one of the most popular and successful restaurants in my district and has enabled Mr. Tang to buy a second restaurant nearby, "Pearl Wok". He is a leader in the Chinese-American community of Colorado, a successful businessman, a friend to the Governor of Colorado, and an example of how the so-called "American dream" is still a reality.

Mr. Speaker, at a time in our country's history when many are skeptical of the enormous contribution that immigrants and their families make in contributing to the success of America and strengthening our communities, I am encouraged by the example of Dan Tang.

Mr. Speaker, I commend Dan Tang's story to this House and to my colleagues for the inspiration it evokes, and for a reminder of what it is to be an American.

[From the Rocky Mountain News, Feb. 20, 2002]

FEEDING THE AMERICAN DREAM

(By Marty Meitus)

Fourteen people. One rusty old boat. A harrowing glide down the river to Macau, then a Portuguese colony more than 100 miles from the farm near Canton, with two toddlers to keep quiet.

If the boat went toward the shore, Dan Tang says, they would cover the children with a blanket to make it look as if they were transporting something. If the boat had sprung a leak and sunk, or if the children had cried out at the wrong moment, Tang and company would have risked prison and a steep fine.

"It was pretty scary," he says in his heavily accented English.

Tang, owner of the Heaven Dragon restaurant, a hidden treasure tucked away in a strip mall in Thornton, has been asked to tell the tale of his escape from communist China over and over since he arrived in this country 20 years ago. The affable 40-year-old is given to easy laughter, taking pleasure and pride in his pretty restaurant.

In honor of the Chinese, New Year, which began Feb. 12 and lasts 15 days, we talked to Tang about his journey toward the American dream.

Tang's father was a rice and yam farmer in Canton; his mother was a housewife. He and his five brothers slept in the same bed in their two-bedroom wood-and-dirt house. Needed in the fields, he attended school only to fifth grade. The family never rose above the poverty level, restricted by a government that confiscated most of their earnings and limited their activities.

In 1980, hearing that fortunes could be made here, Tang decided to leave China for the United States. "They (his parents) let me try it to escape to freedom," he says. "The government limited what you could do. You had to escape, because there were no travel visas; you had to get permission to go from city to city."

In Macau, he stayed in a refugee camp for 11 months, under rough conditions, while he waited for his visa to come through. His goal was to reach his aunt, his father's sister, who lived in Los Angeles.

Eventually, he was granted permission to leave. He lost sight of the other 13 people on the boat, although he knows that a couple of them immigrated to Canada. "We were lucky," he says. "I know people who tried to get out four or five times."

In Los Angeles, he slept in his aunt's dining room, hoping to break into the restaurant business, one of the few fields open to an immigrant who spoke no English. Struggling to survive, he finally moved to Colorado, where he had friends, and went to work for Americans who owned a Chinese restaurant in Aurora.

His experience with cooking was limited. "The first time I saw a grocery store in the U.S., I'm in paradise," he says.

He worked his way up from dishwasher to prep cook to deep-fry cook to chef, moving around the metro area to 10 restaurants in all. Then an American businessman took him under his wing and taught him the restaurant business, enabling Tang to buy Heaven Dragon in 1985.

Tang has brought all his family except two brothers to America, and they should be allowed to come in the next couple of years. The family includes his wife, Ying Li, the woman chosen to be his bride by his parents in an arranged marriage. When he brought her over as an adult for their wedding, he hadn't seen her since she was 9. "When she got off the plane," he says. "I didn't recognize her, except a little bit."

Choosing his own wife would have been out of the question. "We still have old culture, so I wouldn't even think of not doing it," he says. But all's well that ends well. He and Yung Li have been married for 11 years and have three children: Victor, 10, Tracey 8, and Audrey, 7.

Tang has been successful enough to open a second restaurant, the Pearl Wok, at West 120th Avenue and Sheridan Boulevard. Although he'd like to have more free time to devote to learning English and he regrets never being able to return to school, the restaurant life has been its own education. "If you work hard," he says, "you get rewarded."

CELEBRATING THE 70TH ANNIVERSARY OF THE WOODLAND CHRISTIAN CHURCH IN HOUSTON, TEXAS

HON. GENE GREEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. GREEN of Texas. Mr. Speaker, I rise today to recognize and congratulate the Woodland Christian Church in Houston, Texas, which will celebrate its 70th Anniversary on March 2, 2002. Truly a milestone occasion, this celebration is a testament to the outstanding dedication and commitment of the entire church and community.

The Woodland Christian Church was organized on March 2, 1932 as Woodland Heights. It has been located on its present site in North side Houston for almost 45 years and has an active congregation of 125 people. Throughout its history, the church has provided a caring, loving environment and has faithfully ministered to the spiritual needs of its members. It has been a source of hope and comfort in times of distress, and its Christian ministry has been one of outreach to the homeless and day laborers.

The members of this church have operated a day care center and are active in a lunch program four days a week, providing sack lunches three days and a hot meal one day. Pastor Virzola Law, a new minister at Woodland Christian Church, has continued to give her endorsement and support to the ministry for the homeless.

Situated in a low-income neighborhood, the Woodland Christian Church has been very active in the community assisting single mothers, transients, and other people in need. It has also sponsored two homes for senior citizens and disabled people, Woodland Christian Towers and Pecan Grove Manor. By their actions, the congregation of the Woodland Christian Church and its pastor have proven their commitment and dedication for others. This is also the church in which my wife, Helen, and I were married in 1970.

Seventy years is a milestone, and that is why Mr. Speaker, I ask my colleagues in the House of Representatives to help me recognize this truly remarkable church. We congratulate you on your many good works, and we wish you seventy more years of dedicated service.

INTERNATIONAL MONETARY FUND

HON. RON PAUL

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. PAUL. Mr. Speaker, I rise to introduce legislation to withdraw the United States from the Breton Woods Agreement and thus end taxpayer support for the International Monetary Fund (IMF). Rooted in a discredited economic philosophy and a complete disregard for fundamental constitutional principles, the IMF forces American taxpayers to subsidize large, multinational corporations and underwrite economic destruction around the globe. This is because the IMF often uses the $37 billion line of credit provided to it by the American taxpayers to bribe countries to follow destructive, statist policies.

For example, Mr. Speaker, the IMF played a major role in creating the Argentine economic crisis. Despite clear signs over the past several years that the Argentine economy was in serious trouble, the IMF continued pouring taxpayer-subsidized loans with an incredibly low interest rate of 2.6 percent into the country. In 2001, as Argentina's fiscal position steadily deteriorated, the IMF funneled over 8 billion dollars to the Argentine government.

According to Congressman JIM SAXTON, chairman of the Joint Economic Committee, this continued lending over many years sustained and subsidized a bankrupt Argentine economic policy, whose collapse is now all the more serious. The IMF's generous subsidized bailouts lead to moral hazard problems; and enable shaky governments to pressure the IMF for even more funding or risk disaster.

Argentina is just the latest example of the folly of IMF policies. Only 4 years ago the world economy was rocked by an IMF-created disaster in Asia. The IMF regularly puts the taxpayer on the hook for the mistakes of the big banks. Often times, Mr. Speaker, IMF funds end up in the hands of corrupt dictators who use our taxpayer-provided largesse to prop up their regimes by rewarding their supporters and depriving their opponents of access to capital.

If not corrupt, most IMF borrowers are governments of countries with little economic productivity. Either way, most recipient nations end up with huge debts that they cannot service, which only adds to their poverty and instability. IMF money ultimately corrupts those countries it purports to help, by keeping afloat reckless political institutions that destroy their own economies.

IMF policies ultimately are based on a flawed philosophy that says the best means of creating economic prosperity is through government-to-government transfers. Such programs cannot produce growth, because they take capital out of private hands, where it can be allocated to its most productive use as determined by the choices of consumers in the market, and place it in the hands of politicians. Placing economic resources in the hands of politicians and bureaucrats inevitably results in inefficiencies, shortages, and economic crises, as even the best intentioned politicians cannot know the most efficient use of resources.

In addition, the IMF violates basic constitutional and moral principles. The federal government has no constitutional authority to fund international institutions such as the IMF. Furthermore, Mr. Speaker, it is simply immoral to take money from hard-working Americans to support the economic schemes of politically-powerful special interests and third-world dictators.

In all my years in Congress, I have never been approached by a taxpayer asking that he or she be forced to provide more subsidies to Wall Street executives and foreign dictators. The only constituency for the IMF are the huge multinational banks and corporations. Big banks used IMF funds—taxpayer funds—to bail themselves out from billions in losses after the Asian financial crisis. Big corporations obtain lucrative contracts for a wide variety of construction projects funded with IMF loans. It's a familiar game in Washington, with corporate welfare disguised as compassion for the poor.

The Argentine debacle is yet further proof that the IMF was a bad idea from the very beginning—economically, constitutionally, and morally. The IMF is a relic of an era when power-hungry bureaucrats and deluded economists believed they could micro-manage the world's economy. Withdrawal from the IMF would benefit American taxpayers, as well as workers and consumers around the globe. I hope my colleagues will join me in working to protect the American taxpayer from underwriting the destruction of countries like Argentina, by cosponsoring my legislation to end America's support for the IMF.

STATEMENT REGARDING THE PRESIDENT'S BUDGET

HON. ALCEE L. HASTINGS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. HASTINGS of Florida. Mr. Speaker, I rise today to join with my colleagues in expressing my concern about the economic effects of the recently enacted tax cuts and how these tax cuts have affected our country's once sound economy.

I begin, Mr. Speaker, by asking my friends on the other side of the aisle, where has the surplus, the very same surplus that was the largest in the history of this great nation just 1 year ago, gone? Well, I will tell you where the surplus has gone. On June 7, 2001, Congress rammed through the so-called "Economic Growth and Tax Relief Reconciliation Act" that had an effect opposite of its specified purpose. For those whose memories escape them, the Administration ensured the tax cut program would be a powerful economic stimulant to a slowing economy, while leaving the Social Security trust fund and Medicare surplus in tact. Yet, according to CBO's most recent projections, within the last year the overall cumulative surplus has been reduced by $4 trillion and now hovers at just $1.6 trillion. According to the CBO, about 60 percent of that decline is due to the tax cuts.

Mr. Speaker, the facts are indisputable. However, some insist the down shift in the economy and the projected surplus is largely due to the nation's response to September 11, while CBO states the terrorist attacks contributed to only a small fraction of the deficit. Yes, September 11 was a tragic and unexpected event but it is because of unexpected or unforeseeable events why we, as a Congress, cannot draft intractable initiatives.

It was not too long ago that I remember campaigning across South Florida and people were asking about issues such as Social Security, Medicare, and prescription drugs. Now, due to the Administration's faltering tax program, citizens are no longer assured that the nation will have adequate means to address its current needs and the long run costs of paying Social Security and Medicare benefits. Thus, the solvency of Social Security has been reduced by 10 years at the very least, and our ability to expand Medicare coverage has been paralyzed.

And what about priorities such as building new schools? What about fixing our roads? Or what about paying off the national debt? As I mentioned, at the beginning of the 107th Congress this body was faced with a list of priorities that the American people wanted to address: education, prescription drugs, Social Security, the environment, energy and Medicare. Now, due to our plummeting surplus, we do not have the money to begin talking about these problems, let alone solving them.

It is time to take action. It is time to be honest with the American people. It is time to discard ineffective policies that leave us with no hope of a balanced budget between now and 2011. It is time to stand behind initiatives that leave room for emergencies and "rainy days," initiatives that do not exclude the average working man and woman, and initiatives that benefit not just 10 percent of the population but the entire population. It is time to implement an effective and proven resolution to tax cuts, Medicare, Social Security, unemployment, the national debt, and every other American priority.

PAYING TRIBUTE TO OLIVE MORTON

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. McINNIS. Mr. Speaker, I would like to take this opportunity to pay tribute to Olive Morton and thank her for her extraordinary contributions to Routt County and Colorado Mountain College. Olive's life-long dedication to the pursuit of excellence as an educator and volunteer for community organizations is matched only by the level of integrity and honesty with which she has conducted herself each and every day. She will always be remembered at Colorado Mountain College as a person with the utmost dedication and talent, and will continue to be known as a leader in her community. After over thirty years of service, Olive is retiring from her position as Director of the Alpine Campus of the college. As she celebrates her retirement, I feel that it is only appropriate to recognize her achievements and dedication to education expressed throughout her career.

Olive has been a pioneering spirit all of her life. She began her career as one of the first employees at the Colorado Mountain College—Alpine Campus. Through her countless hours devoted to the college and its students, she has helped to bring Colorado Mountain College from its infancy to a well-respected and renowned institute today. Olive not only has shown the strength to be the foundation for the college but has also crafted the vision for its future. Known among her colleagues for her inspiration, her professionalism, fairness and her leadership, Olive will be deeply missed.

Olive has brought her strong work ethic and commitment to excellence to community activities for many years. This year Olive is continuing to serve as the Republican Chairperson for Routt County in Colorado, a position in which she has served for several terms. Her commitment as an educator and as a civil servant has led her to combine her two passions, and as a result she has faithfully represented the academic world and her political party.

Mr. Speaker, it is clear that Olive Morton is a woman of unparalleled dedication and commitment to both her professional and civic endeavors. It is her unrelenting passion for each and every thing she does, as well as her spirit of honesty and integrity with which she has always conducted herself, that I wish to bring before this body of Congress, and this nation. Olive Morton is a remarkable woman, who has achieved extraordinary things in her career and in her community, and I would like to extend to her my congratulations on her retirement and wish her the best in her future endeavors.

HONORING MARCIA F. VOLPERT

HON. HOWARD L. BERMAN

OF CALIFORNIA

HON. HENRY A. WAXMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. BERMAN. Mr. Speaker, we rise today to honor our good friend Marcia F. Volpert who will be presented with an award for Exceptional Community Leadership at the Jewish Family Service of Los Angeles (JFSLA) annual award dinner on May 19, 2002. This prestigious award, known as the "Fammy" award is given to one exceptional person each year who has served both the JFSLA and the community at large.

We have known Marcia for many years and know firsthand of her dedication, commitment and numerous accomplishments. For more than twelve years Marcia helped guide, grow and promote JFSLA as an actively engaged Board Member. She also served as its Secretary and Vice President while at the same time playing a valuable role on key committees including Strategic & Planning and Public Relations & Marketing.

Marcia has been active with many Jewish causes and organizations. She has served as both the Vice President and Chair of the Jewish Federation Council of Greater Los Angeles and the Jewish Community Relations Committee. In addition she has held a number of very important positions including Chair of the LA Jewish Population Survey, Vice Chair of the Jewish Federation Strategic Planning Committee and Chair of the Statewide Jewish Public Affairs Committee. Also, she is well known for her leadership within the Soviet Jewry Movement.

In addition to her prodigious work with Jewish organizations, Marcia has given her time and energy to many other civic and public services. She served as a Los Angeles Civil Service Commissioner, a Water and Power Commissioner and President of the Los Angeles County Board of Education. She is currently a member of the committee of Bar Examiners of the State Bar of California.

To say that Marcia has earned this Fammy Award is an understatement. She is a remarkable person who we are privileged to know and to call a friend. It is our distinct pleasure to ask our colleagues to join us in saluting Marcia F. Volpert for all of her outstanding achievements, and to congratulate her for receiving this year's Fammy award.

A TRIBUTE TO ALEXANDER GONZALEZ ON HIS APPOINTMENT TO SERVE ON THE COMMISSION ON EDUCATIONAL EXCELLENCE FOR HISPANIC AMERICANS

HON. RANDY "DUKE" CUNNINGHAM

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. CUNNINGHAM. Mr. Speaker, I rise today to pay tribute to Alexander Gonzalez, the President of California State University San Marcos. This morning, President Gonzalez was sworn in to serve on President Bush's Commission on Educational Excellence for Hispanic Americans. President Bush authorized the Commission in October 2001, and charged it with creating a multi-year plan to close the educational achievement gap between Hispanic American students and their peers.

On September 1, 1999 I stood beside Alexander Gonzalez while he was sworn in as the second President of the California State University at San Marcos. Together, we recognized the achievements of the University, which was celebrating its tenth anniversary, and reflected on the greatness and potential of the institution and its people.

Since his inauguration, President Gonzalez has worked to make the University an epicenter for the diverse community that it serves. Under his leadership, Cal State San Marcos has expanded the National Latino Research Center, which disseminates research-based information regarding Hispanic populations in the U.S. The NLRC also facilitates the training of researchers to do research on Hispanic populations.

Cal State San Marcos has also expanded The Barahona Center for the Study of Books in Spanish, which collects, catalogues, and reviews the world's only complete collection of

Spanish-language books published since 1989 for children and adolescents. Programs of the Barahona Center focus on skill development in literacy, including literacy training for educators and parents, and services to assist librarians, parents, and teachers in book selection.

In addition to these programs which document the history of Hispanic Americans, President Gonzalez is also working to improve their future, as Cal State San Marcos is training a new generation of teachers for our Nation's schools.

As a former teacher and coach myself, both for students in public schools and for fighter pilots at the Top Gun Navy Fighter Weapons School at Miramar, I share with President Gonzalez a strong commitment to excellent education, and a desire to share this enthusiasm for learning. It is frustrating to me that our educational system has created an achievement gap between Hispanic Americans and their peers. Closing this achievement gap is going to require a fresh perspective on an old problem. Having seen the changes that Cal State San Marcos has inspired in our local community, I am confident that Alexander Gonzalez will be able to provide that perspective for the President's Commission. I am proud to rise today to recognize President Gonzalez, and I look forward to my continuing work with him to improve academic achievement for Hispanic Americans in San Diego, and now all across our great Nation.

TRIBUTE TO FRANK LONG

HON. BILL SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. SHUSTER. Mr. Speaker, I rise today to pay tribute to Frank Long, a farmer from Sinking Valley, Pennsylvania. Frank was recently awarded Pennsylvania State Fairperson of the Year by the Pennsylvania State Association of County Fairs for his tireless efforts as President of the Sinking Valley Farm Show. Frank has been a dairy farmer for 38 years and he brings a lifetime of experience not only to the Sinking Valley Farm Show, but to the many other organizations in which he serves.

Frank demonstrates his dedication to his community as an active member of the Blair County Chapter of the American Red Cross, where he serves on the board of Directors and as a part of the Disaster Team. He is a charter member of the Southern Alleghenies Resource, Conservation & Development, and a charter member and chairman of the Southern Alleghenies Conservancy. Frank also sits on Blair County Farm Park and Recreation Board, and was appointed in 2000 by Governor Tom Ridge to three committees dealing with agriculture, land use, and the "Growing Greener" program.

Through his 25 years as director of the Sinking Valley Farm Show, Frank has worked to improve the fair facilities and attractions at the fair. His colleagues credit him with making the fairgrounds more appealing for year-round use and for expanding the old grounds into a larger facility. Frank has devoted his life to promoting agriculture in Pennsylvania, and I applaud his efforts. Again I congratulate Frank Long on being awarded Pennsylvania State Fairperson of the Year.

IN HONOR OF THE CATHEDRAL VILLAGE

HON. ROBERT MENENDEZ

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. MENENDEZ. Mr. Speaker, I rise today to celebrate the Grand Opening and Ribbon Cutting Ceremony of the Cathedral Village Townhouse Development, which was sponsored by Bishop Donald Hilliard, Jr., the Cathedral-Second Baptist Church, and the Church Community Development Corporation. The ceremony took place on Friday, February 22, 2002, followed by a luncheon at the Family Life Center in Perth Amboy.

A newly-completed affordable townhouse facility, the Cathedral Village Townhouse Development will improve the quality of life for many families. This project was made possible thanks to the dedicated efforts of the Cathedral-Second Baptist Congregation and funding and support from the State of New Jersey; Governor James E. McGreevey; Department of Community Affairs Commissioner Susan Bass Levin; City Council Members Peter Jiminez, Frank Sinatra, David Szilagyi, Geraldine Bolanowski, and Robert Sottilaro; the HUD Home Program; the Reinvestment Fund/CLI, and First Union Bank.

Today, I ask my colleagues to join me in celebrating the Grand Opening and Ribbon Cutting Ceremony of the Cathedral Village Townhouse, a truly memorable and historic event for the community of Perth Amboy.

CONGRATULATING FRIENDS OF AGRICULTURAL EXTENSION HONOREES

HON. GEORGE RADANOVICH

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. RADANOVICH. Mr. Speaker, I rise today to congratulate Tom Shultz on the occasion of his being honored as the 2002 Farm Advisor recipient of the Award for Outstanding Achievement. Other finalists were Marsha Campbell-Mathews, Pam Geisel, Brent Holtz, Maxwell Norton, Steve Sibbett, and Bill Weir. I also extend my congratulations to Beth Grafton-Cardwell as she is honored as the 2002 Extension Specialist recipient of the Award for Outstanding Achievement. Other finalists in that category were Rob Atwill, Joe DiTomaso, John Maas, and James Oltjen.

Tom Shultz is a Tulare County Farm Advisor with 22 years of extension work supporting the dairy community with particular emphasis on his development and implementation of guidelines for site selection, animal density and manure management to help dairymen meet regulatory requirements in an economically viable manner.

Marsha Campbell-Mathews is a Stanislaus County Agronomy Farm Advisor with a program dealing with lagoon water management as a nutrient source for crops. Pam Geisel, a Fresno County Environmental Horticulture Farm Advisor, developed an education program for urban neighborhoods called Garden of the Sun. Brent Holtz is a Madera County Pomology Farm Advisor. He researched and developed cultural controls for Brown Rot without heavy reliance on fungicidal spray programs. Merced County Farm Advisor Maxwell Norton assisted and educated small farmers new to this country while conducting significant research experiments with strawberries. Steve Sibbett, a Tulare County Farm Advisor, contributed extensively and valuably to the cultural development of walnuts. Bill Weir is a Merced County Farm Advisor with continuing achievements in the growing of ultranarrow row cotton.

Beth Grafton-Cardwell is a Riverside Extension Entomologist with numerous research and extension efforts to help citrus growers reduce their need for broad spectrum pesticides to combat pest problems while maintaining fruit quality and acceptable economic return.

Rob Atwill, a Davis Veterinary Extension Specialist, identified and articulated cost-effective strategies to minimize surface water contamination by livestock. Joe DiTomaso is a Davis Weed Science Extension Specialist and has expanded effective control strategies for the resilient and economically devastated Yellow Starthistle. Davis Veterinary Extension Specialist John Maas delivered thorough information to livestock producers through the Feedlot Certification and Cow-Calf Quality Assurance programs. James Oltjen, a Davis Animal Science Extension Specialist, worked on the development and delivery of the California Feedlot Certification and Cow-Calf Quality Assurance programs.

Mr. Speaker, I rise today to recognize these men and women as they receive recognition by the Friends of Agricultural Extension for the 2002 Award for Outstanding Achievement. I invite my colleagues to join me in congratulating these honorees for their contributions to agriculture and their community and wishing them many more years of continued success.

HONORING MONSIGNOR LEONARD TOOMEY ON THE OCCASION OF BEING NAMED GRAND MARSHAL OF THE TRENTON ST. PATRICK'S DAY PARADE

HON. CHRISTOPHER H. SMITH

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. SMITH of New Jersey. Mr. Speaker, I rise today to honor Monsignor Leonard Toomey, who has been named the Grand Marshal of this year's City of Trenton's St. Patrick's Day Parade. Just a few days after he leads the annual parade through historic Trenton, Msg. Toomey will celebrate the 54th anniversary of his ordination as a priest, which occurred on March 13, 1948.

Technically, Monsignor Toomey is "retired." Yet he is more active in his community than people half his age. He serves as an assistant pastor at several Diocesan Parishes, and devotes many of his homilies to the children he loves so much.

Perhaps best known for his 26 years as pastor of Sacred Heart Church on South Broad Street, Trenton—the oldest Catholic Parish in the state of New Jersey—Monsignor Toomey was a pillar of the community during one of the city's most turbulent time periods of the late 1960s.

While at Sacred Heart, he worked to make sure the Church's external image was restored and preserved to match its lofty lineage and legacy of service. In the mid-1970s, he launched a successful campaign to restore all of the parish's buildings and grounds.

His service to the Church, to the city of Trenton, and surrounding areas has been so effective on many fronts. In addition to serving as pastor at several churches, Monsignor Toomey founded the Children's Youth Organization Day Camp so area children had a safe and fun place to go during the summer.

He also brought God's guidance to the brave men and women of the Trenton Fire Department, as well as to the inmates at New Jersey's State Prison in Trenton, a maximum security facility where those convicted of the state's worst crimes are housed.

Monsignor Toomey has held numerous posts throughout the Diocese and has given his time to several local boards including those for public housing projects, museums and historical societies, and St. Francis Hospital.

I always enjoy marching in Trenton's St. Patrick's Day Parade, and this year's experience will be equally meaningful for I will be marching behind a man who truly has been a bedrock of the city of Trenton for the better part of a century.

I join Monsignor's many admirers, friends, proteges and parishioners in thanking and congratulating him on another well-deserved recognition and milestone for his leadership and contributions to our community.

CELEBRATING 100 YEARS OF JARRETT STATIONARY

STATEMENT OF THE HONORABLE HOWARD COBLE, FEBRUARY 27, 2002

Mr. Speaker, On Friday, March 1, 2002, one of the most respected family-owned businesses in High Point, North Carolina, will celebrate its 100th birthday. On behalf of the citizens of the Sixth District of North Carolina, we wish to congratulate Jarrett Stationary on its first century of existence.

"We don't know the exact date when Gene Jarrett started the business, but it was in February 1902," David Wall, the store's president told the High Point Enterprise. Wall, a third-generation owner and a High Point City Councilman, told the newspaper, "I figured holding the celebration on March 1 would help us cover the date properly. Ever since we got to 95 years, it seems like it's taken forever to get to 100 years, so I'm both proud and relieved that this time has finally come."

Because small businesses are the lifeblood of our economy, Mr. Wall, all of us are proud that Jarrett Stationary has succeeded for 100 years. Jarrett Stationary is the 16th oldest business entity in High Point according to the local Chamber of Commerce. Jarrett Stationary has had a rich and colorful history during its century in business.

There have only been three presidents during its 100-year existence. Gene Jarrett ran the company for approximately 45 years. Thurman Wall, Jarrett's son-in-law, served as president before his son, David assumed the role in 1981. The company also served as a bookstore during its first 40 years before concentrating on office supplies after World War II.

It has been at its downtown North Wrenn Street location since 1929. Despite the glut of national office supply chains, and that many other small businesses have abandoned the downtown retail core, Jarrett Stationary has stayed and thrived. The future looks equally bright for Jarrett Stationary.

In fact, the very name of the company has come up for discussion in the past. Though a Wall family member has run the business longer than a Jarrett, David Wall said there was never any real consideration to abandon the company name. "Both my father and I thought about all those years that the good name of Jarrett Stationary has been built up in this city," Wall told the High Point Enterprise. "In retail especially, if you have that, that's like money in the bank, so why change?"

We concur that Jarrett Stationary should not change. It should continue to serve the people of High Point the same way it has for 100 years. On behalf of the citizens of the Sixth District of North Carolina, we congratulate Jarrett Stationary on its centennial celebration, and we offer our best wishes for the future.

THE SENIORS PROTECTION ACT

HON. GERALD D. KLECZKA

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. KLECZKA. Mr. Speaker, the Retired Enlisted Association's Senior Citizens League (TREA) is a non-profit organization that professes to help seniors by promoting legislative reforms that will advance the interests of elderly individuals. However, contrary to its claims, TREA has repeatedly targeted seniors with mailings about the "Notch" issue that are deceptive, false, and designed to extort money from elderly persons, many of whom live on limited incomes.

The term "Notch" refers to the difference in Social Security benefits paid to individuals born before 1917 versus those born between 1917 and 1921. This difference arose because a law was passed in 1972 that provided automatic cost-of-living adjustments for all Social Security recipients, so that benefits would keep pace with inflation. However, the formula used was flawed, causing benefit levels to rise faster than the rate of inflation. In 1977, Congress corrected this formula, necessitating a reduction to the correct level of Social Security benefits.

Unfortunately, groups like TREA are telling seniors they are working to correct a Notch "problem" that doesn't exist, in an attempt to scam seniors out of their hard-earned money. The Social Security Administration, State Attorney General offices, and Members of Congress have received numerous complaints and questions from seniors who have been confused and misled by TREA's Notch campaign.

In response to these complaints, the Ways and Means Social Security Subcommittee held a hearing on July 26, 2001 to investigate TREA's activities. This hearing uncovered numerous deceptive tactics used by this organization.

For example, TREA purports to have the authority to handle distribution of Social Security benefits by mailing seniors an official looking "Notch Registry" identification card and a "National Notch Victim Register" form that asks seniors to specify whether they prefer their $5,000 Notch payment sent to them in one lump sum or in installments. Seniors' preferences are requested in spite of the fact that Notch payments have not been authorized by Congress, and even if they were, distribution of such payments would be handled exclusively by the Social Security Administration. TREA also disseminates solicitations containing replicas of Social Security checks written in the amount of $5,000.

Perhaps the most disturbing of all, TREA's fundraising efforts have included mailing solicitations that ask seniors to redraft their wills to make TREA a beneficiary. Specific instructions for such will preparation are even provided.

During the Subcommittee hearing, it was discovered that TREA Senior Citizens League used its mailings to collect over $46 million from seniors from 1997 to 2000, with $12 million of that in the year 2000 alone.

It is clear that Congress can no longer turn a blind eye to TREA's fundraising schemes, which seek to exploit America's seniors in the name of legislative reform. Despite repeated warnings by House members to end the barrage of misleading solicitations, TREA has refused to comply with such requests.

TREA's actions leave me with little choice but to introduce a bill that would revoke the Congressional charter granted to TREA in 1992. While Congress rarely revisits a former charter decision, this group's persistent pattern of fleecing seniors clearly warrants such a step. Federal charters are prestigious distinctions awarded to organizations with a patriotic, charitable, or educational purpose. Although intended as an honorific title, a Federal charter implies government support for such organizations. Misleading America's seniors is clearly not patriotic, charitable, or educational, and allowing TREA to maintain its Federal charter would send a signal to the American public that Congress condones such behavior. I urge my colleagues to cosponsor this legislation.

ACCOMPLISHMENTS OF MR. BOB POTTER

HON. C.L. "BUTCH" OTTER

OF IDAHO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. OTTER. Mr. Speaker, I rise today to bring to the attention of the House the distinguished accomplishments of Mr. Bob Potter of Hayden Lake, Idaho. Bob has been the President of Jobs Plus in Coeur d' Alene since the organization's inception 15 years ago. Known affectionately as "Mr. Jobs Plus", Bob's mission is to create investment and bring new jobs and companies to the Coeur d' Alene area. I'm pleased to report his mission is a success. Bob Potter is a great salesman for

Northern Idaho, and he recruits companies with good benefits programs for their employees in addition to providing a decent wage. As a rule, when Bob successfully recruits a new company, the average annual wage in Kootenai County increases. The benefit of Jobs Plus and Bob Potter is seen in the numbers: 74 companies recruited; 3,780 jobs created; $85 million in new payroll. It is the tireless dedication of people like Mr. Potter that keep our local economies growing and diversifying. Bob Potter's hard work and sense of community should serve as an inspiration to us all, and I thank him for all he has done for Idaho and the nation.

BOB POTTER: MR. JOBS PLUS

RETIREMENT DOESN'T SUIT SALESMAN

(By Bill Buley)

At the end of each year, Jobs Plus President Bob Potter visits companies he's recruited to the area since the organization was formed 15 years ago.

The numbers tell the story.

In 2001: 74 companies; 3,780 jobs, $85 million in payroll; $340 million in capital investment; 2.4 million square feet pleased or owned; average wage, $26,300-plus.

"Those are the reasons Jobs Plus is damn important," he says.

But numbers don't tell the tale of Bob Potter.

He comes across initially, quite frankly, as a grumpy old man.

He's anything but.

Before the interview even begins, he grabs a putter resting against a wall just outside his office at the Resort Plaza; picks up a golf ball, and walks about 10 feet from the practice hole.

"Watch," he says.

A moment later, in a smooth motion, he strokes the ball.

It seems to be going left. It's going to miss.

Then, it begins to break, curving back.

It drops in the target.

He knew.

"I've won a lot of bets on that," he says with a grin.

Potter glows when he speaks of his wife Patricia, whom he married 49 years ago on Valentine's Day.

He smiles as he boasts of their daughter Pam, a teacher in Olympia, Wash., and their son Bo, a Notre Dame graduate who today sells medical insurance in Los Angeles.

Potter, by the way, is a huge fan of the Fighting Irish. He anguishes over the football team's misfortunes and hopes for another national championship soon.

His son was the roommate of Rudy Ruettiger, whose drive to play football for Notre Dame resulted in the movie, "Rudy."

"I knew Rudy really well, in fact he still visits Bo a lot and stays at our house in Los Angeles when he's down there," Potter said.

Still, to many in North Idaho, Bob Potter is Mr. Job Plus.

The two seem synonymous.

But a parting might not be far off.

Potter says he can't continue forever in the $60,000-a-year-job—the same as when he started in 1987.

"I am 74 years old. Sooner or later, the Jobs Plus board of directors is going to have to face up to the fact that we're going to have to take Jobs Plus into the next phase."

That phase will lead to Jobs Plus II.

"We've been doing this with mirrors. Our costs are stable and low. I don't need a medical plan (he has one already). I've never taken a raise. Jobs Plus II isn't going to be that fortunate. Those days are going to be over, probably in the next transition. It's going to cost us more to run Jobs Plus in the future than it is now."

So Potter, as usual, has a plan.

He'll make a presentation to Kootenai County Commissioners Tuesday that the county should—like the cities of Coeur d'Alene, Hayden, Rathdrum and Post Falls and about 100 other businesses—support Jobs Plus, which operates on a modest budget of $200,000.

That, Potter said, is far less than what similar organizations in other areas work with.

"The county hasn't had to invest in to produce the millions of dollars that we've created in property tax. We feel that Jobs Plus is an investment and we can prove it because we've got the numbers."

Potter was born in Utah. He graduated from the University of Utah with a degree in political science.

For 35 years, he worked his way up the corporate ladder with the Bell system, AT&T, eventually becoming vice president of sales for the western region.

When Potter quit and moved to North Idaho and bought a home on Hayden Lake, the economy was struggling.

Community business leaders including Jacklin Land Company, then Washington Water Power, Dennis Wheeler from Coeur d'Alene Mines, and Duane Hagadone, at the time were in the midst of raising $1 million for a four-year program that would focus on expanding the area's economy and employment base.

After interviewing hundreds of candidates from across the nation, they found no one they believed right for the job.

Then, a headhunter suggested the person they were looking for was in their own back yard.

He was.

PAYING TRIBUTE TO TINA SANDOVAL

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. McINNIS. Mr. Speaker, I would like to take this opportunity to recognize a truly dedicated teacher from Pueblo, Colorado, Ms. Tina Sandoval. Tina has spent countless hours helping others understand and succeed in their academic endeavors at Pueblo Community College. She has gone far beyond what is expected in the classroom and touched the lives of many of her students in such a profound way that she was recently named Pueblo Community College Teacher of the Year.

Although Tina has always been passionate about teaching mathematics, her real love is working with people. Originally from Walsenburg, Colorado, Tina was drawn to teaching after seeing the impact teachers had on students' lives. Tina set out to obtain her education and went on to receive both her Bachelors and Masters Degree from Regis College. After a brief career in accounting, Tina found that she missed working with people and decided to become a teacher. Her dedication and commitment paid off and today she is responsible for touching the lives of many who have passed through her classroom.

Mr. Speaker, it is a great privilege to recognize Tina for her service to her community and especially to the students whose lives she has changed. The diligence and commitment demonstrated by Tina certainly deserve the recognition of this body of Congress, and this nation. Tina's achievements as a teacher serve as a symbol to other teachers throughout Colorado. The honor of the Teacher of the Year is proof that hard work and persistence can lead to success in achieving your goals. It is people like Tina Sandoval that ensure our future generations are guaranteed the opportunity to improve their lives through a quality education. Congratulations Tina, and thank you for all of your hard work!

COMMENDING THE DELIVERY OF MEDICINE AND ASSISTANCE TO AFGHANISTAN BY THE HUMANITARIAN ORGANIZATION—AMERICARES

HON. FRANK R. WOLF

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. WOLF. Mr. Speaker, last week, the humanitarian and relief organization, AmeriCares, delivered a cargo plane's worth of medicine and food to the very needy people of Afghanistan. Some 79,400 pounds of donated medical supplies and food was delivered for the sick and starving men, women and children in Afghanistan.

The supplies range from basic antibiotics, analgesics and bandages to nutritional supplements, flour and cooking oil.

So many have suffered in Afghanistan. A staggering number are dying or have contracted disease because of malnutrition. AmeriCares' shipment of food and medical supplies will help save thousands of lives.

Under the leadership of founder Bob Macauley, AmeriCares provides immediate response to emergency medical needs—and supports long-term health care programs—for all people around the world, irrespective of race, creed or political persuasion.

AmeriCares solicits donations of medicines, medical supplies and other relief materials from U.S. and international manufacturers and delivers them quickly and efficiently to indigenous health care and welfare professionals in 137 countries. Since its inception in 1982, AmeriCares has delivered more than $2.9 billion worth of life-saving supplies to those in need.

I commend the staff of AmeriCares for their hard work in bringing much needed food and medical supplies to the suffering people of Afghanistan.

CARE 21

HON. NICK J. RAHALL II

OF WEST VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. RAHALL. Mr. Speaker, today I am introducing legislation to restore our Nation's historic commitment to insuring lifetime health care for retired coal miners. Joining me in introducing this bill is the distinguished gentleman from Ohio, BOB NEY.

Enactment this year of CARE 21, the "Coal Accountability and Retired Employee Act for the 21st Century," is necessary if we are to avoid seeing a curtailment in health care coverage for thousands of retired coal miners and their widows. Indeed, this would not be the first time that Congress has acted in this matter. In 1992, in what is known as the "Coal Act" enacted as part of the Energy Policy Act, Congress established the UMWA Combined Benefit Fund (CBF) combining the union's 1950 and 1974 benefit plans. This action came in response to changes in the coal industry which created a large class of "orphaned" miners whose benefits were no longer being paid by an active coal company. A key feature of the Coal Act was the financing of orphaned miner health care costs through an annual transfer of a portion of the interest which accrues to the unappropriated balance in the Abandoned Mine Reclamation Fund.

Simply put, in restoring abandoned coal mine lands we must not abandon the retired coal miner.

The Coal Act was working well, health care for retirees whose former employers could be identified would be financed by premiums paid by those companies while providing for a transfer of reclamation fund interest to finance orphaned miner care.

However, a barrage of litigation and adverse court decisions once again is threatening the financial integrity of the program. Among them, what is known as the "Chater" decision which overturned the Social Security Administration's premium determination reducing premiums by 10 percent. Another court decision ordered the CBF to refund about $40 million in contributions. And the Supreme Court has rendered two especially harsh decisions; in the Eastern Enterprise case adding some 8,000 retirees to the orphaned miner rolls and just last week ruling that successor companies to signatories of the national wage agreement are not responsible to continue paying premiums for former employees. The result: Without a new source of funds, the CBF will face a cash shortage most likely beginning at the end of this year which could force curtailments in health care coverage for some 50,000 retirees and widows whose average age is 78.

CARE 21 takes a relatively simple and straightforward approach to addressing this impending crisis: It would lift the restriction in current law that reclamation fund interest can only be used for orphaned miner health care. Rather, it would allow AML interest transfers to be made for the purpose of offsetting any deficit in net assets in the CBF.

I would note that interest accrues to the Abandoned Mine Reclamation Fund at a rate of, for example, $103 million last fiscal year. Meanwhile, there is a $1.8 billion unappropriated balance in the Fund. CARE 21 in no way adversely affects the abandoned mine reclamation program. The principal remains intact for that effort, and is fueled by annual reclamation fees assessed on every ton of mined coal which finances the program.

As such, one of the key features of CARE 21 is that the general taxpayer is not being called upon to pay for retired coal miner health care, but rather, the coal industry itself would provide for this coverage through the interest which accrues to the fees it pays into the Abandoned Mine Reclamation Fund.

Mr. Speaker, I noted earlier there is a historical commitment to providing health care for retired coal miners. This is a unique situation in that what would normally be a matter solely for the private sector is not in this instance. The genesis for this situation dates back to 1946 in an agreement between then-UMW President John L. Lewis and the Federal Government to resolve a long-running labor dispute. At the time, President Truman had ordered the Interior Secretary to take possession of all bituminous coal mines in the country in an effort to break a United Mine Workers of America strike. Eventually, Lewis and Secretary Julius Krug reached an agreement that included an industry-wide, miner controlled health plan.

In fact, the 1992 Coal Act itself was formulated partly on the basis of recommendations from the Coal Commission, established by former Labor Secretary Libby Dole, which in 1990 recommended a statutory obligation to help finance the UMWA's Health Benefit Funds.

Mr. Speaker, the people covered by this health care program spent their careers producing the energy which powered this Nation to greatness. We must not forsake them. We must not cast them adrift in their later years, robbed of the health care they so desperately need.

THE RETIREMENT OF RIO RANCHO MAYOR JOHN JENNINGS

HON. TOM UDALL

OF NEW MEXICO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. UDALL of New Mexico. Mr. Speaker, we all know of those local elected leaders from our states who, because of their tenure in office, accomplishments, dedication, and hard work, seem to define the term 'public servant.' These are the ones who do not seek headlines, but whose satisfaction comes from doing good things for their communities. I know of no other leader who fits this definition and style of public service more aptly than Rio Rancho Mayor John Jennings. Mayor Jennings will be leaving his post in March, after an exciting term in the history of this special city. He deserves immense credit for the success and growth of New Mexico's fastest-growing city.

Mayor Jennings came to office in 1998 from a career in banking, serving Sunwest Bank for 23 years. He also served as a president of the Rio Rancho Chamber of Commerce. He used this experience to begin the demanding task of governing.

Mayor Jennings has served at a time of amazing expansion for the City of Vision. Building a city that can sustain such rapid growth has required patience, careful planning and effort, but those who live there feel they have finally created a community with its own identity, one that will continue to grow and thrive. Mayor Jennings has done a remarkable job in this regard.

A number of challenging issues face the City of Vision. Whether it be water, planning, revenue, or any issue that looms before our nation's mayors, John has capably acted on behalf of his city to address them. His leadership has been effective, and he leaves the city better than he found it.

As the U.S. Representative for the Third Congressional District, I hear from a number of the elected officials that I represent. However, Mayor Jennings has always made sure that I was aware of the matters that affected our dual constituents.

Mayor Jennings leaves office with a number of important accomplishments that will aid Rio Rancho for years to come. He fought to attract new industry to the city, which is critical to expanding the city's tax base. He worked on a number of transportation and infrastructure issues. He was also a major voice in the Vision 2020 Integrated Comprehensive Plan, which is a blueprint for dealing with growth-associated problems. In addition, Rio Rancho is the second safest city in New Mexico and has one of the best school systems.

However, I believe that the true legacy of Mayor Jennings is the emphasis he placed on the quality of life in Rio Rancho. He told a reporter once that he wanted children in Rio Rancho to have the same things he had growing up in Roswell: good libraries, free schooling, a safe environment. Therefore, many of his priorities were not surprising: adding park space and open space, correcting infrastructure deficiencies, such as adding sewer lines, repairing and upgrading roads, and adding to libraries; and maintaining the Department of Public Safety at its current level to keep its excellent safety record. Without a doubt, he has succeeded in many of these initiatives.

Mayor Jennings is from a family in New Mexico devoted to public service. From Rio Rancho to Roswell, the Jennings family has left a legacy of making government work for our citizens. His brother Tom is a former mayor of Roswell, and his brother Tim serves in the New Mexico State Senate. I am pleased that John has chosen to follow his family in this endeavor and he has done a remarkable job. More important than all of that is the indelible mark he continues to make on our minds as a man of true integrity, character, and kindness, a true gentleman who never speaks ill of a soul and one whose friendship is of the highest quality and value.

I hope that Mayor Jennings leaves his post with fond memories of his mayoral tenure and a sense of accomplishment for his efforts. Knowing John, upon his retirement, he is going to pursue endeavors that will be interesting and challenging; and no matter what he undertakes, I am sure that he will enjoy great success.

On behalf of Rio Rancho, the state of New Mexico, and this nation, I ask that my colleagues join me in thanking Mayor John Jennings for his service.

HONORING THE NORTHERN CALIFORNIA WATER ASSOCIATION'S TENTH ANNIVERSARY

HON. DOUG OSE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. OSE. Mr. Speaker, today, the Northern California Water Association is celebrating its tenth anniversary. Since 1992, NCWA has provided a strong regional voice on California water policy for Northern California's water suppliers, farmers, and landowners.

NCWA is a prominent and well-respected organization in Northern California water issues. The organization represents 70 agricultural water suppliers and individual farmers who rely upon the waters of the American, Feather, Sacramento, and Yuba Rivers, smaller tributaries and groundwater to irrigate over 870,000 acres of Northern California farmland, extending from the Coast Range to the Sierra Nevada foothills, and from Redding to Sacramento.

For the past 10 years, NCWA has been a leader in protecting Northern California water rights, developing the Sacramento Valley Water Management Agreement, promoting the construction of new surface water storage in Northern California including Sites Reservoir, protecting Northern California groundwater resources, developing and implementing constructive solutions to Bay-Delta water supply and environmental problems, and developing and constructing fish passage improvements including fish screens and siphons.

It has been my great honor and pleasure to represent this region and to work closely with NCWA to protect the region's water supplies. Again, I would like to congratulate NCWA as the organization celebrates 10 years representing Northern California water interests.

PERSONAL EXPLANATION

HON. E. CLAY SHAW, JR.

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. SHAW. Mr. Speaker, earlier this month, in the first week of February, I remained in Florida all week to attend to my wife, Emilie, who had to undergo surgery. I am pleased to report that she is doing well, and thank my colleagues for their expressions of kindness and support for her. While away from Washington on personal family medical leave, I was not present to record my vote on Roll Call Votes #6 through #14. I ask unanimous consent that the Congressional Record reflect, in the appropriate place, that had I been present, I would have voted "Yea" in each instance, for recorded votes number 6, 7, 8, 9, 10, 11, 12, 13, and 14.

IN HONOR OF JOSEPH A. WUTKOWSKI

HON. ROBERT MENENDEZ

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. MENENDEZ. Mr. Speaker, I rise today to honor Joseph A. Wutkowski, the youngest person in the history of the Borough of Carteret to place the Wreath of Honor at the Carteret Soldiers and Sailors Memorial in Carteret Park.

Joseph was recognized by the Carteret Veterans Alliance and the Senate and General Assembly of New Jersey as being a truly patriotic citizen and the youngest presenter of the Wreath of Honor at the Carteret Soldiers and Sailors Memorial. He was a special guest speaker in July of 2001 at the Rotary Club of Carteret, and was presented with an official Certificate of Appreciation. In addition, Joseph received a proclamation from Carteret Mayor Jim Failace, and was honored with a Joint Resolution from New Jersey State Senator Joseph Vitale, Assemblyman John Wisniewski, and Assemblywoman Arline Friscia.

Joseph is presently enrolled at Holy Family School in Carteret, New Jersey. He enjoys playing Basketball and Little League Baseball.

He is the son of Joseph and Bernadette Wutkowski.

Today, I ask my colleagues to join me in honoring Joseph A. Wutkowski for his patriotism, and for honoring America's veterans in Carteret, New Jersey, and veterans all across America.

APPALACHIAN REGIONAL DEVELOPMENT ACT AMENDMENTS OF 2002

SPEECH OF

HON. RON LEWIS

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 26, 2002

Mr. LEWIS of Kentucky. Mr. Speaker, I rise in support of this legislation to reauthorize the Appalachian Regional Commission. Since 1965, the ARC has fostered cooperation among the Federal Government; Governors of Appalachian States and local community leaders for economic development initiatives.

I am especially pleased the bill today adds Hart and Edmonson counties in my district to the Commission. Based on economic data, both of these counties fall into the ARC's distressed classification, the Commission's lowest economic status rank. I believe I can speak for these counties when I say they appreciate this opportunity for assistance in improving their economic situations.

This bill also changes the Commission's fund distribution, requiring half of its program funds to be directed to ARC's distressed counties. Distressed counties are the ones most in need of the extra development assistance ARC provides, and it only makes sense that we target a substantial portion of the project funds available to the areas most in need.

Membership in the ARC does not guarantee funds for local areas, but membership does give local development leaders an opportunity to apply for grants and make the case for their proposals to boost economic and social development.

I want to thank Chairman LATOURETTE for his support in adding these counties deserving of assistance to the Commission and for his support of economic development in Kentucky.

While I would have preferred that we were voting on the chairman's original legislation which included neighboring Metcalfe County in the Commission, I am pleased with this outcome. We passed that legislation in August. Unfortunately, the other body did not agree to our version of the legislation, and we had to make this compromise. I hope the committee will consider adding Metcalfe County to the Commission in the future, as this area is also economically deserving of aid.

I appreciate the work of Chairman LATOURETTE and Chairman YOUNG in this process, and I urge the House's support for this bill.

IN RECOGNITION OF HADASSAH'S 90TH ANNIVERSARY

HON. ADAM B. SCHIFF

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. SCHIFF. Mr. Speaker, I would like to take this opportunity to recognize the 90th anniversary of Hadassah, the Women's Zionist Organization of America. As the largest Jewish membership organization in the United States, Hadassah exemplifies the true spirit of voluntarism.

Founded in 1912 by Henrietta Szold, a Jewish scholar and activist, Hadassah is committed to unifying Jewish people throughout the world. Its mitzvot, or good deeds, are felt at home in America and abroad in the land of Israel.

In Israel, Hadassah funds and maintains two hospitals and 90 outpatient clinics that treat 600,000 patients each year regardless of ethnicity or religious background. Hadassah also supports four other major organizations in Israel and the United States. The Hadassah Israel Education Services group provides cutting-edge technical and vocational training for Israeli citizens, while the Youth Aliyah program provides education and support to immigrant youth. The Young Judea program builds connections between American teenagers and Israel through student exchange partnerships and the Jewish National Fund works to preserve Israel's natural resources by constructing parks and planting trees.

The impact of Hadassah can also be felt throughout the United States. The organization is represented in every congressional district and members work with political leaders on matters ranging from U.S.-Israel relations to women's health and equality issues. Hadassah volunteers are active in community service projects, educational initiatives, and programs benefitting women and their families.

In my district of California, there are over 250 Hadassah members and six active chapters. These chapters have raised over $5 million for the Hadassah Hospital and educational programs in Israel.

On this, its 90th anniversary, I salute Hadassah's efforts to promote education, welfare, and women's rights, that have helped preserve strong cultural ties with Israel.

PERSONAL EXPLANATION

HON. DAVID D. PHELPS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. PHELPS. Mr. Speaker, on rollcall No. 39 and No. 40, had I been present, I would have voted yes. Unfortunately, I was unable to attend the vote due to circumstances at home. Several Illinois steelworkers may lose their jobs due to the closing of a few large plants, and I felt the need to show my support for these workers and their families.

ARC OF MERCER COUNTY

HON. PHIL ENGLISH

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. ENGLISH. Mr. Speaker, Norman Vincent Peale—a pastor and a motivational speaker—said "Change your thoughts and you change your world."

Fifty years ago, more than 20 residents of Mercer County, many of them parents of developmentally disabled children, recognized a need in their community. The area lacked much needed education programs that addressed the special needs of their children.. This included not only basic education but also the development of job and social skills. With that focus, they established what has evolved into the Arc of Mercer County.

Remember, this was a time when mental retardation was often misunderstood by society. Those who were developmentally disabled were quickly committed to asylums. It was believed that they could contribute nothing to the community. But, these Mercer County residents knew otherwise. They knew these precious individuals could enrich people's lives if they could find a way to integrate them into society. So with hope, optimism and faith, they actively sought donations of space, time and money to establish a program where children and adults with mental retardation could learn to support themselves, learn social skills and attend classes designed to meet their special needs.

These 20 families, through their actions and deeds, changed the way we view mental retardation forever, not only in their own community but worldwide. We now know that being developmentally disabled is not an end-all, they play a vital role in our economy while gaining independence for themselves.

MCAR has grown from a small patchwork organization who once borrowed classroom space from the Salvation Army and the American Legion to a powerhouse agency providing services to more than 500 individuals with mental retardation. Their services have expanded to include vocational training, residential services, employment services and recreation and socialization programming. MCAR owns 17 group homes, a campus of education facilities in Hermitage as well as a Mechenbier workshop in Greenville.

For 50 years, MCAR has given some very special people in the community the opportunity to stand on their own two feet. With their various programs, they are building new and better bridges, ensuring everyone has the opportunity to live a full and productive life. I applaud the founding officers—Mrs. Peter Jarocki, Mrs. Frank Machuga, Mrs. Royal DeWeese, and Mrs. David Cooke—for working with the community to develop a program that would blossom and bloom into an agency that helps so many. Under the leadership and inspiration of current CEO Bob Beech and his board, the vision of these families has only flourished.

Mr. Speaker, those with developmental disabilities and their families face a lifetime of challenges. MCAR has provided the tools necessary to ensure that those challenges are met. I would like to congratulate the founding families and everyone at MCAR—past and present. Your hands and hearts have left a positive imprint on so many lives, mine included. Last but not least, I would like to congratulate the clients of MCAR. You have come so far. Your contributions to our local community are felt in so many ways and our lives are enriched by knowing all of you. You have truly made Mercer County a better place to live.

PAYING TRIBUTE TO RUSS SODERQUIST

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

Mr. McINNIS. Mr. Speaker, I would like to take this opportunity to congratulate a Lions Club member from Grand Junction, Colorado whose hard work and dedication has been rewarded with the highest honor given to any Lions Club member. Russ Soderquist was recently awarded the Melvin Jones Fellowship, and as he celebrates his achievement, I would like to commend him for his commitment to excellence that has resulted in this honor. He is certainly a well deserving recipient of this Fellowship and I am pleased to represent him and his chapter of the Lions Club in Colorado.

Russ has served as a member of the Grand Junction chapter of the Lions Club since 1969. Throughout the years, Russ has become famous for his writing on a variety of issues and subjects, drafting letters with concerns and comments to the President of the Lions Club and his fellow citizens. What set Russ apart is that not only is he active in raising concerns to the attention of others, but he also proposes actual solutions. In addition to his letters, Russ also writes numerous articles, several of which have appeared in the Lions Club international magazine. Russ is well known throughout his community as a compassionate man who is dedicated to his community and improving the lives of others. He always conducts himself with sincerity and honesty, both in his letters and in his everyday life.

Mr. Speaker, the diligence and commitment demonstrated by Russ Soderquist certainly deserves the recognition of this body of Congress, and this nation. Russ' achievement serves as a symbol to community members throughout Colorado, and indeed the entire nation. The Melvin Jones Fellowship is an incredible honor that has been awarded to a well deserving recipient. Congratulations Russ, and thank you for all of your hard work!

JOSEPH ORSULAK HONORED ON OCCASION OF RETIREMENT

HON. PAUL E. KANJORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. KANJORSKI. Mr. Speaker, I rise today to call the attention of the House of Representatives to the long public service of my good friend Joseph P. Orsulak of Lansford, Pennsylvania, who will be honored with a retirement dinner on March 2, 2002.

Joe began his political career working for the late Congressman Francis "Tad" Walter of Easton in Washington, D.C., as an assistant publication officer. In 1971, he was appointed as Carbon County's chief clerk and served several county commissioners in that capacity over the next 20 years. During his terms as chief clerk, the commissioners entrusted him with additional responsibilities and named him the country's fiscal director to coordinate all fiscal and budgeting affairs of the country government.

During his service as country chief clerk, the state Association of County Commissioners asked him to serve on a state committee to create an instructional booklet on the duties and responsibilities of a county chief clerk. He accepted the challenge and contributed many administrative ideas to improve the way chief clerks do their jobs.

In 1993, Joe was elected to the first of two full terms as Carbon County treasurer. During his first term as treasurer, he installed a new computer system and upgraded the software to conform with the various changes in the hunting, fishing, and dog license regulations.

One of his primary duties as treasurer was serving on the Carbon County Employees Retirement Board. In his capacity as a fiduciary member of the board beginning in 1994 with a portfolio worth $20 million, he set a goal of reaching $50 million during his term of office, and this goal was reached in 2000. Joe was also instrumental in having the Retirement Board to evaluate its investment policies and strategies by engaging the services of a second investment manager to diversify the employee pension fund portfolio.

He served on the legislative and nominating committees of the Pennsylvania State Association of County Treasurers, and hosted two state conventions in Carbon County. He was also a member of the Pennsylvania Finance Officers Association.

In December 2000, Joe was appointed to the Pennsylvania State Association of Elected County Officials to represent all treasurers in Pennsylvania. In this capacity, he met monthly with state legislators on the Local Government Commission in Harrisburg to discuss legislation pending in the state House of Representatives and state Senate.

Mr. Speaker, Joe also dedicated himself to serving his neighbors outside of his official capacity. He was active in the former Panther Valley Jaycees, serving as an officer on a local, regional and state level. He concluded his tenure in the Jaycees organization as a Pennsylvania state vice president and state chairman of a program called "Operation We Care" accepting the portfolio of the "Apple Butter Sunday" program. He coordinated the statewide program where Jaycee chapters raised funds for the mentally disadvantaged children of Pennsylvania. In two weeks the organization raised over $400,000, and the funds were used to send children to summer camps to enjoy the fruits of recreation.

Also in his activities with the Jaycees, Joe had a major role in creating a "Leadership in Action" committee, and traveled throughout the region instructing Jayee chapters in leadership skills and the importance of the use of the rules of parliamentary procedures in public meetings.

Joe is a member of St. Michael's Roman Catholic Church and a graduate of the former Lansford High School. A lifetime Democrat, he has served on the Carbon County Democratic Executive Committee and as a member of various Democratic clubs in the county.

Mr. Speaker, I am pleased to call to the attention of the House of Representatives to the long public service of Joseph P. Orsulak, and I wish him a happy retirement.

TRIBUTE TO BOB CALLEGARI

HON. ROBERT A. BORSKI

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. BORSKI. Mr. Speaker, I rise to commend a devoted public servant, Bob Callegari, who is retiring following 31 years of dedicated service with the U.S. Army Corps of Engineers. Bob and I have worked together in Philadelphia to advance many waterway projects and I am confident these projects will benefit the entire region for many years to come, serving as a legacy to the Army Corps, and the man responsible for their implementation.

Bob Callegari began his career in 1971, with the North Atlantic Division, U.S. Army Corps of Engineers. He served initially as an economist on the North Atlantic Regional Water Resources Study, and from 1972 to 1976 as the Chief of the New York Metro Study Section of the North East Water Supply Study, which resulted in the authorization, by Congress, of a $3.2 billion water supply project.

From 1977 through 1987, Mr. Callegari served in the Passaic River Study Branch, New York District, as Technical Coordinator, Acting Branch Chief and Branch Chief. During his tenure, Mr. Callegari led the development of the largest Phase I General Design Memorandum at that time, a $21 million effort. Additional projects totaling $1.5 billion were authorized, including a flood warning system. As a result, Mr. Callegari's organization was the recipient of numerous awards for outstanding performance.

Bob Calllegari came to the Philadelphia District as Chief of the newly organized Planning Division in 1987. At that time, the Philadelphia District had only five active planning studies and one project authorized for construction. Recognizing the needs of the region and the Corps unique capability in flood control, Bob effectively outreached to potential customers and partners generating widespread congressional support. His efforts resulted in an impressive increase in construction or planning projects.

Mr. Speaker, as a member of the House Transportation and Infrastructure committee and in my previous role as ranking member of the Subcommittee on Water Resources and Development, I have worked closely with Mr. Callegari to advance projects crucial to improving and protecting the Philadelphia waterways. He believes, as I do, that we must enhance, preserve and protect our waterways, improving our environment in the process.

With congressional support, and Mr. Callegari's leadership, we have successfully reconstructed a seawall at the historic Glen Foerd on the Delaware and made needed waterway improvements at Pennypack Creek and Philadephia's famed Boathouse Row. The Delaware River channel deepening project is now in its first construction phase. We have established a pilot program for water-related "browhfields" environmental cleanup at the East Central Incinerator so that abandoned industrial sites can be cleaned for waterfront reuse and redevelopment.

Mr. Speaker, these projects would not have occurred without the persistence and passion of Mr. Callegari's diversified planning program which includes environmental restoration, beneficial use of dredged material projects and effective use of the Corps' Continuing Authorities Program to address the needs of the region. His leadership has earned him the distinctive deFleury Bronze Medal, a well-deserved honor.

I am proud to have worked with Bob in sharing a vision of maintaining and improving our waterways. As he seeks new professional challenges, I am confident that his distinguished career with the U.S. Army Corps of Engineers will benefit all citizens.

THE BAY CITY LION'S CLUB: KINGS OF GIVING FOR 80 YEARS

HON. JAMES A. BARCIA

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. BARCIA. Mr. Speaker, I rise today to pay tribute to the Lions Club of Bay City, Michigan, as its members prepare to celebrate 80 years of outstanding community service, charitable giving and remarkable volunteer efforts.

Chartered on December 8, 1921, the Bay City Lions Club was founded by 35 civic-minded local men who were determined to expand their passion for doing good by giving back to the entire community and beyond. Today, the Bay City chapter, with 235 members, ranks as the largest Lions Club in the state of Michigan; the fifth largest in the entire United States; and, the 15th largest in the world. Under the leadership of Club President Joseph Gwizdala and all officers past and present, members have consistently lives up to their club motto. "We Serve," by actively addressing the needs of our community in large and small measures.

It is especially noteworthy that the Lions Club never uses any of the money collected from the public to defray administrative costs. Instead, they use all the money they collect to help those in need, with 75 percent of their annual budget used to help local families and individuals and 25 percent going to statewide projects.

The Lions are widely known for their mission to provide glasses and hearing aids to the needy, but the Bay City Lions Club has gone above and beyond the call of duty in that regard and in many more endeavors as well. One particularly praiseworthy example was when they purchased a glaucoma testing machine for the Bay County Health Department. The club also annually sponsors many events and activities, including a health fair, holiday celebrations for disadvantaged children, Little League teams, and a host of other projects. They also provide scholarships to students from area high schools and adult education programs.

The Bay City Lions Club serves as a shining example of community-minded selflessness by putting the needs of others ahead of personal or financial regard. The many volunteers who give their time and talents to the Lions Club have set a high standard when it comes to serving the greater community.

Mr. Speaker, I ask my colleagues to join me in applauding the Bay City Lions Club for their significant contributions and in congratulating them for 80 years of success. I am confident they will continue to make Bay City proud.

BILL TO ESTABLISH OFFICE OF CORRECTIONAL HEALTH

HON. TED STRICKLAND

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. STRICKLAND. Mr. Speaker, I would encourage my colleagues to support HR 2422, legislation I have introduced that would establish an Office of Correctional Health within the Department of Health and Human Services.

According to the Department of Justice (DOJ), the United States is second only to Russia among industrialized nations in incarceration rates with nearly 2 million people in jail or prison. The fuel that feeds this prison population explosion is comprised of several components. Mandatory minimum and "three-strikes" sentencing laws have resulted in longer sentences and more frequent incarcerations. A look at the changing demographics in American prisons and jails sheds light on the challenges correctional facilities face at the beginning of the 21st century.

Substance abuse poses a significant health care challenge for correctional facilities. According to DOJ, 57 percent of state prisoners and 45 percent of federal prisoners surveyed in 1997 said they had used drugs in the month before their offense. A whopping 83 percent of state prisoners and 73 percent of federal prisoners had used drugs at some time in the past. It is estimated that about three-quarters of all inmates can be characterized as being involved in alcohol or drug abuse in the time leading to their arrest.

According to an article in the Washington Post entitled, "Mentally Ill Need Care, Find Prison", it is estimated that the number of inmates with serious mental illnesses in American prisons and jails is nearly 5 times the number of mentally ill in state mental hospitals. So many of these inmates with mental health needs also have a co-occurring substance abuse problem. This high incarceration rate of the mentally ill, many of whom have substance abuse problems, poses an enormous challenge to the correctional health care system. In the first comprehensive report on mental illness in correctional facilities, the Bureau of Justice Statistics (BJS) found that 7 percent of federal inmates and 16 percent of those in state prisons or local jails or on probation said they either had a mental condition or had stayed over night in a mental hospital unit or treatment program. The highest rate of mental illness was among white females in state prisons at 29 percent. For white females age 24 or younger this level rose to almost 40 percent. When compared to other inmates, mentally ill inmates and probationers reported higher rates of prior physical and sexual abuse. According to BJS, nearly 6 in 10 mentally ill offenders reported they were under the influence of alcohol and drugs at the time of their current offense.

The increased incarceration rate of women also presents new health care challenges to correctional facilities. According to BJS, in 1998 an estimated 950,000 women were under custody, care or control of correctional agencies. Nearly 6 in 10 women in state prisons had experienced physical or sexual abuse in the past. This statistic, coupled with the reality that 7 in 10 women under correctional sanction have minor children, points to the acute need for counseling services. Women inmates utilize health care, including sexually transmitted diseases, and the possibility of pregnancy either upon entry into the corrections system or during, women's special health care needs must be addressed in a comprehensive fashion.

The health care needs of inmates have expanded as the incarcerated population has aged. As inmates grow old in prison they succumb to the same ailments which afflict the elderly in the outside world—diabetes, heart disease and stroke. These geriatric health care needs represent another challenge to correctional agencies in providing adequate care.

In 1996, the Centers for Disease Control and Prevention's National Center for HIV, STD, and TB Prevention formed an ad hoc working group, the Cross Centers Correctional Work Group made up of health professionals from across CDC. The purpose of the group is to focus attention on the complex health needs of incarcerated men, women, and youth in the United States. I commend the work of this group and the fine efforts of CDC in addressing the very complex health issues associated with correctional facilities.

According to CDC, the prevalence of infectious disease is high among inmates. For AIDS, the prevalence is five times that of the general population. Further, inmates coming into correctional facilities are increasingly at risk for HIV infection through risk behaviors such as needle sharing and unprotected sex. Tuberculosis is another important public health issue in prisons and jails according to CDC. TB infection rates are substantially higher among inmates; estimates are anywhere from four to 17 times higher because conditions associated with TB (poverty, drug use, HIV infection, etc.) are more common in the incarcerated population than the general US population. According to CDC, even as we have decreased the number of TB cases overall, it has become a much more focused disease, with outbreaks of TB in correctional facilities starting to count as a major factor in its spread. For Hepatitis C, the prevalence among inmates is nine times higher than that of the general population.

Jails, where inmates are held awaiting trial or serve short sentences of two years or less, represent the "front lines" of correctional health care. Many inmates lacked good access to health care services before their incarceration and are therefore more likely to come to jails and prisons with chronic illnesses and infectious diseases. Rates of infectious disease are known to be higher among inmates than in the general population. This high incidence of infectious disease among inmates threatens the health and lives of thousands of dedicated corrections officers and staff members who work in prisons and jails across America.

Most inmates are released after they've served their time; without treatment, these infected inmates threaten the public health of the community upon release. Every year there are approximately 12 million inmates released into the community. We need to recognize the real opportunity for treatment and prevention services in treating the high-risk corrections population as well as the clear public health implications for the community at large.

All of these alarming statistics contribute to the need for the establishment of an Office of Correctional Health within HHS. Such an office would coordinate all correctional health programs within HHS; provide technical support to State and local correctional agencies on correctional health; cooperate with other Federal agencies carrying out correctional health programs to ensure coordination; provide outreach to State directors of correctional health and providers; and facilitate the exchange of information regarding correctional health activities.

Mr. Speaker, with a growing diverse and medically complex population in America's prisons and jails, we must ensure that inmates are provided the health care they need, that staff members operate in a safe working environment, and as a result, that public safety is enhanced.

CELEBRATING 100 YEARS OF JARRETT STATIONARY

HON. HOWARD COBLE

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. COBLE. Mr. Speaker, on Friday, March 1, 2002, one of the most respected family-owned businesses in High Point, North Carolina, will celebrate its 100th birthday. On behalf of the citizens of the Sixth District of North Carolina, we wish to congratulate Jarrett Stationary on its first century of existence.

"We don't know the exact date when Gene Jarrett started the business, but it was in February 1902," David Wall, the store's president told the High Point Enterprise. Wall, a third-generation owner and a High Point City Councilman, told the newspaper, "I figured holding the celebration on March 1 would help us cover the date properly. Ever since we got to 95 years, it seems like it's taken forever to get to 100 years, so I'm both proud and relieved that this time has finally come."

Because small businesses are the lifeblood of our economy, Mr. Wall, all of us are proud that Jarrett Stationary has succeeded for 100 years. Jarrett Stationary is the 16th oldest business entity in High Point according to the local Chamber of Commerce. Jarrett Stationary has had a rich and colorful history during its century in business.

There have only been three presidents during its 100-year existence. Gene Jarrett ran the company for approximately 45 years. Thurman Wall, Jarrett's son-in-law, served as president before his son, David, assumed the role in 1981. The company also served as a bookstore during its first 40 years before concentrating on office supplies after World War II.

It has been at its downtown North Wrenn Street location since 1929. Despite the glut of national office supply chains, and that many other small businesses have abandoned the downtown retail core, Jarrett Stationary has stayed and thrived. The future looks equally bright for Jarrett Stationary.

In fact, the very name of the company has come up for discussion in the past. Though a Wall family member has run the business longer than a Jarrett, David Wall said there was never any real consideration to abandon the company name. "Both my father and I thought about all those years that the good name of Jarrett Stationary has been built up in this city," Wall told the High Point Enteprise. "In retail especially, if you have that, that's like money in the bank, so why change?"

We concur that Jarrett Stationary should not change. It should continue to serve the people of High Point the same way it has for 100 years. On behalf of the citizens of the Sixth District of North Carolina, we congratulate Jarrett Stationary on its centennial celebration, and we offer our best wishes for the future.

WELCOMING MEMBERS OF THE AMERICAN BURN ASSOCIATION

HON. J.C. WATTS, JR.

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. WATTS of Oklahoma. Mr. Speaker, I would like to take this opportunity to welcome to Washington the members of the American Burn Association ("ABA"). The ABA and its over 3,500 members devote their time and resources to promoting and supporting burn-related research, education, care, rehabilitation and prevention. The membership consists of physicians, nurses, occupational and physical therapists, researchers, social workers, firefighters and hospital burn centers.

Many of you may be surprised to learn that there are over one million burn injuries in the United States each year and over 4,500 burn deaths. There are over 700,000 emergency room visits each year for burn-related injuries and over 45,000 hospitalizations. Because burn care is so complex and highly specialized, over half of all hospitalizations are to the nation's 139 specialized burn centers.

Burn injuries are among the most painful and horrific injuries that one can suffer. Even in ordinary times, we would owe a debt of gratitude to these dedicated and highly trained professionals and their institutions for treating and saving thousands of burn victims each year. September 11th brought about an even more profound appreciation of the work done by these burn professionals.

Immediately after the two planes plunged into the World Trade Center and a third plane crashed into the Pentagon, burn center hospitals and medical personnel responded. According to the CDC, about one third of all patients hospitalized in New York after September 11th were burn victims. These victims suffered from 35–75 percent total body burns. Many were in critical condition, some dying, others facing a long road to recovery with several reconstructive surgeries required to repair the damage. Similarly, in Washington Hospital Center.

As bad as this situation was, the medical community prepared for even greater horror. The ABA immediately alerted the 139 U.S. burn centers and began an assessment of the maximum burn bed availability for possible victims. By early afternoon on September 11th, the ABA had identified 1,500 available burn beds for potential victims and communicated specific information regarding this situation to relevant federal agencies.

The ABA also reached out to the Office of Emergency Preparedness, which manages the National Disaster Medical System ("NDMS"). NDMS is a partnership between FEMA, HHS and other federal agencies and private organizations that can provide emergency medical and support care during a disaster. Burn doctors formed Burn Specialty Teams under NDMS' auspices to ensure that all victims received the best care possible.

One story that deserves particular mention relates to the ABA's role regarding providing allograft that is critically important in burn treatment. There was simply not enough allograft available in Washington after the Pentagon attack. The Washington Hospital Center contacted a Dallas skin bank, which had 70 square feet of skin available to send to Washington. The problem was that all air transportation had been grounded. Despite these obstacles, the skin was packed in a truck and two young men drove from Dallas to Washington, arriving late afternoon on September 12th. Lives were saved as a result of this heroic effort.

We know from incidents dating back to Oklahoma City up to the World Trade Center and the Pentagon that disasters can strike at any time. If we are to respond to such disasters, we must strengthen the nation's National Disaster Medical System, including fully integrating the nation's burn centers into any disaster preparedness plans. Burn care is unique and requires a cadre of multi-disciplinary professionals to ensure a favorable outcome from these horrific injuries.

Mr. Speaker, we thank the dedicated medical professionals of the American Burn Association for what they do every day and, most especially what they did to treat the victims of September 11th.

RECOGNIZING OLYMPIC SILVER MEDAL WINNER LEA ANN PARSLEY

HON. PATRICK J. TIBERI

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. TIBERI. Mr. Speaker, countless Americans are proud of Olympic medalist Lea Ann Parsley, but none more so than her friends and neighbors in central Ohio.

America knows Lea Ann as the athlete who sped to a silver medal in the first-ever women's skeleton event at the Salt Lake City winter games. But her friends in central Ohio know her as much more than that. She's a full-time firefighter at the plain township fire department in Franklin County and a volunteer firefighter in her hometown of Granville. And she's completing her work at the Ohio State University on a doctorate in community health nursing.

No wonder that Granville assistant fire chief Stan Nicodem said that Lea Ann "embodies not only the ideals of the Olympics, but the ideals of volunteerism and of firefighting. This just highlights that she's a very special person."

So special, in fact, that she was selected as one of the athletes to carry the American flag that had flown over the world trade center in the opening Olympic ceremonies. She persevered to win her silver medal despite an injured hamstring.

If boys and girls across our country are looking for a role model, all they need to do is look to central Ohio and Lea Ann Parsley. She's a true champion, both in the Olympics and in life.

BATTERED IMMIGRANT FAMILY RELIEF ACT

HON. JANICE D. SCHAKOWSKY

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Ms. SCHAKOWSKY. Mr. Speaker, today I am introducing the Battered Immigrant Family Relief Act.

Violence against women is a profound and extremely pervasive problem, striking across economic, cultural and ethnic backgrounds, and across all age groups. It is an epidemic that affects not only women, but children and families as well.

We, in Congress, should be proud that we were able to reauthorize the Violence Against Women Act last session. I was particularly pleased with the inclusion of critical provisions of relief to battered immigrant women that came from my bill, H.R. 3083, the Battered Immigrant Women Protection Act. However, there are still important groups that were left out of last year's negotiations. That is why this legislation is so critical.

There are still battered immigrants, like asylees and the elderly, who are forced to remain in abusive relationships, unable to appeal for protection from law enforcement and the courts for fear of deportation. The Battered Immigrant Family Relief Act will allow them to safely escape their abusers without fear of deportation or other negative immigration consequences. This legislation would also provide a safety net for battered legal immigrants and their children by allowing them access to health insurance, food, and other benefits required to escape their abuser and gain economic self-sufficiency. We can no longer allow immigration status to be used as a tool of control in abusive situations.

I urge my colleagues to support this effort and this bill. While there is still even one women out there who endures violence, our work will not be complete.

RECOGNIZING PEACE CORPS DAY 2002

HON. SAM FARR

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. FARR of California. Mr. Speaker, I would like to bring to your attention that tomorrow, Friday, March 1, 2002, is Peace Corps Day. Tomorrow throughout the country, former volunteers will bring their experiences to work, school, places of worship and recreation. They will share with their colleagues, friends and community members the story of their years as volunteers and how it changed and shaped their lives. Since 1961, more than 163,000 volunteers have served in 135 countries and, in so doing, have served their country and the cause of peace and friendship across the globe.

This year, former volunteers will also be carrying with them the message of the President of the United States—that the Peace Corps is more important and relevant in the world today than it has ever been. I applaud the President's initiative to double the number of Peace Corps volunteers to 14,000 by the year 2007, and to bring Americans to parts of the globe where volunteers have yet to serve—parts of the globe that Americans need to know more about, and which need to know more about Americans.

Of course, Mr. Speaker, every day is Peace Corps day for me. My experience as a volunteer in Colombia is one that I draw upon and share with everyone I meet. Tomorrow will be no different.

I urge all Members of Congress, whether they were volunteers or not, to honor the Peace Corps tomorrow, and to share the spirit of volunteerism and international peace with everyone they come in contact with that day.

REPORT ON NATIONAL PUBLIC RADIO

HON. MARK E. SOUDER

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. SOUDER. Mr. Speaker, I am appalled by a recent report on National Public Radio linking the Traditional Values Coalition with the Anthrax letters that were sent to Senators TOM DASCHLE and PATRICK LEAHY. I am outraged by this biased and unsubstantiated attack.

I have personally known the leadership of the Traditional Values Coalition for many years. Even if I was not personally acquainted with members of TVC, I would still find this type of malicious and biased reporting completely outrageous.

NPR linked an organization that represents 43,000 churches across the nation to criminal activity with absolutely no evidence or fact. As the basis for their accusation, NPR cited a press release that TVC issued criticizing Senators DASCHLE and LEAHY for a policy that they disagreed with. If a policy disagreement is enough to speculate on a taxpayer-funded national radio program that a group has tried to murder members of Congress, then the list of suspects for this unspeakable crime would take NPR days to report. Instead NPR chose to mention only TVC in connection to the Anthrax with absolutely no evidence linking them to the crime. This is slander, and NPR should be held accountable for such blatantly biased reporting.

TRIBUTE TO CARLOS J. BADGER

HON. GARY A. CONDIT

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. CONDIT. Mr. Speaker, I rise today to honor Carlos J. Badger on the occasion of his 100th birthday and to honor him for a lifetime of service and community leadership.

Carlos J. Badger has had a distinguished career as a lawyer and he is currently the oldest practicing attorney in Stanislaus County, California. His legal career started after he graduated from Stanford University Law School. He argued his first case before the United States Supreme Court in 1949. His love for the law and concern for his clients keeps him still practicing today.

Carlos J. Badger also distinguished himself as a graduate of the United States Naval Academy. He was a classmate with Admiral Hyman Rickover when he graduated in 1922. He served honorably until he was forced to leave the Navy due to tuberculosis. He reenlisted during World War II and passed the California Bar while in the service. He is the oldest living veteran in Stanislaus County that served in both World Wars.

Mr. Speaker, it is indeed and honor and privilege to honor Carlos J. Badger for his service to our country and his dedication to the people of Stanislaus County. He is a shining example of professionalism in the legal profession. His selfless acts and professionalism reflect great credit upon himself.

I ask my colleagues in the House of Representatives to rise and join me in honoring Mr. Carlos J. Badger.

RECOGNIZING RUTH SWIGGETT'S LIFELONG COMMUNITY SERVICE TO EL SERENO

HON. HILDA L. SOLIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Ms. SOLIS. Mr. Speaker, I rise today to recognize and extend birthday wishes to an inspirational African-American woman from my district who has demonstrated a life long commitment to the community of El Sereno. For several decades, Ruth Swiggett has been a pillar in one of the most diverse communities in my district. The life of Ruth Swiggett takes on monumental significance as we will be celebrating her 99th birthday on Friday.

Ruth Swiggett has worn many hats in her lifetime—wife, mother, and community activist. She is the co-founder of the El Sereno Coordinating Council and has also served as advisor and president of the El Sereno Seniors. She has also been heavily involved with the El Sereno Youth Center, a community-based organization that fosters an educational enriched program and provides an after-school literacy based technology center for the children of the surrounding school community. As a proud Benefactor of the El Sereno Youth Center, Ruth has always worked tirelessly to help raise funds and coordinate supplementary educational resources for this important youth center.

Our nation is always in search of positive and meaningful role models to enrich our lives and foster innovative approaches that embrace positive character and virtue. One need not look any further than the community of El Sereno—for there is a sweet, caring woman who continues to make monthly visits to the El Sereno Youth Center where she celebrates every holiday with the children from the neighborhood who love and respect her.

I am privileged to have befriended Ruth Swiggett and am proud to speak of this renowned woman who has taught us all the significance of humanism and social justice.

CONGRATULATING SPECIAL AGENT TIMOTHY LATTERNER

HON. MARGE ROUKEMA

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mrs. ROUKEMA. Mr. Speaker, I rise today to recognize and congratulate Special Agent Timothy Latterner, resident of Allendale, New Jersey, and decorated member of the Federal Bureau of Investigation, for his dedication to protecting our country. Later today, the Mayor and Council of the Borough of Allendale will pay tribute to Special Agent Latterner for his outstanding service to our country and the people of New Jersey. On this day, he will also be honored for his heroism and success in ending the trail of violence of one of the FBI's most wanted fugitives. As stories and reports from this dramatic event become known, we can understand the gravity of the situation as well as the outstanding skill of Special Agent Latterner as he protected the lives of innocent citizens. A leader of the men and women who bravely defend the citizens of this country, Special Agent Latterner is truly a hero of Allendale, of New Jersey, and of the country.

Special Agent Latterner's career in law enforcement is certainly impressive. Aside from serving in the Military Police in our Nation's army, he has been active as a Patrolman of the Borough of Allendale Police Department as well as the city of Fort Lee Police Department. Special Agent Latterner has always found the time and energy to participate in every aspect of his community. While serving in the Allendale and Fort Lee Police Departments, he also was a Drug Abuse Resistance Education (DARE) instructor to local youth. Almost seven years ago, he began a career with the Federal Bureau of Investigation and today serves in New York City as a member of the FBI's Fugitive Task Force and SWAT team.

The awards and honors Special Agent Latterner has received are tremendous, and quite outstanding. To list only a few: he has received the Armed Forces Expeditionary Medal for Combat in Panama, Medal of Valor from the New York City Police Department, the Heroism Award from the New York Fraternal Police Order, and named Investigator of the Year by the Federal Law Enforcement Foundation. Most recently, his name was submitted for the FBI Medal of Valor for heroic actions.

One of Special Agent Latterner's most remarkable moments will be honored in Allendale today. His dedication to his career and the pursuit of justice brought him to Atlantic City on May 11, 2001. With a lead on a notorious and deadly fugitive wanted nationwide, Special Agent Latterner and two other law enforcement officials pursued the man successfully to a casino. Witnesses said that the scene was right out of the movies. For Special Agent Latterner, it was the final step in a chase across States for a man the FBI named in its most wanted. The fugitive was wanted for murder, sexual assault, kidnapping and armed robbery. In a crowded chaotic room, Special Agent Latterner was able to successfully subdue this armed and dangerous man and prevent injury to the other law officials or the public. I do not doubt that Special Agent Latterner spared the lives of his partners and witnesses as he apprehended the dangerous criminal. This heroism and professionalism deserves our utmost respect and appreciation.

I am honored to have such a man residing in the 5th District of New Jersey, and serving our country. Mr. Speaker, I urge my colleagues to join me in commending Special Agent Latterner for his actions that heroic day in Atlantic City, and for his outstanding career in enforcing our country's laws and defending our citizens. I wish him all the best for the rest of his remarkable career.

HONORING THE GOOD HOPE MISSIONARY BAPTIST CHURCH

HON. KEN BENTSEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. BENTSEN. Mr. Speaker, I rise to congratulate the congregation of the Good Hope Missionary Baptist Church at 3015 North MacGregor Way in Houston, Texas, as they observe the church's 130th anniversary on March 23–24, 2002. The church's long history of providing spiritual nourishment and community service will be celebrated with a music workshop, luncheon and two Sunday services.

The Good Hope Missionary Baptist Church was founded in 1872, nine years after President Lincoln signed the Emancipation Proclamation. The former slaves began to exercise their hard won freedom to worship God after having been prohibited from congregating in large numbers and from holding services. The church was first located on Valentine Street in the Freedman Town area of Fourth Ward, eventually moving to a larger facility on the corner of Wilson and Saulnier Streets which was later damaged by fire. In 1933 the congregation moved into its first modern structure. Then on March 22, 1981, the church moved to its current central location to better service the needs of its membership.

Six Pastors have served as leaders of Good Hope over the last 130 years. The church was established under the leadership of Reverend Samuel Grantham, known as Father Grantham, and he continued in his role as church leader until he passed away in 1891. The second pastor, Reverend C.H. Hunt served from 1893 until his death in 1921; the third pastor, Reverend Henry C. Cashaw served from 1922 until his death in 1934; the fourth pastor, Reverend Albert A. Lucas served till his death in the pulpit in 1963; the fifth pastor, Reverend Crawford W. Kimble was elected and served from 1964 until his retirement in January 1994; and the sixth and current pastor, Reverend D.Z. Cofield has served as Senior Pastor since March 1994.

Today, the membership is one of the largest African American congregations in Houston. A few of the ministries are Christian Education, counseling, Wellness, and the Hope Resource Center. This year Good Hope will break ground on a 25,000 square foot Family Life Center to better serve the membership and surrounding community. This facility will include a state of the art auditorium/cafeteria, commercial kitchen, 20 classrooms, library/bookstore, and day care center. Also, Good Hope has a faith-based nonprofit community development corporation, Hope for Families, Inc., which was organized in 1994.

Mr. Speaker, I congratulate Pastor Cofield and all the members of Good Hope Missionary Baptist Church as they celebrate their 130th anniversary. I wish them continued success as they build on the strong sense of community they have helped establish in Houston.

TO HONOR THE SERVICE OF RICHARD 'DICK' HEALING, NAVY DIRECTOR OF SAFETY AND SURVIVABILITY

HON. CURT WELDON

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. WELDON of Pennsylvania. Mr. Speaker, today, a valued asset of the Navy and a dear friend of mine will retire after a long and distinguished career in public service. Richard 'Dick' Healing selflessly served as the Navy's first Director of Safety and Survivability. His objective was the operational safety of our servicemen and women in combat and training. Whenever the well-being of the individuals who would operate the various aircraft, weapons and machinery was ignored or overlooked, Dick Healing made it a priority so that no design created unreasonable risks.

Dick's contribution affected the lives of all Navy personnel. He took pride in closely overseeing the assessment and procurement of countless technology improvements. He is most well-known for aviation safety including, but not limited to, the addition of the life-saving Helicopter Emergency Egress Device (HEED) and the use of flight recorders on combat aircraft. Thanks to his tireless efforts, countless Navy personnel and their families would never have to experience the loss of a loved one due to hasty or imprudent engineering.

Dick's services to America did not begin with his life-saving Navy survivability work. After dedicating 29 years of his life to the Coast Guard, Captain Healing held four Navy commands, including the Command of a patrol gunboat during the Vietnam War and Command of the Secretary of Defense Crisis Coordination Center Reserve Unit. He served as Team Chief in this unit during Desert Shield and Desert Storm and is the recipient of 26 medals and awards including the Defense Superior Service Medal and the Combat Action Ribbon.

As a licensed Professional Engineer and a graduate from the Naval War College, he was selected to be a Presidential Exchange Executive in 1990 and was a Senior Executive Fellow at Harvard University in 1991. After acting as President and CEO of a Connecticut contracting and engineering firm and as Executive Vice President of a military parts manufacturer, Dick Healing has been with the Secretary of Navy since 1983. A family man and a man of great character, Richard Healing takes great pride in his wife Darlene and their three grown children.

My friend's tireless dedication to improving the safety of our Navy will be missed. It has been an honor to work with him in pursuit of this noble goal. America's armed forces and I applaud his service. A grateful nation wishes him and his family the very best.

TRIBUTE TO THEODORE BLUM

HON. MICHAEL FERGUSON

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. FERGUSON. Mr. Speaker, I rise today to congratulate Theodore Blum, a resident of Hillsborough, New Jersey, on his recent nomination to the National 4–H Hall of Fame.

Mr. Blum will be one of the inaugural 100 members of the National 4–H Hall of Fame, which has been created to commemorate the 100th anniversary of this world-renowned service organization.

Known by many as "Mr. 4–H," Theodore Blum served as Somerset County, New Jersey's 4–H agent from 1956 to 1984, the longest anyone has held that position since the county program began in the mid-1920s.

As county agent, Mr. Blum oversaw the construction of a 20,000-square-foot facility in Bridgewater, New Jersey, which is the largest 4–H center in the state. He initiated a program that enrolled six through eight year olds in a 4–H prep program that inspired similar programs throughout New Jersey. Mr. Blum also oversaw the growth of the county 4-H Fair to its status now as one of the largest free fairs in New Jersey, and tirelessly promoted the 4–H and their activities by distributing pamphlets to local newspaper and schools.

But most importantly, Theodore Blum helped enrollment in Somerset County 4–H programs from 500 to 2,500 members, paving the way for greater involvement by young people in their community.

Today I commend Theodore Blum, who recently has turned 75 years old, for his leadership and congratulate him on being named as one of the first one hundred members of the National 4–H Hall of Fame.

HONORING REVEREND JOE GRIZZLE

HON. J.C. WATTS, JR.

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. WATTS of Oklahoma. Mr. Speaker, I rise today to honor a great American, a wonderful family man and a true servant of God: Reverend Joe Grizzle.

Reverend Grizzle has recently accomplished a great feat: celebrating 25 years in the same church, in the same town: First Free Will Baptist Church of Norman, Oklahoma—in the heart of the 4th district of Oklahoma.

And heart is what this is all about. Churchgoers at First Free Will refer to their home as the Church with a heart. Many Oklahomans have commented that Joe Grizzle has a great big heart. A heart that cares for others, a heart that cares for his wife Billie and his children Christy and Rick and their spouses Jeff and Kim and 5 beautiful grandchildren, and a heart that recently was broken but thankfully God saw fit to mend it back together again to allow him to continue his ministry. More than that, Rev. Grizzle has a heart that cares for God. And like David, he is a man after God's own heart.

Rev. Grizzle knows what it means to teach and be obedient. He knows what it is to plant seeds that will bloom well into eternity. He knows what is done for God will last. While we debate budgets and appropriations and talk of legislation, Rev. Grizzle is doing the real work of this great nation: healing hurts, mending brokenness and putting families back together and talking about the things of God.

When it comes to keeping this nation great and strong, we need to look to our families and our churches. Especially right now, our churches have been raised for such a time as this. Rev. Grizzle is a credit to this nation and a testimony of God's grace as he celebrates 25 years of ministry at the First Free Will Baptist Church in Norman, Oklahoma.

RECOGNIZING STEW FLAHERTY

HON. PATRICK J. TIBERI

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. TIBERI. Mr. Speaker, all of us were thrilled to watch Jill Bakken and Vonetta Flowers make history by winning a Gold Medal in the first-ever women's bobsledding competition at the Winter Olympics. But there might not have been a Gold Medal, or even a women's bobsledding event, without Stew Flaherty of Westerville, OH.

After meeting two of the U.S. athletes in a Westerville gym 7 years ago, Stew spearheaded a campaign to make the women's bobsled an Olympic sport. He organized a letter writing campaign to pressure the International Bobsled and Skeleton Federation and the International Olympic Committee to include the event in the Salt Lake City games. Along with others, Stew helped build the sport internationally by convincing other countries to create teams.

As women's coach Bill Tavares told the Columbus Dispatch, "Without Stew's support we wouldn't be here." And to quote Gold Medalist Jill Bakken, "Stew's role was huge. He was supporting us when no one else was."

Stew Flaherty's efforts show that with hard work and a never-give-up attitude, you can move mountains. Or in Stew's case, make it possible for others to win Olympic gold.

HONORING BILL JOHNSON

HON. BOB BARR

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. BARR of Georgia. Mr. Speaker, we in the 7th District are deeply saddened by the loss of one of our greatest friends; a man who carried the torch not only for truth and justice as an excellent lawyer, but also stood as an outstanding community volunteer.

Bill Johnson was born November 10, 1932 in Moreland, Georgia. He graduated from Moreland High School and received his B.A. from West Georgia College in 1951. After graduating Bill moved on to the University of Georgia, where he received his juris doctorate in 1954. After serving a three-year stint in the Army, Bill continued on to a distinguished law career, operating as the Carroll County government attorney between 1969 and 1984, and then in private practice, eventually opening his own firm—Johnson, Word, and Simons, which still remains in Carroll County.

Bill was a member of numerous legal and financial organizations, including the Carroll County Bar, the Coweta Circuit Bar Association, the State Bar of Georgia, the Georgia Trial Lawyers Association, and the Association of Trial Lawyers of America. He also served as a board member for the Community Bank and the Peoples Bank of West Georgia. Bill also belonged to several philanthropic groups such as the Lions Club and the Jaycees. He was extremely active with the First Baptist Church, as well as the Masons and Shriners.

On a personal note, Bill was my friend. He enjoyed sponsoring huge annual BBQ fundraisers, and was one of my biggest and most outspoken supporters. I will dearly miss the grace, and dignity, and humor he brought to the courtroom and the political arena, and the dedication he offered up to all.

Bill left us to join his Creator in heaven on Monday, February 18, 2002, after a long illness. He is survived by his wife, Ramona Teal Johnson, his daughter Angela Lee Johnson, and his son Alton Parker Johnson II, a Carroll County Magistrate Judge. We will all miss him and his legacy of dedicated service.

MILITARY SPENDING AND PUBLIC HEALTH

HON. JANICE D. SCHAKOWSKY

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Ms. SCHAKOWSKY. Mr. Speaker, I would like to direct my colleagues' attention to an Op-ed in the Chicago Tribune (February 17, 2002), by the highly esteemed Dr. Quentin Young, "President puts military funds ahead of those for health." As the head of Physicians for A National Health Program and the Health and Medicine Policy Research Group, Dr. Young reports on the uncertain and frightening future of a disintegrating public health system.

With a $340 million reduction in the Centers for Disease Control and Prevention's expenditures not devoted to "anti-terrorism," the Bush Administration is abandoning needed support for our public health system. Dr. Young highlights how the Bush Administration has subordinated public health to military priorities, through $57 million slash in the program for chronic disease prevention and health promotion, a $10 million cut for infectious disease control, and a $9 million cut for Medicaid funding.

We have made great strides in public health over the last 150 years with strong focus, and fiscal and political support. Life expectancy in our country has doubled, from 40 years to 80 years, through ". . .[t]he separation of sewage from drinking water, mass immunization, discovery and elimination of insect vectors of disease, improved nutrition, prenatal care, purification of the food supply, addressing ambient pollution, and diminishing workplace hazards."

But in recent decades, we have neglected critical public health needs, eroding our ability to protect communities and individuals. We cannot allow emerging issues to destroy our nation's efforts to enhance the health status of the population. If we continue to divert funds from critical investments in public health because of short-term goals and a "military first" attitude, we will inevitably harm our nation's health in many other areas. A single-minded focus on bioterrorism that neglects ongoing public health needs is a shortsighted and dangerous policy.

I strongly urge my colleagues to read the enclosed full text of Dr. Young's very informative op-ed.

[From the Chicago Tribune, Feb. 17, 2002]

PRESIDENT PUTS MILITARY FUNDS AHEAD OF THOSE FOR HEALTH

(By Dr. Quentin Young)

Americans, still on the threshold of the 21st Century, confront an uncertain, even frightening, future, not least because their public health system is diving headlong into errors of the past.

On Feb. 4, President George W. Bush presented his FY 2003 budget to Congress.

Its health provisions repeat the dangerous errors of the past, especially with its focus on defense. To truly strengthen the public health system, millions should have been added to the budget of the Centers of Disease Control and Prevention. Instead, CDC would take a $340 million reduction in expenditures not devoted to "anti-terrorism."

A sampling of the reductions indicates a $57 million slash in the program for chronic disease prevention and health promotion, $10 million for infectious disease control, $9 million for Medicaid funding. On the other hand, there is a 33 percent increase in funding for abstinence-only-until-marriage education. The decision to increase community health center support by $114 million was helpful; it probably should have been more.

Our public health system needs serious invigoration based on adequate funding at all levels. The president, however, has debilitated the system by removing support for programs with proven success and doing nothing to rally independent public support for the mission of public health. Finally, he has moved a long way toward repeating the 1950s blunder: subordinating the public health system to military priorities.

The nation may pay dearly for this strategy.

A good way to approach an understanding of the place of contemporary public health is to look backward a century and a half. Such an examination will define our current situation and how we got there. It can illuminate the wisest decisions we can make based on science and practice.

In the past 150 years, life expectancy in our country has doubled, from 40 years to nearly 80 years. This astounding extension of life in such a brief time has no precedent in the human experience.

It was achieved fundamentally by public health triumphs: the separation of sewage from drinking water, mass immunization, discovery and elimination of insect vectors of disease, improved nutrition, prenatal care, purification of the food supply, addressing ambient pollution, and diminishing workplace hazards. The public valued these gains. The decline in the perils to life was palpable. A grateful citizenry accepted the rules and regulations that the preventive discipline required. Fiscal and political support were there for the array of measures—from compulsory immunization to meat inspection—needed to improve the nation's health.

Until the 1950s.

Then, three powerful currents emerged and converged to undermine the vigor and the readiness of the public health establishment. The recent panicky response to the anthrax letters and the legislative fixes being proposed will achieve the necessary safeguards only if we recognize how we blundered in midcentury and if we resolve not to repeat history's mistakes.

The first blow came, paradoxically, from the success of the system.

In a recent article, Lawrence Gostin and M. Gregg Bloche captured this turnaround: "Americans saw these [public health] activities as vital to their security, no less so than military force or police and fire protection. Taxpayers supported the needed spending. Lawmakers empowered local health authorities to move robustly when contagion threatened. Destruction of buildings, killing of infected animals and even restraints on the movement of infected people were provided for by law and widely accepted by citizens."

"But after World War II, American public health fell victim to its own success. Thanks to city-planning and sanitation campaigns of the early 20th Century and the antibiotic revolution of the 1940s, fear of infectious disease waned. The conquest of polio through vaccination in the 1950s delivered the coup de grace for public health's middle-class constituency."

Despite awesome accomplishments, public health was now the Cinderella—nay the Caliban—of our health system. Although exploding health expenditures reached $1.4 trillion by 1999, less than 2 percent was allocated to all activities in public health. The workforce, the facilities, the technology—all of the basics—fell behind.

The second undoing of progressive growth of public health was essentially political. This derived from the hard fact that it is a governmental function, totally dependent on fiscal and legislative policies. Because the designated leaders—from the local and state health department directors on up to the surgeon general—are all political appointees who serve at the pleasure of an elected chief executive, an effective independent professional advocacy did not and perhaps could not develop.

These health chieftains were locked into a loyalty to their sponsors. They cannot question the budgetary and policy devolution openly and expect to keep their jobs. At the local, state and federal levels, the reward for public health successes was reduction of support from the public treasury.

The third major element in the decline in U.S. public health over the past half-century is a cautionary tale. It is quite pertinent to the re-emergence of concern with bioterrorism, which is the deliberate use of lethal pathogens on your opponents. It was Alexander Langmuir, chief epidemiologist at the CDC, who was the architect of the dramatic shift in research and funding to look at what was called biological warfare in the midcentury realpolitik.

The irony of the resource shift lies in the reality that we have not developed reliable defenses against hostile use of organisms. We have a gigantic capacity to create these weapons, but the option to use them is illusory. Nor do our weapons offer deterrence to enemies who are not powerful nation-states but an elusive network of terrorists who claim to welcome death in the service of injury to us.

An unintended consequence of Sept. 11 is an overdue appreciation and enthusiasm for the vital functions of public health. We have not been at all steadfast in this regard in the past five decades. Indeed, we have been heedless. In all quarters the question arises: Can we now build a public health capability that is robust and responsive, independent of volatile political swings?

Above all, can we avoid the trap of reducing our focus to garrison state protection functions? The system should be developing defenses against all threats to the public's health, including bioterrorist ones. However, we should recognize the folly of neglecting or abandoning the great array of other crucial functions.

Public health has been defined as those things society as a whole does together to enhance the health status of the population. This tradition grows out of premises that include equity, social justice, confidence in government capability in a democratic society, and reliance on observation and scientific validity to guide practice in the community. When the system works efficiently and compassionately, it generates the solidarity and confidence much needed in a time of confusion and polarization.

To achieve the benefits of a vigorous, fully developed public health system, our strategy should not repeat the major errors of the past: Do not abandon sustained support of public health because of short-term achievements; Decouple the subordination of public health leadership to politicians; introduce a tradition of independence from partisan politics by developing an informed citizenry acting as public health advocates; Do not let the system become simply an auxiliary to the military.

INTERNET FREEDOM AND BROADBAND DEPLOYMENT ACT OF 2001

SPEECH OF

HON. EARL POMEROY

OF NORTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 1542) to deregulate the Internet and high speed data services, and for other purposes:

Mr. POMEROY. Mr. Chairman, I rise today in opposition to H.R. 1542, the Internet Freedom and Broadband Deployment Act. As a member representing one of the most rural states in our nation, I believe that this bill will do nothing to spur broadband deployment in rural America, while destroying the ability of the FCC and state regulatory commissions to provide valuable consumer protections.

The Bell companies say they are eager to deploy broadband in rural areas, but their actions speak louder than their words: for years, the Bells have sold off millions of lines in rural America. These companies have no commitment to rural America, and passing this bill will not change that. In fact, the Bells can easily evade the rural broadband development provisions of this bill simply by selling off additional rural exchanges. Rather than encouraging Bells to invest in rural America, this bill increases their incentives to accelerate their rural sell-off.

Small carriers and local providers have long been the lifeblood of communications services in rural America, yet this bill allows the Bells to deny these companies access to their networks. The very small competitors which today provide outstanding communications services in rural North Dakota and throughout the country could be quickly put out of business by this bill. Thousands of jobs at these competitive carriers would be lost.

What's more, H.R. 1542 preempts states from regulating high-speed data service altogether. This provision would prohibit states and the FCC from providing basic consumer protections, such as restrictions on unsolicited email and child pornography. The Bell companies pay millions of dollars in fines each year for violating state and federal laws, yet H.R. 1542 would remove almost all oversight of their high-speed activities, putting consumers at risk.

Rather than guaranteeing rural broadband service to rural America, H.R. 1542 simply provides the Bells with a tool to destroy their smaller competitors and avoid state and federal regulatory agencies. This bill is bad for competition and bad for consumers. I urge my colleagues to vote no.

TRIBUTE TO JAMEL BRADLEY

HON. JAMES E. CLYBURN

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. CLYBURN. Mr. Speaker, I rise today to pay tribute to Jamel Bradley as he—along with Columbia native Aaron Lucas—prepares to play his final home game as #10 for the University of South Carolina Gamecocks on Saturday, March 2, 2002 Senior Day.

Leading college basketball's Southeastern Conference and ranking in the top ten nationally in three-point field goals as well as setting the three point record at USC would be reasons enough to recognize senior Jamel Bradley's accomplishments. What is even more extraordinary is the path that brought him to these amazing achievements.

At 18 months old, Jamel suffered an illness that kept his temperature at 106 degrees for three straight days. Although he recovered, 80% of his hearing was gone. As a child growing up in West Virginia, Jamel never felt he "belonged in this world." The hearing aids in both ears were inadequate and only served to stigmatize him. It wasn't until he found basketball that he discovered a way to fit in with his peers.

His success on the court led him to the USC Gamecocks and another life-changing event. This time Jamel received programmable, omni-directional hearing aids that restored 75–80% of his hearing. For the first time he could remember, he heard birds chirping and clocks ticking.

Jamel's basketball accomplishments also took him to Rome, Italy last summer where he scored 33 points in the Championship Game of the Deaflympics, leading the U.S. team to a gold medal. This reinforced what Jamel had come to realize—his hearing deficiency would not and should not keep him from achieving his goals. That is a message that he enjoys sharing with deaf youth while serving as the role model he never had growing up.

Recently the ESPN Sports Network brought his low-key, inspirational style to a nationwide audience. Now his story has served to inspire children with disabilities across the country. Since Jamel's story aired, calls and emails have poured into USC's Basketball office attesting to the impact his story has had on others. It had a tremendous impact on me.

Mr. Speaker, I ask you and my colleagues to join me today in honoring Jamel Bradley. The contributions he has made both on and off the basketball court will leave lasting impressions on all those he has touched. He is a remarkable young man. I wish him continued success and Godspeed!

COMPREHENSIVE INVESTOR PROTECTION ACT OF 2002, H.R. 3818

HON. JOHN J. LaFALCE

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. LAFALCE. Mr. Speaker, today, I am very pleased to join with Minority Leader GEPHARDT and many of my Democratic colleagues in introducing the Comprehensive Investor Protection Act of 2002. Well before the failure of Enron, I had spoken out frequently on my concerns that fraudulent financial reporting and earnings manipulation by public companies was endangering the savings and retirement plans of many Americans. Now that Enron has made the systemic problems in our financial oversight and disclosure systems all too clear to everyone, we have an opportunity to adopt serious reforms to correct the weaknesses that are undermining confidence in our capital markets.

Our bill will significantly enhance the independence and oversight of the accounting industry and puts on the table a full range of reforms to make real improvements in investor protection.

The bill adopts the proposal made by former SEC Chairman Levitt in 2000 to separate audit and consulting functions by prohibiting substantially all non-audit services that auditors have been providing to their audit clients, in addition to incorporating other significant provisions aimed at enhancing auditor independence.

The bill creates a Public Accounting Regulatory Board to provide strong and effective oversight of the auditing industry. We provide this new regulator with explicit, broad oversight authority and a stable funding source to ensure it can take tough action to provide effective oversight of the auditing industry, including direct inspection of audits.

The bill changes the way that auditors work with audit clients by ensuring that the audit committee is responsible for hiring and firing auditors. This has been advocated by five former SEC Chairmen as a way to make sure that auditors are clearly and directly responsible to the audit committee and shareholders, not to management.

The bill restores both joint and several liability and aiding and abetting liability for auditors and other outside professionals, as advocated by consumer and investor groups.

The bill places additional restrictions on securities analysts, including restrictions that have already been adopted by some major securities firms, but that were not included in the measures proposed by the NYSE and NASD last week.

Finally, an essential step in restoring the vitality of the financial reporting system is to provide a significant increase in SEC resources. I have been very pleased to see that our Republican colleagues have now heard my year-long calls for a significant increase in SEC resources. But I have been very concerned that the increase that they call for does not provide for pay parity for SEC staff generally. Funding pay parity is essential for the SEC to be able to hire and retain experienced, professional staff needed to restore confidence in our capital markets and our financial reporting system. My bill addresses this by authorizing a doubling of staff for the Division of Corporate Finance, the Office of the Chief Accountant, and the Division of Enforcement, while providing full pay parity for all SEC staff.

I thank my colleagues for joining me today in introducing a bill that I believe represents a significant step forward in restoring the integrity of our system and providing investors the protections they expect and deserve.

SUMMARY OF 2002 COMPREHENSIVE INVESTOR PROTECTION ACT ("CIPA") H.R. 3818

Auditor Independence: CIPA would seek to ensure that an auditor's first duty is to the public by substantially limiting the non-audit services an auditor may provide to an audit client. The prohibited services to an audit client include, among others: (1) bookkeeping; (2) financial information systems design (3) valuation services and fairness opinions; (4) internal audit services; (5) managerial services (i.e. acting as a director or officer); and (6) broker-dealer, investment adviser or investment banking services. Tax-related services and other non-audit services not otherwise enumerated would be subject to the approval of the audit committee, which would evaluate the effect of the provision of such services on the auditor's independence.

Corporate Governance and additional Independence requirements: CIPA includes a list of critical reforms in corporate governance and auditor independence, including:

(1) requiring a 4-year rotation of a registrant's auditor, with the possibility of one 4-year extension so long as the Public Accounting Regulatory Board approves such extension, after due review and inspection of the audit.

(2) vesting the audit committee with the power to hire and fire its auditors;

(3) requiring the audit committee to meet quarterly with its auditors and have an opportunity to do so outside the presence of management;

(4) requiring a 2-year cooling off period for certain former auditor employees before they could work for an audit client;

(5) making it unlawful for the issuer to improperly influence an auditor in the performance of an audit;

(6) prohibiting directors from providing consulting services to the issuer; and

(7) prohibiting the issuer from making charitable contributions to organizations associated with any director.

In addition, the bill would require extensive disclosures to make transparent to shareholders and investors the relationships that compromise independence that now prevail on many corporate boards among officers, directors and affiliates of the issuer.

Regulation of the Auditors: CIPA would create a strong public regulator, with clearly defined duties and powers mandated by Congress, to provide comprehensive oversight of accountants.

A super majority of a 7-member board would be selected from the public and would represent the interests of shareholders, investors, pension beneficiaries and future retirees.

The Chairman of the Board would be appointed jointly by the SEC and the Comptroller General.

An Appointment Committee, consisting of the Chairman of the Board, the Chairman of the SEC, and the Comptroller General shall select the six remaining Board members from nominations received from groups representing institutional investors and pension funds (public employee pension plans, pension plans organized pursuant to the Taft-Hartley Act (i.e. union-related pension plans), and pension plans organized pursuant to ERISA).

The Board shall have the power to establish its own rules. Rulemaking would be subject to SEC approval and to public comment.

The Board will be self-funded through assessments on public companies that receive the benefit of audit services.

The duties of the Board include: (1) establishing quality standards relating to audits; (2) performing direct quality reviews of individual audits; (3) conducting comprehensive and direct inspections of auditing firms; (4) setting independence standards; and (5) establishing ethical standards.

The Board will have a full range of disciplinary powers.

The Board will have sweeping investigative powers including the ability to compel testimony and subpoena documents from auditors and their clients. It shall also have the power to refer matters to the SEC for investigation or additional action.

Enhanced Financial Disclosure: CIPA directs the SEC to conduct rulemaking to significantly improve financial disclosure relating to: (1) the treatment of special purpose entities; (2) related party transactions; (3) the creation of a plain English financial statement disclosure regime; and (4) earnings manipulation.

Expansion of SEC Resources: CIPA would double the resources for the Divisions of Enforcement and Corporation Finance, as well as the Office of the Chief Accountant. Moreover, CIPA would fund pay parity for the entire Commission staff. The total SEC authorization would amount to $876 million for fiscal 2003.

Real-Time Disclosure of Affiliate Stock Sales: CIPA would require real-time disclosure of insider stock sales and disclosure of affiliated-party dispositions of stock and related derivative instruments.

Restoration of Joint and Several Liability for Accountants: CIPA would hold auditors fully responsible for their actions. This legislation would overturn provisions of existing law to provide for joint and several liability for auditors when: (1) an accounting firm provides both auditing and non-auditing services (such as consulting services) to an issuer; (2) the defendant knowingly committed a violation of the securities laws; (3) an accounting firm failed to comply with the financial fraud reporting provisions of the securities laws; or (4) the issuer of the securities that are the subject of the fraud has become insolvent. This replaces the current proportional liability standard.

Restoration of Aiding and Abetting Liability for Accountants and Outside Professionals: CIPA would provide a private right of action against anyone (auditors, lawyers and other outside professionals) who knowingly or recklessly provides substantial assistance to another person in violation of the securities laws.

Lockdowns: CIPA would prohibit stock sales by insiders at any time when employees are subject to a lockdown on their 401(k)s.

Destruction of Records: CIPA would require auditors to retain certain key files for 7 years relating to an audit so that they would be available for investigations.

Statute of Limitations: Provides that an implied right of action arising under the Securities and Exchange Act of 1934 may be brought no later than the earlier of 5 years after the date on which the alleged violation occurred or 3 years after which the violation was discovered.

Analyst Conflict of Interest: CIPA would go beyond the requirements in the recent rulemaking proposed by the NASD and NYSE by: (1) banning analysts from holding stock in the companies that they cover; (2) prohibiting analyst compensation from being based wholly or in part on investment banking revenue; and (3) requiring the NYSE and NASD to establish criteria for evaluating analyst research quality and also requiring analyst compensation to be based principally on the quality of their research.

Enhanced SEC Review of Issuers: CIPA requires the SEC to review on a more regular and systematic basis the public disclosures made by issuers, especially reports filed on form 10-K. CIPA would require the SEC to establish a risk-rating system which shall be used to determine the frequency of such reviews. Companies with large disparities in price to earnings ratios (i.e. "dot com-like" companies) would be among those ripe for regular review.

Current Disclosure: CIPA would provide for the establishment of a "current disclosure regime" as suggested by SEC Chairman Pitt. The goal would be to change the way issuers communicate with investors by providing more meaningful and current information about their financial results, including providing useful trend information.

Study of the Role of Credit Rating Agencies: CIPA would require the SEC to study the role of credit rating agencies and make recommendations concerning the establishment of minimum standards, among other things.

A TRIBUTE TO REVEREND TIMOTHY WRIGHT

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. TOWNS. Mr. Speaker, I rise in honor of Reverend Timothy Wright for his dedication to the spiritual upliftment of his community through music.

Reverend Wright was born on June 17, 1947 in Brooklyn, NY. He accepted Jesus Christ as his Lord and Personal Savior at an early age. During this time it became very apparent that Reverend Wright had an unusual gift for music. At St. John's Baptized Holiness Church, he cultivated his musical skills while serving as church organist and choir director for the youth ensemble.

In 1966, Reverend Wright was drafted in the U.S. Army and served his country until 1968. He received a honorable discharge and returned to his home in Brooklyn, NY. From 1969 to 1990, Reverend Wright has served many capacities at the Washington Temple C.O.G.I.C. in Brooklyn, NY. During his tenure, he founded the Timothy Wright Concert Choir in 1976. In addition, Reverend Wright has recorded with many other choirs through out the U.S. and abroad. Reverend Wright gained national recognition for the album "Come Thou Almighty King." Reverend Wright has been a three-time Grammy nominee, NAACP Image Award winner and a Stellar Award winner.

In 1990, Reverend Wright established the Grace Tabernacle Christian Center COGIC in his home. The Grace Tabernacle Christian Center COGIC ministry included various outreach programs that served all in need. Grace COGIC, located in the heart of the inner city, has grown and flourished over the years. In January 1998, Rev. Wright was elevated to Superintendent of District #3 in New York.

Reverend Wright has been a beacon of light for the Brooklyn community through preaching, teaching the word of God or ministering in song or music. Reverend Wright is truly an anointed man of God. And, today it is my pleasure to bring his achievements to the attention of my colleagues.

PAUL REVERE FORUM

HON. CONSTANCE A. MORELLA

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mrs. MORELLA. Mr. Speaker, employees in the government and private sector who have refused to put personal comfort and profit above public safety represent true public service and patriotism. By speaking the truth and refusing to be silenced, they have prevented the spread of sickness and disease, disastrous environmental contamination, and unknown accidents on our highways, railroads and airways. Whistleblowers have saved the American taxpayer billions of dollars, and they have literally saved countless lives.

These men and women usually do not think of themselves as being heroic. In many cases, they are just doing their jobs. We call them "whistleblowers," a label they are often reluctant to accept. They are reluctant for understandable reasons. Being a whistleblower usually means harassment, intimidation, and career-ending retaliation from those who stand to lose when the public learns the truth.

On Wednesday, February 27, several public interest organizations hosted an event entitled "The Paul Revere Forum: National Security Whistleblowers Speak." I am proud to be invited to address the whistleblowers and their supporters who will be in attendance. Paul Revere is not often thought of as a "whistleblower," but for the security and freedom of the colonial citizens of Lexington and Concord, that is exactly what he was. Now, we again find ourselves in a period where National Security whistleblowers can play a critical role—in the war against terrorism.

National Security whistleblowers have recently provided warnings about potential terrorist attacks by sounding the alarm about vulnerabilities that senior bureaucratic managers would prefer to cover up or ignore. The warnings have covered a vast array of official activities: security officers at nuclear laboratories, weapons facilities, waste dumps and power plants have for years warned that nuclear material is highly vulnerable to terrorist attack; FAA employees have come forward with similar concerns about the effectiveness of security technology as well as passenger screening practices; emergency management officials have exposed dramatic inadequacies of protections for our food supplies and evacuation plans, and Customs employees have pointed to weaknesses in our border security. These problems will become tragedies unless both public and private employees feel they can raise concerns without suffering retaliation.

Since the tragedies of September 11, blowing the whistle is no longer only about protesting abuses of power, personal corruption or violations of regulations. It has a new dimension—it is about preserving the freedom to warn.

I have been an ardent advocate for whistleblower protections throughout my career in Congress. I am the sponsor of a bill, H.R. 2588, that strengthens the original Whistleblower Protection Act. I supported passage of the NO FEAR Act, which actually came about due to the efforts of two of my constituents, Dr. Marsha Coleman-Adebayo and Mr. Leroy Warren, Jr. In addition, I am an original cosponsor of Congressman Israel's legislation to improve whistleblower protections for national security personnel.

I also want to thank the Government Accountability Project for keeping this issue in the public eye, in particular Tom Devine, Legal Director and Doug Hartnett, National Security Campaign Director.

TRIBUTE TO JERRY ROBERTS

HON. NANCY PELOSI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Ms. PELOSI. Mr. Speaker, I rise today to honor Jerry Roberts, a giant among West Coast journalists, who after 25 years of devoted service is leaving my hometown newspaper, the San Francisco Chronicle.

Jerry Roberts has provided outstanding service to Northern California, devoting his professional life to covering San Francisco, the Bay Area and California. Throughout his career, he has consistently exhibited exemplary fairness and insight.

Over the past quarter century, Jerry has covered hundreds of elections, including my first, and has also authored a biography of my fellow San Franciscan, Senator DIANNE FEINSTEIN.

Jerry has served as the Chronicle's political editor, editorial page editor, city editor and for the past five years, managing editor, always displaying a passion for politics, family and baseball, not necessarily in that order.

A fellow West Coast immigrant, Jerry was born in Cleveland, moving to San Francisco in the early 1970s. He and his wife Linda Kiefer raised three daughters, Anna, Maggie and Rebecca in the greatest city in the world. San Francisco is a better place because of Jerry Roberts' professionalism and devotion to his job, his family, and his community.

I join Jerry's family and his many friends in wishing him all the best in his new endeavors. We continue to expect great things from Jerry Roberts as we thank him and pay tribute to him for his contribution to San Francisco and to the field of journalism.

TRIBUTE TO WILLIAM O'REE—A TRUE PIONEER

HON. MICHAEL E. CAPUANO

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. CAPUANO. Mr. Speaker, as we close the chapter on February, Black History Month, I want to bring to the attention of Congress a man who has had a profound impact on the sport of ice hockey and its connection to communities of color.

On last Sunday, the world turned its attention to the Olympic games to witness the men's ice hockey gold medal game featuring Team USA against Team Canada. At the conclusion of the hard-fought battle, Team Canada emerged victorious by a score of five to two. Although I wished the score had been reversed, I was extremely proud of what that game did to increase the level of exposure for the game of hockey. I was particularly moved by the exploits of one player in that game and I believe that, over time, his participation may prove more beneficial to the sport of hockey than the gold medal game itself. The player's name is Jarome Iginla.

Jarome is an extremely talented young man who plays for the Calgary Flames. At the Olympic break, he was atop the leader board in overall points and goals and recently enjoyed his first appearance at a National Hockey League All-Star game. This past Sunday, Jarome played a critical role in Canada's victory by contributing two goals and an assist. It was truly a standout performance. However, it was not just his performance that makes him so special. Jarome is the first Black ice hockey player to ever have the opportunity to accomplish such a feat.

While the NHL is considered to be one of the most diverse sports when considering national origin, it is still a predominately Caucasian sport. Currently, there are only thirteen Black players in the NHL, but there are efforts underway throughout the United States and Canada to introduce Blacks and other persons of color to this amazing game. Leading this effort is a man who has been a trailblazer when it comes to professional hockey's quest for diversification. While Jarome Iginla has become a pioneer at the Olympic level, William (Willie) O'Ree is the pioneer when it comes to the involvement of players of color in the sport of hockey.

For those who might not be familiar with him, Willie O'Ree is the Jackie Robinson of ice hockey. Born in Fredericton, New Brunswick, on Canada's Atlantic coast, Mr. O'Ree as a youngster excelled at hockey, rugby, soccer, basketball, track and baseball. Focusing on his first love, he quickly established himself as an outstanding hockey player. He also was a courageous individual who overcame a major physical obstacle to achieve his dream of playing professional hockey. During the 1955–56 season, while playing for a junior hockey club, Mr. O'Ree was struck in the right eye with a puck. As a result of the injury he lost 95% of his sight in that eye and was advised by doctors to quit the game. Willie O'Ree decided to persevere rather than quit; the rest is history. On January 18, 1958, he became the first Black player to play for a National Hockey League team. The team, just in case you were wondering, just happened to be the Boston Bruins.

Unlike the other major professional sports, hockey was slow to embrace the idea of diversity following Willie O'Ree's emergence in 1958, and it would take another fifteen years before the next Black player made it to the NHL. All told, only thirty-one Black players have ever suited up for NHL teams. Acknowledging a need to do more in the area of diversity, the NHL recently began a worthy campaign to increase the game's exposure to communities of color. Once again, Willie O'Ree was called upon to lead the way.

Just as he did 44 years ago, Mr. O'Ree today continues to tear down barriers and create opportunities for persons of color to enjoy the game of ice hockey. In 1996, he assisted the NHL with designing a youth All-Star game that celebrated hockey's growing diversity. Now in it's seventh year, the Willie O'Ree tournament allows selected boys and girls, ages 10–12, from each of the NHL's Diversity Task Force programs across North America to take part in an all-star game of their own. In addition to the game, the young people have an opportunity to interact with NHL players, attend an NHL game and experience the culture of the host city. This year's All-Star game is scheduled to take place next month in Columbus, Ohio.

In 1998, on the 40th anniversary of his historic first game with the Bruins, Willie O'Ree formally joined the NHL as Director of Youth Development for the NHL Diversity Task Force. In this capacity, Mr. O'Ree travels around the country assisting communities and the 30 Diversity Task Force programs with their hockey programs and outreach to boys and girls from communities of color. Through the outreach efforts of Willie O'Ree and NHL today's Black NHL players like Jarome Iginla, George Laraque, Anson Carter, Mike Grier, Sean Young, Jamal Mayers, Bryce Salvador, Freddie Brathwaite, Kevin Weeks, Peter Worrell, Sandy McCarthy and Donald Brashear will one day be seen as less an exception and more the norm when considering the diversity of the sport.

IN HONOR OF DR. EDISON O. JACKSON

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. TOWNS. Mr. Speaker, I rise today in honor of Dr. Edison O. Jackson, President of the Medgar Evers College of the City University of New York, Board member of the New York City Board of Education, member of the Ministerial staff of Bridge Street A.M.E. Church, father, husband and outstanding community resident, in recognition of all that he does for his borough, his city and his state.

Dr. Jackson, a resident of Prospect Heights, Brooklyn, is an outstanding citizen and a pillar of our community. He was born in Heathsville, Virginia. Dr. Jackson received a B.S. in Zoology, followed by a Master of Arts Degree in Counseling from Howard University. He began his education career counseling, where he served for almost four years. In 1969, he was named Dean of Student Affairs at Essex County College, in New Jersey. He distinguished himself to the point that he was promoted to Vice President of Student Affairs. In 1983, Dr. Edison was named Executive Vice President and Chief Academic Officer at Essex County College. In that same year, he received a Doctorate in Education from Rutgers University. In 1989, he accepted the position of President of Medgar Evers College. He brought with him a wealth of experience and knowledge in administering the affairs of educational institutions.

Dr. Jackson currently holds memberships on a number of civic, educational and community organizations. His affiliations with professional and national organizations run the gamut from the American Association of Higher Education, to the President's Round Table and the National Council on Crime and Delinquency. Dr. Jackson has also written extensively on issues of concern to educators, with particular concentration on minority students and the community, academic preparation and student performance.

Finally, Mr. Speaker, I want to note that Dr. Jackson is married to Florence E. Jackson, and is the proud father of two children: Eulaynea and Terrance.

Mr. Speaker, as Black History Month comes to an end it is only fitting that we honor a man who has done so much—and continues to do so much—to shape so many young lives. Dr. Edison O. Jackson is that man and he is nationally recognized as a leader in education. As such he is more than worthy of receiving our praise and I urge my colleagues to join me in honoring this truly remarkable man.

INTERNET FREEDOM AND BROADBAND DEPLOYMENT ACT OF 2001

SPEECH OF

HON. BENJAMIN A. GILMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 27, 2002

The House in committee of the Whole House on the State of the Union had under consideration the bill (H.R. 1542) to deregulate the Internet and high speed data services, and for other purposes:

Mr. GILMAN. Mr. Chairman, I rise in strong support of H.R. 1542, the Internet Freedom and Broadband Deployment Act of 2001. This important and timely legislation will expedite the roll-out of high-speed Internet access across our nation, foster competition, and bridge the digital divide that separates neighbors, communities, and regions from the benefits of the information age.

Opponents of this bill argue that it will unfairly favor certain technologies within the broadband industry. On the contrary, H.R. 1542 is designed to eliminate the unfair conditions which currently exist within the industry by offering consumers an expanded and guaranteed alternative to cable and satellite-based broadband technology. This legislation simply creates a level playing field for the different enterprises which comprise the broadband industry to freely and competitively offer their technologies to the American people.

Moreover, opponents wrongly assert that by eliminating the prohibitive regulations that currently stifle roll-out of DSL broadband technology, this legislation will destroy local service providers who enjoy reduced rates and access to existing technology as set forth in the 1996 Telecommunications Act. On the contrary, H.R. 1542 does not prevent local exchange carriers from accessing any existing or future customer using the telephone network. However, to ensure local competitors are fairly and adequately protected from the change in the 1996 law, I fully support the Buyer-Towns Amendment. This amendment further protects the local competitor by guaranteeing their continued right to access high-speed data services over fiber lines as they presently do.

It is evident that H.R. 1542 is good for America. Our future competitiveness in the global market depends on our access to and utilization of data and information systems, which begins at the individual level which this legislation addresses.

Accordingly, I urge my colleagues to vote yes for expanded access by voting yes to this bill.

500 DAYS IN CAPTIVITY—AND STILL COUNTING

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. LANTOS. Mr. Speaker, I rise today to mark the 500th day of captivity of Elchanan Tannenbaum—one of nine Israelis now held captive by terrorist groups and regimes that sponsor terrorism. A husband and the father of two, Elchanan is the only Israeli civilian to be counted among Israel's missing. He is being held in Lebanon and is presumed to be alive.

As we all know, Mr. Speaker, terror has many faces and takes many forms. Sometimes terror targets large numbers of people in spectacular acts of destruction as we saw on September 11th. At other times it seeks to achieve its goals by targeting a single individual. Mr. Tannenbaum was such a target, as was the American journalist Daniel Pearl, whose brutal murder has sickened and saddened us all. Mr. Tannenbaum's Hezbollah captors have proudly announced their crime, with their usual flair for the contemptuous. Although Mr. Tannenbaum has a medical condition that requires daily attention, Hezbollah has denied the Red Cross permission to visit him.

The Tannenbaum kidnaping is further proof—as if it were needed—that Hezbollah is a terrorist organization with global reach. If we ignore this case of abduction, we are granting the terrorists a cheap and formidable weapon. As long as groups like Hezbollah believe that they can commit such actions with impunity, they will be encouraged to continue to target the citizens of the world's democracies. To ignore the plight of Elchanan Tannenbaum and Israel's other missing men, would not only constitute an abandonment of our closest ally in the Middle East, but would weaken our own efforts to secure a safe future for Americans and others who have been seized by terrorists.

Mr. Speaker, I must point out that not only is it in America's interest to help in this matter, but in fact it is our obligation to do so. In 1991 Israel played a critical role in securing the release of Terry Anderson and other American hostages being held in Lebanon by releasing hundreds of terrorists from Israeli jails. At that time Israel was promised that international efforts would continue on behalf of Israeli captives left behind in Lebanon. It is now more than ten years since that promise was made, and the number of captive Israelis has only grown. It is time for us to repay out debt.

What can we do, Mr. Speaker? I believe the U.S. is well-positioned to make demands of the Syrian government, which is effectively the ruling power in Lebanon and is ultimately responsible for the fate of all Israelis captured or held there. Syria is a sovereign state and currently serves as a member of the UN Security Council. Syria, like Lebanon, can and must be made accountable for the behavior of the terrorist groups it harbors and supports. Greater U.S. resolve in dealing with the Syrians can be critical in bringing Elchanan Tannenbaum home alive.

Mr. Speaker, for too many years, Americans presumed that the terrorist actions from which our Israeli allies suffered would not be exported to our shores. September 11th has permanently shattered that notion. We should now pay closer attention to the Israeli experience with terrorism. The murder of Daniel Pearl is a warning that the ugly specter of kidnaping that has plagued Israel for so many years is now targeting Americans as well. Let us fight back. Calling attention to Elchanan Tannenbaum's plight, and working to secure his release, would be an important first step toward stopping this scourge.

HONORING SHIRLEY LASSETER

HON. BOB BARR

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. BARR of Georgia. Mr. Speaker, there are qualities in true leaders that set them apart; courage, wisdom, flexibility—just to name a few. Perhaps just as important is the quality of timing—knowing when to step to the plate. Yet another admirable quality in the test of a true leader may lie in humility; when someone has fought the hard battle, done the leg work, helped ensure the cause is just and the goal accomplished, only to hand it over when no more can be done, and accept the fact they won't be praised for their efforts.

My fellow members of Congress, today I bring before you one such individual and ask you to join me in singing the praises of Ms. Shirley Lasseter. Shirley is a resident of Duluth, Georgia and the Mayor of this beautiful city in Gwinnett County. She is involved in numerous philanthropic and business related organizations; extending from her participation on the Preservation District Board, to her leadership in the Georgia Municipal Association, and her active presence in the local PTSA's.

Shirley graduated from Brenau University with a B.S. in Elementary Education, and continued on to Georgia State University, where she received her Masters in Education. She is married to Joe Lasseter and is the proud mother of four children. Along with her official duties and extracurricular activities, Shirley is a member of Duluth United Methodist Church, where she has worshipped for 17 years. But perhaps her most proud title will be awarded soon, when her daughter Jenny gives birth to Shirley's soon-to-be-grandchild, and "Miss Shirley" becomes "Grandma Shirley."

Yet with all she has going on, Shirley made a particularly special effort for a project she coordinated for former House Speaker Newt Gingrich several years ago, for which she never received proper credit. In the summer of 1998, Speaker Gingrich spearheaded a bill that enacted a new form of protection for Georgia's Chattahoochee River. It called for a 48-mile stretch of the river's recreational area to be extended by 2,000 feet, known as a "greenway." The new boundaries eased pollution stemming from construction and storm runoff, helped control flooding and erosion, and improved water quality for Georgia residents. Land was acquired from willing sellers and paid for by a public-private campaign that included a $25 million federal contribution. This move to help the environment came at a time when the natural resources and beauty of the Chattahoochee were under particular strain, because of the explosive growth the city of Atlanta and the north metro area had been experiencing.

At this time I would like to not only acknowledge Shirley for her foresight and dedication to the community and environmental issues, but also recognize her for the dauntless leadership and incredible humility she shows to the citizens she serves. It is true leaders like Shirley Lasseter who are the real secret to solving local and state issues. Please join me in congratulating Shirley Lasseter for the accomplishments she has already achieved, and the goals I am certain she will realize in years to come.

CHINA'S LONG-RANGE MISSILE PROGRAM

HON. BOB SCHAFFER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. SCHAFFER. Mr. Speaker, on several occasions I have addressed this House on the matter of National Security and the threat to it posed by China's aggressive arms buildup. Particularly, with regard to China's long-range missile program, America's vulnerability is growing, not shrinking.

While I applaud the leadership of our President to advance a national missile defense program, Congress must rely upon complete, accurate, and candid assessments of the threat posed by China, or any other nation. Without such candid assessments, Americans are burdened by excessive risk.

I hereby submit for the Record, a letter I have today posted to Mr. George Tenant, who heads America's Central Intelligence Agency. I urge each of our colleagues to review this letter and respond to its contents or reinforce its sentiments to the Director, and to the President.

Mr. Speaker, I respectfully submit the following for the Record.

• DEAR MR. TENET: Last month, your agency produced the assessment of China's ballistic missile threat to the United States in the unclassified summary of the January 2002 National Intelligence Estimate "Foreign Missile Developments and the Ballistic Missile Threat Through 2015." The lack of attention to the pronounced and growing danger caused by China's ballistic missile buildup, and its aggressive strategy for using its ballistic missiles cannot go unchallenged. The report is misleading, and, because it understates the magnitude of threat, is profoundly dangerous.

Perhaps the unclassified National Intelligence Estimate was meant to conceal from foreign eyes what the CIA really thinks or knows. But this government has a duty to defend the lives and freedom of its citizens. A large part of that defense is informing the American people of the threats they face rather than downplaying, for example, China's ballistic missile and military buildup.

In this regard, I protest the inferior quality and lack of information compared to Department of Defense reports such as the Soviet Military Power series initiated by Secretary of Defense Caspar Weinberger in the 1980's, which addressed the Soviet military threat in detail, providing numbers of missile, bombers, and warheads, and location of forces.

Your report is an issue because China has focused on a buildup of ballistic missiles to defeat the United States. In addition to its ballistic missile and information warfare buildup, you yourself have noted the threat posed by China's growing anti-satellite capabilities. China is engaged in economic and surrogate terrorism, and diplomatic initiatives using its mouth to promise friendship while preparing for war. America needs to be informed and warned.

Without adequate intelligence about the ballistic missile threat, or the courage to act on the intelligence it has, the United States will not be able to defend itself. President Bush's proposed defense budget understates the need to accelerate ballistic missile defense programs, and emphasizes a poor design for a ballistic missile defense using groundbased defenses over space-based defenses that can provide boost phase interception, global coverage, and multiple opportunities for interception.

One point is how China's program for multiple reentry vehicles for its road-mobile ICBMs and SLBMs is "encountering significant technical hurdles and would be costly," giving an impression that China may not develop a MIRV capability, at least in the near future.

In contrast, in 1999 defense analyst Richard D. Fisher, .Jr., could convincingly write, "Both the DF–31 and DF–41 ICBMs are expected to incorporate multiple independently targeted reentry vehicle (MIRV) warheads." Fisher further noted China has been suspected of trying to develop MIRVs for years, and that in 1998 Air force General Eugene Harbinger said China is developing MIRVs for its ICBMs. One would suspect that China would have made some progress since Fisher's analysis in 1999, especially given technological assistance from the United States and Russia. In January 2002 Fisher noted the CIA report appeared to be too low in its estimates of China's threat.

On the issue of MIRVs, the report appears to understate how China's spy and intelligence gathering program, highlighted by the 1999 Congressional Cox Committee report, was focused on obtaining information on U.S. nuclear warheads and ballistic missile technology, which makes extensive use of MIRVs. In addition to U.S. missile, nuclear warhead, and satellite technology that could be used for MIRVs, China has obtained considerable technological help from Russia. China is one of Russia's largest arms customers and has signed a strategic partnership with it. Russia has perfected the technology for multiple warheads in its advanced rail and road-mobile ICBMs—the SS–24 and SS–27 Topol-M, and reportedly transferred to China SS–18 technology that would presumably include MIRV technology as the SS–18 was designed to carry 10 nuclear warheads, and could be fitted with even more.

Of surprise is the CIA statement that "China could begin deploying the DF–31 ICBM during the first half of the decade." In contrast to the uncertainties contained in the CIA report, in May 2001 Taipei Times defense reporter Brian Hsu noted China has built two bases for housing the DF–31 and plans to build more. It would be very reasonable to assume that these bases house DF–31s. In addition, according to a story by Washington Times reporter Bill Gertz, China was expected to obtain an operational capability for the DF–31 by the end of 2001, before the release of the CIA report.

If China's deployment of the DF–31 ICBM follows its pattern of deploying short-range road-mobile ballistic missiles over a number of bases as it has done with its ballistic missile buildup aimed at Taiwan, the United States should expect China to deploy the DF–31 over more than two bases to blunt the effect of any potential counterattacks or preemptive strikes.

The CIA report, rather than telling the American people how China is taking steps to deploy the DF–31 and apparently has achieved an operational capability, is content to word its analysis as a possibility. In addition, it overlooks why China is building the DF–31—its ballistic missile strategy.

The Taipei Times noted that China's buildup of the DF–31 is part of its "Long Wall Project" that "is aimed at the US, not Taiwan," and said that "The Chinese military leadership plans to put longer-range ballistic missiles in the southeastern provinces so that they can cover US military targets in the Pacific."

The CIA report, moreover, appears remiss with respect to China's buildup of intermediate-range ballistic missiles such as the DF–21–X and DF–25, which can attack U.S. forces and bases in the Far East and Pacific. The report also projects that by 2005 China will have a force of short-range ballistic missiles that will number "several hundred missiles." Yet, throughout 2000 and 2001 China was reported as having massed 300–350 short-range ballistic missiles against Taiwan in a number of news accounts, and increased production to more than 50 per year. China already has an arsenal exceeding "several hundred missiles."

China's view on using its long-range ballistic missiles is very aggressive. It does not believe in a "balance of power" dictated by equal numbers of missiles or nuclear warheads. Rather, according to one Chinese analyst, China believes that "It is not necessary for China to seek a nuclear balance with the US. If we have the capacity to launch a nuclear counterattack, there will be no difference between 10 and 10,000 nuclear warheads." This same view appeared in an August 1999 planning document of China's Central Military Commission headed by President Jiang Zemin.

In May 2000, the late Congressman Floyd Spence, quoting the Liberation Army Daily, noted that China "is a country that has certain abilities of launching a strategic counterattack and the capacity of launching a long-distance strike . . . It is not a wise move to be at war with a country such as China, a point which the U.S. policymakers know fairly well also." In 1995 PLA General Xiong Guangkai issued a similar threat.

China has used its ballistic missiles to intimidate, seen in its launch of ballistic missiles off Taiwan in 1995 and 1996. While the diplomatic failure which occurred resulted in the tempering of its diplomacy, the fact that China has changed its diplomatic tactics toward Taiwan and the United States should not obscure its strategy for using its ballistic missiles for aggression. China's words of friendship are a mask for its ballistic missile and military buildup.

American should be concerned with its defense. The terrorist attacks of September 11, 2001 showed what can happen with a lack of vigilance. The United States needs to realize that China is engaged in a military and ballistic missile buildup pointed at Americans. We must take the necessary steps to defend our citizens, and we should build a space-based ballistic missile defense. We must have better information about China's ballistic missile threat. Regrettably, your report on this matter is insufficient.

Very truly yours,

BOB SCHAFFER,
Member of Congress from Colorado.

HOUSE LEADERSHIP FAILS AGAIN TO ASSIST LONGTERM UNEMPLOYED

HON. GEORGE MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. GEORGE MILLER of California. Mr. Speaker, it is difficult to believe that once again, the House of Representatives is leaving

Washington without passing an Unemployment Assistance extension bill that could be in effect by the time we return next Tuesday.

The Senate has passed the extension bill several times. But the House Republican leadership refuses to take that bill and send it to the President for signature—unless it is loaded up with unjustified and very detrimental tax cuts for the most affluent Americans and corporations., a bill that the Wall Street Journal declared "mainly padded corporate bottom lines."

And so, once again, Congress leaves Washington without doing its job for the men and women who send us here to represent them and whose taxes pay our salaries.

That may not be very important to our Republican leaders who run this House. But it surely is important to the 378,000 working men and women who filed new unemployment claims last week who wonder if extended benefits will be there for them when their meager weeks run out, as they have for over 1 million Americans between September 11 and December 31, 2001 and 11,000 more every day of this year!

When we left Washington without passing extended benefits for the President's Day recess, over a quarter million Americans lost their unemployment benefits. By the time we return next week after being gone for nearly five full days, another 55,000 left high and dry by this Congress and by the Republican leadership that uses them, and their suffering, as leverage for fat cat tax breaks.

Mr. Speaker, where is the compassion of the Republican leadership? Why can we not have a straight up-or-down vote on the Senate's bill to extend unemployment benefits as we have been urged to do by 9 Nobel laureates who say these benefits are the quickest and surest stimulus we could enact? Let's stop the political gamesmanship, get the assistance to the men and women who paid for it with their labor, and then we can continue the debate over tax cuts for the wealthy.

ON THE 90TH ANNIVERSARY OF HADASSAH

HON. ANTHONY D. WEINER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. WEINER. Mr. Speaker, in 1912, Henrietta Szold founded the Daughters of Zion, an organization to meet the health needs of Jews and Arabs in what is now the modern State of Israel. Soon renamed Hadassah, the Women's Zionist Organization of America, it has grown to be not only the largest Jewish organization in America, but also the largest women's organization. I rise today to pay tribute to Hadassah and all of the wonderful accomplishments of its ninety-year history.

Today, Henrietta Szold's vision lives on. With more than 300,000 members and 1,500 chapters across the country, Hadassah is stronger than ever. While best known for the Hadassah Medical Organization, which is synonymous with expert medical care, Hadassah has expanded its services greatly to help so many people across the globe.

From preventing the spread of AIDS in Africa to helping at-risk teens in Russia, Ethiopia and Israel, the women of Hadassah continue to serve the world community in addition to helping American teens develop their Jewish spiritual identity.

The great accomplishments of Hadassah were recognized last year when Hadassah gained special consultative status as a nongovernmental organization with the United Nations Economic and Social Council. This enables Hadassah to participate more fully in international deliberations over medical research and treatment, immigrant absorption, refugee welfare and the status of women and children—all the areas in which Hadassah has earned its reputation for expertise.

I congratulate the Women of Hadassah for reaching this milestone, and I commend them for their many wonderful accomplishments during the past ninety years.

GIRL SCOUT GOLD AWARDS

HON. PHILIP M. CRANE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. CRANE. Mr. Speaker, I rise today to recognize five outstanding young women from Illinois' 8th District. Sarah Desprat, Kristen Rusek, Katherine Swanson, Julie Zielinski and Shauna Marie Zivin all will receive the Girl Scout Gold Award, the highest award in Girl Scouting.

Only 6 percent of Girl Scouts nationwide receive this award. According the Girl Scouts, the requirements for the Gold Award include efficient organization, time management, and leadership skills resulting in a 50-hour community service project.

I am glad to see the hard work, dedication and commitment of these Girl Scouts are being recognized with this honor. I am proud to represent such fine young women and pass along my congratulations.

CONGRATULATING TEMPLE BETH EL OF SAN MATEO ON THEIR 50TH ANNIVERSARY

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. LANTOS. Mr. Speaker, it is with great pride that I rise to congratulate Temple Beth El of San Mateo California, in my Congressional district, on the 50th anniversary of its founding.

In 1950 the San Francisco peninsula was experiencing an extraordinary growth spurt. Young families were reunited with soldiers returning from the war and began purchase homes with their G.I. loans. This resulted in the rapid growth of the Bay Area. One result of this growth was that public facilities could not meet the demand of the population explosion, and schools were required to have double session to accommodate all the new children. At the time there was only one Jewish institution housed in its own building on the Peninsula at a small synagogue in Menlo Park. Although members of the Congregations Sherith Israel and Temple Emanu-El were cosponsoring a religious school for their children, the schooling took place at a Seventh Day Adventist Church, because the congregations did not have the necessary building space for a religious school.

In order to accommodate their expanding numbers concerned parents met on a Monday evening in October of 1950, calling themselves the "Board of Directors of the Peninsula Temple Congregation." Their focus that evening was to create a facility for Jewish learning and worship on the peninsula. From that first night, it was obvious that this group of dedicated individuals would be a success. They elected officers, organized themselves and took the first steps towards their exciting journey that very first night. Soon they had hired a Rabbi and chose a name; Peninsula Temple Beth El.

Mr. Speaker, over its fifty years Temple Beth El has grown from a few families to a congregation made up of over 700 families numbering more than 3,000 people. Their religious school has become a model of programing followed by other congregations in California and the rest of the country. Today over 600 children receive a quality Jewish education in Beth El's religious school. Two years ago the Gannon Day Care center was named the number one child-care facility on the Peninsula.

In addition to providing excellent religious institutions for their children, the members of Temple Beth El sponsor numerous programs aimed at enriching the spiritual lives of adult members. They were one of the first congregations in California to establish a Havurah—a traditional Jewish prayer group. Members of Temple Beth El are also actively fulfilling their obligations to be involved in social justice. From preparing food for the homeless at the Samaritan House in San Mateo, to collecting donations for numerous charities, serving as tutors for literacy programs in public schools, the members of Temple Beth El are extraordinary examples of selflessness and giving back to their community.

Mr. Speaker, after fifty years Temple Beth of San Mateo remains a vigorous, exciting and expanding congregation. Despite its growth it has remained committed to the core goal—to provide a place for Jewish worship and Jewish education and to nurture Jewish Life on the Peninsula. I urge all of my colleagues to join me in commending Temple Beth El of San Mateo on the occasion of its 50th Anniversary, and wish its members continued success for the future.

OPENING OF SLOVAK CONSULATE IN MIAMI FLORIDA AND 50TH ANNIVERSARY OF SLOVAK GARDEN

HON. JOHN L. MICA

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. MICA. Mr. Speaker, I rise today to recognize the official opening in Miami, Florida of the Consulate of the Slovak Republic and the 50th Anniversary of Slovak Garden in my District. As you may know, Slovakia is a country full of rich history and tradition. It became a free and independent republic in 1993 and opened their new Embassy in Washington, DC in June of 2001.

I am pleased to announce that, Mr. Robert J. Petrik, who is the Honorary Consul of the Slovak Republic to the State of Florida, was appointed by Eduard Kukan, Minister of Foreign Affairs of the Slovak Republic, with the approval by the United States Department of State, established a Consulate of Slovakia in Miami, FL.

Currently there are Consulates of the Slovak Republic in Pittsburgh, Chicago, Cleveland, Minneapolis, Denver, LA and Kansas City. The Honorable Ambassador Martin Butora, PhD, Ambassador Plenipotentiary and Extraordinary of the Slovak Republic to the United States, and his wife Zora Butorova, PhD, will be visiting Florida this week for the purpose of officially opening the Consulate of the Slovak Republic.

There are a number of outstanding events planned to mark this exciting opening and the visit by Ambassador Butora and we are pleased to welcome them to the great State of Florida. Florida continues to experience tremendous growth and advances toward the future, while still recognizing and celebrating its proud history and vibrant culture. The added presence of the Slovak Republic will only serve to enhance Florida's history and culture.

Slovak Garden had it beginnings in 1906, at the 10th National Slovak Society Convention in Connellsville, Pennsylvania, when American Slovaks discussed creating a Slovak retirement community. The seed was sown on November 10, 1939 as the Zivena Beneficial Society Branch 163 celebrated its 25th anniversary. During the program of this celebration, Mr. and Mrs. John Jerga made a substantial financial contribution toward building a retirement community for American Slovaks: Mr. John Jerga, ailing for years, had visited Florida frequently and often remarked how ideal it would be to have this retirement community for Americans of Slovak Heritage in central Florida.

Jergo Road now serves as the dividing line between Slovak Garden and Slovak Village in Winter Park, Florida. It was dedicated in his memory to honor him and his wife Maria for their generous and unselfish donation of $10,000 to the Slovak retirement community in Florida and for other charitable projects they have founded and supported.

After the death of John Jerga on February 23, 1941, Mrs. Jerga continued to be active in various Slovak affairs in Detroit. In 1946, she married a widower, the Slovak fraternalist and newspaper editor, Karol Belohlavek who was very well known in Slovak circles in Pittsburgh, Pennsylvania and Cleveland, Ohio. The idea of creating a Slovak retirement community took on a new image and began moving again, since Karol Belohlavek was a great promoter for the idea. He published numerous articles in Slovak newspapers and solicited financial help from Slovak fraternal organizations and individuals to finance and promote the Slovak retirement community.

Finally, they succeeded in finding a 40-acre farm with an old fashioned two-bedroom house and then acres of citrus grove, the balance of the land being mostly wooded. The farm was located on Howell Branch Road near Winter Park, Florida and just 15 miles east of the city of Orlando.

Slovak Garden, as many other Slovak organizations in America, experienced growing pains of failure and successes during the years. The years from 1952 to 1970 were truly pioneering years for the Slovak Garden, but thanks to many devoted individuals, such as Karol Belohlavek, Mr. and Mrs. Zary, Mr. and Mrs. Kacir, ,Gus and Agnes Hodak, Mr. and Mrs. John Cibula, Mr. and Mrs. Richard Steffel and many others who succeeded to make this concept a reality. The years between 1980 and 1984, Slovak Garden went through tremendously difficult times fighting daily for it survival. In 1984 a new generation became involved, with Andrew F. Hudak, Jr., George Kantor, Mary Ondovcik, Joseph Hoda, Maria Kupcik, Andrew Croftcheck, Martha Volosin, Vincent Kazimir and John Gabor. They and many others helped Slovak Garden resume it progress. In recent years, Slovak Garden with various improvements and additions, continues to serve the American Slovak community and remind us all of a rich heritage.

During the 50 years of Slovak Garden's existence, it has provided comfortable residences to scores of American and Canadian Slovaks, many of whom are now reposing in the national Slovak Cemetery in Slovak Village. Presently, many American Slovaks from various parts of the United States and Canada enjoy gracious living in Slovak Garden. Once a small farm in central Florida, today it is a complete Slovak cultural and retirement community.

We congratulate the Slovak American Community in Florida on these two very special occasions.

HONORING DR. ALBERT ALLEY AND THE WORLD BLINDNESS OUTREACH

HON. GEORGE W. GEKAS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. GEKAS. Mr. Speaker, every once in a while we hear of an individual whose gift of giving is so powerful that it must be recognized. Dr. Albert Alley of Lebanon, Pennsylvania is one of those individuals. and I would like to take this opportunity to honor and commend him and his colleagues for their tremendous generosity and benevolence.

Dr. Alley, through his non-profit organization, World Blindness Outreach, has organized a team of doctors for an annual journey to Nicaragua for the past four years to provide free eye care and eye surgery to those who cannot afford such procedures. Helping him are William Busch, a physician from Pensacola, Florida; Eduardo Miller, a physician from Mexico; Richard Simmons, a physician from Westerville, Ohio; Bill Hoffman, an optometrist from Lebanon, Pennsylvania; Ron Johns, an optician in Dr. Alley's office; and Cheryl Strauss, an operating room technician from the Lebanon Outpatient Surgery Center. Not only do they provide the service, but they provide all the necessary tools and materials required to do that service because the hospital they work out of in Nicaragua cannot afford the equipment.

This past January, these hard-working doctors spent a week working ten-hour days removing 85 cataracts and correcting 12 cases of strabismus. Already, they have plans to continue with this mission of goodwill in March to the Dominican Republic.

Dr. Alley's dedicated passion and ability to spread his amity among his colleagues is a talent which we all endure to achieve. He is indeed a leader whose charitable work and medical help for those who cannot afford it serves as an inspiration to us all.

As a perfect example of how giving is contagious, two women in Nicaragua, inspired by the work of Dr. Alley, collected $100 to donate to Mayor Rudolph Giuliani after hearing of the terrorist attacks in New York and Washington, D.C. this past September. Though this donation may not seem large by our standards, it was collected from individuals whose average annual income is $500.

With the utmost respect and admiration, I commend Dr. Alley, Dr. Busch, Dr. Miller, Dr. Simmons, Dr. Hoffman, Dr. Johns, and Ms. Strauss in the noble and altruistic healthcare they provide to the citizens of Nicaragua. We hope his energy and motivation will proliferate among other medical professionals.

STATUS OF THE DOMESTIC STEEL INDUSTRY

HON. JERRY F. COSTELLO

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. COSTELLO. Mr. Speaker, I rise today to comment on the status of the domestic steel industry.

Our domestic steel industry is currently in a crisis situation. The fundamental cause of this crisis is massive foreign overcapacity, which has caused the United States to become the dumping ground for world excess steel products. As a result of this, since 1997, 31 steel companies have filed for bankruptcy, affecting over 62,000 American steel workers.

In my home state of Illinois, four steel companies have filed for bankruptcy, including Laclede Steel, which is in the Congressional District I represent. Approximately 5,000 steel workers have lost their jobs in Illinois alone.

Yesterday, I was honored to speak at a steel rally in my district. Hundreds of people attended, many of whom have lost their jobs as a result of the illegal dumping of foreign steel. We came together to support the American steel industry—an industry that has been essential to the development of this great nation.

This is not just a trade issue—it is a national security issue. Laclede Steel in Alton produced the steel that built the World Trade Center and we must never become dependent on foreign steel to produce our tanks and battleships and protect the men and women of our armed forces. We need the Administration to implement tariffs to prevent foreign steel from entering our country. We need to level the playing field. Tariffs at less than 40 percent are not relief.

Last year, I joined my colleagues on the Congressional Steel Caucus in urging the President to implement a Section 201 investigation by the International Trade Commission to determine if our domestic markets had been harmed by illegal dumping. In the fall, I testified before the ITC to express my concerns regarding the steel crisis. The ITC ruled unanimously that the steel industry had indeed been harmed.

While the ITC's decision was welcome, it didn't guarantee relief for the domestic steel industry. The ITC recommended the highest tariff rate of up to 40 percent for four years on all subject steel categories; however, it is up to the President to determine what type of remedy should be afforded to the industry. It is imperative that the President imposes the highest possible tariffs, rather than quotas, which will not be as helpful to the industry.

Without strong, decisive and quick action from the President, thousands more steel workers are at a very real risk of losing their jobs, at an economic time when our nation can least afford it.

Mr. Speaker, I urge my colleagues to join me in asking the President to help our domestic steel industry by implementing tariffs on foreign steel. Anything less would be a disservice to the hardworking men and women who are counting on the President to stand up for them.

CONGRATULATIONS TO HADASSAH ON ITS 90TH BIRTHDAY

HON. BENJAMIN A. GILMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. GILMAN. Mr. Speaker, it is with great pleasure that I take the opportunity to congratulate Hadassah, The Women's Zionist Organization of America, on its 90th anniversary.

Nine decades after Henrietta Szold founded Hadassah in the USA in February 1912, it is now the largest women's organization, as well as the largest Jewish organization in the United States. It is not only its membership numbers that make Hadassah such a remarkable organization, but the splendid deeds carried out over nine decades, in both the USA and in Israel, as well as in many other countries.

In Israel, in spite of the ongoing violent conflict, Hadassah, through its flagship project, the Hadassah Medical Organization, has been providing for many years, according to its humanitarian mission, the highest quality health care to countless individuals from throughout the Middle East—regardless of their race, religion or nationality.

In this country, through efforts related to health care—for instance with its "Check it Out" breast cancer detection and awareness campaign—and in many other ways, Hadassah has aided countless American women of all persuasions through its various programs.

Over my many years of public service, I have met in numerous occasions with members of Hadassah. Their indefatigable support for Israel has been a continuous source of inspiration. I count myself as a staunch supporter of this notable organization, and would like to wish Hadassah, the Women's Zionist Organization of America, a "happy 90th birthday", and my best wishes for a continuation of its enriching and exemplary work for many years to come.

HONORING HADASSAH, THE WOMEN'S ZIONIST ORGANIZATION OF AMERICA

HON. BOB BARR

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, February 28, 2002

Mr. BARR of Georgia. Mr. Speaker, founded in 1912, Hadassah is the largest women's and largest Jewish membership organization in the country. February 2002 marks the 90th anniversary of this group working to enhance the quality of American and Jewish life through its education and youth programs, promote health awareness, and provide personal enrichment and growth for its members.

One of Hadassah's most compelling projects is the Hadassah Medical Organization, providing health care throughout the Middle East, regardless of race, religion, or nationality. The Hadassah Medical Organization has also been recognized for its world-class research projects that have resulted in significant medical advances, particularly in the areas of breast cancer and the treatment of various genetic disorders. Since 1984, the Hadassah Medical Organization has also been involved in global outreach programs to other countries, particularly those in Africa.

Some of Hadassah's other projects include the Hadassah Foundation, addressing societal needs in Israel and the United States, and engaging in initiatives outside the Hadassah framework; Hadassah Associates, an affiliate program of Hadassah giving males of all ages the opportunity to share in Hadassah's efforts; and various women's health programs.

I ask my fellow Members of the House to join me today in recognition of the meritorious work Hadassah has done and congratulate them on 90 years of service.

SENATE—*Friday, March 1, 2002*

The Senate met at 9:15 a.m., and was called to order by the Honorable JEAN CARNAHAN, a Senator from the State of Missouri.

PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

Loving Father, You have shown us that the antidote to pride is praise. In this time of prayer, we intentionally praise You for all that we might be tempted to think we have achieved or acquired on our own. Pride stunts our spiritual growth, creates tension in our relationships, and makes us difficult for You to bless. Thank You for breaking the bubble of the illusion that we are where we are because of our own cleverness or cunning. Humbly we acknowledge that we could not think a thought without Your guidance and inspiration or accomplish anything of lasting value without Your strength and courage. We dedicate this day to praise You for the privilege of serving You here in the Senate, for supernatural gifts of wisdom, discernment, and vision to maximize the talents that You have given us, and for the power to press on with opportunities that You have opened for us. All glory, honor, and praise be to You. Amen.

PLEDGE OF ALLEGIANCE

The Honorable JEAN CARNAHAN led the Pledge of Allegiance, as follows:

> I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, March 1, 2002.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable JEAN CARNAHAN, a Senator from the State of Missouri, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mrs. CARNAHAN thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE ACTING MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The Senator from Nevada.

SCHEDULE

Mr. REID. Madam President, today the Senate is going to resume consideration of the election reform bill. There is scheduled at 9:45 a vote. Senators DODD and MCCONNELL control that time until then. We hope that, as Senator DODD has indicated, progress is being made on this bill. We should have announcements prior to 9:45 as to what the rest of the day will be.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

EQUAL PROTECTION OF VOTING RIGHTS ACT OF 2001

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will now resume consideration of S. 565, which the clerk will report.

The legislative clerk read as follows:

A bill (S. 565) to establish a Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes.

Pending:

Clinton amendment No. 2906, to establish a residual ballot performance benchmark.

Dodd (for Schumer) modified amendment No. 2914, to permit the use of a signature or personal mark for the purpose of verifying the identity of voters who register by mail.

Dodd (for Kennedy) amendment No. 2916, to clarify the application of the safe harbor provisions.

Hatch amendment No. 2935, to establish the Advisory Committee on Electronic Voting and the Electoral Process, and to instruct the Attorney General to study the adequacy of existing electoral fraud statutes and penalties.

Hatch amendment No. 2936, to make the provisions of the Voting Rights Act of 1965 permanent.

Schumer/Wyden amendment No. 2937, to permit the use of a signature or personal mark for the purpose of verifying the identity of voters who register by mail. (By 46 yeas to 51 nays (Vote No. 38), Senate failed to table the amendment.)

Smith of New Hampshire amendment No. 2933, to prohibit the broadcast of certain false and untimely information on Federal elections.

Bond amendment No. 2940 (to amendment No. 2937), to permit the use of signature verification programs to verify the identity of individuals who register to vote by mail.

The ACTING PRESIDENT pro tempore. Who yields time?

Mr. DODD. Madam President, I yield whatever time the Senator from Oregon may need.

Mr. WYDEN. Madam President, I commend the Senator from Connecticut, who has just done yeoman work on what I think is a critical question; that is, finding common ground and the bipartisanship that is needed to pass this election reform bill.

I think the Senate has a clear choice this morning. A vote for cloture strengthens this Nation's greatest freedom—the right to vote. A vote against cloture weakens that freedom and it weakens a freedom that is critical for this country and leaves that freedom unprotected.

I believe this morning's vote is a choice between affirming the pioneering spirit of this country—the spirit that led my State of Oregon to champion new voting reforms, such as vote by mail, motor voter laws—and stamping out that spirit with what could end up to be repressive antivoting rules.

So the choice is between election reform and gridlock. I want to be fair with the Senator from Connecticut and we are going to continue to work nonstop, relentlessly, to find a bipartisan approach to this issue. We want to blaze a real trail in meaningful election reform and get this bill on the President's desk.

So I urge my colleagues on both sides to continue to work on this critical effort, to join the Senator from Connecticut and the Senator from Kentucky in an effort to get a bipartisan solution.

I don't want to see this bill derailed. S. 565 is the vehicle that can enfranchise the thousands, perhaps millions of voters who will cast their ballots in every election. But we also need to make sure that there is a fix to S. 565. The photo identification requirement, in my view, would disenfranchise millions of first-time voters by requiring identifying documents to be presented along with their vote—not their registration, but their vote—before that vote could be counted. This would have applied to first-time voters even if they had cast ballots for 50 years in a jurisdiction and then moved down the street to another.

The amendment approved by the Senate allows the signature verification system used by 27 States and the District of Columbia as one option for identifying first-time voters. The amendment I drafted with the Senator from New York, Mr. SCHUMER, protected successful vote-by-mail systems such as the one in my home State and ensured that Americans who may not have access to driver's licenses, bank accounts, and utility bills would still have access to democracy.

There doesn't seem to be any point to rehashing the Schumer-Wyden amendment this morning. A majority of this body acknowledged that allowing signature verification would protect the voting rights of 24 million seniors in this country who disproportionately vote by absentee and mail-in ballot.

The majority of this body agreed with the eloquent assertion of the Leadership Conference on Civil Rights that "requiring voters to present photo ID or other documentation when voting in person or by mail results in discrimination"—that it "would undermine successful vote by mail programs—such as Oregon's . . . and . . . make voting more difficult for millions of elderly and disabled Americans."

A majority of this body refused to overturn the will of Oregon voters and scores of others across this country. In my home State, 70 percent chose to institute a vote-by-mail system based on signature verification, a vote-by-mail system that has boosted turnout to record levels—without deterring voting.

A majority of this body refused to return to the bad old days when only Americans who were already enfranchised could be assured that their vote could be cast and counted.

Most importantly, a majority of this body recognized that being tough on fraud doesn't have to make it tougher to vote. Since approval of our amendment, I have worked with Senator Schumer, Senators DODD, BOND, and MCCONNELL to continue to find a way to meet our colleagues halfway. I have said that I think the framework for a compromise is to strengthen antifraud measures at the front end of the process, when people register and when you do the most good in terms of deterring fraud. I think tougher identification standards at that point in the registration—something the Senator from Missouri has felt strongly about—makes sense and I want to see that happen.

I believe compromise is possible, that we can, on a bipartisan basis, come together, put the voting rights of Americans first, whether they vote by mail or in person, and find ways to stop fraud without putting up roadblocks to democracy.

I ask unanimous consent to have a number of editorials and letters printed in the RECORD supporting the amendment that I and Senator SCHUMER authored.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Wall Street Journal]

SENATE DEMOCRATS AIM FOR COMPROMISES TO SAVE BILL OVERHAULING VOTING SYSTEM

(By David Rogers)

WASHINGTON.—In a last ditch effort to save election-law overhaul legislation, Senate Democrats will seek to compromise on Republican demands for provisions to prevent voter fraud, despite protests from civil-rights and Hispanic groups.

At issue is a proposal to require people who register by mail to present photo identification or other documentation when they first vote in a jurisdiction. Democrats won a 51–46 roll call Wednesday to ease the proposed rules, but the outcome so angered some Republicans that the entire bill was put in jeopardy by a threatened filibuster.

After hours of sometimes tempestuous discussions with civil-rights groups, Senate Rules Committee Chairman Christopher Dodd (D., Conn.) said last night that he is prepared to give ground to the GOP in hope of completing debate and moving to the next step: negotiations with the House and the Bush Administration. Talks continued into the evening with Republican staff in hopes an agreement can be taken to the full Senate this morning.

As outlined by Mr. Dodd, tougher voter-ID requirements would be preserved under the compromise. But the effective date would be delayed until 2004, when the bill also requires states to take steps to better protect the rights of voters who may be challenged at the polls.

The most important of those so-called insurance provisions is the requirement that all states adopt provisional-voting systems for people who claim to be eligible, but aren't on the official registration list. Rather than be turned away outright, an individual in this case would be given a provisional ballot so that if his or her claim is later verified, the vote would be counted.

Minority lawmakers and civil-rights groups were themselves sometimes divided. At one juncture, Rep. Corrine Brown, an African-American Democrat, delivered an emotional appeal for the bill, given the balloting problems in her own state of Florida during the 2000 election.

Rep. Silvestre Reyes (D., Texas), chairman of the House Hispanic Caucus, lent crucial support to Mr. Dodd's decision, which ran in the face of opposition from groups such as the Mexican-American Legal Defense and Education Fund.

Mr. Reyes said the voter-ID provisions are the most difficult for Hispanics because many lack photo identification and don't have easy access to substitute documents. For example, the bill would allow a voter to use his or her utility bill as a form of identification. But Mr. Reyes said that since many Hispanics live together as extended families, not all household members would have a utility bill in their name.

Under the bill, the federal government would for the first time provide funding—$3.5 billion over five years under the Senate version—to help states and localities buy new voting equipment and address such problems as occurred in Florida.

AMERICAN ASSOCIATION
OF RETIRED PERSONS,
Washington, DC, February 12, 2002.

U.S. SENATE,
Washington, DC.

DEAR SENATOR: We are writing to express our firm support for the bipartisan election reform legislation (S. 565 substitute) that you jointly cosponsored with Senators Dodd, McConnell, Durbin, Bond, Toricelli, McCain, Schumer and Brownback. AARP urges you to support passage of the bill. While the S. 565 substitute can be improved, it contains the critical building blocks to reform and enhance the nation's voting system. Enactment of S. 565 should minimize the likelihood of a recurrence of the problems that plagued the Presidential Election of 2000.

We support the Dodd/McConnell substitute because it addresses the following core AARP concerns: Enhancement of civil rights protections; improved registration & balloting technology; improved elections administrative procedures; and provision of Federal funds to encourage state & local reforms.

Equally important, Dodd/McConnell establishes minimum standards of accountability and enforcement.

The bill includes measures critical to older persons, people with disabilities, and minority populations, such as: The ability to verify that their ballots actually reflect their voting preferences; enhanced access to registration opportunities, polling places, and user-friendly equipment; fail-safe provisional ballots to avoid erroneous voter denials; centralized, statewide registration lists to assist in voter confirmation; and funds for better election administration, including voting equipment upgrades, poll site access enhancement and poll worker training.

At the same time, some of the antifraud provisions in Dodd/McConnell need modification in order to assure existing civil rights protections and reduce technical loopholes that might discourage or intimidate potential voters. The bill's photo ID requirements are particularly problematic. Alternative approaches such as signature match and verification, already successfully used by many states, could enhance the anti-fraud provisions without having a chilling effect on voter participation. We strongly urge you to support both the Manager's amendment and a floor amendment that would correct these shortcomings in an otherwise strong, balanced and comprehensive election reform bill.

We appreciate your support in making these reforms in our elections process a reality. AARP look forward to working with the Senate to further our most basic right as citizens—the vote. If you have any questions, please feel free to call me or have your staff contact Larry White of our Federal Affairs staff at (202) 434-3800.

Sincerely,

WILLIAM D. NOVELLI,
Executive Director and CEO.

NATIONAL HISPANIC
LEADERSHIP AGENDA,
Washington, DC, February 11, 2002.

Re the Dodd-McConnell Substitute Amendment to S. 565—The Equal Protection of Voting Rights Act of 2001.

DEAR SENATOR: As members of the National Hispanic Leadership Agenda (NHLA), a non-partisan coalition of 39 national Hispanic organizations and distinguished individuals, we are writing to urge you to support provisions in the Dodd-McConnell bill which improve access to voting for Latino voters and oppose the photo identification requirement (Section 103(b)), which would have a discriminatory effect on Latino voters. Unless Section 103(b) is fixed, the NHLA will urge you to oppose the bill.

NHLA supports many of the bill's provisions, particularly those provisions which set national minimum standards regarding voting systems, provisional balloting, and statewide registration lists. While some states already have laws in these areas, too many states do not. It is time that Congress step in and set some basic standards that ensure that voting is more accessible to all eligible voters no matter in which state they live. Voting is the cornerstone of our democracy. By voting in favor of these provisions, you are voting in favor of an inclusive democracy.

NHLA vigorously opposes Section 103(b) of the bill, which would require voters who register and vote for the first time in a jurisdiction to produce either a photo ID or one of only five limited documents either in person or by including a copy with their ballot. Latino voters are likely to be subject to this provision frequently since we move often, have a significant number of youth turning 18, and have a high number of new citizens. Also, Latino voters are less likely to have the documents required. A Massachusetts federal court recently struck down a requirement similar to the provision in the bill because it would have a discriminatory impact on Hispanic voters under the Voting rights Act (VRA). The Justice Department has also opposed similar measures under the VRA.

We are truly befuddled as to why the Senate would want to take steps to disenfranchise Hispanic voters at this time. The 2000 Census showed the demographic power of the Latino community, and the 2000 and 2001 election cycles demonstrated that our demographic force is converting into a political force. Also, the trends and polls indicate that Hispanic voters are more open to voting for the best candidate to represent them, regardless of party affiliation. At at time when both parties are reaching out to this growing electorate, it is the wrong time to adopt a measure that would make it harder to vote.

We urge you to vote for an amendment to either strike Section 103(b) or fix it by adding in the alternatives of collecting signatures that can be verified or collecting an attestation. We will score the vote on the amendment in our NHLA congressional scorecard. If the provision is not, fixed, we urge you to oppose the bill, and we will score the vote on the final passage of the bill.

Moises Perez, Exec. Director, Alianza Dominicana; Gumersindo Salas, Vice Pres., Hispanic Association of Colleges & Universities; Oscar Sanchez, Exec. Director, Labor Council for Latin American Advancement; Jack Ienna, Interamerican College of Physicians & Surgeons; Roger Rivera, Pres., National Hispanic Environmental Council; Manuel Oliverez, Pres. & CEO, National Association of Hispanic Federal Executives; Alma Morales-Riojas, Pres., MANA, A National Latina Organization; Zeke Montes, Pres., National Association of Hispanic Publications; Manuel Mirabal, Chair, National Hispanic Leadership Agenda & Pres. & CEO, National Puerto Rican Coalition, Inc.; Juan Figueroa, Pres. & General Counsel, Puerto Rican Legal Defense & Educational Fund; Elena Rios, M.D., Pres., National Hispanic Medical Association; Gilbert Moreno, Pres. & CEO Association for the Advancement of Mexican Americans; Delia Pompa, Exec. Director, National Association for Bilingual Education; Brent Wilkes, Exec. Director, League of United Latin American Citizens; Maria E. Mills-Torres, Pres., National Conference of Puerto Rican Women; Raul Yzaguirre, Pres., National Council of La Raza; Syddia Lee-Chee, Latino Civil Rights Center; and Antonia Hernandez, Press. & General Counsel, Mexican American Legal Defense and Educational Fund.

THE LEAGUE OF WOMEN
VOTERS OF THE UNITED STATES,
Washington, DC, February 11, 2002.

To: Members of the U.S. Senate.
From: Carolyn Jefferson-Jenkins, Ph.D., President.
Re: Election Reform.

The League of Women Voters urges you to support the bipartisan election reform bill developed by Senators Dodd, McConnell, Bond and Schumer. The legislation will be offered as a substitute to S. 565. While the substitute is not perfect, it contains the key elements needed to improve our nation's election systems.

The 2000 election demonstrated that basic reforms are needed at the federal, state and local levels to protect voters and to improve election administration. It is also clear that it is time for the federal government to pay its fair share of the costs of administering federal elections.

The Dodd-McConnell substitute provides for basic national standards in vital, but limited, areas. It provides substantial federal funds for election reform efforts. And it provides a blueprint on which federal, state and local efforts can be built.

To protect voters and improve administration, the substitute provides for minimum national standards in three areas. First, voting systems standards will assure that voters can verify and correct their ballots, as well as be notified of overvotes. These standards also protect against high voting machine error rates and enhance access for persons with disabilities. Second, a national standard will assure that voters can receive provisional ballots. This fail-safe system means that if a voter's name is not found on the registration list at the polls, or if other problems occur, the voter can still cast a ballot that will be counted if the voter's eligibility is confirmed. Third, statewide computerized voter registration lists will be required. This facilitates removal of duplicate registration across jurisdictions, provides greater assurance that names will be on the rolls, and streamlines administration while combating possible fraud.

The substitute provides funding through state grants programs that will be developed with public involvement. Funds are provided not only for meeting standards, but also for other vital areas of election administration, including poll worker training and providing access to the polls for persons with disabilities.. The substitute sets up a new federal commission that can provide effective guidance, while Justice Department enforcement of voter protection laws, such as the Voting Rights Act, is maintained.

While the substitute is a strong bill, it contains a photo ID requirement that will result in discrimination and create real administrative problems at polling places. Though the requirement is described as an anti-fraud device, effective alternatives exist to meet anti-fraud objectives that will not undermine voter participation through absentee balloting by persons with disabilities, seniors and others. We strongly urge you to correct this provision. We are also concerned that the so-called "safe harbor" provisions of the bill will have unintended, deleterious consequences.

The League of Women Voters believes that the Senate must act expeditiously on this important topic. We urge you to move ahead with the Dodd-McConnell substitute, which is clearly preferable to the House-passed bill in setting a workable structure for reform and creating an effective election commission.

America deserves an election system that will protect the most basic and precious right of all citizens in a democracy—the right to vote. Each citizen's right to vote, and to have that vote fairly counted, is at state.

[From the Washington Post, Mar. 1, 2002]

FIXING THE VOTE

Last December Sen. Charles Schumer (D-N.Y.) helped broker a bipartisan election reform bill in the Senate; "this is a bill that works, this is a bill that can pass," he said. Now Mr. Schumer has proposed an amendment to that bill, and Republicans say he is damaging the chances of a post-Florida fix for the nation's creaky voting system. But the truth is that the Schumer amendment would improve the bill. Republicans should contain their sense of betrayal and support the measure in the procedural vote scheduled for today. The electoral system will be the better for it.

The Schumer amendment fixes an anti-fraud provision in the election bill. The provision says that new voters, including those who have moved to a different county, must verify their identity by showing a photo ID, a utility bill or some other official document with their address on it. This provision may have the good effect of preventing some fraud. But it also may disqualify voters with no driver's license and no utility bills in their own name—and this group of potentially disqualified voters is much bigger than the likely number of fraudulent ballots.

Some 3 million disabled people are thought not to have driver's licenses or other qualifying picture IDs, and many of them may live in homes where the utility bills go to some other member of the household. Poor people without cars and settled homes may be disenfranchised too. The anti-fraud provision also threatens the vote-by-mail systems in Oregon, Washington and Colorado. It would require voters to photocopy proof of identity and send it in along with the ballot. But some voters live out of convenient range of photocopiers. Others may be put off by the sheer hassle.

The Schumer amendment would fix this danger by allowing states to accept other types of proof of identity—for example, a signature. It would also impose the identity requirement on fewer people—only new voters and those who have moved across state lines, and not those who have just changed counties. This is a good amendment that would significantly cut the risk of disqualifying eligible voters while only marginally increasing the risk of fraud. The Senate should adopt it, and then proceed quickly to pass the election reform bill. The 2000 contest demonstrated that hundreds of thousands of voters are deprived of their rights by a system that is broken. It is past time to fix it.

Mr. WYDEN. Madam President, I do believe that a vote for cloture strengthens this country's greatest freedom—the right to vote—and a vote against cloture leaves that freedom unprotected. A vote for cloture is a vote for the millions of seniors in American nursing homes who need to vote by mail and don't want new barriers to have their votes counted and assured. Their generation saved this democracy and they deserve to participate in it.

A vote for cloture is a vote for working families who use the vote-by-mail system in my State and others as a way to have their voices heard as they live the hectic lives that often present challenges to their getting to the polls. This morning, I urge my colleagues to affirm America's most precious right—the right of every citizen to vote and to have that vote count. I want to wrap up—particularly since my good friend from Pennsylvania is in the Chamber—by reemphasizing my desire to work with my colleagues on the other side of the aisle, Senator BOND and Senator McCONNELL. I have strong views about this issue. We want to work with our colleagues and talk about whether those on the other side of the aisle want a bill. I have stuck up for my colleagues. I think they want a bill and I want to make it clear that I think Senators BOND and McCONNELL are working very hard with us to try to find the common ground. I hope we can get there, and I believe cloture will help advance that.

Mr. SPECTER. Will the Senator yield for a question?

Mr. WYDEN. I yield to my friend for a question.

Mr. SPECTER. Madam President, I thank the distinguished Senator. My question relates to the provisions of the underlying bill, as I understand it, providing that a voter may establish identity by either photo identification, a bank statement, utility bill, paycheck, government check, or any other check, or any other government document which shows the name and address. Is that the Senator's understanding?

Mr. WYDEN. My colleague is right. It is the basic proposition that there are a number of systems by which we can address this concern. There is a reason that groups such as AARP still believe that, even with the measure the distinguished Senator from Pennsylvania has outlined, the legislation without the Schumer-Wyden amendment still creates barriers. We have people in vote-by-mail systems—seniors, the disabled—who find it awfully hard, physically, to get about and locate the kind of documents the Senator is talking about.

Mr. SPECTER. Will the Senator yield further?

Mr. WYDEN. Yes.

Mr. SPECTER. The further question is: The amendment offered by the Senator from Oregon and the Senator from New York would put in the disjunctive one other way of establishing identity and that is, by signature alone—is that correct?

Mr. WYDEN. Of course, in my home State of Oregon, what we have tried to do is to have a tough system at the front end. But, yes, when you sign your ballot and mail it in, and there is a statement about the tough criminal penalties that are involved in falsification there, we prosecute people in the State of Oregon. You can send your ballot in by signing it, and that is then checked against the original signature. That is how it takes place in my home State.

Mr. SPECTER. Madam President, a further question I have of the Senator from Oregon is: How do you prosecute someone where there is a registration by signature and then subsequent voting by signature?

By way of background, I have had considerable experience in prosecuting vote fraud cases, having been in the Philadelphia district attorney's office for 12 years, 4 as assistant and 8 as district attorney. Philadelphia is a rough town with political corruption, and I have prosecuted both Democrats and Republicans.

When you talk about a signature alone, having been registered with the signature and then a signature comes in, there is no way to find that person. The difficulty is that it may be a dead person. Graveyard voting is very popular in Philadelphia—voting people who have died. It is also very popular to have people registered by signature who were never in existence.

I ask my colleague from Oregon, how can you conduct a prosecution—I could never figure out how to—how can you conduct a prosecution, if you have a registration by signature and then you have a signature come in on the card? You cannot find the person. To have a prosecution, you have to have a defendant, you have to have a warrant of arrest identifying somebody, and you have to pick somebody up. How can there possibly be a prosecution for someone who sends in a signature of somebody who never existed?

Mr. WYDEN. Madam President, I say to my friend from Pennsylvania, there have been a number of prosecutions. They, obviously, as my colleague knows from his prosecutorial days, play out in a variety of ways.

For example, I know of an instance where the person was out bragging that they had skirted the law, they were evading the law, and when the prosecutors learned about it, they came down very hard.

The point is—and my colleague makes a good point with respect to how these systems may work in Pennsylvania—Senator SMITH, my friend and colleague, and I had a Senate special election. We generated three times the level of voter participation than we saw in the previous Senate special election. I won by a grand total of 18,220 votes after more than 1 million were cast.

Mr. SPECTER. Any braggarts among those?

The ACTING PRESIDENT pro tempore. The time of the Senator has expired.

Mr. WYDEN. I ask for 1 additional minute.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. WYDEN. Madam President, to my colleague's great credit, he did not assert there was any fraud. We prosecute aggressively in the State of Oregon.

I see my colleague from Missouri is in the Chamber, and I want him to be assured, however this vote turns out this morning, we are going to continue to work relentlessly for a bipartisan compromise.

I urge my colleagues to vote for cloture. I yield the floor.

The ACTING PRESIDENT pro tempore. Who yields time?

Mr. SPECTER. Madam President, I ask for 4 minutes.

Mr. BOND. Madam President, how many minutes remain on this side?

The ACTING PRESIDENT pro tempore. Twelve and a half minutes remain.

Mr. BOND. I will be happy to yield 3 minutes to my colleague from Pennsylvania.

Mr. SPECTER. I increase my request to 6 minutes.

Mr. BOND. We will offer 2½ minutes. I am pleased to yield 3 minutes to my colleague from Pennsylvania.

The ACTING PRESIDENT pro tempore. The Senator from Pennsylvania.

Mr. SPECTER. Madam President, I engaged in a colloquy with the Senator from Oregon to show we really cannot prosecute anyone successfully on this signature arrangement. You register by signature, nobody ever sees the person, and you vote by the signature. The person could be dead or never in existence.

On the one case the Senator from Oregon cites of the braggart case, if somebody admits it, you can prosecute anybody if you are going to have confessions. But, that is not the way criminal law cases arise. In the 12 years I was in the district attorney's office, I never saw somebody who came in and confessed to having committed vote fraud. To prosecute those cases, you have to have evidence and there is no realistic way to obtain it.

I was listening to the majority leader, Senator DASCHLE, on the radio this morning on a playback of a news conference he had yesterday in which he said that the position staked out by Senator BOND requiring photo identification was just too difficult, referring to people in his own State.

But the fact of the matter is, the underlying bill which was worked out in the compromise does not require photo identification. Photo identification is one way. There could be a bank statement, a utility bill, a paycheck, a government check, or any other government document showing an address, showing a person is in existence. If the underlying bill required a photo identification, I would say that is too difficult. There are many other ways to establish that the person actually is in existence, but the signature simply does not accomplish that.

Nobody has a better record than I on voting rights. In my 22 years in the

Senate, I have pushed that consistently. Against many in my party, I have supported motor voter. I want to see the ballot as widespread as possible, but people who want to make it easy to register with motor voter are going to lose it, if there is not some realistic way to prevent fraud.

Frankly, I do not like to see filibusters, but we are on a very basic proposition as to whether we can have widespread fraud without any way to identify whether the person is in existence or not. I think the Schumer-Wyden amendment simply cannot be accepted.

If there are overtones that the bill is going to be pulled if this amendment is not accepted, it seems to me that very frequently—I ask for an additional 25 seconds.

Mr. BOND. I will be happy to yield half a minute to my colleague from Pennsylvania.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. SPECTER. Any suggestion that the whole bill is going to go down over this amendment—the Democrats control the Rules Committee; they have a majority. They have come out with a bill which they have controlled, and that bill ought to be enacted if this amendment cannot survive a cloture vote.

I thank my colleague from Missouri, and I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Missouri.

Mr. BOND. Madam President, I yield myself 5 minutes.

I thank the Senator from Pennsylvania for his excellent work on this bill. As a former prosecutor in a State that has not been a stranger to vote fraud, he knows how difficult it is, and he has made a very compelling case for our efforts to eliminate fraud in this bill.

We have had an interesting dueling set of editorials today that have come out in some of the papers on the east coast. We do not read a lot of them in Missouri, but the Washington Post is the one that did not get it. The Washington Post said:

> Republicans should contain their sense of betrayal and support the measure.

They go on to say that without the Schumer amendment, it would disqualify a number of voters.

No. 1, Madam President, sense of betrayal counts for something here and counts for something back home. It may not matter to editorial board writers within the beltway, but when we make a deal, as we made a deal, a bipartisan deal after accommodations on both sides, I expect that people will stay with that deal.

Somebody said: You made a deal, but now we want you to start negotiating again. I said: Wait a minute, we do not work that way.

We came in good faith to an agreement, and we agreed with the proposition that we ought to make sure everybody who is eligible to vote is registered and can vote.

The Washington Post just flat gets it wrong when it says there are going to be people who cannot qualify. Ninety percent of adult Americans have a driver's license. You have to show identification to get on a plane, to rent a video, to buy cigarettes.

Why can't you have some minimal identification to assure that you are a live human being entitled to vote, and entitled to vote only once in every important election?

Well, we have agreed that with the money we are providing to States, if somebody does not have a photo identification, a driver's license, a government check, a bank account, a utility bill, a pay stub, we are providing the money for the States to issue an election card.

We are worried about all the people in nursing homes. No. 1, everybody who is registered is going to stay registered. The Senator from New York pointed out the problems they had with crowded rolls. We do need to work on purging. I voted against the amendment by my colleague from Montana; he wanted to make it easier to purge no longer active voters from the rolls. I think it was a good idea, but because we had a deal, I voted against his amendment. We are, as the Senator from New York pointed out, going to have to clean it up.

Incidentally, speaking of the Senator from New York, he assured us yesterday—and I am glad to see he is in the Chamber—there was no fraud in New York. Well, I do not know anything about New York, but the Wall Street Journal this morning points out the doubledippers sign up to vote in New York and Florida, and they report that an investigation turned up 286 individuals who voted both in New York City and in Florida last November in the 2000 election. Since you can figure that New York City voters generally vote 3 to 1 Democratic, that means at least 140 fraudulent votes for the Gore-Lieberman ticket in Florida.

One other thing. Somebody gave me a copy of the New York Daily News: Double Take in Ballot Probe. Voters With Same Name and Birthday Expose New York System.

> Seventy-five voters with the same name and same date of birth registered to vote in Brooklyn and either Rockland or Orange Counties. Fourteen actually voted in more than one county, sometimes in the same election.

It describes how the double voting and the double registration occurs in some areas with heavy Democratic votes. So there are some problems, but frankly we do not have time to go into it.

The ACTING PRESIDENT pro tempore. The Senator's time has expired.

Mr. BOND. Madam President, I ask unanimous consent that I be allowed 1 additional minute.

The ACTING PRESIDENT pro tempore. Is there objection?

Mr. MCCONNELL. Madam President, how much time remains on this side?

The ACTING PRESIDENT pro tempore. Three minutes fourteen seconds.

Mr. BOND. Madam President, I ask unanimous consent that the Daily News article, the Wall Street Journal editorial, the Washington Post editorial, and a New York Times editorial which says Americans should be willing to verify their identity in order to exercise the right to vote, and the St. Louis Post-Dispatch article on the famous dog Ritzy Mekler, whose owner says she, Ritzy, does not want any other dogs voting, be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

From the Washington Post, Mar. 1, 2002

FIXING THE VOTE

Last December Sen. Charles Schumer (D-N.Y.) helped broker a bipartisan election reform bill in the Senate; "this is a bill that works, this is a bill that can pass," he said. Now Mr. Schumer has proposed an amendment to that bill, and Republicans say he is damaging the chances of a post-Florida fix for the nation's creaky voting system. But the truth is that the Schumer amendment would improve the bill. Republicans should contain their sense of betrayal and support the measure in the procedural vote scheduled for today. The electoral system will be the better for it.

The Schumer amendment fixes an anti-fraud provision in the election bill. The provisions says that new voters, including those who have moved to a different county, must verify their identity by showing a photo ID, a utility bill or some other official document with their address on it. This provision may have the good effect of preventing some fraud. But it also may disqualify voters with no driver's license and no utility bills in their own name—and this group of potentially disqualified voters is much bigger than the likely number of fraudulent ballots.

Some 3 million disabled people are thought not to have driver's licenses or other qualifying picture IDs, and many of them may live in homes where the utility bills go to some other member of the household. Poor people without cars and settled homes may be disenfranchised too. The anti-fraud provision also threatens the vote-by-mail systems in Oregon, Washington and Colorado. It would require voters to photocopy proof of identity and send it in along with the ballot. But some voters live out of convenient range of photocopiers. Others may be put off by the sheer hassle.

The Schumer amendment would fix this danger by allowing states to accept other types of proof of identity—for example, a signature. It would also impose the identity requirement on fewer people—only new voters and those who have moved across state lines, and not those who have just changed counties. This is a good amendment that would significantly cut the risk of disqualifying eligible voters while only marginally increasing the risk of fraud. The Senate should adopt it, and then proceed quickly to pass the election reform bill. The 2000 contest demonstrated that hundreds of thousands of voters are deprived of their rights by a system that is broken. It is past time to fix it.

[From the Daily News]

DOUBLE TAKE IN BALLOT PROBE—VOTERS WITH SAME NAME & BIRTHDAY EXPOSE N.Y. SYSTEM

(By Bob Port and Greg B. Smith)

Yitchok Levovits, whose birthday is Dec. 29, 1970, voted in Brooklyn's Hasidic neighborhood of Williamsburg on Election Day, November 1996.

Forty miles away in the Rockland County Hasidic community of Monsey, Yitchok Levovits, whose birthday is Dec. 29, 1970, voted in the same election.

The question of residence came up again in November when Yitchok Levovits voted in the general election in Monsey even though last week he was found living in Brooklyn.

Levovits is one of 75 voters with the same name and same date of birth registered to vote in Brooklyn and either Rockland or Orange counties, a Daily News investigation found.

Of that number 14 actually voted in more than one county sometimes in the same election according to a computer analysis of voter registration records.

Several registered in one county shortly before voting in another. Some registered to vote in one county then voted in another.

The Daily News reported yesterday that during the last election, there was evidence of similar voting irregularities in the Rockland County Hasidic community of New Square. That contributed to an overwhelming 1,400-to-12 New Square vote for Sen. Hillary Clinton that is now under investigation by federal prosecutors.

But the irregularities appear to extend beyond New Square into other Hasidic communities in Brooklyn's Williamsburg, Rockland County's Monsey and Orange County's Monroe.

The News found that in New York it's easy to pull off double voting because—unlike many other states—New York has no nationwide system for registering voters.

Each country has a separate registration system, and no one checks to see if a voter is registered and voting in two spots.

"There is no computer link. Some of the upstate counties aren't even on computer," said Steven Richman, general counsel to the New York City Board of Elections.

For instance, Jacob Fligman, whose birthday is July 29, 1953, voted in the general election of 1998 in both Brooklyn and Monsey. He also voted in November in Monsey, but this week he was found at his apartment in Brooklyn.

In all, seven men voted in elections in both Brooklyn and Rockland County throughout the 1990s, raising questions about whether they properly voted in November's election.

Israel Reich voted in Brooklyn in 1997 and 1998, and this week he was found at his apartment on Wythe Ave. in Williamsburg. He voted in Monsey in November.

Chaim Pinkasovits voted in November in Monsey, though his name was listed this week on a mailbox at his apartment on Hooper St. in Brooklyn's Williamsburg.

Jacob Weber voted in the November election in Monsey, but last week a neighbor said he lived in an apartment on Heyward St. in Williamsburg.

New York Attorney General Eliot Spitzer has called for a statewide voter registration system that would make it easier for voters to register, but also "enable election officials to curb election fraud."

Spitzer's report, issued in February, specifically noted state wide registration would "curb multiple voting."

[From the New York Times, Mar. 1, 2002]

VOTE FOR VOTING REFORMS

All week, partisan wrangling over the question of preventing electoral fraud threatened to kill the Senate's sensible election reform bill, though a compromise seemed within reach late yesterday. Differences over the fraud issue do not justify scuttling the overall bill, the product of year-long, painstaking negotiations. The resulting bipartisan legislation goes a long way toward curing the deficiencies in the nation's balloting process that became manifest in the 2000 presidential election. Senate leaders must ensure that the vote on electoral reform proceeds, and should encourage members to support it overwhelmingly.

The legislation establishes federal standards for voting procedures and technologies that state and local election officials would have to meet when administering national elections, and it provides $3.5 billion over five years to pay for the upgrade. The bill forces states to meet federally mandated error rates for their voting equipment, provide provisional ballots when someone's eligibility is questioned at the polls and allow people an opportunity to correct improperly marked ballots. The bill's anti-fraud provisions were necessary to gain key Republican support late last year for such a forceful federal intrusion into the states' traditional prerogative of running elections. When Senators Charles Schumer and Ron Wyden, both Democrats, offered a last-minute amendment to remove the bill's requirement for first-time voters who register by mail to identify themselves at the polls, the measure's Republican sponsors, Christopher Bond and Mitch McConnell, felt their Democratic colleagues were reneging on the deal, and they threatened to filibuster the legislation.

Both sides would be foolish to allow the fight over this amendment to kill the legislation. Republicans should know that forcing states to maintain computerized statewide voter lists, a key item in the bill, does more than the disputed provision itself to combat fraud, eliminating as it does duplicate registrations in several counties.

The Schumer-Wyden amendment was strongly supported by a coalition of civil rights groups that say the burden of having to produce a photo identification card or an alternative proof of identity, like a utility bill, disproportionately hurts minority voters, recent immigrants, students and people with disabilities. Their legitimate concerns must be balanced against the need to safeguard the integrity of the process.

Americans should be willing to verify their identity in order to exercise their right to vote. Senators Schumer and Wyden are wisely seeking an accommodation with Republicans, even if it means leaving much of the original provision intact. The Senate must move ahead now and pass this needed reform.

[From the Wall Street Journal, Mar. 1, 2002]

SHOULD DOGS VOTE?

Dogs and dead people don't have a constitutional right to vote, but more of them are going to start turning up at the polls if Senate Democrats, led by New York's Charles Schumer, have their way.

It wasn't supposed to come to this. Following the Florida 2000 debacle both parties were eager to fix the system. The House did its part by passing a bipartisan bill last year. And then in December, after months of negotiations, Senator Christopher Bond (R., Mo.) and Mr. Schumer announced that the Senate, too, had reached a compromise. Their bill, said Mr. Schumer, would allot $3.5 billion for states and localities to upgrade voting systems, improve registration procedures and educate voters about ballots.

It would also target voter fraud, which has been on the increase since the 1993 Motor Voter Law allowed people to register to vote while applying for a driver's license. Unfortunately, some 95% of Motor Voter registrants don't vote, but their names are available for political operatives and others to misuse. A St. Louis dog once registered. The Senate bill requires those who register by mail and are voting for the first time to prove their identity.

Acceptable proof of identity would include photo ID, a utility bill, a bank statement, a government check, a pay check, or any government document showing the name and address of the voter. This is not a requirement that every voter show up at the polls with a photo ID. The measures would apply only to first-time mail-in registrants.

These antifraud measures, which were acceptable to Democrats two months ago, are somehow now unacceptable; Mr. Schumer this week introduced an amendment that strips away the mail-in registrant requirements. And on the Senate floor yesterday he announced that his home state is practically fraud free.

"In New York," said Mr. Schumer, "We have not had—I checked again yesterday, we called around the state. We called people, not just on one party or another . . . There's been almost no allegation of any kind of fraud with our system." Perhaps he thinks that all of the political cheats in the Northeast live in New Jersey.

Alas, the Senator failed to call one of his hometown newspaper, the New York Post, which reported two years ago in a story headlined "Double-Dippers Sign Up to Vote in N.Y. and Florida" that "New York City [alone] has 11,642 voters with illegal dual registrations." An investigation of voting records in New York and Florida by the Republican National Committee, which the Senator also apparently failed to ring, has turned up 286 names of individuals who double-voted in November 2000.

Mr. Schumer would prefer that states verify voter identities through signature matching. Not only would this be a costly provision—34 states currently don't use signature verification and would have to purchase the technology—but it would also require that the nation's 1.4 million poll workers double as hand-writing experts.

The truth is that Senate Democrats are trying to torpedo a bill they helped write due to pressure from civil rights groups such as the NAACP and La Raza. The activists claim that requiring proof that a voter is a real person is an "undue burden." They expect us to believe that the same ID requirements for, say, renting a video or buying a pack of cigarettes somehow disenfranchise the poor and elderly when it comes to casting a ballot.

Mr. Schumer's amendment passed in a largely partisan preliminary vote Wednesday, but Senate Republicans are planning to filibuster and we'd encourage them to do so. Someone has to make the case that the integrity of the ballot box is just as important to the credibility of elections as the access to it.

[From the St. Louis Post-Dispatch, Mar. 1, 2002]

SPANIEL MAKES SENATE APPEARANCE IN SUPPORT OF BOND'S REFORM EFFORTS

(By Deirdre Shesgreen)

WASHINGTON.—Ritzy Mekler has given new bite to Sen. Christopher "Kit" Bond's election-reform crusade.

Ritzy, a 13-year-old English springer spaniel, was Bond's Exhibit A on the floor of the Senate this week as the Missouri Republican pressed his case for anti-fraud provisions in legislation to overhaul the nation's voting system. The reason: When she was a younger pup, Ritzy was registered to vote in St. Louis.

The dog's 1994 registration is one reason, in Bond's view, that St. Louis has a reputation for vote fraud. Other reasons are recent efforts to register several dead St. Louisans, including a prominent former alderman.

What does Ritzy think about her sudden celebrity status?

"Ritzy would like for their to be reform," deadpanned her owner, Margaret Mekler, a retired teacher who lives in St. Louis. "I don't think she wants any other dogs, including the ones in her own household, voting."

Mekler seconded her pet's position. "Our dog is very intelligent," she said, "but I'm not sure I want her voting on who's going to be the president."

Bond was pleased.

"I'm glad to have Ritzy's support," he said. "I just don't want her votes."

Bond hoped to eliminate the animal vote through a provision in the legislation that would require first-time voters who register by mail to show a photo ID or other verification of their identity, such as a utility bill, before they vote.

But Democrats said that requirement would disenfranchise many voters—such as the elderly or immigrants—who don't have the necessary identification cards. Sens. Charles Schumer, D-N.Y., and Ron Wyden, D-Ore., offered an amendment that would allow voters to prove their identity by providing a signature that could be matched with a signature on record with local election authorities.

Bond said the amendment would "gut" his anti-fraud provisions.

He promptly trotted out a blown-up copy of Ritzy's 1994 registration card to the Senate floor. With the card on prominent display, Bond said Schumer's amendment would do nothing to keep the pooch from casting a ballot.

"I have a feeling that whoever wrote 'Ritzy Mekler on that registration form probably could duplicate that 'Ritzy Mekler' signature each and every time they wanted to vote," said Bond as the debate opened earlier this week.

Schumer responded that there was no law Congress could pass to keep all dogs from voting.

"Ritzy, whom we have heard a lot about, is going to find a way to vote illegally, incorrectly, whether we have this amendment or not," Schumer said. "All the owner of Ritzy has to do is put a photo ID in that envelope."

Democrats won a preliminary vote on Schumer's amendment, prompting Bond and other Republicans to hold up the bill, which is now stalled.

Just how Ritzy got onto the St. Louis voter rolls is still a mystery.

Mekler suspects it started when she and her husband put their phone number under Ritzy's name because they didn't want their own names listed in the phone book.

Then they received a notice from the election board.

". . . We got a voting notification that said that Ritzy . . . had been registered, unbeknownst to us," Mekler said. "The registration said she had moved here from California, she was 21, and had a Social Security number."

"We got the letter and we said 'Well, wait a minute, What is this?'" Mekler recalled.

Mekler, 56, suspects someone must have seen Ritzy's name in the phone book and decided to register her, not knowing she was a dog.

As soon as they realized the mistake, the Meklers notified the election board.

St. Louis election officials said nobody by name of Ritzy Mekler ever voted. "Ritzy was removed (from the voting rolls) as soon as we received a call from Mr. Mekler," said Jeanne Bergfeld, assistant director of the Election Board.

Bergfeld also said she knew of no second attempted dog registration last year, as previous elections officials had reported after 3,800 suspect cards were dropped off at the Election Board just before the mayoral primary last March.

The cards included the deceased, but no canines, she said.

Mekler said she'd like stricter rules for voter identification, though not all members of her household agree.

"I hope (we) get some reform," she said. "If not, we have two other dogs and a cat who would like to register."

The ACTING PRESIDENT pro tempore. The Senator from Kentucky is recognized.

Mr. McCONNELL. Madam President, the Wall Street Journal editorial this morning has accurately captured the essence of our vote this morning—"Dogs and dead people don't have the constitutional right to vote, but more of them are going to start turning up at the polls if Senate Democrats, led by New York's CHARLES SCHUMER, have their way."

The cloture vote today is not about whether we support election reform; clearly everyone in this Chamber does. The cloture vote today is about ensuring the integrity of our elections—do we want to make it harder, or easier, to cheat.

Over 2 months ago Senators DODD, BOND, SCHUMER, TORRICELLI, and I introduced a bipartisan bill to make it easier to vote and harder to cheat. This compromise was the result of months and months of negotiations among the five of us.

Two weeks ago this bill was brought before the entire Senate for its consideration. But, on Tuesday night, after 5 days of debate on the bill, the Senator from New York, one of the principal negotiators and cosponsors of this compromise, offered an amendment which would eviscerate one of the key antifraud provisions of our deal.

The antifraud provisions in the compromise are due to the hard work of the Senator from Missouri, which I thought we all supported. He sought to ensure that when one talks about the *Spirit of St. Louis* they are referring to an airplane, not a dead voter.

This amendment was put to a vote on Wednesday morning and the three Democratic cosponsors of the bill voted in favor of gutting the antifraud provision. After months of negotiations, after more than 2 months between introduction and bringing it up on the floor, and after 5 days of debate, it appears our cosponsors did not really support the agreement after all.

The Senator from Missouri and I voted to support the compromise we had reached. That is what this vote today is all about.

This vote is as much about the sanctity of a compromise deal as it is about a person's right to vote, and do so only once.

A vote today against cloture is not a vote to kill election reform. To the contrary, it ensures effective and balanced reform.

Over the course of this 8-day debate we have addressed issues important to individuals Senators and their home States.

However, the Schumer amendment which brought this debate and this Chamber to a grinding halt, takes us all back to the first days of our negotiations over this compromise.

We already discussed, debated, and decided these issues once, and now my colleagues want to do it all over again but this time on the floor of the Senate.

My colleagues on this side of the aisle have serious concerns about some provisions of this bill, but we have been willing to work with the Senator from Connecticut to preserve the key provisions of the compromise.

This vote is all about the Schumer amendment, which would make it easier to cheat, impose the most expensive mandate on the states, and require 1.4 million poll workers to become handwriting experts.

Quoting again from the Wall Street Journal:

> Someone has to make the case that the integrity of the ballot box is just as important to the credibility of elections as the access to it.

I commend the Senator from Missouri from doing exactly that.

The Schumer amendment unravels the core agreement we had reached on election reform and has turned what we had hoped was going to be a largely bipartisan exercise into a partisan split, which will be evident in a few moments on the cloture vote.

I urge my colleagues to vote no on cloture. A vote against cloture is not a vote against election reform. It gives us the opportunity to continue to discuss the matter and hopefully work out this problem.

The Senator from Connecticut has spent an enormous amount of time on this issue, and so have I and other Senators, and we still would like to see a bill passed, but this is a critical point. The whole crux of this bill is to make it easier to vote and harder to cheat. What the Senator from Missouri has offered and has discussed—and the provision that was in the underlying bill is quite simply understood—is this deals with first-time registrants by mail only, that they be required to provide some identification so we can eliminate dead people and dogs from the rolls all across America. I do not think that is asking too much.

The sanctity of the vote is important to everyone, and to the extent dead people and dogs can vote, it diminishes obviously the votes of all the rest of us. So that is really what this is about. A vote no on cloture will give us the opportunity to continue to discuss this matter and hopefully get back to the original core compromise that brought us all together in the first place. Consequently, I urge my colleagues to vote no on the cloture motion that will be before us momentarily.

The ACTING PRESIDENT pro tempore. The Senator from Nevada.

Mr. REID. Madam President, I ask unanimous consent that the Senator from Connecticut be given 1 minute.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The Senator from Connecticut.

Mr. DODD. Madam President, so my colleagues know, we had hoped as a result of hours of negotiation—and I am not exaggerating—over the last 48 hours, we would resolve the issue at hand. I mentioned the other day the efforts have gone on for several weeks. Unfortunately, not everybody has seen every dotted "i" and crossed "t," and obviously if that is the case, then we cannot get the unanimous consent necessary to either vitiate cloture or to withdraw amendments and consider others.

So we are in a situation where the rules of the Senate make it very difficult, if there is not complete agreement on everything, to move forward.

Let me say to those who are interested in where this debate is going, we are very close to a resolution of this particular issue that has caused the stall on this bill. It is my fervent hope and belief that come the first of next week we will be able to complete action on this bill. When we get beyond this issue, there are several remaining issues that will need to be voted on. My view is none of them is of such a nature, whether adopted or defeated, that would go to in any way derail the process.

On the cloture vote, Members will vote for or against. At this point, it is a matter on which we are going to vote, but it does not go to the issue of whether we are voting for dead dogs or live people or dead people and live dogs. The issue is whether or not we are going to get to an agreement, and I believe we can.

I regret we did not have it done by this morning. I thought we had, but obviously we do not, and so I am disappointed by that fact. I am optimistic we can get there in the next couple of days.

The ACTING PRESIDENT pro tempore. The Senator from New York.

Mr. SCHUMER. I ask unanimous consent to address the Senate for 30 seconds.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. SCHUMER. Madam President, I add my remarks to those of the Senator from Connecticut. We are willing to compromise. We have worked fully. We have moved on the amendment that Senator WYDEN and I have to virtual agreement with what the Senator from Missouri wants. Let us not hold up this bill. We think that having the overall bill is more important than the amendment the Senator from Oregon and I offered. We want to try as best we can to protect voters, but we do not want the bill to go down. We do not want to use that as a pretext for killing this bill.

CLOTURE MOTION

The ACTING PRESIDENT pro tempore. Under the previous order, the clerk will report the motion to invoke cloture.

The senior assistant bill clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close the debate on S. 565, the election reform bill:

Christopher Dodd, Harry Reid, Charles Schumer, Ron Wyden, Debbie Stabenow, Patty Murray, Tom Daschle, Jeff Bingaman, Daniel Inouye, Carl Levin, Max Baucus, Joe Biden, Pat Leahy, James M. Jeffords, Barbara Mikulski, Bob Graham, Edward M. Kennedy.

The ACTING PRESIDENT pro tempore. By unanimous consent, the mandatory quorum call has been waived. The question is, Is it the sense of the Senate that debate on S. 565 relative to election reform shall be brought to a close?

The yeas and nays are required under the rule.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. REID. Madam President, on this vote, I have a pair with the Senator from Nevada, Mr. ENSIGN. If he were present and voting, he would vote nay. If I were permitted to vote, I would vote yea. I, therefore, withhold my vote.

I further announce that the Senator from Georgia (Mr. MILLER) is necessarily absent.

Mr. LOTT. I announce that the Senator from Kansas (Mr. BROWNBACK), the Senator from Montana (Mr. BURNS), the Senator from Idaho (Mr. CRAIG), the Senator from Nevada (Mr. ENSIGN), the Senator from Texas (Mr. GRAMM), the Senator from North Carolina (Mr. HELMS), the Senator from Texas (Mrs. HUTCHISON), the Senator from Oklahoma (Mr. INHOFE), the Senator from Oklahoma (Mr. NICKLES) and the Senator from Wyoming (Mr. ENZI) are necessarily absent.

I further announce that if present and voting the Senator from Montana (Mr. BURNS) would vote "no."

The PRESIDING OFFICER (Mr. NELSON of Florida). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 49, nays 39, as follows:

[Rollcall Vote No. 39 Leg.]

The PRESIDING OFFICER. On this vote, the yeas are 49, the nays are 39. Three-fifths of the Senators duly chosen and sworn not having voted in the affirmative, the motion is rejected.

The majority leader.

Mr. DASCHLE. Mr. President, I enter a motion to reconsider the vote by which cloture was not invoked on S. 565.

The PRESIDING OFFICER. The motion is entered.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DURBIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. CLELAND). Without objection, it is so ordered.

Mr. DURBIN. Mr. President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

IDENTIFICATION BY DRIVER'S LICENSE

Mr. DURBIN. Mr. President, this afternoon many Members of Congress, many people across America will be headed to airports, and at the airport checkpoint they will be asked to show some form of a photo identification as well as a ticket. That is now the custom in America. It is something we have come to accept as part of our effort to make certain we have security on planes and in airports.

The most common form of identification which will be presented by passengers across America to prove their identity is their driver's license. More than any other documentation, that is what people use when they travel.

But, if we look to the question of the authenticity and integrity of a driver's license, I am afraid we find very troubling statistics and information. It seems that with very little effort and a minimum amount of money, virtually anyone in America can get a driver's license made with their picture on it. It may not be their real name. It may not have any accurate facts on it. But it will be a photo of some person with some name.

A driver's license, as the primary source of identification in America, is your ticket to enter our society. Once you have that driver's license and present it, you are in the system. You are recognized as part of the system.

You may want to get in the system for a variety of reasons. A person who is over 21 years old and wants to buy alcohol needs a driver's license to present so they can make that purchase. Someone who is in the business of stealing the identity of another person will want a driver's license with their photo on that other person's statistical information.

Of course, if your goal is even more sinister, a driver's license becomes critical. Timothy McVeigh knew that. That is why he used a phony driver's license when he rented the truck which he drove into Oklahoma City, blew up and killed so many innocent people. Several of the 19 terrorists involved in the September 11th attack also knew how important a phony driver's license was. They either obtained fake driver's licenses or licenses issued to them under false pretenses, which gave them access to a system, which started opening doors once the driver's license was in their name—or at least in some name with their photo.

When we debate this, a lot of people in America get nervous. If we are talking about identification cards, are we talking about a national identification card system? I am not proposing that at all. Some Members of Congress have. I am not one of them. But I do think there are things we can do that can strengthen the process of issuing driver's licenses all across America, which can make them more uniform, more authentic, more credible.

I am working on legislation, and I will be holding a hearing in the Governmental Affairs Committee in the coming weeks that will address this issue. I have worked with the administrators of State agencies across America. Every State agency with the responsibility of issuing driver's licenses is part of an association which has worked with me in an effort to come up with some standards across the States. When I walk into a DMV, whether it is in Illinois, New York, Georgia, or California, what do they ask to prove my identity? Is it a birth certificate? Is it a passport? What will really prove my identity?

I think establishing minimum uniformity in the way driver's licenses are issued State to State makes sense. It is going to eliminate forum shopping by those who are looking for the easiest State to provide counterfeit and illegal documents in the process of obtaining a driver's license. That is why I worked with the association to come up with minimum uniform standards, so that State to State everybody knows that a person applying for a driver's license has established their identity through the most credible means. If somebody comes to Illinois to apply for a driver's license and they produce documentation that indicates they once lived in another State, I think the State of Illinois should have an opportunity to have access to that other State and find out if there is a chance that person either applied for a driver's license which was suspended or revoked or that State has some information that may be of value to Illinois before issuing the license. I think this is an excellent starting point.

We are also working with States in terms of applying standardized verification requirements, such as validating source documents, for example. This includes authenticating the information provided, perhaps by cross-checking with other government agencies. So if somebody came and said, "Here is my birth certificate as part of the proof of who I am," there would be a way to establish how you would cross-check that to make certain the document was valid.

We are also working on ways to prevent tampering and counterfeiting of documents. This morning, on the CBS morning show, I was a guest of Bryant Gumbel. They featured a video segment where one of their reporters went to Los Angeles with $150 in hand and started walking the streets and saying, "Where can I get a phony driver's license?" It didn't take long to find one. Within a short period of time, that phony license was prepared with the reporter's photo for $150. Then he took that license and started buying airline tickets with that new name. He also got on several flights without anyone ever stopping him for using a phony document.

That tells you how easy it can be even with enhanced aviation security today. But there are ways to make these driver's licenses more secure so they can't be counterfeited and easily manipulated. There are also ways to authenticate the validity of the driver's license using very inexpensive equipment. I think that ought to be part of our goal as well.

We also need to establish tougher criminal penalties for those who would misuse driver's licenses, who would issue phonies, or those who, frankly, are part of a network that is trying to make a profit at the expense of identity. Senator BARBARA BOXER of California and I discussed this issue this morning. She has legislation that addresses some of these aspects and we are going to work together with her on that.

We also provide Federal whistleblower protection to those who uncover internal fraud or report suspicious activities involving State motor vehicle agencies. Why is this important? Look at what recently happened in Tennessee. There was a woman who—at least, it is alleged—was involved in an illegal scheme to sell driver's licenses, which is a very serious charge for somebody who had been a State employee in Tennessee. Then, under the most mysterious of circumstances, within a day of her expected court appearance, her car was set on fire, and she was killed. We have had instances in my State where people working at the driver's license stations have been bribed to issue commercial driver's licenses and other things. That does not give us confidence in the integrity of the system today.

We need enhanced criminal penalties in place for anyone involved in any aspect of the fake driver's license trade, and also we need to establish whistleblower protections to get people to come forward with information.

We should also require States to implement effective auditing programs in order to scrutinize every aspect of the issuing process for driver's licenses. One way to cut down on internal fraud and abuse is to protect the integrity of the agency's process. So a State should be able to find out for example, through routine audits, if some of their equipment used to manufacture driver's licenses are missing or inventory is unusually low for the number of applications received.

Frankly, these things would move us toward a system which would give more credence to the current process of presenting identification. I don't mind standing in line at airports. Last week, I was at Chicago Midway, and I twice stood in lines for a half hour each to present my identification and plane ticket. That is part of the cost of making certain that when I got on that airplane, it was safe. I think people all across America understand that. It is sad, and I wish it weren't the case, but it would be sadder still if the wrong person using fake documents got on the plane and ended up endangering many innocent lives. But if this process is worth anything, and if it is going to work, the identification presented has to be valid and validated. That is why this effort is so important.

I have discussed this in terms of terrorism and security, but two other aspects should be mentioned. All across America now, we have problems with drunk driving. Fortunately, the percentage of drunk drivers has gone down dramatically in this country, and I give credit to effective law enforcement, as well as to organizations such as Mothers Against Drunk Driving (MADD) and Students Against Drunk Driving (SADD). They have changed the climate and environment, advocating designated drivers and a more responsible use of alcohol. Even some of the beer and alcoholic beverage companies have gone that extra step to try to advertise the dangers of drinking and driving, and the need to be suspicious of those who do.

The biggest problem we face here is the number of young people under 21 who are easily able to obtain phony driver's licenses and identifications who can then purchase alcohol. Once they purchase and consume it and end up in an intoxicated state, they endanger their lives and others. If we toughen the standards by which States issue these driver's licenses, and if we go after the manufacturers and marketers of fake documents with heavy penalties, and if we make the cards more resistant to counterfeiting, then I believe we can diminish the likelihood that a young person will end up with a phony license or identification, buy alcohol, and cause a death in the process.

The next area I will mention is one that I know personally—identity theft. You may not be aware of the fact that this is the largest growing consumer fraud complaint in America. Last year, at the Federal Trade Commission, 204,000 complaints were filed for a variety of deceptive practices, and 42 percent of them related to identity theft. This means that in just one year, close to 100,000 Americans were victimized when somebody took their name and their information and did something with it without their approval. It has happened to me as a Member of the Senate. I got a call a couple of years ago at home, and they said:

> We finally caught up with you, Richard Durbin. Did you think you were going to avoid this bill you incurred in Denver, Colorado?

I said:

> I haven't incurred any bills in Denver, Colorado."

They said:

> Yes, you did. You applied for a credit card, and here is your Social Security number. You made several thousand dollars in purchases and you never paid for it.

I said:

> It never happened. I never went to that store. I haven't been in Denver, Colorado, for that purpose.

Someone had stolen my identity, and they applied for a local credit card, and they ran up several thousand dollars in purchases. Of course, they didn't make any payments. Eventually, I straightened it out. There are ways to do that although it could take a long time. I give credit to the credit agencies that accepted the truthful information and cleared my credit record.

Identity theft is growing, and part of the scam is to come up with phony documentation. One of the key elements in documentation is your driver's license which is the most widely used form of identification. Once you have that license, doors start to open. You use that phony license to match the name on a stolen credit card, and you are off to the races. It is pretty easy. Sadly, we have to acknowledge that it is a growing problem in America.

So coming up with minimum uniform standards on driver's licenses, making sure that when they are issued, they are truly issued to the person who is applying for them, providing ways to make certain that other States haven't revoked a driver's license when a new State is being asked to issue one, making certain that States improve their internal processes to prevent fraud and abuse, putting in tougher penalties for those who would abuse them, incorporating security features on driver's licenses so they can't be counterfeited—all of these things move us forward to improve our nation's security.

And all of these common sense solutions add up to a process that is far from anything remotely resembling any national identification card. There would not be any new nationally issued cards or databases or tracking systems or collection of sensitive information. There would not be intrusion on privacy—if the FBI needed information about a potential criminal's information contained in his DMV record, they would go through the same process they do today—by going to each State and following the established process to obtain that information.

What I propose is a system where the States would have an incentive to move forward—a better system, more accurate, with more integrity, with ability to work more effectively with other States. I think this is a step in the right direction. I commend my colleagues who have expressed an interest in this issue. In the next several weeks, we will have a hearing in the Governmental Affairs Committee, where we will bring in people from across the spectrum—law enforcement, State leaders and representatives, those who have been deceived, and those who have had their identity stolen from them.

I will ask them to come together to help us with legislation that will take this commonsense step forward, to make sure that the most commonly used photo identification presented at an airport or a train station or at the bank is really an indication of true identity of the cardholder.

I yield back my time, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DASCHLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. REED). Without objection, it is so ordered.

ORDER OF BUSINESS

Mr. DASCHLE. Mr. President, there are discussions underway regarding the impasse we continue to experience on the voter identification amendment and other related issues on the election reform bill. I am probably stating the obvious—but I will make it official—there are no more rollcall votes today. My expectation is the next rollcall vote will be on Monday evening after 6 o'clock. We will set a specific time a little later, but there will be at least a cloture vote on the bill Monday morning, if we have not been able to arrive at any other agreement prior to that time.

Members should be aware they should expect a vote on Monday night, and then certainly Tuesday morning.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DASCHLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECESS SUBJECT TO THE CALL OF THE CHAIR

Mr. DASCHLE. Mr. President, I ask unanimous consent the Senate stand in recess subject to the call of the Chair.

There being no objection, the Senate, at 12:10 p.m., recessed until 1:19 p.m. and reassembled when called to order by the Presiding Officer (Mr. BAYH).

The PRESIDING OFFICER. The Senator from Alaska.

Mr. MURKOWSKI. Mr. President, I ask unanimous consent that I may speak in morning business for about 12 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

ENERGY LEGISLATION AND IRAQ

Mr. MURKOWSKI. Mr. President, this being the first day of March, I remind my colleagues of the schedule before us. We are about 3 weeks away from our 2-week Easter recess. There are many items on the agenda: campaign finance reform; trade authority; stimulus, perhaps; and, of course, the

President's budget, which will take, I am sure, at least a week.

So it is becoming somewhat clear that time is a precious commodity. It is in short supply. I remind my colleagues of commitments made by the majority leader. These were commitments made in good faith about time and about energy, and we have both around this body.

I am reminded of a statement he made on November 27 of last year. I quote:

> I am prepaid to commit to taking up the energy bill prior to the Founders Day recess; that is, during the first work period, between January 22 and the time we break for the Founders Day recess.

Again, on December 3, the majority leader said:

> I have already stated very emphatically my desire to bring up the energy bill prior to the Founders Day recess, to have a good debate, to talk about all of the issues, including those which are controversial. It is my expectation we will do just that.

Again, that was December.

The majority leader says he wants to move an energy bill, but I am afraid we just have not seen the kind of commitment that America expects or that is referenced in our calendar. We spent virtually all day yesterday in quorum calls, morning business, with no votes. We certainly have not done an awful lot this week. I note it is Friday afternoon, and it is pretty lonesome around here. Nevertheless, I do want to bring to everyone's attention the absence of any aggressive timeframe in addressing this energy legislation.

As you know, it was one of our President's priorities. The priorities were energy, a stimulus package, and trade promotion.

To my knowledge, after looking through the RECORD, our debates, so far, have been quite limited. I spoke an hour on it. Senator DASCHLE spoke for some 20 minutes. That was some time ago. I do not think that is an energy debate.

In my view, the leader has been waiting I do not know for what purpose. When will it come up? Perhaps Monday or Tuesday. It probably will not come up Monday; maybe Tuesday. The longer it takes until we can pass an energy bill, the longer our Nation remains vulnerable.

In my opinion, energy dependence is our Achilles' heel. Our enemies are painfully aware of this. We waited too long to deal with bin Laden, we waited too long to deal with al-Qaida, and we are waiting too long to deal with Saddam Hussein.

This is a new month. There is still time and there are still plenty of opportunities to commit to the debate and the vote. But the longer we wait to address our energy security, the tougher it becomes to fix and the greater the risks that we face.

Mr. President, I would also like to call to the attention of my colleagues the dilemma we will face once we get to the bill. This is a very complex bill. It is inferior, in my opinion, because it did not come through the normal course of activities associated with Senate procedure.

Ordinarily, the bill would begin, upon introduction, by being referred to the committee of jurisdiction, the Energy and Natural Resources Committee. The committee would hold hearings. It would take witnesses. It would develop a consensus, and, more importantly, it would provide an education for each member on the intricacies.

We are going to be talking about ANWR. That is a very contentious issue. But equally contentious is going to be CAFE standards. Just what are we going to do to address conservation? And, indeed, at what price?

The electric portion is extraordinarily complicated. We have not had an opportunity for review in the normal process. As a consequence, Members are going to be educated by lobbyists, lobbyists with special interests. I venture to say, three-quarters, if not more, of the membership is not familiar with the terminology used in the electric bill. It is very, very complex.

Our interests, of course, are maintaining an uninterrupted supply of electric energy in this country. We have seen what happened in California. We are going to need more transmission lines, more intra- and interstate activities relative to oversight by FERC. I could go on and on, but I promised to keep my remarks within 12 minutes.

My purpose in bringing this issue up is to make sure every Member understands what we are looking at. We are going to be looking at a bill that has been laid down as the energy bill, without the process of the hearings, without the process of committee action, without the process of Republicans and Democrats having come together on some kind of a consensus about what we could agree or disagree on. That is going to be done on the floor of the Senate, which I think is unfortunate. And I am very critical, very frankly, of the Democratic leader, who made the decision to pull the responsibility away.

We all know why that was done. It was done strictly as a political move, to ensure the issue of ANWR did not come up in the committee, because the votes to pass out a bill with ANWR were clearly within the committee's structure. We had both Democratic and Republican support. As a consequence of this decision, we are left with this rather unusual set of circumstances.

I might say, to some extent, it was also done to the Commerce Committee, which was debating the issue of CAFE standards. It couldn't address it or resolve it. At least they had the authority up to that time. But, anyway, that was pulled from their committee as well from the standpoint of jurisdiction.

So, my point is, we have a process here that is less than traditional. I think it is less than a bipartisan effort in the Senate to try to move a bill.

So the bill has been laid down on the floor by the majority leader, and we will start the process.

As a consequence of that, I think it is also important to recognize the realities.

Yesterday, our brave men and women in uniform were again fired upon. They were fired upon by Saddam Hussein's ground forces. They were threatened. They were attacked. As a consequence, they fired back.

I am not talking about Afghanistan; I am talking about Iraq, a country from which we are currently importing 800,000 barrels of oil a day.

I quote the Associated Press:

> U.S. planes patrolling a no-fly zone over northern Iraq bombed an Iraqi air defense system Thursday in response to Iraqi anti-aircraft fire, the U.S. military said. It is the second time that U.S. planes have bombed Iraqi defense sites in northern Iraq this year.

Well, we are 2 months into this year.

But since the gulf war, in 1992, we have been enforcing a no-fly zone over Iraq to keep Saddam Hussein in check. A no-fly zone is almost an aerial blockade in the sense of comparing it to a sea blockade. It is considered almost an act of war.

It is the second time we have bombed, as I said, and it is only March 1st. So I think we are off to a rather troubling start.

Last year, Iraq shot at U.S. forces, enforcing the no-fly zone, over 400 times. We responded on 23 occasions.

But let's not lose sight that while, on the one hand, we perhaps make a fist at Iraq, on the other hand, we have our hand out taking his oil.

In September 2001, we broke an 11-year-old record, importing more than 1.16 million barrels of oil from Iraq. It was the same time that we had the aircraft used as a weapon in taking down the Twin Towers in New York and the Pentagon and the tragedy that occurred in Pennsylvania. It was the same time.

Where is the synergy? We have given Saddam Hussein more than $4 billion for his oil in the last year. That is a lot of money for an economy that is believed to have a GDP of only about $52 billion.

What does he do with that money? We know he has chemical weapons. He has a chemical weapons program. The reason we know it is because during the Iran-Iraqi war he used it on his own people—his own people—the Kurdish people in northern Iraq.

In fact, he is believed to have sufficient chemicals to produce hundreds of tons of mustard gas, VX, and other nerve agents, as well as 25 missiles and an estimated 15,000 artillery shells capable of the delivery of lethal weapons.

Israel witnessed first hand the reach of his weapons delivery system during the gulf war. We know what happened. We know of missiles that were aimed at Israel. We know he has been working on nuclear weapons because one of his top nuclear engineers defected to the West in 1994 and has given us details of the program.

Over many years, Iraq has worked on a number of occasions to acquire the material and the knowledge to perhaps build some kind of crude nuclear weapon. We can only truly speculate on the extent of his success, but it is commonly believed that an Iraqi nuclear device is inevitable. And if it is not available currently, the question is when?

I think it is fair to say that he is up to no good. We can't say for sure because we haven't had U.N. inspectors in there since 1998. There was a U.N. mandate that we do that. We have not followed through. One can only imagine what he might be able to have accomplished in almost 4 years of seclusion.

As long as we are dependent on sources such as Saddam Hussein for our oil, we will continue to finance the regime of Saddam Hussein. As long as he is in power, he will continue to threaten the world as a member of the axis of evil, which is a quote from our President.

All the tools he needs evidently are now within his grasp. Reducing foreign dependence on oil can reduce the influence and the reach of a Saddam Hussein. The question we have to ask ourselves is, when and if we are going to have to deal with this, what will be the consequences if we wait too long? Will it be another terrorist attack sponsored by Iraq? Will it be another situation where we have something occur that we wish we had taken care of because all the signs were there that this threat was real? Reducing our dependence on a country such as Iraq is going to decrease the supply of oil, so the price is going to go up.

So what do we do? We have domestic opportunities, and some of that will come up in the debate on ANWR, which obviously, as the occupant of the Chair knows, is a conviction I have, that we can open it safely, that it will come on line in roughly 2½ to 3 years, that it would be on line now if President Clinton had not vetoed it in 1995, and that it is a significant supply because it is estimated at somewhere between 6.5 and 16 billion barrels. If it is half that, it would be as big as Prudhoe Bay.

I might add, for the benefit of the Chair, who is not from Texas, I can speculate that there is much more oil in ANWR than in all of Texas.

With that profound statement, I ask unanimous consent that a Washington Post article of Friday, March 1, final edition, be printed in the RECORD, that portion covering Thursday's bombing which comes amid a rising debate on whether Iraq will be the next target of U.S. antiterrorism campaigns. President George Bush "branded Iraq as part of an 'axis of evil' along with Iran and North Korea, and accused it of seeking weapons of mass destruction."

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Mar. 1, 2002]

JETS ON PATROL OVER IRAQ ATTACK AIR DEFENSE SITES

ANKARA (AP).—U.S. planes patrolling a no-fly zone over northern Iraq bombed an Iraqi air defense system Thursday in response to Iraqi anti-aircraft fire, the U.S. military said.

It is the second time that U.S. planes have bombed Iraqi defense sites in northern Iraq this year. The planes dropped bombs on the Iraqi defense system after Iraqi forces north of Mosul fired on them during routine patrols of the zone, the U.S. European Command said in a statement. Mosul is 400 kilometers (250 miles) north of Baghdad.

The planes returned safely to their base at Incirlik, in southern Turkey, the command, which is based in Germany, said.

U.S. and U.K. planes based in southeast Turkey have been flying patrols over northern Iraq since 1991 to protect the Kurdish population from Iraqi forces. Iraq doesn't recognize the zone and has been challenging allied aircraft regularly since 1998.

Thursday's bombing comes amid a rising debate on whether Iraq will be the next target of the U.S. anti-terror campaign. U.S. President George W. Bush branded Iraq as part of an "axis of evil" along with Iran and North Korea, and accused it of seeking weapons of mass destruction.

Turkey, host to the air patrols and a launching pad for strikes against Iraq in the 1991 Gulf War, fears that a war in Iraq could lead to creation of a Kurdish state and boost aspirations of autonomy-seeking Kurds in Turkey.

Mr. MURKOWSKI. I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, the Senator from Alaska, Mr. MURKOWSKI, has come to the floor on several occasions and complained about the manner and method in which Senator BINGAMAN and Senator DASCHLE brought forth the energy bill, which will shortly come before the Senate. They have complained about the path by which it got to the floor. My friend, the Senator from Alaska, says it should have been reported out of the Energy Committee rather than coming to the floor by Senate standing rule XIV.

But, in May of 2000, Senator LOTT moved a Republican bill—the National Energy Security Act of 2000—to the floor by rule XIV.

So when the Senator from Alaska was chair of the Energy Committee and the Republicans were in the majority, they moved the bill to the floor exactly the same way Senator DASCHLE has moved our bill. So the ranking member of the Energy Committee is now complaining of Senator DASCHLE doing exactly the same thing they did. He participated in this when he was chairman of the committee.

It seems the Senator from Alaska is denigrating the example he set last Congress. I guess in the minds of the minority, turnabout is not fair play. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

EQUAL PROTECTION OF VOTING RIGHTS ACT OF 2001

Mr. HARKIN. Mr. President, I would like to clarify some issues related to my amendment that passed the Senate earlier this week regarding the establishment of a protection and advocacy system to ensure that people with disabilities have full and equal access to the election process. Among other provisions, my amendment states that protection and advocacy systems under S. 565 may not resort to litigation when representing persons with disabilities who have been denied equal access to the polling place or to the voting process.

I agreed to this provision with some trepidation, since the protection and advocacy system has a long and well established authority under several federal laws to pursue litigation to enforce the rights of people with disabilities. The protection and advocacy system has proven themselves to be responsible stewards of the public trust we as members of Congress have placed in them in regard to litigation. The protection and advocacy system is known for exhausting all other remedies before resorting to litigation, and in fact less than 5 percent of all cases handled by protection and advocacy systems nationally result in litigation. The vast majority of people with disabilities helped by the protection and advocacy system have their issues resolved through alternative means of dispute resolution such as negotiation and mediation.

And yet the authority to pursue litigation when necessary and when warranted is an essential component of our nation's disability rights system. If we take away the ability of people with disabilities to obtain due process through the courts, we take away the level playing field created by laws such as the Americans with Disabilities Act, the Fair Housing Act, the Individuals with Disabilities Education Act, the Rehabilitation Act, the Developmental Disabilities Act, and others. Because of that, it is essential that protection and advocacy systems retain their current authority to utilize a full array of approaches, including litigation, to carry out their important work as defenders of the rights of people with disabilities. Nothing in my amendment today is intended to undermine that important authority in any other federal laws affecting the protection and advocacy system.

I look forward to continuing in my role as a champion of the protection and advocacy system, and of the rights of people with disabilities.

FIGHTING HATE VIOLENCE

Mr. BIDEN. Mr. President, I rise today to pay homage to the legion of African-American leaders who have made extraordinary contributions to humanity by fighting to secure equality and justice for us all. As a consequence of their valiant efforts, people of color can now enjoy a quality of life, including unprecedented educational and professional opportunities, never before realized. Because of their courage, we all can experience the benefits that flow from building a nation that values the creativity and talent of all her citizens. I am, and we all should be, proud to be the beneficiaries of their heroic acts.

Despite the extraordinary accomplishments of the past century, however, we began this new millennium still burdened by the weight of racial prejudice and the hatred, and sometimes violence, that emanates from it. Based on improved data collection efforts, we now know that far too frequently individuals may be victimized or otherwise targeted for vicious acts, simply because of the color of their skin, or the content of their faith, or because of any number of distinguishing characteristics—differences that should form the basis of our best American values, but instead are used to injure certain individuals and tarnish the American spirit.

Simply stated, hate violence is a scourge on our national consciousness, and the incidents of it are embarrassingly high. Perhaps the best-known racially-motivated hate crime in recent years is the callous killing of James Byrd, who, for no other reason except the color of his skin, was chained to the back of a pickup truck and dragged to his death. Mr. Byrd's death was senseless and shocking, but by no means is it the only example of such a crime. Each year, thousands of Americans are subjected to hate crimes, in perhaps not so savage a manner as Mr. Byrd's murder, but no less cruel and no less harmful.

Consider these numbers: while the overall number of crimes reported to the Federal Bureau of Investigation in 2000 declined slightly, by 0.2 percent, reported hate crimes increased 2.3 percent, from 7,876 in 1999 to 8,063. And by all indicators, those numbers likely underestimate the true magnitude of hate violence in our country. Studies by organizations like the National Organization of Black Law Enforcement Executives have revealed that countless targets of hate violence, some of whom are immigrants who fear reprisals or deportation, decline to report these crimes to the police.

As disturbing as the quantity of hate crimes committed each year, however, is the record number of young people who are perpetrating these crimes. According to a special report by the Federal Bureau of Justice Statistics, from 1997 to 1999, 33 percent of all known hate crime offenders were under the age of 18 years. For that same time period, another 29 percent of all hate crime offenders were 18 to 24 years of age. In total, an alarming 62 percent of all offenders were under the age of 24. When they should be imagining their college years or their early career plans, some kids, sometimes suffering under great mental depression, are instead conjuring up awful acts of hatred.

The damage caused by these crimes cannot be measured solely in terms of the physical injury inflicted or the property costs incurred. The devastation they provoke is far greater and much more destructive. These crimes fragment our society and inspire distrust. They fuel fear and suspicion of groups and communities that are unfamiliar. And, perhaps most fatal, they threaten to stall the important growth and community-building that must transpire for this Nation to retain its standing as a world leader for centuries to come.

If we have learned anything from the tragic events of September 11, it is that we cannot tolerate acts of hatred. We must enable a swift and tough law enforcement response by refining Federal hate crime laws, as well as give our children the tools to confront violent bigotry by providing necessary education and programming.

We can undertake to do nothing more important, nor pay any greater tribute to the heroes we honor during Black History Month, than to fight hate violence in every form and in every way we know. The security and safety of all Americans depend on it.

TRIBUTE TO DAN NAATZ

Mr. THOMAS. Mr. President, I rise today to say goodbye to a good friend of mine, someone who has worked by my side for the last 13 years.

Dan Naatz has been my chief of staff for the last 2 years, but his commitment to me and Wyoming has lasted much longer then that.

I first met Dan back in 1989 when he joined my office in the U.S. House of Representatives. He was one of the first staff members I hired after being elected that year in a special election to fill the seat left open by DICK CHENEY who was nominated to be our Secretary of Defense.

After several years, Dan made the decision to return to school and earn a master's degree from the University of Virginia.

I was disappointed to see him go then, but after he earned that degree I was fortunate enough to convince him to come back and serve as my legislative director.

Dan was with me when I was honored to win a seat in the U.S. Senate in 1994 as well. Our history together goes way back.

It is never easy to lose someone like Dan, who has been with me since the beginning. He has held nearly every position in my office and did them all very well. None better than the job he did of leading my staff and our legislative agenda for Wyoming.

It was inevitable though that Dan would be recognized outside of this body though for his expertise in crafting successful legislation and public policy.

Over the years, he has been a key advisor and good friend.

Particularly, Dan played a significant role in our efforts to reform and strengthen the National Park System.

As Chairman of the Senate Subcommittee on National Parks, he and I spent many hours together, first writing and developing changes that would improve the system for visitors and the valuable resources, and then, as the engine that helped see it through to public law.

I was proud of all the work he did, and he should be proud of the changes he helped make, because they will make a difference for future generations who will visit and experience our parks.

Dan has joined CHEP USA. I wish him and his wife Cindy and their family the best of luck, and I know the Senate body does as well.

PROSECUTING GUN-RELATED CRIMES

Mr. LEVIN. Mr. President, the fight to reduce gun violence must be waged on two fronts. First, we need to keep guns out of the hands of criminals, prevent children from gaining access to firearms and give law enforcement the resources they need to thoroughly investigate gun-related crimes. At the same time, we have to vigorously prosecute criminals who commit gun-related crimes.

According to the 2000 National Crime Victimization Survey, 533,470 victims of rape and sexual assault, robbery and aggravated assault faced a perpetrator with a firearm. The Community Gun Violence Prosecution Program can play a major role in improving prosecution of criminals who commit these gun-related violent crimes by providing funding to hire prosecutors solely to prosecute firearm-related violent crimes. Providing funds to improve prosecution will not only bring felons to justice, but will also act as a deterrent to future crimes.

On Monday, it was announced that the Dickinson County, MI, prosecutors office will receive $119,117 from the U.S. Department of Justice through CGVPP. The grant will be used to hire an assistant prosecutor who will devote his or her time to prosecuting violent crimes committed with a firearm. This grant is the latest of several that prosecutors in Michigan, including Wayne, Muskegon and Ingham County prosecutors, have received to combat and deter gun-related crime. The efforts of prosecutors are critical to getting violent criminals off the streets. However we cannot forget that preventing gun violence ultimately requires that we enact sensible gun-safety legislation.

RECOGNIZING STEWART VERDERY

Mr. ALLEN. Mr. President, I rise today to recognize C. Stewart Verdery, General Counsel to the Assistant Republican Leader, DON NICKLES, and a staffer for the Senate Republican High Tech Task Force, of which I serve as Chair, for his dedicated service to the Senate.

After more than 6 years of serving the U.S. Senate, Stewart Verdery will depart today to join the team at Vivendi Universal here in Washington, D.C. He first served as counsel to my friend from Virginia, Senator JOHN WARNER. Stewart then served as counsel to the Senate Rules Committee, as counsel to the Senate Judiciary Committee, and currently serves as General Counsel to Senator DON NICKLES. Let me take this opportunity to also thank Senator NICKLES for allowing Stewart to dedicate time to the High Tech Task Force and the broader goal of advancing constructive technology policy in the Senate.

As Chairman of the High Tech Task Force, I have come to know Stewart very well over the last year through his role as an advisor to Task Force and to the Republican leadership on technology issues. From the beginning, I have been impressed by his extraordinary command of complex technology issues and, perhaps more important, his ability to succinctly explain the issues to others. His advice and counsel were always sound and thoughtful, and through his effective and friendly manner, he instantly earned the respect of those with whom he worked.

Stewart Verdery played a key role in the transformation of the High Tech Task Force into a lead advocate for the technology-friendly policies in the Senate. With his assistance, my colleagues and I were better prepared to advance a positive technology policy agenda in the Senate last year, including: the passage of a clean, two-year Internet tax moratorium extension; passage of the upgraded Export Administration Act reauthorization; securing additional funding for anti-piracy prosecutions; and the hard-fought effort in the economic stimulus debate to make the Research and Development tax credit permanent, to provide enhanced expensing and to include the broadband tax credit.

I speak for many in the U.S. Senate when I say that we will miss Stewart and his talents. I wish Stewart, his wife Jenny and their two young children, Isabelle and Chase, all the very best health and happiness in their future endeavors.

CAPITOL POLICE CHIEF JAMES VAREY

Mr. HOLLINGS. Mr. President, for the past 17 years, James Varey has served this institution with distinction, and I want to congratulate him and wish him the best in his retirement.

As the Capitol Chief of Police since May 2000, he has been the best of the best at one of the most difficult times in our history. The Capitol Police has never had to respond to the terrible problems we have seen in the last 6 months, be it terrorist threats, or anthrax attacks, but because of the strong leadership at the top, this institution has remained strong and open to the public. The force will miss Chief Varey's great advocacy on their behalf, which resulted in such new resources as the Federal Law Enforcement Training Center. We will certainly miss the friendly spirit he has displayed to the entire Senate family. Most of all, the institution will miss his dedication and hard work.

CELEBRATING WOMEN'S HISTORY MONTH

Mrs. CARNAHAN. Mr. President, when I think of women who have put their stamp on history, I think of so many "Wonder Women" from Lucretia Mott to Eleanor Roosevelt to Sally Ride. While these names are recognizable to all of us, there are others—teachers, mothers, grandmothers—who are unsung heroines. They are women who greatly influenced our lives.

I have also come to admire our 19th-century counterparts—the women who were warriors on the front lines of the slavery, suffrage, and temperance battles. These early advocates of social justice continue to inspire us today. With few resources at their command, they were forced to use the power of ideas to affect change. The pen became a mighty sword; the voice, a thunderous cannon. They shook the 19th century.

Two of these women were contemporaries. They were both reared in New England, were married, had large families and overwhelming personal responsibilities. They were especially sensitive to injustice. Both changed the thinking of the nation on the dominant issues of their day. Beyond that, the similarities cease. One was from a prominent family, the daughter of a renowned clergyman. Unlike most women of her time, she was well-educated—a teacher and a writer. The other woman was a slave, unable to read or write. But she could speak, and did that quite well.

One was Harriet Beecher Stowe, the author of Uncle Tom's Cabin—the woman whose writings did more to arouse the conscience of the nation against slavery than anyone of her day. Harriet had seven children and a husband who was a hypochondriac. He took to his bed whenever there was a crisis in life, leaving her to manage on her own. In spite of the demands on her, Harriet managed to do what she loved most—to write. At the time, women with political opinions were not taken seriously, but that did not prevent her from expressing her ideas. She somehow found time to write—letters, articles, entire books—thirty-three literary works in all. Uncle Tom's Cabin broke all sales records of its day. Her success brought her to the attention of the President of the United States. It is said that Abraham Lincoln referred to her as "the little lady whose book started this big war."

Harriet recognized what women have known for centuries, that there are duties, intrusions, necessary things that lay claim to our time and thoughts. That was certainly true of Isabella Baumfree, the hearty slave woman who faced more than her share of adversity. She was quite a contrast to the very proper, primly dressed, and precisely spoken Mrs. Stowe.

By 1828, New York had abolished slavery. Around the same time, Isabella felt the call to preach. She was 46. She took the name Sojourner Truth because it was her intention to sojourn the land and proclaim the truth. Since she couldn't read the Bible, Isabella had it read to her, and she memorized large portions of it. She dictated her life's story and sold it to support herself. Wherever she spoke, her simple but dynamic message attracted crowds. She confounded the skeptics with plain truth and images from her own life, but critics hounded her. When told that there were threats to burn the auditorium where she was to speak; Sojourner replied, "Let them burn the building and I will speak upon the ashes."

Women of accomplishment have always been adaptive. They find a way when there is no way. They wear many hats. Being generalists, they come at problems from many different perspectives.

A good example of this can be seen in the life of a St. Louis lady by the name of Frances Gage, or Aunt Fanny as she was known in the women's movement. Aunt Fanny loved to give speeches at the women's conventions. She often told her audiences about an incident that had inspired her to become an activist on behalf of women. "At age ten, I made my first barrel. It was a beautiful barrel. The cooper who instructed me told my father, "Fanny made that barrel and has done it quicker and better than any boy I have had after six months training." Fanny beamed with pride as she waited for her father's approval. Instead he shook his head and replied, "What a pity that you were not born a boy so that you could be good for something. Now, run into the house, child, and go back to your knitting."

Having been rejected as a barrel maker, Fanny turned her energy to being a speechmaker for the women's movement. Her desire to make a perfect barrel transferred to a desire to perfect the rights of women. Not only are women adaptive, they are triumphant. Without the traditional power resources—money, position, and prestige they had to rely on their talents and determination.

These women refused to see themselves as too weak, or under-empowered, to make a difference. Their efforts on the critical issues of their time radically changed the course of the nation. They were not just taking political stands—not just writing and speaking about compassion, justice, and mercy. They were engaged in daily acts of human kindness. What they said and what they did matched. These women left their stamp on history with their ability to be adaptive, triumphant, and genuine. They have also left their stamp on us, their 20th- and 21st-century sisters. For these traits are alive and well in women today.

ADDITIONAL STATEMENTS

CONGRATULATING THE MEN'S BASKETBALL TEAM AT THE UNIVERSITY OF WISCONSIN IN MADISON

• Mr. FEINGOLD. Mr. President, today, as a proud alumnus, I congratulate the men's basketball team at the University of Wisconsin in Madison for their victory over the University of Michigan this week. This victory allowed UW's Coach Bo Ryan and his Badgers to claim the Big Ten conference title for the first time since 1947. As a fellow Badger, I am proud of their accomplishment and I look forward to their play in the post season.

This marks the 104th season since the UW-Madison men's basketball program began. From their first season in 1898 to their Cinderella season two years ago, to this week, when they clinched the title, Badger Basketball has more than earned this Big Ten Championship. The people of Wisconsin continue to support and cheer for our Badgers each season. Known as one of the finest institutions of public higher education, UW-Madison also has proven to be a powerhouse in Big Ten sports.

I take great pride in commending our men's basketball team. As a graduate of UW-Madison, I wish Coach Ryan and his Badger team all the best in the upcoming post season. Wisconsin is behind you, and we wish you all the luck. Go Badgers!•

TRIBUTE TO JARAD ROBERT LYONS

• Mr. CAMPBELL. Mr. President, today I want to recognize and congratulate a special Coloradan, Jarad Robert Lyons, for winning the AAA State Wrestling Championship Title in his division.

Jarad, an 18-year-old senior at Ignacio High School, started wrestling at the very early age of 4 in the Pee Wee divisions. He continued his career throughout junior high and high school, and first qualified for the State championships in his junior year in the 136-pound division. He has received numerous awards leading up to this year's State championship, where he qualified in the 145-pound division. He placed first at the Regionals—Southern Region Tournament in Salida, CO. He then took first place at the Ignacio Invitational, first again at the Moab Tournament and first at the Rocky Mountain Invitational, where he was also awarded the Most Valuable Wrestler Award.

Jarad was one of his team's captains this year, and his senior season is a true list of accomplishments. In the last two months alone, he has been named Outstanding Middle Weight Wrestler at the Aztec Duels, Champion at the Rocky Mountain Invitational, Champion at the Moab Tournament, Champion and Outstanding Wrestler at the Ignacio Invitational, League Champion at the Intermountain League, Champion at the Regional Tournament, and then finally, State Champion at the Colorado State Championship tournament for the AAA division which was held the weekend of February 21–23.

Jarad Lyons is, without a doubt, a class act. He is respected by not only his teammates and his coach, but by other coaches in the State as well. He is a compassionate team member, and is willing to help every wrestler on his team, regardless of his experience. He is well known throughout his community, and enjoys the support and well wishes of everyone. People feel they can call him at home, and tell him how proud they are of him. I think this is the mark of a truly special young man.

In his free time, while I know wrestling takes precedence, Jarad also enjoys working on his car, a 1965 Barracuda, which he purchased himself and has rebuilt entirely. He now drives the silver and black pinstriped classic beauty very proudly.

I congratulate Jarad Lyons on his tremendous achievement, and wish him every success in the future. He is an example of the success that hard work and determination bring when we set ourselves to achieving our goals. He is an outstanding young Coloradan and he has earned and deserves our applause and congratulations.•

HONORING DANIEL MAYDAN, ANTI-DEFAMATION LEAGUE'S TORCH OF LIBERTY AWARD RECIPIENT

• Mrs. BOXER. Mr. President, I would like to set aside a moment to reflect on the work of Dr. Daniel Maydan, the latest recipient of the Anti-Defamation League's Torch of Liberty Award. This distinguished honor recognizes those who personify the League's ideals of equality and justice.

Dr. Maydan, President of California-based Applied Materials, is a true leader in the technology industry and broader community. He spearheaded the development of the company's plasma etch technologies, leading to the creation of a manufacturing system central to California's semiconductor industry. This revolutionary technology has been included in the Smithsonian Institution's breakthrough technologies collection.

Bridging the digital divide both at home and abroad, Dr. Maydan helped strengthen Israel's presence in the global economic sphere, earning the Israel Trade and State of Israel Jubilee Awards. In addition, he established scholarship programs at Hebrew University and a Center for Advanced Materials Study at the Israel Institute of Technology to encourage and support others pursuing studies and careers in the sciences. In addition to his many other activities, he serves on the Board of Directors of the San Jose Symphony.

Dr. Maydan has helped shape our technology field and helped make it possible for others to follow his lead. It is clear that he is most worthy of this honor.•

TRIBUTE TO KENTUCKY'S COMMUNITIES

• Mr. BUNNING. Mr. President, today I rise to congratulate 10 Kentucky communities for being named to "Site Selection" magazine's top 100 Small Towns. Site Selection, an Atlanta-based magazine circulated to over 45,000 executives involved in corporate site selection decisions, based its study on how well prepared small towns are to handle businesses searching for new project locations and business ventures. Specifically, each town was judged by the total number of jobs created, the number created on a per capita basis, unemployment rates, and the amount of investments by companies who locate in the community.

The 10 towns in Kentucky named to this noteworthy list are: Bowling Green, Campbellsville, Danville, Bardstown, Frankfort, Elizabethtown, Franklin, Shelbyville, Glasgow, Madisonville, and Lebanon. Through their hard work and commitment to progress, these towns have proven to the business community nationwide that they are more than prepared to take on the many challenges that accompany the opening of new business projects. I take this as an indication of the Commonwealth's commitment to creating a new and better economy for future generations of Kentuckians.

I once again congratulate these 10 communities for this much deserved distinction and thank the men and women living in these towns for continually working toward the greater good of the Commonwealth of Kentucky.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Ms. Evans, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

REPORTS OF COMMITTEES

The following reports of committees were submitted.

By Mr. BAUCUS, from the Committee on Finance, without amendment:

S. 1979: A bill to provide energy tax incentives. (Rept. No. 107–140).

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. LEAHY for the Committee on the Judiciary:

William Smith Taylor, of Alabama, to be United States Marshal for the Southern District of Alabama for the term of four years.

By Mr. BINGAMAN for the Committee on Energy and Natural Resources:

*Raymond L. Orbach, of California, to be Director of the Office of Science, Department of Energy.

*Nomination was reported with recommendation that it be confirmed subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

(Nominations without an asterisk were reported with the recommendation that they be confirmed.)

NOMINATION DISCHARGED

The following nomination was discharged from the Committee on Health, Education, Labor, and Pensions pursuant to the order of March 1, 2002:

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

Leslie Silverman, of Virginia, to be a Member of the Equal Employment Opportunity Commission for the remainder of the term expiring July 1, 2003.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. HUTCHINSON:

S. 1978. A bill to amend title I of the Employee Retirement Income Security Act of 1974 and the Internal Revenue Code of 1986 to promote the provision of retirement investment advice to workers managing their retirement income assets; to the Committee on Health, Education, Labor, and Pensions.

By Mr. BAUCUS:

S. 1979. A bill to provide energy tax incentives; from the Committee on Finance; placed on the calendar.

By Mrs. BOXER:

S. 1980. A bill to require a training program for all airline personnel responsible for checking passenger identification, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mrs. BOXER:

S. 1981. A bill to enhance penalties for fraud in connection with identification documents that facilitates an act of domestic terrorism; to the Committee on the Judiciary.

ADDITIONAL COSPONSORS

S. 653

At the request of Mr. BAYH, the name of the Senator from Iowa (Mr. HARKIN) was added as a cosponsor of S. 653, a bill to amend part D of title IV of the Social Security Act to provide grants to States to encourage media campaigns to promote responsible fatherhood skills, and for other purposes.

S. 999

At the request of Mr. BINGAMAN, the names of the Senator from Colorado (Mr. CAMPBELL) and the Senator from Pennsylvania (Mr. SPECTER) were added as cosponsors of S. 999, a bill to amend title 10, United States Code, to provide for a Korea Defense Service Medal to be issued to members of the Armed Forces who participated in operations in Korea after the end of the Korean War.

S. 1476

At the request of Mr. CLELAND, the name of the Senator from Wisconsin (Mr. FEINGOLD) was added as a cosponsor of S. 1476, a bill to authorize the President to award a gold medal on behalf of the Congress to Reverend Doctor Martin Luther King, Jr. (posthumously) and his widow Coretta Scott King in recognition of their contributions to the Nation on behalf of the civil rights movement.

S. 1677

At the request of Mr. BINGAMAN, the name of the Senator from Rhode Island (Mr. REED) was added as a cosponsor of S. 1677, a bill to amend title I of the Employee Retirement Income Security Act of 1974 to create a safe harbor for retirement plan sponsors in the designation and monitoring of investment advisers for workers managing their retirement income assets.

S. RES. 185

At the request of Mr. ALLEN, the name of the Senator from New Mexico (Mr. BINGAMAN) was added as a cosponsor of S. Res. 185, a resolution recognizing the historical significance of the 100th anniversary of Korean immigration to the United States.

S. RES. 207

At the request of Mr. BINGAMAN, the names of the Senator from Virginia (Mr. ALLEN), the Senator from Indiana (Mr. BAYH), the Senator from California (Mrs. BOXER), the Senator from Washington (Ms. CANTWELL), the Senator from Georgia (Mr. CLELAND), the Senator from Maine (Ms. COLLINS), the Senator from Illinois (Mr. DURBIN), the Senator from California (Mrs. FEINSTEIN), the Senator from Michigan (Mr. LEVIN), the Senator from Washington (Mrs. MURRAY), the Senator from Florida (Mr. NELSON), the Senator from Oregon (Mr. SMITH), the Senator from Maine (Ms. SNOWE), the Senator from Minnesota (Mr. WELLSTONE), and the Senator from Oregon (Mr. WYDEN) were added as cosponsors of S. Res. 207, a resolution designating March 31, 2002, and March 31, 2003, as "National Civilian Conservation Corps Day."

S. RES. 209

At the request of Mr. SMITH of New Hampshire, the name of the Senator from Colorado (Mr. ALLARD) was added as a cosponsor of S. Res. 209, a resolution to express the sense of the Senate regarding prenatal care for women and children.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. HUTCHINSON:

S. 1978. A bill to amend title I of the Employee Retirement Income Security Act of 1974 and the Internal Revenue Code of 1986 to promote the provision of retirement investment advice to workers managing their retirement income assets; to the Committee on Health, Education, Labor, and Pensions.

Mr. HUTCHINSON. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1978

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Retirement Security Advice Act of 2002".

SEC. 2. PROHIBITED TRANSACTION EXEMPTION FOR THE PROVISION OF INVESTMENT ADVICE.

(a) Amendments to the Employee Retirement Income Security Act of 1974.—

(1) Exemption from prohibited transactions.—Section 408(b) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1108(b)) is amended by adding at the end the following new paragraph:

"(14)(A) Any transaction described in subparagraph (B) in connection with the provision of investment advice described in section 3(21)(A)(ii), in any case in which—

"(i) the investment of assets of the plan is subject to the direction of plan participants or beneficiaries,

"(ii) the advice is provided to the plan or a participant or beneficiary of the plan by a fiduciary adviser in connection with any sale, acquisition, or holding of a security or other property for purposes of investment of plan assets, and

"(iii) the requirements of subsection (g) are met in connection with the provision of the advice.

"(B) The transactions described in this subparagraph are the following:

"(i) the provision of the advice to the plan, participant, or beneficiary;

"(ii) the sale, acquisition, or holding of a security or other property (including any lending of money or other extension of credit associated with the sale, acquisition, or holding of a security or other property) pursuant to the advice; and

"(iii) the direct or indirect receipt of fees or other compensation by the fiduciary adviser or an affiliate thereof (or any employee, agent, or registered representative of the fiduciary adviser or affiliate) in connection with the provision of the advice or in connection with a sale, acquisition, or holding of a security or other property pursuant to the advice.".

(2) Requirements.—Section 408 of such Act is amended by adding at the end the following new subsection:

"(g) Requirements Relating to Provision of Investment Advice by Fiduciary Advisers.—

"(1) In general.—The requirements of this subsection are met in connection with the provision of investment advice referred to in section 3(21)(A)(ii), provided to an employee benefit plan or a participant or beneficiary of an employee benefit plan by a fiduciary adviser with respect to the plan in connection with any sale, acquisition, or holding of a security or other property for purposes of investment of amounts held by the plan, if—

"(A) in the case of the initial provision of the advice with regard to the security or other property by the fiduciary adviser to the plan, participant, or beneficiary, the fiduciary adviser provides to the recipient of the advice, at a time reasonably contemporaneous with the initial provision of the advice, a written notification (which may consist of notification by means of electronic communication)—

"(i) of all fees or other compensation relating to the advice that the fiduciary adviser or any affiliate thereof is to receive (including compensation provided by any third party) in connection with the provision of the advice or in connection with the sale, acquisition, or holding of the security or other property,

"(ii) of any material affiliation or contractual relationship of the fiduciary adviser or affiliates thereof in the security or other property,

"(iii) of any limitation placed on the scope of the investment advice to be provided by the fiduciary adviser with respect to any such sale, acquisition, or holding of a security or other property,

"(iv) of the types of services provided by the fiduciary adviser in connection with the provision of investment advice by the fiduciary adviser, and

"(v) that the adviser is acting as a fiduciary of the plan in connection with the provision of the advice,

"(B) the fiduciary adviser provides appropriate disclosure, in connection with the sale, acquisition, or holding of the security or other property, in accordance with all applicable securities laws,

"(C) the sale, acquisition, or holding occurs solely at the direction of the recipient of the advice,

"(D) the compensation received by the fiduciary adviser and affiliates thereof in connection with the sale, acquisition, or holding of the security or other property is reasonable, and

"(E) the terms of the sale, acquisition, or holding of the security or other property are at least as favorable to the plan as an arm's length transaction would be.

"(2) Standards for presentation of information.—The notification required to be provided to participants and beneficiaries under paragraph (1)(A) shall be written in a clear and conspicuous manner and in a manner calculated to be understood by the average plan participant and shall be sufficiently accurate and comprehensive to reasonably apprise such participants and beneficiaries of the information required to be provided in the notification.

"(3) Exemption conditioned on continued availability of required information on request for 1 year.—The requirements of paragraph (1)(A) shall be deemed not to have been met in connection with the initial or any subsequent provision of advice described in paragraph (1) to the plan, participant, or beneficiary if, at any time during the provision of advisory services to the plan, participant, or beneficiary, the fiduciary adviser fails to maintain the information described in clauses (i) through (iv) of subparagraph (A) in currently accurate form and in the manner described in paragraph (2) or fails—

"(A) to provide, without charge, such currently accurate information to the recipient of the advice no less than annually,

"(B) to make such currently accurate information available, upon request and without charge, to the recipient of the advice, or

"(C) in the event of a material change to the information described in clauses (i) through (iv) of paragraph (1)(A), to provide, without charge, such currently accurate information to the recipient of the advice at a time reasonably contemporaneous to the material change in information.

"(4) Maintenance for 6 years of evidence of compliance.—A fiduciary adviser referred to in paragraph (1) who has provided advice referred to in such paragraph shall, for a period of not less than 6 years after the provision of the advice, maintain any records necessary for determining whether the requirements of the preceding provisions of this subsection and of subsection (b)(14) have been met. A transaction prohibited under section 406 shall not be considered to have occurred solely because the records are lost or destroyed prior to the end of the 6-year period due to circumstances beyond the control of the fiduciary adviser.

"(5) Exemption for plan sponsor and certain other fiduciaries.—

"(A) In general.—Subject to subparagraph (B), a plan sponsor or other person who is a fiduciary (other than a fiduciary adviser) shall not be treated as failing to meet the requirements of this part solely by reason of the provision of investment advice referred to in section 3(21)(A)(ii) (or solely by reason of contracting for or otherwise arranging for the provision of the advice), if—

"(i) the advice is provided by a fiduciary adviser pursuant to an arrangement between the plan sponsor or other fiduciary and the fiduciary adviser for the provision by the fiduciary adviser of investment advice referred to in such section,

"(ii) the terms of the arrangement require compliance by the fiduciary adviser with the requirements of this subsection, and

"(iii) the terms of the arrangement include a written acknowledgment by the fiduciary adviser that the fiduciary adviser is a fiduciary of the plan with respect to the provision of the advice.

"(B) Continued duty of prudent selection of adviser and periodic review.—Nothing in subparagraph (A) shall be construed to exempt a plan sponsor or other person who is a fiduciary from any requirement of this part for the prudent selection and periodic review of a fiduciary adviser with whom the plan sponsor or other person enters into an arrangement for the provision of advice referred to in section 3(21)(A)(ii). The plan sponsor or other person who is a fiduciary has no duty under this part to monitor the specific investment advice given by the fiduciary adviser to any particular recipient of the advice.

"(C) Availability of plan assets for payment for advice.—Nothing in this part shall be construed to preclude the use of plan assets to pay for reasonable expenses in providing investment advice referred to in section 3(21)(A)(ii).

"(6) Definitions.—For purposes of this subsection and subsection (b)(14)—

"(A) Fiduciary adviser.—The term 'fiduciary adviser' means, with respect to a plan, a person who is a fiduciary of the plan by reason of the provision of investment advice by the person to the plan or to a participant or beneficiary and who is—

"(i) registered as an investment adviser under the Investment Advisers Act of 1940 (15 U.S.C. 80b-1 et seq.) or under the laws of the State in which the fiduciary maintains its principal office and place of business,

"(ii) a bank or similar financial institution referred to in section 408(b)(4),

"(iii) an insurance company qualified to do business under the laws of a State,

"(iv) a person registered as a broker or dealer under the Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.),

"(v) an affiliate of a person described in any of clauses (i) through (iv), or "(vi) an employee, agent, or registered representative of a person described in any of clauses (i) through (v) who satisfies the requirements of applicable insurance, banking, and securities laws relating to the provision of the advice.

"(B) AFFILIATE.—The term 'affiliate' of another entity means an affiliated person of the entity (as defined in section 2(a)(3) of the Investment Company Act of 1940 (15 U.S.C. 80a–2(a)(3))).

"(C) REGISTERED REPRESENTATIVE.—The term 'registered representative' of another entity means a person described in section 3(a)(18) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(18)) (substituting the entity for the broker or dealer referred to in such section) or a person described in section 202(a)(17) of the Investment Advisers Act of 1940 (15 U.S.C. 80b–2(a)(17)) (substituting the entity for the investment adviser referred to in such section).".

(b) AMENDMENTS TO THE INTERNAL REVENUE CODE OF 1986.—

(1) EXEMPTION FROM PROHIBITED TRANSACTIONS.—Subsection (d) of section 4975 of the Internal Revenue Code of 1986 (relating to exemptions from tax on prohibited transactions) is amended—

(A) in paragraph (14), by striking "or" at the end;

(B) in paragraph (15), by striking the period at the end and inserting "; or"; and

(C) by adding at the end the following new paragraph:

"(16) any transaction described in subsection (f)(7)(A) in connection with the provision of investment advice described in subsection (e)(3)(B), in any case in which—

"(A) the investment of assets of the plan is subject to the direction of plan participants or beneficiaries,

"(B) the advice is provided to the plan or a participant or beneficiary of the plan by a fiduciary adviser in connection with any sale, acquisition, or holding of a security or other property for purposes of investment of plan assets, and

"(C) the requirements of subsection (f)(7)(B) are met in connection with the provision of the advice.".

(2) ALLOWED TRANSACTIONS AND REQUIREMENTS.—Subsection (f) of such section 4975 (relating to other definitions and special rules) is amended by adding at the end the following new paragraph:

"(7) PROVISIONS RELATING TO INVESTMENT ADVICE PROVIDED BY FIDUCIARY ADVISERS.—

"(A) TRANSACTIONS ALLOWABLE IN CONNECTION WITH INVESTMENT ADVICE PROVIDED BY FIDUCIARY ADVISERS.—The transactions referred to in subsection (d)(16), in connection with the provision of investment advice by a fiduciary adviser, are the following:

"(i) the provision of the advice to the plan, participant, or beneficiary;

"(ii) the sale, acquisition, or holding of a security or other property (including any lending of money or other extension of credit associated with the sale, acquisition, or holding of a security or other property) pursuant to the advice; and

"(iii) the direct or indirect receipt of fees or other compensation by the fiduciary adviser or an affiliate thereof (or any employee, agent, or registered representative of the fiduciary adviser or affiliate) in connection with the provision of the advice or in connection with a sale, acquisition, or holding of a security or other property pursuant to the advice.

"(B) REQUIREMENTS RELATING TO PROVISION OF INVESTMENT ADVICE BY FIDUCIARY ADVISERS.—The requirements of this subparagraph (referred to in subsection (d)(16)(C)) are met in connection with the provision of investment advice referred to in subsection (e)(3)(B), provided to a plan or a participant or beneficiary of a plan by a fiduciary adviser with respect to the plan in connection with any sale, acquisition, or holding of a security or other property for purposes of investment of amounts held by the plan, if—

"(i) in the case of the initial provision of the advice with regard to the security or other property by the fiduciary adviser to the plan, participant, or beneficiary, the fiduciary adviser provides to the recipient of the advice, at a time reasonably contemporaneous with the initial provision of the advice, a written notification (which may consist of notification by means of electronic communication)—

"(I) of all fees or other compensation relating to the advice that the fiduciary adviser or any affiliate thereof is to receive (including compensation provided by any third party) in connection with the provision of the advice or in connection with the sale, acquisition, or holding of the security or other property,

"(II) of any material affiliation or contractual relationship of the fiduciary adviser or affiliates thereof in the security or other property,

"(III) of any limitation placed on the scope of the investment advice to be provided by the fiduciary adviser with respect to any such sale, acquisition, or holding of a security or other property,

"(IV) of the types of services provided by the fiduciary adviser in connection with the provision of investment advice by the fiduciary adviser, and

"(V) that the adviser is acting as a fiduciary of the plan in connection with the provision of the advice,

"(ii) the fiduciary adviser provides appropriate disclosure, in connection with the sale, acquisition, or holding of the security or other property, in accordance with all applicable securities laws,

"(iii) the sale, acquisition, or holding occurs solely at the direction of the recipient of the advice,

"(iv) the compensation received by the fiduciary adviser and affiliates thereof in connection with the sale, acquisition, or holding of the security or other property is reasonable, and

"(v) the terms of the sale, acquisition, or holding of the security or other property are at least as favorable to the plan as an arm's length transaction would be.

"(C) STANDARDS FOR PRESENTATION OF INFORMATION.—The notification required to be provided to participants and beneficiaries under subparagraph (B)(i) shall be written in a clear and conspicuous manner and in a manner calculated to be understood by the average plan participant and shall be sufficiently accurate and comprehensive to reasonably apprise such participants and beneficiaries of the information required to be provided in the notification.

"(D) EXEMPTION CONDITIONED ON MAKING REQUIRED INFORMATION AVAILABLE ANNUALLY, ON REQUEST, AND IN THE EVENT OF MATERIAL CHANGE.—The requirements of subparagraph (B)(i) shall be deemed not to have been met in connection with the initial or any subsequent provision of advice described in subparagraph (B) to the plan, participant, or beneficiary if, at any time during the provision of advisory services to the plan, participant, or beneficiary, the fiduciary adviser fails to maintain the information described in subclauses (I) through (IV) of subparagraph (B)(i) in currently accurate form and in the manner required by subparagraph (C), or fails—

"(i) to provide, without charge, such currently accurate information to the recipient of the advice no less than annually,

"(ii) to make such currently accurate information available, upon request and without charge, to the recipient of the advice, or

"(iii) in the event of a material change to the information described in subclauses (I) through (IV) of subparagraph (B)(i), to provide, without charge, such currently accurate information to the recipient of the advice at a time reasonably contemporaneous to the material change in information.

"(E) MAINTENANCE FOR 6 YEARS OF EVIDENCE OF COMPLIANCE.—A fiduciary adviser referred to in subparagraph (B) who has provided advice referred to in such subparagraph shall, for a period of not less than 6 years after the provision of the advice, maintain any records necessary for determining whether the requirements of the preceding provisions of this paragraph and of subsection (d)(16) have been met. A transaction prohibited under subsection (c)(1) shall not be considered to have occurred solely because the records are lost or destroyed prior to the end of the 6-year period due to circumstances beyond the control of the fiduciary adviser.

"(F) EXEMPTION FOR PLAN SPONSOR AND CERTAIN OTHER FIDUCIARIES.—A plan sponsor or other person who is a fiduciary (other than a fiduciary adviser) shall not be treated as failing to meet the requirements of this section solely by reason of the provision of investment advice referred to in subsection (e)(3)(B) (or solely by reason of contracting for or otherwise arranging for the provision of the advice), if—

"(i) the advice is provided by a fiduciary adviser pursuant to an arrangement between the plan sponsor or other fiduciary and the fiduciary adviser for the provision by the fiduciary adviser of investment advice referred to in such section,

"(ii) the terms of the arrangement require compliance by the fiduciary adviser with the requirements of this paragraph,

"(iii) the terms of the arrangement include a written acknowledgment by the fiduciary adviser that the fiduciary adviser is a fiduciary of the plan with respect to the provision of the advice, and

"(iv) the requirements of part 4 of subtitle B of title I of the Employee Retirement Income Security Act of 1974 are met in connection with the provision of such advice.

"(G) DEFINITIONS.—For purposes of this paragraph and subsection (d)(16)—

"(i) FIDUCIARY ADVISER.—The term 'fiduciary adviser' means, with respect to a plan, a person who is a fiduciary of the plan by reason of the provision of investment advice by the person to the plan or to a participant or beneficiary and who is—

"(I) registered as an investment adviser under the Investment Advisers Act of 1940 (15 U.S.C. 80b–1 et seq.) or under the laws of the State in which the fiduciary maintains its principal office and place of business,

"(II) a bank or similar financial institution referred to in subsection (d)(4),

"(III) an insurance company qualified to do business under the laws of a State,

"(IV) a person registered as a broker or dealer under the Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.),

"(V) an affiliate of a person described in any of subclauses (I) through (IV), or

"(VI) an employee, agent, or registered representative of a person described in any of subclauses (I) through (V) who satisfies the requirements of applicable insurance, banking, and securities laws relating to the provision of the advice.

"(ii) AFFILIATE.—The term 'affiliate' of another entity means an affiliated person of the entity (as defined in section 2(a)(3) of the Investment Company Act of 1940 (15 U.S.C. 80a–2(a)(3))).

"(iii) REGISTERED REPRESENTATIVE.—The term 'registered representative' of another entity means a person described in section 3(a)(18) of the Securities Exchange Act of 1934 (15 U.S.C. 78c(a)(18)) (substituting the entity for the broker or dealer referred to in such section) or a person described in section 202(a)(17) of the Investment Advisers Act of 1940 (15 U.S.C. 80b–2(a)(17)) (substituting the entity for the investment adviser referred to in such section)."

By Mrs. BOXER:

S. 1980. A bill to require a training program for all airline personnel responsible for checking passenger identification, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mrs. BOXER:

S. 1981. A bill to enhance penalties for fraud in connection with identification documents that facilitates an act of domestic terrorism; to the Committee on the Judiciary.

Mrs. BOXER. Mr. President, today I am introducing two bills to help prevent terrorists from using false identification to gain access to our Nation's airports and airplanes.

The tragic events of September 11 taught our Nation and the world a very harsh lesson about the safety of our skies. Congress responded by drafting and passing legislation to ensure enhanced security at our airports and on our airplanes. I worked hard with my colleagues on the Senate Commerce Committee to increase the security of our Nation's skies, and we succeeded in passing an airline security bill.

However, there is still more we can do. Current law does not go far enough when it comes to guarding against the use of fake IDs by terrorists. The importance of this fact cannot be underestimated. As we now know, some of the terrorists who hijacked the planes on September 11 did indeed use fake IDs to board the planes. My two bills include three "T"'s to prevent terrorists from using false identification—technology, training, and tough sentences.

First, the legislation I am introducing today will mandate training for airline personnel who are responsible for checking the identification of passengers.

Second, my legislation would provide technology to catch fraudulent IDs. It would require the placement of ID technology in every airport across the Nation. This technology would check the validity of passengers' IDs, and could also include optical or facial scanners to determine if an individual is in a terrorist database. These technologies are out there, they're ready for use, and our airports should be using them starting now.

Finally, I propose legislation to mandate prison time for anyone who produces, transfers, possesses, or uses a fake ID in connection with terrorism. Currently, in Federal law, there is no mandatory imprisonment for the production, transfer, possession, or use of a fake ID. Under any circumstances, even in relation to terrorist acts. This, to me, seems wrong. If you at any point and time facilitate an act of terrorism by providing someone with a fake ID, making a fake ID, possessing a fake ID, or using that fake ID, you should go to jail. Period. My bill makes sure that principle is reflected in Federal law.

Last, my bill closes the loophole that punishes people for fake IDs used in acts of international terrorism, but not domestic terrorism. Under the USA PATRIOT Act the Congress passed last year, a definition of "domestic terrorism" was added to the criminal code. My bill makes sure that fake ID offenses related to domestic terrorism get the same punishment as those relating to international terrorism.

It simply is not enough to have sporadic safeguards in a handful of airports. The bills I am introducing today will help close loopholes that currently serve as wide open doors for terrorists.

AMENDMENTS SUBMITTED AND PROPOSED

SA 2964. Mr. GRASSLEY submitted an amendment intended to be proposed to amendment SA 2885 submitted by Mr. GRASSLEY and intended to be proposed to the bill (S. 565) to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting, and election administration, to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table.

SA 2965. Mr. GRASSLEY submitted an amendment intended to be proposed to amendment SA 2885 submitted by Mr. GRASSLEY and intended to be proposed to the bill (S. 565) supra; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 2964. Mr. GRASSLEY submitted an amendment intended to be proposed to amendment SA 2885 submitted by Mr. GRASSLEY and intended to be proposed to the bill (S. 565) to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting and election administration to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

(4) INTERACTION WITH FEDERAL INFORMATION.—

(A) ACCESS TO FEDERAL INFORMATION.—

(i) IN GENERAL.—Notwithstanding any other provision of law, the Commissioner of Social Security, the Attorney General, and the Commissioner of the Immigration and Naturalization Service shall provide, upon request from a State or locality maintaining a computerized centralized list implemented under paragraph (1), only such information as is necessary to determine the eligibility of an individual to vote in such State or locality under the law of the State or locality. Any State or locality that receives information under this clause may only share such information with election officials.

(ii) PROCEDURE.—The records under clause (i) shall be provided in such place and such manner as the applicable agency head determines appropriate to protect and prevent the misuse of information.

(iii) DUPLICATIVE INFORMATION.—If a State or locality is provided with access to applicable records under clause (i), any other State or locality may access such records through the State or locality that had access to the records under such clause.

(B) APPLICABLE RECORDS.—For purposes of this subsection, the term "applicable records" means—

(i) in the case of the Commissioner of Social Security, information needed to verify—

(I) the social security number of an individual; or

(II) whether such individual is shown on the records of the Commissioner of Social Security as being alive or deceased;

(ii) in the case of the Commissioner of the Immigration and Naturalization Service, information needed to verify whether or not an individual is a citizen of the United States or lawfully admitted for permanent residence; and

(iii) in the case of the Attorney General, information regarding felony convictions of individuals.

(C) EXCEPTION.—Subparagraph (A) shall not apply to any request for a record of an individual if the applicable agency head determines there are exceptional circumstances warranting an exception (such as safety of the individual or interference with an investigation).

SA 2965. Mr. GRASSLEY submitted an amendment intended to be proposed to amendment SA 2885 submitted by Mr. GRASSLEY and intended to be proposed to the bill (S. 565) to establish the Commission on Voting Rights and Procedures to study and make recommendations regarding election technology, voting and election administration to establish a grant program under which the Office of Justice Programs and the Civil Rights Division of the Department of Justice shall provide assistance to States and localities in improving election technology and the administration of Federal elections, to require States to meet uniform and nondiscriminatory election technology and administration requirements for the 2004 Federal elections, and for other purposes; which was ordered to lie on the table; as follows:

In lieu of the matter proposed to be inserted, insert the following:

(4) INTERACTION WITH FEDERAL INFORMATION.—

(A) ACCESS TO FEDERAL INFORMATION.—

(i) IN GENERAL.—Notwithstanding any other provision of law, the Commissioner of Social Security, the Attorney General, and the Commissioner of the Immigration and Naturalization Service shall provide, upon request from a State or locality maintaining a computerized centralized list implemented under paragraph (1), only such information as is necessary to determine the eligibility of an individual to vote in such State or locality under the law of the State or locality. Any State or locality that receives information under this clause may only share such information with election officials.

(ii) PROCEDURE.—The information under clause (i) shall be provided in such place and such manner as the applicable agency head determines appropriate to protect and prevent the misuse of information.

(iii) DUPLICATIVE INFORMATION.—If a State or locality is provided with applicable information under clause (i), any other State or locality may access such information through the State or locality that was provided with information under such clause.

(B) APPLICABLE INFORMATION.—For purposes of this subsection, the term "applicable information" means—

(i) in the case of the Commissioner of Social Security, information regarding whether—

(I) the name and social security number of an individual provided to the Commissioner match the information contained in the Commissioner's records; or

(II) such individual is shown on the records of the Commissioner as being deceased;

(ii) in the case of the Commissioner of the Immigration and Naturalization Service, information needed to verify whether or not an individual is a citizen of the United States or lawfully admitted for permanent residence; and

(iii) in the case of the Attorney General, information regarding felony convictions of individuals.

(C) EXCEPTION.—Subparagraph (A) shall not apply to any request for a record of an individual if the applicable agency head determines there are exceptional circumstances warranting an exception (such as safety of the individual or interference with an investigation).

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. DURBIN. Mr. President, I ask unanimous consent that the Senate Committee on Energy and Natural Resources be authorized to hold a business meeting during the session of the Senate on Friday, March 1, in the morning at a time to be announced. The purpose of the business meeting is to consider the committee views and estimates on the fiscal year 2003 budget, and Dr. Raymond L. Orbach's nomination to be Director of the Office of Science, Department of Energy.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON GOVERNMENTAL AFFAIRS

Mr. DURBIN. Mr. President, I ask unanimous consent that the Committee on Governmental Affairs' Subcommittee on International Security, Proliferation and Federal Services be authorized to meet on Friday, March 1, 2002, at 10 a.m. for a hearing regarding "U.S. Policy in Iraq: Next Steps."

The PRESIDING OFFICER. Without objection, it is so ordered.

FOREIGN CURRENCY REPORTS

In accordance with the appropriate provisions of law, the Secretary of the Senate herewith submits the following report(s) of standing committees of the Senate, certain joint committees of the Congress, delegations and groups, and select and special committees of the Senate, relating to expenses incurred in the performance of authorized foreign travel:

CONSOLIDATED REPORT OF EXPENDITURE OF FUNDS FOR FOREIGN TRAVEL BY MEMBERS AND EMPLOYEES OF THE U.S. SENATE, UNDER AUTHORITY OF SEC. 22, P.L. 95–384—22 U.S.C. 1754(b), COMMITTEE ON ARMED SERVICES FOR TRAVEL FROM OCT. 1 TO DEC. 31, 2001

TRENT LOTT,
Republican Leader.

EXECUTIVE SESSION

NOMINATION DISCHARGED

Mr. REID. Mr. President, I ask unanimous consent that the Senate proceed to executive session; that the HELP Committee be discharged from further consideration of the following nomination, and that the Senate proceed to its consideration: Leslie Silverman, to be a member of the Equal Employment Opportunity Commission; further, that the nomination be confirmed, the motion to reconsider be laid upon the table, any statements relating to the nomination be printed in the RECORD, the President be immediately notified of the Senate's action, and the Senate return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nomination was considered and confirmed, as follows:

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

Leslie Silverman, of Virginia, to be a Member of the Equal Employment Opportunity Commission for the remainder of the term expiring July 1, 2003.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will now return to legislative session.

UNANIMOUS CONSENT AGREEMENT—S. 565

Mr. REID. Mr. President, I ask unanimous consent that the motion to proceed to the motion to reconsider be agreed to; that the motion to reconsider be agreed to; and that at 6 p.m., Monday, March 4, there be 15 minutes for debate, equally debated and controlled by Senators DODD and MCCONNELL, or their designees; that at 6:15 p.m., the Senate vote on the motion to invoke cloture on S. 565; further, that Senators have until 5:15 p.m. on Monday to file second-degree amendments.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDERS FOR MONDAY, MARCH 4, 2002

Mr. REID. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until the hour of 4 p.m., Monday, March 4. I further ask unanimous consent that following the prayer and the pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, and the time for the two leaders be reserved for their use later in the day, and there be a period for morning business until 6 p.m., with Senators permitted to speak for up to 10 minutes each, with the time equally divided between the two leaders, or their designees; further, at 6 p.m., the Senate resume consideration of the election reform bill.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. REID. Mr. President, the next rollcall vote will occur at 6:15 p.m. on Monday on cloture on the election reform bill.

ELECTION REFORM

Mr. REID. Mr. President, I see the manager of the election reform bill coming into the Chamber. He has worked so hard on it. In fact, he worked last night and is still working on it. I am glad he has come out of the bowels of the Senate where he has been working and has come to the Senate Chamber. I would be glad to hear from the Senator from Connecticut.

Mr. DODD. Mr. President, I thank my colleague from Nevada, the distinguished Democratic majority assistant floor leader, for yielding.

To give some flavor and idea about where this is, let me thank, first of all, Senator DASCHLE, the majority leader. His patience—I may be testing it. I hope I am not. I have such deep affection for my leader, and he has been generous beyond belief, and his staff's cooperation has been just stunning. I want to publicly thank them.

I thank my Republican colleagues. I thank Senator LOTT as well. I know he is feeling a certain amount of pressure from his Members, too. I know there are other issues with which this body needs to grapple in debate on. I am very in tune with that desire. It certainly was not our intent that this matter end up taking as long as it has. In fact, I had predicted it might take substantially less time. However, howwe ended up—when we have a matter such as this one cannot accurately predict with any certainty what is going to happen. Actually, we ended up in a logjam earlier this week on the Schumer-Wyden amendment, with Senator BOND and other Members.

I am prepared to say we are literally attempting to resolve this issue as I speak. We do not have it in writing yet in final form. It appears that we are not going to have it this afternoon based on my conversations. I thank the staffs of Senator MCCONNELL and Senator BOND. Both Brian Lewis and Leon Sequeira of Senator MCCONNELL's office and Julie Dammann and Jack Bartling of Senator BOND's office have been very supportive and helpful. I thank particularly Senator BOND's staff, Jack Bartling, who worked with me last night until almost midnight to try to work out appropriate language. Again, today we have spent any number of hours in our cloakrooms trying to come together with some bipartisan language that is very important to those of us who are interested in completing action on this compromise election reform bill.

There has been concern this bill might die because we have not been able to resolve certain issues. That is not going to happen today. This bill is going to be resolved, in my view, by Monday night or Tuesday morning at the latest. Then we will be able to get on to other business in the Senate.

We do not have a unanimous consent request to that effect, and I have urged not to propose one. I do not want to find myself having the UC become a vehicle for some people taking advantage of these circumstances.

I think the managers of the bill on the minority side are committed to getting this bill done. I thank them for that. We have come a long way. We have some amendments yet to resolve. We have not voted on everything. However, we will on Monday consider remaining amendments and work on some compromise where needed. Over the weekend, the staffs will be finalizing some language, and then on Monday night we have a cloture vote, as I understand it, at 6:15 p.m. My hope is that, regardless of the outcome of that cloture vote, we will then consider amendments that evening with the possibility of stacking some votes Tuesday morning. This will be considered in light of the fact that some Members may not be back even for the cloture vote on Monday night.

We would accommodate them in such a way that we would have the stacked votes, go to third reading, and complete work on this bill by Tuesday morning. That is my desire. I further believe it is the desire of Senator MCCONNELL and the desire of Senator BOND and others who have been involved with this process. That is not a suggestion that they would accept the unanimous consent request to provide for such. However, I believe their intent and their desire is to mutually achieve the same goal as I seek to achieve.

In this body, the Senate works on comity. We look each other in the eye and we make commitments to each other to the extent we can fulfill them. I still believe this may be one of the few institutions left in America where you do not need a written contract to achieve those agreements. So I am working on the assumption that my colleagues are as committed as I am to seeing this unique and historic legislation become the law of the land with respect to the administration of elections for Federal office.

I apologize to my colleagues for taking so much time. I am sorry it has gone to this length. However, when you are legislating in something this unique and this novel, that goes to the very heart of who we are as a democracy and how we cast and count our ballots for the most important offices in our land, then there are an awful lot of people who are at the table. Even the legislative process is inclusive, not exclusive.

The Presiding Officer on several occasions has been in the chair. I say to my colleagues, he knows these matters that have been discussed over the last number of days. He is a former secretary of state. He knows these issues as well as anyone—in fact, better than anyone in the Chamber probably, given his most recent work in the area. So he knows when I speak that there is deep interest at a local level from all the local election administrators and officials in this subject matter. I do not have to mention that this is also the case for all the secretaries of state across the country, obviously all of us in the Senate, the people in the other Chamber, and people at the White House.

There are a lot of people who are at the table when you are discussing the future of how elections are going to be conducted in light of what happened in the November 2000 elections for Federal office and what had occurred in previous Presidential elections. So this is a major undertaking. It is not an annual appropriations bill. It is a fundamental change in how we are going to do some things with respect to Federal elections. We think we have been inclusive and worked in a very cooperative fashion with our States and localities. I should have maybe anticipated it might have taken a bit more time. I guess my optimism for the bill exceeded my ability to see how many people would like to be heard and offer ideas to the underlying proposal we brought to the Chamber now 2 weeks ago.
